(Ord. CS-437 § 3, 2022)

**§ 18.04.035. Section 109 (Fees) of the California Building Code amended.**

- A. Section 109.1.1 is added to read as follows:

**109.1.1 Building permit fee.**

A building permit fee, in an amount established by fee resolution of the City Council, shall be paid for administrative processing and building inspections prior to issuing a building permit.

- B. Section 109.1.2 is added to read as follows:

**109.1.2 Plan check fee.**

A building plan check fee, or deposit review fee, in an amount established by the fee resolution of the City Council, shall be paid when plans or documents are required to be submitted for review prior to issuing a building permit. Depending on the complexity and quality of the documentation being submitted, the final plan check fee to be paid may exceed the amount of the fee deposited to the jurisdiction. The building official may require additional charges for review required by changes, additions, or revisions of approved plans or reports, and for services beyond the first and second check due to changes, omissions, or errors on the part of the property owner or permit applicant. The payment of said fees shall not exempt any person from compliance with other provisions of this code.

- C. Section 109.3 is amended to read as follows:

**109.3 Building permit valuations.**

The applicant for a permit shall provide an estimated permit value at time of application. Permit valuations shall include total value of the work, including materials and labor, for which the permit is being issued, as well as all finish work such as painting, roofing, electrical, gas, mechanical, plumbing equipment and permanent systems. If, in the opinion of the building official, the valuation is underestimated on the application, the permit shall be denied, unless the applicant can show detailed estimates to meet the approval of the building official. Final building permit valuation shall be set by the building official. For purposes of determining a permit fee amount, valuation or value shall be based upon either the actual contract price for the work to be permitted or shall be determined with the use of the current "ICC Building Valuation Data" as published by the International Code Council, whichever is higher.

- D. Section 109.4 is amended to read as follows:

**109.4 Other fees.**

The jurisdiction, by fee resolution, shall charge and collect other fees for services performed related to building permits issued pursuant to this code, and for such other building, construction, and development regulations as may be incorporated in this code. Fees associated with any action taken or required pursuant to this section shall be assessed in accordance with the provisions of this section and the fee resolution.

**109.4.1 Work commencing before permit.**

Any person who commences any work on a building, structure, electrical, gas, mechanical or plumbing system before obtaining the necessary permits shall be subject to a fee equal to the amount of the permit fee that is required by this code.

**109.4.2 Investigation fees.**

Whenever any work for which a permit is required by this code has been commenced without first obtaining said permit, a special investigation fee may be required and be collected, whether or not a permit is subsequently issued. The minimum investigation fee shall be equal to the amount established by fee resolution of the City Council, whether a permit is required or not. The payment of such investigation fee shall not exempt a person from compliance with other provisions of this code, nor from a penalty prescribed by local ordinance or other applicable law.

**109.4.3 Preliminary review fees.**

Upon payment of a preliminary review fee, a property owner or permit applicant may have a building, a structure, or other specialty code requirements reviewed by the building official prior to submittal of a permit application. Such fee shall be based on the hourly rate for the purposes of cost recovery. All charges must be paid at the conclusion of any such meeting and before any written findings are issued.

**109.4.4 Reinspection fees.**

A reinspection fee may be assessed for each inspection or reinspection when such portion of work for which inspection is called is not complete or when corrections called for are not made. Reinspection fees may also be assessed when the inspection record card is not posted or otherwise available on the work site, the approved plans are not readily available to the inspector, for failure to provide access on the date for which the inspection is requested, or for deviating from the plans requiring approval of the building official. In instances where reinspection fees have been assessed, additional inspection of the work will not be performed until the required fees have been paid. The fee for each reinspection

shall be established by fee resolution of the City Council.

#### **109.4.5 Development impact fees.**

This section applies to development fees imposed by the jurisdiction for the purpose of financing capital improvements and public facilities, the need for which is attributable to such development. The provisions of this section do not apply to taxes or special assessments levied by the jurisdiction.

1. The amount of the fees due to jurisdiction shall be based on the development fee schedule in effect at the time of payment. The amount of the development impact fee established by fee resolution of the City Council, ordinance, or other applicable law shall not exceed the estimated cost of providing the proposed development with the service or facility for which the development impact fee is imposed.
2. No building permit shall be issued until all applicable development impact fees due for the development project have been paid or secured through a recorded agreement with the jurisdiction, unless payment at a later time is mandated by Government Code Section 66007 or otherwise permitted by local ordinance or other applicable law of the jurisdiction.
3. When applicable development impact fees are to be calculated during the building permit process or prior to the issuance of a building permit, it shall mean the building permit is approved by the building official and is ready to issue.
4. No temporary or final certificate of occupancy or permanent connection to utilities may be granted until all development fees have been paid in full.

(Ord. CS-437 § 3, 2022)

#### **§ 18.04.040. Section 110 (Inspections) of the California Building Code amended.**

- A. Section 110.1.1 is added to read as follows:

##### **110.1.1 Preconstruction meetings/inspections.**

The building official may be contacted by a property owner or permit holder to arrange a pre-construction meeting involving contractors, engineer of record, architects, and any other essential project participants. The meeting may be used to clarify areas of responsibility, to establish lines of communication to be used by all involved parties through the inspection process, and to answer questions about complex construction details and project phasing. For cost recovery purposes, the building official may charge their fully burdened hourly rate for time spent arranging, preparing, and participating in such meetings.

- B. Section 110.3.1 is amended to read as follows:

##### **110.3.1 Footing and foundation inspection.**

Footing and foundation inspections shall be made after excavations footings are complete and any required reinforcing steel is in place. For concrete foundations, any required forms shall be in place prior to inspection. Materials for the foundation shall be on the job. Except where concrete is ready mixed in accordance with ASTM C94, the concrete need not be on the job.

A California State licensed surveyor is required to certify the location and setbacks of new construction prior to the first foundation inspection if the proposed building or structure is located five feet or closer to an adjacent property line. A copy of the certification shall be available to the building

official prior to the first inspection. Prior to the approval of any foundation inspection the permit holder shall submit the setback certification that certifies by field measurement that the location of the building meets or exceeds the minimum setback distance as shown on the approved building plan set.

Pad and elevation certification information pursuant to Section 107.2.9 of this code shall be maintained onsite and available to the building official at the foundation inspection. The building official may require top of form elevation certification prior to placing concrete for slabs.

- C. Section 110.4 is amended to read as follows:

**110.4 Inspection agencies.**

The building official is authorized to accept reports of approved inspection agencies, licensed engineers, licensed contractors or other qualified individuals, provided that such agencies, licensed professionals or individuals satisfy the requirements as to qualifications and reliability.

- D. Section 110.7 is added to read as follows:

**110.7 Building service equipment and utility connections.**

Building service equipment regulated by the technical codes shall not be connected to the water, fuel or power supply, or sewer system until authorized by the building official. At the building official's discretion, the building official is authorized to release the utilities for a project prior to completion and prior to applicable city/county function approvals. When utilities are released prior to completion and prior to approvals by all applicable city/county departments, the property owner and/or permit holder shall agree, in writing, on a form provided by the building official, that the building or structure will not be occupied until released by all applicable city/county functions.

Following a natural disaster or emergency, the building official may issue such permits deemed necessary to restore a previous legal use or to allow temporary occupancy of a site, prior to the primary use being re-established.

- E. Section 110.8 is added to read as follows:

**110.8 Prior to release of occupancy of a building or structure.**

When the building or structure is ready for final inspection and occupancy pursuant to Section 111 of this code, the property owner or permit holder shall notify the building official. The building official will coordinate with other appropriate city/county functions described in Section 110.7 of this code, as amended, so they may verify compliance with all laws and ordinances they are charged with enforcing.

Passing final inspection or the final approval of the building official on the building permit inspection card does not constitute approval to occupy the structure.

(Ord. CS-437 § 3, 2022)

**§ 18.04.045. Section 111 (Certificate of Occupancy) of the California Building Code amended.**

- A. Section 111.1 is amended to read as follows:

**111.1 Requirements for occupancy.**

This section of the code is applicable to the following building permit application types: (1) new

nonresidential buildings or structures; (2) new residential dwellings; (3) other buildings and structures to be initially occupied or used; and (4) tenant improvements or building or structure additions with a change in use or change in occupancy to a different group or division of occupancy. In these instances, a building or structure shall not be used or occupied in whole or in part, and a change of occupancy of a building or structure or portion thereof shall not be made, until the building official has issued a certificate of occupancy therefor as provided herein.

Issuance of a certificate of occupancy shall not be construed as an approval of a violation of the provisions of this code or other applicable laws or ordinances of the jurisdiction. Certificates presuming to give authority to violate or cancel the provisions of this code or other applicable laws or ordinances of the jurisdiction shall not be valid.

Exceptions:

1. Unless it is specifically required by other provisions of this code, no existing building or portion thereof shall require a certificate of occupancy provided the division of occupancy therein is the same for which the original building permit was issued.
2. Certificates of occupancy are not required for work exempt from permits in accordance with Section 105.2.
3. Certificates of occupancy are not required for new non-habitable accessory buildings or structures.
4. Shell buildings have no portion approved for occupancy and generally do not comply with the specific requirements of any group or division of occupancy. Therefore, a certificate of occupancy may not be issued for a shell building. In lieu of a certificate of occupancy, a final inspection report is issued to signify completion of a building or structure exclusive of interior build out by a tenant or a property owner.

- B. Section 111.2 is amended to read as follows:

**111.2 Certificate of occupancy issued.**

After the building official conducts a final inspection of the building or structure and does not find violations of the provision of this code or other laws that are enforced by the department of building safety, the building official shall issue a certificate of occupancy within one business day in accordance with this section.

When a new certificate of occupancy is issued, it shall supersede every certificate previously issued for that portion of the building or structure described thereon. If no new certificate is required, the existing certificate on file will remain in effect. Duplicates of a previously issued certificate may be secured upon the payment of the duplication fee as set forth in a fee resolution of the City Council.

**111.2.1 Requirements to obtain a certificate of occupancy.**

The building official shall issue the certificate of occupancy when all of the following conditions have been satisfied:

1. A request for the certificate of occupancy has been accepted by the jurisdiction.
2. The applicable structural work and all electrical, plumbing, and mechanical systems serving the area to be occupied are completed and approved

3. Fire protection systems are completed, fully operable, tested, and approved in the area requested for occupancy.
4. Each structural best management practices (BMP) has been completed and is operating in compliance with all of its specifications, plans, permits, ordinances, and the requirements of the MS4 Permit.
5. All public utilities as required by Section 110.7 are fully operable, tested, and approved to serve the area requested for occupancy.
6. Certificate fees specified by a fee resolution of the City Council are collected.
7. The building or structure does not contain any violations of the provisions of this code.
8. All required permits of entitlement are effective and any applicable conditions are satisfied.

**111.2.2 Minimum information to be provided on the certificate of occupancy.**

The building official shall issue a certificate of occupancy that contains the following:

1. The building permit number.
2. The address of the building or structure.
3. The name and address of the owner or the owner's authorized agent.
4. A description of that portion for the structure for which the certificate is issued.
5. A statement that the described portion of the structure has been inspected for compliance with the requirements of this code for the occupancy and division of occupancy and the use for which the proposed occupancy is classified.
6. The name of the building official.
7. The edition of the code under which the permit was issued.
8. The use and occupancy in accordance with the provisions of Chapter 3. (The occupancy load only needs to be shown for assembly occupancies.)
9. The type of construction as defined in Chapter 6.
10. The design occupant load.
11. If an automatic sprinkler system is provided, whether the sprinkler system is required.
12. Any special stipulations and conditions of the building permit.

**111.2.3 Limitations.**

A certificate of occupancy is a declaration that the building or structure substantially complies with the plans and specifications that have been submitted to, and approved by, the jurisdiction. A certificate is no guarantee of building quality or compliance with other local ordinances and applicable laws, other than documenting compliance with this code at the time the certificate was issued.

- C. Section 111.3 is amended to read as follows:

**111.3 Temporary occupancy.**

If the building official finds that no substantial hazard will result from occupancy of any building or portion thereof before all constructive work covered by the permit is completed, the building official may issue a temporary certificate of occupancy for the use of a portion or portions of a building

or structure prior to the completion of the entire building or structure. This temporary occupancy is intended to apply to the building or business owner(s) or tenants and not for members of the public. The building official may authorize the temporary connection of the building or system service equipment to the utility source of energy for the purpose of testing building service equipment, or for use under a temporary certificate of occupancy.

For cost recovery purposes, the building official will charge their fully burdened hourly rate for the time spent on processing the request and issuing the temporary certificate. Upon receipt of such request and payment of a cost recovery fee, the building official shall issue a temporary certificate that contains the same information as listed in California Building Code Section 111.2.2, as amended.

### **111.3.1 Temporary certificate criteria.**

Upon receipt of a request for a temporary certificate of occupancy and when the certificate fee has been paid, the building official may issue a temporary certificate of occupancy. The following items will be considered by the building official before a temporary certificate of occupancy is issued:

1. The scope of the remaining work and its impact on the use of space.
2. How the space will be maintained safe and accessible while the remaining work is completed.
3. The timeframe needed to complete the remaining work.
4. Whether approvals from other city departments and divisions are required prior to the issuance of a temporary certificate of occupancy including: a) Planning; b) Engineering/ Public Works; c) Fire Prevention; and d) Water and Sewer.

### **111.3.2 Time period.**

The building official shall set a time period during which the temporary certificate of occupancy is valid. A temporary certificate of occupancy shall be valid for a period not to exceed 180 days. Additional temporary certificates of occupancy may be issued, if the application is approved by the building official. Upon expiration of a temporary certificate of occupancy, the building or structure shall require a certificate of occupancy in accordance with other provisions in this code. A violation of a condition of temporary occupancy shall constitute cause to revoke or suspend the temporary certificate of occupancy.

(Ord. CS-437 § 3, 2022)

## **§ 18.04.050. Section 112 (Service Utilities) of the California Building Code amended.**

Section 112.4 is added to read as follows:

### **112.4 Authority to condemn building service equipment.**

When any building service equipment is maintained in violation of the technical codes and in violation of a notice issued pursuant to the provisions of this section, the building official shall institute appropriate action to prevent, restrain, correct, or abate the violation. When the building official ascertains that building service equipment regulated in the technical codes has become hazardous to life, health, or property, or has become unsanitary, the building official shall order in writing that such equipment either be removed or restored to a safe or sanitary condition, as appropriate. The written notice shall fix a time limit for compliance with such order. Defective building service equipment shall not be maintained after receiving such notice.

#### **112.4.1 Connection after order to disconnect.**

Persons shall not make connections from an energy, fuel, or power supply nor supply energy or fuel to building service equipment which has been disconnected or ordered to be disconnected by the building official, or the use of which has been ordered to be discontinued by the building official, until the building official authorizes the reconnection and use of such equipment.

(Ord. CS-437 § 3, 2022)

**§ 18.04.055. Section 113 (Board of Appeals) of the California Building Code amended.**

- A. Section 113.1 is amended to read as follows:

**113.1 General.**

In order to hear and decide appeals of orders, decisions or determinations made by the building official relative to the application and interpretation of this code, its amendments and building requirements of the jurisdiction, there shall be and is hereby created a Board of Appeals.

- B. Section 113.3 is amended to read as follows:

**113.3 Qualifications and membership.**

The Board of Appeals shall consist of members who are qualified by experience and training to pass on matters and reach decisions on matters pertaining to building construction and applicable building codes, local ordinances, and other applicable law. The Board shall include five regular members, consisting of the building official from the cities of Oceanside, Encinitas, Vista, San Marcos, and Escondido. Voting members of the Board shall not be employees or residents of the jurisdiction whose building official made the determination or took the action that is being appealed. The term shall be considered indefinite provided that the person is authorized and directed by one of the aforementioned jurisdictions to carry out the functions of that jurisdiction's building division. Three members shall constitute a quorum for the transaction of business, and three affirmative votes shall be necessary to render a decision. The members of the Board shall serve without compensation and will not be reimbursed for their service.

**113.3.1 Standing committee.**

The Board of Appeals shall have no regular meetings, and all meetings shall be special meetings noticed pursuant to Government Code Section 54956. The Board shall be considered a "standing committee" with a continuing subject matter jurisdiction. The Board shall meet when an appeal is filed pursuant to this section; or as called upon by the building official to provide advisory comments regarding issues related to this code, such as the potential adoption of new codes or alternative methods and materials.

**113.3.2 Hearing examiner or chairperson.**

The Board of Appeals may temporarily select one member to serve as a hearing examiner or chairperson to conduct a hearing and to report the Board's findings. The examiner hearing the case shall exercise all powers relating to the conduct of hearings until a decision is made on the appeal and the business of the meeting has concluded.

- C. Section 113.4 is added to read as follows:

**113.4 Secretary.**

The building official shall be an ex officio member and shall act as the secretary to the Board of

Appeals and shall keep the minutes thereof but shall have no vote upon any matter before the Board. All meetings of the Board shall be conducted pursuant to the terms of this section and called, noticed, held, and conducted in accordance with the provisions of the Ralph M. Brown Act (Government Code Sections 54950 et seq.).

- D. Section 113.5 is added to read as follows:

**113.5 Appeal to the Board of Appeals.**

Within 10 calendar days from the date the building official's decision was issued, any interested person or entity dissatisfied with the decision may file with the City Clerk a written appeal to the Board of Appeals specifying the reasons for the appeal, together with an appeal fee established by resolution of the City Council. Any appellant who is financially unable to pay the required appeal fee may file a written request for an appeal fee hardship waiver. The written request must be filed prior to or contemporaneous with the filing of the appeal. The appellant requesting the appeal fee hardship waiver shall indicate on the written appeal that an appeal fee hardship waiver request has been filed. The hardship waiver shall be considered by the city pursuant to the standards in Carlsbad Municipal Code section 1.10.120. Failure of any person or entity to file a timely appeal in accordance with this section shall constitute a waiver of the right to an appeal hearing and the building official's decision or action shall become final.

- E. Section 113.6 is added to read as follows:

**113.6 Hearing and conduct.**

As soon as practicable after receiving the written appeal and appeal fee, the Board shall fix a date, time, and place for the hearing of the appeal by the Board. The Board shall hold a public hearing on the matter within 60 days of the filing of the written appeal, or as soon thereafter as a quorum can be assembled. Written notice of the time and place of the hearing shall be given at least 10 days prior to the date of the hearing to each appellant and any interested parties of record discovered through reasonable diligence, through either personal service or first-class mail, each appellant at the address shown on the appeal, and to the interested parties of record at the parties' last known address. Notice by mail shall be deemed effective on the date of deposit.

Hearings before the Board shall be open to the public. The appellant, the building official and any person whose interests are affected shall be given an opportunity to be heard. Only those matters or issues specifically raised by the appellant shall be considered in the hearing of the appeal.

The Board of Appeals may continue the hearing for good cause.

- F. Section 113.7 is added to read as follows:

**113.7 Decision.**

The Board of Appeals shall hear the matter and approve, disapprove, or modify the decision of the building official. The Board of Appeals shall make written findings and render a written decision on each appeal which it hears; and shall cause a copy of same to be furnished to the appellant, to the building official, and to any person requesting it. The Board's written determination shall be final. There is no further administrative appeal.

- G. Section 113.8 is added to read as follows:

**113.8 Effect of building official's decision during appeal period.**

Except for orders issued by the building official because of conditions that represent an immediate threat to life or safety of the public or adjacent properties, enforcement of any notice and order of the building official shall be stayed during the pendency of an appeal therefrom which is properly and timely filed.

(Ord. CS-437 § 3, 2022)

**§ 18.04.060. Section 114 (Violations) of the California Building Code amended.**

- A. Section 114.5 is added to read as follows:

**114.5 Non-issuance.**

Except as otherwise provided in this code, no permit required by this title shall be issued to a permit applicant, and no final inspection shall be made for a property owner or permit holder, in connection with any premises or portion thereof upon which there exists a violation of any local ordinance or other applicable law. The building official may withhold building permits or other approvals for any reconstruction, rehabilitation, repair, alteration, addition, or other improvement pertaining to any existing or new building or structures on a property, or any permits pertaining to the use and development of the real property or the structure, which are subject to an administrative or other enforcement action if a request to appeal the action has not been timely filed; or after an appeal has been filed and a hearing officer affirms the enforcement officer's enforcement action; or if a notice of pending administrative enforcement action or other notice has been recorded against the property pursuant to the procedures set forth in the Carlsbad Municipal Code or other applicable law. The jurisdiction may withhold permits until the violation has been corrected, or if applicable, until a certificate of compliance or notice of release has been recorded against the property.

**114.5.1 Issuance for corrective action.**

At the discretion of the building official, building permits or certificates of occupancy may be issued to property owners or permit applicants in connection with any premises or portion thereof on which there exists a violation of a local ordinance or other applicable law when such permits are required to abate or remedy a violation of a local ordinance or other applicable law and the permits are immediately necessary to protect public health, safety, or welfare.

- B. Section 114.6 is added to read as follows:

**114.6 Certificate of noncompliance.**

If the building official determines there is a violation of this code, and the violation has been noticed or cited but not appealed, the building official may file, in the office of the County Recorder, a certificate of noncompliance against the property where the building or structure is located. The noticing, issuance, appeal procedures, and recording of the certificate of noncompliance shall comply with the requirements of Carlsbad Municipal Code section 1.10.050 for a notice of pending administrative enforcement action.

If a certificate of noncompliance is filed, and where the required permit, inspection, and/or approval required is obtained, the building official shall file a certificate of compliance with the County Recorder certifying compliance of the property. Until a certificate of compliance has been filed, all applications for grading permits, use permits, major and minor subdivisions, rezones, specific plans, specific plan amendments, general plan amendments, discretionary approvals and building permits for the property may be denied.

(Ord. CS-437 § 3, 2022)

**§ 18.04.065. Section 115 (Stop Work Order) of the California Building Code amended.**

Section 115.3 is amended to read as follows:

**115.3 Unlawful continuance.**

Any person who shall continue any work after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, or that removes a posted stop work order without written consent of the building official, shall be subject to the penalties prescribed by Carlsbad Municipal Code Chapter 1.08 and Section 1.10.020 pertaining to stop work orders. (Ord. CS-437 § 3, 2022)

**§ 18.04.070. Section 116 (Unsafe Structures and Equipment) of the California Building Code amended.**

Section 116.1.1 is added to read as follows:

**116.1.1 Appendages and structural members.**

Parapet walls, cornices, spires, towers, and other appendages or structural members which are supported by, attached to, or part of a building or structure and which are in a deteriorated condition or otherwise unable to sustain the design loads which are specified in this code are hereby designated as unsafe building appendages.

(Ord. CS-437 § 3, 2022)

**§ 18.04.075. (Reserved)****§ 18.04.080. Section 1206 (Sound Transmission) of the California Building Code amended.**

A. Section 1206.4.1 is added to read as follows:

**1206.4.1 When within the noise impact boundary of an airport or freeway.**

Any new residence or addition of one or more habitable rooms to an existing residence located within the noise impact boundary of an airport or freeway must be designed to ensure that internal noise levels due to airport or freeway operations do not exceed 45 dB. This standard may be satisfied by performing the acoustical analysis described in section 1206.4.2 or by employing the prescribed construction methods described in section 1206.4.3.

For purposes of this section 1206, a noise impact boundary of an airport or freeway shall be all areas adjacent to an airport or freeway with a 65 dB or higher noise exposure. Noise exposure areas, contour lines or zones shall be identified on an existing noise contour map adopted by the jurisdiction, such as the existing noise contour map included as a figure or map in the Noise Element portion of the jurisdiction's General Plan.

For purposes of this section 1206, "freeway" shall mean expressways with controlled access and shall include Interstate 5 (I-5) and State Route 78 (SR-78).

B. Section 1206.4.2 is added to read as follows:

**1206.4.2 Acoustical analysis.**

A building permit application for a new residence or addition of one or more habitable rooms to an

existing residence located within the noise impact boundary of an airport or freeway must comply with the minimum noise insulation performance standards established in this section if it includes an acoustical analysis demonstrating that the proposed design will ensure that internal noise levels due to aircraft or freeway noise will not exceed 45 dB CNEL. The acoustical analysis shall be proven to meet the standard by providing post-construction/pre-occupancy acoustic measurement to verify compliance with the 45 dB standard. The building official has the discretion to implement policies that meet the intent of this code section.

1. The acoustical analysis must be prepared by a person experienced in the field of acoustical engineering. The analysis must consider and include: the topographical relationship between aircraft and freeway noise sources and the dwelling site, the characteristics of those noise sources, predicted noise spectra and levels at the exterior of the dwelling site, the basis for this prediction (measured or obtained from published data), the noise insulation measures to be employed, and the effectiveness of the proposed noise insulation measures.
2. If the interior allowable noise levels are to be met by requiring that windows be unopenable or closed, the design for the structure must also specify a ventilation or air-conditioning system to provide a habitable interior environment, having at least two air exchanges per hour for the affected rooms. The ventilation system must not compromise the interior room noise reduction.

C. Section 1206.4.3 is added to read as follows:

**1206.4.3 Prescribed construction methods.**

A building permit application for a new residence or addition of one or more habitable rooms to an existing residence located within the noise impact boundary of an airport or freeway must comply with the minimum noise insulation performance standards established in this section if the design incorporates the following construction methods:

1. Construction methods in the 70 dB and greater noise zone.
  - a. Exterior walls. Buildings and structures in LDN contours 70 dB and greater shall conform to the requirements for LDN contour 65 dB to 70 dB.
  - b. Exterior Windows. 1) Openable windows: all openable windows in the exterior walls of habitable rooms must have a laboratory sound transmission class rating of at least STC 40 dB and must have an air infiltration rate of no more than 0.5 cubic feet per minute when tested according to ASTM E-283. 2) Fixed Windows: all fixed windows in the exterior walls of habitable rooms must: i) have a sound transmission class rating of at least STC 40 dB, ii) or must be 5/8-inch laminated glass with STC rating of 40 dB and must be set in non-hardening glazing materials, or iii) must be glass block at least 3 1/2 inches thick. 3) The total areas of glazing in rooms used for sleeping must not exceed 20% of the wall area.
  - c. Exterior Doors. 1) Exterior hinged doors to habitable rooms that are directly exposed to aircraft or freeway noise and are facing the source of the noise must be a door and edge seal assembly that has a laboratory sound transmission class of at least STC 40 dB. 2) Exterior hinged doors to habitable rooms that are not directly exposed to aircraft or freeway noise and do not face the source of the noise must have a minimum STC rating of 35 dB. 3) Sliding glass doors in habitable rooms must not be allowed in walls that are directly exposed to aircraft or freeway noise. Sliding glass doors in walls that are not directly exposed must have an STC rating of at least 40 dB. 4) Access doors from an attached garage to the interior of a residence must have an STC rating of at least 30 dB.

- d. Roof/Ceiling Construction. Buildings and structures in LDN contours 70 dB and greater shall conform to the requirements for LDN contour 65 dB to 70 dB.
  - e. Ventilation. Buildings and structures in LDN contours 70 dB and greater shall conform to the requirements for LDN contour 65 dB to 70 dB.
2. Construction Methods in the 65 dB to 70 dB noise zone
- a. Exterior Walls. New walls that form the exterior portion of habitable rooms must be constructed as follows: 1) Studs must be at least 4 inches in nominal depth. 2) Exterior finish must be stucco, minimum 7/8-inch thickness, brick veneer, masonry, or any siding material allowed by this code. Wood or metal siding must be installed over 1/2-inch solid sheathing. 3) Masonry walls with a surface weight of less than 40 pounds per square foot will require an interior studwall that is finished with at least 5/8-inch thick gypsum wallboard or plaster. 4) Wall insulation must be at least R-11 glass fiber or mineral wool and must be installed continuously throughout the stud space. 5) Exterior solid sheathing must be covered with overlapping asphalt felt. 6) Interior wall finish must be at least 5/8-inch thick gypsum wallboard or plaster.
  - b. Exterior Windows. 1) Openable Windows: All openable windows in the exterior walls of habitable rooms must have a laboratory sound transmission class rating of at least STC 35 dB and must have an air infiltration rate of no more than 0.5 cubic feet per minute when tested according to ASTM E-283. 2) Fixed Windows: All fixed windows in the exterior walls of habitable rooms must be at least 1/4-inch thick and must be set in non-hardening glazing materials. 3) The total area of glazing in rooms used for sleeping must not exceed 20% of the floor area.
  - c. Exterior Doors. 1) Exterior hinged doors to habitable rooms that are directly exposed to aircraft or freeway noise and are facing the source of the noise must be a door and edge seal assembly that has a laboratory sound transmission class of at least STC 35 dB. 2) Exterior hinged doors to habitable rooms that are not directly exposed to aircraft or freeway noise and do not face the source of the noise must have a minimum STC rating of 30 dB. 3) Sliding glass doors in habitable rooms must have glass that is 1/4-inch thick. 4) Access doors from a garage to a habitable room must have an STC rating of at least 30 dB.
  - d. Roof/Ceiling Construction. 1) Roof rafters must have a minimum slope of 4:12 and must be covered on their top surface with minimum 1/2-inch solid sheathing and any roof covering allowed by this code. 2) Attic insulation must be batt or blow-in glass fiber or mineral wool with a minimum R-30 rating applied between the ceiling joists. 3) Attic ventilation must be: i) gable vents or vents that penetrate the roof surface that are fitted with transfer ducts at least 6 feet in length that are insulating flexible ducting or metal ducts containing internal 1-inch thick coated fiberglass sound absorbing duct liner. Each duct must have a lined 90-degree bend in the duct so that there is no direct line of sight from the exterior through the duct into the attic; or ii) noise control louver vents; or iii) eave vents that are located under the eave overhang. 4) Ceilings must be finished with gypsum board or plaster that is at least 5/8-inch thick. 5) Skylights must penetrate the ceiling by means of a completely enclosed light well that extends from the roof opening to the ceiling opening. A secondary openable glazing panel must be mounted at the ceiling line and must be glazed with at least 3/16-inch plastic, tempered or laminated glass. The weather-side skylight must be any type that is permitted by the building code.
  - e. Ventilation. 1) A ventilation system must be provided that will provide at least the

minimum air circulation and fresh air supply requirements of this code in each habitable room without opening any window, door or other opening to the exterior. All concealed ductwork must be insulated flexible glass fiber ducting that is at least 10 feet long between any two points of connection. 2) Kitchen cooktop vent hoods must be the non-ducted recirculating type with no ducted connection to the exterior.

D. Section 1206.4.4 is added to read as follows:

**1206.4.4 Complaints.**

Where a complaint as to noncompliance with this section requires a field test, the complainant shall post a bond or adequate funds in escrow for the cost of the field test in an amount as required per fee resolution of the City Council. Such costs shall be chargeable to the complainant if the field tests show compliance with this division. If the tests show noncompliance, testing costs shall be borne by the property owner or builder.

(Ord. CS-437 § 3, 2022)

**§ 18.04.085. Section 1501 (General) of the California Building Code amended.**

Section 1501.1 is amended to read as follows:

**1501.1 Scope.**

The provisions of this chapter shall govern the design, materials, construction and quality of roof assemblies, and rooftop structures.

1. Roofing assemblies, roof coverings, and roof structures shall be as specified in this code and as otherwise required by local ordinance or applicable law.
2. Roofing assemblies and roof coverings other than wood shakes and shingles shall be Class A fire rated.
3. Wood shakes and shingles of any classification are prohibited as a roof covering on all structures and on all replacement roofs.
4. Roof coverings shall be secured or fastened to the supporting roof construction and shall provide weather protection for the building at the roof.
5. Skylights shall be constructed as required in Chapter 24 of this code. Use of plastics in roofs shall comply with Chapter 26 of this code. Solar photovoltaic energy collectors located above or upon a roof shall be class A fire rated.

(Ord. CS-437 § 3, 2022)

**§ 18.04.090. Section 1505 (Fire Classification) of the California Building Code amended.**

Section 1505.9 is amended to read as follows:

**1505.9 Rooftop mounted photovoltaic (PV) panel systems.**

Rooftop mounted photovoltaic (PV) panel systems shall be tested, listed and identified with a fire classification of A, in accordance with UL 2703. Listed systems shall be installed in accordance with the manufacturers installation instructions and their listing.

(Ord. CS-437 § 3, 2022)

**§ 18.04.095. Street name signs.**

All private and public streets within the city shall have designated street names which shall be identified by signs. The size and type of street signs and the names of streets shall be subject to the approval of the city planning division, and the police and fire departments. Location and number of signs shall be as required by the city.

(Ord. CS-437 § 3, 2022)

## CHAPTER 18.05 BUILDING PERMIT MORATORIUM

### **§ 18.05.010. Purpose and intent.**

- A. The city, by contract, owns certain capacity rights in the Encina Water Pollution Control Facility. The City Council has received a series of reports indicating that after taking into account the amount of sewer capacity required for building permits in process, governmental projects, certain city contractual obligations, and other matters, the city had reached its capacity rights in the Encina facility. It is not possible for the city to exceed that capacity without violating provisions of federal and state law and its contractual obligations to the other members of the joint facility. Since sewer service, in most cases, is unavailable to serve potential building in the city, the City Council has no alternative but to impose a building moratorium until such time as there is some change in the situation. In the absence of such moratorium, buildings could be constructed in the city without adequate provisions for the disposition of sewage which is a situation of considerable danger to the public health, safety and welfare.
- B. In the event additional amounts of capacity do become available, it is also the purpose of this chapter to provide authority for the adoption by resolution of a means of allocating that capacity among the competing demands.

(Ord. 8073 § 1, 1977)

### **§ 18.05.020. Sewer moratorium.**

Notwithstanding any provisions of this code to the contrary, no building permit shall be issued nor shall any application therefor be accepted in the city except as follows:

- A. Building permits for work in that portion of the city within the service territory of the San Marcos or Leucadia County Water Districts shall be processed in accordance with this subsection. The City Manager shall monitor the sewage treatment capacity of said districts. If the City Manager determines that capacity is available, he or she may authorize the Community and Economic Development Director to accept applications for building permits. If the City Manager determines that the amount of sewer capacity necessary to service the projects in plan check would exceed the available supply, he or she shall have authority to order that no additional applications be accepted. The City Manager shall have authority to lift or reimpose such order as he or she determines appropriate, based on the availability of sewer capacity in such districts. The determinations by the City Manager pursuant to this subsection are for the administrative convenience of the city and do not indicate that sewer service will or will not in fact be available for a particular project nor that the building permit will issue. Building permits shall not be issued until the applicant presents a valid sewer connection permit for the project from said district. The Community and Economic Development Director shall verify that the sewer permit is valid prior to issuance of the building permit.
- B. Building permits may be processed and issued when the City Manager determines, pursuant to provisions of this code, that no new sewer connection permit would be necessary in connection with the work. The City Manager's determination may be appealed to the City Council whose decision shall be final.
- C. Structures existing within the city's sewer service area as of the date of the ordinance codified in this section, being served by septic tanks, may obtain a sewer connection permit if the city's public health officer certifies that the septic tank has failed and constitutes a health hazard.

- D. Permits for construction for the Plaza Camino Real expansion pursuant to the contract between the Plaza Camino Real, the city and the Carlsbad parking authority dated November 5, 1975, may be processed and issued.
- E. Building permits may be processed and issued for any public project undertaken by the city.
- F. Building permits may be processed and issued where this code provides for an alternate method of sewage disposal.
- G. The City Council may grant exceptions for projects of other governmental agencies if the City Council in its sole discretion determines that the project is necessary and in the public interest.
- H. Building permits may issue for all those projects for which applications for building permits were on file in the Carlsbad building department as of 5:00 p.m. on April 19, 1977.
- I. Building permits may be processed and issued for development within the boundaries of subdivision CT 74-6.
- J. The City Council may grant exceptions for certain private projects involving building permits for work within existing structures where the council in its sole discretion finds that:
  - 1. The building permit is for work to be performed within the exterior walls and roof of an existing structure;
  - 2. Said structure was constructed pursuant to a building permit issued prior to April 19, 1977;
  - 3. Those portions of the structure for which the building permit would be issued pursuant to this subsection have not been previously occupied;
  - 4. The purpose of the building permit is to make internal modifications to the structure as necessary to accommodate occupancy by a first user of the space.

- K. The City Council may approve the transfer of sewer connection permits from one building site to another building site in accordance with the provisions of this section. Such a transfer may only be approved if the council finds that the sewer permit is being transferred to a similar type of structure to be built on a lot located within the same development as the original lot.

The application for a transfer of a sewer permit pursuant to this section shall constitute an offer by the developer to surrender the building permit for which the sewer permit was originally issued. Upon City Council approval of the transfer, the original building permit shall be void and of no further force and effect. If construction has commenced pursuant to the original building permit, such construction shall be removed and the site restored to the satisfaction of the Utilities Director.

Notwithstanding the provisions of Section 13.08.080, the transferred sewer permit shall remain valid and it may be made available for issuance in connection with a new building permit as approved by the City Council as part of the transfer. City Council approval of a transfer shall constitute authority on the part of the City Manager to determine that sewer service is available, to issue the new building permit and to transfer the sewer permit.

Notwithstanding the provisions of Section 13.08.080, a sewer permit transferred pursuant to this section shall be void and of no further force or effect unless the building permit is obtained and construction is commenced within 120 days of the City Council's approval of the transfer. After commencement of construction, pursuant to the building permit, the validity of the building permit and sewer permit shall be determined in accordance with Section 13.08.080 and the Uniform Building

Code.

(Ord. 8073 § 1, 1977; Ord. 8074 § 1, 1977; Ord. 8075 § 1, 1977; Ord. 8076 § 1, 1977; Ord. 1261 § 18, 1983; Ord. NS-676 § 7, 2003; Ord. CS-164 §§ 3, 14, 2011)

**§ 18.05.030. Sewer allocation system.**

In the event the City Council determines that additional amounts of sewer capacity are available, but which are not of sufficient quantity to justify lifting the building permit moratorium imposed by this chapter, they shall have authority to adopt by resolution a system for allocating that capacity. In the event such an allocation system is adopted, notwithstanding any provisions of this code to the contrary, the processing, issuance, and expiration of building permits and sewer connection permits shall be in accord with such allocation system.

(Ord. 8073 § 1, 1977)

**CHAPTER 18.06  
UNIFORM HOUSING CODE**

**§ 18.06.010. Adoption and scope.**

Chapters 10, 11, 14, 15 and 16 of the Uniform Housing Code (UHC), 1997 edition, as published by the International Conference of Building Officials (ICBO), are adopted and incorporated by this reference as the housing code. The following chapters are deleted: Chapters 1 through 9, 12 and 13.

The provisions of this code that are adopted by the city shall apply to all residential buildings and structures or portions thereof used, or designed or intended to be used, including, but not limited to, any appurtenances connected or attached to such buildings or structures.

(Ord. CS-437 § 4, 2022)

## CHAPTER 18.07 UNREINFORCED MASONRY BUILDINGS

### **§ 18.07.010. Title.**

The title of this chapter shall be "Unreinforced Masonry Buildings."

(Ord. 198 § 1, 1992)

### **§ 18.07.020. Uniform Code for Building Conservation adopted by reference.**

Chapter 1 of the Appendix, and Sections 108, 109, 201, 203, 204 and 205 in the Uniform Code for Building Conservation, 1991 Edition, published by the International Conference of Building Officials (hereinafter referred to as "code") is adopted and incorporated by reference as the rules, regulations, technical guidelines and specifications for the purposes of this chapter. A copy of the code is on file in the office of the City Clerk.

(Ord. 198 § 1, 1992)

### **§ 18.07.030. Actions by the building official.**

Whenever it is determined by the building official of the city or designee that a building falls within the criteria for a potentially hazardous structure, as defined by this chapter, and the structure is not exempted for local conditions as defined by California Health and Safety Code Section 18491.6(b), the building official and designee shall take steps to ensure that the provisions of the code relating to mitigation are carried out as follows:

- A. Service of Order. The building official shall, if the property owner elects not to voluntarily participate under subsection (E)(5) of this section, issue an order as provided in this section to the owner of each building within the scope of this chapter. The order shall be in writing and shall be served either personally or by certified or registered mail upon the owner as shown on the latest equalized assessment roll, and upon the person, if any, in apparent charge or control of the building.

Prior to the service of an order a bulletin may be issued to the owner as shown upon the latest equalized assessment roll or to the person in apparent charge or control of a building considered by the building official to be within the scope of the ordinance codified in this chapter. The bulletin may contain information the building official deems appropriate. The bulletin may be issued by mail or in person.

- B. Contents of Order. The order shall specify that the building has been determined by the building official to be within the scope of this chapter and, therefore, is required to meet the minimum seismic standards as designated in the code. The order shall be accompanied by a copy of subsection E of this section, which sets forth the owner's alternatives and time limits for compliance.

- C. Appeal From Order. The owner of the building may appeal the building official's initial determination that the building is within the scope of this chapter to the City Council. Such appeal shall be filed with the City Clerk within 60 days from the date of service of the order described in this section. Appeals or requests for modifications from any other determinations, orders or actions by the building official may be appealed to the Community and Economic Development Director for a determination. In the event the owner is dissatisfied with the decision of the Community and Economic Development Director, the owner may appeal the decision to the City Council by filing with the City Clerk a written notice of appeal within 10 calendar days following the decision of the Community and Economic Development Director. The City Council shall thereupon set a hearing date for the hearing of such

appeal, shall so notify the Community and Economic Development Director and the owner, and upon such hearing date or such dates to which the hearing may be continued, the City Council shall finally determine whether or not such requests or modifications from other determinations, orders or actions shall be approved or denied. The decision of the City Council shall be final.

D. Recordation of Order. At the time that the building official serves the order, the building official shall also file with the office of the County Recorder a certificate stating that the subject building is within the scope of this chapter and is a potentially earthquake hazardous building. The certificate shall also state that the owner thereof has been ordered to structurally analyze the building and to structurally alter it where compliance with the requirements set forth in this chapter have not been met. If the building is found not to be within the scope of this chapter, or is structurally capable of resisting minimum seismic forces required by the code as a result of structural alterations or an analysis, the building official shall file with the office of the County Recorder a notice terminating the status of the subject building as being classified within the scope of this chapter and the code.

E. Compliance Requirements.

1. The owner of each building within the scope of this chapter shall, upon service of an order and within the time limits set forth in the code, cause a structural analysis to be made of the building by an engineer or architect licensed by the state to practice as such and, if the building does not comply with earthquake standards specified in the code, the owner shall cause it to be structurally altered to conform to such standards.
2. The owner of a building within the scope of this chapter shall comply with the requirements set forth in subsection (E)(1) of this section by submitting to the building official for review, the following information, within the stated time limits:
  - a. Within 270 days after service of the order, a structural analysis, which is subject to approval by the building official, which shall demonstrate that the building meets the minimum requirements of the code; or
  - b. Within 270 days after service of the order, the structural analysis and plans for structural alterations of the building to comply with the code; or
  - c. Within 120 days after service of the order, plans for the installation of wall anchors in accordance with the requirements specified in Section A110 of the code.
3. After plans are submitted and approved by the building official, the owner shall obtain a building permit and then commence and complete the required construction within the time limits set forth in Table A-1-G of this subsection. These time limits shall begin to run from the date the order is served in accordance with Section 18.07.030(A), except that the time limit to commence structural alteration shall begin to run from the date the building permit is issued. The building official may order compliance at an earlier date if the owner requests an earlier date in writing.

**Table A-1-G**  
**Time Limits for Compliance**

Required Action by Owner	Obtain Building Permit Within	Commence Construction Within	Complete Construction Within
Structural alterations or building	1 year <sup>2</sup>	180 days <sup>1</sup>	3 years <sup>2</sup>
Wall anchors	180 days <sup>2</sup>	270 days <sup>2</sup>	1 year <sup>2</sup>

**Notes:**

- 1 Measured from date of building permit issuance.
  - 2 Measured from date of service of order.
4. Owners electing to comply with paragraph (2)(c) of this subsection are also required to comply with paragraph (2)(b) of this subsection and all applicable time limits.
5. The owner of each building may commit to a voluntary program of compliance with the requirements of this chapter. The owner shall then take steps to ensure that the provisions of the code relating to mitigation are carried out as follows:
- a. The owner shall notify the building official in writing within 30 days of the effective date of the ordinance codified in this chapter of the owner's intent to initiate a voluntary compliance program for mitigation of the building. Owners whose buildings are identified as falling within the criteria of this chapter after this period, shall notify the building official within 30 days of receiving notification advising him or her of the condition.
  - b. The owner shall then, within one year of the notice of intent to the building official, cause a structural analysis of the building to be made.
    - i. The structural analysis, which is subject to approval by the building official shall demonstrate that the building meets the minimum requirements of the code; or
    - ii. The structural analysis shall include plans, which are subject to approval by the building official, for the structural alterations of the building to comply with the code; or
    - iii. The structural analysis shall include plans, which are subject to approval by the building official, for the installation of wall anchors in accordance with the requirements specified in Section A110 of the code.
  - c. Owners electing to comply with paragraph (5)(b)(iii) of this subsection are also required to comply with paragraph (5)(b)(ii) of this subsection.
  - d. When the scope of necessary repairs is approved by the building official, the owner shall commit in writing to a schedule for repairs to be agreed upon by both the owner and the building official.
  - e. The building official may issue an order, as provided in this section, to owners not in compliance with the agreed upon time lines of the owners voluntary program.
- F. Historical Buildings. Alterations or repairs to qualified historical buildings, as defined by Section

18955 of the Health and Safety Code of the state and as regulated by the State Historical Building Code (Health and Safety Code Sections 18950 et seq.), as designated on official national, state or local historical registers or inventories shall comply with the California Historical Building Code (California Code of Regulations Title 24, Building Standards Part 8), in addition to this chapter.

- G. Enforcement. If the owner in charge or control of the subject building fails to comply with any order issued by the building official pursuant to this chapter or with any of the time limits set forth in this section, the building official shall verify that the record owner of this building has been properly served. If the order has been served on the record owner, then the building official shall order the entire building vacated until such order has been complied with.
- H. Replacement of Nonconforming URM Buildings. Notwithstanding Chapter 21.48 of the Carlsbad Municipal Code, if any unreinforced masonry building (URM) which is within the scope of this chapter is determined to be nonconforming according to the development standards set forth in the Carlsbad Municipal Code, such building shall be allowed to be replaced with the same nonconforming use. This shall include building footprint, height, total square footage and on-site parking.

(Ord. 198 § 1, 1992; Ord. NS-303 § 1, 1995; Ord. CS-164 § 14, 2011)

#### **§ 18.07.040. Definitions.**

"Potentially hazardous building" means any building constructed prior to the adoption of local building codes requiring earthquake resistant design of buildings and constructed of unreinforced masonry wall construction. "Potentially hazardous building" includes all buildings of this type, including, but not limited to, public and private schools, theaters, places of public assembly, apartment buildings, hotels, motels, fire stations, police stations, and buildings housing emergency services, equipment, or supplies, such as government buildings, disaster relief centers, communications facilities, hospitals, blood banks, pharmaceutical supply warehouses, plants, and retail outlets. "Potentially hazardous building" does not include warehouses or similar structures not used for human habitation, except for warehouses or structures housing emergency services equipment or supplies. "Potentially hazardous building" does not include any building having five living units or less. "Potentially hazardous building" does not include, for purposes of subdivision (a) of Section 8877 of the California Government Code, any building which qualifies as "historical property" as determined by an appropriate governmental agency under Section 37602 of the Health and Safety Code.

(Ord. NS-303 § 2, 1995)

**CHAPTER 18.08  
HISTORICAL BUILDING CODE**

**§ 18.08.010. Adoption and scope.**

The 2022 California Historical Building Code, California Code of Regulations, Title 24, a portion of the California Building Standards Code, is adopted in its entirety and incorporated by this reference as the historical building code.

(Ord. CS-437 § 5, 2022)

**CHAPTER 18.09  
EXISTING BUILDING CODE**

**§ 18.09.010. Adoption and scope.**

The 2022 California Existing Building Code, California Code of Regulations, Title 24, a portion of the California Building Standards Code, is adopted in its entirety and incorporated by this reference as the existing building code. The following appendices of the existing building code are included in the adoption: Appendix A (Guidelines for the Seismic Retrofit of Existing Buildings) and B (Supplementary Accessibility Requirements for Existing Buildings and Facilities). The following sections, chapters, or appendices are deleted: Section 103 et seq. through Section 114 et seq.; and Appendices C and D.

The provisions of this code that are adopted by the city shall apply to all existing buildings and structures for which a legal building permit has been issued, including, but not limited to, any appurtenances connected or attached to such buildings or structures.

(Ord. CS-437 § 6, 2022)

**CHAPTER 18.10  
MECHANICAL CODE**

**§ 18.10.010. Adoption and scope.**

The 2022 California Mechanical Code, California Code of Regulations, Title 24, a portion of the California Building Standards Code, is adopted and incorporated by this reference as the mechanical code. The following sections, chapters, or appendices are deleted: Sections 103 et seq., 104.3, 104.4, 106 et seq. and 107 et seq. of Chapter 1; Chapter 15; and Appendices A through H.

The provisions of this code that are adopted by the city shall apply to mechanical systems, materials, or appurtenances or portions thereof and other related building service equipment installed, used, designed or intended to be used.

(Ord. CS-437 § 7, 2022)

**§ 18.10.020. Screening for mechanical equipment and devices.**

- A. Installation, remodel, replacement, removal, abatement or discontinuance of mechanical systems and related building service equipment shall meet the requirements of this section.
- B. Roof-Mounted Mechanical Equipment and Devices. Mechanical equipment, including, but not limited to, air conditioning, heating, tanks, ducts, elevator enclosures, cooling towers, solar panels, or other similar equipment shall be adequately screened from view from surrounding properties, adjacent public streets, and on-site parking areas. Screening shall be accomplished with mechanical roof wells recessed below the roof line, by solid and permanent roof-mounted screens, use of parapet walls, or building design integration and concealment by portions of the same building or other structure. Alternative methods for screening may include the consolidation and orientation of devices towards the center of the rooftop with enclosure and the use of neutral color surfaces or color paint matching. Chain link fencing with or without wooden/plastic slats is prohibited.
  1. All electrical and mechanical duct work and related piping shall be inside the building and not the roof. All connections related to equipment shall be made in the same roof opening on the platform or have the prior approval from the building official. Any under-roof or wall-mounted cables, raceway, conduit, or other device connection to support roof-mounted assemblies is subject to Section 2803.3.
  2. Sewer vents shall be brought to one main vent below the roof and have one penetration where restrooms or other plumbing fixtures are back to back or in the general proximity.
  3. All air exhaust fans and other equipment shall be within the building and use the same roof opening where restroom and other equipment are back to back or in the general proximity.
  4. All roof appurtenances and screening devices shall be architecturally integrated with construction and appearance similar to and compatible with the building or structure on which the equipment is placed to the satisfaction of the building official. All visible elements should have symmetry in all visible dimensions and be contextually balanced so that the screening does not dominate the element they are placed on.
- C. Ground-Mounted Mechanical Equipment and Devices. All ground-mounted mechanical equipment, including, but not limited to, heating and air conditioning units and swimming pool and spa pumps and filters, shall be completely screened from view from surrounding properties and adjacent public streets by a solid wall or fence or shall be enclosed within a building or electrical/service room.

Alternative methods for screening equipment from the public right-of-way and adjacent properties may include the placement of equipment in locations where buildings serve the purpose of screening or any other method approved by the building official. Chain link fencing with or without wooden or plastic slats is prohibited.

In locations where ground-mounted mechanical equipment is completely screened from surrounding properties and adjacent to public streets, but visible on-site, the ground-mounted equipment shall be surrounded by sight-obscuring landscaping, enclosed within a structure (i.e., equipment enclosure), and/or painted with neutral colors that are compatible with structures and landscaping on the property. Structural, design, and/or landscaping plans for any required screening under the provisions of this section shall be approved by the building official.

- D. Wall-Mounted Devices. Large wall-mounted mechanical and electrical equipment, which are greater than 36 inches in height or width, shall be completely screened from the public right-of-way, adjacent properties, and on-site parking areas or shall be enclosed within a building or electrical/service room. Minor wall-mounted mechanical and electrical equipment, such as electric panels, utility meters, or junction boxes, which are 36 inches in height and width or less shall be screened to the maximum extent practicable through the use of building design integration and concealment, enclosure, or surface color paint matching and be screened by walls or fences or sight-obscuring landscaping. Chain link fencing with or without wooden or plastic slats is prohibited.
  - 1. All exterior wall-mounted cables, raceway, conduit, or other device connection to support any roof-mounted, ground-mounted, or wall-mounted mechanical devices, shall be painted to match the color of the building wall or surface on which they are mounted and shall be sited to minimize the appearance or be in a location that is reasonably compatible and in harmony with the architectural styling and detailing of the building.
- E. Exceptions to Screening Requirements. Where it can be clearly demonstrated that the exterior mechanical equipment is not visible from any surrounding properties, adjacent public streets, and on-site parking areas, the building official may waive the screening requirements of this section. Furthermore, the following mechanical equipment and devices will be fully or partially exempt from the foregoing screening requirements of this section, but may be regulated separately by some other law or ordinance: (1) electric vehicle charging support systems; (2) electric generating facilities, including solar photovoltaic systems; and (3) satellite television antennas.
- F. Removal, Abatement and Discontinuance of Mechanical Equipment or Devices. Where roof-mounted or wall-mounted equipment, devices or other appurtenances are removed, abated or discontinued, any unused openings on any roof or wall must be sealed and restored to match the structural condition and appearance of its surroundings.

(Ord. CS-437 § 7, 2022)

#### **§ 18.10.030. Rooftop hazard avoidance.**

Rooftop mechanical equipment, other equipment requiring maintenance and roof access hatches shall be located so that routine maintenance and approach thereof is more than 10 feet of the edge of the roof. This standard may only be encroached upon approval by the building official and only when the building official is satisfied that compliance with the rooftop location requirement is impracticable because of structural or construction difficulties or it is detrimental to the preservation of a historic building.

(Ord. CS-437 § 7, 2022)

## CHAPTER 18.12 ELECTRICAL CODE

### **§ 18.12.010. Adoption and scope.**

The 2022 California Electrical Code, California Code of Regulations, Title 24, a portion of the California Building Standards Code, is adopted in its entirety and incorporated by this reference as the electrical code. The provisions of this code that are adopted by the city shall apply to electrical wiring, apparatus and systems installed, used, designed or intended to be used.

(Ord. CS-437 § 8, 2022)

### **§ 18.12.020. Permits required.**

- A. No electric wiring, devices, appliances or equipment shall be installed within or on any building, structure or premises nor shall any alteration without first securing a permit therefor from the building official except as stated in Section 18.12.030.
- B. Permits for privately-owned conduits or other materials in public places and in and across streets and alleys may be issued only after approval has been granted for the installation by the City Engineer. All work shall be done in accordance with law and special regulations applicable thereto.
- C. Permits shall only be issued to contractors licensed by the State of California to engage in the business or act in the capacity of a contractor, relating to electrical inspection installation, and to persons holding a valid master electrician certificate of competency for work performed only on the property of his or her employer, or the owner.

(Ord. CS-437 § 8, 2022)

### **§ 18.12.030. Permits—Exceptions.**

- A. No permit shall be required for minor repair work such as repairing flush or snap switches, replacing fuses, repairing lamp sockets and receptacles when such work is done in accordance with the provisions of this code.
- B. No permit shall be required for the replacement of lamps or the connection of portable appliances to suitable receptacles which have been permanently installed.
- C. No permit shall be required for the installation, alteration or repair of wiring, devices, appliances or equipment for the operation of signals or the transmission of intelligence (not including the control of lighting or appliance circuits) where such wiring, devices, appliances or equipment operate a voltage not exceeding 25 volts between conductors and do not include generating or transforming equipment capable of supplying more than 100 watts of energy.

(Ord. CS-437 § 8, 2022)

### **§ 18.12.040. Permit—Application.**

Application for permits for electrical installations where the service capacity exceeds 200 amperes shall be accompanied by two sets of electrical line drawings and load distribution calculations showing service panel and branch panel capacities and locations service switch and branch switch capacities, conduit and feeder sizes.

(Ord. CS-437 § 8, 2022)

**§ 18.12.050. Temporary meter sets.**

A temporary meter may be set on the permanent electrical service base for testing equipment, for lighting of interiors where outside sources do not light, or for health and safety and protection of persons. Failure to provide and comply with all provisions of this chapter shall constitute grounds for the removal of any or all meters on the project.

(Ord. CS-437 § 8, 2022)

## CHAPTER 18.16 PLUMBING CODE

### **§ 18.16.010. Adoption and scope.**

The 2022 California Plumbing Code, California Code of Regulations, Title 24, a portion of the California Building Standards Code, is adopted and incorporated by this reference as the plumbing code except for changes, additions, deletions and amendments in this chapter. The following appendices of the plumbing code are included in the adoption: Appendix H (Private Sewage Disposal Systems) and M (Peak Water Demand Calculator). The following sections, chapters, or appendices are deleted: Sections 103 et seq., 104.3, 104.4, 104.5, 106 et seq. and 107 et seq. of Chapter 1; and Appendices A through G, I through L, and N.

The provisions of this code that are adopted by the city shall apply to plumbing equipment, systems, materials, or appurtenances or portions thereof installed, used, designed or intended to be used.  
(Ord. CS-437 § 9, 2022)

### **§ 18.16.020. Section 1505 (Recycled Water Systems in Buildings) of the California Plumbing Code amended.**

Section 1505.10 is amended to read as follows:

#### **1505.10 Required Appurtenances.**

The recycled water supply system and the potable water system within the building and the premises shall be provided with the required appurtenances (e.g., valves, air/vacuum relief valves, etc.).

All new buildings where recycled water will be used for irrigation shall install on the building supply pipe a bypass tee for recycled water cross-connection shut down testing. The bypass tee shall be constructed of copper and the size shall match the building supply pipe size approved for the building. The bypass tee shall be connected to the building supply pipe above ground and before the pressure regulator at a point just before it enters the building. Both end connections to the building supply pipe shall be made using a union. A bronze full port straight ball valve with handle shall be installed on the inlet side of the bypass tee for the building supply pipe and sized to match the inlet tee. A bronze full port straight ball valve with tee-head and padlock wing shall be installed on the side inlet tee, which shall be threaded with a male hose thread adapter to match the building supply pipe size. The work shall be in conformance with Engineering Standard Drawing W35. All shut down tests using the bypass tee shall be conducted with a backflow prevention device to reduce potential for contamination of the potable water system.

(Ord. CS-437 § 9, 2022)

### **§ 18.16.030. Sizing of roof drainage systems.**

A rainfall participation rate of 3.7 inches per hour in a 100-year storm event (one hour duration) shall be utilized as a guideline to calculate the minimum sizing of roof drainage systems required. Roof drainage systems shall be permitted to be sized using the roof area and the slope of the roof area served by each of the drain inlets. Calculations for the roof drainage system shall be submitted along with the plan for approval.

(Ord. CS-437 § 9, 2022)

**CHAPTER 18.17  
SWIMMING POOL AND HOT TUB CODE**

**§ 18.17.010. Adoption of the Uniform Swimming Pool, Spa and Hot Tub Code.**

The Uniform Swimming Pool, Spa and Hot Tub Code, 1997 Edition, copyrighted by the International Association of Plumbing and Mechanical Officials, except Section 110.0, Fees, is adopted by reference as the city swimming pool, spa, and hot tub code.

(Ord. NS-279 § 2, 1994; Ord. NS-531 § 1, 2000)

**§ 18.17.020. Building official designated.**

The building official appointed pursuant to the provisions of Chapter 18.04 is designated as the administrative authority and authorized and directed to enforce the provisions of this chapter.

(Ord. NS-279 § 2, 1994)

**§ 18.17.030. Violations.**

Any person or corporation who violates any of the provisions of this chapter is guilty of an infraction except for the fourth and each additional violation of a provision within one year which shall be a misdemeanor. Penalties for a violation of this chapter shall be as designated in Section 1.08.010 of this code.

(Ord. NS-279 § 2, 1994)

**CHAPTER 18.18  
SOLAR ENERGY CODE**

**§ 18.18.010. Adoption and scope.**

The Uniform Solar, Hydronics and Geothermal Code, 2021 edition, copyrighted by the International Association of Plumbing and Mechanical Officials is adopted in its entirety and incorporated by this reference as the solar energy code.

(Ord. CS-437 § 10, 2022)

**CHAPTER 18.19  
DANGEROUS BUILDING CODE**

**§ 18.19.010. Adoption of the Uniform Code for the Abatement of Dangerous Buildings.**

The Uniform Code for the Abatement of Dangerous Buildings, 1997 Edition, copyrighted by the International Conference of Building Officials, is adopted by reference as the city dangerous building code. (Ord. NS-279 § 4, 1994; Ord. NS-531 § 3, 2000)

**§ 18.19.020. Building official designated.**

The building official appointed pursuant to the provisions of Chapter 18.04 is authorized and directed to enforce all the provisions of this chapter.

(Ord. NS-279 § 4, 1994)

**§ 18.19.030. Violations.**

Any person or corporation who violates any of the provisions of this chapter is guilty of an infraction except for the fourth and each additional violation of a provision within one year which shall be a misdemeanor. Penalties for a violation of this chapter shall be as designated in Section 1.08.010 of this code.

(Ord. NS-279 § 4, 1994)

**CHAPTER 18.20  
RESIDENTIAL CODE**

**§ 18.20.010. Adoption and scope.**

- A. The 2022 California Residential Code, California Code of Regulations, Title 24, a portion of the California Building Standards Code, is adopted and incorporated by this reference as the residential code except for changes, additions, deletions and amendments in this chapter. The following appendices of the residential code are included in the adoption: Appendix AH (Patio Covers), AK (Sound Transmission), AQ (Tiny House), AX (Swimming Pool Safety Act) and AZ (Emergency Housing). The following sections or appendices are deleted: Sections R108 et seq., R110 et seq., R112 et seq., R113 et seq. and R114 et seq. of Chapter 1; and Appendices AF, AG, AI, AJ, AL, AO, AR through AW, and AY.

The provisions of this code that are adopted by the city shall apply to detached one-and two-family dwelling and townhomes not more than three stories and structures accessory thereto installed, used, designed or intended to be used.

- B. The building official is hereby authorized and directed to apply the administrative, organizational and enforcement rules and regulations of the building code to implement the residential code or portions of the code adopted. Administrative provisions relating to building fees, code compliance, enforcement, violations and penalties are specified in Sections 109, 111, and 113 through 115 of the California Building Code, Part 2, Volume 1, Chapter 1-Division II, as amended and adopted by the city.

(Ord. CS-437 § 11, 2022)

**§ 18.20.020. Section R104 (Duties and Powers of the Building Official) of the California Residential Code amended.**

Section R104.1 is amended to read as follows:

**R104.1 General.**

The building official is hereby authorized and directed to enforce the provisions of this code. The building official shall have the authority to render interpretations of this code and to adopt policies and procedures as supplemental to this code in order to clarify the application of its provisions or to implement or facilitate inspection functions, the issuance of permits and certificates, and other administrative and enforcement duties imposed by the code. Such interpretations, policies and procedures shall be in compliance with the intent and purpose of this code. Such policies and procedures shall not have the effect of waiving requirements specifically provided for in this code.

(Ord. CS-437 § 11, 2022)

**§ 18.20.030. Section R105 (Permits) of the California Residential Code amended.**

- A. Section R105.1 is amended to read as follows:

**R105.1 Required.**

Any owner or owner's authorized agent who intends to construct, enlarge, alter, repair, move, demolish or change the occupancy of a building or structure, or to erect, install, alter, repair, remove, convert or replace any electrical, gas, mechanical or plumbing system, the installation of which is regulated by this code, or to cause any such work to be performed shall first make application to the

building official and obtain the required permit. The submission of a building permit application shall be construed as attestation that the property owner and/or permit applicant are aware of the scope of the project and will only perform or allow work within that scope unless a building permit revision is subsequently authorized by the building official.

**R105.1.1 Personal or electronic submission.**

The property owner or permit applicant may submit the permit application and associated documentation to the building division by personal or electronic submittal together with any required permit processing and inspection fees. In the case of electronic submittal, the electronic signature of the applicant on all forms, applications, and other documentation may be used in lieu of a wet signature.

**R105.1.2. Partial permits.**

At the discretion of the building official, a partial permit may be issued to allow construction to begin before the project plans are approved. To qualify for a partial permit, the permit applicant must submit plans for the primary permit, and the plans must be accepted as complete for the jurisdiction's review. Work authorized by the partial permit shall be limited to underground site work, including underground plumbing, electrical, and mechanical work.

- B. Section R105.2 is amended to read as follows:

**R105.2 Work exempt from permit.**

Exemption from permit requirements of this code shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this code or any other laws or ordinances of this jurisdiction. Permits shall not be required for the following.

**Building:**

1. Other than storm shelters, one-story detached accessory buildings or structures, provided that the floor area does not exceed 120 square feet (11.15 square meters) and the building or structure is entirely above grade and is not located on a maintenance easement, on a public utilities easement, or within a setback area as required by any local ordinance or other applicable law. The building or structure shall not exceed the height requirements set forth in any local ordinance or other applicable law. It is permissible that these buildings or structures still be regulated by Section 710A despite exemption from permit.
2. Fences not over six feet (1829 mm) high.
3. Retaining walls that are not over four feet (1219 mm) in height measured from the bottom of the footing to the top of the wall, unless supporting a surcharge or impounding Class I, II, or IIIA liquids.
4. Water tanks supported directly on grade if the capacity is not greater than 5,000 gallons (18,925 L) and the ratio of height to diameter or width is not greater than 2:1.
5. Sidewalks and driveways not more than 30 inches (762 mm) above adjacent grade, and not over any basement or story below and are not part of an accessible route.
6. Painting, papering, tiling, carpeting, cabinets, countertops, and similar finish work.
7. Prefabricated swimming pools that are less than 24 inches (610 mm) deep.
8. Swings and other playground equipment accessory to detached one-and two-family dwellings.

9. Window awnings, supported by an exterior wall that do not project more than 54 inches (1372 mm) from the exterior wall and do not require additional support.
10. Decks not exceeding 200 square feet (18.58 square meters) in area, that are not more than 30 inches (762 mm) above grade at any point, are not attached to a dwelling and do not serve the exit door required by Section R311.4.
11. Skateboard ramps. The building or structure shall not exceed the height requirements set forth in any local ordinance or other applicable law.

**Electrical:**

1. Listed cord-and-plug connected temporary decorative lighting.
2. Reinstallation of attachment plug receptacles but not the outlets therefor.
3. Replacement of branch circuit overcurrent devices of the required capacity in the same location.
4. Electrical wiring, devices, appliances, apparatus or equipment operating at less than 25 volts and not capable of supplying more than 50 watts of energy.
5. Minor repair work, including the replacement of lamps or the connection of approved portable electrical equipment to approved permanently installed receptacles.

**Gas:**

1. Portable heating, cooking or clothes drying appliance.
2. Replacement of any minor part that does not alter approval of equipment or make such equipment unsafe.
3. Portable-fuel-cell appliances that are not connected to a fixed piping system and are not interconnected to a power grid.

**Mechanical:**

1. Portable heating appliance.
2. Portable ventilation equipment.
3. Portable cooling unit.
4. Steam, hot or chilled water piping within any heating or cooling equipment regulated by this code.
5. Replacement of any part that does not alter its approval or make it unsafe.
6. Portable evaporative coolers.
7. Self-contained refrigeration system containing 10 pounds (4.54 kg) or less of refrigerant and actuated by motors of 1 horsepower (0.75kW) or less.
8. Portable-fuel-cell appliances that are not connected to a fixed piping system and are not interconnected to a power grid.

**Plumbing:**

1. The stopping of leaks in drains, water, soil, waste or vent pipe, provided, however, that if any concealed trap, drain pipe, water, soil, waste or vent pipe becomes defective and it becomes necessary to remove and replace the same with new material, such work shall be considered as new work and a permit shall be obtained and inspection made as provided in this code.

2. The clearing of stoppages or the repairing of leaks in pipes, valves or fixtures and the removal and reinstallation of water closets, provided such repairs do not involve or require the replacement or rearrangement of valves, pipes or fixtures.

C. Section R105.3 is amended to read as follows:

**R105.3 Application for permit.**

To obtain a permit, the applicant shall first file an application therefor in writing on a form furnished by the department of building safety for that purpose. Such application shall:

1. Identify and describe the work to be covered by the permit for which application is made.
2. Describe the land on which the proposed work is to be done by legal description, street address or similar description that will readily identify and definitely locate the proposed building or work.
3. Indicate the use and occupancy for which the proposed work is intended.
4. Be accompanied by construction documents and other information as required in Section R106.1.
5. State the valuation of the proposed work. The valuations or value shall include the total value of work, including materials and labor for which the building permit is requested. Contract price valuations may be subject to further review and documentation.
6. Where applicable, state the area to be landscaped in square feet and the source of water for irrigation.
7. Be signed by the property owner or applicant, or the applicant's authorized agent, who may be required to submit evidence to indicate signature authority. Whenever any constructive work, including, but not limited to, excavation or fill, requires entry onto adjacent property for any reason, the permit applicant shall obtain the written consent or written proof of legal easements or other property rights of the adjacent property owner or their authorized representative. The consent shall be in a form acceptable to the building official.
8. Diversion requirement and waste management plans. Except as otherwise provided in this code, all property owners or permit applicants shall complete and submit a waste management plan as part of the application packet for the building permit, certifying that the diversion requirements will be satisfied for construction waste reduction, disposal, and recycling.
9. Give such other data and information as required by the building official.

**R105.3.1 Action on application.**

The building official shall examine or cause to be examined applications for permits and amendments thereto within a reasonable time after filing. If the application or the construction drawings do not conform to the requirements of pertinent laws, the building official shall reject such application in writing, stating the reasons therefor. If the building official is satisfied that the proposed work conforms to the requirements of this code and laws and ordinances applicable thereto, the building official shall issue a permit therefor as soon as practicable to the property owner or the permit applicant. In the case of a new building, all fees required for connection to public water systems and to sewer systems provided by entities other than the jurisdiction must be paid or a bond posted before a permit is issued.

When the building official issues a permit, the building official shall endorse in writing or stamp on

both sets of plans and specifications, "Approved." Such approval plans and specifications shall not be changed, modified, or altered without authorization from the building official, and all work shall be done in accordance with the approved plans.

**R105.3.1.2 Rebuild threshold and limits on repair and remodel.**

The building official shall determine the applicability of certain permitting procedures and requirements for repair and remodeling projects on a case-by-case basis. A project classified as "rebuild" pursuant to this section shall be treated as a new building or structure. Modification of fixtures, finishes, and systems shall not be considered in measuring project magnitude.

"New construction" is defined as any work, addition to, remodel, repair, renovation, or alteration of any building(s) or structure(s) when 75% or more of the exterior weight bearing walls is removed or demolished.

The cumulative scope for permitted work within any three-year period shall be added together when determining whether the scope of work constitutes a rebuild. For the purposes of this section, the computation of time shall be measured from the latest permit's date of issuance. The calculation of the percentage of floor area affected and final determination of required improvements shall be made by the building official.

Special consideration for unforeseen defects and damages. If construction defects or damages (e.g., pest or water damage) are discovered after construction has begun that were not predictable or known by ordinary means such as pest damage reports and other inspections and precautions, work must cease until the building official has been notified. The building official shall have the discretion to evaluate the circumstances of the discovery and may allow the rebuild threshold to be increased provided procedures deemed appropriate by the building official are followed.

**R105.3.2 Time limitation of application.**

An application for a permit for any proposed work shall be deemed to have been abandoned 365 days after the date of filing, unless such application has been pursued in good faith or a permit has been issued; except that the building official is authorized to grant one or more extensions of time for additional periods not exceeding 180 days each. The extension shall be requested in writing and justifiable cause demonstrated.

- E. Section R105.4 is amended to read as follows:

**R105.4 Validity of permit.**

The permit when issued shall be for such construction as is described in the building permit application and no deviation shall be made from the construction so described without the written approval of the building official. The permit holder (property owner or permit applicant) is obligated to maintain the accuracy of the building permit application and the approved building plan set, and shall promptly report to the building official any construction defects or damages discovered after construction has begun.

The issuance or granting of a permit shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of this code or of any other ordinance, order or other requirement of the jurisdiction. Permits presuming to give authority to violate or cancel the provisions of this code or other ordinances, orders or other requirements of the jurisdiction shall not be valid. The issuance of a permit based on construction documents and other data shall not prevent the building official from requiring the correction of errors in the construction documents and other data. The building official

is authorized to prevent occupancy or use of a structure where in violation of this code or of any other ordinances, orders or other requirements of this jurisdiction.

- F. Section R105.5.2 is added to read as follows:

**R105.5.2 Defining commencement of work and substantial work.**

For the purpose of this section, commencement of work shall be defined as the successful completion, inspection, and approval of the entire foundation system for the permitted building or structure, including the placement of concrete. If the permit is for a building or structure that does not include a foundation, then the building official will determine that the work has commenced if the amount of work completed shows a good faith effort to substantially perform the work authorized by the permit, which shall be construed to mean measurable work such as, but not limited to, the addition of footings, structural members, flooring, wall coverings, plumbing systems, mechanical systems, and electrical systems.

- G. Section R105.5.3 is added to read as follows:

**R105.5.3 Expired permits.**

It is unlawful for any person, firm, or corporation to maintain any building, structure, or equipment, or portion thereof, regulated by this code if permits required by this code are expired without final inspection approval and no application by the permittee has been made to obtain new permits to complete the work authorized under the expired permit.

Where a building or structure remains unfinished after the permit has expired, the property owner or permit applicant must, within 60 days after written notice by the building official, demolish and remove the building or structure or obtain a new permit. Before such work can be recommenced, a new building permit must be obtained.

The building permit fee collected by the building official to reinstate an expired permit shall be one half the amount required for a new permit for such work, provided no changes have been made or will be made in the original plans and specifications for such work, and provided further that such expiration has not exceeded one year.

- H. Section R105.5.4 is added to read as follows:

**R105.5.4 Sewer allocation system.**

The provisions of any sewer allocation system adopted by local ordinance or other applicable law shall supersede the reinstatement of an expired permit if the building permit was issued pursuant to such system.

- I. Section R105.6.1 is added to read as follows:

**R105.6.1 Unfinished building and structures.**

Where a building or structure remains unfinished after the permit therefor has been suspended or revoked, the property owner shall, within 60 days after written notice by the building official, demolish and remove the same or obtain a new permit. Before such work can be recommenced, a new building permit shall be obtained.

- J. Section R105.10 is added to read as follows:

**R105.10 Unpermitted buildings and structures.**

No person shall own, use, occupy or maintain any "unpermitted structure." For the purposes of this code, "unpermitted structure" shall be defined as any building or structure, or portion thereof, that was reconstructed, rehabilitated, repaired, altered, added to, improved, or equipped, at any point in time without the required permit(s) having first been obtained from the building official, or any unfinished work for which a permit has expired.

(Ord. CS-437 § 11, 2022)

**§ 18.20.040. Section R106 (Construction Documents) of the California Residential Code amended.**

- A. Section R106.2.1 is added to read as follows:

**R106.2.1 Site drainage.**

Where proposed construction will affect site drainage, existing and proposed drainage patterns shall be shown on the plot plan.

- B. Section R106.2.2 is added to read as follows:

**R106.2.2 Foundation survey.**

A survey of the lot is required by the building official to verify the proposed building or structure is located in accordance with the approved plans when a new foundation is proposed at five feet or closer to an adjacent property line.

- C. Section R106.2.3 is added to read as follows:

**R106.2.3 Waiver.**

The building official may grant the omission of a site plan, design flood elevations, site drainage, and/or foundation survey information when the proposed work is of such a nature that no information is needed to determine compliance with all laws relating to the location of buildings or occupancies.

- D. Section R106.6 is added to read as follows:

**R106.6 Prerequisite for pad certification.**

Except as otherwise provided in this code, upon completion of the rough grading work and prior to issuance of any building permit, the property owner or permit applicant must submit the required pad certifications/documents to the applicable governing authority. This information shall also be maintained onsite and available to the building official at the foundation inspection, pursuant to Section R109.1.1 of this code.

(Ord. CS-437 § 11, 2022)

**§ 18.20.050. Section R109 (Inspections) of the California Residential Code amended.**

- A. Section R109.1 is amended to read as follows:

**R109.1 Types of inspections.**

For on-site construction, from time to time the building official, upon notification from the permit holder or his agent, shall make or cause to be made any necessary inspections and shall either approve that portion of the construction as completed or shall notify the permit holder or his or

her agent wherein the same fails to comply with the code. The enforcing agency upon notification of the permit holder or their agent shall within a reasonable time make the inspections set forth in Section R109.1.1, R109.1.1.1, R109.1.3, R109.1.4, R109.1.4.1, R109.1.4.2, R109.1.5, R109.1.5.1, R109.1.5.2, R109.1.5.3, R109.1.6, R109.1.6.1 and R109.1.6.2.

The building official may be contacted by a property owner or permit holder to arrange a pre-construction meeting involving contractors, engineer of record, architects, and any other essential project participants. The meeting may be used to clarify areas of responsibility, to establish lines of communication to be used by all involved parties through the inspection process, and to answer questions about complex construction details and project phasing. For cost recovery purposes, the building official may charge their fully burdened hourly rate for time spent arranging, preparing, and participating in such meetings.

Note: Reinforcing steel or structural framework of any part of any building or structure shall not be covered or concealed without first obtaining the approval of the enforcing agency.

- B. Section R109.1.1 is amended to read as follows:

**R109.1.1 Foundation inspection.**

Inspection of the foundation and footings shall be made after poles or piers are set or trenches or basement areas are excavated and any required forms erected and any required reinforcing steel is in place and supported prior to the placing of concrete. The foundation or footings shall include excavations for thickened slabs intended for the support of bearing walls, partitions, structural supports or equipment and special requirements for wood foundations. Materials for the foundation shall be on the job except where concrete is ready mixed in accordance with ASTM C94. Under this circumstance, concrete is not required to be at the job site.

A California State licensed surveyor is required to certify the location and setbacks of new construction prior to the first foundation inspection if the proposed building or structure is located five feet or closer to an adjacent property line. A copy of the certification shall be available to the building official prior to the first inspection. Prior to the approval of any foundation inspection the permit holder shall submit the setback certification that certifies by field measurement that the location of the building meets or exceeds the minimum setback distance as shown on the approved building plan set.

Pad and elevation certification information pursuant to Section 107.2.9 of this code shall be maintained onsite and available to the building official at the foundation inspection. The building official may require top of form elevation certification prior to placing concrete for slabs.

The building official may grant exemptions to these requirements for accessory buildings or structures, on a case-by-case basis, when sufficient physical evidence (such as survey monuments) exists from which it can be demonstrated that the accessory building or structure is located in relation to property lines as shown on the approved plans.

- C. Section R109.1.2.1 is added to read as follows:

**R109.1.2.1 Building service equipment and utility connections.**

Building service equipment regulated by the technical codes shall not be connected to the water, fuel or power supply, or sewer system until authorized by the building official. At the building official's discretion, the building official is authorized to release the utilities for a project prior to completion and prior to applicable city/county function approvals. When utilities are released prior to completion

and prior to approvals by all applicable city/county departments, the property owner and/or permit holder shall agree, in writing, on a form provided by the building official, that the building or structure will not be occupied until released by all applicable city/county functions.

Following a natural disaster or emergency, the building official may issue such permits deemed necessary to restore a previous legal use or allow temporary occupancy of a site, prior to the primary use being re-established.

- D. Section R109.1.6.3 is added to read as follows:

**R109.1.6.3 Prior to release of occupancy of a building or structure.**

When the building or structure is ready for final inspection and occupancy, the property owner or permit holder shall notify the building official. The building official will coordinate with other appropriate city/county functions so they may verify compliance with all laws and ordinances they are charged with enforcing.

Passing final inspection or the final approval of the building official on the building permit inspection card does not constitute approval to occupy the structure.

- E. Section R109.2 is amended to read as follows:

**R109.2 Inspection agencies.**

The building official is authorized to accept reports of approved inspection agencies, licensed engineers, licensed contractors or other qualified individuals, provided that such agencies, licensed professionals or individuals satisfy the requirements as to qualifications and reliability.

(Ord. CS-437 § 11, 2022)

**§ 18.20.060. Section R111 (Utilities) of the California Residential Code amended.**

Section R111.4 is added to read as follows:

**R111.4 Authority to condemn building service equipment.**

When any building service equipment is maintained in violation of the technical codes and in violation of a notice issued pursuant to the provisions of this section, the building official shall institute appropriate action to prevent, restrain, correct, or abate the violation. When the building official ascertains that building service equipment regulated in the technical codes has become hazardous to life, health or property, or has become unsanitary, the building official shall order in writing that such equipment either be removed or restored to a safe or sanitary condition, as appropriate. The written notice shall fix a time limit for compliance with such order. Defective building service equipment shall not be maintained after receiving such notice.

**R111.4.1 Connection after order to disconnect.**

Persons shall not make connections from an energy, fuel, or power supply nor supply energy or fuel to building service equipment which has been disconnected or ordered to be disconnected by the building official, or the use of which has been ordered to be discontinued by the building official, until the building official authorizes the reconnection and use of such equipment.

(Ord. CS-437 § 11, 2022)

**§ 18.20.070. Section R901 (General) of the California Residential Code amended.**

Section R901.1 is amended to read as follows:

**R901.1 Scope.**

The provisions of this chapter shall govern the design, materials, construction and quality of roof assemblies and rooftop structures.

1. Roofing assemblies, roof coverings, and roof structures shall be as specified in this code and as otherwise required by local ordinance or applicable law.
2. Roofing assemblies and roof coverings other than wood shakes and shingles shall be Class A fire rated.
3. Wood shakes and shingles of any classification are prohibited as a roof covering on all structures and on all replacement roofs.
4. Roof coverings shall be secured or fastened to the supporting roof construction and shall provide weather protection for the building at the roof.
5. Skylights shall be constructed as required in Section R308.6 and Chapter 9. Use of plastics in roofs shall comply with R316 and Chapter 9. Solar photovoltaic energy collectors located above or upon a roof shall be class A fire rated.

(Ord. CS-437 § 11, 2022)

**CHAPTER 18.21  
CALIFORNIA GREEN BUILDING STANDARDS CODE**

**§ 18.21.010. Adoption and scope.**

The 2022 California Green Building Standards Code, California Code of Regulations, Title 24, a portion of the California Building Standards Code, is adopted and incorporated by this reference as the green building standards code except for changes, additions, deletions and amendments in this chapter.

The following sections or chapters of Appendix A5 of the green building standards code are included in the adoption: Sections A5.201, A5.202, A5.203.1.1 through A5.203.1.2.1 Tier 1, and A5.211 through A5.213, except for changes, additions, and deletions as specified in this chapter. The following appendices are deleted: A4 and A6.1.

(Ord. CS-437 § 12, 2022)

**§ 18.21.020. Section 202 (Definitions) of the California Green Building Standards Code amended.**

Section 202 of the California Green Building Standards Code is amended to revise/add the following definitions:

**Electric vehicle (EV) capable space.** A vehicle space with electrical panel space and load capacity to support a branch circuit and necessary raceways, both underground and/or surface mounted. For the purposes of this code, an EV capable space shall include a raceway capable of accommodating a 208/240-volt dedicated branch circuit. The raceway shall not be less than trade size 1 (nominal 1-inch inside diameter). The raceway shall originate at the main service or subpanel and shall terminate into a listed cabinet, box, or enclosure in close proximity to the proposed location of the EV capable spaces. The service panel and/or subpanel shall provide capacity to install a 40-ampere minimum dedicated branch circuit and space(s) reserved to permit installation of a branch circuit overcurrent protective device. Future EV capable spaces may qualify as designated parking for clean air vehicles.

**Electric vehicle (EV) charger.** Off-board charging equipment used to charge an electric vehicle. For the purposes of this code, an EV charging space that is installed with an EV charger shall consist of a dedicated 208/240-volt branch circuit, including a listed raceway, electrical panel capacity, overcurrent protective device, wire, and receptacle. Receptacle shall be equipped with EVSE. The raceway shall not be less than trade size 1 (nominal 1-inch inside diameter) and is required to be continuous at enclosed, inaccessible, or concealed areas and spaces. The branch circuit and associated overcurrent protective device shall be rated at 40 amperes minimum. Other electrical components, including receptacle and EVSE, related to this section shall be installed in accordance with the California Electrical Code.

**Electric vehicle (EV) ready space.** A vehicle space which is provided with a branch circuit, any necessary raceways, both underground and/or surface mounted, to accommodate EV charging, terminating in a blank cover, receptacle or a charger, with a dedicated 208/240-volt branch circuit, electric panel capacity, overcurrent protective device and wire. The raceway shall not be less than trade size 1 (nominal 1-inch inside diameter) and is required to be continuous at enclosed, inaccessible, or concealed areas and spaces. The termination point shall be in close proximity to the proposed location of an EV charger. The branch circuit and associated overcurrent protective device shall be rated at 40 amperes minimum. Other electrical components, including a receptacle or blank cover, related to this section shall be installed in accordance with the California Electrical Code.

**Major residential renovations.** Alterations and additions to existing residential structures and construction sites where: 1) for one and two family dwellings, and townhouses with attached private garages, alterations

have a building permit valuation equal to or greater than \$60,000 or include an electrical service panel upgrade; or 2) for multifamily dwellings (three dwelling units or more), alterations have a building permit valuation equal to or greater than \$200,000, interior finishes are removed and significant site work and upgrades to structural, mechanical, electrical, and/or plumbing systems are proposed. Significant site work as used herein means site alterations that: Require a grading permit as required by law or ordinance of the jurisdiction; rehabilitate or install 2,500 square feet or more of landscaping; or repave, replace, or add 2,500 square feet or more of vehicle parking and drive area.

(Ord. CS-437 § 12, 2022)

**§ 18.21.030. Section 4.106 (Site Development) of the California Green Building Standards Code amended.<sup>6</sup>**

(Ord. CS-437 § 12, 2022)

**§ 18.21.040. Section 5.106 (Planning and Design) of the California Green Building Standards Code amended.**

Table 5.106.5.3.1 is amended to read as follows:

Total Number of Actual Parking Spaces	Number of Required EV Capable Spaces	Number of EVCS (EVSE Installed Space With EV Charger) <sup>2</sup>
0–9	1	1
10–25	4	1
26–50	8	2
51–75	13	3
76–100	17	5
101–150	25	6
151–200	35	9
201 and over	20 percent of total <sup>1</sup>	25 percent of EV capable spaces <sup>1</sup>

**Notes:**

1. Calculation for spaces shall be rounded up to the nearest whole number.
2. The number of required EVCS (EV capable spaces provided with EVSE) in column 3 count toward the total number of required EV capable spaces shown in column 2.

(Ord. CS-437 § 12, 2022)

**§ 18.21.050. Appendix A5 (Nonresidential Voluntary Measures) of the California Green Building Standards Code amended.**

- A. Appendix A5, Sections A5.201, A5.202, A5.203.1.1 through A5.203.1.2.1 Tier 1, and A5.211 through A5.213 are adopted and amended herein and are mandatory requirements for the construction

---

6. Editor's Note: The Amendments to Section 4.106 of the California Green Building Standards Code are included as an attachment to this title.

of nonresidential buildings and structures, multi-family buildings and structures, hotels/motels, and alterations thereto having a building permit valuation of at least \$200,000.00 or additions of at least 1,000 square feet.

- B. Section A5.203.1.1.2 of the California Green Building Standards Code is amended to read as follows:

**A5.203.1.1.2 Service water heating in restaurants.**

Newly constructed restaurants shall comply with California Energy Code Section 140.5.

- C. Section A5.211 of the California Green Building Standards Code is amended to read as follows:

**A5.211.1 On-site renewable energy.**

Use on-site renewable energy sources such as solar, wind, geothermal, low-impact hydro, biomass and bio-gas for at least 1 percent of the electric power calculated as the product of the building service voltage and the amperage specified by the electrical service overcurrent protection device rating or 1 kW, (whichever is greater), in addition to the electrical demand required to meet 1 percent of the natural gas and propane use. The building project's electrical service overcurrent protection device rating shall be calculated in accordance with the California Electrical Code. Natural gas or propane use is calculated in accordance with the California Plumbing Code.

**A5.211.1.1 Documentation.**

Using a calculation method approved by the California Energy Commission, calculate the renewable on-site energy system to meet the requirements of Section A5.211.1, expressed in kW. Factor in net-metering, if offered by local utility, on an annual basis.

**A5.211.3 Green power.**

If offered by local utility provider, participate in a renewable energy portfolio program that provides a minimum of 50 percent electrical power from renewable sources. Maintain documentation through utility billings.

Exception to A5.211.1, A5.211.1.1 and A5.211.3: All new nonresidential, high-rise residential, and hotel/motel buildings, and alterations thereto having a building permit valuation of at least \$1,000,000 and affecting at least 75 percent of existing floor area, or alterations that increase roof size by at least 2,000 square feet, shall instead comply with California Energy Code Section 141.2.

(Ord. CS-437 § 12, 2022)

## CHAPTER 18.22 ELECTRIC VEHICLE CHARGING STATIONS

### **§ 18.22.010. Purpose.**

The purpose of Chapter 18.22 is to promote and encourage the use of the electric vehicles in accordance with the City's Climate Action Plan, and Government Code Section 65850.7 by providing an expedited, streamlined permitting process for electric vehicle charging stations for residential and non-residential uses. The intent is to remove unreasonable regulatory barriers and minimize permit processing costs to achieve timely and cost-effective installations and to help achieve Governor's Executive Order N-79-20. Chapter 18.22 helps the city to achieve those goals, prevents adverse impacts in the installation and use of electric vehicle charging stations, and maintains the building official's authority to protect the public health and safety and to identify and address higher priority life-safety situations, where applicable.

(Ord. CS-399 § 2, 2021)

### **§ 18.22.020. Definitions.**

The following definitions shall apply to Chapter 18.22:

"Association" means a nonprofit corporation or unincorporated association created for the purpose of managing a common interest development.

"Checklist" means the submittal checklist required by the City of Carlsbad to be submitted with the permit application for an electric vehicle charging station to demonstrate compliance.

"Electric vehicle charging station" or "charging station" means any level of electric vehicle supply equipment station that is designed and built in compliance with Article 625 of the California Electrical Code, as it reads on the effective date of the ordinance codified in this chapter, and delivers electricity from a source outside an electric vehicle into a plug-in electric vehicle.

"Electronic submittal" means the utilization of electronic mail (email); the Internet; facsimile (fax). "Specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified, and written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

"Feasible method" means a method to satisfactorily mitigate or avoid a specific, adverse impact including, but is not limited to, any cost-effective method, condition, or mitigation imposed by the city on another similarly situated application in a prior successful application for a permit.

(Ord. CS-399 § 2, 2021)

### **§ 18.22.030. Applicability.**

- A. Chapter 18.22 applies to the permitting of all electric vehicle charging stations in the City of Carlsbad.
- B. Electric vehicle charging stations legally established or permitted prior to the effective date of the ordinance codified in this chapter are not subject to the requirements of Chapter 18.22 unless physical modifications or alterations are undertaken that materially change the size, type, or components of the electric vehicle charging station in such a way as to require new permitting. Routine operation and maintenance or like-kind replacements shall not require a permit.
- C. The installation of electric vehicle charging stations shall comply with the standards set forth in section 18.21.140 and 18.21.150 as applicable.

(Ord. CS-399 § 2, 2021)

**§ 18.22.040. Permit application and submittal requirements.**

- A. All electric vehicle charging stations shall meet applicable health and safety standards and requirements imposed by the state and the city.
- B. Prior to submitting an application for processing, the applicant shall verify that the installation of an electric vehicle charging station will not have specific, adverse impact to public health and safety and building occupants. Verification by the applicant includes, but is not limited to: electrical system capacity and loads; electrical system wiring, bonding, and overcurrent protection; building infrastructure affected by charging station equipment and associated conduits; areas of charging station equipment and vehicle parking.
- C. All documents required for the submission of an electric vehicle charging station application are available on the city website, including a checklist of submittal requirements for expedited review. Unless otherwise specified, the checklist shall be the most current version of the "Plug-In Electric Vehicle Infrastructure Permitting Checklist" of the "Zero-Emission Vehicles in California: Community Readiness Guidebook."
- D. Electronic submittal of the required permit application and documents shall be made available to all electric vehicle charging station permit applicants. The permit application and associated documentation may be submitted to the building division in person, by mail, or by electronic submittal together with required permit processing and inspection fees. In the case of electronic submittal, the electronic signature of the applicant on all forms, applications, and other documents may be used in lieu of a wet signature.
- E. Should this chapter conflict with any permit processing requirements specified in any other chapter of the Carlsbad Municipal Code, this chapter shall take precedence.

(Ord. CS-399 § 2, 2021)

**§ 18.22.050. Permit review and issuance.**

- A. The community development department shall implement an administrative, nondiscretionary review process to expedite approval of electric vehicle charging stations.
- B. A permit application that satisfies the information requirements in the city's checklist shall be deemed complete and be promptly processed.
- C. If an application is deemed incomplete, a written correction notice detailing all deficiencies in the application and any additional information or documentation required to be eligible for expedited permit issuance shall be sent to the applicant for resubmission.
- D. Upon confirmation by the building official that the permit application and supporting documents meets the adopted checklist, and is consistent with all applicable laws and health and safety standards, the Building Official shall, consistent with Government Code Section 65850.7, approve the application and issue all necessary permits. Such approval does not authorize an applicant to energize or utilize the electric vehicle charging station until approval is granted by the city.
- E. The building official may require an applicant to apply for a minor site development plan pursuant to Carlsbad Municipal Code Chapter 21.06 if the building official finds, based on substantial evidence, that the electric vehicle charging station could have a specific, adverse impact upon the public health and safety.
  1. Such decisions may be appealed to the Planning Commission pursuant to Section 21.54.140.

2. If a minor site development plan is required, the city may deny such application if it makes written findings based upon substantive evidence in the record that the proposed installation would have a specific, adverse impact upon public health or safety and there is no feasible method to satisfactorily mitigate or avoid, as defined, the adverse impact.
3. Such findings shall include the basis for the rejection of the potential feasible alternative for preventing the adverse impact.
4. Any condition imposed on an application shall be designed to mitigate the specific, adverse impact upon health and safety at the lowest possible cost.
5. No condition shall be imposed on the Minor Site Development Plan that would require prior approval by an association.

(Ord. CS-399 § 2, 2021)

#### **§ 18.22.060. Waiver or modification of development standards.**

- A. The City Planner, through the processing of a minor site development plan pursuant to Chapter 21.06, may modify the following development standards for electric vehicle charging stations.
  1. Parking standards under Chapter 21.44
  2. Sign standards under Chapter 21.41
- B. The modifications specified in Section 18.22.060(A) shall not be permitted unless the decision making authority makes the required findings specified in Section 21.06.020(b).

(Ord. CS-399 § 2, 2021)

#### **§ 18.22.070. Electric vehicle charging station installation requirements.**

- A. Electric vehicle charging station equipment shall meet the requirements of the California Electrical Code, the Society of Automotive Engineers, the National Electrical Manufacturers Association, and accredited testing laboratories such as Underwriters Laboratories, and rules of the Public Utilities Commission or a Municipal Electric Utility Company regarding safety and reliability.
- B. Installation of electric vehicle charging stations and associated wiring, bonding, disconnecting means and overcurrent protective devices shall meet the requirements of Article 625 and all applicable provisions of the California Electrical Code.
- C. Installation of electric vehicle charging stations shall be incorporated into the load calculations of all new or existing electrical services and shall meet the requirements of the California Electrical Code. Electric vehicle charging equipment shall be considered a continuous load.
- D. Anchorage of either floor-mounted or wall-mounted electric vehicle charging stations shall meet the requirements of the California Building or Residential Code as applicable per occupancy, and the provisions of the manufacturer's installation instructions. Mounting of charging stations shall not adversely affect building elements.

(Ord. CS-399 § 2, 2021)

#### **§ 18.22.080. Severability.**

If any provision of this chapter or the application thereof to any person or circumstances is held invalid, the remainder of the chapter and the application of the provision to other persons not similarly situated or

to other circumstances shall not be affected thereby.

(Ord. CS-399 § 2, 2021)

## CHAPTER 18.24 MOVING BUILDINGS

### **§ 18.24.010. Permit required.**

No person shall cause any structure to be wrecked or moved along any highway, without first obtaining from the Community and Economic Development Director of the city a permit so to do.  
(Ord. 8045 § 1; Ord. 1261 § 24, 1983; Ord. NS-176 § 5, 1991; Ord. CS-164 § 14, 2011)

### **§ 18.24.020. Application for permit.**

The Community and Economic Development Director is authorized and directed to prepare an application form for permission to wreck or move structures which shall contain all questions regarding all aspects of the protection of the general health, safety and welfare of the citizens of the city in regard to such proposed wrecking or moving of structures.

(Ord. 8045 § 2; Ord. 1261 § 24, 1983; Ord. NS-176 § 5, 1991; Ord. CS-164 § 14, 2011)

### **§ 18.24.030. Permit fee.**

Every person applying for a permit under this chapter shall pay a permit fee of \$10.00 at the time of such application.  
(Ord. 8045 § 3)

### **§ 18.24.040. Granting of permit.**

In the event of an application to move a structure into the city or to move a structure from one location to another within the city, the Community and Economic Development Director shall not issue a permit therefor until such time as the Planning Commission of the city or in the event of an appeal of the decision of the Planning Commission, the City Council, shall have approved such moving of a structure. Such approval shall be granted or denied or granted subject to conditions so as to promote the general health, safety and welfare of the citizens of the city.

(Ord. 8045 § 3.5; Ord. 8051-A § 1, 1969; Ord. 1261 § 24, 1983; Ord. NS-176 § 5, 1991; Ord. CS-164 § 14, 2011)

### **§ 18.24.050. Conditions of permit.**

The Community and Economic Development Director shall require as a condition of issuance of a permit hereunder that the applicant provide all necessary protections to the maintenance of the general health, safety and welfare as required by his or her proposed wrecking or moving of structures. The Community and Economic Development Director may decline to issue such a permit if the general health, safety and welfare so requires.

(Ord. 8045 § 4; Ord. 1261 § 24, 1983; Ord. NS-176 § 5, 1991; Ord. CS-164 § 14, 2011)

### **§ 18.24.060. Permit—Appeal from decision of Community and Economic Development Director.**

In the event the Community and Economic Development Director declines to issue a permit or the applicant is dissatisfied with the conditions upon which the permit is issued, applicant may appeal the decision of the Community and Economic Development Director to the City Council by sending to the city a written notice of appeal within 10 calendar days following the decision of the Community and Economic Development Director. The City Council shall thereupon set a hearing date for the hearing of such appeal, shall so notify the Community and Economic Development Director and the applicant and, upon such

hearing date or such dates to which the hearing may be continued, the City Council shall finally determine whether or not such permit shall be issued and, if so, upon what conditions. The decision of the City Council shall be final. Fees for filing an appeal under this section shall be established by resolution of the City Council.

(Ord. 8045 § 5; Ord. 1261 § 24, 1983; Ord. NS-176 §§ 5, 6, 1991; Ord. CS-164 § 14, 2011)

**§ 18.24.070. Removal of building by city.**

By his or her application for a permit according to the provisions of this chapter to wreck or move any structure, every person receiving such a permit agrees that in the event all required conditions are not fulfilled within the time prescribed by the Community and Economic Development Director or the City Council, the City Council may at its sole option, cause the same to be fulfilled, or to wreck and remove the structure, at the owner's expense.

(Ord. 8045 § 6; Ord. 1261 § 24, 1983; Ord. NS-176 § 5, 1991; Ord. CS-164 § 14, 2011)

## CHAPTER 18.25 SMALL RESIDENTIAL ROOFTOP SOLAR ENERGY SYSTEMS

### **§ 18.25.010. Purpose.**

The purpose of this chapter is to provide an expedited, streamlined solar permitting process that complies with the Solar Rights Act and AB 2188 (2014) amendments to California Government Code Section 65850.5 to achieve timely and cost-effective installations of small residential rooftop solar energy systems with reasonable restrictions. The use of solar systems is encouraged by streamlining processes, minimizing costs to property owners and the city, and expanding the ability of property owners to install solar energy systems while protecting public health and safety.

(Ord. CS-285 § 2, 2015)

### **§ 18.25.020. Definitions.**

"Electronic submittal" in this chapter means the utilization of one or more of either email, the Internet, or facsimile.

"Feasible method to satisfactorily mitigate or avoid the specific, adverse impact" includes, but is not limited to, any cost-effective method, condition, or mitigation imposed by the city on another similarly situated application in a prior successful application for a permit. The city shall use its best efforts to ensure that the selected method, condition, or mitigation meets the definition of subsections (D)(1) and (2).

"Reasonable restrictions" on a solar energy system are those restrictions that do not significantly increase the cost of the system or significantly decrease its efficiency or specified performance, or that allow for an alternative system of comparable cost, efficiency, and energy conservation benefits.

"Restrictions that do not significantly increase the cost of the system or significantly decrease its efficiency or specified performance" in this chapter means:

1. For a water heater system or a solar swimming pool heating system: an amount exceeding 10% of the cost of the system, but in no case more than \$1,000.00, or decreasing the efficiency of the solar energy system by an amount exceeding 10%, as originally specified and proposed.
2. For a photovoltaic system: an amount not to exceed \$1,000.00 over the system cost as originally specified and proposed, or a decrease in system efficiency of an amount exceeding 10% as originally specified and proposed.

"Small residential rooftop solar energy system" is a solar energy system that:

1. Is no larger than 10 kilowatts alternating current nameplate rating or 30 kilowatts thermal; and
2. Conforms to all applicable building, electrical, plumbing, mechanical, or fire codes as adopted or amended by the city, and all state and city health and safety standards; and
3. Is installed on a single-or two-family dwelling; and
4. The solar panel or module array does not exceed the maximum building height as defined by the city.

"Solar energy system" means either:

1. Any solar collector or other solar energy device whose primary purpose is to provide for the collection, storage, and distribution of solar energy for space heating, space cooling, electric generation, or water heating; or

2. Any structural design feature of a building, whose primary purpose is to provide for the collection, storage, and distribution of solar energy for electricity generation, space heating or cooling, or for water heating.

"Specific, adverse impact" in this chapter means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified, and written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(Ord. CS-285 § 2, 2015)

#### **§ 18.25.030. Applicability.**

- A. This chapter applies to the permitting of all small residential rooftop solar energy systems in the city.
- B. A small residential rooftop solar energy system permitted prior to the effective date of the ordinance codified in this chapter is not subject to these requirements unless physical modifications or alterations are undertaken that materially change the size, type, or components of a system in such a way as to require new permitting. Routine maintenance or in-kind replacement of permitted parts for a small residential rooftop solar energy system shall not require a permit.

(Ord. CS-285 § 2, 2015)

#### **§ 18.25.040. Small residential rooftop solar energy system requirements.**

- A. A small residential rooftop solar energy system shall meet applicable building, electrical, plumbing, mechanical, or fire codes as adopted or amended by the city, and all state and city health and safety standards.
- B. A small residential rooftop solar energy system for heating water in a single-family residence or for heating water in commercial or swimming pool applications shall be certified by an accredited listing agency as defined by the California Plumbing and Mechanical Code.
- C. A small residential rooftop solar energy system shall meet applicable safety and performance standards established by the California Electrical Code, the Institute of Electrical and Electronics Engineers, accredited testing laboratories such as Underwriters Laboratories and, where applicable, rules of the Public Utilities Commission regarding safety and reliability.

(Ord. CS-285 § 2, 2015)

#### **§ 18.25.050. Applications and documents.**

- A. The building official shall develop and maintain an eligibility checklist of all requirements with which small residential rooftop solar energy systems shall comply to be eligible for expedited review.
- B. All documents required for the submission of an expedited small residential rooftop solar energy system application shall be made available on the city's website.
- C. Electronic submittal of the required permit application and documents shall be made available to all small residential rooftop solar energy system permit applicants.
- D. The small residential rooftop solar energy system permit application and associated documentation may be submitted to the building division in person, by mail, or by electronic submittal. In the case of electronic submittal, the electronic signature of the applicant on all forms, applications and other documentation may be used in lieu of a wet signature.
- E. The small residential rooftop solar energy system permit process and eligibility checklist shall

substantially conform to recommendations for expedited permitting contained in the most current version of the *California Solar Permitting Guidebook* adopted by the Governor's Office of Planning and Research.

(Ord. CS-285 § 2, 2015)

#### **§ 18.25.060. Permit review.**

- A. The building official shall implement an expedited, administrative, nondiscretionary review process with reasonable restrictions for small residential rooftop solar energy systems. The building official's review of an application shall be limited to the requirements set forth in Section 18.25.040. If an application is deemed incomplete, a written correction notice detailing all deficiencies in the application and any additional information or documentation required to be eligible for expedited permit issuance shall be sent to the applicant for resubmission.
- B. Upon confirmation by the building official of the application and supporting documentation being complete and meeting the requirements of the eligibility checklist, the building official shall administratively approve the application and issue all required permits or authorizations. Such approval does not authorize an applicant to connect the small residential rooftop energy system to the local energy provider's electricity grid. The applicant is responsible for obtaining such approval or permission from the local utility provider.
- C. The building official may require an applicant to apply for a minor conditional use permit in accordance with Carlsbad Municipal Code Chapters 21.42 and 21.54, if a finding is made, based on substantial evidence, that the solar energy system could have a specific, adverse impact upon the public health and safety. Such decisions may be appealed to the Planning Commission in accordance with Carlsbad Municipal Code Chapter 21.54. If a minor conditional use permit is required, the building official may deny an application for the minor conditional use permit if a finding is made, based upon substantial evidence in the record, that the proposed installation would have a specific, adverse impact upon public health or safety and there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact. The basis for the rejection of potential feasible alternatives of preventing the specific, adverse impact shall be included in the finding. The decision to deny may also be appealed to the Planning Commission in accordance with Carlsbad Municipal Code Chapter 21.54. For purposes of carrying out the requirements in this section, "building official" shall be used interchangeably with "City Planner" in Carlsbad Municipal Code Chapters 21.42 and 21.54.
- D. Any condition imposed on an application for a system shall be designed to mitigate a specific, adverse impact upon health and safety at the lowest possible cost.

(Ord. CS-285 § 2, 2015)

#### **§ 18.25.070. Inspection requirements.**

Only one inspection shall be required and performed for small residential rooftop solar energy systems eligible for expedited review. The inspection shall be done in a timely manner and should include consolidated inspections. A separate fire inspection may be performed if necessary. If a small residential rooftop solar energy system fails inspection, a subsequent inspection is authorized but need not conform to the requirements of this chapter.

(Ord. CS-285 § 2, 2015)

**CHAPTER 18.30  
CALIFORNIA ENERGY CODE**

**§ 18.30.010. Adoption and scope.**

The 2022 California Energy Code, California Code of Regulations, Title 24, a portion of the California Building Standards Code, is adopted in its entirety and incorporated by this reference as the energy code except for changes, additions, deletions and amendments in this chapter. The following appendices of the energy code are included in the adoption: Appendix 1-A (Standards and Documents Referenced). The following appendices are deleted: Appendix 1-B.

(Ord. CS-437 § 13, 2022)

**§ 18.30.020. Section 120.11 (Solar or Recovered Energy Requirements for Water Heating Systems) of the California Energy Code added.**

Section 120.11 is added to read as follows:

**120.11 Solar or recovered energy requirements for service water heating systems.**

Any newly constructed nonresidential building shall derive its service water heating from a system that provides at least 40 percent of the energy needed for service water heating from on-site solar energy or recovered energy. Solar energy includes solar photovoltaics and solar-water heating systems.

Exception to Section 120.11: Buildings for which the building official has determined that service water heating from on-site solar energy or recovered energy is economically or physically infeasible. Applicant is responsible for demonstrating requirement infeasibility when applying for an exemption.

(Ord. CS-437 § 13, 2022)

**§ 18.30.030. Section 140.5 (Prescriptive Requirements for Service Water-Heating Systems) of the California Energy Code amended.**

Section 140.5 is amended to read as follows:

**140.5 Prescriptive requirements for service water—heating systems.**

A. Nonresidential occupancies. Service water-heating systems in nonresidential buildings and structures shall meet the requirements of 1 or 2 below, or meet the performance compliance requirements of Section 140.1:

1. School buildings less than 25,000 square feet and less than 4 stories in Climate Zones 2 through 15. A heat pump water-heating system that meets the applicable requirements of Sections 110.1, 110.3, 120.3, 120.11 and 140.5(c).
2. All other occupancies. A service water-heating system that meets the applicable requirements of Sections 110.1, 110.3, 120.3, 120.11 and 140.5(c). In addition, a service water-heating system installed in a nonresidential building or structure shall meet the requirements of parts A, B, or C below:
  - a. A heat pump water heater. The storage tank shall be located in a conditioned space.
  - b. An electric resistance water heater.
  - c. A solar water-heating system with a minimum solar savings fraction of 0.40. Solar water-

heating systems and collectors shall be certified and rated by the Solar Rating and Certification Corporation (SRCC), the International Association of Plumbing and Mechanical Officials, Research and Testing (IAPMO R&T), or by a listing agency that is approved by the Executive Director.

- B. Hotel/motel occupancies. A service water-heating system installed in hotel/motel buildings and structures shall meet the requirements of Section 170.2(d) and Section 140.5(c) and be located in the garage or conditioned space.
- C. High-capacity service water-heating systems. Gas service water-heating systems with a total installed gas water heating input capacity of 1 MMBtu/h or greater shall have gas service waterheating equipment with a minimum thermal efficiency of 90 percent. Multiple units can meet this requirement if the water-heating input provided by equipment with thermal efficiencies above and below 90 percent averages out to an input capacity-weighted average of at least 90 percent.

Exception 1 to Section 140.5(c): If 25 percent of the annual service water-heating requirement is provided by site-solar energy or site-recovered energy.

Exception 2 to Section 140.5(c): Water heaters installed in individual dwelling units.

Exception 3 to Section 140.5(c): Individual gas water heaters with input capacity at or below 100,000 Btu/h shall not be included in the calculations of the total system input or total system efficiency.

(Ord. CS-437 § 13, 2022)

#### **§ 18.30.040. Section 141.2 (Nonresidential Photovoltaic System Required) of the California Energy Code added.**

- A. Section 141.2 is added to read as follows:

##### **141.2 Additions, alterations and repairs—nonresidential photovoltaic system required.**

Additions to existing nonresidential and hotel/motel buildings where the total roof area is increased by at least 2,000 square feet, and alterations to existing nonresidential and hotel/motel buildings with a permit valuation of at least \$1,000,000 that affect at least 75 percent of the gross floor area shall also comply with the requirements of Section 141.2.1 or 141.2.2.

The required installation of a photovoltaic (PV) system shall be sized according to one of the following methods:

1. Based on gross floor area.
  - a. Buildings with greater than or equal to 10,000 square feet of gross floor area shall install a minimum PV system sized at 15 kilowatts direct current (kWdc) per 10,000 square feet of gross floor area.

PV system size = 15 kWdc X Building Size Factor, where the Building Size Factor (BSF) shall equal gross floor area / 10,000 sq. ft., rounded to the nearest tenth. The resulting product shall then be rounded to the nearest whole number. For example, a 126,800 square foot building shall require a minimum 191 kilowatt (kWdc) PV system, as follows:

PV system size = 15 kWdc X BSF, where BSF = 126,800 s.f. / 10,000 s.f. => 12.7 (rounded) 15 kWdc X 12.7 => 191 kWdc (rounded))

- b. Buildings under 10,000 square feet of gross floor area shall install a minimum 5 kilowatt

(kWdc) PV system. Applicants are encouraged to right-size the PV system based on the building's electrical demand to improve the system's cost effectiveness.

2. Based on Time Dependent Valuation (TDV). Install a solar PV system that will offset 80 percent of the building's TDV energy on an annual basis. The system sizing requirement shall be based upon total building TDV energy use including both conditioned and unconditioned space and calculated using modeling software or other methods approved by the building official.

Exceptions:

- a. The building official may waive or reduce, by the maximum extent necessary, the provisions of this Section if the building official determines there are sufficient practical challenges to make satisfaction of the requirements infeasible. Practical challenges may be a result of the building site location, limited rooftop availability, or shading from nearby structures, topography, or vegetation. The applicant is responsible for demonstrating requirement infeasibility when applying for an exemption.
- b. The building official may waive or reduce, by the maximum extent necessary, the provisions of this Section if the building official determines the building has satisfied the purpose and intent of this provision through the use of alternate on-site renewable generation systems such as wind energy systems.

(Ord. CS-437 § 13, 2022)

**§ 18.30.050. Section 150 (Single-Family Residential Buildings—Mandatory Features and Devices) of the California Energy Code added.**

Section 150(n)5 is added to read as follows:

**150(n)5 Solar or recovered energy requirements for service water heating systems.**

Any newly constructed residential building shall derive its service water heating from a system that provides at least 60 percent of the energy needed for service water heating from on-site solar energy or recovered energy. Solar energy includes solar photovoltaics and solar-water heating systems.

Exception to Section 150(n)5: Buildings for which the building official has determined that service water heating from on-site solar energy or recovered energy is economically or physically infeasible. Applicant is responsible for demonstrating requirement infeasibility when applying for an exemption.

(Ord. CS-437 § 13, 2022)

**§ 18.30.060. Section 150.2 (Single-Family Residential Buildings—Additions and Alterations to Existing Residential Buildings) of the California Energy Code added.**

Section 150.2(d) is added to read as follows:

**150.2(d) Additions and alterations—energy efficiency required.**

All additions and alterations of residential buildings with a building permit valuation of \$60,000 or higher shall include one of the following energy efficiency measures:

- A. Additions and alterations of single-family residential buildings built before 1978 shall include one of the following:
  1. Duct sealing pursuant to the 2022 California Code of Regulations, Title 24, Section 150.2(b)1E

without verification by a Home Energy Rating System (HERS) rater. All exceptions as stated in the 2022 California Code of Regulations, Title 24, Section 150.2(b)1E are allowed. Projects that require duct sealing as part of an HVAC alteration or replacement must meet all of the requirements of the 2022 California Code of Regulations, Title 24, Part 6, including HERS rater verification.

2. Attic insulation with a minimum of R-38 rating. Buildings without vented attic spaces and buildings with existing attic insulation levels greater than R-5 are exempt from this attic insulation energy efficiency measure.
  3. Cool roof with an aged solar reflectance of greater than or equal to 0.25 and a thermal emittance of greater than or equal to 0.75. All exceptions as stated in the 2022 California Code of Regulations, Title 24, Section 150.2(b)1Ii for steep slope roofs and 150.2(b)1Iii for low slope roofs are allowed. Only areas of roof that are to be re-roofed are subject to the cool roof upgrade. Projects that are not installing a new roof as part of the scope are exempt from this cool roof energy efficiency measure.
- B. Additions and alterations of single-family residential buildings built in 1978 or after shall include one of the following:
1. A lighting package consisting of:
    - a. Replacement of all interior and exterior screw-in (A-base) incandescent and halogen lamps with screw-in LED lamps; and
    - b. Installation of manual-on automatic-off vacancy sensors that meet the 2022 California Code of Regulations, Title 24, Section 110.9(b)4 in all bathrooms, bedrooms, offices, laundry rooms, utility rooms, and garages. Spaces which already include vacancy sensors, motions sensors, or dimmers do not need to install new sensors as required by the 2022 California Code of Regulations, Title 24, Section 110.9(b)4.
  2. A water heating package consisting of:
    - a. Addition of exterior insulation meeting a minimum of R-6 to storage water heaters 20 gallons or larger in size, except if insulation installation would void the water heater warranty; and
    - b. Insulation of all accessible hot water pipes with pipe insulation a minimum of 0.75 inches in thickness. This includes insulating the supply pipe leaving the water heater, piping to faucets underneath sinks, and accessible pipes in attic spaces and crawlspaces; and
    - c. Upgrading of fitting in sinks and showers to meet current CALGreen (Title 24, Part 11 of the California Building Code) standards, except for fixtures with rated flow rates no more than 10 percent greater than current CALGreen standards.
- C. Additions and alterations of multi-family residential buildings built before 1978 shall include attic insulation with a minimum of R-38 rating. Buildings without vented attic spaces and buildings with existing attic insulation levels greater than R-5 are exempt from this attic insulation energy efficiency measure.
- D. Additions and alterations of multi-family residential buildings built between 1978 and 1991 shall include one of the following:

1. Duct sealing pursuant to the 2022 California Code of Regulations, Title 24, Section 150.2(b)1E without verification by a HERS rater. All exceptions as stated in the 2022 California Code of Regulations, Title 24, Section 150.2(b)1E are allowed. Projects that require duct sealing as part of an HVAC alteration or replacement must meet all of the requirements of the 2022 California Code of Regulations, Title 24, Part 6, including HERS rater verification.
  2. Attic insulation with a minimum of R-38 rating. Buildings without vented attic spaces and buildings with existing attic insulation levels greater than R-5 are exempt from this attic insulation energy efficiency measure.
  3. Cool roof with an aged solar reflectance of greater than or equal to 0.25 and a thermal emittance of greater than or equal to 0.75. All exceptions as stated in the 2022 California Code of Regulations, Title 24, Section 150.2(b)1Ii for steep slope roofs and Section 150.2(b)1Iii for low slope roofs are allowed. Only areas of roof that are to be re-roofed are subject to the cool roof upgrade. Projects that are not installing a new roof as part of the scope are exempt from this cool roof energy efficiency measure.
- E. Additions and alterations of multi-family residential buildings built after 1991 shall include one of the following:
1. A lighting package consisting of:
    - a. Replacement of all interior and exterior screw-in (A-base) incandescent and halogen lamps with screw-in LED lamps; and
    - b. Installation of manual-on automatic-off vacancy sensors that meet the 2022 California Code of Regulations, Title 24, Section 110.9(b)4 in all bathrooms, bedrooms, offices, laundry rooms, utility rooms, and garages. Spaces which already include vacancy sensors, motions sensors, or dimmers do not need to install new sensors as required by the 2022 California Code of Regulations, Title 24, Section 110.9(b)4.
  2. A water heating package consisting of:
    - a. Addition of exterior insulation meeting a minimum of R-6 to storage water heaters 20 gallons are larger in size, except for buildings with central water heating systems or if insulation installation would void the water heater warranty; and
    - b. Insulation of all accessible hot water pipes with pipe insulation a minimum of 0.75 inches in thickness. This includes insulating the supply pipe leaving the water heater, piping to faucets underneath sinks, and accessible pipes in attic spaces and crawlspaces; and
    - c. Upgrading of fittings in sinks and showers to meet current CALGreen standards, except for fixtures with rated flow rates no more than ten percent

Note: To the extent the provisions of 2022 California Code of Regulations, Title 24, Section 150.2(d) conflict with other provisions of the California Energy Code, then the most energy conserving provisions shall supersede and control.

Exception to 2022 California Code of Regulations, Title 24, Section 150.2(d): The requirement for inclusion of energy efficiency measures does not apply to residential buildings that receive a rating of seven or higher on the U.S. Department of Energy's Home Energy Score rating system based upon an assessment by a Home Energy Score Certified Assessor, to the satisfaction of the building official.

(Ord. CS-437 § 13, 2022)

**§ 18.30.070. Section 180.5 (Multifamily Residential Buildings—Additions, Alterations and Repair to Existing Multifamily Buildings) of the California Energy Code added.**

Section 180.5 is added to read as follows:

**180.5 Additions, alterations and repairs—residential photovoltaic system required.**

All additions, alterations and repairs multifamily residential buildings and structures with a permit valuation of \$1,000,000 that affects at least 75 percent of the gross floor area shall comply with the requirements of 2022 California Code of Regulations, Title 24, Section 141.2 for the requirements applicable to the building and structures of this code.

(Ord. CS-437 § 13, 2022)

CHAPTER 18.32  
**TENTS**

**§ 18.32.010. Erection requirements.**

No tents may be erected or occupied in the city for the purpose of living or sleeping and no overnight camping shall be permitted within the city, excepting that temporary occupancy permits for tents may be issued by the Community and Economic Development Director for youth camping under adult supervision. All buildings used for living or sleeping purposes shall be erected in accordance with the city building code and the city housing act.

(Ord. 6021 § 1; Ord. 1261 § 27, 1983; Ord. NS-676 § 7, 2003; Ord. CS-164 § 14, 2011)

**CHAPTER 18.40  
DEDICATION AND IMPROVEMENTS**

**§ 18.40.010. Findings, purpose and intent.**

- A. The City Council finds as follows:
1. There is a lack of adequate roadway edge treatments, pedestrian facilities and streets in various areas of the city which may be prejudicial and dangerous to the public health, safety, and welfare of the inhabitants of the city.
  2. The lack of improved pedestrian pathways in the city in many instances forces pedestrians, including school children, to walk in the streets and to be subject to the hazards of vehicular traffic.
  3. The lack of improved pedestrian pathways during rainy weather has caused unhealthy conditions resulting from pedestrians walking through mud or water along streets or dirt sidewalks.
  4. Streets and highways of inadequate width and design hinder vehicular movement and constitute a hazard to the safety and health of users.
  5. The lack of curbs, storm drains and other street improvements results in poor drainage and a collection of filth and waste.
  6. The lack of improved streets impedes the operation of fire trucks, police cars and other emergency vehicles as well as the operation of street sweepers and refuse collection vehicles.
- B. It is the purpose of the City Council in adopting the provisions of this chapter to:
1. Impose reasonable requirements of dedication and improvements upon persons engaged in the development, construction, reconstruction or remodeling of buildings which tend to result in increased demands upon the existing public rights-of-way and streets and highways in the city thereby increasing the danger to the public health, safety and welfare;
  2. Extend the basic requirements of the Subdivision Map Act by establishing standards and requirements for dedication and improvements in connection with the development of land in which no subdivision is involved;
  3. Alleviate the undesirable situation found to exist in subsection A of this section by spreading the cost of public improvements upon abutting property in an equitable manner and by causing the installation of those improvements required by the city to serve property about to be developed at the time of its development.
- C. The City Council intends to require, in accordance with the provisions of this chapter, the dedication of portions of the public rights-of-way including streets, highways, alleys and storm drain facilities and the construction of improvements contiguous to the property from the property line to the centerline of the public rights-of-way as necessitated by the nature and type of building or structure being constructed and the use to which the property is being put.

(Ord. 8067 § 1, 1976; Ord. NS-555 § 1, 2000)

**§ 18.40.020. Definitions.**

For the purposes of this chapter, the following words and phrases shall have the meaning respectively ascribed to them by this section:

"Alley" means a public or private way permanently reserved as a secondary means of access to abutting property.

"Alternative design streets" means any street designated by resolution of the City Council as an "alternative design street" subject to the alternative street design approval process used to determine the final improvement standards for the designated street.

"Building" includes any building, structure or dwelling of which the cost price of erecting the same is in excess of the sum of \$15,000.00 as determined by building permit valuation.

"Improvements" includes, but is not limited to, sidewalks, gutters, pavement, driveways, curbs, streets, alleys, storm drain facilities, water systems, sanitary sewer systems, street lighting, fire protection installation, undergrounding of utility facilities and pavement transitions.

"Person" means any person, firm, partnership, association, corporation, company or organization of any kind. The term "person" also includes any owner, lessee or agent constructing or arranging for the construction, modification, or alteration of a building or dwelling.

(Ord. 8067 § 1, 1976; Ord. 205 § 1, 1992; Ord. NS-555 § 2, 2000)

**§ 18.40.030. Dedications required.**

- A. Any person who constructs or causes to be constructed any building in the city shall have provided by means of an irrevocable offer of dedication, grant of easement or other appropriate conveyance, as approved by the City Attorney, the rights-of-way necessary for the construction of any street, highway, or alley as shown on the circulation element of the general plan, any applicable specific plans, or as otherwise required by the City Engineer in accord with an established street system or plan. Rights-of-way shall also be provided for any improvements to existing facilities including rights-of-way for storm drains or other required public facilities. All rights-of-way shall be accompanied by a title examination report and all liens and encumbrances shall be removed or subordinated to the city's interests.
- B. The dedications or irrevocable offer of dedication required by subsection A of this section shall also apply to any person who enlarges, expands, or causes to be enlarged, or expanded any building in the city if the cost of such work exceeds the sum of \$15,000.00 as determined by building permit valuation. Said amount is to be increased annually consistent with International Conference of Building Officials valuation schedule for the appropriate construction type.
- C. The dedications required by this chapter shall be made prior to issuance of the building permit for the subject property.
- D. Repealed by Ord. 205 § 2.  
(Ord. 8067 § 1, 1976; Ord. 7058 § 3, 1979; Ord. 205 § 2, 1992; Ord. NS-555 § 3, 2000; Ord. CS-085, 2010)

**§ 18.40.040. Public improvements required.**

- A. Any person who constructs or causes to be constructed any building in the city shall construct all necessary improvements in accordance with city specifications upon the property and along all street frontages adjoining the property upon which such building is constructed unless adequate

improvements already exist. In each instance, the City Manager shall determine whether or not the necessary improvements exist and are adequate. Each building permit application shall be so endorsed at the time it is issued.

- B. The improvements required by subsection A of this section shall also apply to any person who enlarges or expands or causes to be enlarged or expanded any building in the city if the cost of such work exceeds \$75,000.00 and increases the size of the building. Such amount is to be increased annually consistent with International Conference of Building Officials valuation scheduled for the appropriate construction type.

(Ord. 8067 § 1, 1976; Ord. NS-15 § 1, 1988; Ord. 205 § 3, 1992; Ord. NS-518 § 1, 1999; Ord. NS-555 § 4, 2000)

#### **§ 18.40.050. Public utility relocations.**

In the event the City Manager determines that the contemplated construction of improvements as required by this chapter in individual cases will necessitate the relocation or alteration of public utility facilities, including, but not limited to, gas, electricity, telephone and water, he or she may require the person requesting the building permit to produce satisfactory evidence that such person has made arrangements with such public utility company for the relocation or modification of such public utility facilities.

(Ord. 8067 § 1, 1976)

#### **§ 18.40.060. Construction of public improvements.**

If the City Manager determines that public improvements are required, these public improvements shall be designed to city standards and their construction guaranteed by an improvement agreement secured by a bond or cash deposit prior to issuance of a building permit for the subject property. If the building permit is not exercised, the improvement obligation shall terminate and the security shall be returned. The City Manager is authorized to execute such agreements on behalf of the city.

(Ord. 8067 § 1, 1976)

#### **§ 18.40.070. Deferral of improvement requirements.**

Upon written application, the City Manager by written order may defer any of the improvements required by this chapter if he or she finds that the public health, safety and welfare of the inhabitants of the city will not be endangered by the deferral of the construction of the improvements and that any one of the following exists:

- A. There is a lack of adequate data in regard to the grades, plans or surveys which complicate the construction of the improvements and indicate they should be deferred to a later time.
- B. The construction of the improvements is included in an approved or pending assessment district or otherwise guaranteed as provided by city ordinance.
- C. Construction of the improvements would be incompatible with the present state of the neighborhood's development or be impractical or premature because of the condition of the surrounding property.
- D. Construction of the improvements would create a hazardous or defective condition.
- E. Improvement would be to a street designated by resolution of the City Council as an alternative design street and subject to the alternative street design approval process.
- F. Improvements are not continuous with existing improvements and construction would be impractical.

(Ord. 8067 § 1, 1976; Ord. NS-555 § 5, 2000)

**§ 18.40.080. Appeal.**

- A. The granting or denial of a deferral of improvements pursuant to Section 18.40.070 by the City Manager shall, unless appealed to the City Council in accordance with Section 1.20.600, become final 10 days after the filing of the City Manager's written decision setting forth the findings in support thereof.
  - B. The City Council shall set the matter for hearing within 30 days and may approve, modify or disapprove the decision of the City Manager.
- (Ord. 8067 § 1, 1976; Ord. 205 § 4, 1992; Ord. NS-249 § 1, 1993)

**§ 18.40.090. Conditions of deferral.**

Any deferral of improvements pursuant to Section 18.40.070 shall be conditioned on the filing with the City Manager of a neighborhood improvement agreement in a form satisfactory to the City Attorney which provides that the property owner will construct the improvement at such time as an improvement district or neighborhood improvement program is adopted. The City Manager is authorized to execute such agreement on behalf of the city. Such agreement must be received and recorded prior to issuance of a building permit. If the building permit is not exercised, the City Manager is authorized to execute a release of agreement for the subject property.

Prior to the recordation of a neighborhood improvement agreement, there shall be paid to the engineering department a fee as set by resolution of the City Council for the processing of the agreement.

(Ord. 8067 § 1, 1976; Ord. 7058 § 4, 1979; Ord. 205 § 5, 1992; Ord. NS-555 § 6, 2000)

**§ 18.40.100. Waiver or modification of requirements.**

Upon written application, submitted to the City Council and accompanied by a fee as established by resolution of the City Council, the City Council may by resolution waive or modify the requirements of this chapter if they find that:

- A. The street fronting on the subject property has already been improved to the maximum feasible and desirable state, recognizing there are some such streets which may have less than standard improvements when necessary to preserve the character of the neighborhood and to avoid unreasonable interference with such things as trees, walls, yards and open space;
- B. The granting of the waiver or modification will not perpetuate a hazardous or defective condition or be otherwise detrimental to the health, safety or welfare of the residents of the city.

(Ord. 8067 § 1, 1976; Ord. 205 § 6, 1992)

**§ 18.40.110. Duty to deny final building permit approval.**

The Community and Economic Development Director shall deny final approval and acceptance of a building permit, and shall refuse to allow final public utility connections and occupancy in any building, structure or dwelling unless the City Manager determines that all required dedications have been made and that all necessary improvements exist, are constructed, or unless the City Manager, pursuant to Section 18.40.070, has determined to defer the installation of such improvements, and the required future improvement agreement and a lien contract has been received and recorded, or unless the requirements of the chapter have been modified or waived pursuant to Section 18.40.100.

(Ord. 8067 § 1, 1976; Ord. 1261 § 29, 1983; Ord. NS-676 § 7, 2003; Ord. CS-164 § 14, 2011)

**§ 18.40.120. Applicability of requirements.**

Requirements of this chapter shall not apply to any buildings, structures, or dwellings for which a building permit has been issued prior to June 3, 1976.

(Ord. 8067 § 1, 1976)

**CHAPTER 18.42  
TRAFFIC IMPACT FEE**

**§ 18.42.010. Purpose and intent.**

- A. This chapter imposes a fee to pay for various traffic circulation improvements within the city. The amount of the fee is based on a Traffic Engineering analysis and has been calculated to be equal to or less than the cost of the circulation improvements. The circulation improvements funded by this fee shall be designated by City Council resolution. The City Council may modify the designation by amendment to the resolution at any time. It is the City Council's intention to review the designation of circulation improvements and the amount of the fee on an annual basis. In reviewing the improvements and amount of the fee, the City Council shall consider, among other things, any changes to the land use designations or intensity of development, changes in the amount of traffic generated or anticipated, inflation and increases in cost of materials and labor.
- B. This chapter is necessary to ensure that adequate circulation facilities are available to serve the city in a manner which is consistent with the city's general plan. Without the circulation improvements which will be funded by this fee the circulation system of the city will be inadequate to serve any further development in the city.

(Ord. 8107 § 1, 1986; Ord. NS-177 § 1, 1991)

**§ 18.42.020. Definitions.**

For the purposes of this chapter, the following words or phrases shall be construed as defined in this section.

"Building permit" means a permit required by and issued pursuant to Chapter 18.04 of this code.  
"Occupancy permit" means a permit required by and issued pursuant to Chapter 21.60 of this code.

"Circulation improvements" means any street improvement identified by City Council resolution, including, but not limited to, right-of-way, traffic signals, overcrossings, underpasses, curbs, gutters, sidewalks, pavement, drainage facilities incidental to street improvements, necessary to provide traffic circulation consistent with the city's general plan. For the purpose of this definition, "street" includes highway or road.

"Project" means on any property subject to this chapter, any new or additional building, structure, or any land use change which increases the number of trips generated by the use of the lot or parcel.

"Property subject to this chapter" means any lot or parcel of land in the city.

"Trip" means an arrival at or a departure from a project by any motor vehicle averaged over a one-day period (12:01 a.m. to 11:59 p.m.) as determined according to Table 18.42.020. In using this table, the square footage of the building, structure or use shall include all interior floor area of a building or structure, and all usable ground area of a use without a structure, except any designated open space area. Where the table establishes traffic generation for a project on the basis of square footage, acreage, or some other unit, the unit establishing the greatest number of trips shall be utilized. When a project has more than one use the number of trips shall be calculated by adding together all the trips generated by each use. For uses not listed in the table the trips shall be calculated by the Transportation Director.

**Table 18.42.020**

<b>Land Use</b>	<b>Estimated Weekday Vehicle Trip Generation Rate</b>
Agricultural (Open space)	2/acre
Airports	
Commercial	12/acre, 100/flight, 70/1,000 sq. ft.
General aviation	4/acre, 2/flight, 6/based aircraft
Heliports	100/acre
Automobile	
Car wash	900/site, 600/acre
Gasoline	750/station, 130/pump
Sales (Dealer and repair)	40/1,000 sq. ft., 300/acre, 60/service stall
Auto repair center	20/1,000 sq. ft., 400/acre, 20/service stall
Banking	
Bank (Walk-in only)	150/1,000 sq. ft., 1,000/acre
Bank (with drive-through)	200/1,000 sq. ft., 1,500/acre
Drive-through only	300 (150 one-way)/lane
Savings and Loans	60/1,000 sq. ft., 600/acre
Drive-through only	100 (50 one-way)/lane
Cemeteries	5/acre
Church (or Synagogue)	15/1,000 sq. ft., 40/acre (triple rates for Sunday, or days of assembly)
Commercial/retail centers	
Super regional shopping center (more than 60 acres, more than 600,000 sq. ft., with usually 3+ major stores)	40/1,000 sq. ft., 400/acre
Regional shopping center (30—60 acres, 300,000—600,000 sq. ft., with usually 2+ major stores)	50/1,000 sq. ft., 500/acre
Community shopping center (10—30 acres, 100,000—300,000 sq. ft., with usually 1 major store and detached restaurant)	70/1,000 sq. ft., 700/acre
Neighborhood shopping center (less than 10 acres, less than 100,000 sq. ft., with usually a grocery store and drug store)	120/1,000 sq. ft., 1,200/acre
Commercial shops (also strip—commercial)	40/1,000 sq. ft., 400/acre
Grocery store	150/1,000 sq. ft., 2,000/acre
Convenience market	500/1,000 sq. ft.
Discount	70/1,000 sq. ft., 700/acre

**Table 18.42.020**

<b>Land Use</b>	<b>Estimated Weekday Vehicle Trip Generation Rate</b>
Furniture store	6/1,000 sq. ft., 100/acre
Lumber store	30/1,000 sq. ft., 150 acre
Hardware/paint store	60/1,000 sq. ft., 600/acre
Garden nursery	40/1,000 sq. ft., 90/acre
Education	
University (4 years)	2.5/student, 100/acre
Junior college (2 years)	1.6 student, 80/acre
High school	1.4 student, 50/acre
Middle/Junior High	1.0 student, 40/acre
Elementary	1.4 student, 60/acre
Day care	3/child, 70/1,000 sq. ft.
Hospitals	
General	20/bed, 20/1,000 sq. ft., 200/acre
Convalescent/Nursing	3/bed
Industrial	
Industrial/Business park (commercial included)	16/1,000 sq. ft., 200/acre
Industrial park (no commercial)	8/1,000 sq. ft., 90/acre
Industrial park (multiple shifts)	10/1,000 sq. ft., 120/acre
Manufacturing/Assembly	4/1,000 sq. ft., 60/acre
Warehousing	5/1,000 sq. ft., 60/acre
Storage	2/1,000 sq. ft., 0.2/vault, 30/acre
Science, research and development	8/1,000 sq. ft., 80/acre
Library	40/1,000 sq. ft., 400/acre
Lodging	
Hotel (with convention facilities/restaurant)	10/room, 300/acre
Motel	9/room, 200/acre
Resort hotel	8/room, 100/acre
Military	2.5 military and civilian personnel
Offices	
Standard commercial office (less than 100,000 sq. ft.)	20/1,000 sq. ft., 300/acre
Large (high-rise) commercial office (more than 100,000 sq. ft.)	17/1,000 sq. ft., 600/acre

**Table 18.42.020**

<b>Land Use</b>	<b>Estimated Weekday Vehicle Trip Generation Rate</b>
Standard commercial office (less than 100,000 sq. ft.)	20/1,000 sq. ft., 300/acre
Corporate office (single user)	10/1,000 sq. ft., 140/acre
Government office (single user)	30/1,000 sq. ft.
Post office	150/1,000 sq. ft.
Department of motor vehicles	180/1,000 sq. ft., 900/acre
Medical	50/1,000 sq. ft., 500/acre
Parks	
City (developed)	50/acre
Regional (undeveloped)	5/acre
Neighborhood	5/acre
Amusement (theme)	80/acre, 130/acre (summer only)
San Diego Zoo	115/acre
Sea World	80/acre
Recreation	
Beach, ocean or bay	600/1,000 ft. shoreline, 60/acre
Beach, lake (fresh water)	50/1,000 ft. shoreline, 5/acre
Bowling center	30/lane, 300/acre
Campground	4/campsite
Golf course	8/acre, 600/course
Marinas	4/berth, 20/acre
Racquetball/health club	40/1,000 sq. ft., 300/acre, 40/court
Tennis courts	30/1,000 sq. ft., 30/court
Sports facilities	
Outdoor stadium	50/acre, 0.2/seat
Indoor arena	30/acre, 0.1/seat
Racetrack	40/acre, 0.6/seat
Theaters (multiplex)	80/1,000 sq. ft., 1.8/seat
Residential (See Note 1)	
Single-family detached	10/dwelling unit
Condominium	8/dwelling unit
Apartments	6/dwelling unit
Mobile home	

**Table 18.42.020**

<b>Land Use</b>	<b>Estimated Weekday Vehicle Trip Generation Rate</b>
Family	5/dwelling unit, 40/acre
Adults only	3/dwelling unit, 20/acre
Retirement community	4/dwelling unit
Rural estate	12/dwelling unit
Congregate care facility	2/dwelling unit
Restaurants (See Note 2)	
Quality	100/1,000 sq. ft., 500/acre
Sit-down, high turnover	300/1,000 sq. ft., 1,200/acre
Fast food (with drive-through)	700/1,000 sq. ft., 3,000/acre
Transportation facilities	
Bus depot	25/1,000 sq. ft.
Truck terminal	10/1,000 sq. ft., 60/acre
Waterport	170/berth, 12/acre
Transit station (rail)	300/acre

**Note 1** As used in this table, "single-family detached," "condominium" and "apartments" shall be defined consistent with the Institute of Transportation Engineers guidebook "Trip Generation." "Condominium" is defined as single family ownership units that have at least one other single-family owned unit within the same building structure. "Apartments" are defined as rental dwelling units located within the same building as at least three other dwelling units. Duplexes that are not individual ownership units will be assessed at the "condominium" generation rate.

**Note 2** Square footage of dining area allowed in incidental outdoor dining areas pursuant to Section 21.26.013, and square footage of dining area allowed without any parking requirement in outdoor, sidewalk or curb cafes, as defined by and pursuant to the Village and Barrio Master Plan and the City Council, shall not count towards the generation of trips. However, any combination of outdoor dining area square footage which exceeds the amount of indoor dining area square footage shall count towards the generation of trips.

(Ord. 8107 § 1, 1986; Ord. NS-177 §§ 2, 3, 1991; Ord. CS-086, 2010; Ord. CS-164 § 2, 2011; Ord. CS-207 § 2, 2013; Ord. CS-333 § 11, 2018)

### **§ 18.42.030. Prohibition on development.**

For any property subject to this chapter, notwithstanding any provision of this code to the contrary, no building permit or occupancy permit for any project shall be issued and no person shall build, use or occupy any project, without first paying the fee established by, or otherwise complying with, this chapter. (Ord. 8107 § 1, 1986)

### **§ 18.42.040. Requirement for permit issuance.**

Prior to the issuance of a building permit or occupancy permit for a project the project owner or developer

shall:

- A. Provide the Transportation Director with detailed information regarding the size, siting, types of uses and trips to be generated by the project;
  - B. Pay the fee established by Section 18.42.050 of this code.
- (Ord. 8107 § 1, 1986; Ord. CS-164 § 2, 2011)

#### **§ 18.42.050. Fee.**

- A. A traffic impact fee of \$265.00 for each average daily trip generated by a residential project and a traffic impact fee of \$106.00 for each average daily trip generated by a commercial or industrial project, pursuant to Section 18.42.020(E), shall be paid by the owner or developer prior to issuance of any building permit or occupancy permit for a project. The traffic impact fee shall be adjusted annually as part of the capital improvement program budget process, by two percent or the annual percentage change in the Caltrans Construction Cost Index (12-month index), whichever is higher.
- B. In lieu of payment of all or part of the fee the project owner or developer may offer to construct or fund circulation improvements to the satisfaction of the City Council, other than circulation improvements required by any other law, approval or city action. If such offer is accepted by the City Council, any amount expended by the project owner or developer shall be credited against the fee. If the offer is rejected the fee shall be paid. The offer shall be made at the time of consideration of any discretionary planning or subdivision permit or approval, or if no such permit or approval is required then before building permit application is filed.
- C. The City Council shall give a credit toward the fee imposed by this chapter for properties within the boundaries of and subject to taxation by community facilities district number one. The amount of such credit shall be determined by the City Council and established by resolution.
- D. Notwithstanding subsection A of this section, all traffic impact fees for any residential development that consists of five or more dwelling units and for all new commercial, office, and industrial buildings or building additions shall only be paid prior to building permit issuance, or, at the request of the applicant, deferred until all work required for final inspection has been completed and all department approvals required for final inspection have been obtained by the applicant. If the applicant chooses to defer the payment of fees to prior to the request for final inspection, then the amount of the fees shall be based on the fees in effect at the time of the request for final inspection.

In the event that the city, for any reason, fails to collect any or all fees prior to final inspection, such fees shall remain the obligation of the developer and/or the property owner.

(Ord. 8107 § 1, 1986; Ord. NS-158 § 2, 1991; Ord. NS-177 § 4, 1991; Ord. NS-885 § 1, 2008; Ord. NS-890 §§ 1, 2, 2008; Ord. CS-028 § 1, 2009; Ord. CS-200 § III, 2013; Ord. CS-271 § III, 2015)

#### **§ 18.42.060. Exemption.**

Projects by public agencies or entities shall be exempt from the provisions of this chapter.  
(Ord. 8107 § 1, 1986)

#### **§ 18.42.070. Use of fees.**

- A. All of the fees collected for a commercial or industrial project shall be allocated to a circulation improvement account and shall be expended only to build or finance circulation improvements serving the city.

- B. All of the fees collected for each newly constructed residential unit, excepting the portion defined in subsection C of this section, shall be allocated to a circulation improvement account and shall be expended only to build or finance circulation improvements serving the city.
- C. A portion of the fees collected for newly constructed residential housing units, excepting the fees collected for newly constructed housing units constructed for extremely low, very-low, low and moderate income households as defined in California Health and Safety Code Sections 50105, 50106, 50079.5 and 50093, during the 40-year period starting July 1, 2008 shall be allocated to a separate circulation improvement sub account and shall be used to build or finance circulation improvements to the regional arterial system as adopted by the Board of the San Diego Association of Governments. For the year from July 1, 2008 to June 30, 2009, said portion shall equal \$2,000.00 per residential housing unit. Said portion shall be adjusted annually as part of the city's capital improvement program budget process, by two percent or the annual percentage change in the Caltrans Construction Costs Index, (12-month index), whichever is higher.

(Ord. 8107 § 1, 1986; Ord. NS-177 § 5, 1991; Ord. NS-885 § 2, 2008; Ord. NS-890 § 3, 2008)

#### **§ 18.42.080. Assessment district.**

If an assessment district or special taxing district is established for all or any part of the area subject to this chapter to fund circulation improvements which are or will be funded in whole or in part by the fee established by this chapter, the owner or developer of a project may apply to the City Council for a credit against the fee in an amount equal to the assessments or taxes paid.

(Ord. 8107 § 1, 1986)

#### **§ 18.42.090. Advance of funds by city.**

The city may advance money from any available source or fund for the construction of improvements which would otherwise be paid for from the fees collected pursuant to this chapter and reimburse itself from future fees.

(Ord. 8107 § 1, 1986)

#### **§ 18.42.100. Expiration of chapter.**

This chapter shall be of no further force and effect when the City Council determines the amount of fees which have been collected reaches an amount equal to the cost of the circulation improvements.

(Ord. 8107 § 1, 1986)

## CHAPTER 18.48 STORMWATER POLLUTION PREVENTION

### **§ 18.48.010. Purpose and intent.**

The purpose of this chapter is to ensure the environmental and public health, safety, and general welfare of the residential, commercial, and industrial sectors of the City of Carlsbad by:

- A. Prohibiting non-stormwater discharges to the stormwater conveyance system.
- B. Eliminating discharges to the stormwater conveyance system from spills, dumping or disposal of materials other than stormwater or permitted or exempted discharges.
- C. Reducing pollutants in stormwater discharges, including those pollutants taken up by stormwater as it flows over urban areas (urban runoff), to the maximum extent practicable.
- D. Reducing pollutants in stormwater discharges in order to achieve applicable water quality objectives for receiving waters within the City of Carlsbad.

(Ord. NS-882 § 1, 2008)

### **§ 18.48.020. Definitions.**

For purposes of this chapter, the definitions for the words, terms or phrases defined in Chapter 15.04 of this code shall be used.

(Ord. NS-882 § 1, 2008)

### **§ 18.48.030. Prohibition on development.**

For any property subject to this chapter, notwithstanding any provision of this code to the contrary, no building permit or certificate of occupancy permit for any project shall be issued and no person shall build, use or occupy any project, without first complying with the stormwater protection provisions of Title 15 of this code.

(Ord. NS-882 § 1, 2008)

### **§ 18.48.040. Requirement for permit issuance.**

- A. Prior to the issuance of a building permit or certificate of occupancy permit for a project, the project owner or developer shall:
  1. Provide the City Engineer with a completed stormwater requirements applicability questionnaire in accordance with standard urban stormwater mitigation plan (SUSMP) requirements. If the project is determined by the City Engineer to be a priority development project, then the project owner or developer shall:
    - a. Prepare and submit a stormwater management plan in conformance with the requirements of the SUSMP and Title 15 of this code;
    - b. Enter into a permanent stormwater quality best management practices maintenance agreement or provide an alternate maintenance mechanism as approved by the City Engineer.
  2. Agree to comply with stormwater best management practices during construction of the building, structure or dwelling.

B. A city-approved construction SWPPP is required to be submitted prior to building permit issuance in accordance with city standards and Section 15.16.085 of this code for any project which has the potential for adding pollutants to stormwater or non-stormwater runoff during construction activities, unless an exemption from such requirement is provided pursuant to Section 15.16.085 and the municipal permit.

(Ord. NS-882 § 1, 2008)

**§ 18.48.050. Duty to deny final building permit approval.**

The Community and Economic Development Director shall deny final approval and acceptance of a building permit, and shall refuse to allow final public utility connection and occupancy in any building, structure or dwelling unless the project owner or developer has complied with all stormwater protection provisions of Title 15 of this code.

(Ord. NS-882 § 1, 2008; Ord. CS-164 § 14, 2011)

**CHAPTER 18.50  
WATER EFFICIENT LANDSCAPE**

**Note: Prior ordinance history: Ord. Nos. CS-089 and CS-164.**

**§ 18.50.010. Purpose.**

- A. The state legislature determined in the Water Conservation in Landscaping Act (the "Act"), Government Code Section 65591 et seq., that the state's water resources are in limited supply and are subject to ever increasing demands, and that California's continued economic prosperity is dependent on adequate supplies of water being available for future uses. The legislature also recognized that while landscaping is essential to the quality of life in California, landscape design, installation, maintenance and management must be water efficient. The general purpose of this chapter is to establish water use standards for landscaping in the City of Carlsbad that implement legislative amendment AB 1881, 2006 Stats Chapter 559 enacting the Act; and the 2006 development landscape design requirements established by the Act. Consistent with the legislature's findings, the purpose of this chapter is to:
  1. Promote the values and benefits of landscaping practices that integrate and go beyond the conservation and efficient use of water;
  2. Establish a structure for planning, designing, installing, maintaining, and managing water efficient landscapes in new construction and rehabilitated projects by encouraging the use of a watershed approach that requires cross-sector collaboration of industry, government and property owners to achieve the many benefits possible;
  3. Promote the use, when available, of treated recycled water, for irrigating landscaping;
  4. Use water efficiently without waste by setting a maximum applied water allowance (MAWA) as an upper limit for water use and reduce water use for landscaping to the lowest practical amount; and
  5. Encourage water users of existing landscapes to use water efficiently and without waste.
- B. Landscapes that are planned, designed, installed, managed and maintained with the watershed based approach can improve Carlsbad's environmental conditions and provide benefits realizing sustainability goals. Such landscapes will make the urban environment resilient in the face of climatic extremes. Consistent with the purpose of this chapter, conditions in the urban setting will be improved by:
  1. Creating the conditions to support life in the soil by reducing compaction, incorporating organic matter that increases water retention, and promoting productive plant growth that leads to more carbon storage, oxygen production, shade, habitat and aesthetic benefits.
  2. Minimizing energy use by reducing irrigation water requirements, reducing reliance on petroleum-based fertilizers and pesticides, and planting climate appropriate shade trees in urban areas.
  3. Conserving water by capturing and reusing rainwater and graywater wherever possible and selecting climate appropriate plants that need minimal supplemental water after establishment.
  4. Protecting air and water quality by reducing power equipment use and landfill disposal trips,

selecting recycled and locally sourced materials, and using compost, mulch and efficient irrigation equipment to prevent erosion.

5. Protecting existing habitat and creating new habitat by choosing local native plants, climate adapted non-natives and avoiding invasive plants. Utilizing integrated pest management with least toxic methods as the first course of action.

(Ord. CS-175 § 1, 2012; Ord. CS-294 § 1, 2016)

#### **§ 18.50.020. Authority.**

The City Planner or designee, shall administer this chapter.

(Ord. CS-175 § 1, 2012; Ord. CS-294 § 1, 2016)

#### **§ 18.50.030. Incorporation of the Landscape Manual by reference.**

The City of Carlsbad Landscape Manual Policies and Requirements ("Landscape Manual") is incorporated by reference into this chapter. Should any provision of the Landscape Manual conflict with any provision of this chapter, the provisions of this chapter shall control.

(Ord. CS-175 § 1, 2012; Ord. CS-294 § 1, 2016)

#### **§ 18.50.040. Findings.**

This chapter implements the Act. The requirements of this chapter reduce water use associated with irrigation of outdoor landscaping by setting a maximum amount of water to be applied to landscaping. The Landscape Manual contains the technical procedures related to the planning, design, installation, maintenance and management of water efficient landscapes consistent with the water allowance. The provisions contained in this chapter and/or the Landscape Manual are equivalent to and at least as effective as the provisions of the State Model Water Efficient Landscape Ordinance because the calculation of MAWA and the resulting restrictions on irrigation and process are similar, but have been modified to account for Carlsbad's existing regulatory procedures.

(Ord. CS-175 § 1, 2012; Ord. CS-294 § 1, 2016)

#### **§ 18.50.050. Definitions.**

Whenever the following terms are used in this chapter, they shall have the meaning established by this section:

"Building permit" is as defined in Section 18.04.015 of this code.

"Compost" means the safe and stable product of controlled biologic decomposition of organic materials that is beneficial to plant growth.

"Discretionary permit" means any permit requiring a decision making body to exercise judgment prior to its approval, conditional approval or denial.

"ET adjustment factor (ETAF)" means a factor that when applied to reference ET<sub>o</sub>, adjusts for plant water requirements and irrigation efficiency, two major influences on the amount of water that is required for a healthy landscape.

"Evapotranspiration (ET<sub>o</sub>)" means the quantity of water evaporated from adjacent soil and other surfaces and transpired by plants during a specified time period. "Reference evapotranspiration" means a standard measurement of environmental parameters which affect the water use of plants. ET<sub>o</sub> is given in inches per day, month, or year and is an estimate of the ET<sub>o</sub> of a large field of four inches to seven inches tall, cool

season turf that is well watered. Reference ETo is used as the basis of determining the MAWA so that regional differences in climate can be accommodated.

"Grading permit" means the document issued by the City Engineer pursuant to Carlsbad Municipal Code Section 15.16.110.

"Graywater" means untreated wastewater that has not been contaminated by any toilet discharge, has not been affected by infectious, contaminated, or unhealthy bodily wastes, and does not present a threat from contamination by unhealthful processing, manufacturing, or operating wastes. "Graywater" includes wastewater from bathtubs, showers, bathroom washbasins, clothes washing machines, and laundry tubs, but does not include wastewater from kitchen sinks or dishwashers. (Health and Safety Code Section 17922.12.)

"Homeowner-provided landscaping" means landscaping installed either by a homeowner or a licensed contractor hired by a homeowner for a single-family residence.

"Landscaped area" means an area with plants, turfgrass and/or other vegetation. A landscaped area includes a water feature either in an area with vegetation or that stands alone. A landscaped area may also include design features adjacent to an area with vegetation, provided that the features are integrated into the design of the landscape area and the primary purpose of the features are decorative. A landscaped area does not include the footprint of a building, decks, patio, sidewalk, driveway, parking lot or other hardscape. A landscaped area also does not include an area without irrigation designated for non-development such as designated open space or area with existing native vegetation. The landscaped area refers to the area to be landscaped as part of the work for which the current approval by the city is being sought.

"Landscape Manual" means the manual, approved by City Council Resolution No. 2012-060 as amended from time to time, which establishes specific design criteria and guidance to implement the requirements of this chapter.

"Licensed" means licensed by the State of California.

"Maximum applied water allowance (MAWA)" means the maximum allowed annual water use for a specific landscaped area based on the square footage of the area, the ETAF and the reference ETo.

"Recycled water," sometimes referred to as reclaimed water, means water obtained from the treatment of domestic water waste which is suitable for direct beneficial use or a controlled use that otherwise would not occur and also meets the highest level in conformance with California Code of Regulations, Title 22, Division 4, Chapter 3 (use of recycled water for irrigation and for impoundments), currently Sections 60304 and 60305.

"Turfgrass" means a groundcover surface of mowed grasses such as Bermuda, bluegrass, fescue, rye, St. Augustine, Zoysia, and other mowed turfgrasses or hybrid derivatives of such turfgrasses that are typically used for a recreational use.

(Ord. CS-175 § 1, 2012; Ord. CS-294 § 1, 2016)

### **§ 18.50.060. Applicability.**

A. This chapter, together with the Landscape Manual, shall apply to the following project types which require a landscape plan in conjunction with a building permit, grading permit or a discretionary permit:

1. New development projects where the total landscaped area for the development is 500 square feet or more requiring a building permit, landscaping plan check, design review or discretionary permit.

2. A model home that includes a landscaped area.
  3. A public agency project, including, but not limited to, public parks and recreation facilities, maintenance districts, and street medians which contain a landscaped area of 500 square feet or more.
  4. A rehabilitated landscape for a project where a building permit, landscape plan check, design review or discretionary permit is being issued and the applicant is installing or modifying 2,500 square feet or more of landscaping.
  5. A project where the total landscaped area for development is less than 2,500 square feet may alternatively conform to the prescriptive requirements as noted in the Landscape Manual.
- B. The following development types are exempt from the requirement for a water efficient landscape worksheet. However, this does not relieve these project types from compliance with all other applicable sections of the Landscape Manual:
1. A registered local, state or federal historical site.
  2. An ecological restoration project that does not require a permanent irrigation system.
  3. A mined land reclamation project that does not require a permanent irrigation system.
  4. An existing botanical garden or arboretum that is open to the public.

(Ord. CS-175 § 1, 2012; Ord. CS-294 § 1, 2016)

#### **§ 18.50.070. Recycled water.**

- A. A person who obtains a permit for a project that is subject to this chapter shall use recycled water for irrigation when recycled water is available from the water purveyor who supplies water to the property for which the City of Carlsbad issues a permit.
- B. This section does not excuse a person or entity which uses recycled water from complying with all state and local laws and regulations related to recycled water use.

(Ord. CS-175 § 1, 2012; Ord. CS-294 § 1, 2016)

#### **§ 18.50.080. Water waste prevention.**

- A. No person shall use water for irrigation that, where due to runoff, low head drainage, overspray or other similar condition, results in irrigation water that flows onto adjacent property, non-irrigated areas, structures, walkways, roadways or other paved areas.
- B. No person whose landscape is subject to a landscape approval pursuant to this chapter shall apply water to the landscape in excess of the MAWA.

(Ord. CS-175 § 1, 2012; Ord. CS-294 § 1, 2016)

#### **§ 18.50.090. Enforcement.**

- A. The City Manager, or designee, shall investigate and enforce this chapter. Any city authorized personnel or enforcement officer may exercise any enforcement powers as set forth in Chapters 1.08 and 1.10 of the Carlsbad Municipal Code.
- B. Upon approval of the City Council, the City Manager, or designee, may delegate to or enter into a

contract with a local agency or other person to implement and administer any of the provisions of this chapter on behalf of the city.

- C. Landscapes approved and installed pursuant to the provisions of this chapter shall be maintained in accordance with the policies and requirements of the Landscape Manual. Failure to do so may be subject to enforcement pursuant to the provisions of this section.

(Ord. CS-175 § 1, 2012; Ord. CS-294 § 1, 2016)

**§ 18.50.100. Fees.**

An applicant for a project subject to this chapter shall include with the application, all fees established by the City Council by resolution to cover the city's cost to review an application, any required landscape documentation package and any other documents that the city staff reviews pursuant to the requirements of this chapter and the Landscape Manual.

(Ord. CS-175 § 1, 2012; Ord. CS-294 § 1, 2016)

**§ 18.50.110. Reporting.**

The city shall report on implementation and enforcement of this chapter to the State Department of Water Resources pursuant to the reporting requirements in the Model Water Efficient Landscape Ordinance (23 CCR Section 495).

(Ord. CS-175 § 1, 2012; Ord. CS-294 § 1, 2016)

## CHAPTER 18.51 TRANSPORTATION DEMAND MANAGEMENT

### **§ 18.51.010. Purpose.**

This chapter establishes policies and guidelines for transportation demand management in the City of Carlsbad that implements the Carlsbad Climate Action Plan (the "CAP"). The purpose of this chapter is to:

1. Reduce single-occupancy vehicle trips and increase alternative mode share among Carlsbad workers to levels indicated in the CAP to meet 2035 greenhouse gas reduction targets.
2. Support citywide efforts to promote multi-modal streets and neighborhoods consistent with the mobility element of the general plan including Livable Streets Guide.
3. Mitigate the effects of increased traffic on city infrastructure and maintain adequate provision of public facilities consistent with the city's Growth Management Plan and Local Facilities Management Plan.
4. Provide more viable travel options and improve health, quality of life, and safety for City of Carlsbad residents and employees.

(Ord. CS-350 § 2, 2019)

### **§ 18.51.020. Authority.**

The City Engineer or designee shall administer this chapter.

(Ord. CS-350 § 2, 2019)

### **§ 18.51.030. Incorporation of Transportation Demand Management Manual by reference.**

The City Engineer shall establish rules and procedures as necessary to administer this chapter. Such rules and procedures shall be referred to as the "Transportation Demand Management Handbook" ("TDM Handbook") and is incorporated by reference into this chapter. The City Engineer is hereby authorized to modify the TDM Handbook as necessary provided such amendments are consistent with this chapter and state law. Should any provisions of the TDM Handbook conflict with any provisions of this chapter, the provisions of this chapter shall control.

(Ord. CS-350 § 2, 2019)

### **§ 18.51.040. Findings.**

This chapter implements the CAP. The requirements of this chapter will help to reduce greenhouse gas emissions associated with motor vehicles through application of strategies and policies to reduce travel demand by shifting single occupancy vehicle trips to alternative modes.

(Ord. CS-350 § 2, 2019)

### **§ 18.51.050. Definitions.**

"Alternative modes" means all modes of transportation that do not include single-occupancy vehicle trips, including transit, walking, biking, ridesharing and others.

"Commuter survey" means paper or electronic survey that includes questions about commuter behavior, preferences, motivations, and barriers. A commuter survey is typically distributed to establish and monitor mode share at a work site.

"Mode share" means percentage of commuters who use different modes of transportation, such as drive-alone, transit, bike, walking, etc.

"Single-occupancy vehicle (SOV)" means one occupant per vehicle. SOV trips can be used interchangeably with drive-alone or solo driving trips.

"TDM Plan" means strategies and investments to reduce SOV mode share tailored to a specific work-site, including facilities improvements, programs, incentives/disincentives, education, marketing, and outreach.

"Transportation Demand Management (TDM)" means strategies, policies, and programs that reduce demand on roadway infrastructure by reducing single-occupancy vehicle trips.

(Ord. CS-350 § 2, 2019)

#### **§ 18.51.060. Applicability.**

This chapter, together with the TDM Handbook, shall apply to all non-residential development projects where employees produce a minimum of 110 average daily trips (ADT). Trip generation rates determined as according to the TDM Handbook. All projects that are subject to this ordinance shall submit a TDM plan in accordance with the TDM Handbook.

(Ord. CS-350 § 2, 2019)

#### **§ 18.51.080. Enforcement.**

- A. The City Manager, or designee, shall investigate and enforce this chapter. Any city authorized personnel or enforcement officer may exercise any enforcement power as set forth in Chapters 1.08 and 1.10 of the Carlsbad Municipal Code.
- B. Upon approval of the City Council, the City Manager, or designee, may delegate to or enter into a contract with a local agency or other person to implement and administer any of the provisions of this chapter on behalf of the city.
- C. TDM amenities approved and installed pursuant to the provisions of this chapter shall be maintained in accordance with the policies and requirements of the TDM Handbook. Failure to do so may be subject to enforcement to the provisions of this section.

(Ord. CS-350 § 2, 2019)

#### **§ 18.51.090. Fees.**

An applicant for a project subject to this chapter shall include with the application, all fees established by the City Council by resolution to cover the city's cost to review an application, any required TDM documentation package and any other documents that the city staff reviews pursuant to the requirements of this chapter and the TDM Plan and TDM Handbook.

(Ord. CS-350 § 2, 2019)

## CHAPTER 19.04 ENVIRONMENTAL PROTECTION PROCEDURES

### **§ 19.04.010. Purpose.**

This chapter is intended to provide for protection and enhancement of the environment within the city by establishing principles, objectives, criteria and procedures for evaluation of the environmental impact of public and private projects and for administering the city's responsibility under the California Environmental Quality Act, hereinafter referred to as CEQA, and the state CEQA guidelines issued pursuant thereto by the California Resources Agency. The procedures and provisions of this chapter are intended to supplement the CEQA guidelines and to provide additional guidelines for implementing CEQA and evaluating projects in the city.

(Ord. NS-593, 2001)

### **§ 19.04.020. State guidelines incorporated by reference.**

The California Environmental Quality Act (Public Resources Code, Sections 21000 et seq.) and the state CEQA guidelines contained in Title 14, Division 6 of Chapter 3, Section 15000 et seq., of the California Code of Regulations, and as amended from time to time, are adopted by reference as the environmental review regulations for the city except for changes or additions contained in this chapter that shall supplement the provisions of said guidelines.

(Ord. NS-593, 2001)

### **§ 19.04.030. City planner responsibilities.**

- A. The City Planner, or designee, is responsible for the general administration and implementation of this chapter. Whenever any notices, reports or documents are required or permitted to be filed, the City Planner shall be responsible for such filing unless otherwise provided in this title. Whenever this chapter or CEQA requires the city to make a determination or perform an act, and the person or body to make the determination or perform the act is not specified, then the City Planner shall have that responsibility, subject to appeal to the Planning Commission and City Council. The City Planner shall be responsible for the preparation of any environmental impact report ("EIR"), negative declaration, mitigated negative declaration or other related environmental documents required by this chapter.
- B. The City Planner may require an applicant for a city entitlement for any private project to submit data and information which may be necessary to determine whether the proposed project may have a significant effect on the environment prior to accepting the application as complete.
- C. The City Planner may request assistance from any city department or unit, however titled, other governmental entities or the public as determined to be necessary to carry out these responsibilities. Such requests for assistance shall be promptly responded to.
- D. Prior to completing a negative declaration, mitigated negative declaration or draft EIR, the City Planner may consult directly with any person or organization the City Planner believes will be concerned with the environmental effects of the project.
- E. If the City Planner determines that a project is to be carried out or approved by one or more public agencies in addition to the city, the City Planner shall first determine which entity will be the lead agency.
- F. Whenever the city is a responsible agency, the City Planner shall provide the information and responses to the lead agency which the City Planner deems necessary in order to comply with the

statutory responsibilities of a responsible agency.  
(Ord. NS-593, 2001; Ord. CS-079 § I, 2010; Ord. CS-164 § 10, 2011)

#### **§ 19.04.040. Planning Commission responsibilities.**

- A. For projects for which the Planning Commission is the final decision-making body, except for the possibility of appeal, it is the responsibility of the Planning Commission to hold a hearing on and adopt or disapprove adoption of a negative declaration or a mitigated negative declaration or to certify by resolution that an EIR is completed pursuant to CEQA.
- B. For projects for which the City Council is the final decision-making body, but requiring Planning Commission review of the project, it is the responsibility of the Planning Commission to forward the final environmental document to the City Council with a recommendation for City Council action.  
(Ord. NS-593, 2001)

#### **§ 19.04.050. City Council responsibilities.**

Unless the City Planner or Planning Commission is the final decision-making body for a project, it is the responsibility of the City Council to hold a hearing on and adopt a negative declaration or mitigated negative declaration or to certify, by resolution, a final EIR for the project.  
(Ord. CS-164 § 10, 2011; Ord. NS-593, 2001)

#### **§ 19.04.060. Determination of exemption and exception.**

The City Planner shall determine whether a private or public project is a ministerial project and, if not, whether it is exempted from the requirements of this chapter. The City Planner's determinations of exempt projects made according to this section shall be posted weekly for five business days in conspicuous places accessible to the public as determined by the City Planner. The City Planner shall also determine whether a private or public project is excepted from the exemptions in the state CEQA guidelines or this title, in which case the applicant will be notified in writing of the City Planner's determination. Any determination may be appealed as provided in Title 21, Chapter 21.54, Section 21.54.140 of this code.  
(Ord. NS-593, 2001; Ord. CS-079 § II, 2010; Ord. CS-164 § 10, 2011)

#### **§ 19.04.070. Exemption procedures.**

- A. The following sections implement Section 15300.4 of the CEQA guidelines which require the city to list those specific activities which fall within each of the following exempt classes:
  - 1. Statutory Exemptions. Pursuant to Section 15260, statutory exemptions are those projects that the legislature has determined should be exempted from CEQA and which are found in various state statutes. These include ministerial projects, categorical exemptions and general rule exemptions.
    - a. Ministerial Projects. Pursuant to Section 15369 of the CEQA guidelines, ministerial projects are those that involve little or no personal judgment by the public official as to the wisdom or manner of carrying out the project. They involve the use of fixed standards or objective measurements. Projects in the city specifically deemed to be ministerial include all post-approval submittals in substantial conformance with the approval. Post-approval submittals include certified tentative subdivision maps, final maps, grading, landscape and improvement plans, CC&Rs and building plans. Other ministerial projects include final inspections, issuance of licenses, utility service connections and disconnections, city

ordered brush clearance of nonsensitive areas in accordance with City of Carlsbad procedures and other similar actions for which no discretion exists that could create or avoid environmental impacts.

- b. Categorical Exemptions. Pursuant to Section 15300 of the CEQA guidelines, categorical exemptions are classes of projects determined not to have a significant effect on the environment which are therefore exempt. No clarifications or additions are necessary to Sections 15260 to 15285 and Sections 15300 to 15332 other than to specify that preliminary design work for capital improvement projects in the city and lot line adjustments (that do not increase density or intensity of use), within prescribed parameters, fall within Class 5, Section 15305 of the guidelines.
- c. General Rule Exemptions. In addition to all other statutory exemptions provided for in the Public Resources Code and state CEQA guidelines including ministerial projects and categorically exempt projects pursuant to Section 15061(b)3 of the CEQA guidelines, general rule exemptions are defined as projects "where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA." The following are specific actions considered not to have a significant effect pursuant to this provision:
  - i. Minor zone or municipal code amendments that do not involve physical modifications, lead to physical improvements beyond those typically exempt, or which refine or clarify existing land use standards; and
  - ii. Projects that are not specifically listed as categorical or statutory exemptions but exhibit characteristics similar to one or more specific exemptions.

B. Exceptions. Even though a project may otherwise be eligible for an exemption, no exemption shall apply in the following circumstances:

1. Grading and clearing activities affecting sensitive plant or animal habitats, which disturb, fragment or remove such areas as defined by either the California Endangered Species Act (Fish and Game Code Sections 2050 et seq.), or the Federal Endangered Species Act (16 U.S.C. Section 15131 et seq.); sensitive, rare, candidate species of special concern; endangered or threatened biological species or their habitat (specifically including sage scrub habitat for the California Gnatcatcher); or archaeological or cultural resources from either historic or prehistoric periods; or
2. Parcel maps, plot plans and all discretionary development projects otherwise exempt but which affect sensitive, threatened or endangered biological species or their habitat (as defined above), archaeological or cultural resources from either historic or prehistoric periods, wetlands, stream courses designated on U.S. Geological Survey maps, hazardous materials, unstable soils or other factors requiring special review, on all or a portion of the site.

(Ord. NS-593, 2001)

**§ 19.04.080. Appeal on determinations of exemptions or exceptions.**

- A. The determinations made according to Section 19.04.070 are final unless appealed to the Planning Commission pursuant to the procedures set forth in Title 21, Chapter 21.54, Section 21.54.140 of this code.
- B. Notice of hearing on appeal before the Planning Commission shall be sent by first class mail to the

applicant and to the appellant.  
(Ord. NS-593, 2001; Ord. NS-676 § 9, 2003)

#### **§ 19.04.090. Initial study.**

- A. The responsible city department or a private applicant for a city entitlement shall submit to the City Planner a completed environmental impact assessment form and supporting environmental studies as an aid in evaluating environmental impacts.
- B. The City Planner, with assistance from city departments or unit, however titled, shall review each project for which an initial study form has been filed. Such requests for assistance shall be promptly responded to. If the project is not categorically exempt, the City Planner shall conduct an initial study to determine if the project may have a significant effect on the environment and determine the appropriate level of environmental review necessary.
- C. If it is determined that the project will have no significant impact on the environment, the City Planner shall prepare a negative declaration.
- D. If identified significant effects on the environment can be mitigated so that the project will have no significant effect on the environment, the City Planner may, with the applicant's agreement, by imposition of appropriate project conditions, agreements or other measures, including, but not limited to, revision or redesign of the project, require the mitigation of these effects. A mitigated negative declaration may then be issued for the project provided, however, that no step or element of the project which may have a significant effect on the environment may be satisfied or carried out unless the conditions intended to mitigate that effect have been implemented or assurances have been provided that the condition will be carried out and enforced.
- E. Except as otherwise provided in subsection D of this section, if it is determined that a project may have a significant impact on the environment, the City Planner shall prepare or cause to be prepared an EIR according to the requirements of CEQA.

(Ord. NS-593, 2001; Ord. CS-079 § III, 2010; Ord. CS-164 § 10, 2011)

#### **§ 19.04.100. Mailing of negative declaration on request.**

The City Planner shall prepare a negative declaration or a mitigated negative declaration when he or she finds, after the required initial study, that the project qualifies for a negative declaration or a mitigated negative declaration under the provisions of CEQA. The declaration shall include a statement stipulating that comments on the environmental document from the public are encouraged.

(Ord. NS-593, 2001; Ord. CS-164 § 10, 2011)

#### **§ 19.04.110. Appeal of negative declaration.**

- A. If the City Planner or the Planning Commission has the authority under this code to approve or deny a project, the decision to adopt, conditionally adopt or disapprove adoption of a negative declaration or a mitigated negative declaration is final unless any interested party files an appeal of the negative declaration, as provided by this code in Title 21, Chapter 21.54, Sections 21.54.140 and 21.54.150.
- B. Notice of the hearing on appeal before either the Planning Commission or the City Council shall be sent by first class mail to the applicant and to the appellant.

(Ord. NS-593, 2001; Ord. NS-676 § 10, 2003; Ord. CS-164 § 10, 2011)

#### **§ 19.04.120. Preparation of environmental impact report.**

- A. If the City Planner determines that an environmental impact report is required for a project, the City Planner shall immediately send notice of preparation (NOP) to all parties as provided in Public Resources Code Section 21080.4 (PRC) or any successor statute and Sections 15082 and 15375 of the CEQA guidelines. The City Planner shall cause the NOP to be sent to all property owners within 600 feet of the perimeter of the subject site. Additionally, the City Planner may send the NOP to all persons or organizations that he or she believes may have an interest in the proposed project or related issues. Notices for projects with potential impacts of regional significance shall be sent to adjacent cities. Notice of preparation shall also be given by publishing once in a newspaper of general circulation in the area where the project is located and mailing to all persons who have previously requested such notice. All notices of preparation shall be posted in conspicuous places accessible to the public as determined by the City Planner, shall be sent to the City Clerk and county clerk to be posted for a period of at least 30 days and shall be sent to the State Clearinghouse when appropriate.
- B. The City Planner, with the approval of the City Manager, may enter into a contract with a private consultant(s) for the preparation of a draft EIR. The cost for such consultant(s) shall be paid in advance of work performed, by the applicant. The applicant shall have no direct contact with the consultant unless approved by the City Planner or designee upon advice from the City Attorney. The consultant shall not be an employee or affiliate of the applicant.
- C. Copies of the draft EIR may be submitted for comment to any agencies and persons that the City Planner determines to be necessary. The draft report shall be mailed to the applicant and a copy shall be available to the public in the planning division. A copy shall also be furnished and made available to both public libraries until filing of the notice of determination by the city.
- D. At the same time, a notice of completion shall be posted in conspicuous places accessible to the public as determined by the City Planner and City Clerk.
- E. In addition to the notice required by state law, the City Planner may require any additional notice deemed necessary for the project and shall assess the cost to the applicant.

(Ord. NS-593, 2001; Ord. CS-079 § IV, 2010; Ord. CS-164 §§ 10, 11, 2011)

#### **§ 19.04.130. Requests for additional public review time on the draft environmental document.**

The City Planner may approve a request from a community group or interested party for an additional review period. The additional time for review shall not extend the time for action beyond that required under law. The failure to allow additional time for review shall not invalidate any discretionary approval based upon the document for which the additional review time was requested.

(Ord. NS-593, 2001; Ord. CS-164 § 10, 2011)

#### **§ 19.04.140. Hearing.**

A negative declaration, mitigated negative declaration or EIR shall be forwarded to the City Planner, who shall cause the matter to be set for hearing by the appropriate decision-making body if required. Notice of the hearing shall be given as provided in Section 21.54.060(A) of this code. At the hearing, the Planning Commission or City Council shall hear staff comments on the environmental document and may refer it back to staff for further investigation, information and analysis and/or for the inclusion of additional material if the decision-making body determines such to be necessary for a full and complete determination to be made. The City Planner shall supplement the environmental document if any significant points are raised at the hearing which have not previously been addressed. Copies of all environmental documents shall be made available for public review at the planning division.

(Ord. NS-593, 2001; Ord. CS-164 §§ 10, 11, 2011)

**§ 19.04.150. Consolidation.**

The Planning Commission or City Council may consolidate a public hearing on a negative declaration, mitigated negative declaration or an EIR with any other public hearing held by the Planning Commission or City Council in regard to the same project. In such a case, the notice required by this chapter may be given in the same manner and at the same time as public notice otherwise required for the project. The Planning Commission or City Council shall review and consider the information contained in the environmental document before taking action on the other aspects of the project before them.

(Ord. NS-593, 2001)

**§ 19.04.160. Time limits for preparation of environmental documents.**

In accordance with CEQA, Section 21151.5, completion and adoption of a negative declaration or mitigated negative declaration shall not exceed 180 calendar days from the date the application for proposed development is determined or deemed complete. Completion and certification of an EIR shall not exceed one year from the date that the application is determined or deemed complete.

- A. Unreasonable delays by the applicant as determined by the City Planner, shall suspend these time periods for the period of such delay.
- B. These time periods may be extended in the event that compelling circumstances justify the additional time and the project applicant consents thereto.
- C. If any form of an EIR is prepared under contract with a private consultant, such contract shall be executed within 45 days from the date on which the NOP is sent, unless the City Planner and applicant mutually agree to an extension of time.

(Ord. NS-593, 2001; Ord. CS-079 § V, 2010; Ord. CS-164 § 10, 2011)

**§ 19.04.170. Appeal of environmental impact report.**

- A. Any challenge to the adequacy of an EIR certified by the Planning Commission may be appealed to the City Council in accordance with the procedures set forth in Title 21, Chapter 21.54, Section 21.54.150.
- B. Notice of the hearing on appeal before the City Council shall be sent by first class mail to the applicant and to the appellant.

(Ord. NS-593, 2001; Ord. NS-676 § 11, 2003)

**§ 19.04.180. Mitigation monitoring and reporting programs.**

It is the intent of the city to ensure that all required mitigation measures to avoid potentially significant effects are effectively implemented and monitored throughout the project approval, permitting and construction process, as well as the lifespan of the project. In conjunction with the approval of each project, an individual program shall be developed and adopted to ensure that each feature related to the mitigation measures is specifically included as a reference in the conditions of approval, incorporated into the subsequent stages of development review and permitting process and monitored during construction and final inspection, as well as on an ongoing basis. The program may contain remedies to ensure compliance with the ongoing mitigation measures beyond final inspection.

(Ord. NS-593, 2001)

**§ 19.04.190. Mailing of notices on request.**

The planning division or the City Clerk shall mail copies of all notices of appeal, notices of hearings and other notices resulting from this chapter to any individual or group who files a written request therefor. Such individual or group shall update their request annually. A fee to cover the costs of printing and postage in an amount established by City Council resolution shall accompany each such request.

(Ord. NS-593, 2001; Ord. CS-164 § 11, 2011)

**§ 19.04.200. Indemnification by applicant.**

The applicant shall be responsible and indemnify the city for any and all costs the city incurs in defending any action alleging noncompliance with CEQA or this chapter, including all costs, expenses and attorneys' fees.

(Ord. NS-593, 2001)

**§ 19.04.210. Enforcement.**

- A. Except as otherwise provided by law, it is unlawful, and an offense punishable as designated in Title 1, Chapter 1.08 of this code, for any project applicant or permittee to fail to perform any required mitigation measure(s) specified in the mitigation monitoring and reporting program for the project.
- B. The city shall also have the right to revoke or modify all approvals granted in relation to the environmental review of the project, deny or further condition issuance of any future building permits and deny, revoke or further condition all certificates of occupancy issued under the authority of the related approval.
- C. Violations may be enforced by criminal or civil judicial action, or both, or in combination with any of the administrative remedies enumerated in this code to compel compliance with said conditions or seek damages for their violation. The City Planner may record with the County Recorder's office a notice against a property which is the subject of an enforcement action pending with the City of Carlsbad.

(Ord. NS-593, 2001; Ord. CS-164 § 10, 2011)

**§ 19.04.215. Recordation of notices.**

In order to place the public on notice of adverse environmental conditions which may impact property, recordation of the following notices on title to real property, as amended from time to time by the City Attorney, may be required by the city as a condition of approval for land use entitlements; notice concerning odor environmental impacts, notice concerning railroad environmental impacts, notice concerning proximity of the commuter rail transit station, notice concerning aircraft environmental impacts, notice of multi-impacts, notice and waiver concerning odor environmental impacts, notice and waiver concerning railroad environmental impacts, notice and waiver concerning proximity of a planned or existing commuter rail transit station, notice and waiver concerning proximity of the planned or existing transportation corridor(s), notice and waiver concerning aircraft environmental impacts, and notice and waiver concerning multi-impacts. The County Recorder shall accept for recordation on title to a real property any of the specified notices, as amended from time to time by the City Attorney, provided the notices contain sufficient information and meet all recording requirements.

(Ord. CS-182 § 1, 2012)

**§ 19.04.220. Severability.**

If any provision of this title or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of this chapter. Each and every provision of this title is severable from remaining provisions.

(Ord. NS-593, 2001)

## CHAPTER 20.04 GENERAL REGULATIONS

### **§ 20.04.010. Title.**

This title is adopted to supplement and implement the Subdivision Map Act and may be cited as the subdivision ordinance.

(Ord. 9417 § 2, 1975)

### **§ 20.04.020. Definitions.**

Words used in this title that are defined in the Subdivision Map Act but not specifically defined in this chapter shall have the same meaning as is given to them in the Subdivision Map Act. Whenever the following words are used in this title, they shall have the meaning ascribed to them in this section:

"Adjustment plat" means a plat prepared pursuant to Chapter 20.36 of this title and certified by the City Engineer as having been approved pursuant to this title and filed in the office of the City Engineer.

"Bicycle" means a device upon which any person may ride, propelled by human power through a belt, chain or gears, and having either two or three wheels in a tandem or tricycle arrangement.

"Bicycle route" means the generic term for all facilities that explicitly provide for bicycle travel by a course which is to be traveled.

"Cable television lines" means electronic cable, conduit and any other appurtenances thereto which distribute television or other electronic signals.

"Certificate of compliance" means a document describing a unit or contiguous units of real property and stating that the division thereof complies with applicable provisions of the Subdivision Map Act and city ordinances enacted pursuant thereto.

"City Engineer" means the City Engineer or designee, who is the Deputy City Engineer, land development engineering.

"City standards" means those standards and specifications, including standard drawings, as may be adopted from time to time by the City Engineer. These standards are to be on file in the office of the City Clerk and in the engineering department.

"Conditional certificate of compliance" means a document describing a unit or contiguous units of real property and stating that the fulfillment and implementation of the conditions set forth therein are required prior to subsequent issuance of a building or grading permit applicable thereto.

"Development permit" means any permit, entitlement or approval required pursuant to Title 20 or 21 of this code, or pursuant to any applicable master, specific, or redevelopment plan.

"Final map" means a map prepared pursuant to Chapter 20.20 of this title and the Subdivision Map Act which, after approval and recordation, is effective to complete the subdivision of a major subdivision.

"Improvement" means:

1. Such street work and utilities, including ornamental street lights and walkways to be installed or agreed to be installed by the subdivider on land to be used for public or private streets, highways, ways, bicycle routes and easements, as are necessary for the general use of the lot owners in the subdivision and local neighborhood traffic, drainage, flood control, fire protection and sanitation needs as a condition precedent to the approval of a parcel map or final map;

2. Any other specific improvements or types of improvements, the installation of which, either by the subdivider, by public agencies, by private utilities, by any other entity approved by the City Council or by a combination thereof, is necessary to ensure conformity to or implementation of the general plan, any specific plan, any applicable local coastal plan or any applicable master plan adopted according to this title.

"Interior lot" shall have the same definition as specified by Section 21.04.230 of this code.

"Major subdivision" means a subdivision of five or more lots.

"Minor subdivision" means a subdivision of four or fewer lots.

"Notice of violation" means a recorded document describing a unit or contiguous units of real property, naming the owners thereof, and describing the manner in which the real property has been divided, or has resulted from a division in violation of the Subdivision Map Act and city ordinances enacted pursuant thereto.

"Parcel map" means a map prepared pursuant to Chapter 20.32 of this title and the Subdivision Map Act which, after approval and recordation, is effective to effect the subdivision of a minor subdivision.

"Street" means a state highway, county or city road or street, public road, street, alley or thoroughfare.

"Subdivider" means a person, firm, corporation, partnership or association who proposes to divide, divides, or causes to be divided real property into a subdivision for himself/herself or for others, except that employees and consultants of such persons or entities, acting in such capacity, are not "subdividers."

"Subdivision" means the division, by any subdivider, of any unit or units of improved or unimproved land, or any portion thereof, shown on the latest equalized county assessment roll as a unit or as contiguous units, for the purpose of sale, lease or financing, whether immediate or future except for leases of agricultural land for agricultural purposes. Property shall be considered as contiguous units, even if it is separated by roads, streets, utility easement or railroad rights-of-way. "Subdivision" includes a condominium project as defined in Section 4100 of the California Civil Code, a community apartment project, as defined in Section 4105 of the California Civil Code, or the conversion of five or more existing dwelling units to a stock cooperative, as defined in Section 4190 of the California Civil Code. Any conveyance of land to a governmental agency, public entity or public utility shall not be considered a division of land for purposes of computing the number of parcels.

"Tentative map" means a map prepared for the purpose of showing the design and improvement of a proposed major subdivision, and the existing conditions in and around it, filed with the City Planner precedent to the preparation and filing of a final map, and may, but need not be, based upon an accurate and detailed final survey of the property.

"Tentative parcel map" means a map prepared for the purpose of showing the design and improvement of a proposed minor subdivision, and the existing conditions in and around it, filed with the City Planner for approval or conditional approval prior to the preparation and filing of a parcel map or prior to waiver of the requirement for a parcel map, and may, but need not be, based upon an accurate and detailed final survey of the property.

"Through lot" means a lot having frontage on two parallel or approximately parallel streets.

"Vesting tentative map" means a tentative map for a subdivision which conforms to the requirements of Chapter 20.17 and confers upon the subdivider certain rights established by this title. "Vesting tentative parcel map" means a vesting tentative map prepared in conjunction with a parcel map.

(Ord. 9417 § 2, 1975; Ord. 9521 §§ 1, 2, 1979; Ord. 9602 § 1, 1981; Ord. 9626 § 1, 1982; Ord. 9760 § 5, 1985; Ord. 9788 § 1, 1985; Ord. 9830 § 1, 1987; Ord. NS-813 § 1, 2006; Ord. CS-155 § 1, 2011; Ord. CS-192 § 2, 2012; Ord. CS-241 § 1, 2014; Ord. CS-389 § 10, 2021)

**§ 20.04.030. Prohibition.**

No person shall create a subdivision except in accordance with the provisions of the Subdivision Map Act and this title.

(Ord. 9417 § 2, 1975)

**§ 20.04.040. Application of Subdivision Map Act.**

- A. Except as otherwise expressly provided in this title, all of the provisions of the Subdivision Map Act, which apply to subdivisions as defined in that act and all of the provisions of this title, apply to subdivisions as defined in this title.
- B. This title shall be inapplicable to:
  1. The financing or leasing of:
    - a. Apartments, offices, stores or similar space within a duplex, multiple dwelling, apartment building, industrial building, commercial building, mobile home park or trailer park;
    - b. Any parcel of land or portion thereof in conjunction with the construction of commercial or industrial buildings on a single parcel, unless the project is not subject to review under other provisions of this code regulating design and improvement;
    - c. Existing separate commercial or industrial buildings on a single parcel.
  2. The construction, financing or leasing of dwelling units and accessory dwelling units pursuant to California Government Code Sections 65852.1 and 65852.2, respectively. This title shall be applicable to the sale or transfer of those units.
  3. Mineral, oil or gas leases.
  4. Land dedicated for cemetery purposes under the Health and Safety Code of the state.
  5. A lot line adjustment between four or fewer existing adjoining parcels, where the land taken from one parcel is added to an adjoining parcel, and where a greater number of parcels than originally existed is not thereby created, provided an adjustment plat pursuant to Chapter 20.36 of this title for the lot line adjustment is approved by the City Planner.
  6. Boundary line or exchange agreements to which the State Lands Commission or a local agency holding a trust grant of tide and submerged lands is a party.
  7. Any separate assessment under Revenue and Taxation Code Section 2188.7.
  8. The conversion of a community apartment project, as defined in Section 4105 of the California Civil Code or a stock cooperative, as defined in Section 4190 of the California Civil Code, to a condominium project, as defined in Section 4125 of the California Civil Code, provided that the requirements of California Government Code Section 66412(g) or (h), respectively, have been met and the subdivider provides certification that the requirements have been met.
  9. The leasing of, or the granting of an easement to, a parcel of land or any part thereof, in conjunction with the financing, erection, and sale or lease of any wind powered electrical generating device on the land, if the project is subject to discretionary action pursuant to this code.

10. The leasing or licensing of a portion of a parcel, or the granting of an easement, use permit, or similar right on a portion of a parcel, to a telephone corporation as defined in Section 234 of the Public Utilities Code, exclusively for the placement and operation of cellular radio transmission facilities, including, but not limited to, antennae support structures, microwave dishes, structures to house cellular communications transmission equipment, power sources, and other equipment incidental to the transmission of cellular communications, if the project is subject to discretionary action pursuant to this code.
11. The leasing of, or the granting of an easement to, a parcel of land, or any portion or portions thereof, in conjunction with the financing, erection, and sale or lease of a solar electrical generation device on the land, if the project is subject to review pursuant to other provisions of this code that regulate design and improvement or, if the project is subject to discretionary action pursuant to this code.
12. The leasing of, or the granting of an easement to, a parcel of land or any portion or portions of the land in conjunction with a biogas project that uses, as part of its operation, agricultural waste or byproducts from the land where the project is located and reduces overall emissions of greenhouse gases from agricultural operations on the land, if the project is subject to review pursuant to other provisions of this code regulating design and improvement or if the project is subject to discretionary action pursuant to this code.
13. Leases of agricultural land for agricultural purposes. As used in this subdivision, "agricultural purposes" means the cultivation of food or fiber, or the grazing or pasturing of livestock.
14. Leases of agriculturally zoned land to nonprofit organizations for the purpose of operating an agricultural labor housing project on the property if all of the following conditions apply:
  - a. The property to be leased shall not be more than five acres;
  - b. The lease shall be for not less than 30 years;
  - c. The lease shall be executed prior to January 1, 2017.

(Ord. 9417 § 2, 1975; Ord. 9521 § 3, 1979; Ord. 9602 § 2, 1981; Ord. 9626 § 2, 1982; Ord. 9680 § 1, 1983; Ord. 9760 § 6, 1985; Ord. NS-813 § 2, 2006; Ord. CS-192 § 3, 2012; Ord. CS-241 § 2, 2014; Ord. CS-324 § 2, 2017)

#### **§ 20.04.050. Extent of regulations.**

- A. No real property, improved or unimproved, consisting of a single unit or two or more contiguous units and owned by the same person or persons shall be divided into two or more lots, including any lot retained by the owner, except in accordance with the provisions of this title.
- B. No parcel may be subdivided if it was illegally created unless, as part of the division, the illegality is eliminated. If such elimination is not possible, a notice of violation with respect to the parcel shall be recorded. In no event shall a subdivision be permitted unless the entire legal parcel is subdivided when the owner of any portion of the illegal parcel is the person who owned the property at the time of the illegal subdivision.

(Ord. 9417 § 2, 1975; Ord. 9602 § 3, 1981)

#### **§ 20.04.055. Merger.**

- A. This title shall not apply to the sale, lease or financing of one or more contiguous parcels or units of

land which have been created under the provisions of city ordinances regulating the division of real property and the Subdivision Map Act applicable at the time of their creation, or which were not subject to such provisions at the time of their creation, even though the contiguous parcels or units are held by the same owner; except that if any one of the contiguous parcels or units held by the same owner does not conform to standards for minimum parcel size to permit use or development under the zoning ordinance of the city and the standards established by subsection C of this section, then those parcels or units shall be merged.

- B. Any parcels or units created prior to January 1, 1979, pursuant to this title or any predecessor, or which are buildable lots as defined by Section 21.46.210 of the zoning ordinance of the city and which merged pursuant to the Subdivision Map Act and have not been deemed merged pursuant to this section or any of its predecessors, are exempted from the merger provisions of this section and those parcels or units shall be deemed unmerged and separate parcels, except that any parcels which merged under the provisions of this title after January 1, 1979 shall remain merged if the provisions of subsection F of this section are met. Further, any parcels or units which do not conform to the standards established by subsection C of this section shall be merged.
- C. Contiguous parcels or units of land held by the same owner, on the date that notice of intention to determine status is filed, shall be merged if one of the parcels or units does not conform to the minimum parcel size to permit use or development under Title 21 of this code and if all of the following requirements are satisfied:
  1. At least one of the affected parcels is undeveloped by any structure for which a building permit was issued or for which a building permit was not required at the time of construction, or is developed only with an accessory structure or accessory structures, or is developed with a single structure, other than an accessory structure, that is also partially sited on a contiguous parcel or unit.
  2. With respect to any affected parcel, one or more of the following conditions exists:
    - a. Comprises less than 5,000 square feet in area at the time of the determination of merger;
    - b. Was not created in compliance with applicable laws and ordinances in effect at the time of its creation;
    - c. Does not meet current standards for sewage disposal and domestic water supply;
    - d. Does not meet slope stability standards;
    - e. Has no legal access which is adequate for vehicular and safety equipment access and maneuverability;
    - f. Its development would create health or safety hazards;
    - g. Is consistent with the applicable general plan and any applicable specific plan, other than minimum lot size or density standards.
  3. Paragraph 2 of this subsection shall not apply if one of the following conditions exist:
    - a. On or before July 1, 1981, one or more of the contiguous parcels or units of land is enforceably restricted open-space land pursuant to a contract, agreement, scenic restriction, or open-space easement, as defined and set forth in Section 421 of the Revenue and Taxation Code.

- b. On July 1, 1981, one or more of the contiguous parcels or units of land is timberland as defined in subdivision (f) of Section 51104, or is land devoted to an agricultural use as defined in subdivision (b) of Section 51201.
  - c. On July 1, 1981, one or more of the contiguous parcels or units of land is located within 2,000 feet of the site on which an existing commercial mineral resource extraction use is being made, whether or not the extraction is being made pursuant to a use permit issued by the local agency.
  - d. On July 1, 1981, one or more of the contiguous parcels or units of land is located within 2,000 feet of a future commercial mineral extraction site as shown on a plan for which a use permit or other permit authorizing commercial mineral resource extraction has been issued by the local agency.
  - e. Within the coastal zone, as defined in Section 30103 of the Public Resources Code, one or more of the contiguous parcels or units of land has, prior to July 1, 1981, been identified or designated as being of insufficient size to support residential development and where the identification or designation has either: (i) been included in the land use plan portion of a local coastal program prepared and adopted pursuant to the California Coastal Act of 1976 (Division 20 of the Public Resources Code), or (ii) prior to the adoption of a land use plan, been made by formal action of the California Coastal Commission pursuant to the provisions of the California Coastal Act of 1976 in a coastal development permit decision or in an approved land use plan work program or an approved issue identification on which the preparation of a land use plan pursuant to the provisions of the California Coastal Act is based. For purposes of paragraphs (3)(c) and (d) of this subsection, "mineral resource extraction" means gas, oil, hydrocarbon, gravel, or sand extraction, geothermal wells, or other similar commercial mining activity.
- D. Whenever the City Engineer has knowledge that real property has merged pursuant to this section, the City Engineer shall mail by certified mail to the current record owner of the property a notice of intention to determine status. The notice of intention shall state: that the affected parcels may be merged pursuant to this section; that the owner may request, within 30 days from the date the notice of intention was recorded, a hearing before the City Engineer to present evidence that the property does not meet the standards for merger; and that the notice of intention was recorded with the County Recorder on the date the notice of intention was mailed. Upon receipt of a request for a hearing, the City Engineer shall set the hearing for a date not less than 30 days or more than 60 days from the date of receipt of the request. The property owner shall be notified of the hearing by certified mail. After the hearing, the City Engineer shall determine whether the affected property has merged pursuant to this section. The decision shall be made and notification of the decision shall be mailed to the property owner within five working days of the date of the hearing. If the parcels have merged, the City Engineer shall file a notice of merger with the County Recorder within 30 days from the date of the hearing unless the decision has been appealed as provided in subsection E of this section. The notice of merger shall specify the name or names of the record owner or owners and shall particularly describe the real property. If the parcels have not merged, the City Engineer shall record a release of the notice of intention within 30 days from the date of the decision, and shall mail a copy of the release to the owner. If no hearing is requested, the decision shall be made not later than 90 days after the mailing of the notice of the opportunity for a hearing. A hearing on the determination of status may be postponed or continued upon the mutual consent of the City Engineer and the property owner.
- E. If the owner requested a hearing, the decision of the City Engineer may be appealed to the City Council within 10 calendar days of the date of mailing the notice of decision by filing a written appeal

with the City Clerk. A fee established by City Council resolution shall be paid at the time of filing the appeal. Upon receipt of an appeal and payment of the fee, the City Clerk shall place the matter on the council agenda not less than 30 nor more than 60 days from the date of the appeal. If after a hearing the council grants the appeal, the City Clerk shall record within 30 days with the court recorder a release of the notice of intention. If the appeal is denied, the City Clerk shall within 30 days record a notice of merger with the County Recorder. A copy of either the release or the notice of merger shall be sent to the owners.

- F. For purposes of this section, when determining whether contiguous parcels are held by the same owner, ownership shall be determined as of the date that notice of intention to determine status is recorded.

(Ord. 9521 § 4, 1979; Ord. 9602 § 4, 1981; Ord. 9723 § 1, 1984; Ord. 9806 § 1, 1986; Ord. NS-813 § 3, 2006)

#### **§ 20.04.056. Unmerger.**

Any parcel or unit of land which merged pursuant to the provisions of any law prior to January 1, 1984 but for which a notice of merge was not recorded on or before that date are deemed unmerged, if on January 1, 1984 all of the criteria established by Section 66451.30(a) of the Subdivision Map Act are met, and if none of the conditions of Section 66451.30(b) exist. Upon request of an owner the City Engineer shall file a certificate of compliance whenever the engineer determines that a parcel is unmerged pursuant to this section.

(Ord. 9723 § 2, 1984)

#### **§ 20.04.057. Request for determination of merger.**

- A. A property owner may request that the City Engineer determine whether property has merged under Section 20.04.055 or are deemed unmerged under Section 20.04.056. A request for determination shall be made in writing and shall be accompanied by a fee established by City Council resolution.
- B. Upon determination that property has merged, the City Engineer shall issue to the owner and record with the County Recorder a notice of merger.
- C. Upon determination that property is deemed unmerged the City Engineer shall issue to the owner and record with the County Recorder a certificate of compliance showing each parcel as a separate parcel.

(Ord. 9723 § 3, 1984)

#### **§ 20.04.070. Environmental impact review.**

- A. All tentative maps and tentative parcel maps shall be subject to environmental review in accordance with Title 19 of this code and the rules and procedures adopted by the City Council pursuant to the California Environmental Quality Act of 1970. Consequently, unless exempt from CEQA decisions to approve, conditionally approve or deny any tentative map or tentative parcel map shall be subject to the following:
1. Tentative Maps.
    - a. Negative Declaration. Upon receipt of a negative declaration with respect to any tentative map, the decision-making authority may proceed to consider the tentative map without an environmental impact report.
    - b. Environmental Impact Report. With respect to any tentative map for which an

environmental impact report is required, the decision-making authority shall consider such report as independent evidence in determining whether to approve, conditionally approve, or disapprove the tentative map.

2. Tentative Parcel Maps.

- a. Negative Declaration. Upon receipt of a negative declaration with respect to any tentative parcel map, the decision-making authority may proceed to consider the tentative parcel map without an environmental impact report.
  - b. Environmental Impact Report. With respect to any tentative parcel map for which an environmental impact report is required, the decision-making authority shall consider such report as independent evidence in determining whether to approve, conditionally approve, or disapprove the tentative parcel map.
- B. An application for approval of a subdivision shall not be complete, pursuant to Section 65943 of the California Government Code, until after the environmental review for such subdivision has been accomplished.

(Ord. 9417 § 2, 1975; Ord. 9521 § 6, 1979; Ord. CS-192 § 4, 2012)

**§ 20.04.080. Soil reports.**

- A. A preliminary soils report, prepared by a civil engineer registered in this state and based upon adequate test borings, shall be submitted to the appropriate official or body for every subdivision.
- B. A preliminary soils report may be waived by the City Engineer providing the City Engineer finds that, due to the knowledge the city has as to the soils qualities of the soils in the subdivision, no preliminary analysis is necessary.
- C. The preliminary soils report may be submitted to the City Planner and forwarded to the City Engineer for review. The City Engineer may require additional information or reject the report if it is found to be incomplete, inaccurate, or unsatisfactory.
- D. If the city has knowledge of, or the preliminary soils report indicates, the presence of critically expansive soils or other soils problems which, if not corrected, would lead to structural defects, a soils investigation of each lot in the subdivision may be required by the City Engineer.
- E. If the preliminary soils report indicates the presence of rocks or liquids containing deleterious chemicals which, if not corrected, could cause construction materials such as concrete, steel, and ductile or cast iron to corrode or deteriorate, a soils investigation of each potentially affected lot in the subdivision may be required.
- F. Any soils investigation required pursuant to this section shall be done by a civil engineer registered in this state, who shall recommend the corrective action which is likely to prevent structural damage to each structure proposed to be constructed in the area where the soils problem exists.
- G. The decision-making authority may approve the subdivision or portion thereof where such soils problems exist if it determines that the recommended action is likely to prevent structural damage to each structure to be constructed and a condition to the issuance of any building permit may require that the approved recommended action be incorporated in the construction of each structure.

(Ord. 9417 § 2, 1975; Ord. 9602 § 5, 1981; Ord. NS-813 § 4, 2006; Ord. CS-192 § 4, 2012)

**§ 20.04.090. Reservations.**

- A. As a condition of approval of a final or parcel map, the subdivider shall reserve sites appropriate in area and location for parks, recreational facilities, fire stations, libraries or other public uses according to the procedural standards and formula contained in this section.
- B. If a park, recreational facility, fire station, library or other public facility or use is shown on an adopted specific plan or adopted general plan containing a community facilities element, recreation and parks element or a public building element, the subdivider may be required to reserve sites as so determined by the city in accordance with the definite principles and standards contained in the specific plan or general plan. The reserved area must be of such size and shape as to permit the balance of the property within which the reservation is located to develop in an orderly and efficient manner. The amount of land to be reserved shall not make development of the remaining land held by the subdivider economically unfeasible. The reserved area shall conform to the adopted specific plan or general plan and shall be in such multiples of streets and parcels as to permit an efficient division of the reserved area in the event that it is not acquired within the prescribed period.
- C. The public agency for whose benefit an area has been reserved shall, at the time of approval of the final map or parcel map, enter into a binding agreement to acquire such reserved area within two years after the completion and acceptance of all improvements, unless such period of time is extended by mutual agreement.
- D. The purchase price shall be the market value thereof at the time of the filing of the tentative map plus the taxes against such reserved area from the date of the reservation and any other costs incurred by the subdivider in the maintenance of such reserved area, including interest costs incurred on any loan covering such reserved area.
- E. If the public agency for whose benefit an area has been reserved does not enter into such a binding agreement, the reservation of such area shall automatically terminate.

(Ord. 9417 § 2, 1975)

#### **§ 20.04.100. Corrections and amendments.**

- A. Corrections and amendments to final and parcel maps may be accomplished as set forth in Sections 66469 through 66472 of the Subdivision Map Act to the extent provided for therein.
- B. Changes in any lot line, parcel line or subdivision boundary line may only be accomplished by recording an approved parcel map or adjustment plat to the extent provided for in this title.
- C. Any other change to a final or parcel map must be accomplished by processing a new tentative map or tentative parcel map.

(Ord. 9521 § 6, 1979)

#### **§ 20.04.110. Security for the payment of taxes and special assessments—Release.**

Whenever security is filed with the Board of Supervisors or the clerk thereof, pursuant to Section 66493 of the Subdivision Map Act, to secure the payment of taxes or special assessments collected as taxes, which are a lien on the property to be subdivided, but not yet payable, the clerk of the Board of Supervisors, upon notification by the tax collector that the total amount of said taxes or special assessments have been paid in full, may release said security.

(Ord. 9521 § 6, 1979)

#### **§ 20.04.120. Designated remainder parcel.**

- A. When a subdivision, as defined in Section 20.04.020, is of a portion of any unit or units of improved or unimproved land, the subdivider may designate as a remainder that portion which is not divided for the purpose of sale, lease, or financing. Alternatively, the subdivider may omit entirely that portion of any unit of improved or unimproved land which is not divided for the purpose of sale, lease, or financing.

If the subdivider elects to designate a remainder or omit entirely that portion, the following requirements shall apply:

1. The designated remainder or omitted portion shall not be counted as a parcel for the purpose of determining whether a parcel or final map is required.
  2. The fulfillment of construction requirements for improvements, including the payment of fees associated with any deferred improvements, shall not be required until a permit or other grant of approval for development of the remainder or omitted parcel is issued. Fulfillment of the construction requirements, including the payment of fees associated with any deferred improvements, within a reasonable time following approval of the final map and prior to the issuance of a permit or other grant of approval for the development of a remainder parcel may be required upon a finding by the decision-making authority that fulfillment of the construction requirements is necessary for reasons of:
    - a. The public health and safety; or
    - b. The required construction is a necessary prerequisite to the orderly development of the surrounding area.
- B. A designated remainder or any omitted parcel is required to obtain a certificate of compliance or conditional certificate of compliance pursuant to the provisions of Chapter 20.48 of this code prior to any further development or sale of the parcel.

Prior to the issuance of a certificate of compliance or conditional certificate of compliance, the City Engineer shall make a determination under Section 20.16.040(H) of this code whether improvements should be required for the designated remainder or omitted parcel. The improvement requirements may be imposed as a condition of the certificate of compliance. For the purposes of this title, a parcel designated as "not a part" shall be deemed to be a designated remainder parcel.

(Ord. 9549 § 1, 1980; Ord. 9806 § 2, 1986; Ord. NS-813 § 5, 2006; Ord. CS-192 § 5, 2012)

#### **§ 20.04.130. Consideration of housing needs.**

In making decisions pursuant to this title, the decision-making authority shall consider the effect of that decision on the housing needs of the region and balance those needs against the public service needs of its residents and available fiscal and environmental resources.

(Ord. 9549 § 1, 1980; Ord. CS-192 § 5, 2012)

#### **§ 20.04.140. Covenants for easement.**

- A. Whenever under the provisions of Titles 18, 20 or 21 of this code an easement is necessary or required for parking, ingress, egress, emergency access, light and air access, landscaping, drainage, private utilities, sewer/storm drain access or open space purposes, the easement may be created by a covenant pursuant to this section.
- B. At the time of recording of the covenant of easement all the property benefited or burdened by the

covenant shall be in common ownership. The covenant shall be effective when recorded and shall act as an easement pursuant to Chapter 3 (commencing with Section 801) of Title 2 of Part 2 of Division 2 of the Civil Code except that it shall not merge into any other interest in the real property. Section 1104 of the Civil Code shall be applicable to conveyance of the affected real property. The covenant of easement shall describe the real property subject to the easement and the real property benefited by the easement. The covenant of easement shall also identify the approval permit or designation granted which relied upon or required the covenant.

- C. A covenant of easement shall be enforceable by the owner of the real property benefited by the covenant, and by the successors in interest to the real property benefited by the covenant. The covenant of easement shall be recorded in the office of the County Recorder. Upon recordation, the burdens of the covenant shall be binding upon and the benefits of the covenant shall inure to all successors in interest to the real property.
- D. The covenant of easement may be released upon the application of any person upon approval or conditional approval by the City Engineer. An application for release of a covenant shall be accompanied by a fee in an amount designated by City Council resolution. A request for release of a covenant of easement may be consolidated with any other application for discretionary approval under this code.
- E. This section is adopted pursuant to Article 2.7 commencing with Section 65870 of Chapter 4 of Division 1 of Title 7 of the Government Code.

(Ord. 9803 § 1, 1986; Ord. NS-813 § 6, 2006; Ord. CS-164 § 10, 2011; Ord. CS-192 § 5, 2012)

## CHAPTER 20.08 FEES

### **§ 20.08.010. Tentative map fee.**

A tentative map examination fee in an amount established by City Council resolution shall be paid at the time a tentative map is filed with the City Planner.

(Ord. 9417 § 2, 1975; Ord. 9568 § 1, 1980; Ord. 1256 § 12, 1982; Ord. 9788 § 2, 1986; Ord. NS-676 § 12, 2003; Ord. CS-155 § 7, 2011; Ord. CS-164 § 11, 2011; Ord. CS-192 § 6, 2012)

### **§ 20.08.015. Tentative map appeal fee.**

A tentative map appeal fee in an amount established by City Council resolution shall be paid at the time an appeal is filed with the City Planner.

(Ord. 9602 § 6, 1981; Ord. CS-192 § 6, 2012)

### **§ 20.08.020. Revised tentative map fee.**

A revised tentative map examination fee in an amount established by City Council resolution shall be paid at the time that a revised tentative map is filed with the City Planner. An additional fee in an amount established by City Council resolution shall be paid for the revision of a vesting tentative map.

(Ord. 9417 § 2, 1975; Ord. 9568 § 1, 1980; Ord. 1256 § 12, 1982; Ord. 9788 § 3, 1986; Ord. NS-676 § 12, 2003; Ord. CS-164 § 11, 2011; Ord. CS-192 § 6, 2012)

### **§ 20.08.030. Tentative map extension fee.**

At the time of filing a request for the extension of a tentative map with the City Planner, there shall be paid a tentative map extension processing fee equal to one-half of the fee prescribed in Section 20.08.010 for such tentative map.

(Ord. 9417 § 2, 1975; Ord. 7058 § 5, 1979; Ord. CS-192 § 6, 2012)

### **§ 20.08.035. Tentative map litigation stay fee.**

At the time of filing a request for a stay with the City Planner, there shall be paid a litigation stay processing fee equal to one-quarter of the fee prescribed in Section 20.08.010 for such tentative map.

(Ord. 9549 § 2, 1980; Ord. CS-192 § 6, 2012)

### **§ 20.08.040. Final map fee.**

At the time of filing a final map with the City Engineer, there shall be paid an examination fee in an amount established by City Council resolution.

(Ord. 9417 § 2, 1975; Ord. 7058 § 5, 1979; Ord. NS-68 § 11, 1989; Ord. CS-192 § 6, 2012)

### **§ 20.08.045. Notice fees.**

The subdivider shall pay a fee to cover the cost incurred by the city in giving any notice or providing any report required by this title or the Subdivision Map Act.

(Ord. 9602 § 7, 1981)

**§ 20.08.050. Improvement plan review and construction inspection fees.**

All construction and installation of improvements shall be subject to plan review and inspection by the City Engineer or other appropriate department, and the subdivider shall arrange for inspection prior to starting construction or installation of the improvements. The cost to the city of examining improvement plans, inspecting improvements and monuments shall be paid by the subdivider in accordance with Section 11.16.145(C).

(Ord. 9417 § 2, 1975; Ord. 9681 § 1, 1983; Ord. NS-68 § 12, 1989; Ord. CS-135 § 6, 2011)

**§ 20.08.060. Tentative parcel map fee.**

At the time of submission of a tentative parcel map, there shall be paid a tentative parcel map examination fee in an amount determined by the City Council by resolution.

(Ord. 9417 § 2, 1975; Ord. 7058 § 5, 1979; Ord. 9788 § 4, 1986; Ord. NS-68 § 13, 1989; Ord. CS-155 § 8, 2011; Ord. CS-192 § 7, 2012)

**§ 20.08.070. Parcel map fee.**

At the time of filing of a parcel map the subdivider shall pay a processing fee in an amount determined by the City Council by resolution.

(Ord. 9417 § 2, 1975; Ord. 7058 § 5, 1979; Ord. NS-68 § 14, 1989; Ord. CS-192 § 7, 2012)

**§ 20.08.080. Tentative parcel map extension fee.**

At the time of filing a request for the extension of a tentative parcel map with the City Planner, there shall be paid a tentative parcel map extension processing fee in an amount determined by the City Council by resolution.

(Ord. 9417 § 2, 1975; Ord. 7058 § 5, 1979; Ord. NS-68 § 15, 1989; Ord. CS-192 § 7, 2012)

**§ 20.08.090. Fees for adjustment plats.**

At the time of filing an adjustment plat, there shall be paid an adjustment plat examination fee in an amount determined by the City Council by resolution.

(Ord. 9417 § 2, 1975; Ord. 7058 § 5, 1979; Ord. NS-68 § 16, 1989; Ord. CS-192 § 7, 2012)

**§ 20.08.100. Fees for reversion to acreage.**

Petitions to revert property to acreage shall be accompanied by a fee in an amount determined by the City Council by resolution. If the proceedings are initiated pursuant to Section 20.40.030, the person or persons who requested the City Council to initiate the proceedings shall pay a fee in an amount determined by the City Council by resolution.

(Ord. 9417 § 2, 1975; Ord. NS-68 § 17, 1989)

**§ 20.08.110. Fees for certificates of compliance.**

At the time of filing any requests pursuant to this title intended to result in the issuance of a certificate of compliance, there shall be paid a fee in an amount determined by the City Council by resolution, to cover the cost of making the required determinations pursuant to such request and the recording of any certificate of compliance resulting therefrom.

(Ord. 9417 § 2, 1975; Ord. 7058 § 5, 1979; Ord. NS-68 § 18, 1989; Ord. CS-192 § 8, 2012)

**§ 20.08.120. Streets and lots reserved for future streets excluded from computation.**

Streets and lots reserved for future streets shall be disregarded in computing the fees and charges imposed by this chapter.

(Ord. 9417 § 2, 1975)

**§ 20.08.130. Drainage and sewer facilities—Payment of fees required.**

Prior to filing of any final map or parcel map, the subdivider shall pay or cause to be paid any fees for defraying the actual or estimated costs of constructing planned drainage facilities for the removal of surface and stormwaters from local or neighborhood drainage areas or sanitary sewer facilities for local sanitary sewer areas established pursuant to Section 66483 of the Subdivision Map Act. Payment of the fees for planned local drainage facilities shall conform with the requirements of Chapter 15.08 of this code and shall be paid prior to filing of the final or parcel map or issuance of building permits, whichever occurs first.

(Ord. 9417 § 2, 1975; Ord. NS-293 § 3, 1994)

**§ 20.08.140. Bridge crossing and major thoroughfares.**

- A. The purpose of this section is to make provision for assessing and collecting fees as a condition of approval of a final map, parcel map or as a condition of issuing a building permit for the purpose of defraying the actual or estimated costs of constructing bridges or major thoroughfares pursuant to Section 66484 of the Subdivision Map Act.
- B. Whenever the following words are used in this section, they shall have the following meaning:
  - "Construction" means design, acquisition of right-of-way, administration of construction contracts and actual construction;
  - "Major thoroughfare" means a roadway as shown on the circulation element of the general plan whose primary purpose is to carry through traffic and provide a network connecting to the state highway system.
- C. Whenever this section refers to the circulation element of the general plan or to the transportation or flood control provisions thereof, it shall mean the circulation element of the general plan and the transportation and flood control provisions thereof heretofore adopted by the city pursuant to Chapter 3 of Title 7 of the Government Code, together with any additions or amendments thereto hereafter adopted.
- D. Prior to filing a final map or parcel map which includes land within an area of benefit established pursuant to this section, the subdivider shall pay or cause to be paid any fees established and apportioned to said property pursuant to this section for the purpose of defraying the actual or estimated cost of constructing bridges over waterways, railways, freeways or canyons or constructing major thoroughfares.
- E. Prior to the issuance of a building permit for construction on any property within an area of benefit established pursuant to this section, the applicant for such permit shall pay or cause to be paid any fees established and apportioned pursuant to this section for the purpose of defraying the actual or estimated cost of constructing bridges over waterways, railways, freeways or canyons or constructing major thoroughfares, unless such fees have been paid pursuant to subsection D of this section.
- F. Notwithstanding the provisions of subsections D and E of this section:

1. Payment of bridge fees shall not be required unless the planned bridge facility is an original bridge serving the area or an addition to any existing bridge facility serving the area at the time of adoption of the boundaries of the area of benefit;
  2. Payment of major thoroughfare fees shall not be required unless the major thoroughfares are in addition to, or a reconstruction of, any existing major thoroughfares serving the area at the time of the adoption of the area benefit.
- G. Prior to establishing an area of benefit, a public hearing shall be held by the City Council, at which time the boundaries of the area of benefit, the costs, whether actual or estimated, and a fair method of allocation of costs to the area of benefit and fee apportionment, and the fee to be collected, shall be established. Notice of the public hearing shall be given pursuant to Section 65091 of the Government Code. In addition to the requirements of Section 65091 of the Government Code, such notice shall contain preliminary information related to the boundaries of the area of benefit, estimated cost and the method of fee apportionment.
- H. At any time not later than the hour set for hearing objections to the proposed bridge facility or major thoroughfare, any owner of property to be benefited by the improvement may file a written protest against the proposed bridge facility or major thoroughfare or against the extent of the area to be benefited by the improvements or against both of them. Such protests must be in writing and must contain a description of the property in which each signer thereof is interested, sufficient to identify the same and if the signers are not shown on the last equalized assessment roll as the owners of such property, must contain or be accompanied by written evidence that such signers are the owners of such property. All such protests shall be delivered to the City Clerk and no other protest or objections shall be considered. Any protests may be withdrawn by the owners making the same, in writing, at any time prior to the conclusion of the public hearing.
- I. If there is a written protest filed with the City Clerk by the owners of more than one-half of the area of the property to be benefited by the improvement, and sufficient protests are not withdrawn so as to reduce the area represented to less than one-half of that to be benefited, then the proposed proceedings shall be abandoned, and the City Council shall not, for one year from the filing of that written protest, commence or carry on any proceedings for the same improvements under the provisions of this section.
- If any majority protest is directed against only a portion of the improvement, then all further proceedings under the provisions of this section to construct that portion of the improvement so protested against shall be barred for a period of one year, but the City Council may commence new proceedings not including any part of the improvement or acquisition so protested against. Nothing in this section shall prohibit the City Council within such one-year period, from commencing and carrying on new proceedings for the construction of a portion of the improvement so protested against if it finds, by the affirmative vote of four-fifths of its members, that the owners of more than one-half of the area of the property to be benefited are in favor of going forward with such portion of the improvement or acquisition.
- J. If the City Council finds that a majority protest has not been made, they shall make the determinations required by subsection G of this section and decide whether or not to confirm the area of benefit. The council shall announce its decision by resolution, which shall be recorded with the Recorder of the County. There are established fees for the purpose of defraying the actual or estimated cost of constructing the bridge or thoroughfare as described in such resolution as the council may adopt pursuant to this section. Said fees and the area of benefit to which such fees are apportioned shall be established as set forth in said resolution. Such apportioned fees shall be applicable to all property

within the area of benefit and shall be payable as a condition of approval of a final map or as a condition of issuing a building permit for such property or portions thereof.

K. Notwithstanding the provision of subsection J of this section, payment of such fees shall not be required for:

1. The use, alteration or enlargement of an existing building or structure or the erection of one or more buildings or structures accessory thereto, or both, on the same lot or parcel of land; provided, the total value, as determined by the Community and Economic Development Director, of all such alteration, enlargement or construction completed within any one-year period does not exceed one-half of the current market value, as determined by the Community and Economic Development Director, of all existing building on such lot or parcel of land, and the alteration or enlargement of the building is not such as to change its classification of occupancy as defined by Section 501 of the Uniform Building Code;
  2. The following accessory buildings and structures: private garages, children's playhouses, radio and television receiving antennas, windmills, silos, tank houses, shops, barns, coops and other buildings which are accessory to one-family or two-family dwellings.
- L. Upon application by the subdivider or applicant for a building permit, the City Council may accept consideration in lieu of fees required pursuant to this section, provided:
1. The City Council finds upon recommendation of the City Manager that the substitute consideration has a value equal to or greater than the fee; and
  2. The substitute consideration is in a form acceptable to the City Council.

M. The City Council shall give a credit against the fees imposed by this section for properties within the boundaries of and subject to taxation by community facilities district number one. The amount of such credit shall be determined by the City Council and established by resolution.

(Ord. 9417 § 2, 1975; Ord. 9521 § 7, 1979; Ord. 1261 § 31, 1983; Ord. 9758 § 4, 1985; Ord. NS-157 § 2, 1991; Ord. NS-676 § 13, 2003; Ord. NS-813 § 7, 2006; Ord. CS-192 § 9, 2012)

**CHAPTER 20.12  
MAJOR SUBDIVISIONS—PROCEDURE**

**§ 20.12.010. Tentative map required.**

- A. Any person proposing to create a major subdivision shall file a tentative map pursuant to this chapter with the City Planner. The City Engineer shall not approve a final map unless a tentative map of the subdivision is approved pursuant to this chapter. Prior to filing a tentative map, the subdivider or authorized agent shall confer with the City Planner and the City Engineer regarding the preparation of the map. A proposed tentative map may not be filed unless it conforms to the requirements of this chapter.
- B. Where a parcel map is authorized for a major subdivision pursuant to the Subdivision Map Act or this title, the City Engineer shall not approve such map unless a tentative map of the subdivision is approved pursuant to this chapter.
- C. Tentative maps shall be prepared and processed in accordance with the Subdivision Map Act and the provisions of this title. The subdivider shall file as many copies of the tentative map or other required information as the City Planner may require.

(Ord. 9417 § 2, 1975; Ord. 1256 §§ 6, 9, 1982; Ord. NS-676 § 14, 2003; Ord. CS-164 § 10, 2011; Ord. CS-192 § 11, 2012)

**§ 20.12.015. Application and time limits for processing.**

- A. An application for a tentative map may be made by the owner of the property affected or the authorized agent of the owner. The application shall:
  - 1. Be made in writing on a form provided by the City Planner;
  - 2. State fully the circumstances and conditions relied upon as grounds for the application; and
  - 3. Be accompanied by adequate plans, a legal description of the property involved, data specified by this title and all other materials as specified by the City Planner.
- B. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.
- C. If signatures of persons other than the owners of property making the application are required or offered in support of, or in opposition to, an application, they may be received as evidence of notice having been served upon them of the pending application, or as evidence of their opinion on the pending issue, but they shall in no case infringe upon the free exercise of the powers vested in the city as represented by the Planning Commission and the City Council.
- D. The City Planner shall not accept a tentative map for processing or filing unless the City Planner finds that:
  - 1. The requirements of Title 19 of this code have been met;
  - 2. The tentative map is consistent with the provisions of Title 21 of this code and that all approvals and permits required by Title 21 for the project have been given or issued.
- E. All tentative maps shall be approved, conditionally approved or denied within the time limits specified by this title and the Subdivision Map Act.

If the decision-making authority does not take action to approve, conditionally approve or deny the tentative map within the time limits specified by this title or the Subdivision Map Act, the tentative map as filed shall be deemed to be approved, insofar as it complies with other applicable requirements of this code and the Subdivision Map Act.

- F. Notwithstanding the provisions of subsections D and E of this section, a tentative map may be processed concurrently with other development permits or approvals required for the project, pursuant to Title 19 or 21 of this code, if the subdivider for the tentative map first waives the time limits for processing, approving or conditionally approving or disapproving the tentative map established by this title or the Subdivision Map Act. Pursuant to the provisions of Chapter 19.04 of this code, a tentative map may be processed but shall not be deemed complete until the environmental documents are completed.

(Ord. 9521 § 8, 1979; Ord. 9559 § 1, 1980; Ord. 1256 § 6, 1982; Ord. 1266 § 4, 1983; Ord. 9870 § 7, 1985; Ord. NS-676 § 14, 2003; Ord. CS-164 § 10, 2011; Ord. CS-192 § 11, 2012)

#### **§ 20.12.020. Grading plan.**

There shall be filed with each tentative map a grading plan showing any grading proposed for the creation of building sites within the subdivision or for construction or installation of improvements to serve the subdivision. The grading plan, together with the original topographical contours, may be shown on the tentative map. This plan shall indicate approximate earthwork volumes of proposed excavation and filling operations. In the event no such grading is proposed, a statement to that effect shall be filed with the tentative map.

(Ord. 9417 § 2, 1975)

#### **§ 20.12.030. Preliminary title report.**

There shall be filed with each tentative map a current preliminary title report for the property being subdivided.

(Ord. 9417 § 2, 1975)

#### **§ 20.12.040. Size of map.**

The size of such tentative map is optional; the scale shall not be less than 200 feet to the inch.

(Ord. 9417 § 2, 1975)

#### **§ 20.12.050. Information on map.**

Each tentative map shall contain the following information:

- A. Name and address of the owner whose property is proposed to be subdivided and the name and address of the subdivider;
- B. Name and address of registered civil engineer, licensed surveyor, landscape architect or land planner who prepared the maps;
- C. North point;
- D. Scale;
- E. Date of preparation;
- F. The location, width and proposed names of all streets within the boundaries of the proposed

subdivision and approximate grades thereof;

- G. Location and width of alleys;
- H. Name, location and width of adjacent streets;
- I. Lot lines and approximate dimensions and numbers of each lot;
- J. Approximate location and width of watercourses or areas subject to inundation from floods, and location of structures, irrigation ditches and other permanent physical features;
- K. Approximate contours at two-foot intervals;
- L. Approximate location of existing buildings and permanent structures;
- M. Location of all major vegetation, showing size and type;
- N. Legal description of the exterior boundaries of the subdivisions;
- O. Width and location of all existing or proposed public or private easements;
- P. Classification of lots as to intended residential, commercial, industrial or other uses;
- Q. Location of railroads;
- R. Approximate radii of curves;
- S. Proposed name and city tract number of the subdivision;
- T. Any proposed phasing by units;
- U. Number of units to be constructed when a condominium or community apartment project is involved.  
(Ord. 9417 § 2, 1975)

#### **§ 20.12.060. Supplemental information.**

The tentative map shall show thereon, or be accompanied by reports and written statements from the subdivider giving essential information regarding the following matters:

- A. Source of water supply;
  - B. Type of street improvement and utilities which the subdivider proposes to install;
  - C. Proposed method of sewage disposal including location of facilities;
  - D. Proposed stormwater sewer or other means of drainage, including the location of such facilities;
  - E. Protective covenants to be recorded;
  - F. Proposed tree planting.
- (Ord. 9417 § 2, 1975)

#### **§ 20.12.062. Conversion of mobile home parks.**

- A. At the time of filing a tentative map for a subdivision to be created from the conversion of a mobile home park to another use, the subdivider shall also file a report specified by Section 66427.4 of the

Government Code.

- B. If the provisions of Chapter 21.37 apply to the mobile home park, the report specified in subsection A of this section shall include the report specified by Section 21.37.110(b)(3) of this code.
- C. In determining the impact of the conversion on displaced mobile home park residents, the report shall address the availability of adequate replacement space in mobile home parks. The subdivider shall make a copy of the report available to each resident of the mobile home park at least 15 days prior to the hearing on the map. If Chapter 21.37 applies, the subdivider shall also provide all notices required by Section 21.37.120 of this code. The decision-making authority may require the subdivider to take steps to mitigate any adverse impact of the conversion on the ability of displaced mobile home park residents to find adequate space in a mobile home park, and shall make all the findings required by Section 21.37.120.
- D. When approving or conditionally approving a tentative map for conversion of a mobile home park, the decision-making authority shall do one of the following:
  - 1. Mitigate any significant adverse impact of the conversion on the ability of displaced mobile home park residents to find adequate space in a mobile home park by zoning additional land for mobile home parks;
  - 2. Find that there is sufficient land zoned for mobile home parks or sufficient space available in other mobile home parks for the residents who will be displaced;
  - 3. Require the subdivider to mitigate any adverse impact pursuant to subsection C of this section;
  - 4. Find that the mitigation required by paragraphs 1 and 3 of this subsection are not feasible. "Feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social and technological factors.

(Ord. CS-192 § 12, 2012)

#### **§ 20.12.065. Proof of notice—Major subdivisions.**

Whenever the subdivider is required by this title or the Subdivision Map Act to give any notice or provide any report or information to any person other than the city, the subdivider shall submit proof, sufficient to allow the decision-making authority to find that the notice has been given or the reports or information provided. Such proof may include declarations under penalty of perjury.

(Ord. 9602 § 8, 1981; Ord. CS-192 § 12, 2012)

#### **§ 20.12.070. City planner's duties.**

- A. The City Planner shall obtain the recommendation of the City Engineer, the Parks and Recreation Director, the Fire Chief or their authorized representatives with respect to the design of the proposed subdivision and the kind, nature and extent of the proposed improvements. Recommendations may also be obtained from affected agencies and any other person affected by or interested in the proposed subdivision, if such recommendations are found to be necessary.
- B. Within 10 days after the filing of a tentative map, the City Planner shall send notice of filing thereof with information about the location, number of units, density and any other information relevant to school districts to the governing board of any elementary, high school or unified school district within whose boundaries the proposed subdivision is located. Such governing board shall make a written report thereon to the city indicating the impact of the proposed subdivision and its recommendations

within 20 working days after said notice was mailed, or the governing board shall be deemed to have approved the proposed subdivision.

- C. The City Planner shall prepare a staff report to the decision-making authority containing recommendations regarding the tentative map. A copy of the staff report and recommendations shall be furnished to the subdivider and to each tenant of the subject property in the case of a proposed conversion of residential real property to a condominium project, community apartment project, or stock cooperative project at least three days prior to any hearing or action on such map by the Planning Commission.
- D. The City Planner shall set the map for public hearing before the Planning Commission.  
(Ord. 9417 § 2, 1975; Ord. 9521 § 9, 1979; Ord. 9602 § 9, 1981; Ord. 1256 § 6, 1982; Ord. NS-676 § 14, 2003; Ord. CS-164 § 10, 2011; Ord. CS-192 § 12, 2012)

#### **§ 20.12.080. Notices and hearings.**

- A. Notice of the public hearing for a tentative map application shall be given pursuant to Sections 21.54.060 and 21.54.061 of this code.

If the proposed subdivision is a conversion of residential real property to a condominium project, community apartment project, or stock cooperative project, the notice shall also be given by mail to each tenant of the subject property and shall include notification of the tenant's right to appear and be heard.

- B. Failure by any person to receive notice specified in this section shall not invalidate any action taken pursuant to this title.  
(Ord. CS-192 § 12, 2012)

#### **§ 20.12.090. Decision-making authority.**

- A. The Planning Commission shall have the authority to approve, conditionally approve or deny a tentative map based upon its review of the facts as set forth in the application, the circumstances of the particular case, and evidence presented at a public hearing.
- B. The Planning Commission shall hear the matter, and may approve or conditionally approve the tentative map if all of the findings of fact in Section 20.12.091 of this chapter are found to exist.
  1. Whenever the Planning Commission approves or conditionally approves a tentative map providing for supplemental size of improvements, the establishment of benefit districts, the execution of reimbursement agreements or the setting of fees under any of the provisions of Section 20.08.130 or 20.08.140; Chapter 20.09; or Section 20.16.041, 20.16.042 or 20.16.043, the map shall be forwarded to the City Council, which shall hold a public hearing on the issue of the improvements.
  2. Any decision to approve or conditionally approve a tentative map shall include a description, pursuant to the provisions of this title, of the kind, nature and extent of any improvements required to be constructed or installed in or to serve the subdivision. However, where the Planning Commission does not prescribe the kind, nature or extent of the improvements to be constructed or installed, improvements shall be constructed and installed in accordance with the city standards.
- C. Any decision to disapprove a tentative map shall be accompanied by a finding, identifying the

requirements which must be met or performed.

(Ord. 9417 § 2, 1975; Ord. 9521 § 10, 1979; Ord. 9532 § 2, 1979; Ord. 9559 § 2, 1980; Ord. 9602 § 10, 1981; Ord. 9626 § 3, 1982; Ord. CS-192 § 12, 2012)

**§ 20.12.091. Required findings.**

A. The decision-making authority may approve or conditionally approve a tentative map if all of the following findings are made:

1. The proposed subdivision, together with the provisions for its design and improvement, is consistent with the general plan, applicable master and specific plans and with applicable provisions of Title 21.
2. All approvals and permits required by Title 21 for the project have been obtained or will be concurrently obtained with the approval of the subdivision.
3. The site is physically suitable for the type of development.
4. The site is physically suitable for the proposed density of development.
5. The design of the subdivision or proposed improvements:
  - a. Are not likely to cause substantial environmental damage nor substantially and avoidably injure fish or wildlife or their habitat; or
  - b. If an environmental impact report was prepared with respect to the project, a finding was made, pursuant to Section 21081(a)(3) of the California Public Resources Code, that specific economic, social or other considerations make infeasible the mitigation measures or project alternatives identified in the environmental impact report.
6. The design of the subdivision or the type of improvements is not likely to cause serious public health problems.
7. The design of the subdivision or the type of improvements will not conflict with easements, acquired by the public at large, for access through or use of property within the proposed subdivision; or, alternate easements for access or for use will be provided and that these will be substantially equivalent to ones previously acquired by the public.

This finding shall apply only to easements of record or to easements established by judgment of a court of competent jurisdiction and no authority is hereby granted to the decision-making authority to determine that the public at large has acquired easements for access through or use of property within the proposed subdivision.

8. All requirements of the California Environmental Quality Act have been met.
9. The proposed subdivision meets or performs all applicable requirements or conditions of this title and the Subdivision Map Act, unless failure to do so is a result of a technical and inadvertent error that does not materially affect the validity of the subdivision.
10. In the case of conversions of residential real property to condominiums, community apartments or stock cooperatives, all required notices and reports to tenants have been or will be sent as required by California Government Code Section 66427.1 and other applicable laws.
11. If the proposed subdivision is on land that is subject to any of the contracts or easements

specified in Section 66474.4 of the California Government Code:

- a. The parcels resulting from the subdivision will be large enough to sustain agricultural use, as specified in Section 66474.4 of the California Government Code; and
  - b. If the subdivision will create lots for residential use, the residential development will be incidental to the commercial agricultural use of the land.
12. The proposed subdivision complies with all requirements of the hillside development regulations, Chapter 21.95 of the Carlsbad Municipal Code.

(Ord. 9602 § 10, 1981; Ord. 9760 § 8, 1985; Ord. 9806 § 3, 1986; Ord. 9827 § 1, 1987; Ord. CS-192 § 12, 2012)

#### **§ 20.12.092. Announcement of decision and findings of fact.**

- A. When a decision on a tentative map is made pursuant to this chapter, the decision-making authority shall announce its decision and findings by formal resolution.
- B. The announcement of decision and findings shall include:
  1. A statement that the tentative map is approved, conditionally approved, or denied;
  2. The facts and reasons which, in the opinion of the decision-making authority, make the approval or denial of the tentative map necessary to carry out the provisions and general purpose of this title;
  3. Such conditions and limitations that the decision-making authority may impose in the approval of the tentative map.
- C. The announcement of decision and findings shall be mailed to:
  1. The owner of the subject real property or the owner's duly authorized agent, the subdivider and/or the subdivider's representative at the address or addresses shown on the application filed with the planning division;
  2. Any person who has filed a written request for a notice of decision.

(Ord. 9602 § 10, 1981; Ord. 9626 § 4, 1982; Ord. 9758 § 5, 1985; Ord. CS-192 § 12, 2012)

#### **§ 20.12.093. Effective date and appeals.**

Decisions on tentative maps shall become effective as of the date specified by resolution of the decision-making authority unless appealed and processed in accordance with the provisions of Section 21.54.150 of this code and Section 66452.5 of the Subdivision Map Act.

(Ord. CS-192 § 12, 2012)

#### **§ 20.12.100. Expiration of tentative maps.**

- A. The approval or conditional approval of a tentative map shall expire 24 months from the date the map was approved or conditionally approved unless it has been extended pursuant to Section 20.12.110 of this chapter.
- B. The time period specified in subsection A of this section, including any extension thereof granted pursuant to Section 20.12.110 of this chapter, shall not include any period of time during which a

development moratorium as defined in Section 66452.6(f) of the California Government Code, imposed after approval of the tentative map, is in existence; provided, however, that the length of such moratorium does not exceed five years.

- C. The period of time specified in subsection A, including any extension thereof granted pursuant to Section 20.12.110 of this chapter, shall not include any period of time during which a lawsuit involving the approval or conditional approval of the tentative map is or was pending in a court of competent jurisdiction, if a stay of such time period is approved by the City Council pursuant to this subsection.
1. An application for a stay must be filed by the subdivider in writing with the City Planner within 10 days of the service on the city of the initial petition or complaint in such lawsuit.
  2. The application shall state the reasons for the requested stay and include the names and addresses of all parties to the litigation.
  3. The City Planner shall notify all parties to the litigation of the date when the application will be heard by the City Council.
  4. Within 40 days after receiving such application, the City Council shall approve or conditionally approve the stay for up to five years or deny the requested stay.
- D. Prior to the expiration of the tentative map, a final map conforming to the requirements of Chapter 20.20 of this title may be filed with the City Engineer for approval. The final map shall be deemed filed on the date it is received by the City Engineer. Once a timely and complete filing has been made pursuant to this section, subsequent actions of the city, including, but not limited to, processing, approving, and recording, may occur after the date of expiration of the tentative map.
- E. The expiration of the approved or conditionally approved tentative map shall terminate all proceedings and no final map of all or any portion of the real property included within the tentative map shall be filed without first processing a new tentative map.

(Ord. 9549 § 3, 1980; Ord. 9680 § 2, 1983; Ord. 9760 § 9, 1985; Ord. 9806 §§ 4—6, 1986; Ord. CS-032 § 1, 2009; Ord. CS-135 § 7, 2011; Ord. CS-192 § 12, 2012)

### **§ 20.12.110. Extension of tentative map.**

- A. Automatic Time Extension. Pursuant to California Government Code Section 66452.23, the expiration date of any tentative map, which has not expired on or before July 15, 2011 and will expire before January 1, 2014, shall be extended by two years.
1. The expiration of all project related permits or approvals, which were granted concurrently, shall be extended by two years, provided said permits or approvals have not expired on or before July 15, 2011.
  2. This section shall automatically sunset on January 1, 2014, unless Government Code Section 66452.23 is extended by the state legislature, in which case this provision shall remain in effect concurrently with the effective date of the state law.
- B. Time Extension by City Planner.
1. The City Planner may administratively, without a public hearing or notice, extend the time within which the right or privilege granted under a tentative map is valid, subject to the following:

2. Prior to the expiration date of the tentative map, the subdivider shall submit a written request for a time extension, along with payment of the application fee contained in the most recent fee schedule adopted by the City Council.
  3. Provided the written request for a time extension is timely filed, the tentative map shall be automatically extended for 60 days or until a decision to approve, conditionally approve or deny the request is rendered, whichever occurs first; however, if a time extension is granted, it shall be based on the original approval date.
  4. The City Planner shall extend the tentative map for an additional two years, if the following findings are made:
    - a. The tentative map remains consistent with the general plan, all titles of this code and growth management program policies and standards in place at the time the extension is considered;
    - b. Circumstances have not substantially changed since the tentative map was originally approved;
    - c. The City Planner may grant no more than three two-year extensions, for a total cumulative time extension of six years;
    - d. All project related permits or approvals, which were granted concurrently, shall be extended to expire concurrently with the tentative map, provided such permits or approvals remain consistent with the general plan, all titles of this code and growth management program policies and standards in place at the time the extension is considered;
    - e. When granting an extension of a tentative map, the City Planner may impose new conditions and may revise existing conditions;
    - f. The City Planner shall announce in writing, by letter, his or her decision to grant or deny an extension of a tentative map. A copy of the letter announcing the City Planner's decision shall be mailed to the subdivider and to any person who has filed a written request to receive such notice.
  5. City planner decisions on time extensions shall become effective as of the date specified by resolution of the decision-making authority unless appealed and processed in accordance with the provisions of Section 21.54.140 of this code; except, if the City Planner denies the time extension, the subdivider may file an appeal with the City Clerk within 15 days of the denial, and said appeal shall be subject to the same process required for appeals of Planning Commission decisions specified in Section 21.54.150 of this code.
- C. Extensions when Filing Multiple or "Phased" Final Maps. In addition to the provisions for time extensions specified in subsections A and B of this section, a tentative map for which the filing of multiple or "phased" final maps has been authorized shall be extended subject to the following provisions:

When the subdivider is required to expend an amount equal to or greater than specified in California Government Code Section 66452.6(a), as determined at the time the tentative map is approved, to construct, improve or finance the construction or improvement of public improvements outside the boundaries of the tentative map, excluding improvements of public rights-of-way that abut the boundary of the property and are reasonably related to the development of that property, then each filing of a final map authorized by Section 20.20.020(C) of this code shall extend the expiration of

the approved or conditionally approved tentative map by 36 months from the date it would otherwise have expired or the date of the previously filed final map, whichever is later.

1. The extensions granted pursuant to this subsection shall not extend the tentative map for more than 10 years, excluding extensions granted pursuant to subsections A and B of this section. However, a tentative map for property subject to a development agreement authorized by the California Government Code and this code may be extended for a period of time provided for in the agreement, but not beyond the duration of the agreement.
  2. "Public improvements," as used in this subsection, include traffic controls, streets, roads, highways, freeways, bridges, overcrossings, street interchanges, flood control or storm drain facilities, sewer facilities, water facilities, and lighting facilities.
- D. Extensions of vesting tentative maps shall be governed solely by the provisions of Chapter 20.17 of this title, and by the provisions of subsection C of this section.
- (Ord. 9417 § 2, 1975; Ord. 9602 § 11, 1981; Ord. 9626 § 7, 1982; Ord. 9806 § 7, 1986; Ord. NS-422 § 2, 1997; Ord. CS-003 §§ 1, 3, 2008; Ord. CS-087, 2010; Ord. CS-135 § 8, 2011; Ord. CS-192 § 12, 2012)

#### **§ 20.12.120. Tentative map amendment.**

- A. An approved tentative map may be amended by following the same procedure required for the approval of said tentative map (except that if the City Council approved the original tentative map, the Planning Commission shall have the authority to act upon the amendment), and upon payment of the application fee contained in the most recent fee schedule adopted by the City Council.
  - B. If an approved tentative map was issued concurrently with the approval of another project related development permit(s), any amendment to said tentative map shall be acted on by the decision-making authority that approved the original tentative map, except that if the City Council approved the original tentative map, the Planning Commission shall have the authority to act upon the amendment.
  - C. In granting an amendment, the decision-making authority may impose new conditions and may revise existing conditions.
  - D. An amended tentative map shall conform to the following requirements:
    1. The proposed subdivision shown on such map shall generally conform to the street and lot pattern shown on the approved tentative map.
    2. The proposed subdivision shown on such map shall include only one contiguous area consisting of all or a portion of the subdivision shown on the approved tentative map together with such additional land, if any, as the subdivider desires to include.
    3. The map shall contain all of the information required on tentative maps and shall be accompanied by such data as is required to be filed with tentative maps.
- E. A tentative map amendment may be filed prior to expiration of a tentative map or within the period of time specified in any extension granted thereto.
- (Ord. 9417 § 2, 1975; Ord. 9602 § 12, 1981; Ord. 1256 § 12, 1982; Ord. NS-422 § 3, 1997; Ord. NS-676 § 12, 2003; Ord. CS-164 § 11, 2011; Ord. CS-192 § 12, 2012)

**§ 20.12.130. Vesting tentative maps.**

The vesting tentative map may be filed and processed in the same manner and subject to the same requirements as a tentative map except as provided in Chapter 20.17.

(Ord. 9788 § 5, 1986)

**CHAPTER 20.16  
MAJOR SUBDIVISIONS—REQUIREMENTS**

**§ 20.16.010. Design of subdivision.**

All major subdivisions for which a tentative map is required by this title shall conform to the following requirements as to design:

- A. Except as approved by the City Engineer, no lot shall include land in more than a single tax code area. A building permit shall not be issued for a lot which includes land in more than one tax code area and a note reflecting such restriction shall be included on the final map.
- B. Every lot shall contain the minimum lot area specified in Title 21 for the zone in which the lot is located at the time the final map is submitted to the City Council for its approval; provided, however, if no lot area is established by Title 21, every lot shall contain a net area of no less than 7,500 square feet.
- C. Every lot shall front on a dedicated street or a street offered for dedication unless otherwise authorized by Title 21 for the zone in which the lot is located at the time the final map is submitted to the City Council for its approval.
- D. Every lot shall have a width as specified in Title 21 for the zone in which the lot is located at the time the final map is submitted.
- E. Except for panhandle or flag-shaped lots approved pursuant to Title 21, lots whose side lines are approximately radial to the center of a cul-de-sac or the center of the intersection of two dead end streets shall have at least 33 feet of frontage measured at the right-of-way lines.
- F. Panhandle or flag-shaped lots, if permitted pursuant to Title 21, shall have minimum frontage of 20 feet on a dedicated public street or publicly dedicated easement accepted by the city. Where the panhandle or flag-shaped portion of a lot is adjacent to the same portion of another such lot the required minimum frontage on such street easement shall be 15 feet provided a joint easement ensuring common access to both such portions is agreed upon by the owners of such lots and recorded.
- G. Through lots shall not be allowed unless vehicular access rights are relinquished to one of the abutting streets as approved by the City Engineer.
- H. Lot depth shall be at least 90 feet. Lot depth shall be no greater than three times the average width except for minor subdivisions where the proposed lot depth to width ratio is less than that of the existing lot.
- I. Whenever practicable, subdivision of residential property abutting prime, major and secondary arterial routes shown on the circulation element of the city general plan, railroads, transmission lines and open flood-control channels shall be designed so that the lots do not front on nor have access from such rights-of-way.
- J. Whenever practicable, side and rear lot lines shall be located along the top of manmade slopes instead of at the toe or at intermediate locations on the slopes.
- K. Bicycle routes shown on the city general plan shall be included in the subdivision when such routes pass through or abut the subdivision.

Whenever rights-of-way for streets are required to be dedicated in subdivisions containing 200 or more lots, the subdivider shall include bicycle routes when necessary and feasible for the use and safety of the residents.

- L. Considerations shall be given to assuring proper development of abutting properties in the development of the street plan.
- M. The design of the subdivision shall be consistent with the provisions of Chapter 21.95 of this code relating to hillside development. Areas which are determined to be undevelopable pursuant to the applicable provisions of Chapter 21.95 of this code shall be preserved as open space areas.

(Ord. 9417 § 2, 1975; Ord. 9467 § 6, 1976; Ord. 9521 § 12, 1979; Ord. 9827 § 2, 1987)

#### **§ 20.16.015. Design for passive or natural heating opportunities.**

In addition to the requirements of Section 20.16.010, the design of a major subdivision for which a tentative map is required by this title, shall also provide to the extent feasible for future passive or natural heating or cooling opportunities in the subdivision.

- A. Examples of passive or natural heating opportunities in subdivision design include design of lot size and configuration to permit orientation of a structure in an east-west alignment for southern exposure.
- B. Examples of passive or natural cooling opportunities in subdivision design include design of lot size and configuration to permit orientation of a structure to take advantage of shade or prevailing breezes.
- C. In providing for future passive or natural heating or cooling opportunities in the design of a subdivision, consideration shall be given to local climate, to contour, to configuration of the parcel to be divided, and to other design and improvement requirements, and such provision shall not result in reducing allowable densities or the percentage of a lot which may be occupied by a building or structure under applicable planning and zoning in force at the time the tentative map is filed.
- D. The requirements of this section do not apply to condominium projects which consist of the subdivision of airspace in an existing building when no new structures are added.
- E. For the purposes of this section, "feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social and technological factors as the City Council may determine.

(Ord. 9521 § 12, 1979; Ord. CS-192 § 14, 2012)

#### **§ 20.16.020. Conformance to street plans.**

All streets shown on a tentative map shall be in substantial conformance to the circulation element of the general plan and they shall relate to the existing streets in the areas adjoining the subdivision. Such streets shall also conform to any applicable master plans, specific plans or other officially adopted street plans.

(Ord. 9417 § 2, 1975)

#### **§ 20.16.030. Dedication.**

- A. The subdivider shall offer to dedicate rights-of-way for streets within the subdivision in accordance with city standards.
- B. No final map shall be approved unless the street or streets providing primary access to the subdivision are dedicated to and maintained by a city, county or state and the street or streets meet city standards for right-of-way width.

- C. Streets which are proposed on the boundaries of a subdivision shall have a dedicated width of no less than 42 feet together with a strip of land one foot wide on its outer edge which shall be offered to the city for street purposes and over which access rights are relinquished.
- D. All streets proposed to be terminated at the subdivision boundary shall include a strip of land one foot wide across the street at its point of termination at the boundary which shall be portions of the adjacent lots, offered for street purposes and over which access rights are relinquished.
- E. Intersections of existing streets or of existing streets with streets shown on the circulation element of the general plan shall be offset at least 250 feet. Four-way intersections are to be avoided wherever possible.
- F. Where it is necessary to extend a street beyond the boundaries of a subdivision to provide adequate circulation for residents of the subdivision, the subdivider shall cause the required easements to be dedicated to the city and shall improve the easements in accordance with city standards.
- G. Whenever any land to be subdivided is bounded by an inlet, bay, estuary, lagoon, river, stream or by the Pacific Ocean, there shall be a street to and along such inlet, bay, estuary, lagoon, river, stream or ocean front, or adequate public access to and along such boundary shall be provided or be made otherwise available in lieu of such street or any combination as the City Council may require to insure compliance with Chapter 4, Article 3.5 of the Subdivision Map Act.
- H. Where a drainage facility or flood control facility is necessary for the use of lot owners or for the protection of lots, adequate rights-of-way for such drainage facilities or flood control facilities shall be offered for dedication to the city or to such other public entities as the City Council designates and shall be shown on the map.
- I. Where it is necessary to extend a drainage facility or flood-control facility beyond the boundaries of the subdivision for adequate drainage or flood-control needs, the required rights-of-way shall be offered for dedication.
- J. Drainage facilities and flood-control facilities within and without the subdivision shall be provided so as to carry storm runoff, both tributary to and originating within the subdivision.
- K. The subdivider shall offer to dedicate land for park purposes, pay fees in lieu thereof, or do a combination of both, pursuant to Chapter 20.44 of this title.
- L. The subdivider shall offer to dedicate in accordance with city standards the necessary right-of-way for bicycle routes under the following circumstances:
  - 1. When such routes as shown on the city general plan pass through or abut the subdivision;
  - 2. When a subdivider is required to dedicate rights-of-way for streets in a subdivision containing 200 or more lots and such route is necessary and feasible for the use and safety of the residents.
- M. Where required, a dedication or offer of dedication of a street shall include a waiver of direct access rights to such street from any property shown on a final map as abutting thereon, and if the dedication is accepted, such waiver shall become effective in accordance with the provisions of the waiver of direct access.

(Ord. 9417 § 2, 1975)

#### **§ 20.16.040. Required improvements.**

A. Before approving a final map, the decision-making authority shall require and before a final map is approved by operation of law, it shall be required that:

1. The subdivider grade and improve or agree to grade and improve all land dedicated or to be dedicated for streets or easements, bicycle routes and all private streets and private easements laid out on a final map or parcel map in such manner and with such improvements as are necessary for the use of the lot owners in the subdivision and local neighborhood traffic and drainage needs, and in accordance with city standards;
  2. The subdivider install or agree to install all drainage and flood-control structures and facilities required by the City Engineer, which drainage and flood-control structures and facilities shall conform to city standards, or the standards of other appropriate agencies as the City Engineer adopts;
  3. The subdivider install or agree to install fire hydrants and connections of a type and location approved by the Fire Chief. For local residential streets, fire hydrant connections, including valves, shall be installed between the sidewalk and the curb and gutter in the parkway;
  4. The subdivider provide all necessary easements and rights-of-way to accommodate all streets, drainage and flood-control structures and facilities and sewer systems extending beyond the boundaries of the subdivision;
  5. The subdivider provide that the subdivision be connected to a domestic water system approved by the city and all water mains shall be of a material subject to the requirements of the water company or agency serving the subdivision. That the subdivider shall install or agree to install all required water systems necessary to serve the subdivision and that all water lines, appurtenances and service connections have been constructed or laid prior to paving or provisions have been made to insure said construction; and
  6. Where a sewer line is constructed or laid within a street or road, the subdivider has installed or agreed to install sewer lines of a type and size approved by the City Engineer to the property line of each lot within the subdivision and all sanitary sewer lines, appurtenances and service connections have been constructed or laid prior to paving or provisions have been made to insure the construction.
- B. If the offer of dedication of streets is rejected on the map pursuant to Section 66477.1 of the Subdivision Map Act, no surfacing shall be required on any street so rejected; provided, however, this provision shall not be construed as relieving the subdivider of the obligation of:
1. Grading such rejected streets to grades and widths required by city standards;
  2. Installing all drainage structures and facilities required by the City Engineer, which shall conform to city standards; or
  3. Installing water supply pipelines, fire hydrants and connections as may be required by the City Engineer and Fire Chief.
- C. No surfacing is required on any private street laid out on any parcel map where each parcel shown on such map contains a gross area of 20 acres or more; provided, however, this provision shall not be construed as relieving a subdivider of the obligation of:
1. Grading such private streets to grades and widths required by city standards;

2. Installing all drainage structures and facilities required by the City Engineer, which shall conform to city standards; and
  3. Installing water supply pipelines, fire hydrants and connections as may be required.
- D. The design of any subdivision for which a tentative map or parcel map is required pursuant to Government Code Section 66426 shall provide for appropriate cable television systems and for communication systems, including, but not limited to, telephone and internet services, to each parcel in the subdivision. All new utility distribution facilities, including cable television conduit and lines, and communications systems, within the boundaries of any new subdivision or within the half-street abutting a new subdivision, shall be placed underground. All existing utility distribution facilities shall be placed underground within the boundaries of any new subdivision or within any half-street abutting any new subdivision except where the existing facilities within any single half-street section abutting the new subdivision span a distance of less than 600 feet, or where it is determined by the City Engineer that it is not practicable to place the existing facilities underground within any single half-street section due to the existence of overhead utility services to properties on the opposite side of that half-street section, in which cases the subdivider shall execute and record a covenant running with the land not to oppose a local improvement district for underground placement of utilities.

In developments where overhead utility distribution facilities are allowed to remain, all new services to existing lots and lots created according to the provisions of this title shall be installed underground from the nearest utility pole.

The subdivider is responsible for complying with the requirements of this subsection, and the subdivider shall make the necessary arrangements with each of the serving utilities, including franchised cable television operators, and communication system providers, including, but not limited to, telephone and internet services, for the installation of such facilities. Transformers, terminal boxes, meter cabinets, pedestals, concealed ducts and other facilities necessarily appurtenant to such underground utilities and street lighting systems may be placed aboveground, subject to approval of the City Engineer as to type and location. The provisions of this subsection shall not apply to the installation and maintenance of overhead electric transmission lines in excess of 34,500 volts and long-distance and trunk communication facilities. The installation of cable television lines may be waived when, in the opinion of the City Council, no franchised cable television operator is found to be willing and able to install cable television lines in the subdivision. Notwithstanding any such waiver, the installation of cable television conduits is required.

- E. The subdivider shall construct or shall cause to be constructed at his or her cost a street lighting system conforming to city standards.
- F. Where the city has adopted a flood-control element or drainage element of the general plan, any improvements shall conform to such element wherever possible.
- G. The subdivider shall comply or agree to comply with all the conditions of approval contained in the resolution approving the tentative map and not otherwise provided for by this section.
- H. If improvements are required for a designated remainder parcel, the fulfillment of such requirements by the construction of improvements shall not be required until such time as a building or grading permit for development of the parcel is issued by the city or until such time as the construction of such improvements is required pursuant to an agreement between the subdivider and the city. In the absence of such an agreement, the City Council may require fulfillment of some or all of such construction requirements within a reasonable time following approval of the final map and prior to the issuance of a building or grading permit for the development of a remainder parcel upon a finding

that fulfillment of the construction requirements is necessary for reasons of public health and safety or that the construction is a necessary prerequisite to the orderly development of the surrounding area. (Ord. 9417 § 2, 1975; Ord. 7044 § 1, 1976; Ord. 9521 § 13, 1979; Ord. 9549 § 4, 1980; Ord. NS-603 § 2, 2001; Ord. NS-745 § 1, 2005; Ord. CS-192 § 16, 2012)

#### **§ 20.16.041. Supplemental improvements—Required.**

- A. The subdivider may be required to install improvements for the benefit of the subdivision which may contain supplemental size, capacity or number for the benefit of property not within the subdivision as a condition precedent to the approval of a subdivision or parcel map and thereafter to dedicate such improvements to the public. However, when such supplemental size, capacity or number is solely for the benefit of property not within the subdivision, the city shall enter into an agreement with the subdivider to reimburse the subdivider for that portion of the cost of such improvements equal to the difference between the amount it would have cost the subdivider to install such improvements to serve the subdivision only and the actual cost of such improvements pursuant to the provisions of the Subdivision Map Act.
- B. The City Council shall determine the method for payment of the costs required by a reimbursement agreement which may include but is not limited to the establishment and maintenance of local benefit districts for the levy collection of such charge or costs from the property benefited.

(Ord. 9521 § 14, 1979; Ord. NS-745 § 1, 2005)

#### **§ 20.16.042. Supplemental improvements—Reimbursement agreement—Funding procedures.**

- A. No charge, area of benefit or local benefit district shall be established unless and until a public hearing is held thereon by the City Council and the City Council finds that the fee or charge and the area of benefit or local benefit district is reasonably related to the cost of such supplemental improvements and the actual ultimate beneficiaries thereof.
- B. In addition to the notice required by Section 66451.3 of the Government Code, written notice of the hearing shall be given to the subdivider and to those who own property within the proposed area of benefit as shown on the latest equalized assessment roll, and the potential users of the supplemental improvements insofar as they can be ascertained at the time. Such notices shall be mailed by the City Clerk at least 10 days prior to the date established for the hearing.

(Ord. 9521 § 14, 1979)

#### **§ 20.16.043. Supplemental improvements—Drainage, sewerage, bridges and major thoroughfares.**

If the city has adopted a local drainage or sanitary sewer plan or map as required for the imposition of fees therefor, or has established an area of benefit for bridges or major thoroughfares as provided in Chapter 20.08 of this title, the city may impose a reasonable charge on property within the area benefited and may provide for the collection of said charge as set forth in Chapter 20.08. The city may enter into reimbursement agreements with a subdivider who constructs said facilities, bridges or thoroughfares and the charges collected by the city therefor may be utilized to reimburse the subdivider.

(Ord. 9521 § 14, 1979; Ord. 9602 § 14, 1981)

#### **§ 20.16.050. Monuments.**

- A. Every final map shall show the following monuments:
  - 1. Boundary Monuments. The exterior boundary of the subdivision shall be monumented with

permanent monuments not smaller than two inch iron pipes at least 24 inches long set at each corner and at intermediate points along the boundary not more than 1,000 feet apart and at the beginning and end points of all curves; provided, if any existing record and identified monument meeting the foregoing requirements is found at any such corner or point, such monument may be used in lieu of a new monument.

2. Lot Corner Monuments. All lot corners, except when coincident with exterior boundary corner, shall be monumented with permanent monuments of one of the following types:
    - a. Three-quarter inch diameter iron pipe at least 12 inches long;
    - b. One-half inch diameter steel rod at least 12 inches long;
    - c. Lead plug and copper identification disks set in concrete sidewalks or curbs.
  3. Such additional monuments to mark the limiting lines of streets as the City Engineer may require.
  4. All other monuments set or proposed to be set.
- B. The subdivider shall cause the foregoing monuments to be set by a licensed surveyor or engineer.
- C. All monuments and their installation shall conform to city standards.
- D. All of the foregoing monuments shall be set prior to the approval of the map by the City Council unless the setting thereof is deferred in accordance with Section 66496 of the Subdivision Map Act; provided, however, the setting of exterior boundary monuments shall not be deferred unless the City Engineer determines that such monuments might be disturbed by the construction of improvements.
- E. Where the setting of monuments is deferred following filing of a final map, such monuments shall be set within 30 days after the completion of the required improvements and prior to the acceptance thereof by the city. The setting of monuments shall not be deferred if a parcel map is filed unless expressly allowed by the City Engineer.
- F. Prior to approval of final map, subdivider shall provide the city with security in an amount equal to 100% of the estimated cost of setting subdivision monuments. The security shall be in a form as provided in Section 20.16.070. The security shall be released upon presentation by subdivider to the city of evidence that the monuments are set and the engineer or surveyor has received full payment for setting of the monuments.

(Ord. 9417 § 2, 1975; Ord. NS-131 § 1, 1990)

#### **§ 20.16.060. Agreement to improve.**

Unless the decision-making authority requires the subdivider to construct improvements prior to final map approval, the subdivider may elect to agree to construct improvements or to otherwise comply with the requirements of this title and with the conditions in the resolution approving the tentative map or, if authorized by the City Council, may contract to initiate and consummate special assessment district proceedings in lieu of constructing improvements, as provided in Section 66462 of the Subdivision Map Act. If the subdivider consents, or the City Council requires pursuant to Section 20.16.040, the agreement may provide for the improvements for a designated remainder parcel prior to issuance of a building or grading permit for such parcel. In addition, the subdivider shall prepare and deposit with the City Clerk detailed plans and specifications of the improvements to be constructed or the conditions to be met, and such plans and specifications shall be made a part of any such agreement or contract and of the

improvement security securing the same. The City Manager is authorized to sign such agreements on behalf of the city.

(Ord. 9417 § 2, 1975; Ord. 9549 § 4, 1980; Ord. CS-192 § 17, 2012)

#### **§ 20.16.070. Improvement security—Required.**

The improvement agreement referred to in Section 20.16.060 shall be secured by one of the following:

- A. A bond or bonds by one or more duly authorized corporate sureties substantially in the form prescribed by Sections 66499.1 and 66499.2 of the Subdivision Map Act.
- B. A deposit either with the city or a responsible escrow agent or trust company selected by the city of cash or negotiable bonds of the kind approved for securing deposits of its public moneys.
- C. An irrevocable instrument of credit from one or more responsible financial institutions regulated by federal or state government and pledging that the funds are on deposit and guaranteed for payment on demand by the city.
- D. A letter of credit in a form approved by the Finance Director and the City Attorney from a financial institution regulated by the state or federal government and approved by the Finance Director and the City Attorney.

(Ord. 9417 § 2, 1975; Ord. 9680 § 4, 1983)

#### **§ 20.16.080. Improvement security—Amount.**

Improvement security shall be in the following amounts:

- A. One hundred percent of the total estimated cost of the improvement or act to be performed conditioned upon the faithful performance of the act or agreement;
- B. Fifty percent of the total estimated cost of the improvement or act to be performed securing payment to the contractor, the subcontractors and to persons furnishing labor, materials or equipment to them for the improvement or the performance of the required act;
- C. Twenty-five percent of the total estimated cost of the improvement or act to be performed to guarantee or warranty the work for a period of one year following completion or acceptance thereof against any defective work or labor done or defective materials furnished. The security shall be obtained by retaining 25% of the security for faithful performance of the act or agreement;
- D. If the improvement security is other than a bond or bonds furnished by duly authorized corporate surety, an additional amount shall be included, as determined by the City Council, as necessary to cover the cost and reasonable expenses and fees, including reasonable attorney's fees, which may be incurred by the city in successfully enforcing the obligation secured. The improvement security shall also secure the faithful performance of any changes or alterations in the work to the extent that such changes or alterations do not exceed 10% of the original estimated cost of the improvement;
- E. Whenever an entity required to furnish security is a California nonprofit corporation funded by the United States of America or one of its agencies, or the State of California or one of its agencies, the entity shall not be required to comply with subsection A or B of this section, provided that the conditions established by subsection C of Section 66499.3 of the State Government Code are met.

(Ord. 9417 § 2, 1975; Ord. 9680 § 55, 1983; Ord. NS-131 § 2, 1990)

**§ 20.16.090. Improvement security—Release.**

The improvement security required under this chapter shall be released in the following manner:

- A. Seventy-five percent of security given for faithful performance of any act of agreement shall be released upon the final completion and acceptance of the act or work, subject to the provisions of subsection B of this section. Twenty-five percent of the security given for faithful performance of any act or agreement shall be retained for a period of one year after acceptance to guarantee or warranty the work or act as required in Section 20.16.080(C). No security given for the guarantee or warranty of work shall be released until the expiration of the period thereof.
- B. The City Engineer may release a portion of the security in conjunction with the acceptance of the performance of the act or work as it progresses upon application therefor by the subdivider; provided, however, that no such release shall be for an amount less than 25% of the total improvement security given for faithful performance of the act or work. In no event shall the City Engineer authorize a release of the improvement security which would reduce such security to an amount below that required to guarantee the completion of the act or work and any other obligation imposed by this title, the Subdivision Map Act or the improvement agreement.
- C. Security given to secure payment to the contractor, his or her subcontractors and to persons furnishing labor, materials or equipment shall, six months after the completion and acceptance of the act or work, be reduced to an amount equal to the amount of all claims therefor filed and of which notice has been given to the legislative body plus an amount reasonably determined by the City Engineer to be required to assure the performance of any other obligations secured thereby. The balance of the security shall be released upon the settlement of all such claims and obligations for which the security was given.

(Ord. 9417 § 2, 1975; Ord. NS-131 § 3, 1990; Ord. CS-135 § 9, 2011)

**§ 20.16.095. Off-site improvements—Acquisition of property interests.**

- A. Whenever a subdivider is required as a condition of a tentative map to construct or install off-site improvements on property which neither the subdivider nor the city owns, then not later than 120 days prior to filing the final map for approval the subdivider shall provide the city with sufficient information, reports and data including, but not limited to, an appraisal and title report, to enable the city to commence proceedings pursuant to Title 7 of Part 3 of the Code of Civil Procedure to acquire an interest in the land which will permit the improvements to be made, including proceedings for immediate possession of the property pursuant to Article 3 of said title.
- B. The subdivider shall agree pursuant to Section 20.16.060 to complete the improvements at such time as the city has a sufficient interest in the property to permit the construction of the improvements. The subdivider shall bear all costs associated with the acquisition of the property interests and the estimated cost thereof shall be secured as provided in Section 20.16.070.
- C. If the city has not required the subdivider to enter into an agreement and the city fails to meet the 120-day limitation, the condition of construction of off-site improvements shall be conclusively deemed to be waived. The waiver shall occur whether or not the city has postponed or refused approval of the final map, because the subdivider has failed to meet a tentative map condition which requires the construction or installation of off-site improvement on land owned by a third party.

(Ord. 9680 § 6, 1983; Ord. NS-704 § 1, 2004)

**§ 20.16.100. Improvement security—Forfeiture.**

Upon the failure of the subdivider to complete any improvement, acts or obligations within the time specified, the City Council may, upon notice in writing of not less than 10 days served upon the person responsible for the performance thereof, or upon notice in writing of not less than 20 days served by registered mail addressed to the last known address of such person, determine that the subdivider is in default and may cause the improvement security, or such portion thereof as is necessary to complete the work or act and any other obligations of the subdivider secured thereby, to be forfeited to the city.

(Ord. 9417 § 2, 1975)

## CHAPTER 20.17 VESTING TENTATIVE MAPS

### **§ 20.17.010. Authority.**

This chapter is enacted pursuant to the authority granted by Chapter 4.5 (commencing with Section 66498.1 of Division 2 of Title 7 of the Government Code of the State of California—Subdivision Map Act) and is intended to implement the provisions of that chapter.

(Ord. 9788 § 6, 1986)

### **§ 20.17.020. Filing.**

- A. Whenever this title requires the filing of a tentative map or a tentative parcel map the subdivider may file a vesting tentative map or vesting tentative parcel map subject to the provisions of this chapter.
- B. At the time a vesting tentative map or vesting tentative parcel map is filed, it shall have printed conspicuously on its face, "Vesting Tentative Map" or "Vesting Tentative Parcel Map," whichever is applicable."

(Ord. 9788 § 6, 1986; Ord. 9806 § 8, 1986; Ord. NS-676 § 14, 2003; Ord. NS-710 § 1, 2004; Ord. CS-155 § 2, 2011)

### **§ 20.17.025. Processing.**

- A. The processing of vesting tentative maps shall be consistent with the processing of tentative maps per Chapter 20.12.
- B. The processing of vesting parcel maps shall be consistent with the processing of tentative parcel maps per Chapter 20.24.

(Ord. CS-155 § 3, 2011)

### **§ 20.17.028. Expiration.**

- A. A vesting tentative map or vesting tentative parcel map shall expire consistent with the provisions contained in this title for tentative maps and tentative parcel maps, whichever is applicable. The vesting tentative map or vesting tentative parcel map shall be subject to the same regulations regarding time extensions as provided in this title for extensions of tentative maps or tentative parcel maps, whichever is applicable. All related city permits or approvals for projects including a vesting tentative map or vesting tentative parcel map shall expire on the same day as the vesting tentative map or vesting tentative parcel map expires.
- B. The expiration of an approved or conditionally approved vesting tentative map or vesting tentative parcel shall terminate all proceedings consistent with the provisions contained in this title for tentative maps and tentative parcel maps, whichever is appropriate.

(Ord. CS-155 § 4, 2011)

### **§ 20.17.030. Rights conferred.**

- A. Approval or conditional approval of a vesting tentative map or vesting tentative parcel map shall confer a vested right to proceed with development in substantial compliance with the ordinances, policies and standards in effect at the date the application is deemed complete, as described in Section 66474.2 of the Government Code. However, if Section 66474.2 is repealed the approval shall confer a vested right to proceed with development in substantial compliance with the ordinances, policies

and standards in effect at the time the vesting tentative map or vesting tentative parcel map was approved or conditionally approved. Any disputes regarding whether a development substantially complies with the approved or conditionally approved map, or with the ordinances, policies or standards described in this subsection, shall be resolved by the decision-making authority which approved the vesting tentative map or vesting tentative parcel map, in accordance with Sections 20.12.090 and 20.24.120.

- B. Notwithstanding subsection A of this section, a permit, approval, extension or entitlement for development may be conditionally approved or denied if the decision-making authority determines:
  - 1. A failure to condition or deny the permit, approval, extension or entitlement would place the residents of the subdivision or of the immediate community or both in a condition dangerous to their health or safety or both; or
  - 2. The condition or denial is required in order to comply with state or federal law.
- C. The rights conferred by a vesting tentative map or vesting tentative parcel map shall expire if:
  - 1. A final map or parcel map is not approved prior to the expiration of the vesting tentative map or the vesting tentative parcel map;
  - 2. The applicant has requested a change in the type, density, bulk or design of the development unless an amendment to the vesting tentative map or vesting tentative parcel map has been approved.
- D. If the final map or parcel map is approved prior to the expiration of the vesting tentative map or vesting tentative parcel map, the vested rights conferred by subsection A of this section shall last as follows:
  - 1. The vested rights shall last for an initial time period of two years from the recording of the final map or parcel map. Where several final maps or parcel maps are recorded on various phases of a project covered by a single vesting tentative map or vesting tentative parcel map the two-year initial period shall begin for each phase when the final map or parcel map for that phase is recorded.
  - 2. The two-year initial time period shall be automatically extended by any time used for processing a complete application for a grading permit or for design or architectural review, if such processing exceeds 30 days from the date a complete application is accepted.
  - 3. A subdivider may apply to the decision-making authority for a one-year extension of the vested rights at any time before the initial two-year time period expires. An extension may be granted only if the decision-making authority finds that the map still complies with the requirements of this title. The decision-making authority may approve, conditionally approve or deny an extension in its sole discretion, subject to appeal in accordance with Chapter 20.12 or 20.24.
  - 4. If the subdivider submits a complete application for a building permit during the periods of time set forth in paragraphs 1 through 3 of this subsection, the vested rights shall continue until the expiration of that building permit or any extension of that building permit.
- E. Upon the expiration of the time limits specified in subsections A and D, all vested rights conferred by this section shall cease, and the project shall be considered the same as any subdivision which was not processed pursuant to this chapter.

F. Notwithstanding subsection A, the amount of any fees which are required to be paid either as a condition of the map approval or by operation of any law shall be determined by application of the law or policy in effect at the time the fee is paid. The amounts of the fees are not vested upon approval of the vesting tentative map or vesting tentative parcel map.

(Ord. 9788 § 6, 1986; Ord. CS-155 § 4, 2011; Ord. CS-192 § 18, 2012)

**§ 20.17.035. Amendments.**

If the ordinances, policies, or standards described in Section 20.17.030(A) change subsequent to the approval or conditional approval of a vesting tentative map or vesting tentative parcel map, the subdivider, or assignee, may apply for an amendment to the vesting tentative map or vesting tentative parcel map to secure a vested right to proceed with the changed ordinances, policies, or standards. The application shall be made prior to the expiration of the vesting tentative map or vesting tentative parcel map pursuant to Section 20.17.028(A) and shall clearly specify the changed ordinances, policies, or standards for which the amendment is sought.

(Ord. CS-155 § 6, 11)

**§ 20.17.040. Consistency with zoning and general plan.**

No vesting tentative map or vesting tentative parcel map shall be approved if the proposed map or the design or improvement of the proposed development are not consistent with the applicable general, specific or master plans or with the applicable provisions of Title 21. If development of the project for which a vesting tentative map or vesting tentative parcel map requires any permits or approvals pursuant to Title 21 of this code those permits or approvals shall be processed concurrently with the vesting tentative map or vesting tentative parcel map. A vesting tentative map or vesting tentative parcel map shall not be approved if all other discretionary permits or approvals have not been approved either prior to or concurrently with approval of the map.

(Ord. 9788 § 6, 1986)

**CHAPTER 20.20  
FINAL MAP REQUIREMENTS**

**§ 20.20.010. Maps to conform to requirements of approved tentative map.**

All final and parcel maps for major subdivisions shall conform to the requirements of the Subdivision Map Act and this title and also shall conform to the requirements specified in the approval or conditional approval of the tentative map.

(Ord. 9417 § 2, 1975; Ord. 9602 § 15, 1981; Ord. CS-192 § 20, 2012)

**§ 20.20.020. City Engineer to approve maps.**

- A. Pursuant to California Government Code Section 66458(d), the City Engineer is authorized to approve or deny final maps.
- B. The City Engineer shall notify the City Council at its next regular meeting after the official receives the map that the City Engineer is reviewing the map for final approval.

The City Clerk shall provide notice of any pending approval or denial by the City Engineer, such notice shall be attached and posted with the City Council's regular agenda and shall be mailed to interested parties who request notice.

- C. The City Engineer shall approve or deny the final map within 10 days following the meeting of the City Council held pursuant to subsection B of this section.
- D. The City Engineer shall not consider a final map unless there is a valid tentative map for the subdivision.
- E. No final map shall be filed in the office of the County Recorder until approved by the City Engineer, but such map shall be disapproved only for failure to meet or perform requirements or conditions which were applicable to the subdivision at the time of approval of the tentative map, providing that any such disapproval shall be accompanied by a finding identifying the requirements or conditions which have not been met or performed. The City Engineer may waive any failure of the map to meet such requirements and conditions if such failure is a result of a technical and inadvertent error which, in the determination of the City Engineer, doesn't materially affect the validity of the map.
- F. Multiple or "phased" final maps may be filed for portions of the tentative map, provided that the tentative map approval divides a subdivision into units and the final map or "phased" final map substantially conforms to one or more of such units and complies with all conditions applicable to such units. The number of final maps or "phased" final maps which may be filed shall be determined by the decision-making authority at the time of the approval or conditional approval of the tentative map. When dividing a subdivision into units, the decision-making authority shall ensure that the design and improvement of each unit are consistent with the provisions of this title. If the subdivider is subject to a requirement to construct or improve or finance the construction and improvement of public improvements outside the boundary of the subdivision the cost of that requirement shall be established at the time the tentative map is approved. If the cost of the off-site public improvements requirement is \$100,000.00 or more it shall be a condition of the tentative map that additional conditions may be placed on the extension of the tentative map which occurs by operation of Section 20.12.110(B) of this code; and further, it shall be a condition that upon the filing of any multiple final map or phased final map the City Engineer may modify or eliminate the phasing scheme.
- G. The City Engineer shall not approve a final map for a subdivision to be created from a conversion of

residential real property into a condominium project, a community apartment project, or a stock cooperative project unless it finds all of the following:

1. Each of the tenants of the proposed condominium project, community apartment project, or stock cooperative project has received written notification of intention to convert at least 60 days prior to the filing of a tentative map. There shall be a further finding that each such tenant and each person applying for the rental of a unit in such residential real property has or will have received all applicable notices and rights now or hereafter required by this title or the Subdivision Map Act. In addition, a finding shall be made that each tenant has received 10 days' written notification that an application for a public report will be or has been submitted to the department of real estate, and that such report will be available on request. The written notices to tenants required by this subdivision shall be deemed satisfied if such notices comply with the legal requirements for service by mail.
2. Each of the tenants of the proposed condominium project, community apartment project, or stock cooperative project has been or will be given written notification within 10 days of approval of a final map for the proposed conversion.
3. Each of the tenants of the proposed condominium project, community apartment project, or stock cooperative project has been or will be given 180 days' written notice of intention to convert prior to termination of tenancy due to the conversion or proposed conversion.

The provisions of this subdivision shall not alter or abridge the rights or obligations of the parties in performance of their covenants, including, but not limited to, the provisions of services, payment of rent or the obligations imposed by Sections 1941, 1941.1 and 194.1 of the California Civil Code.

4. Each of the tenants of the proposed condominium project, community apartment project, or stock cooperative project has been or will be given notice of an exclusive right to contract for the purchase of his or her respective units upon the same terms and conditions that such units will be initially offered to the general public or terms more favorable to the tenant. The right shall run for a period of not less than 90 days from the date of issuance of the subdivision public report pursuant to Section 11018.2 of the Business and Professions Code, unless the tenant gives prior written notice of his or her intention not to exercise the right.
5. The owners of a stock cooperative or community apartment project have voted in favor of such conversion as specified by Section 66452.10 of the State Government Code.
6. This section shall not diminish, limit or expand, other than as provided herein, the authority of the decision-making authority to approve or disapprove condominium projects.

(Ord. 9417 § 2, 1975; Ord. 9521 § 15, 1979; Ord. 9602 §§ 16, 17, 1981; Ord. 9680 § 7, 1983; Ord. 9806 § 9, 1986; Ord. CS-155 § 9, 2011; Ord. CS-192 § 20, 2012)

#### **§ 20.20.030. Required offer of dedication.**

As a condition precedent to the approval by the City Engineer of any final map, all parcels of land shown thereon and intended for any public use shall be offered for dedication for public use except those parcels, other than streets, intended for the exclusive use of the lot owners in the subdivision, their licensees, visitors, tenants and servants.

(Ord. 9417 § 2, 1975; Ord. CS-192 § 20, 2012)

**§ 20.20.040. Grant of open space easement.**

In the event that a grant of an open space easement is to be made over any portion of the subdivision, the final map shall contain a certificate signed and acknowledged by those parties having any record title interest in the subdivided land granting such open space easement and stating the conditions of the grant. (Ord. 9417 § 2, 1975)

**§ 20.20.050. Type of map required.**

Unless otherwise provided in this title, a final subdivision map shall be prepared and filed pursuant to an approved tentative map for every major subdivision. In lieu of filing a final subdivision map, unless otherwise required by the Subdivision Map Act, a parcel map with a form and content in accord with Chapter 20.32 of this title may be filed pursuant to an approved tentative map when any of the following conditions prevail:

- A. The land before division contains less than five acres, each parcel created by the division abuts upon a maintained public street or highway and no dedications or improvements are required by the City Council;
- B. Each parcel created by this division has a gross area of 20 acres or more and has an approved access to a maintained public street or highway, and no dedication is required by the City Council;
- C. The land consists of a parcel or parcels of land having approved access to a public street or highway which comprises part of a tract of land zoned for industrial or commercial development and which has the approval of the City Council;
- D. Each parcel created by the division has a gross area of 40 acres or more or each of which is a quarter-quarter section or larger.

(Ord. 9417 § 2, 1975)

**§ 20.20.060. Additional data on final subdivision maps.**

Every final subdivision map shall:

- A. Contain a definite description of the land subdivided by references to recorded deeds, recorded maps and official United States surveys. Reference to tracts, recorded deeds and recorded maps shall be spelled out, worded identically with original records and show the book and page of records or map numbers;
- B. Show the basis of bearings used, the relationship of the bearings to the true meridian, and the north point of the map shall appear on each sheet thereof;
- C. Show the acreage of all parcels containing one acre or more to nearest hundredth;
- D. Clearly indicate, by description or a distinctive boundary line, any area subject to flooding at times of high tide or heavy rainfall, and state that such area is subject to flooding at times of high tide or heavy rainfall;
- E. Show a solid line separating all private ways, easements and other rights-of-way not to be accepted as public streets and shown on the map from public streets and clearly designate their nature and the manner in which the right is reserved or granted;
- F. Bear the name and the Carlsbad tract number of the subdivision on every sheet of the map;

- G. Indicate the exterior boundary of the land included within the subdivision by distinctive symbols and clearly so designate. The map shall show the definite location of the subdivision, and particularly its relation to surrounding surveys. If the map includes a designated remainder parcel or a parcel designated as "not a part," and the gross area of that parcel is five acres or more, that parcel need not be shown on the map and its location need not be indicated as a matter of survey but may be indicated by deed reference to the existing boundaries of the remainder parcel;
- H. Additional information as required by the City Engineer which may include, but is not limited to, building setback lines, flood hazard zones, seismic lines and setbacks, airport influence areas, archaeological sites and other restricted areas. The additional information shall be in the form of a separate document or an additional map sheet which shall indicate its relationship to the final or parcel map, and shall contain a statement that the additional information is for informational purposes, describing conditions as of the date of filing, and is not intended to affect record title interest.

(Ord. 9417 § 2, 1975; Ord. 9549 § 5, 1980; Ord. 9806 § 10, 1986; Ord. NS-172 § 1, 1991)

#### **§ 20.20.070. Record of easements.**

- A. The final map shall show the centerline data, width and side lines of all easements to which the land is subject or to be subjected. If the easement is not definitely located on record, a statement as to the easement shall appear on the title sheet.
- B. Easements for storm drains, sewers and other purposes shall be denoted by broken lines.
- C. The easement shall be clearly labeled and identified and, if already of record, proper reference to the records given.
- D. Easements being dedicated shall be so indicated in the certificate of dedication.
- E. Easements for public utility companies shall be designated on the final map as "easements for public utilities."

(Ord. 9417 § 2, 1975)

#### **§ 20.20.080. Survey data.**

- A. The final map shall show the centerlines of all streets, length, tangents, radii and central angles or radial bearings of all curves, the total width of each street, the width of the portion being dedicated and the width of existing dedication and the width of each side of the centerline; also the width or rights-of-way of railroads, flood-control or drainage channels and any other easements existing or being dedicated by the map.
- B. Surveys in connection with subdivision maps prepared pursuant to this chapter shall be made in accordance with standard practices and principles for land surveying. A traverse of the boundaries of the subdivisions and all lots and blocks shall close. Sufficient data shall be shown to determine readily the bearing and length of each line. Dimensions of lots shall be net dimensions, and no ditto marks shall be used.
- C. Traverse sheets and work sheets showing the closure of the exterior boundaries and of each irregular block and lot shall be provided.
- D. The final map shall also have indicated thereon the following:
1. Suitable primary survey control points;

- a. Section corners;
  - b. Monuments (existing outside of subdivision);
2. Location of all permanent monuments within subdivision;
  3. Ties to any city or county boundary lines involved;
  4. Ties to and identification of adjacent subdivisions;
  5. Required certificates.

(Ord. 9417 § 2, 1975)

#### **§ 20.20.090. Lot numbers.**

- A. The lots shall be numbered consecutively, commencing with the number "1," with no omissions or duplications; in the case of successive subdivisions of the same basic name, the numbering may be successively extended from the previous subdivision bearing the same general name.
- B. Each lot shall be shown entirely on one sheet.

(Ord. 9417 § 2, 1975)

#### **§ 20.20.100. Established lines.**

- A. Whenever the City Engineer has established the centerline of a street or alley such data shall be considered in making the surveys and in preparing the final map, and all monuments found shall be indicated and proper references made to field books or maps of public record, relating to the monuments. If the points were reset by ties, that fact shall be stated.
- B. The final map shall show city boundaries crossing or adjoining the subdivision clearly designated and tied in.

(Ord. 9417 § 2, 1975)

#### **§ 20.20.110. Additional certificates on final subdivision maps.**

In addition to certificates and other material required by the Subdivision Map Act and this title, every final subdivision map shall bear the following certificates or endorsements:

- A. A certificate by the City Treasurer and the Director of Sanitation and Flood Control, where applicable, to the effect that there are no unpaid special assessments or bonds which may be paid in full shown by the records in their offices against the subdivision or any part thereof;
- B. A certificate by the Clerk of the Board of Supervisors that the provisions of Division 2, Title 7 of the Government Code have been complied with regarding security for payment of taxes or special assessments collected as taxes on the property whenever any part of the subdivision is subject to a lien for taxes, or special assessments collected as taxes, which are not yet payable;
- C. Certificate of the County Recorder as to the filing of the map;
- D. A certificate signed and sealed by the engineer/surveyor in accordance with Section 66441 of the Subdivision Map Act;
- E. A certificate signed by the City Engineer in accordance with Section 66442 of the Subdivision Map Act;

- F. A certificate signed by the City Engineer that the tentative map has been approved or conditionally approved by the decision-making authority;
- G. Endorsement by the City Attorney of his or her approval of the map as to form;
- H. A certificate signed by the City Engineer accepting, accepting subject to improvement, or rejecting all offers of dedication that are made by a statement on the map;
- I. If applicable, a certificate signed by the City Clerk attesting to the approval of the map by the City Council and their acceptance, acceptance subject to improvement, or rejection on behalf of the public of all dedications shown thereon;
- J. An owner's certificate as required by Section 66436 of the Subdivision Map Act which shall bear the signatures of all parties owning any record title interest in the land subdivided except those which have been omitted pursuant to Section 66436 of the Subdivision Map Act. The names of any parties who own interests described in Section 66436 of the Subdivision Map Act and who have not signed the owner's certificate shall be set forth in the owner's certificate together with a description of their respective interests and the reasons why they have not signed the certificate. All such signatures of owners and others, whether individuals or corporations, must be properly signed and acknowledged before a notary public. In case a subdivision map is signed by a corporation, a certified copy of the resolution passed by the Board of Directors of such corporation authorizing that action must accompany the map;
- K. Where dedications are required, a certificate offering to dedicate interests in real property for specified public purposes in accord with Section 66439 of the Subdivision Map Act. The certificate shall be properly signed and acknowledged before a notary public and shall be signed by all parties having any record title interest in the real property being subdivided subject to the provisions of Section 66436 of the Subdivision Map Act. In case any dedication or consent shown on a subdivision map is signed by a corporation, a certified copy of the resolution passed by the Board of Directors of such corporation authorizing that action must accompany the final map.

(Ord. 9417 § 2, 1975; Ord. 1261 § 32, 1983; Ord. NS-225 § 1, 1993; Ord. NS-676 § 14, 2003; Ord. CS-164 § 10, 2011; Ord. CS-192 § 21, 2012)

#### **§ 20.20.115. Notice of owner's development lien.**

When an owner's development lien has been created pursuant to the provisions of Article 2.5, commencing with Section 39327 of Chapter 3 of Part 23 of the California Education Code, on the real property or portion thereof subject to the final map, a notice as specified in Section 66434.1 of the California Government Code shall be placed on the face of a final map.

(Ord. 9533 § 1, 1979)

#### **§ 20.20.120. Title company certificate and report.**

Every final map submitted to the City Council shall bear the certificate of a qualified title company that the parties who executed the owner's certificate required by Section 66436 of the Subdivision Map Act are all the parties having any record title interest in the land subdivided. The certificate shall also set forth the names of the parties owning the interests set forth in Section 66436 of the Subdivision Map Act together with a description of the interests and the reasons the parties did not execute the owner's certificate. The title company shall, on the date the final map will be transmitted to the County Recorder, present to the County Recorder a letter stating that on said date the names of the parties and the other facts set forth in the title company's certificate were the same as shown by the certificate.

(Ord. 9417 § 2, 1975)

**§ 20.20.130. Title company subdivision guarantee.**

In lieu of the title company certificate required by Section 20.20.120, there may be filed with the City Engineer a subdivision guarantee from a qualified title insurance company which guarantees that the parties named therein are the only parties having any record title interest in the land subdivided. The title company shall, on the date the final map will be transmitted to the County Recorder, present to the County Recorder, pursuant to the requirements of Section 66465 of the Subdivision Map Act, a letter stating that at the time of filing of the final or parcel map in the office of the County Recorder, the parties consenting to such filing are all of the parties having a record title interest in the real property being subdivided whose signatures are required by Division 2 of Title 7 of the Government Code, as shown by the records in the office of the Recorder.

(Ord. 9417 § 2, 1975)

**§ 20.20.140. Approval as to form.**

All final subdivision maps filed with or submitted to the City Engineer shall be first submitted to the City Attorney and approved as to form by him or her.

(Ord. 9417 § 2, 1975; Ord. CS-192 § 22, 2012)

**§ 20.20.150. Stamping or printing of certificates.**

The affidavits, certificates, acknowledgments and approvals required or permitted by this chapter or the Subdivision Map Act to appear upon maps may be legibly stamped or printed upon the map with opaque ink in such a manner as will guarantee a permanent record in black upon the tracing cloth or polyester base film. If ink is used on polyester base film, the ink surface shall be coated with suitable substance to assure permanent legibility.

(Ord. 9417 § 2, 1975)

**§ 20.20.160. Soil reports.**

When a soils report, a geologic report, or soils and geologic reports have been prepared specifically for the subdivision, such fact shall be noted on the final map, together with the date of such report or reports, the name of the engineer making the soils report and geologist making the geologic report and the location where the reports are on file. A copy of the soils report, geologic report or soils and geologic reports shall be filed with the City Clerk and shall be kept on file for public inspection.

(Ord. 9417 § 2, 1975; Ord. 9521 § 15, 1979)

**§ 20.20.165. Appeal of City Engineer decision.**

The City Engineer's approval or denial of a final map may be appealed to the City Council, subject to the same requirements for appeals of Planning Commission decisions specified in Section 21.54.150 of this code.

(Ord. CS-192 § 23, 2012)

**§ 20.20.170. Transmittal of final map.**

Upon approval of the final map, the City Engineer shall transmit the map to the appropriate county agency pursuant to Government Code Section 66464 for filing with the County Recorder.

(Ord. 9521 § 16, 1979; Ord. 9806 § 11, 1986; Ord. CS-192 § 24, 2012)

## CHAPTER 20.22 ENVIRONMENTAL SUBDIVISIONS

### **§ 20.22.010. Purpose and applicability.**

- A. This chapter is intended to implement Government Code Section 66418.2 which excepts, among other things, land being subdivided solely for the creation of an environmental subdivision from the requirement of a tentative and final map when five or more parcels are created.
- B. This chapter shall apply only upon the written request of the landowner at the time the land is divided. This section is not intended to limit or preclude subdivision by other lawful means for the mitigation of impacts to the environment, or of the land devoted to these purposes, or to require the division of land for these purposes.

(Ord. NS-677 § 1, 2003; Ord. CS-192 § 26, 2012)

### **§ 20.22.020. Definition.**

"Environmental subdivision" means a subdivision of land pursuant to this chapter for biotic and wildlife purposes that meets all of the conditions specified in Section 20.22.040.

(Ord. NS-677 § 1, 2003)

### **§ 20.22.030. Parcel map required.**

A parcel map shall be required for environmental subdivisions, pursuant to applicable requirements specified in Chapters 20.24, 20.28 and 20.32 of this title.

(Ord. NS-677 § 1, 2003; Ord. CS-164 § 11, 2011; Ord. CS-192 § 27, 2012)

### **§ 20.22.040. Required findings.**

- A. Prior to approving or conditionally approving an environmental subdivision, the decision-making authority shall find each of the following:
  1. That factual biotic or wildlife data, or both, are available to the city to support the approval of the subdivision, prior to approving or conditionally approving the environmental subdivision.
  2. That provisions have been made for the perpetual maintenance of the property as a biotic or wildlife habitat, or both, in accordance with the conditions specified by any local, state, or federal agency requiring mitigation.
  3. That an easement will be recorded in the county in which the land is located to ensure compliance with the conditions specified by any local, state, or federal agency requiring the mitigation. The easement shall contain a covenant with a county, city, or nonprofit organization running with the land in perpetuity, that the landowner shall not construct or permit the construction of improvements except those for which the right is expressly reserved in the instrument. Where the biotic or wildlife habitat, or both, are compatible, the city shall consider requiring the easement to contain a requirement for the joint management and maintenance of the resulting parcels. This reservation shall not be inconsistent with the purposes of this section and shall not be incompatible with maintaining and preserving the biotic or wildlife character, or both, of the land.
- B. Notwithstanding Government Code Section 66411.1(a) (limiting required improvements to the dedication of rights-of-way, easements, and the construction of reasonable off-site and on-site

improvements for parcels created by division of land which is not a subdivision of five or more lots), any improvement, dedication, or design required by the city as a condition of approval of an environmental subdivision shall be solely for the purposes of ensuring compliance with the conditions required by local, state, or federal agency requiring the mitigation.

- C. After recordation of certificates of compliance for an environmental subdivision, a subdivider may only abandon an environmental subdivision by reversion to acreage pursuant to Chapter 20.40 and Government Code Section 66499.11, if the city finds that all of the following conditions exist:
  - 1. None of the parcels created by the environmental subdivision has been sold or exchanged.
  - 2. None of the parcels is being used, set aside, or required for mitigation purposes pursuant to this section.
  - 3. Upon abandonment and reversion to acreage pursuant to this subdivision, the easement for biotic and wildlife purposes is extinguished.
- D. If the environmental subdivision is abandoned and reverts to acreage pursuant to subsection C of this section, all local, state, and federal requirements shall apply.
- E. This section shall apply only upon the written request of the landowner at the time the land is divided. This section is not intended to limit or preclude subdivision by other lawful means for the mitigation of impacts to the environment, or of the land devoted to these purposes, or to require the division of land for these purposes.

(Ord. NS-677 § 1, 2003; Ord. CS-192 § 28, 2012)

#### **§ 20.22.050. Improvements, dedications and design.**

Notwithstanding Government Code Section 66411.1(a) (limiting required improvements to the dedication of rights-of-way, easements, and the construction of reasonable off-site and on-site improvements for parcels created by division of land which is not a subdivision of five or more lots), any improvement, dedication, or design required by the city as a condition of approval of an environmental subdivision shall be solely for the purposes of ensuring compliance with the conditions required by local, state, or federal agency requiring the mitigation.

(Ord. CS-192 § 29, 2012)

#### **§ 20.22.060. Abandon environmental subdivision.**

- A. After recordation of a parcel map for an environmental subdivision, a subdivider may only abandon an environmental subdivision by reversion to acreage pursuant to Chapter 20.40 and Government Code Section 66499.11, if the city finds that all of the following conditions exist:
  - 1. None of the parcels created by the environmental subdivision has been sold or exchanged.
  - 2. None of the parcels is being used, set aside, or required for mitigation purposes pursuant to this section.
  - 3. Upon abandonment and reversion to acreage pursuant to this subdivision, the easement for biotic and wildlife purposes is extinguished.
- B. If the environmental subdivision is abandoned and reverts to acreage pursuant to this section, all local, state, and federal requirements shall apply.

(Ord. CS-192 § 29, 2012)

## CHAPTER 20.24 MINOR SUBDIVISIONS—PROCEDURE

### **§ 20.24.010. Minor subdivision.**

No person shall create a minor subdivision except in accordance with a parcel map approved pursuant to this title and the Subdivision Map Act and filed in the office of the County Recorder unless such requirement for a parcel map is otherwise waived pursuant to Section 20.24.150. The provisions of this chapter shall not apply to:

- A. The conveyance, transfer, creation or establishment of an easement for sewer, water or gas pipelines and appurtenances or electrical or telephone poles and lines or conduit and appurtenances;
- B. The leasing of a dwelling on a lot which, together with all contiguous land owned by the same person or persons, has an area of less than 12,000 square feet;
- C. The conveyance or transfer of land or any interest therein by or to the United States, state, county, city, school district, special district or public utility.

(Ord. 9417 § 2, 1975)

### **§ 20.24.020. Tentative parcel map required.**

Any person proposing to create a minor subdivision pursuant to this title shall file with the City Planner a tentative parcel map pursuant to the provisions of this chapter; provided, however, an adjustment plat may be filed in lieu of a tentative parcel map under the conditions specified in Chapter 20.36 of this title. The City Planner shall not certify a parcel map pursuant to Section 66450 of the Subdivision Map Act unless prior thereto a tentative parcel map of the minor subdivision shown thereon shall have been filed with and approved pursuant to this chapter.

(Ord. 9417 § 2, 1975; Ord. CS-192 § 31, 2012)

### **§ 20.24.030. Application and time limits for processing.**

- A. An application for a tentative parcel map may be made by the owner of the property affected or the authorized agent of the owner. The application shall:
  1. Be made in writing on a form provided by the City Planner;
  2. State fully the circumstances and conditions relied upon as grounds for the application; and
  3. Be accompanied by adequate plans, a legal description of the property involved, data specified by this title and all other materials as specified by the City Planner.
- B. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.
- C. If signatures of persons other than the owners of property making the application are required or offered in support of, or in opposition to, an application, they may be received as evidence of notice having been served upon them of the pending application, or as evidence of their opinion on the pending issue, but they shall in no case infringe upon the free exercise of the powers vested in the city as represented by the City Planner, Planning Commission and the City Council.
- D. The City Planner shall not accept a tentative parcel map for processing unless the City Planner finds that:

1. The requirements of Title 19 of this code have been met;
  2. The tentative parcel map is consistent with the provisions of Title 21 of this code and that all approvals and permits required by Title 21 for the project have been given or issued.
- E. All tentative parcel maps shall be approved, conditionally approved or denied within the time limits specified by this title and the Subdivision Map Act.

If the decision-making authority does not take action to approve, conditionally approve or deny the tentative parcel map within the time limits specified by this title or the Subdivision Map Act, the tentative parcel map as filed shall be deemed to be approved, insofar as it complies with other applicable requirements of this code and the Subdivision Map Act.

- F. Notwithstanding the provisions of subsections D and E of this section, a tentative parcel map may be processed concurrently with other development permits or approvals required for the project required by Titles 19 or 21 of this code, if the subdivider for the tentative parcel map first waives the time limits for processing, approving or conditionally approving or disapproving a tentative parcel map provided by this title or the Subdivision Map Act. Pursuant to the provisions of Chapter 19.04 of this code, a project may be processed according to this chapter but still not be deemed complete until the environmental documents are completed.

(Ord. 9417 § 2, 1975; Ord. 9559 § 3, 1980; Ord. 9760 § 10, 1985; Ord. CS-192 § 31, 2012)

#### **§ 20.24.040. Information to be filed with tentative parcel map.**

Such information as may be prescribed by the rules and regulations approved by the City Council pursuant to Section 20.04.060 of this title and such additional information as the City Planner may find necessary with respect to any particular case to implement the provisions of this title shall accompany the tentative parcel map at the time of submission.

(Ord. 9417 § 2, 1975; Ord. CS-192 § 31, 2012)

#### **§ 20.24.050. Grading plan.**

There shall be filed with each tentative parcel map a grading plan showing graded building site elevations and grading proposed for the creation of building sites or for construction or installation of improvements to serve the subdivision. The grading plan together with the original topographical contours may both be shown on the tentative parcel map. In the event no such grading is proposed, a statement to that effect shall be placed on the tentative parcel map. This plan shall indicate approximate earthwork volumes of proposed excavation and filling operations.

(Ord. 9417 § 2, 1975)

#### **§ 20.24.060. Preliminary title report.**

There shall be filed with each tentative parcel map a current preliminary title report of the property being subdivided or altered.

(Ord. 9417 § 2, 1975; Ord. CS-192 § 32, 2012)

#### **§ 20.24.065. Conversion of mobile home parks.**

At the time of filing a tentative parcel map for a subdivision to be created from the conversion of a mobile home park to another use, the subdivider shall also file a report specified by Section 66427.4 of the California Government Code and, if applicable, Section 21.37.110(B)(3) of this code. In determining the impact of the conversion on displaced mobile home park residents, the report shall address the availability

of adequate replacement space in mobile home parks. The subdivider shall make a copy of the report available to each resident of the mobile home park within 15 days of the filing of the tentative parcel map. The subdivider shall also provide all notices required by Section 21.37.120 of this code. The City Planner may require the subdivider to take steps to mitigate any adverse impact of the conversion on the ability of displaced mobile home park residents to find adequate space in a mobile home park, and shall make all the findings required by Section 21.37.120.

(Ord. CS-192 § 32, 2012)

#### **§ 20.24.070. Replacement tentative parcel map.**

A replacement tentative parcel map shall be submitted when the City Planner finds that the number or nature of the changes necessary for approval are such that they cannot be shown clearly or simply on the original tentative parcel map.

(Ord. 9417 § 2, 1975; Ord. CS-192 § 32, 2012)

#### **§ 20.24.080. Revised tentative parcel map.**

Where a subdivider desires to revise an approved tentative parcel map, the subdivider may file with the City Planner, prior to the expiration of the approved tentative parcel map, a revised tentative parcel map on payment of the fees specified in Section 20.08.060.

(Ord. 9417 § 2, 1975; Ord. CS-192 § 32, 2012)

#### **§ 20.24.090. Other department and agency review.**

- A. Within five working days after a tentative parcel map has been filed, the City Planner shall transmit copies of the tentative parcel map together with accompanying information to such public agencies and public and private utilities as the City Planner determines may be concerned. Each of the public agencies and utilities may, within 10 working days after the map has been sent to such agency, forward to the City Planner a written report of its findings and recommendations thereon.
- B. The City Planner shall obtain the recommendations of other city departments, governmental agencies or special districts as may be deemed appropriate or necessary by the City Planner in order to carry out the provisions of this title.

(Ord. 9417 § 2, 1975; Ord. 9467 § 7, 1976; Ord. 1261 § 33, 1983; Ord. NS-676 § 14, 2003; Ord. CS-192 § 32, 2012)

#### **§ 20.24.100. Assignment of certain responsibilities to the City Planner.**

The responsibilities of the City Council pursuant to Sections 66473.5, 66474, 66474.1 and 66474.6 of the Subdivision Map Act and the responsibilities of the Planning Commission pursuant to Section 65402 of the Government Code and Section 2.24.065 of this code are assigned to the City Planner with respect to those tentative parcel maps filed pursuant to this chapter.

(Ord. 9417 § 2, 1975; Ord. 9424 § 3, 1975; Ord. CS-192 § 32, 2012)

#### **§ 20.24.110. Proof of notice—Minor subdivisions.**

Whenever the subdivider is required by this title or the Subdivision Map Act to give any notice or provide any report or information to any person other than the city, the subdivider shall submit proof sufficient to allow the City Planner to find that the notice has been given or the reports or information provided. Such proof may include declarations under penalty of perjury.

(Ord. 9417 § 2, 1975; Ord. CS-192 § 32, 2012)

**§ 20.24.115. Notices.**

- A. Notice of an application for a tentative parcel map shall be given pursuant to the provisions of Section 21.54.061 of this title and the following:
1. At least 10 calendar days prior to a decision on the application, written notice shall be given as follows:
    - a. Notice by mail. Mailed or delivered to:
      - i. The owner of the subject real property or the owner's duly authorized agent.
      - ii. The subdivider and/or the subdivider's representative.
      - iii. All owners of real property as shown on the latest equalized assessment roll within 300 feet of the real property that is the subject of the tentative parcel map. In lieu of utilizing the assessment roll, records of the county assessor or tax collector that contain more recent information than the assessment roll may be used. If the number of owners to whom notice would be mailed or delivered pursuant to this subsection is greater than 1,000, in lieu of mailed or delivered notice, notice may be given by placing a display advertisement of at least one-eighth page in at least two newspapers of general circulation within the city.
      - iv. All occupants within 100 feet of the subject property and to the area office of the California Coastal Commission. This requirement applies to minor coastal development permits only.
      - v. Any person who has filed a written request for notice with the City Clerk. The City Clerk shall charge a fee established by City Council resolution which is reasonably related to the costs of providing this service. Each request shall be annually renewed.
      - vi. When a tentative parcel map is for the conversion of existing residential real property to a condominium project, community apartment project or stock cooperative project, the notice required by this section shall be sent to all tenants of the project.
  2. Once notice has been given in accordance with this section, any person may file written comments or a written request to be heard within 10 calendar days of the date of the notice. If a written request to be heard is filed, the City Planner shall:
    - a. Schedule an administrative hearing; and
    - b. Provide written notice at least five calendar days prior to the date of the administrative hearing to the owner of the subject real property or the owner's duly authorized agent, the project applicant and/or applicant's representative, and any person who filed written comments or a written request to be heard.
- B. The failure by any person to receive the notice specified herein shall not invalidate any action taken pursuant to this title.

(Ord. 9532 § 3, 1979; Ord. 9602 § 18, 1981; Ord. 9626 § 8, 1982; Ord. CS-192 § 32, 2012)

**§ 20.24.120. Decision-making authority.**

- A. The City Planner shall have the authority to approve, conditionally approve or deny a tentative parcel map based upon review of the facts as set forth in the application, the circumstances of the particular

case, and evidence presented at an administrative hearing if one is conducted pursuant to the provisions of Section 21.24.110 of this title.

- B. The City Planner may approve or conditionally approve the tentative parcel map if all of the findings of fact in Section 20.24.130 of this chapter are found to exist.
1. Whenever the City Planner approves or conditionally approves a tentative parcel map providing for supplemental size of improvements, the establishment of benefit districts, the execution of reimbursement agreements or the setting of fees under any of the provisions of Section 20.08.130 or 20.08.140; Chapter 20.09; or Section 20.16.041, 20.16.042 or 20.16.043, the map shall be forwarded to the City Council, which shall hold a public hearing on the issue of the improvements.
  2. Any decision to approve or conditionally approve a tentative parcel map shall include a description, pursuant to the provisions of this title, of the kind, nature and extent of any improvements required to be constructed or installed in or to serve the subdivision. However, where the City Planner does not prescribe the kind, nature or extent of the improvements to be constructed or installed, improvements shall be constructed and installed in accordance with the city standards.
  3. Any decision to disapprove a tentative parcel map shall be accompanied by a finding, identifying the requirements or conditions which have not been met or performed.

(Ord. 9417 § 2, 1975; Ord. CS-192 § 32, 2012)

#### **§ 20.24.130. Required findings.**

The decision-making authority may approve, or conditionally approve a tentative parcel map if all of the findings in Section 20.12.091 of this title and the following findings are made:

- A. The land proposed for division was created legally, or the lot or parcel has been approved by the city and a certificate of compliance relative thereto has been filed with the County Recorder;
- B. The subdivision does not create five or more lots, inclusive of the total number of lots in a parcel map of which the subject land is a part of and which was approved or recorded less than two years prior to the filling of the subject tentative parcel map;
- C. The land proposed for division is not part of an approved tentative parcel map wherein the parcel map requirement was waived pursuant to provisions of this division and a certificate of compliance has been filed with the County Recorder pursuant to Chapter 20.48 of this title.

(Ord. 9417 § 2, 1975; Ord. 9521 § 17, 1979; Ord. 9559 § 4, 1980; Ord. 9602 § 20, 1981; Ord. 9760 § 11, 1985; Ord. 9806 § 12, 1986; Ord. CS-192 § 32, 2012)

#### **§ 20.24.135. Announcement of decision and findings of fact.**

- A. When a decision on a tentative parcel map is made pursuant to this chapter, the decision-making authority shall announce its decision and findings in writing.
- B. The announcement of decision and findings shall include:
  1. A statement that the tentative parcel map is approved, conditionally approved, or denied;
  2. The facts and reasons which, in the opinion of the decision-making authority, make the approval or denial of the tentative parcel map necessary to carry out the provisions and general purpose

- of this title;
3. Such conditions and limitations that the decision-making authority may impose in the approval of the tentative parcel map.
- C. The announcement of decision and findings shall be mailed to:
1. The owner of the subject real property or the owner's duly authorized agent, the subdivider and/or the subdivider's representative at the address or addresses shown on the application filed with the planning division;
  2. Any person who has filed a written request for a notice of decision;
  3. Any person who filed a written request for an administrative hearing or to be heard at an administrative hearing.
- (Ord. CS-192 § 33, 2012)

**§ 20.24.140. Effective date and appeals.**

Decisions on tentative parcel maps shall become effective as of the date specified by the decision-making authority unless appealed and processed in accordance with the provisions of Section 21.54.140 of this code and Section 66452.5 of the Subdivision Map Act.

(Ord. 9417 § 2, 1975; Ord. 9532 § 3, 1979; Ord. NS-176 § 15, 1991; Ord. CS-192 § 34, 2012)

**§ 20.24.150. Waiver of parcel map.**

- A. Other provisions of this title to the contrary notwithstanding, the requirement that a parcel map be prepared, filed with the City Engineer and recorded may be waived, provided a finding is made by the City Engineer or, on appeal, by the Planning Commission or City Council, that the proposed subdivision complies with the requirements as to area, improvement and design, flood and water drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, environmental protection and other requirements of this title and the Subdivision Map Act and with the requirements of the public facilities element of the general plan and the provisions of Chapter 20.44 of this title which would otherwise apply to the proposed subdivision.
- B. An applicant for a minor subdivision pursuant to this section shall pay the fee prescribed by Section 20.08.060 for tentative parcel maps and shall file an application and request for parcel map waiver which shall contain sufficient information in the opinion of the City Engineer to enable the City Engineer or, on appeal, the Planning Commission or City Council, to make the findings required by this section. The following types of subdivisions are deemed to comply with the findings required by this section for waiver of the parcel map unless the City Engineer or, on appeal, the Planning Commission or City Council finds, based on substantial evidence that public policy necessitates a parcel map, such map shall not be required for the following:
  1. Short-term leases, terminable by either party on 30 days' notice, of a portion of the operating right-of-way of a railroad corporation defined as such by Section 230 of the Public Utilities Code;
  2. Land conveyed to or from a governmental agency, public entity or public utility, or to a subsidiary of a public utility for conveyance to such public utility for rights-of-way shall include a fee interest, a leasehold interest, an easement or a license.
- C. The following minor subdivisions, provided dedications or improvements are not required by the City

Engineer, or on appeal the Planning Commission or City Council, as condition of approval in the absence of evidence to the contrary, are deemed to comply with the findings required by this section for waiver of the parcel map:

1. A minor subdivision wherein each resulting lot or parcel contains a gross area of 40 acres or more, or each of which is a quarter-quarter section or larger;
  2. A minor subdivision only for the purpose of leasing the lots resulting from such subdivision;
  3. A major subdivision as specified in Section 20.20.050 of this title.
- D. The processing of any application pursuant to this section shall be subject to the same time requirements and procedures as are provided in this title for tentative parcel maps. The City Engineer's decision to waive a parcel map may be appealed in the same manner as the appeal of City Planner decisions pursuant to the provisions of Section 21.54.140 of this code. In any case, where waiver of the parcel map is granted by the City Engineer, or on appeal by the Planning Commission or City Council, the City Engineer shall cause to be filed for record with the County Recorder a certificate of compliance pursuant to Chapter 20.48 of this title.

(Ord. 9417 § 2, 1975; Ord. 9504 §§ 1, 2, 1978; Ord. 9521 § 18, 1979; Ord. NS-636 § 3, 2002; Ord. CS-192 § 34, 2012)

#### **§ 20.24.160. Expiration of tentative parcel map.**

- A. The provisions for the expiration of tentative maps specified in Section 20.12.100 of this title shall be applicable to tentative parcel maps.
- B. Prior to the expiration of the tentative parcel map, a parcel map conforming to the requirements of Chapter 20.32 of this title may be filed with the City Engineer for approval. The parcel map shall be deemed filed on the date it is received by the City Engineer. Once a timely and complete filing has been made pursuant to this section, subsequent actions of the city, including, but not limited to, processing, approving and recording, may occur after the date of expiration of the tentative map.

(Ord. 9417 § 2, 1975; Ord. 9525 § 1, 1979; Ord. 9680 § 8, 1983; Ord. 9830 § 2, 1987; Ord. CS-032 § 2, 2009; Ord. CS-192 § 34, 2012)

#### **§ 20.24.180. Extension of tentative parcel map.**

The provisions for the extension of tentative maps specified in Section 20.12.110 of this title shall be applicable to tentative parcel maps.

(Ord. 9417 § 2, 1975; Ord. NS-422 § 4, 1997; Ord. CS-003 §§ 2, 4, 2008; Ord. CS-135 § 10, 2011; Ord. CS-192 § 34, 2012)

#### **§ 20.24.185. Tentative parcel map amendment.**

The provisions for amendments to tentative maps specified in Section 20.12.120 of this title shall be applicable to tentative parcel maps.

(Ord. CS-192 § 35, 2012)

#### **§ 20.24.190. Vesting tentative parcel map.**

A vesting tentative parcel map may be filed and processed in the same manner and subject to the same requirements as a tentative parcel map except as provided in Chapter 20.17.

(Ord. 9788 § 7, 1986)

## CHAPTER 20.28 MINOR SUBDIVISIONS—REQUIREMENTS

### **§ 20.28.010. Design of minor subdivisions.**

Except as otherwise provided in this title, all minor subdivisions shall conform to the lot design requirements of Section 20.16.010 of this title.

(Ord. 9417 § 2, 1975)

### **§ 20.28.020. Panhandle-shaped lots.**

Other provisions of this title notwithstanding, a panhandle-shaped or flag-shaped lot, if permitted by Title 21, shall have a minimum frontage of 20 feet on a dedicated public street or publicly dedicated easement accepted by the city. Panhandles may not serve as access to any lot except the lot of which the panhandle is a part.

Where the panhandle or flag-shaped portion of a lot is adjacent to the same portion of another such lot, the required minimum frontage on such street or easement shall be 15 feet provided a joint easement ensuring common access to both such portions is agreed upon by the property owners and recorded.

(Ord. 9417 § 2, 1975; Ord. 9467 § 8, 1976)

### **§ 20.28.030. Dedication and access.**

No parcel map filed pursuant to Chapter 20.32 of this title shall be approved by the City Engineer unless and until the following conditions have been satisfied:

- A. There shall be offered for dedication, pursuant to Section 20.28.050 of this title, right-of-way for streets in accordance with the circulation element of the general plan, any applicable master plans, specific plans or other officially adopted street plans and the city standards within and adjacent to the boundaries of the land to be subdivided.
- B. Streets which are proposed on the boundaries of a subdivision shall be offered for dedication to a width of no less than 42 feet. In the event that the offer of dedication for the streets is to be accepted prior to final approval of the parcel map, a strip of land one foot wide extending along the outer edge of the land offered for dedication may be required to be offered to the city for street purposes and over which access rights are relinquished.
- C. Offers of dedication for streets which will be accepted before final approval of the parcel map and which streets are proposed to be terminated at the boundary of the minor subdivision may be required to include a strip of land one foot wide extending across the street at its point of termination at the boundary which shall be portions of the adjacent lots, offered for street purposes and over which access rights are relinquished.
- D. Whenever any land to be subdivided is bounded by an inlet, bay, estuary, lagoon, river, stream or by the Pacific Ocean, there shall be a street along such inlet, bay, estuary, lagoon, river, stream or ocean front, or adequate public access to and along such boundary shall be provided or be made otherwise available in lieu of such street or any combination as the City Engineer may require to insure compliance with Chapter 4, Article 3.5 of the Subdivision Map Act.
- E. Easements for public utilities and drainage-ways shall be offered for dedication in the manner prescribed by Section 20.28.050 of this title as required by the City Engineer when he or she determines that such offers of dedication are necessary to serve the subdivision and/or are a

reasonable and logical extension of such facilities as exist in the vicinity.  
(Ord. 9417 § 2, 1975)

#### **§ 20.28.040. Waiver of direct access to streets.**

The City Engineer may impose a requirement that any dedication or offer of dedication of a street shall include a waiver of direct access rights to such street from any property shown on a parcel map as abutting thereon, and that if the dedication is accepted, such waiver shall become effective in accordance with the provisions of the waiver of direct access.

(Ord. 9417 § 2, 1975)

#### **§ 20.28.050. Dedication procedure.**

Pursuant to Section 66447 of the Subdivision Map Act, all dedications or offers of dedication required by the provisions of this chapter shall be by separate instrument and shall be completed prior to filing of the parcel map or by certificate on the parcel map as the City Engineer may elect. An offer of dedication shall be in such terms as to be binding on the owner, his or her heirs, assigns or successors in interest, and except as provided in subsection B of Section 66477.2 of the Subdivision Map Act, shall continue until such dedication is accepted or the offer is abandoned or otherwise terminated. Any such dedication or offer of dedication shall be free of any burden or encumbrance which would interfere with the purposes of which the dedication or offer of dedication is required. The subdivider shall provide a current preliminary title report or equivalent proof of title satisfactory to the City Engineer. The City Engineer is authorized to accept dedications or offers of dedication or to reject such offers on behalf of the city.

(Ord. 9417 § 2, 1975)

#### **§ 20.28.060. Required improvements.**

- A. As a condition precedent to the approval of a parcel map for a minor subdivision, the subdivider shall construct all off-site and onsite improvements in accordance with the requirements applicable to major subdivisions as set forth in Section 20.16.040 of this title for the parcels being created; provided, however, that requirements for the construction of such off-site and onsite improvements shall be noticed by certificate on the parcel map, in the instrument evidencing the waiver of such parcel map, or by separate instrument and shall be recorded on, concurrently with, or prior to the parcel map or instrument of waiver of a parcel map being filed for record.
- B. Fulfillment of such construction requirements shall not be required until at or after such time as a building or grading permit is issued by the city or at such time as may be provided by an agreement between the subdivider and the city pursuant to Section 20.28.070, except that in the absence of such agreement the City Engineer may require fulfillment of some or all of such construction requirements within a reasonable time following approval of the parcel map and prior to the issuance of a building or grading permit for the development of a parcel upon a finding that fulfillment of such construction requirements is necessary for reasons of public health and safety or that the construction is a necessary prerequisite to the orderly development of the surrounding area.

(Ord. 9417 § 2, 1975; Ord. 9521 § 19, 1979)

#### **§ 20.28.070. Agreement to improve.**

Unless the subdivider elects, with the consent of the City Engineer, to construct the improvements required by Section 20.28.060 prior to approval of the parcel map, the subdivider shall execute an agreement to construct such improvements or to otherwise comply with the requirements of this title and with the conditions of approval for the tentative parcel map for the subdivision prior to approval of the parcel map.

If the subdivider consents, the agreement may provide for the construction of such improvements prior to issuance by the city of a building or grading permit for a parcel within the subdivision. The subdivider shall provide improvement security in accord with Sections 20.16.070, 20.16.080, 20.16.090 and 20.16.100 of this title. In addition, the subdivider shall prepare and deposit with the City Clerk detailed plans and specifications of the improvements to be constructed, and such plans and specifications shall be made a part of any such agreement and of the improvement security. The City Manager is authorized to execute such agreements on behalf of the city.

(Ord. 9417 § 2, 1975; Ord. 9521 § 19, 1979)

#### **§ 20.28.090. Lien contract for improvements.**

In lieu of constructing or agreeing under Section 20.28.070 to construct any required improvements, the City Engineer may require the subdivider to enter into an agreement with the city to construct the improvements in the future, and require the subdivider to grant the city a lien on the property to be divided securing such future improvements. The lien granted under authority herein may be used to secure future improvements in easements, rights-of-way or irrevocable offers of dedication or any other improvements or conditions of the map. The City Manager is authorized to sign such agreements on behalf of the city.

(Ord. 9417 § 2, 1975)

#### **§ 20.28.095. Off-site improvements—Acquisition of property interests.**

Whenever a subdivider is required as a condition of a tentative parcel map to construct or install off-site improvements on property which neither the subdivider nor the city owns, then not later than 60 days prior to filing the parcel map for approval the subdivider shall provide the city with sufficient information, reports and data, including, but not limited to, an appraisal and title report, to enable the city to commence proceedings pursuant to Title 7 of Part 3 of the Code of Civil Procedure to acquire an interest in the land which will permit the improvements to be made, including proceedings for immediate possession of the property pursuant to Article 3 of said title. The subdivider shall agree pursuant to Section 20.28.070 to complete the improvements at such time as the city has a sufficient interest in the property to permit the construction of the improvements. The subdivider shall bear all costs associated with the acquisition of the property interests and the estimated cost thereof shall be secured as provided in Section 20.28.070.

(Ord. 9680 § 6, 1983)

#### **§ 20.28.100. Covenant not to oppose an improvement district.**

In connection with a lien contract under Section 20.28.090, the City Engineer may require that the subdivider execute a covenant not to oppose the formation of an improvement district. The City Manager is authorized to sign such covenants on behalf of the city.

(Ord. 9417 § 2, 1975)

#### **§ 20.28.110. Monuments and flagging.**

Every parcel map shall show monuments which shall be set by a licensed surveyor or engineer in accordance with Section 20.16.050 of this title provided that two-inch iron pipes at least 24 inches long for exterior boundary monumentation are not required unless the City Engineer determines that the exterior boundary cannot be adequately monumented by monuments of a lesser standard, and further provided that monumentation of the exterior boundary of a remainder parcel need not be placed or shown on the parcel map. The monuments shall be set prior to the approval of the map unless the setting thereof is deferred by the City Engineer in accordance with Section 66496 of the State Government Code. The City Engineer is authorized to accept monumentation agreements and securities for parcel maps on behalf of the city.

(Ord. 9417 § 2, 1975; Ord. 9680 § 10, 1983)

## CHAPTER 20.32 PARCEL MAP REQUIREMENTS

### **§ 20.32.010. Maps to conform to requirements of approved tentative parcel map.**

All parcel maps shall conform to the requirements of the Subdivision Map Act and this chapter and also shall conform to the requirements specified in the approval or conditional approval of the tentative parcel map.

(Ord. 9417 § 2, 1975; Ord. CS-192 § 37, 2012)

### **§ 20.32.020. City Engineer to approve parcel maps.**

- A. The City Engineer is authorized to approve or deny parcel maps.
- B. The City Engineer shall not consider a parcel map unless there is a valid tentative parcel map for the subdivision.
- C. No parcel map shall be filed in the office of the County Recorder until approved by the City Engineer, but such map shall be disapproved only for failure to meet or perform requirements or conditions which were applicable to the subdivision at the time of approval of the tentative parcel map, providing that any such disapproval shall be accompanied by a finding identifying the requirements or conditions which have not been met or performed. The City Engineer may waive any failure of the map to meet such requirements and conditions if such failure is a result of a technical and inadvertent error, which in the determination of the City Engineer doesn't materially affect the validity of the map.

(Ord. 9417 § 2, 1975; Ord. 9521 § 20, 1979; Ord. CS-192 § 37, 2012)

### **§ 20.32.030. Land subject to inundation.**

Lots or portions of lots shown on a parcel map which are subject to inundation as determined by the City Engineer shall be identified and so labeled.

(Ord. 9417 § 2, 1975)

### **§ 20.32.040. Additional certificates on parcel maps.**

In addition to the certificates and other material required by the Subdivision Map Act and this title, a parcel map shall bear the following certificates:

- A. A certificate by the City Engineer that the map complies with all the provisions of this title and conforms to the approved tentative parcel map or, in the case of a parcel map for a major subdivision filed pursuant to Section 20.20.050 of this title, to the approved tentative map;
- B. A certificate by the City Engineer that the map does not appear to be a map of a major subdivision for which a final map is required pursuant to Section 66426 of the Subdivision Map Act;
- C. A certificate as required by Section 20.20.110(I); provided, however, with respect to a division of land into four or fewer parcels where dedications or offers of dedications are not required, the certificate shall be signed and acknowledged by the subdivider only; provided, however, where a subdivider does not have a record title ownership interest in the property to be divided, the City Engineer may require that the subdivider provide him or her with satisfactory evidence that the persons with record title ownership have consented to the proposed division. For purposes of this subsection, "record title ownership" shall mean fee title of record unless a leasehold interest is to be

divided, in which case "record title ownership" shall mean ownership of record of such leasehold interest; "record title ownership" does not include ownership of mineral rights or other subsurface interests which have been severed from ownership of the surface;

- D. A dedication certificate as required by Section 20.20.110(J);
- E. An engineer's/surveyor's certificate, in accordance with Section 66449(a) of the Subdivision Map Act;
- F. A recorder's certificate, in accordance with Section 66449(b) of the Subdivision Map Act;
- G. A certificate signed by the City Engineer attesting to his or her acceptance or rejection on behalf of the public of all dedications shown thereon;
- H. A certificate by the engineer or surveyor responsible for preparation of the map stating that all monuments are of the character and occupy the positions indicated, or that they will be set in such positions on or before a specified date. The certificate shall also state that the monuments are, or will be, sufficient to enable the survey to be retraced;
- I. Additional information as required by the City Engineer which may include, but is not limited to, building setback lines, flood hazard zones, seismic lines and setbacks, airport influence areas, archaeological sites and other restricted areas. The additional information shall be in the form of a separate document or an additional map sheet which shall indicate its relationship to the final or parcel map, and shall contain a statement that the additional information is for informational purposes, describing conditions as of the date of filing, and is not intended to affect record title interest.

(Ord. 9417 § 2, 1975; Ord. 9521 § 21, 1979; Ord. 9680 § 11, 1983; Ord. NS-172 § 2, 1991)

#### **§ 20.32.050. Title company subdivision guarantee.**

There shall be filed with the City Engineer a subdivision guarantee from a qualified title insurance company which guarantees that the parties named therein are the only parties having any record title interest in the land subdivided. The title company shall, on the date the parcel map will be transmitted to the County Recorder, present to the County Recorder, pursuant to the requirements of Section 66465 of the Subdivision Map Act, a letter stating that at the time of filing of the parcel map in the office of the County Recorder the parties consenting to such filing are all of the parties having a record title interest in the real property being subdivided whose signatures are required by Division 2 of Title 7 of the Government Code, as shown by the records in the office of the County Recorder.

(Ord. 9417 § 2, 1975)

#### **§ 20.32.060. Stamping or printing of certificates.**

The affidavits, certificates, acknowledgments and approvals required or permitted by this chapter or the Subdivision Map Act to appear upon parcel maps may be legibly stamped or printed upon the map with opaque ink in such a manner as will guarantee a permanent record in black upon the tracing cloth or polyester base film. If ink is used on polyester base film, the base surface shall be coated with a suitable substance to assure permanent legibility.

(Ord. 9417 § 2, 1975)

#### **§ 20.32.070. Additional data on parcel maps.**

Additional data on parcel maps shall be as listed in Section 20.20.060 of this title.

(Ord. 9417 § 2, 1975)

**§ 20.32.080. Transmittal of parcel maps.**

After approval by the City Engineer and after he or she certifies that all applicable requirements of the Subdivision Map Act and this code have been satisfied, the City Engineer shall transmit the map to the City Clerk. The City Clerk shall transmit such maps directly to the County Recorder unless otherwise required by Section 66464 of the Government Code.

(Ord. 9521 § 22, 1979; Ord. 9806 § 13, 1986)

**CHAPTER 20.36  
ADJUSTMENT PLATS**

**§ 20.36.010. Purpose of chapter.**

The purpose of this chapter is to provide a simplified procedure for the adjustment of property boundaries or the consolidation of adjacent lots or parcels where no additional lots or parcels will result.  
(Ord. 9412 § 1, 1974; Ord. 9417 § 1, 1975; Ord. 9521 § 23, 1979)

**§ 20.36.020. Applicability.**

Notwithstanding any other provisions of this title to the contrary, the procedure set forth in this chapter shall govern the processing of and requirements for adjustment plats. An adjustment plat may be filed in accord with the provisions of this chapter to adjust the boundaries between four or fewer adjoining parcels, provided the City Engineer determines that the boundary adjustment does not:

- A. Create any additional lots;
- B. Involve adjustments between five or more existing adjoining parcels;
- C. Include a lot or parcel created illegally unless a certificate of compliance pursuant to Chapter 20.48 of this code has been approved and recorded for such lot or parcel;
- D. Impair any existing access or create a need for a new access to any adjacent lot or parcel;
- E. Impair any existing easement or create a need for a new easement;
- F. Violate the general plan or the local coastal plan;
- G. Violate the provisions of Title 18, 21 or 22 of this code;
- H. Alter the city limit boundary;
- I. Require substantial alterations of existing public improvements or create a need for a new public improvement;
- J. Adjust the boundary between lots or parcels which are subject to an agreement for public improvements unless the City Engineer finds that the proposed adjustment plat will not materially affect such agreement or the security therefor.

(Ord. 9412 § 1, 1974; Ord. 9417 § 1, 1975; Ord. 9521 § 23, 1979; Ord. 9806 § 14, 1986; Ord. NS-636 § 1, 2002)

**§ 20.36.030. Application.**

- A. An application for an adjustment plat may be made by the owner of the property affected or the authorized agent of the owner. The application shall:
  - 1. Be made in writing on a form provided by the City Engineer;
  - 2. State fully the circumstances and conditions relied upon as grounds for the application; and
  - 3. Be accompanied by adequate plans, a legal description of the property involved, data specified by this title and all other materials as specified by the City Engineer.

- B. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.
- C. If signatures of persons other than the owners of property making the application are required or offered in support of, or in opposition to, an application, they may be received as evidence of notice having been served upon them of the pending application, or as evidence of their opinion on the pending issue, but they shall in no case infringe upon the free exercise of the powers vested in the city as represented by the City Engineer and the City Council.
- D. The City Engineer shall not accept an adjustment plat for processing unless the City Engineer finds that:
  - 1. The requirements of Title 19 of this code have been met;
  - 2. The adjustment plat is consistent with the provisions of Title 21 of this code and that all approvals and permits required by Title 21 for the project have been given or issued.

(Ord. 9412 § 1, 1974; Ord. 9417 § 1, 1975; Ord. 9521 § 23, 1979; Ord. 9760 § 12, 1985; Ord. CS-192 § 39, 2012)

#### **§ 20.36.040. Decision-making authority.**

The City Engineer shall approve the adjustment plat if the City Engineer finds that the request complies with the requirements of this chapter.

(Ord. 9412 § 1, 1974; Ord. 9417 § 1, 1975; Ord. CS-192 § 39, 2012)

#### **§ 20.36.050. Revised adjustment plat.**

A revised adjustment plat shall be submitted for approval when the City Engineer finds that the number or nature of any changes necessary for approval are such that they cannot be shown clearly or simply on the original adjustment plat. When required, the failure to file a revised adjustment plat within six months from the date of the conditional approval of the original plat shall terminate all proceedings.

(Ord. 9412 § 1, 1974; Ord. 9417 § 1, 1975)

#### **§ 20.36.060. Conditions of approval.**

The City Engineer may impose conditions or exactions on the approval of an adjustment plat between four or fewer existing adjoining parcels to the extent that the conditions or exactions are necessary to ensure compliance with the general plan, local coastal plan and applicable provisions of the city's zoning and building laws, pertaining to lots (Titles 21 and 18 of this code), including lot frontage, depth and area, access, and requirements such as setbacks, lot coverage and parking, or to facilitate the relocation of existing utilities, infrastructure or easements. The conditions imposed by the City Engineer shall be satisfied prior to the recordation of the adjustment plat or such other document authorized by law to effectuate the lot line adjustment. Lot line adjustments between five or more existing adjoining parcels shall be subject to the provisions of the Subdivision Map Act, including the requirement for the filing of a tentative and final map.

(Ord. 9412 § 1, 1974; Ord. 9417 § 1, 1975; Ord. 9806 § 15, 1986; Ord. NS-636 § 2, 2002)

#### **§ 20.36.070. Certification.**

- A. If the City Engineer determines that the adjustment plat meets all the requirements of the municipal code and that any conditions imposed have been satisfied, the City Manager shall certify on the adjustment plat that it has been approved pursuant to this chapter, notify the City Planner and file it

in the engineering department. The City Engineer shall cause to be filed with the County Recorder a certificate of compliance, having as an attachment a copy of the approved adjustment plat.

- B. In addition to the procedures established by subsection A of this section, a lot line adjustment may be effectuated by the recordation of the deed or record of survey; provided, however, that such deed or record of survey shall not be recorded unless it contains a certification by the City Engineer that all the requirements of this chapter and any condition imposed pursuant to this chapter have been satisfied and further provided that a copy of the adjustment plat shall be attached to the deed or record of survey.

(Ord. 9412 § 1, 1974; Ord. 9417 § 1, 1975; Ord. 9521 § 23, 1979; Ord. 1261 § 34, 1983; Ord. 9806 § 16, 1986; Ord. NS-676 § 14, 2003; Ord. CS-164 § 10, 2011; Ord. CS-192 § 40, 2012)

**§ 20.36.075. Announcement of decision and findings of fact.**

- A. When a decision on an adjustment plat is made pursuant to this chapter, the decision-making authority shall announce its decision and findings in writing.
- B. The announcement of decision and findings shall include:
1. A statement that the adjustment plat is approved, conditionally approved, or denied;
  2. The facts and reasons which, in the opinion of the decision-making authority, make the approval or denial of the adjustment plat necessary to carry out the provisions and general purpose of this title;
  3. Such conditions and limitations that the decision-making authority may impose in the approval of the adjustment plat.
- C. The announcement of decision and findings shall be mailed to the owner of the subject real property or the owner's duly authorized agent, the subdivider and/or the subdivider's representative at the address or addresses shown on the application filed with the engineering division.

(Ord. CS-192 § 41, 2012)

**§ 20.36.080. Appeal of City Engineer decision.**

The City Engineer's approval or denial of a final map may be appealed to the City Council, subject to the same requirements for appeals of Planning Commission decisions specified in Section 21.54.150 of this code.

(Ord. 9521 § 23, 1979; Ord. CS-192 § 42, 2012)

## CHAPTER 20.40 REVERSIONS TO ACREAGE

**Note: Prior ordinance history: Ord. Nos. 9417 and 9532.**

### **§ 20.40.010. Reversions to acreage by final map.**

Subdivided property may be reverted to acreage pursuant to the provisions of this chapter.  
(Ord. CS-192 § 44, 2012)

### **§ 20.40.020. Application.**

- A. The City Council, on its own motion, may by resolution initiate proceedings to revert property to acreage and direct the City Engineer to obtain the necessary information to initiate and conduct the proceedings; or
- B. An application to revert subdivided property to acreage may be made by the owner of the property affected or the authorized agent of the owner. The application shall:
  1. Be made in writing on a form provided by the City Engineer;
  2. State fully the circumstances and conditions relied upon as grounds for the application; and
  3. Be accompanied by all data specified in Section 20.40.030 of this chapter and all other materials as specified by the City Engineer.
- C. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.
- D. If signatures of persons other than the owners of property making the application are required or offered in support of, or in opposition to, an application, they may be received as evidence of notice having been served upon them of the pending application, or as evidence of their opinion on the pending issue, but they shall in no case infringe upon the free exercise of the powers vested in the city as represented by the City Engineer and the City Council.
- E. The City Engineer shall not accept an application to revert subdivided property to acreage for processing unless the City Engineer finds that:
  1. The requirements of Title 19 of this code have been met;
  2. The application to revert subdivided property to acreage is consistent with the provisions of Title 21 of this code and that all approvals and permits required by Title 21 for the project have been given or issued.

(Ord. CS-192 § 44, 2012)

### **§ 20.40.030. Data for reversion to acreage.**

Applicants for a reversion to acreage shall file the following:

- A. Evidence of title to the real property; and
- B. Evidence of the consent of all of the owners of an interest(s) in the property; or

- C. Evidence that none of the improvements required to be made have been made within two years from the date the final map or parcel map was filed for record or within the time allowed by agreement for completion of the improvements, whichever is later; or
- D. Evidence that no lots shown on the final or parcel map have been sold within five years from the date such final or parcel map was filed for record; or
- E. A tentative map in the form prescribed by Chapter 20.12 of this title; or
- F. A final map in the form prescribed by Chapter 20.20 of this title which delineates dedications which will not be vacated and dedications required as a condition to reversion.

(Ord. CS-192 § 44, 2012)

#### **§ 20.40.040. Notices and hearings.**

- A. Notice of the public hearing for an application to revert subdivided property to acreage shall be given pursuant to Sections 21.54.060 and 21.54.061 of this code.
- B. Failure by any person to receive notice specified in this section shall not invalidate any action taken pursuant to this title.

(Ord. CS-192 § 44, 2012)

#### **§ 20.40.050. Decision-making authority.**

- A. The City Council shall have the authority to approve, conditionally approve or deny a reversion of subdivided property to acreage based upon its review of the facts as set forth in the application if one is required and submitted pursuant to this chapter, the circumstances of the particular case, and evidence presented at a public hearing.
- B. The City Council may approve or conditionally approve the reversion of subdivided property to acreage if all of the findings of fact in Section 20.40.055 of this chapter are found to exist.

(Ord. CS-192 § 44, 2012)

#### **§ 20.40.055. Required findings.**

The City Council may approve a reversion to acreage only if it finds and records in writing that:

- A. Dedications or offers of dedication to be vacated or abandoned by the reversion to acreage are unnecessary for present or prospective public purposes; and
- B. Either:
  - 1. All owners of an interest in the real property within the subdivision have consented to reversion; or
  - 2. None of the improvements required to be made have been made within two years from the date the final or parcel map was filed for record, or within the time allowed by agreement for completion of the improvements, whichever is later; or
  - 3. No lots shown on the final or parcel map were filed for record.

(Ord. CS-192 § 45, 2012)

**§ 20.40.060. Conditions of approval.**

The City Council shall require as a condition of the reversion:

- A. The dedication or offer of dedication necessary for the purposes specified by this title following reversion;
- B. The retention of all or a portion of previously paid subdivision fees, deposits or improvement securities if the same are necessary to accomplish any of the provisions of this title.

(Ord. CS-192 § 46, 2012)

**§ 20.40.065. Announcement of decision and findings of fact.**

- A. When a decision on a reversion to acreage is made pursuant to this chapter, the City Council shall announce its decision and findings by formal resolution.
- B. The announcement of decision and findings shall include:
  1. A statement that the tentative map is approved, conditionally approved, or denied;
  2. The facts and reasons which, in the opinion of the City Council, make the approval or denial of the reversion to acreage necessary to carry out the provisions and general purpose of this title;
  3. Such conditions and limitations that the City Council may impose in the approval of the reversion to acreage.
- C. The announcement of decision and findings shall be mailed to:
  1. The owner of the subject real property or the owner's duly authorized agent, the subdivider and/or the subdivider's representative at the address or addresses shown on the application filed with the planning division;
  2. Any person who has filed a written request for a notice of decision.

(Ord. CS-192 § 47, 2012)

**§ 20.40.070. Return of fees and deposits—Release of securities.**

Except as provided in Section 20.40.060, upon filing of the final map for reversion of acreage with the County Recorder, all fees and deposits shall be returned to the subdivider and all improvement securities shall be released by the City Council.

(Ord. 9417 § 2, 1975)

**§ 20.40.080. Delivery of final map.**

After the hearing before the City Council and approval of the reversion, the final map shall be delivered to the County Recorder.

(Ord. 9417 § 2, 1975)

**§ 20.40.090. Effect of filing reversion map with the County Recorder.**

Reversion shall be effective upon the final map being filed for record by the County Recorder. Upon filing, all dedications and offers of dedication not shown on the final map for reversion shall be of no further force and effect.

City of Carlsbad, CA

§ 20.40.090

SUBDIVISIONS

§ 20.40.090

(Ord. 9417 § 2, 1975)

## CHAPTER 20.44 DEDICATION OF LAND FOR RECREATIONAL FACILITIES

### **§ 20.44.010. Purpose.**

This chapter is enacted pursuant to the authority granted by Section 66477 of the Government Code of the State of California. The park and recreational facilities for which dedication of land and/or payment of a fee is required by this chapter are in accordance with the recreational element of the general plan of the City of Carlsbad.

(Ord. 9190 § 2; Ord. 9614 § 1, 1982)

### **§ 20.44.020. Requirements.**

As a condition of approval of a final map or parcel map, the subdivider shall dedicate land, pay a fee in lieu thereof, or both, at the option of the city, for park or recreational purposes at the time and according to the standards and formula contained in this chapter.

(Ord. 9190 § 3; Ord. 9521 § 24, 1979; Ord. 9549 § 6, 1980; Ord. 9614 § 1, 1982)

### **§ 20.44.030. General standard.**

It is found and determined that the public interest, convenience, health, welfare and safety require that three acres of property for each 1,000 persons residing within this city shall be devoted to local park and recreational purposes.

(Ord. 9190 § 4; Ord. 9614 § 1, 1982; Ord. 9831 § 1, 1987)

### **§ 20.44.040. Standards and formula for dedication of land.**

If the decision-making authority for the tentative map or tentative parcel map determines that a park or recreational facility is to be located in whole or in part within the proposed subdivision to serve the immediate and future needs of the residents of the subdivision, the subdivider shall, at the time of the filing of the final or parcel map, dedicate land for such facility pursuant to the following standards and formula:

The formula for determining acreage to be dedicated shall be as follows:

$$\begin{array}{rcccl} \text{Average no. of persons per} & \times & 3 \text{ park acres per 1,000} & \times & \text{Total number of dwelling units} \\ \text{dwelling unit} & & \text{population} & & \\ \text{(based on most recent federal} & & & & \\ \text{census)} & & & & \end{array}$$

The total number of dwelling units shall be the number permitted by the city on the property in the subdivision at the time the final map or parcel map is filed for approval, less any existing residential units in single-family detached or duplex dwellings. The park land dedication requirement will be reviewed annually effective July 1, and adjusted as necessary by resolution of the City Council to reflect the latest federal census data.

(Ord. 9190 § 5; Ord. 9614 § 1, 1982; Ord. 9637 § 1, 1982; Ord. 9644 § 1, 1982; Ord. 9724 § 1, 1984; Ord. 9770 § 1, 1985; Ord. 9831 § 1, 1987; Ord. NS-588 § 1, 2001; Ord. NS-757 § 1, 2005; Ord. CS-162 § 1, 2011; Ord. CS-192 § 49, 2012; )

### **§ 20.44.050. Standards for fees in lieu of land dedication.**

A. If the decision-making authority for the tentative map or tentative parcel map determines that there is

no park or recreational facility to be located in whole or in part within the proposed subdivision, the subdivider shall, in lieu of dedicating land, pay a fee equal to the value of the land prescribed for dedication in Section 20.44.040 and in an amount determined in accordance with the provisions of Section 20.44.080.

- B. If the proposed subdivision contains 50 parcels or less, only the payment of fees shall be required except that when a condominium project, stock cooperative, or community apartment project exceeds 50 dwelling units, dedication of land may be required notwithstanding that the number of parcels may be less than 50.
- C. If the decision-making authority for the tentative map or tentative parcel map requires the subdivider to dedicate land and the amount of land is less than would otherwise be required by Section 20.44.040 for that subdivision, a fee equal to the value of the land which would otherwise have been required shall be paid.
- D. If fees are required, they shall be paid by the subdivider prior to the issuance of building permits for the subdivision or prior to the sale of the subdivided property, whichever occurs first. If building permits are issued for a portion of the subdivision or if a portion of the subdivision is sold, only the corresponding portion of the fees shall be paid. The subdivider's obligation to pay the fees shall be noted on the final map. If fees are required, the subdivider shall agree to pay them in accordance with this chapter. The agreement shall be secured in accordance with Section 20.16.070 of this code. The City Manager is authorized to sign such agreements on behalf of the city.

(Ord. 9190 § 9; Ord. 9614 § 1, 1982; Ord. 9637 § 2, 1982; Ord. 9654 § 1, 1982; Ord. 9830 § 3, 1987; Ord. CS-192 § 49, 2012)

#### **§ 20.44.060. Determination of land or fee.**

- A. Whether the decision-making authority for the tentative map or tentative parcel map requires land dedication or elects to accept payment of a fee in lieu thereof, or a combination of both, shall be determined by the decision-making authority at the time of approval of the tentative map or tentative parcel map. In making that determination, the decision-making authority shall consider the following:
  - 1. Park and recreation element of the general plan;
  - 2. Topography, geology, access and location of land in the subdivision available for dedication;
  - 3. Size and shape of the subdivision and land available for dedication;
  - 4. The feasibility of dedication;
  - 5. Availability of previously acquired park property.
- B. The determination of the City Council as to whether land shall be dedicated, or whether a fee shall be charged, or a combination thereof, shall be final and conclusive.

(Ord. 9190 § 6; Ord. 9614 § 1, 1982; Ord. CS-192 § 49, 2012)

#### **§ 20.44.080. Amount of fee in lieu of land dedication.**

- A. When a fee is required to be paid in lieu of land dedication, the amount of the fee shall be based upon the fair market value of the amount of land which would otherwise be required to be dedicated pursuant to Section 20.44.040. The fair market value shall be determined by the City Council using the following method:

1. The City Manager may from time to time survey the market value of undeveloped property within the city. This survey may be prepared through various means including, but not limited to, selection of several real estate professionals within Carlsbad to provide current estimates of undeveloped property values with each of the city's four quadrants.
  2. The council shall adopt a resolution establishing the value of one acre of park land in each quadrant after considering the results of this survey and any other relevant information.
- B. Subdividers objecting to such valuation, may, at their own expense, obtain an appraisal of the property by a qualified real estate appraiser approved by the city, which appraisal may be accepted by the City Council if found to be reasonable. If accepted, the fee shall be based on that appraisal.
- (Ord. 9190 § 8; Ord. 9614 § 1, 1982; Ord. 9781 § 1, 1985; Ord. 9831 § 1, 1987; Ord. NS-120 § 1, 1990)

**§ 20.44.090. Limitation on use of land and fees.**

The land and fees received under this chapter shall be used for the purpose of developing new or rehabilitating existing park and recreational facilities which serve the population within the park quadrant within which the subdivision for which the fees are received is located and the location of the land and amount of fees shall bear a reasonable relationship to the use of the park and recreational facilities by the future inhabitants of the subdivision.

(Ord. 9190 § 11; Ord. 9680 § 12, 1983; Ord. NS-842 § 1, 2007)

**§ 20.44.100. Time of commencement of facilities.**

The City Council shall develop a schedule specifying how, when and where it will use the land or fees or both to develop park or recreational facilities to serve the residents of the park quadrant in which the subdivisions are located. Any fees collected pursuant to this chapter shall be committed within five years after the payment of such fees or the issuance of building permits on one-half of the lots created by the subdivision, whichever occurs later. If such fees are not committed, they shall be distributed and paid to the then record owners of the subdivision in the same proportion that the size of their lot bears to the total area of all lots within the subdivision.

(Ord. 9190 § 10; Ord. 9521 § 24, 1979; Ord. 9680 § 12, 1983; Ord. NS-842 § 2, 2007)

**§ 20.44.110. Alternate procedure—Planned community projects.**

The purpose of this section is to provide an alternate procedure for accomplishing the dedication of land or the payment of fees, or both, for recreational facilities which the City Council may elect to utilize for subdivisions processed as part of a master planned project in the planned community zone.

- A. The City Council may elect to proceed pursuant to this section by the inclusion of an appropriate condition in the master plan for a project in the planned community zone to provide for the dedication of land or for the payment of fees in lieu thereof, or any combination of the two, in connection with the master plan approval in an amount not to exceed the estimated amount of the obligations to be imposed by this chapter on the subdivisions to be developed within the planned community project.
- B. If the land to be dedicated has been improved prior to master plan approval and the City Council determines it to be in the city's interest to accept such improvements for utilization in the city's park and recreation program, the council may cause such improvements to be appraised, and the approved appraised value of such improvements may be considered a payment of fees in lieu of the dedication of land for the purposes of this section.
- C. The land dedicated or fees paid pursuant to this section may be immediately utilized by the city. A

record of the amount of such land or fees shall be maintained by the city, and the amount shall be available to be drawn upon at the option of the City Council to satisfy the requirements of this chapter for one or more of the subdivisions to be developed pursuant to the master plan within the planned community project. The amount of land or fees in lieu thereof required for each subdivision within a planned community processed under this section shall be determined in accord with this chapter in the same manner as any other subdivision.

- D. After electing to utilize the provisions of this section, the City Council may provide that the requirement for the dedication of land for a subdivision be satisfied by a credit from an equivalent amount of previously dedicated land located within the planned community project but outside the subdivision boundaries and available for such purpose pursuant to this section. A requirement for payment of fees may be satisfied in the same manner from the amount of previously deposited fees available for such purpose pursuant to this section. A record of the transactions showing the amount of land or fees required, the amount of credit used to satisfy such requirement, and the balance of land or fees remaining on account for subsequent subdivisions shall be presented to the City Council prior to final map approval.
- E. The method of accomplishing the dedication of the land or the payment of fees in lieu thereof, the method for making the land or fees available in accord with this section, and any other matters necessary to carry out the intent of this section may be established by the City Council by a contract with the developer or by the inclusion of appropriate conditions in the master plan, specific plan, tentative map, or any combination thereof. In the absence of any such specific provisions, the provisions of this chapter shall control.
- F. If the planned community project is rezoned or otherwise terminated by the City Council prior to its completion, the title to any land or improvements dedicated pursuant to this section shall remain in the city. The remaining balance of any land or the value of any improvements not utilized in satisfaction of the requirements of this chapter for approved subdivisions within the project shall remain on account with the city and shall be available to satisfy the park requirements which may apply to any future development of the property.
- G. In the event the balance of land or fees available pursuant to this section is insufficient to satisfy the requirements of this chapter for a subdivision, additional land or fees may be required pursuant to this chapter in satisfaction of such requirement, or the City Council may elect to provide for additional dedications or payments in accord with this section which shall be available for the satisfaction of the balance of such requirement and the requirements of subsequent subdivisions within the planned community.

(Ord. 9416 § 1, 1975; Ord. 9417 § 2, 1975)

#### **§ 20.44.120. Exemptions.**

- A. The provisions of this chapter shall not apply to subdivisions containing less than five parcels and not used for residential purposes; provided, however, that a condition may be placed on the approval of such parcel map that if a building permit is requested for construction of a residential structure or structures on one or more of the parcels within four years, the fee may be required to be paid by the owner of each such parcel as a condition to the issuance of such permit.
  - B. The provisions of this chapter also do not apply to commercial or industrial subdivision; nor to condominium projects or stock cooperatives which consist of the subdivision of airspace in an existing apartment building which is more than five years old when no new dwelling units are added.
- (Ord. 9416 § 2, 1982; Ord. 9680 § 12, 1983)

**§ 20.44.130. Credits against fee or land.**

- A. Whenever a subdivider provides park and recreational improvements, including equipment, to dedicated land, the value of the improvements or equipment as determined by the City Council shall be a credit against the fees to be paid or land to be dedicated pursuant to this chapter; provided, that the improvements or equipment have been done or installed with the prior approval and to the satisfaction of the Director of Parks and Recreation.
- B. Whenever a subdivider of a planned development, real estate development, stock cooperative, community development project or condominium, as defined in Sections 11003, 11003.1, 11003.2, 11003.4, and 11004 of the Business and Professions Code and Section 783 of the Civil Code respectively, has provided active recreational areas within the boundaries of the subdivision in excess of that required by Chapter 21.45 of this code, the subdivider may at the time the final or parcel map is submitted for approval request that the council give a credit of up to 10% of the amount of fees to be paid or land to be dedicated pursuant to this chapter for the value of the active recreation area.

(Ord. 9680 § 12, 1983; Ord. 9806 § 17, 1986; Ord. CS-192 § 50, 2012)

**§ 20.44.140. Fee deferral.**

- A. Notwithstanding anything in this chapter to the contrary, all park in-lieu fees for any residential development that consists of five or more dwelling units shall only be paid prior to building permit issuance, or, at the request of the applicant, deferred until all work required for final inspection has been completed and all department approvals required for final inspection have been obtained by the applicant.
- B. If the applicant chooses to defer the payment of fees to prior to the request for final inspection, then the amount of the fees shall be based on the fees in effect at the time of the request for final inspection.
- C. In the event that the city, for any reason, fails to collect any or all fees prior to final inspection, such fees shall remain the obligation of the developer and/or the property owner.

(Ord. CS-200 § IV, 2013; Ord. CS-271 § IV, 2015)

**CHAPTER 20.48  
ENFORCEMENT—CERTIFICATES OF COMPLIANCE**

**§ 20.48.010. Enforcement.**

Whenever the county assessor or the head of any city department finds that the provisions of this title or of the Subdivision Map Act have been violated, he or she shall report such violation to the City Planner, the Housing and Neighborhood Services Director and the City Engineer. It shall be the duty of the City Engineer to investigate such report and enforce the provisions of this title and the Subdivision Map Act. (Ord. 9417 § 2, 1975; Ord. 1256 § 6, 1982; Ord. 1261 § 35, 1983; Ord. NS-676 §§ 13, 14, 2003; Ord. CS-164 §§ 10, 14, 2011; Ord. CS-192 § 51, 2012)

**§ 20.48.020. Notice of violation.**

Whenever the City Engineer has knowledge that real property has been divided in violation of the provisions of the Subdivision Map Act or of city ordinances enacted pursuant thereto, the City Engineer shall cause to be mailed by certified mail to the owner of the real property a notice of intention to record a notice of violation, describing the real property in detail, naming the owners thereof, describing the violation, and an explanation of why the parcel is not lawful under subdivision (a) or (b) of Government Code Section 66412.6, and stating that an opportunity will be given to the owner to present evidence. The notice shall specify a time, date and place at which the owner may present evidence to the City Engineer why such notice should not be recorded. The date shall be not less than 30 days and not more than 60 days from the date of mailing. If, after the owner has presented evidence, the City Engineer determines that there has been no violation, the City Engineer shall forthwith mail a clearance letter to the owner. If, however, after the owner has presented evidence, the City Engineer determines that the property has in fact been illegally divided, or if within 15 days of receipt of a copy of such notice the owner of such real property fails to inform the City Engineer of his or her objection to recording the notice of violation, the City Engineer shall record the notice of violation with the County Recorder. The notice of violation, when recorded, shall be deemed to be constructive notice of the violation to all successors in interest in such real property.

(Ord. 9417 § 2, 1975; Ord. 9521 § 25, 1979; Ord. NS-328 § 1, 1995)

**§ 20.48.030. Development permits and approvals withheld.**

- A. The city or any other responsible agency shall not issue or grant building, grading or any other permit, or any approval necessary to develop any real property which has been divided or which has resulted from a division in violation of the provisions of the Subdivision Map Act or city ordinances enacted pursuant thereto applicable at the time such division occurred unless the decision-making authority for the building, grading, or any other permit, finds that development of such real property is not contrary to the public health or the public safety. The authority to deny such a permit or such approval shall apply whether the applicant therefor was the owner of record at the time of such violation or whether the applicant therefor is either the current owner of record or vendee of the current owner of record pursuant to a contract of sale of the real property with or without actual or constructive knowledge of the violation at the time of the acquisition of his or her interests in such real property.
- B. All applications for permits or approvals necessary for the development of real property shall be reviewed by the City Engineer, who shall determine whether the real property has been subdivided or has resulted from a division in violation of the Subdivision Map Act or city ordinances enacted pursuant thereto. The engineer shall also make such a determination upon a receipt of a written request from the owner of such real property or the vendee of the current owner of record pursuant to

a contract of sale of the real property or upon receipt of written notification of the authority or body responsible for granting a permit or approval. The City Engineer may approve real property for development pursuant to subsection A of this section and shall so inform the owner or vendee thereof and the authority or body authorized to issue or grant the permit or approval for development. If it is determined that such real property is approved for development, the City Engineer may impose those conditions that would have been applicable to the division of the property and which had been established at such time by the Subdivision Map Act or city ordinances enacted pursuant thereto and are appropriate to satisfy public health and safety considerations and other considerations as are hereinafter specified unless the applicant was the owner of record at the time of the initial violation in which event the City Engineer may impose such conditions as would be applicable to a current division of property. If a conditional certificate of compliance has been filed for record under the provisions of Section 20.48.040, only such conditions stipulated in that certificate shall be applicable. If real property is approved for development the City Engineer shall cause a certificate of compliance relative to the subject real property and reflecting any conditions of development to be filed with the County Recorder pursuant to Section 20.48.040 of this chapter.

- C. In determining whether approval or conditional approval should be granted for development of real property divided or resulting from a division in violation of the Subdivision Map Act or city ordinances enacted pursuant thereto, the City Engineer or the City Council shall give consideration to:
  - 1. Whether the owner of the real property can rescind the agreement by which he or she acquired the real property and recover the consideration paid therefor;
  - 2. Whether the real property meets the requirements of the applicable zoning regulations;
  - 3. Whether the real property has a satisfactory potable water supply;
  - 4. Whether the real property has legal access to a city or county maintained road;
  - 5. Whether the current owner would have been required to dedicate land for any public purpose or construct or install any improvements pursuant to the terms of the Subdivision Map Act or city ordinances enacted pursuant thereto had the subdivision by which the real property was created been submitted for approval at the time the current owner acquired the property.
- D. Approval for development shall be granted for development of real property where improvements have been completed prior to the time a permit or grant of approval was required for development of the property, or for development of real property for which improvements have been completed in reliance on a previous permit or grant of approval for development, unless the City Engineer finds that development is contrary to the public health or safety.
- E. Whenever any person submits an application for a building or any other permit for proposed construction of more than one main building as defined in Title 21 on any single lot or building site, the City Engineer shall determine whether such proposed construction would create a subdivision. The permit for such proposed construction shall not be issued unless the City Engineer has approved the plot plan and determined that the proposed construction would not constitute a violation of the Subdivision Map Act or this title.
- F. A request for development approval or a certificate of compliance shall be accompanied by a fee established by City Council resolution.

(Ord. 9417 § 2, 1975; Ord. 9521 § 26, 1979; Ord. 1261 § 35, 1983; Ord. 9760 § 13, 1985; Ord. NS-676 § 13, 2003; Ord. CS-192 § 52, 2012)

**§ 20.48.040. Certificate of compliance.**

- A. Any owner of real property or a vendee of such person pursuant to a contract of sale of such real property may request in writing that the City Engineer make a determination whether such real property complies with applicable provisions of the Subdivision Map Act and city ordinances enacted pursuant thereto, or that such real property does not comply with the provisions, and the City Engineer shall so notify the owner thereof setting forth the particulars of such compliance or noncompliance. If the subject real property is found to be in compliance with the Subdivision Map Act and city ordinances enacted pursuant thereto, the City Engineer shall cause a certification of compliance relative to such real property to be filed for record with the County Recorder.

If the subject real property is found not to be in compliance with the Subdivision Map Act and city ordinances enacted pursuant thereto, the City Engineer may issue a notice of violation or a conditional certificate of compliance. When issuing a conditional certificate of compliance the City Engineer may impose such conditions as would have been applicable to the division of the property at the time the applicant acquired his or her interest in the property and which had been established at such time by the Subdivision Map Act or city ordinances enacted pursuant thereto. Upon making such a determination and establishing such conditions, the City Engineer shall cause a conditional certification of compliance setting forth such conditions to be filed for record with the County Recorder, fulfillment and implementation of the conditions shall be required prior to the subsequent issuance of a permit or grant of approval for development of the property, but compliance with such conditions shall not be required until such time as a building permit or granting permit is issued by the city.

- B. Certificates of compliance shall be issued for real property that:

1. Has been approved for development pursuant to Section 20.48.030 of this chapter;
2. Has been approved for division, and the requirement for preparing, filing and recording a parcel map has been waived pursuant to Section 20.24.150 of this title.

- C. A recorded final subdivision map or recorded parcel map shall constitute a certificate of compliance with respect to the lots described therein, and no additional certificates of compliance shall be issued therefor.

(Ord. 9417 § 2, 1975; Ord. 9521 § 27, 1979; Ord. 9588 § 1, 1981; Ord. 9760 § 14, 1985)

**§ 20.48.050. Appeal.**

Decisions on actions of the City Engineer made pursuant to this chapter shall become effective unless appealed and processed in the same manner as the appeal of City Planner decisions pursuant to the provisions of Section 21.54.140 of this code.

(Ord. 9417 § 2, 1975; Ord. CS-192 § 53, 2012)

**§ 20.48.060. Violations.**

Any person violating any of the provisions of this title is guilty of a misdemeanor and shall be subject to imprisonment for a period not exceeding six months and a fine not exceeding \$500.00, or by both such imprisonment and such fine.

(Ord. 9417 § 2, 1975)

**§ 20.48.070. Severability.**

If any provision of this title or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of this chapter which can be given effect without the invalid provision or application thereof, and to this end the provisions of this title are severable.

(Ord. 9417 § 2, 1975)

**§ 20.48.090. Presumption of lawful creation.**

- A. For purposes of this title, any parcel created prior to March 4, 1972, shall be conclusively presumed to have been lawfully created if the parcel resulted from a division of land in which fewer than five parcels were created and if at the time of the creation of the parcel there was no local ordinance in effect which regulated divisions of land creating fewer than five parcels.
- B. For purposes of this title, any parcel created prior to March 4, 1972, shall be conclusively presumed to have been lawfully created if any subsequent purchaser acquired that parcel for valuable consideration without actual or constructive knowledge of a violation of this division or the local ordinance. Owners of parcels or units of land affected by the provisions of this subdivision shall be required to obtain a certificate of compliance or a conditional certificate of compliance pursuant to this chapter prior to obtaining a permit or other grant of approval for development of the parcel or unit of land. For purposes of determining whether the parcel or unit of land complies with the provisions of this title or the Subdivision Map Act, as required pursuant to Section 20.48.040, the presumption declared in this subdivision shall not be operative.

(Ord. 9626 § 9, 1982)

## § 21.20.110. Lot coverage.

Chapter 21.24

**RD-M RESIDENTIAL DENSITY-MULTIPLE ZONE**

Chapter 21.21

**H-O HOSPITAL OVERLAY ZONE**

- § 21.21.010. Intent and purpose.
- § 21.21.015. Prohibition.
- § 21.21.020. Application.
- § 21.21.030. Criteria for implementation.
- § 21.21.040. Permitted uses.
- § 21.21.050. Site development plan.
- § 21.21.060. Lot area.
- § 21.21.070. Lot width.
- § 21.21.080. Building height.
- § 21.21.090. Setbacks.
- § 21.21.100. Setbacks—Structures over thirty-five feet in height.
- § 21.21.110. Landscaping.
- § 21.21.120. Building coverage.
- § 21.21.130. Signs.
- § 21.21.140. Parking.
- § 21.21.150. Walls and fences.
- § 21.21.160. Lighting.
- § 21.21.170. Roof—Appurtenances.
- § 21.21.180. Trash enclosures.
- § 21.21.190. Loading areas.
- § 21.21.200. Expiration.

Chapter 21.22

**R-W RESIDENTIAL WATERWAY ZONE**

- § 21.22.010. Intent and purpose.
- § 21.22.020. Permitted uses.
- § 21.22.030. Building height.
- § 21.22.040. Front yard.
- § 21.22.050. Side yard.
- § 21.22.060. Rear yard.
- § 21.22.070. Accessory structures.
- § 21.22.080. Minimum lot area.
- § 21.22.090. Lot width.
- § 21.22.100. Lot coverage.
- § 21.22.110. Waterway access.

Intent and purpose.

Permitted uses.

Building height.

Front yard.

Side yard.

Setbacks—Subterranean parking.

Rear yard.

Yards—Structures over thirty-five feet in height.

Accessory structures.

Lot area.

Lot coverage.

Lot width.

Improvements required.

Special conditions for certain lots.

Chapter 21.25

**COMMUNITY FACILITIES ZONE**

- § 21.25.010. Intent and purpose.
- § 21.25.020. Applicability.
- § 21.25.030. Time period of reservation.
- § 21.25.040. Permitted uses.
- § 21.25.060. Limitations on permitted uses.
- § 21.25.070. Minimum requirements for community facilities area.
- § 21.25.080. Building height.
- § 21.25.090. Yards.
- § 21.25.100. Location and design standards.
- § 21.25.110. Required notification.
- § 21.25.120. Severability.

Chapter 21.26

**C-1 NEIGHBORHOOD COMMERCIAL ZONE**

- § 21.26.010. Permitted uses.
- § 21.26.013. Outdoor dining (incidental).
- § 21.26.015. Residential uses.

Chapter 21.53 USES GENERALLY		Chapter 21.54 PROCEDURES, HEARINGS, NOTICES AND FEES
§ 21.53.010.	All zones subject to this chapter.	§ 21.54.010. Review and approval/denial of applications.
§ 21.53.015.	Voter authorization required for airport expansion.	§ 21.54.040. Decision-making authority for multiple development permits.
§ 21.53.020.	Limitation of land use—Sewer availability.	§ 21.54.050. Setting of hearing.
§ 21.53.030.	Limitation on issuance of building permit.	§ 21.54.060. Notices of applications and hearings.
§ 21.53.040.	Clarification of ambiguity.	§ 21.54.061. Content of notice.
§ 21.53.050.	Use control in reclassified precise plan.	§ 21.54.063. Failure to receive notice.
§ 21.53.060.	Indicated potential classifications.	§ 21.54.064. Applicant's responsibilities.
§ 21.53.070.	Translating potential classifications to permissible use.	§ 21.54.080. Investigations.
§ 21.53.080.	Public utilities.	§ 21.54.090. Rule establishment for conduct of hearings.
§ 21.53.084.	Keeping of dogs, cats and household pets.	§ 21.54.100. Hearing continuance without public notice.
§ 21.53.085.	Wild animals.	§ 21.54.110. Permanent files shall include summary of testimony.
§ 21.53.090.	Temporary real estate office.	§ 21.54.120. Announcement of decision and findings of fact.
§ 21.53.110.	Temporary construction buildings.	§ 21.54.125. Amendments to development permits.
§ 21.53.120.	Affordable housing multi-family residential projects—Site development plan required.	§ 21.54.130. Restriction on reapplication after denial.
§ 21.53.130.	Satellite television antenna—Purpose.	§ 21.54.140. Effective date of order—Appeal of City Planner or Housing and Neighborhood Services Director decisions.
§ 21.53.140.	Satellite television antenna—Generally.	§ 21.54.150. Effective date of order—Appeal of Planning Commission decisions.
§ 21.53.150.	Satellite television antenna—Waiver or modification of standards.	
§ 21.53.230.	Residential density calculations, residential development restrictions on open space and environmentally sensitive lands.	
§ 21.53.240.	Nonresidential development restrictions on open space and environmentally sensitive lands.	
§ 21.53.250.	On-shore oil and gas facilities.	
		Chapter 21.55 DEDICATION OF LAND AND FEES FOR SCHOOL FACILITIES
		§ 21.55.010. Title.
		§ 21.55.020. Authority—Conflict.
		§ 21.55.030. Purpose and intent.
		§ 21.55.040. Regulations.
		§ 21.55.050. Findings.
		§ 21.55.060. General plan.
		§ 21.55.070. Definitions.

## ZONING

<b>§ 21.55.080.</b>	<b>Exemptions.</b>	<b>Chapter 21.58</b>
<b>§ 21.55.090.</b>	<b>Notice to school districts.</b>	<b>VIOLATION—REVOCATION—EXPIRATION</b>

**CHAPTER 21.02  
PURPOSE**

**§ 21.02.010. Designated.**

An official land-use plan for the city is adopted and established to serve the public health, safety and general welfare and to provide the economic and social advantages resulting from an orderly planned use of land resources.

(Ord. 9060 § 100)

**§ 21.02.020. Short title.**

This title shall be known as "The Zoning Ordinance."

(Ord. 9060 § 101)

## CHAPTER 21.04 DEFINITIONS

### **§ 21.04.005. Provisions not affected by headings.**

Chapter and section headings contained in this title shall not be deemed to govern, limit, modify or in any manner affect the scope, meaning or intent of any section of this title.

(Ord. 9060 § 200)

### **§ 21.04.010. Tenses.**

The present tense includes the future, and the future the present.

(Ord. 9060 § 201)

### **§ 21.04.015. Number.**

The singular number includes the plural, and the plural the singular.

(Ord. 9060 § 202)

### **§ 21.04.020. Accessory.**

"Accessory" means a building, part of a building or structure, or use that is subordinate to and the use of which is incidental to that of the main building, structure or use on the same lot. If an accessory building is attached to the main building by a common wall, with a width dimension of at least three feet and a height dimension of at least one story, such building area is considered a part of the main building and not an accessory building or structure, except for "accessory dwelling units" or "junior accessory dwelling units" as defined in Sections 21.04.121 and 21.04.122. Accessory dwelling units and junior accessory dwelling units that comply with the requirements of Section 21.10.030 and California Government Code Sections 65852.2 (effective Jan. 1, 2022) and 65852.22 (effective Jan. 1, 2020), respectively, are considered accessory.

(Ord. 9060 § 203; Ord. NS-355 § 1, 1996; CS-384 § 7, 2020; Ord. CS-427 § 2, 2022)

### **§ 21.04.021. Affordable housing.**

"Affordable housing" means housing for which the allowable housing expenses for a for-sale or rental dwelling unit paid by a household would not exceed thirty percent of the gross monthly income for target income levels, adjusted for household size.

(Ord. 207 § 1, 1992)

### **§ 21.04.023. Agriculture.**

"Agriculture" means farming in all its branches, including the cultivation and tillage of the soil, dairying, the production, cultivation, growing, and harvesting of any agricultural or horticultural commodities (including commodities defined as agricultural commodities in Section 1141j(g) of Title 12 of the United States Code), the raising of livestock, bees, furbearing animals, or poultry, and any practices (including any forestry or lumbering operations) performed by a farmer or on a farm as an incident to or in conjunction with such farming operations, including preparation for market and delivery to storage or to market or to carriers for transportation to market.

(Ord. CS-189 § II, 2012)

**§ 21.04.025. Alley.**

"Alley" means a public thoroughfare or way having a width of not more than twenty feet which affords only a secondary means of access to abutting property.

(Ord. 9060 § 204)

**§ 21.04.027. Alter.**

"Alter" means any change to the interior or exterior of a structure that does not result in an increase to the gross floor area of the structure.

(Ord. CS-050 § II, 2009)

**§ 21.04.030. Apartment.**

"Apartment" means a room, or a suite of two or more rooms in a multiple-family dwelling, occupied or suitable for occupancy as a residence for one family.

(Ord. 9060 § 205; Ord. NS-718 § 2, 2004)

**§ 21.04.035. Apartment house.**

"Apartment house" means a building or a portion of a building, designed for occupancy by three or more families living independently of each other, and containing three or more dwelling units.

(Ord. 9060 § 206)

**§ 21.04.036. Aquaculture.**

"Aquaculture" means that form of agriculture devoted to the propagation, cultivation, maintenance, and harvesting of aquatic plants and animals in marine, brackish, and fresh water. "Aquaculture" does not include species of ornamental marine or freshwater plants and animals not utilized for human consumption or bait purposes that are maintained in closed systems for personal, pet industry, or hobby purposes. This definition specifically excludes hydroponics.

(Ord. 9809 § 1, 1986)

**§ 21.04.040. Automobile wrecking.**

"Automobile wrecking" means the commercial or noncommercial dismantling or wrecking of used motor vehicles or trailers or the storage, sale or dumping of dismantled or wrecked vehicles or their parts.

(Ord. 9060 § 207)

**§ 21.04.041. Bar or cocktail lounge.**

"Bar or cocktail lounge" means any establishment serving an alcoholic beverage, not meeting the requirements of a bona fide public eating establishment as defined in Section 21.04.056.

(Ord. 9527 § 2, 1979)

**§ 21.04.045. Basement.**

"Basement" means that portion of a building between floor and ceiling which is completely or partially below the existing grade or finished grade, whichever is lower, but so located that the vertical distance from exterior grade to the adjacent interior floor below is greater than the vertical distance from exterior grade to the adjacent interior ceiling above. This definition must apply to a minimum of seventy-five percent of

the perimeter of the basement for that portion of a building to qualify as a basement.  
(Ord. 9060 § 208; Ord. NS-180 § 1, 1991; Ord. NS-204 § 1, 1992; Ord. NS-532 § 1, 2000; Ord. CS-045 § II, 2009)

**§ 21.04.046. Bed and breakfast uses.**

"Bed and breakfast uses" means an historical or architecturally significant building which is located in a scenic or other environment with a distinct character which has no less than three and no more than eight attractively decorated lodging rooms, and one common room is available for social interaction where short-term lodging and primarily breakfast meals are provided for compensation. "Bed and breakfast uses" does not include rest homes, convalescent homes, hotels, motels, boarding houses or lodging houses.  
(Ord. 9800 § 1, 1986; Ord. NS-81 § 1, 1989)

**§ 21.04.048. Biological habitat preserve.**

"Biological habitat preserve" means any area which is designated and accepted by a federal, state or local agency as a permanent or temporary sanctuary, reserve or protected area for biological species of any kind.  
(Ord. NS-322 § 1, 1995)

**§ 21.04.050. Block.**

"Block" means all property fronting upon one side of a street between intersecting and intercepting streets, or between a street and a railroad right-of-way, waterway, terminus or dead-end street, or city boundary. An intercepting street shall determine only the boundary of the block on the side of the street which it intercepts.  
(Ord. 9060 § 209)

**§ 21.04.055. Boardinghouse.**

"Boardinghouse" means a building with more than four guest rooms where lodging and meals are provided for compensation but does not include rest homes or convalescent homes.  
(Ord. 9060 § 210)

**§ 21.04.056. Bona fide public eating establishment.**

"Bona fide public eating establishment" means any establishment at which the primary business is the preparation, service and retail sale of meals comprising a varied selection of foods and nonalcoholic beverages prepared, served and consumed on the premises.

To be classified as a bona fide public eating establishment, an establishment which engages in the sale of beer, wine or distilled spirits for consumption on the premises shall meet the following requirements:

- (1) Be designed and operated in such a way that the sale of alcoholic beverages is incidental to the primary restaurant operation;
- (2) On any day the restaurant is open to the public for business and engaged in the incidental sale of alcoholic beverages, restaurant services shall be available to the public for the evening meal for a period of not less than five hours, or for not less than four hours, if the morning or noon meal is also served to the public for a period of not less than two hours;
- (3) Restaurant service shall include, but not be limited to, an offering of a varied menu of foods or not less than five main courses with appropriate nonalcoholic beverages, desserts, salads and other

attendant dishes;

- (4) The sale of any food prepared for consumption off the premises shall be occasional only and clearly incidental and subordinate to the on-premises restaurant operation;
- (5) No more than twenty-five percent of the interior area of the restaurant shall be designed, arranged or devoted to a use commonly associated with a bar or other establishment primarily engaged in the on-premises sale of alcoholic beverages. The interior area shall include only those portions of the establishment devoted to regular use by the public;
- (6) A minimum of twenty percent of the gross floor area of the establishment shall be used solely for food storage, preparation, maintenance and storage of eating utensils, dishes and glassware and shall include refrigeration, cooking, warming and dishwashing equipment, and any other equipment necessary for a fully equipped restaurant kitchen;
- (7) During the above specified minimum hours for restaurant services, there shall be not less than one employee per two hundred and fifty square feet of floor area devoted to food service use. Said employee or employees shall be on the job during the specified minimum hours for the restaurant service as described in subsection (2) of this section.

The City Council may waive the above requirements relating to hours, menus, alcoholic beverage area, kitchen area, employees and equipment if they find a proposed restaurant will provide equivalencies, meets the other requirements of this section and will, in fact, be operated as a bona fide restaurant.

Uses not specifically named in this section but which are of substantially the same general type and character and are within the intent and purpose of this section may be permitted; provided, however, that the burden of proving the same shall rest with the person seeking to establish that use.

(Ord. 9527 § 2, 1979)

#### **§ 21.04.057. Bowling alley.**

"Bowling alley" means any structure in which a ball or balls are rolled on a green or down an alley or lane at any object or group of objects.

(Ord. 9527 § 2, 1979)

#### **§ 21.04.060. Building.**

"Building" means any structure having a roof, including all forms of inhabitable vehicles even though immobilized. Where this title requires, or where special authority granted pursuant to this title requires that a use shall be entirely enclosed within a building, this definition shall be qualified by adding "and enclosed on all sides."

(Ord. 9060 § 211)

#### **§ 21.04.061. Building coverage.**

"Building coverage" means the total ground area of a site occupied by any building or structure as measured from the outside of its surrounding external walls or supporting members. Building coverage includes exterior structures such as stairs, arcades, bridges, permanent structural elements protruding from buildings such as overhanging balconies, oriel windows, stories which overhang a ground level story, garages and covered carports. Building coverage also includes the perimeter area of a basement. Excluded from building coverage are roof eaves extending less than thirty inches from the face of any building,

awnings, open parking areas, structures under thirty inches in height and masonry walls not greater than six feet in height such as wing-walls, planter walls or grade-separation retaining walls.

(Ord. NS-180 § 2, 1991)

#### **§ 21.04.065. Building height.**

"Building height" is limited to the vertical distance measured from "existing grade" (defined: Section 21.04.160) or "finished grade" (defined: Section 21.04.161), whichever is lower, at all points along the "building coverage" (defined: 21.04.061) up to a warped plane located at a height, above all points along the "building coverage," that is equal to the height limit of the underlying zone. All portions of the building shall be located at or below the building height limit, except as provided below.

1. "Building height" includes:
  - a. All portions of a building exposed above the existing grade or finished grade, whichever is lower. This includes, but is not limited to, all portions of exterior walls of a basement, underground parking or other subterranean areas that are exposed above existing grade or finished grade, whichever is lower, and the exposed exterior portion of a basement located on the downhill or uphill side of a building on a sloping lot, but does not include the exposed portion of an "underground parking" structure entrance (defined: Section 21.04.370) that is minimally necessary to provide vehicle access to the "underground parking" structure and which is below the existing or finished grade, whichever is lower, of the area that is immediately adjacent to the "underground parking" structure.
  - b. Per Section 21.46.020 of this title, protrusions above the building height limit may be allowed.
2. If a discretionary permit for a development or alteration of an existing development is approved, and such approval includes a grading plan that shows a finished grade higher in elevation than the existing grade, then building height may be measured from the approved finished grade. In approving a finished grade through a discretionary permit that is higher in elevation than the existing grade, consideration shall be given to the natural topography of the site, compatibility with the existing grade of adjacent and surrounding properties, and the need to comply with required access, utility and drainage standards.
3. When nondiscretionary permits allow retaining walls, fill or other grading, which create a finished grade higher in elevation than the grade that existed prior to the retaining wall, fill, or grading, then building height shall be measured from existing grade.

(Ord. 9060 § 212; Ord. 9141 § 1; Ord. 9498 § 1, 1978; Ord. 9667, 1983; Ord. NS-180 § 3, 1991; Ord. NS-204 § 2, 1992; Ord. NS-675 § 1, 2003; Ord. CS-045 § III, 2009)

#### **§ 21.04.070. Building, main.**

"Main building" means the principal building on a lot or building site designed or used to accommodate the primary use to which the premises are devoted; where a permissible use involves more than one structure designed or used for the primary purpose, as in the case of group houses, each such permissible building on one lot as defined by this title is construed as comprising a main building.

(Ord. 9060 § 213)

#### **§ 21.04.075. Building site.**

"Building site" means:

- (1) The ground area of one lot; or
  - (2) The ground area of two or more lots when used in combination for a building or group of buildings, together with all open spaces as required by this title.
- (Ord. 9060 § 214)

**§ 21.04.080. Business or commerce.**

"Business" or "commerce" means the purchase, sale or other transaction involving the handling or disposition of any article, service, substance or commodity for livelihood or profit; or the management of office building, offices, recreational or amusement enterprises; or the maintenance and use of offices, structures and premises by professions and trades rendering services.

(Ord. 9060 § 215)

**§ 21.04.085. Cellar.**

"Cellar" means that portion of a building between floor and ceiling which is wholly or partly below grade and so located that the vertical distance between the ceiling and the average adjoining ground level is equal to or greater than the vertical distance from grade to ceiling.

(Ord. 9060 § 216)

**§ 21.04.086. Child day care center.**

"Child day care center" means a facility, other than a family day care home which provides nonmedical care, protection and supervision for children under eighteen years of age for periods of less than twenty-four hours per day. "Child day care center" includes preschools, nursery schools, employer-sponsored day care facilities and before-and after-school recreational programs, but does not include public or private elementary schools.

(Ord. 9731 § 1, 1984; Ord. NS-409 § 1, 1997)

**§ 21.04.090. Club.**

"Club" means an association of persons for some common nonprofit purpose but not including groups organized primarily to render a service which is customarily carried on as a business.

(Ord. 9060 § 217)

**§ 21.04.091. Coin-operated arcade.**

"Coin-operated arcade" means any place wherein coin-operated or slug-operated or electronically, electrically or mechanically controlled machines, shooting galleries, or any other amusement devices, are maintained for use by five or fewer persons per machine at any one time.

(Ord. 9527 § 2, 1979)

**§ 21.04.093. Commercial living unit.**

"Commercial living unit" means a unit that may be within but is not limited to a professional care facility, hotel, motel, time-share or bed and breakfast that provides the basic amenities for everyday living and may include but is not limited to a sleeping area or bedroom(s), closet space, restroom, sitting/entertainment area and kitchen facilities. Commercial living units are distinguished from dwelling units due to the assistance/services provided in conjunction with the living unit and/or the use of the living unit for temporary lodging.

(Ord. NS-284 § 1, 1994)

**§ 21.04.095. Commission.**

"Commission" means the Planning Commission of the city.

(Ord. 9060 § 218)

**§ 21.04.098. Common wall.**

"Common wall" is used for the purpose of distinguishing between an otherwise accessory building or structure and a main dwelling unit building or structure within residential zones. A "common wall" divides, yet is shared by, two adjacent enclosed building areas. A common wall may or may not provide a door or accessway to accommodate passage between the two building areas separated by a common wall. Accessory structures do not involve an attachment to the main building by a common wall.

(Ord. NS-355 § 2, 1996)

**§ 21.04.099. Community and Economic Development Director.**

"Community and Economic Development Director" means the Director of Community and Economic Development of the city or his or her designee.

(Ord. NS-675 § 2, 2003; Ord. CS-164 § 14, 2011)

**§ 21.04.100. Court.**

"Court" means any portion of the interior of a lot or building site which is wholly or partially surrounded by buildings, and which is not a required front, side or rear yard.

(Ord. 9060 § 219)

**§ 21.04.105. Dairy.**

"Dairy" means any premises where three or more cows, three or more goats, or any combination thereof are kept, milked or maintained.

(Ord. 9060 § 220)

**§ 21.04.106. Delicatessen.**

"Delicatessen" means a type of restaurant, totaling less than one thousand six hundred square feet in total floor area, selling ready-to-eat food and canned or bottled beverages to the public. Food is pre-cooked or prepared at another location and only heated or toasted on the site. No stoves or ovens for the cooking or preparation of food nor tableware or dishwashing facilities (other than a standard sink) are permitted. No waiters or waitresses are employed on the premises.

(Ord. NS-791 § 3, 2006)

**§ 21.04.107. Development (in the coastal zone).**

"Development (within the coastal zone)" means, on land, in or under water, the placement or erection of any solid material or structure; discharge or disposal of any dredged material or of any gaseous, liquid, solid or thermal waste; grading, removing, dredging, mining or extraction of any materials; change in the density or intensity of use of land, including, but not limited to, subdivision pursuant to the Subdivision Map Act (commencing with Section 66410 of the Government Code), and any other division of land, including lot splits, except where the land division is brought about in connection with the purchase of

such land by a public agency for public recreational use; change in the intensity of use of water, or of access thereto; construction, reconstruction, demolition or alteration of the size of any structure, including any facility of any private, public or municipal utility; and the removal or harvesting of major vegetation other than for agricultural purposes, kelp harvesting, and timber operations which are in accordance with a timber harvesting plan submitted pursuant to the provisions of the Z'berg-Nejedly Forest Practice Act of 1973 (commencing with Section 4511).

As used in this section, "structure" includes, but is not limited to, any building, road, pipe, flume, conduit, siphon, aqueduct, telephone line, and electrical power transmission and distribution line.  
(Ord. NS-365 § 1, 1996)

#### **§ 21.04.109. Drive-thru restaurant.**

"Drive-thru restaurant" means a restaurant that has a drive-thru lane to serve customers in motor vehicles.  
(Ord. NS-439 § 1, 1998)

#### **§ 21.04.110. Dump.**

"Dump" means an area devoted to the disposal of refuse including incineration, reduction, or dumping of ashes, garbage, combustible or noncombustible refuse, offal or dead animals.  
(Ord. 9060 § 221)

#### **§ 21.04.115. Dwelling.**

"Dwelling" means a building or portion thereof designed exclusively for residential purposes, including one-family, two-family and multiple-family dwellings, but does not include commercial living units.  
(Ord. 9060 § 222; Ord. NS-284 § 2, 1994; Ord. NS-718 § 3, 2004)

#### **§ 21.04.120. Dwelling unit.**

"Dwelling unit" means a single unit providing a complete, independent living facility for one or more persons including permanent provisions for living, sleeping, eating, cooking and sanitation, and having only one kitchen. For the purposes of this section, provisions for sanitation include a toilet, sink and shower or bathtub.  
(Ord. 9060 § 223; Ord. CS-243 § 1, 2014)

#### **§ 21.04.121. Dwelling unit, accessory (ADU).**

Refer to California Government Code Section 65852.2 (effective Jan. 1, 2022).  
(Ord. CS 324 § 3, 2017; Ord. CS-384 § 8, 2020; Ord. CS-427 § 3, 2022)

#### **§ 21.04.122. Dwelling unit, junior accessory (JADU).**

Refer to California Government Code Section 65852.22 (effective Jan. 1, 2020).  
(Ord. CS-384 § 9, 2020; Ord. CS-427 § 4, 2022)

#### **§ 21.04.125. Dwelling, one-family.**

"One-family dwelling" means a detached building designed exclusively for occupancy by one family and containing one dwelling unit.  
(Ord. 9060 § 224)

**§ 21.04.130. Dwelling, two-family.**

"Two-family dwelling" means a building designed exclusively for occupancy by two families living independently of each other and containing two dwelling units.

(Ord. 9060 § 225)

**§ 21.04.135. Dwelling, multiple-family.**

"Multiple-family dwelling" means a building, or portion thereof, designed for occupancy by three or more families living independently of each other, and containing three or more dwelling units.

(Ord. 9060 § 226; Ord. NS-718 §§ 1, 4, 2004)

**§ 21.04.137. Educational facilities, other.**

"Educational facilities, other" means educational training and tutoring services not subject to the California Education Code nor standards set by the State Board of Education, including, but not limited to, trade, cosmetology, pet grooming, music, dance, martial arts, gymnastics and language.

(Ord. NS-791 § 4, 2006)

**§ 21.04.140. Educational institution or school.**

"Educational institution or school" means an institution of learning for minors, whether public or private, which offers instruction in those courses of study required by the California Education Code or which is maintained pursuant to standards set by the State Board of Education. This definition includes a nursery school, kindergarten, elementary school, junior high school, senior high school or any special institution of higher education, including a community or junior college, college or university.

(Ord. 9060 § 227; Ord. NS-409 § 1, 1997)

**§ 21.04.140.1. Expansion.**

"Expansion" means to enlarge or increase the size of an existing structure or use including the physical size of the property, building, parking and other improvements.

(Ord. CS-050 § II, 2009)

**§ 21.04.140.5. Emergency shelter.**

"Emergency shelter" means year-round housing with minimal supportive services for homeless persons or families with occupancy limited to six months or less by homeless persons.

(Ord. CS-190 §§ I, II, 2012)

**§ 21.04.141. Escort service.**

"Escort service" means any place where patrons can purchase the social company or companionship of another person to be given either on or off the premises, excluding any use regulated by Chapter 21.43 of this code.

(Ord. 9527 § 2, 1979)

**§ 21.04.142. Factory-built housing.**

"Factory-built housing" means a residential building, dwelling unit, or an individual dwelling room or combination of rooms thereof, or building component, assembly or system manufactured in such a manner

that all concealed parts or processes of manufacture cannot be inspected before installation at the building site without disassembly, damage or destruction of the part, including units designed for use as part of an institution for resident or patient care, which is either wholly manufactured or is in substantial part manufactured at an off-site location to be wholly or partially assembled on-site in accordance with building standards published in the State Building Standards Code and other regulations adopted by the Commission pursuant to StateHealth and Safety Code Section 19990. "Factory-built housing" does not include a mobile home, mobile accessory building or structure, a recreational vehicle, or a commercial coach. "Factory-built housing" means the same as modular housing.

(Ord. 9564 § 1, 1980)

#### **§ 21.04.145. Family.**

"Family" means one or more persons living together in a dwelling unit, with common access to, and common use of all living, kitchen, and eating areas within the dwelling unit. Residents and operators of a residential care facility serving six or fewer persons shall be considered a family for purposes of any zoning regulation relating to residential use of such facilities.

(Ord. 9060 § 228; Ord. 9455 § 1, 1976; Ord. 9513 § 7, 1978; Ord. 9592 § 1, 1981; Ord. CS-102 § II, 2010)

#### **§ 21.04.146. Family day care home.**

"Family day care home" means a detached single-family dwelling which regularly provides nonmedical care, protection, and supervision of fourteen or fewer children, in the provider's own home, for periods of less than twenty-four hours per day, while the parents or guardians are away. The actual number of children permitted in a family day care home is based on age composition as determined by the State of California, Department of Social Services. Family day care homes include large or small family day care homes.

(Ord. 9731 § 1, 1984; Ord. NS-409 § 1, 1997)

#### **§ 21.04.147. Family day care home, large.**

"Large family day care home" means a detached, single-family dwelling which provides family day care for seven to fourteen children, inclusive, including children under the age of ten years who reside at the home as defined by Section 1596.78 of the California Health and Safety Code and permitted by the licensing agency.

(Ord. 9731 § 1, 1984; Ord. NS-409 § 1, 1997)

#### **§ 21.04.148. Family day care home, small.**

"Small family day care home" means a detached, single-family dwelling which provides family day care for eight or fewer children, including children under the age of ten years who reside at the home as defined in Section 1596.78 of the California Health and Safety Code and permitted by the licensing agency.

(Ord. NS-409 § 1, 1997)

#### **§ 21.04.148.1. Farmworker.**

"Farmworker" means any individual engaged in agriculture (as defined in Section 21.04.023).

(Ord. CS-189 § III, 2012)

#### **§ 21.04.148.3. Farmworker housing complex, large.**

"Farmworker housing complex, large" includes conventional and nonconventional structures, housing

more than thirty-six farmworkers or more than twelve units/spaces, such as: group living quarters (including barracks and bunkhouses); a dwelling, boardinghouse, or tent; a mobile home, manufactured home, recreational vehicle, or travel trailer; or other housing accommodations, and which is occupied by farmworkers or farm-workers and their households, and may be for temporary, seasonal, or permanent residence.

(Ord. CS-189 § IV, 2012)

**§ 21.04.148.4. Farmworker housing complex, small.**

"Farmworker housing complex, small" includes conventional and nonconventional structures, housing up to thirty-six farmworkers or twelve units/spaces, such as: group living quarters (including barracks and bunk-houses); a dwelling, boardinghouse, or tent; a mobile home, manufactured home, recreational vehicle, or travel trailer; or other housing accommodations, and which is occupied by farmworkers or farmworkers and their households, and may be for temporary, seasonal, or permanent residence.

(Ord. CS-189 § V, 2012)

**§ 21.04.149. Employer-sponsored child day care center.**

"Employer-sponsored child day care center" means any child day care center at the employer's site of business and operated directly or through a provider contract by any person or entity having one or more employees, and available exclusively for the care of that employer, and of the officers, managers, and employees of the employer.

(Ord. NS-409 § 1, 1997)

**§ 21.04.150. Garage, private.**

"Private garage" means an accessory building or an accessory portion of the main building, enclosed on all sides and designed or used only for the shelter or storage of vehicles owned or operated by the occupants of the main building.

(Ord. 9060 § 229)

**§ 21.04.155. Garage, public.**

"Public garage" means a building other than a private garage used for the care, repair or equipping of automobiles, or where such vehicles are kept for remuneration, hire or sale.

(Ord. 9060 § 230)

**§ 21.04.156. Gas station.**

"Gas station" means a retail business used primarily for the sale of vehicular fuels; minor servicing and repair of automobiles; and the sale and installation of lubricants, tires, batteries and similar vehicle accessories. A gas station may include a mini-mart convenience store as an accessory use.

(Ord. NS-791 § 5, 2006)

**§ 21.04.160. Grade, existing.**

"Existing grade," for the purposes of measuring building height, means the ground elevation prior to any grading or other site preparation related to, or to be incorporated into, a proposed development or alteration of an existing development.

(Ord. 9060 § 231; Ord. NS-180 § 4, 1991; Ord. CS-045 § IV, 2009)

**§ 21.04.161. Grade, finished.**

"Finished grade," for the purposes of measuring building height, means the final ground elevation after the completion of any grading or other site preparation related to, or to be incorporated into, a proposed development or alteration of an existing development.

(Ord. CS-045 § V, 2009)

**§ 21.04.165. Guest house or accessory living quarters.**

"Guest house" or "accessory living quarters" means living quarters within an accessory building for the sole use of persons employed on the premises, or for temporary use by guests of the occupants of the premises. Such quarters shall have no kitchen facilities and shall not be rented or otherwise used as a separate dwelling unit.

(Ord. 9060 § 232)

**§ 21.04.166. Hazardous waste.**

"Hazardous waste" shall be defined by Chapter 6.5 of Division 20 of the Health and Safety Code.

(Ord. NS-208 § 1, 1992)

**§ 21.04.167. Hazardous waste facility.**

"Hazardous waste facility" shall be defined by Chapter 6.5 of Division 20 of the Health and Safety Code.

(Ord. NS-208 § 1, 1992)

**§ 21.04.170. Hospital.**

"Hospital" means an institution specializing in giving clinical, temporary and emergency services of a medical or surgical nature to human patients and injured persons, and licensed by state law to provide facilities and services in surgery, obstetrics and general medical practice excluding however, facilities for treatment of mental and nervous disorders, but not excluding surgical and post-surgical treatment of mental cases.

(Ord. 9060 § 233)

**§ 21.04.175. Hospital, mental.**

"Mental hospital" means an institution licensed by state agencies under provisions of law to offer facilities, care and treatment for cases of mental and nervous disorders but not licensed to provide facilities and services in surgery, obstetrics and general medical practice. Establishments limiting services to juveniles below the age of five years, and establishments housing and caring for cases of cerebral palsy are specifically excluded from this definition.

(Ord. 9060 § 234)

**§ 21.04.185. Hotel.**

"Hotel" means a building in which there are five or more guest rooms where lodging with or without meals is provided for compensation, and where no provision is made for cooking in any individual room or suite, but shall not include jails, hospitals, asylums, sanitariums, orphanages, prisons, detention homes and similar buildings where human beings are housed and detained under legal restraint.

(Ord. 9060 § 236)

**§ 21.04.186. Household—Low-income.**

"Low-income household" means those households whose gross income is at least fifty percent but less than eighty percent of the median income for San Diego County as determined annually by the U.S. Department of Housing and Urban Development.

(Ord. 207 § 2, 1992)

**§ 21.04.187. Household—Moderate-income.**

"Moderate-income household" means those households whose gross income is at least eighty percent but less than one hundred twenty percent of the median income for San Diego County as determined annually by the U.S. Department of Housing and Urban Development.

(Ord. 207 § 3, 1992)

**§ 21.04.188. Household—Very low-income.**

"Very low-income household" means a household earning a gross income equal to fifty percent or less of the median income for San Diego County as determined annually by the U.S. Department of Housing and Urban Development.

(Ord. 207 § 4, 1992)

**§ 21.04.189. Income level—Target.**

"Target income level" means the income standards for very low, low and moderate income levels within San Diego County as determined annually by the U.S. Department of Housing and Urban Development and adjusted for family size.

(Ord. 207 § 5, 1992)

**§ 21.04.190. Institution.**

"Institution" means an establishment maintained and operated by a society, corporation, individual, foundation or public agency for the purpose of providing charitable, social, education or similar service to the public, groups or individuals.

(Ord. 9060 § 237)

**§ 21.04.195. Kennel.**

"Kennel" means a place where four or more adult dogs or cats, in any combination, are kept, whether by owners of the dogs and cats or by persons providing facilities and care, whether or not for compensation. An adult dog or cat is an animal of either sex, altered or unaltered, that has reached the age of four months. (Ord. 9060 § 238; Ord. 9502 § 2, 1978)

**§ 21.04.200. Kitchen.**

"Kitchen" means any room or portion of a room used or intended or designed to be used for the preparation and storage of food and containing one or both of the following:

1. Cooking appliances or rough-in facilities for cooking appliances including, but not limited to: stoves or stovetops, built-in grills, ovens (gas or electric); microwave ovens or similar appliances. Rough-in facilities may include, but not necessarily be limited to: built-in counter tops and cabinetry, gas lines or electrical wiring.

2. A refrigerator or rough-in space for a refrigerator.  
(Ord. 9060 § 239; Ord. CS-243 § 2, 2014)

**§ 21.04.202. Level.**

An occupied or useable horizontal and vertical space of a structure.  
(Ord. NS-180 § 5, 1991)

**§ 21.04.203. Liquor store.**

"Liquor store" means any store designed and operated for the selling of alcoholic beverages with the selling of any other merchandise being incidental to the primary operation of selling liquor.  
(Ord. 9527 § 2, 1979; Ord. 9807 § 1, 1986)

**§ 21.04.205. Lodginghouse.**

"Lodginghouse" means the same as boardinghouse, but no meals shall be provided.  
(Ord. 9060 § 240)

**§ 21.04.210. Lot.**

"Lot" means a parcel of record legally created by subdivision map, adjustment plat, certificate of compliance or a parcel legally in existence prior to incorporation of the lot into the jurisdiction of the city. Any parcel created prior to May 1, 1956, shall be presumed to be lawfully created if the parcel resulted from a division of land in which fewer than five parcels were created. A lot shall have frontage that allows usable access on a dedicated public street accepted by the city. This street or easement shall have a minimum right-of-way width of forty-two feet. Special lot and street configurations for affordable housing projects may be allowed subject to the provisions of Section 21.53.120.  
(Ord. 9060 § 241; Ord. 9459 § 1, 1976; Ord. 9605 § 1, 1981; Ord. 207 § 7, 1992; Ord. NS-602 § 1, 2001)

**§ 21.04.215. Lot area.**

"Lot area" means the total horizontal area within the boundary lines of a lot.  
(Ord. 9060 § 242)

**§ 21.04.220. Lot, corner.**

"Corner lot" means a lot situated at the intersection of two or more streets, which streets have an angle of intersection of not more than one hundred thirty-five degrees.  
(Ord. 9060 § 243)

**§ 21.04.222. Lot coverage.**

See "building coverage."  
(Ord. NS-180 § 6, 1991)

**§ 21.04.225. Lot depth.**

"Lot depth" means the horizontal length of a straight line drawn from the midpoint of the front lot line and at right angles to such line, connecting with a line intersecting the midpoint of the rear lot line and parallel to the front lot line. In the case of a lot having a curved front line the front lot line, for purposes of this

section, shall be deemed to be a line tangent to the curve and parallel to a straight line connecting the points of intersection of the side lot lines of the lot with the front lot line.

(Ord. 9060 § 244)

**§ 21.04.230. Lot, interior.**

"Interior lot" means a lot other than a corner lot or reversed corner lot.

(Ord. 9060 § 245)

**§ 21.04.235. Lot, key.**

"Key lot" means the first lot to the rear of the reversed corner lot and whether or not separated by an alley.

(Ord. 9060 § 246)

**§ 21.04.240. Lot line, front.**

"Front lot line" means in the case of an interior lot, a line separating the lot from the street. In the case of a corner lot the front lot line shall be the line separating the narrowest street frontage of the lot from the street.

(Ord. 9060 § 247)

**§ 21.04.245. Lot line, rear.**

"Rear lot line" means a lot line which is opposite and most distant from the front lot line. For the purpose of establishing the rear lot line of a triangular or trapezoidal lot, or of a lot the rear line of which is formed by two or more lines, the following shall apply:

- (1) For a triangular or gore-shaped lot, a line ten feet in length within the lot and farthest removed from the front lot line and at right angles to the line comprising the depth of such lot shall be used as the rear lot line;
- (2) In the case of a trapezoidal lot the rear line of which is not parallel to the front lot line, the rear lot line shall be deemed to be a line at right angles to the line comprising the depth of such lot and drawn through a point bisecting the recorded rear lot line; or
- (3) In the case of a pentagonal lot the rear boundary of which includes an angle formed by two lines, such angle shall be employed for determining the rear lot line in the same manner as prescribed for a triangular lot.

In no case shall the application of the provisions of this section be interpreted as permitting a main building to locate closer than five feet in any property line.

(Ord. 9060 § 248)

**§ 21.04.250. Lot line, side.**

"Side lot line" means any lot boundary line not a front lot line or a rear lot line.

(Ord. 9060 § 249)

**§ 21.04.255. Lot, reversed corner.**

"Reversed corner lot" means a corner lot, the side street line of which is substantially a continuation of the front lot line of the lot upon which the rear of the corner lot abuts.

(Ord. 9060 § 250)

**§ 21.04.256. Lot—Planned unit development (PUD).**

"PUD lot" means a designated portion of or division of land, air space or combination thereof within the boundaries of a planned unit development which does not meet the definition of a lot. A PUD lot may be approved by the City Council as part of a planned unit development permit. A PUD lot, if so approved, need not have frontage on a public street or otherwise comply with the requirements of the underlying zone or Title 20.

(Ord. 9459 § 1, 1976)

**§ 21.04.260. Lot, through.**

"Through lot" means a lot having frontage on two parallel or approximately parallel streets.

(Ord. 9060 § 251)

**§ 21.04.263. Lot width.**

"Lot width" means the horizontal distance of the line constituting the required front yard setback, as required in certain zone classifications. For those zone classifications without required front yards, the lot width is the horizontal distance between the side lot lines measured at right angles to a line comprising the depth of the lot at a point midway between the front and rear lot lines. All lots located on the inside of a curve of a public street whose rear property line is at least twenty feet less in length than the front property line shall have their lot width calculated, for the purpose of computing required side yard setbacks, using the average width of the lot.

(Ord. 9060 § 252; Ord. 9467 § 1, 1976; Ord. 9506 § 1, 1978; Ord. NS-746 § 1, 2005)

**§ 21.04.265. Mobile building.**

"Mobile building" means a structure constructed on a permanent chassis, transportable in one or more sections, designed and equipped for human occupancy for industrial, professional, commercial, educational, or temporary housing (e.g., farmworker or transitional housing) purposes to be used primarily with a temporary foundation system. A "mobile building" requires vehicle registration from the state Department of Transportation pursuant to the state Vehicle Code and requires registration and title from the state Department of Housing and Community Development pursuant to the state Health and Safety Code. "Mobile building" does not include a recreational trailer, mobile homes, manufactured home, or prefabricated home but may include a commercial coach or trailer coach.

(Ord. NS-746 § 2, 2005)

**§ 21.04.266. Mobile home.**

"Mobile home" means a structure transportable in one or more sections, designed and equipped to contain not more than one dwelling unit to be used with or without a foundation system. "Mobile home" does not include a recreational vehicle, trailer coach, commercial coach, auto trailer or factory-built housing.

(Ord. 9564 § 1, 1980)

**§ 21.04.267. Mobile home accessory structure.**

"Mobile home accessory structure" means any awning, portable, demountable or permanent cabana, ramada, storage cabinet, carport, fence, windbreak or porch established for the use of the occupant of the mobile home.

(Ord. 9564 § 1, 1980)

**§ 21.04.268. Mobile home lot.**

"Mobile home lot" means a portion of a mobile home park designated or used for the occupancy of one mobile home.

(Ord. 9564 § 1, 1980)

**§ 21.04.269. Mobile home park.**

"Mobile home park" means an area or tract of land where two or more mobile home lots are rented, leased or sold, or held out for rental, lease or sale, or owned in common as part of a condominium, to accommodate mobile homes for human habitation. "Mobile home park" does not include mobile home sales or display lots, or areas containing mobile homes used exclusively to provide temporary housing for farm employees for which a temporary occupancy permit has been issued by the Department of Public Health.

(Ord. 9564 § 1, 1980)

**§ 21.04.270. Modular building.**

"Modular building" means a structure not constructed on a permanent chassis, transportable in one or more sections on a separate trailer, designed for human occupancy for industrial, professional, or commercial purposes to be placed upon a permanent foundation. A "modular building" is constructed in prefabricated sections and its construction and assembly is subject to the California Building, Electrical, Mechanical, and Plumbing Codes. "Modular building" does not include mobile offices, mobile homes, manufactured home, prefabricated home, commercial coach, or trailer coach. For the purposes of permitted uses in each zone, "modular building" is considered the same as any standard building.

(Ord. NS-746 § 3, 2005)

**§ 21.04.273. Motel.**

"Motel" means a group of attached or detached buildings containing individual sleeping or living units where a majority of such units open individually and directly to the outside, and where a garage is attached or a parking space is conveniently located to each unit, all for the temporary use by automobile tourists or transients, and such word shall include motor lodges. An establishment shall be considered a motel when it is required by the Health and Safety Code of the State of California to obtain the name and address of the guests, the make, year and license number of the vehicle and the state in which it was issued.

(Ord. 9060 § 253; Ord. 9135 § 1; Ord. NS-746 § 4, 2005)

**§ 21.04.275. Nonconforming structure.**

"Nonconforming structure" means a structure, or portion thereof, which was lawfully erected or altered and maintained, but which, because of the application of this title to it, no longer conforms to the current requirements and development standards of the zone in which it is located.

(Ord. CS-050 § II, 2009)

**§ 21.04.278. Nonconforming lot.**

"Nonconforming lot" means a lot which was legally created, but which, because of the application of this title to it, no longer conforms to the current requirements and development standards of the zone in which it is located.

(Ord. CS-050 § II, 2009)

**§ 21.04.280. Nonconforming nonresidential use.**

"Nonconforming nonresidential use" means a nonresidential use which was lawfully established and maintained, but which, because of the application of this title to it, no longer conforms to the current use regulations of the zone in which it is located.

(Ord. 9060 § 255; Ord. CS-050 § II, 2009)

**§ 21.04.281. Nonconforming residential use.**

"Nonconforming residential use" means a residential use which was lawfully established and maintained, but which exceeds the growth management control point or the maximum density range of the underlying general plan land use designation.

(Ord. CS-050 § II, 2009)

**§ 21.04.285. Outdoor advertising display.**

"Outdoor advertising display" means any card, paper, cloth, metal, glass, wooden, plastic or other display or device of any kind or character whatsoever placed for outdoor advertising purposes on the ground or on any tree, wall, rock, structure or thing whatsoever.

(Ord. 9060 § 256)

**§ 21.04.290. Outdoor advertising structure.**

"Outdoor advertising structure" means a structure of any kind or character erected or maintained for outdoor advertising purposes, upon which any outdoor advertising display may be placed.

(Ord. 9060 § 257)

**§ 21.04.290.1. Outdoor dining (incidental).**

"Outdoor dining (incidental)" means an outdoor dining area that is part of any business that serves food and/or beverages for onsite consumption, such as but not limited to restaurants, bona fide eating establishments and delicatessens, and which does not exceed the limitations established in Chapter 21.26.

(Ord. CS-102 § IV, 2010; Ord. CS-178 § I, 2012)

**§ 21.04.291. Pawnshop.**

"Pawnshop" means any place engaged in the business of loaning money to any person, upon any personal property, personal security, or purchasing personal property and reselling such articles to the vendor or other assignee at prices previously agreed upon.

(Ord. 9527 § 2, 1979)

**§ 21.04.292. Planner, city.**

"City planner" means the City Planner of the city or his or her designee. In addition, the term "Director" as used throughout this title shall also mean the City Planner unless the context clearly requires otherwise.

(Ord. NS-675 § 6, 2003; Ord. CS-164 § 10, 2011)

**§ 21.04.293. Poolhall or billiard parlor.**

"Poolhall" or "billiard parlor" means any place of business where billiards or pool is played, and a fee is charged to those playing for the use of the equipment. The billiard room shall not be connected with any other business, nor shall any other business be permitted to be carried on, except that the billiard room may have therein ordinary merchandise vending machines and no more than four coin-operated games of skill, including pinball machines. A bar or cocktail lounge, having two or less pool or billiard tables, shall not be considered to be a poolhall or billiard parlor.

(Ord. 9527 § 2, 1979)

**§ 21.04.295. Professional care facility.**

"Professional care facility" means a facility in which food, shelter, and some form of professional service is provided such as nursing, medical, dietary, exercising or other medically recommended programs. Not included in this definition are hospitals and mental hospitals.

(Ord. 9060 § 258; Ord. 9455 § 1, 1976)

**§ 21.04.297. Public and quasi-public office buildings and accessory utility buildings and facilities.**

"Public and quasi-public office buildings and accessory utility buildings and facilities" means and includes, but are not limited to, government office buildings and accessory utility buildings and facilities such as: water wells, water storage, pump stations, booster stations, transmission or distribution electrical substations, operating centers, gas metering and regulating stations, or neighboring telephone exchanges, with the necessary apparatus or appurtenances incident thereto. Such uses do not include water, sewer or drainage pipelines or utility buildings/facilities that are built, operated or maintained by a public utility to the extent that they are regulated by the California Public Utilities Commission.

(Ord. NS-791 § 6, 2006)

**§ 21.04.298. Recreational vehicle (RV).**

"Recreational vehicle" means any vehicle (self-propelled or drawn by another vehicle), including campers, motor homes, travel trailers, boats and other vehicles, whose major intended use is for recreational purposes.

(Ord. 9537 § 2, 1979)

**§ 21.04.299. Recreational vehicle (RV) storage.**

"Recreational vehicle storage" means any area or tract of land used substantially for the purpose of storing two or more recreational vehicles.

(Ord. 9537 § 2, 1979)

**§ 21.04.299.1. Repair.**

"Repair" means any improvements to correct deficiencies in a building or structure.

(Ord. CS-050 § II, 2009)

**§ 21.04.299.2. Replace.**

"Replace" means to construct a structure that is substantially equivalent in size, shape and location to a structure that has been destroyed or demolished.

(Ord. CS-050 § II, 2009)

**§ 21.04.300. Residential care facility.**

"Residential care facility" means any family home, group care facility, or similar facility, licensed by the State of California, for twenty-four hour nonmedical care of persons in need of personal services, supervision or assistance essential for sustaining the activities of daily living or for the protection of the individual as provided in Section 1502 of the California Health and Safety Code.

(Ord. 9060 § 259; Ord. 9455 § 1, 1976; Ord. CS-191 § II, 2012)

**§ 21.04.301. Secondhand or thrift shop.**

"Secondhand shop" or "thrift shop" means a place of business that engages in buying and selling, trading or accepting for sale on consignment previously sold property, excluding bona fide antique shops. "Secondhand property" means personal property of which prior use has been made. A bona fide antique shop is one in which substantially all the merchandise is antique. "Antique" means any collectible, object of art, bric-a-brac, curio, household furniture or furnishing offered for sale upon the basis, expressed or implied, that the value of the property, in whole or in substantial part, is derived from its age or from historical associations.

(Ord. 9527 § 2, 1979)

**§ 21.04.302. Satellite television antenna.**

"Satellite television antenna" or "satellite antenna" means any instrument or device capable of transmitting or receiving television, microwave, or other electronic communications from a transmitter, or a transmitter relay, located in planetary orbit. This may include, but is not limited to, "satellite earth stations," "satellite receiving dish," and "dish antenna."

(Ord. 9785 § 1, 1986)

**§ 21.04.305. Sign.**

"Sign" means any outdoor advertising display or outdoor advertising structure or any indoor advertising display or indoor advertising structure designed and placed so as to be readable principally from the outside.

(Ord. 9060 § 260)

**§ 21.04.306. Space or structure, habitable.**

"Habitable space or structure" means any space in a structure for living, sleeping, eating or cooking.

(Ord. NS-243 § 1, 1993)

**§ 21.04.307. Specified hazardous waste facility.**

"Specified hazardous waste facility" shall be defined by Chapter 6.5 of Division 20 of the Health and Safety Code.

(Ord. NS-208 § 1, 1992)

**§ 21.04.310. Stable, private.**

"Private stable" means a detached accessory building in which horses owned by the occupants of the premises are kept, and in which no horses are kept for hire or sale.

(Ord. 9060 § 261)

**§ 21.04.315. Stable, public.**

"Public stable" means a stable other than a private stable.  
(Ord. 9060 § 262)

**§ 21.04.320. Stand.**

"Stand" means a structure for the display and sale of products with no space for customers within the structure itself.  
(Ord. 9060 § 263)

**§ 21.04.325. State freeway.**

"State freeway" means any section of a state highway which has been declared to be a freeway by resolution of the California Highway Commission pursuant to the Streets and Highways Code.  
(Ord. 9060 § 264)

**§ 21.04.330. Story.**

"Story" means that portion of a building included between the surface of any floor and the surface of the floor next above it. If there is no floor above it, then the space between such floor and the ceiling next above it shall be considered a story. Underground parking, a basement or a cellar shall not be considered a story. Lofts or mezzanines shall not be considered a story provided that they do not exceed fifty percent of the floor area of the story they are located within.  
(Ord. 9060 § 265; Ord. NS-180 § 7, 1991)

**§ 21.04.335. Street.**

"Street" means a publicly dedicated and accepted thoroughfare which affords primary means of access to abutting property and having a minimum right-of-way width of not less than forty-two feet.  
(Ord. 9060 § 266; Ord. NS-602 § 2, 2001)

**§ 21.04.340. Street line.**

"Street line" means the boundary line between a street and the abutting property.  
(Ord. 9060 § 267)

**§ 21.04.345. Street, side.**

"Side street" means a street which is adjacent to a corner lot and which extends in the general direction of the line determining the depth of the lot.  
(Ord. 9060 § 268)

**§ 21.04.350. Structural alterations.**

"Structural alterations" mean any changes in the supporting members of a building such as foundations, bearing walls, columns, beams, floor or roof joists, girders or rafters, or changes in roof or exterior lines.  
(Ord. 9060 § 270)

**§ 21.04.354. Structure.**

"Structure" means anything constructed or erected which requires location on the ground or attached to

something having a location on the ground, but not including fences or walls used as fences six feet or less in height. All buildings are structures.

(Ord. CS-050 § II, 2009)

#### **§ 21.04.355. Substandard lot.**

See "Nonconforming lot."

(Ord. 9060 § 269; Ord. CS-050 § II, 2009)

#### **§ 21.04.355.1. Supportive housing.**

"Supportive housing" means housing with no limit on length of stay that is occupied by the target population (as defined in Government Code Section 65582) and that is linked to onsite or offsite services that assist the supportive housing resident in retaining the housing, improving his or her health status, and maximizing his or her ability to live and, when possible, work in the community. Supportive housing is a residential use and is subject to only those restrictions that apply to other residential uses of the same type in the same zone.

(Ord. CS-191 § III, 2012; Ord. CS-249 § I, 2014)

#### **§ 21.04.356. Tattoo parlor.**

"Tattoo parlor" means any place of business that engages in tattooing persons by any method of placing designs, letters, scrolls, figures, symbols or any other marks upon or under the skin with ink or colors, by the aid of needles or instruments.

(Ord. 9527 § 2, 1979)

#### **§ 21.04.357. Time-share project.**

"Time-share project" means a project in which a purchaser receives a right in perpetuity, for life, or for a term of years to the recurrent exclusive use or occupancy of a lot, parcel, unit or segment of real property annually or on some other periodic basis, for a period of time that has been, or will be, allotted from the use or occupancy periods onto which the project has been divided.

(Ord. 9663 § 1, 1983)

#### **§ 21.04.360. To place.**

The verb "to place" and any of its variants as applied to advertising displays and outdoor advertising structures, includes maintaining, erecting, constructing, posting, painting, printing, nailing, glueing or otherwise fastening, affixing or making visible in any manner whatsoever.

(Ord. 9060 § 271)

#### **§ 21.04.362. Transitional housing.**

"Transitional housing" means rental housing operated under program requirements that call for the termination of assistance and recirculation of the assisted unit to another eligible program recipient at some predetermined future point in time, which shall be no less than six months. Transitional housing is a residential use and is subject to only those restrictions that apply to other residential uses of the same type in the same zone.

(Ord. CS-191 § IV, 2012; Ord. CS-249 § II, 2014)

**§ 21.04.370. Underground parking.**

"Underground parking" means parking areas that are located completely or partially underground where the finished floor of the parking area is below grade to the point where the parking area qualifies as a basement as defined in Section 21.04.045.

(Ord. NS-180 § 8, 1991; Ord. NS-204 § 3, 1992; Ord. CS-045 § VI, 2009)

**§ 21.04.375. Use.**

"Use" means the purpose for which land or building is arranged, designed or intended, or for which either is or may be occupied or maintained.

(Ord. 9060 § 274)

**§ 21.04.376. Useable living area.**

"Useable living area" means the area of a building intended for habitation and/or use by the building's occupants.

(Ord. NS-180 § 9, 1991; Ord. NS-204 § 4, 1992)

**§ 21.04.378. Veterinarian and small-animal hospital.**

"Veterinarian and small-animal hospital" means a place of business operated by a qualified veterinarian for the treatment of small domestic animals, where boarding, training and grooming of animals are only incidental to such treatment.

(Ord. 9502 § 3, 1978)

**§ 21.04.378.1. Wet bar.**

"Wet bar" means an area within a dwelling unit, notwithstanding a kitchen as defined in Section 21.04.200, designed for the purpose of preparing beverages and containing a small counter top and sink with running water. For the purposes of this section, a wet bar does not contain:

1. Gas lines or electrical wiring exceeding one hundred and ten volts that could power cooking appliances including, but not limited to: stoves or stovetops, built-in grills, ovens (gas or electric); microwave ovens or similar appliances.
2. A refrigerator exceeding six cubic feet in capacity or rough-in space for a refrigerator exceeding six cubic feet in capacity, (the typical dimensions of which are:
  - a. Depth of twenty-five inches;
  - b. Height of thirty-five inches; and
  - c. Width of twenty-five inches).
3. A sink or rough-in space for a sink with a waste line drain exceeding one and a half inches in diameter, a depth of eighteen inches or an overall size of two square feet.
4. Cabinetry or counter space exceeding eight lineal feet.

(Ord. CS-243 § 3, 2014)

**§ 21.04.379. Wireless communication facility.**

"Wireless communication facility" means any component, including antennas and all related equipment, buildings and improvements for the provision of personal wireless services defined by the Federal Telecommunications Act of 1996 and as subsequently amended. Personal wireless services include but are not limited to, cellular, personal communication services (PCS), enhanced specialized mobile radio (ESMR), paging, ground-based repeaters for satellite radio services, micro-cell antennae and similar systems which exhibit technological characteristics similar to them.

(Ord. NS-675 § 7, 2003; Ord. NS-791 § 31, 2006)

**§ 21.04.380. Yard.**

"Yard" means an open space other than a court on a lot, unoccupied and unobstructed from the ground upward, except as otherwise provided in this title.

(Ord. 9060 § 275)

**§ 21.04.385. Yard, front.**

"Front yard" means an area extending across the full width of the lot and lying between the front lot line and a line parallel thereto, and having a distance between them equal to the required front yard depth as prescribed in each zone. Front yards shall be measured by a line at right angles to the front lot line, or by the radial line in the case of a curved front lot line. When a lot lies partially within a planned street indicated on a precise plan for such a street, and where such planned street is of the type that will afford legal access to such lot, the depth of the front yard shall be measured from the contiguous edge of such planned street in the manner prescribed in this definition.

(Ord. 9060 § 276)

**§ 21.04.390. Yard, rear line of required front.**

"Rear line of the required front yard" means a line parallel to the front lot line and at a distance therefrom equal to the depth of the required front yard and extending across the full width of the lot.

(Ord. 9060 § 277)

**§ 21.04.395. Yard, side.**

"Side yard" means a yard between the main building and the side lot lines extending from the rear line of the required front yard, or the front lot line where no front yard is required, to the rear line of the main building, or the rear line of the rearmost building if there is more than one, the width of which side yard shall be measured horizontally from, and at right angles to, the nearest point of a side lot line towards the nearest part of a main building.

(Ord. 9060 § 278)

**§ 21.04.400. Zoo, private.**

"Private zoo" means any lot, building, structure, enclosure or premises whereupon or wherein are kept by any person, other than a municipal corporation, the United States, the State of California, or any political subdivision thereof, two or more wild animals, whether such keeping is for pleasure, profit, breeding or exhibiting, and including places where two or more wild animals are boarded, kept for sale or kept for hire.

(Ord. 9501 § 1, 1978)

**CHAPTER 21.05  
ZONE ESTABLISHMENT—BOUNDARIES**

**§ 21.05.010. Names of zones.**

In order to classify, regulate, restrict and segregate the uses of land and buildings, to regulate and restrict the height and bulk of buildings, to regulate the area of yards and other open spaces about buildings, and to regulate the density of population, 36 classes of zones and overlay zones are established by this chapter to be known as follows:

C-1—Neighborhood Commercial Zone

C-2—General Commercial Zone

C-F—Community Facilities Zone

C-L—Local Shopping Center Zone

C-M—Heavy Commercial-Limited Industrial Zone

CR-A/OS—Cannon Road-Agricultural/Open Space Zone

C-T—Commercial Tourist Zone

E-A—Exclusive Agricultural Zone

L-C—Limited Control Zone

M—Industrial Zone

O—Office Zone

O-S—Open Space Zone

P-C—Planned Community Zone

P-M—Planned Industrial Zone

P-U—Public Utility Zone

R-1—One-Family Residential Zone

R-2—Two-Family Residential Zone

R-3—Multiple-Family Residential Zone

R-A—Residential Agricultural Zone

R-E—Residential Estate Zone

R-P—Residential-Professional Zone

R-T—Residential Tourist Zone

R-W—Residential Waterway Zone

RD-M—Residential Density-Multiple Zone

RMHP—Residential Mobile Home Park

T-C—Transportation Corridor Zone

V-B—Village-Barrio Zone

BAO—Beach Area Overlay Zone

Coastal Agriculture Overlay Zone

Coastal Resource Protection Overlay Zone

Coastal Shoreline Development Overlay Zone

Coastal Resource Overlay Zone Mello I LCP Segment

C/V-SO—Commercial/Visitor-Serving Overlay Zone

F-P—Floodplain Overlay Zone

H-O—Hospital Overlay Zone

Q—Qualified Development Overlay Zone

S-P—Scenic Preservation Overlay Zone

(Ord. 9060 § 300; Ord. 9151 § 2; Ord. 9204 § 1, 1967; Ord. 9337 § 3, 1973; Ord. 9383 § 1, 1974; Ord. 9384 § 1, 1974; Ord. 9385 § 1, 1974; Ord. 9368 § 1, 1974; Ord. 9425 §§ 1, 2, 1975; Ord. 9450 § 2, 1976; Ord. 9498 § 2, 1978; Ord. 9671 § 1, 1983; Ord. NS-675 § 8, 2003; Ord. NS-765 § 5, 2005; Ord. CS-099 § I, 2010; Ord. CS-317 § 4, 2017; Ord. CS-334 § 3, 2018)

### **§ 21.05.020. Degree of restrictiveness.**

"More restrictive uses," as employed in this title, means the following:

- (1) Those uses first permitted in the R-1 zone are the most restrictive.
- (2) All other uses are less restrictive in the order they are first permitted in the respective zones. All other zones are less restrictive in the order established by this subsection. Residential zones are more restrictive than commercial zones and commercial zones more restrictive than industrial zones.
  - (a) The degree of restrictiveness for residential zones shall be in a sequence from most restrictive to least restrictive as follows:
    - R-1, R-E, R-A, equally restrictive except as provided in subsection (3);
    - R-2, RMHP, equally restrictive;
    - R-3, RD-M, equally restrictive;
    - R-T, RW, equally restrictive;
    - R-P, least restrictive.
  - (b) The degree of restrictiveness for commercial zones shall be in a sequence from most restrictive to least restrictive as follows: C-1, C-2, C-T, C-M.

- (c) The degree of restrictiveness for industrial zones shall be in a sequence from most restrictive to least restrictive as follows: P-M, M.
- (3) Uses permitted in the R-A zone, the O-S zone, the E-A zone and the R-E zone shall be considered to be as restrictive as those permitted in the R-1 zone, except that those uses pertaining to animals shall be considered as "more restrictive uses" for purposes of this section.
- (4) The V-B, P-U and P-C zones have special conditions for their application and shall be considered as more restrictive than other zones.
- (Ord. 9060 § 301; Ord. 9151 § 3; Ord. 9384 § 1, 1974; Ord. 9385 § 1, 1974; Ord. 9425 § 2, 1975; Ord. 9450 § 3, 1976; Ord. 9498 § 3, 1978; Ord. 9671 §§ 2, 3, 1983; Ord. NS-675 § 9, 2003; Ord. CS-334 § 4, 2018)

#### **§ 21.05.030. Establishment of zones by map.**

The location and boundaries of the various zones are such as are shown and delineated on the zoning map of the city, which map is on file in the office of the City Clerk and made a part of this title.

(Ord. 9060 § 302; Ord. 9425 § 2, 1975; Ord. NS-481 § 1, 1999; Ord. NS-502 § 1, 1999; Ord. NS-519 § 1, 1999; Ord. NS-533 § 1, 2000; Ord. NS-576 § 1, 2001; Ord. NS-577 § 1, 2001; Ord. NS-580 § 1, 2001; Ord. NS-598 § 1, 2001; Ord. NS-610 § 1, 2001; Ord. NS-611 § 1, 2001; Ord. NS-617 § 1, 2002; Ord. NS-618 § 1, 2002; Ord. NS-619 § 1, 2002; Ord. NS-620 § 1, 2002; Ord. NS-629 § 1, 2002; Ord. 651 § 1, 2002; Ord. NS-654 § 1, 2003; Ord. NS-657 § 1, 2003; Ord. NS-673 § 1, 2003; Ord. NS-679 § 1, 2003; Ord. NS-692 § 1, 2004; Ord. NS-693 § 1, 2004; Ord. NS-697 § 1, 2004; Ord. NS-705 § 1, 2004; Ord. NS-715 § 1, 2004; Ord. NS-719 § 1, 2004; Ord. NS-723 § 1, 2004; Ord. NS-729 § 1, 2004; Ord. NS-730 § 1, 2004; Ord. NS-734 § 1, 2004; Ord. NS-735 § 1, 2004; Ord. NS-737 § 1, 2005; Ord. NS-740 § 1, 2005; Ord. NS-743 § 1, 2005; Ord. NS-748 § 1, 2005; Ord. NS-774 § 1, 2005; Ord. NS-780 § 1, 2005; Ord. NS-788 § 1, 2006; Ord. NS-803 § 1, 2006; Ord. NS-808 § 1, 2006; Ord. NS-809 § 1, 2006; Ord. NS-817 § 1, 2006; Ord. NS-823 § 1, 2006; Ord. NS-828 § 1, 2007; Ord. NS-837 § 1, 2007; Ord. NS-840 § 1, 2007; Ord. NS-847 § 1, 2007; Ord. NS-852 § 1, 2007; Ord. CS-011 § 1, 2008; Ord. CS-016 § 1, 2008; Ord. CS-030 § I, 2009; Ord. CS-056 § 1, 2009; Ord. CS-064 § I, 2009; Ord. CS-075 § I, 2010; Ord. CS-091 § I, 2010; Ord. CS-099 § VIII, 2010; Ord. CS-106 § I, 2010; Ord. CS-113 § 1, 2010; Ord. CS-117 § I, 2011; Ord. CS-163 § 1, 2011; Ord. CS-169 § I, 2012; Ord. CS-173 § I, 2012; Ord. CS-205 § 1, 2013; Ord. CS-206 § 1, 2013; Ord. CS-208 § 1, 2013; Ord. CS-228 § 1, 2013; Ord. CS-260 § I, 2014; Ord. CS-282 § I, 2015; Ord. CS-284 § 1, 2015; Ord. CS-300 § 1, 2016; Ord. CS-302 § 1, 2016; Ord. CS-292 § 1, 2016; Ord. CS-316 § 2, 2017; Ord. CS-317 § 5, 2017; Ord. CS-344 § 1, 2018; Ord. CS-334 § 5, 2018; Ord. CS-358 § 2, 2019; Ord. CS-415 § 2, 2022)

#### **§ 21.05.040. Division of zoning map.**

The zoning map may, for convenience, be divided into parts, and each such part may, for purposes of more readily identifying areas within such zoning map, be subdivided into units, and such parts and units may be separately employed for purposes of amending the zoning map or for any official reference to the zoning map.

(Ord. 9060 § 303; Ord. 9425 § 2, 1975)

#### **§ 21.05.050. Changes in boundaries.**

Changes in the boundaries of the zones shall be made by ordinance adopting an amended zoning map, or part of the map, or unit of a part of the zoning map, which amended maps, or parts or units of parts, when so adopted, shall be published in the manner prescribed by law and become a part of this title.

(Ord. 9060 § 304; Ord. 9425 § 2, 1975)

**§ 21.05.060. Uncertainty of boundaries.**

Where uncertainty exists as to the boundaries of any zone shown upon a zoning map or any part or unit thereof, the following rules shall apply:

- (1) Where such boundaries are indicated as approximately following street and alley lines or lot lines, such lines shall be construed to be such boundaries.
- (2) In the case of unsubdivided property, and where a zone boundary divides a lot, the location of such boundaries, unless the same is indicated by dimensions, shall be determined by use of the scale appearing on the zoning map.
- (3) Where a public street or alley is officially vacated or abandoned, the area comprising such vacated street or alley shall acquire the classification of the property to which it reverts.
- (4) Areas of dedicated streets or alleys and railroad rights-of-way, other than such as are designated on the zoning map as being classified in one of the zones provided in this title, shall be deemed to be unclassified and, in the case of streets, permitted to be used only for purposes lawfully allowed and, in the case of railroad rights-of-way, permitted to be used solely for the purpose of accommodating tracks, signals, other operative devices and the movement of rolling stock.

(Ord. 9060 § 305; Ord. 9425 § 2, 1975)

**§ 21.05.070. Classification of annexed lands and unclassified property.**

Any unprezoned property which is annexed to the city and any property within the city limits which is unzoned is automatically zoned L-C. Unincorporated territory or property adjacent to the city may be prezoned for the purpose of determining a zone which will apply to such property in the event of subsequent annexation to the city. The method of accomplishing such prezoning shall be the same as that for changing zones on property within the city. Such zoning shall become effective at such time as the annexation becomes effective.

(Ord. 9060 § 306; Ord. 9183 § 1; Ord. 9337 § 2, 1973; Ord. 9425 § 2, 1975)

**§ 21.05.080. Limitation of land use.**

Except as provided in this title, no building shall be erected, reconstructed or structurally altered, nor shall any building or land be used for any purpose except as hereinafter specifically provided and allowed in the same zone in which such building and land is located. Cardrooms (Ch. 5.12), retail sales of dogs and cats (Ch. 7.16), camping on public property (Ch. 8.36), mini-satellite wagering (Ch. 8.80) and cannabis activities (Ch. 8.90) prohibited elsewhere in this code are also prohibited as land uses under this title.

(Ord. 9060 § 307; Ord. 9425 § 2, 1975; Ord. CS-325 § 2, 2017; Ord. CS-339 § 2, 2018)

**§ 21.05.090. Area zoning symbols.**

Where a number follows the zoning symbol on the zoning map, it shall represent the minimum lot area required in lieu of the minimum area established in each zone as herein defined. If the number is a thousand or larger, it refers to square feet. If the number is a hundred or less, it refers to acres. If no number follows the zoning symbol, the area prescribed in the chapter governing such zone shall apply.

(Ord. 9060 § 308; Ord. 9337 § 4, 1973; Ord. 9425 § 2, 1975)

**§ 21.05.095. Combination zoning.**

As provided by the Carlsbad General Plan, some areas of the city are suitable for more than one land

use classification; and often, multiple land use designations are assigned to areas in the early planning stages when it is unclear what the most appropriate designation may be or where the boundaries of such designations should be located. These areas are referred to in the general plan as "combination districts." It is the intent of this section to implement the general plan provisions for "combination districts," as follows:

- (1) Two or more zones (combination zoning) may be permitted on property with two or more general plan land use designations (combination district), as a means of implementing the combination district.
- (2) The designation of combination zoning requires additional comprehensive planning. Prior to the approval of any permits for development of property with combination zoning, the following must occur:
  - (a) If the combination zoning applies to property consisting of 25 acres or more, a specific plan shall be approved pursuant to Section 65450 et seq., of the Government Code. The specific plan shall establish the regulations and development standards for such property and the uses permitted thereon, consistent with the underlying general plan designations.
  - (b) If the combination zoning applies to property consisting of less than 25 acres, a site development plan shall be approved and shall establish the regulations and development standards for such property and the uses permitted thereon shall be consistent with the underlying zoning designations.

(Ord. 9652 § 1, 1982; Ord. CS-102 § V, 2010)

## CHAPTER 21.06 Q QUALIFIED DEVELOPMENT OVERLAY ZONE

### **§ 21.06.010. Intent and purpose.**

The intent and purpose of the Q qualified development overlay zone is to supplement the underlying zoning by providing additional regulations for development within designated areas to:

- (1) Require that property development criteria are used to insure compliance with the general plan and any applicable master plan or specific plan;
- (2) Provide that development will be compatible with surrounding developments, both existing and proposed;
- (3) Insure that development occurs with due regard to environmental factors;
- (4) Allow a property to be granted a particular zone where some or all of the permitted uses would be appropriate to the area only in certain cases with the addition of specific conditions;
- (5) Provide for public improvements necessitated by the development;
- (6) Promote orderly, attractive and harmonious development, and promote the general welfare by preventing the establishment of uses or erection of structures which are not properly related to or which would adversely impact their sites, surroundings, traffic circulation or environmental setting;
- (7) Provide a process for the review and approval of site development plans as called for by this chapter or other provisions of this title.

(Ord. 9425 § 3, 1975; Ord. 9739 § 1, 1984; Ord. NS-765 § 1, 2005; Ord. CS-317 § 6, 2017)

### **§ 21.06.015. Application of Q zone.**

- (a) It is intended that the Q zone be placed on properties with unique circumstances. Examples of situations that are considered unique include but are not limited to the following:
  - (1) Special treatment areas as indicated in the general plan;
  - (2) Commercial zones that are in close proximity and relationship with residentially zoned properties;
  - (3) Property proposed to be developed within a floodplain;
  - (4) Property proposed to be developed as hillside development or other physically sensitive areas;
  - (5) Property where development could be detrimental to the environment, or the health, safety and general welfare of the public.
- (b) The requirements of this chapter shall not apply to adult businesses that are located on properties in the Q zone.

(Ord. 9425 § 3, 1975; Ord. CS-063 § II, 2009)

### **§ 21.06.020. Permitted uses and findings of fact.**

- (a) Subject to the provisions of subsection (b), in the Q qualified development overlay zone, any principal use, accessory use, transitional use or conditional use permitted in the underlying zone is permitted,

subject to the same conditions and restrictions applicable in such underlying zone and to all of the requirements of this chapter.

- (b) Notwithstanding subsection (a) of this section, no development or use shall be permitted unless the decision-making authority finds:
- (1) That the proposed development or use is consistent with the general plan and any applicable master plan or specific plan, complies with all applicable provisions of this chapter, and all other applicable provisions of this code;
  - (2) That the requested development or use is properly related to the site, surroundings and environmental settings, will not be detrimental to existing development or uses or to development or uses specifically permitted in the area in which the proposed development or use is to be located, and will not adversely impact the site, surroundings or traffic circulation;
  - (3) That the site for the intended development or use is adequate in size and shape to accommodate the use;
  - (4) That all of the yards, setbacks, walls, fences, landscaping, and other features necessary to adjust the requested development or use to existing or permitted future development or use in the neighborhood will be provided and maintained;
  - (5) That the street system serving the proposed development or use is adequate to properly handle all traffic generated by the proposed use; and
  - (6) The proposed development or use meets all other specific additional findings as required by this title.

(Ord. 9425 § 3, 1975; Ord. 9739 § 2, 1984; Ord. NS-765 § 1, 2005; Ord. CS-178 § III, 2012)

#### **§ 21.06.030. Site development plan requirement.**

Unless specifically exempted from the requirements of this chapter, no building permit or other entitlement shall be issued for any development or use in the Q zone unless there is a valid minor site development plan or site development plan approved for the property.

(Ord. 9425 § 3, 1975; Ord. CS-317 § 7, 2017)

#### **§ 21.06.040. Exceptions.**

The following developments or uses are exempted from the site development plan requirements:

- (1) One single-family residential structure may be constructed or enlarged on any residentially zoned lot;
- (2) One office building of less than one thousand square feet may be constructed on any commercially or industrially zoned lot;
- (3) One enlargement of less than one thousand square feet of any existing commercial or industrial building on any commercially or industrially zoned lot.

(Ord. 9425 § 3, 1975; Ord. CS-317 § 7, 2017)

#### **§ 21.06.050. Application and fees.**

- (a) An application for a minor site development plan or site development plan may be made by the owner of the property affected or the authorized agent of the owner. The application shall:

- (1) Be made in writing on a form provided by the City Planner;
  - (2) State fully the circumstances and conditions relied upon as grounds for the application; and
  - (3) Be accompanied by adequate plans, a legal description of the property involved and all other materials as specified by the City Planner.
- (b) At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.
- (Ord. 9425 § 3, 1975; Ord. 1256 § 7, 1982; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011; Ord. CS-317 § 7, 2017)

**§ 21.06.060. Notices and hearings.**

- A. Notice of an application for a minor site development plan shall be given pursuant to the provisions of Sections 21.54.060.B and 21.54.061 of this title.
  - B. Notice of an application for a site development plan shall be given pursuant to the provisions of Sections 21.54.060.A and 21.54.061 of this title.
- (Ord. 9425 § 3, 1975; Ord. 9568 § 2, 1980; Ord. 1261 § 36, 1983; Ord. NS-675 § 81, 2003; Ord. CS-164 § 11, 2011; Ord. CS-178 § IV, 2012)

**§ 21.06.070. Decision-making authority.**

- A. Applications for minor site development plans or site development plans shall be acted upon in accordance with the following:
    1. Minor Site Development Plan.
      - a. An application for a minor site development plan may be approved, conditionally approved or denied by the City Planner based upon his/her review of the facts as set forth in the application, the circumstances of the particular case, and evidence presented at the administrative hearing, if one is conducted pursuant to the provisions of Section 21.54.060.B.2 of this title.
      - b. The City Planner may approve or conditionally approve the minor site development plan if all of the findings of fact in Section 21.06.020 of this title are found to exist.
    2. Site Development Plan.
      - a. An application for a site development plan may be approved, conditionally approved or denied by the Planning Commission based upon its review of the facts as set forth in the application, the circumstances of the particular case, and evidence presented at the public hearing.
      - b. The Planning Commission shall hear the matter, and may approve or conditionally approve the site development plan if all of the findings of fact in Section 21.06.020 of this title are found to exist.
- (Ord. 9425 § 3, 1975; Ord. 1256 § 7, 1982; Ord. 9739 § 3, 1984; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011; Ord. CS-178 § IV, 2012)

**§ 21.06.080. Announcement of decision and findings of fact.**

When a decision on a minor site development plan or site development plan is made pursuant to this chapter, the decision-making authority shall announce its decision in writing in accordance with the provisions of Section 21.54.120 of this title.

(Ord. 9425 § 3, 1975; Ord. CS-178 § IV, 2012)

**§ 21.06.090. Effective date and appeals.**

- A. Decisions on minor site development plans shall become effective unless appealed in accordance with the provisions of Section 21.54.140 of this title.
- B. Decisions on site development plans shall become effective unless appealed in accordance with the provisions of Section 21.54.150 of this title.

(Ord. 9425 § 3, 1975; Ord. 207 § 8, 1992; Ord. NS-402 § 6, 1997; Ord. NS-765 § 1, 2005; Ord. CS-178 § IV, 2012)

**§ 21.06.100. Expiration, extensions and amendments.**

- A. The expiration period for an approved minor site development plan or site development plan shall be as specified in Section 21.58.030 of this title.
- B. The expiration period for an approved minor site development plan or site development plan may be extended pursuant to the provisions of Section 21.58.040 of this title.
- C. An approved minor site development plan or site development plan may be amended pursuant to the provisions of Section 21.54.125 of this title.

(Ord. 9425 § 3, 1975; Ord. CS-178 § IV, 2012)

**§ 21.06.110. Development standards.**

Property in the Q zone shall be subject to the development standards required in the underlying zone and any applicable master plan or specific plan, except for affordable housing projects as expressly modified by the site development plan. The site development plan for affordable housing projects may allow less restrictive development standards than specified in the underlying zone or elsewhere, provided that the project is in conformity with the general plan and adopted policies and goals of the city, it would have no detrimental effect on public health, safety and welfare, and, in the coastal zone, any project processed pursuant to this chapter shall be consistent with all certified local coastal program provisions, with the exception of density. In addition, the City Planner in approving a minor site development plan, or the Planning Commission or the City Council in approving a site development plan may impose special conditions or requirements which are more restrictive than the development standards in the underlying zone or elsewhere that include provisions for, but are not limited to, the following:

1. Special setbacks, yards, active or passive open space, required as part of the entitlement process;
2. Special height and bulk of building regulations;
3. Fences and walls;
4. Regulation of signs;
5. Additional landscaping;

6. Special grading restrictions;
7. Requiring street dedication and improvements (or posting of bonds);
8. Requiring public improvements either on or off the subject site that are needed to service the proposed development;
9. Time period within which the project or any phases of the project shall be completed;
10. Regulation of point of ingress and egress;
11. Architecture, color, texture, materials and adornments;
12. Such other conditions as deemed necessary to insure conformity with the general plan and other adopted policies, goals or objectives of the city.

(Ord. 9425 § 3, 1975; Ord. CS-178 § IV, 2012)

#### **§ 21.06.120. Lot requirements.**

The Q zone may be placed on any size or dimensioned, legally created lot.

(Ord. 9425 § 3, 1975; Ord. CS-178 § IV, 2012)

#### **§ 21.06.130. Final site development plan.**

- A. After approval the applicant shall submit a reproducible copy of the minor site development plan or site development plan which incorporates all requirements of the approval to the City Planner. Prior to signing the final minor site development plan or site development plan, the City Planner shall determine that all applicable requirements have been incorporated into the plan.
- B. The final signed minor site development plan or site development plan shall be the official site layout plan for the property and shall be attached to any application for a grading and/or a building permit on the subject property.

(Ord. 9425 § 3, 1975; Ord. NS-352 § 1, 1996; Ord. NS-506 § 1, 1999; Ord. NS-675 § 11, 2003; Ord. CS-178 § IV, 2012)

**CHAPTER 21.07  
E-A EXCLUSIVE AGRICULTURAL ZONE**

**§ 21.07.010. Intent and purpose.**

The intent and purpose of the E-A zone district is to:

- (1) Provide for those uses, such as agriculture, which are customarily conducted in areas which are not yet appropriate or suited for urban development;
- (2) Protect and encourage agricultural uses wherever feasible;
- (3) Implement the goals and objectives of the general plan;
- (4) Recognize that agricultural activities are a necessary part of the ongoing character of Carlsbad;
- (5) Help assure the continuation of a healthy, agricultural economy in appropriate areas of Carlsbad.  
(Ord. NS-9384 § 2, 1974)

**§ 21.07.020. Permitted uses.**

- A. In an E-A zone, notwithstanding any other provision of this title, only the uses listed in Table A below, shall be permitted subject to the requirements and development standards specified in this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A, may be permitted if the City Planner determines such similar use falls within the intent and purposes of this zone, and is substantially similar to the specified permitted uses.
- D. A use category may be general in nature, where more than one particular use fits into the general category (ex. in some commercial zones "office" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in another zone, the use shall not be permitted in this exclusive agricultural zone (even under a general use category) unless it is specifically listed in Table A of this chapter as permitted or conditionally permitted.

**Table A  
Permitted Uses**

In the table below, subject to all applicable permitting and development requirements of the municipal code:

"P" indicates use is permitted. (See note 6 below)

"CUP" indicates use is permitted with approval of a conditional use permit. (See note 6 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Accessory uses and structures (see note 4)			X
Airports	3		
Animals and poultry—small (less than 25) (see note 1)	X		
Animals and poultry—small (more than 25) (see note 1)	1		
Apiary/bee keeping (subject to Section 21.42.140(B)(5))	1		
Aquaculture (defined: Section 21.04.036)	2		
Aviary	1		
Biological habitat preserve (subject to Section 21.42.140(B)(30); defined: Section 21.04.048)	2		
Campsites (overnight) (subject to Section 21.42.140(B)(40))	2		
Cattle, sheep, goats and swine production (see note 2)	X		
Cemeteries	3

Wireless communication facilities (subject to Section 21.42.140(B)(165); defined: Section 21.04.379)		1 / 2	
Zoos (private) (subject to Section 21.42.140(B)(170); defined: Section 21.04.400)		2	

**Notes:**

1. Small animals and poultry. Provided that not more than twenty-five of any one or combination thereof shall be kept within seventy-five feet of any habitable structure, nor shall they be located within three hundred feet of a habitable structure on an adjoining parcel zoned for residential uses, nor shall they be located within one hundred feet of a parcel zoned for residential uses when a habitable structure is not involved. In any event, the distance from the parcel zoned for residential uses shall be the greater of the distances so indicated.
2. Cattle, sheep, goats and swine production. Provided that the number of any one or combination of said animals shall not exceed one animal per half acre of lot area. Said animals shall not be located within seventy-five feet of any habitable structure, nor shall they be located within three hundred feet of a habitable structure on an adjoining parcel zoned for residential uses, nor shall they be located within one hundred feet of a parcel zoned for residential uses when a habitable structure is not involved. In any event, the distance from the parcel zoned for residential uses shall be the greater of the distances so indicated.
3. Produce/flower stands. Provided that the floor area shall not exceed two hundred square feet and is located not nearer than twenty feet to any street or highway.
4. Accessory uses/structures. Include but are not limited to: private garages, children's playhouses, radio and television receiving antennas, windmills, silos, tank houses, shops, barns, offices, coops, lath houses, stables, pens, corrals, and other similar accessory uses and structures required for the conduct of the permitted uses.
5. Mobile home. Certified under the National Mobile Home Construction and Safety Standards Act of 1974 (42 U.S.C. Section 5401 et seq.) on a foundation system pursuant to Section 18551 of the State Health and Safety Code.
6. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. 9384 § 2, 1974; Ord. 9427 § 1, 1975; Ord. 9674 § 2, 1983; Ord. 9785 § 2, 1986; Ord. 9804 § 6, 1986; Ord. NS-409 § 2, 1997; Ord. NS-791 § 8, 2006; Ord. CS-102 §§ VI, VII, 2010; Ord. CS-164 § 10, 2011; Ord. CS-189 § VI, 2012; Ord. CS-224 §§ I, II, 2013)

**§ 21.07.050. Lot area, minimum.**

The minimum required area of a lot in the E-A zone district shall conform to the area expressed in acres of not less than the number following the zoning symbol on the official zoning map, except that in no event shall a lot be created into less than ten acres in area.

Example: E-A-15 shall mean fifteen-acre minimum lot required.  
(Ord. 9384 § 2, 1974)

**§ 21.07.060. Lot width, minimum.**

Every lot hereafter created in the E-A zone shall maintain a minimum width at the rear line of the required front yard of not less than three hundred feet.  
(Ord. 9384 § 2, 1974)

**§ 21.07.070. Front yard.**

No building or structure, except as otherwise provided by this chapter, shall be erected or placed less than

forty feet from the front lot line.

(Ord. 9384 § 2, 1974)

#### **§ 21.07.080. Side yards.**

Every lot and building site shall have a side yard on each side of the lot or building site, and each side yard, except as otherwise provided by this chapter, shall be not less than fifteen feet in width.

(Ord. 9384 § 2, 1974)

#### **§ 21.07.090. Rear yard.**

Every lot and building site, except as otherwise provided by this chapter, shall have a rear yard not less than twenty-five feet in depth.

(Ord. 9384 § 2, 1974)

#### **§ 21.07.100. Building height.**

No building in the E-A zone used for dwelling purposes, wherever located, and no building or structure used for other than dwelling purposes and located less than one hundred feet from any property line, shall exceed thirty feet and two stories if a minimum roof pitch of three to twelve (3:12) is provided or twenty-four feet and two stories if less than a 3:12 roof pitch is provided. A building or structure used for other than dwelling purposes and located one hundred feet or more from any property line may exceed the maximum allowable height pursuant to conditional use permit. Single-family residences on lots with a lot area of twenty thousand square feet or greater shall not exceed thirty-five feet and three stories with a minimum roof pitch of 3:12 provided.

(Ord. 9384 § 2, 1974; Ord. NS-180 § 10, 1991; Ord. NS-204 § 5, 1992)

#### **§ 21.07.110. Lot coverage.**

Lot coverage with buildings and structures shall not exceed forty percent of the lot. Buildings and structures used for growing or raising plants are not counted as coverage.

(Ord. 9384 § 2, 1974; Ord. 9427 § 3, 1975)

#### **§ 21.07.120. Development standards.**

No one-family dwelling unit, whether it be conventionally built, modular or a mobile home, shall be located on a lot in this zone unless such dwelling unit complies with the following development standards:

- (1) Garage(s), which are provided to meet the parking requirements for dwellings pursuant to Section 21.44.020 of this title, shall be architecturally integrated with and have an exterior similar to the dwelling unit.
- (2) All dwelling units shall have a permanent foundation. For mobile homes a foundation system installed pursuant to Section 18551 of the State Health and Safety Code shall satisfy the requirements of this section.
- (3) Exterior siding material shall be stucco, masonry, wood or brick unless an alternative exterior material is approved by the City Planner. The City Planner may approve a siding material other than those listed in this section only if he or she finds that use of such material is in harmony with other dwelling units in the neighborhood.
- (4) All roofs shall have a pitch of at least three inches in twenty inches unless another pitch is approved

by the City Planner. No roof shall be made of corrugated, extruded or stamped metal.

(5) All dwelling units shall have a minimum width of twenty feet.

(Ord. 9599 § 2, 1981; Ord. 1261 § 37, 1983; Ord. NS-675 § 76, 2003; Ord. CS-102 § VIII, 2010; Ord. CS-164 § 10, 2011)

**CHAPTER 21.08  
R-A RESIDENTIAL AGRICULTURAL ZONE**

**Note: Prior ordinance history: Ord. Nos. 9060, 9224, 9336, 9343, 9427, 9467, 9502, 9599, 9674, 9785, 9804, 1256, 1261, NS-180, NS-204, NS-243, NS-283, NS-355, NS-409, and NS-675.**

**§ 21.08.010. Intent and purpose.**

- A. Implement the residential low density (RL) and residential low-medium density (RLM) land use designations of the Carlsbad general plan; and
  - B. Provide regulations and standards for the development of one-family dwellings and other permitted or conditionally permitted uses as specified in this chapter.
- (Ord. NS-718 § 5, 2004)

**§ 21.08.020. Permitted uses.**

- A. In an R-A zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted subject to the requirements and development standards specified in this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of this zone, and is substantially similar to the specified permitted uses.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code: "P" indicates use is permitted. (See note 7 below)

"CUP" indicates use is permitted with approval of a conditional use permit. (See note 7 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Accessory buildings/structures (ex. garages, workshops, tool sheds, patio covers, decks, etc.) (see note 1, below) (defined: Section 21.04.020)			X
Accessory dwelling unit (subject to Section 21.10.030; defined: Section 21.04.121)			X
Agricultural crops	X

Transitional housing (defined: Section 21.04.362)	X		
Wireless communication facilities (subject to Section 21.42.140(B)(165); defined: Section 21.04.379)	1 / 2		
Zoos (private) (subject to Section 21.42.140(B)(170); defined: Section 21.04.400)	2		

**Notes:**

1. Private garages (defined: Section 21.04.150) shall accommodate not more than four cars; however, additional garage or implement shelters may be erected, maintained and used on sites of ten acres or more, provided that such structures shall not occupy any required yard space.
2. On sites of four acres or less, there shall not be more than two horses, or two sheep or two bovine animals per acre of ground devoted to feed such animals (excluding feed lots).
3. Poultry, rabbits and other fur-bearing animals shall be confined at all times within an enclosure.
4. The keeping of all domestic animals provided for in this section shall conform to all other provisions of law governing the same, and no fowl or animal, or any pen, coop, stable, or barn, shall be kept or maintained within forty feet of any building used for human habitation located on adjoining property, or within forty feet of any street or public property.
5. A conditional use permit is not required for a golf course if it is approved as part of a master plan for a planned community development.
6. Mobile homes must be certified under the National Mobilehome Construction and Safety Standards Act of 1974 (42 U.S.C. Section 5401 et seq.) on a foundation system pursuant to Section 18551 of the StateHealth and Safety Code.
7. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. NS-718 § 5, 2004; Ord. NS-746 § 5, 2005; Ord. NS-753 § 1, 2005; Ord. NS-791 § 9, 2006; Ord. CS-102 §§ IX—XI, 2010; Ord. CS-164 § 10, 2011; Ord. CS-189 § VII, 2012; Ord. CS-191 § V, 2012; Ord. CS-224 §§ III, IV, 2013; Ord. CS-249 § III, 2014; Ord. CS-324 § 2, 2017; Ord. CS-384 § 10, 2020)

**§ 21.08.030. Building height.**

- A. No building in the R-A zone shall exceed a height of thirty feet and two stories if a minimum roof pitch of 3:12 is provided or twenty-four feet and two stories if less than a 3:12 roof pitch is provided for lots under twenty-thousand square feet.
- B. Single-family residences on lots with a lot area of twenty thousand square feet or greater and within an R-A zone and specifying a -20 or greater area zoning symbol shall not exceed thirty-five feet and three stories with a minimum roof pitch of 3:12 provided.

(Ord. NS-718 § 5, 2004)

#### **§ 21.08.040. Front yard.**

Every lot in an R-A zone shall have a front yard which has a depth of not less than twenty feet, except that on key lots and lots which side upon commercially or industrially zone property, the required front yard need not exceed fifteen feet.

(Ord. NS-718 § 5, 2004)

#### **§ 21.08.050. Side yards.**

- A. In the R-A zone every lot shall have side yards as follows:

1. Interior lots shall have the following side yards:
    - a. A side yard shall be provided on each side of the lot which side yard has a width equal to ten percent of the lot width; provided, that such side yard shall not be less than five feet in width and need not exceed ten feet;
      - i. The width of one side yard may be reduced, subject to the following:
        - (A) The opposite side yard shall be increased in width by an amount equal to the reduction or shall be a minimum of ten feet in width, whichever is greater;
        - (B) The reduced side yard shall not be less than five feet in width nor shall it abut a lot or parcel of land with an adjacent reduced side yard;
        - (C) In the event special circumstances exist, such as extreme topographical features and/or irregular shaped lots (such as those which front on cul-de-sacs), a reduced side yard may be permitted adjacent to a reduced side yard, provided a minimum of ten feet between buildings is maintained.

2. Corner lots and reversed corner lots shall have the following side yards:

- a. On the side lot line which adjoins another lot, the side yard shall be equal to ten percent of the lot width; provided that such side yard shall not be less than five feet in width and need not exceed ten feet; and
    - b. On the side street, the width of the required side yard shall be ten feet and such side yard shall extend the full length of the lot.

(Ord. NS-718 § 5, 2004; Ord. CS-164 § 10, 2011; Ord. CS-178 § VI, 2012)

#### **§ 21.08.060. Placement of buildings.**

- A. Placement of buildings on any lot shall conform to the following, except as otherwise stated for accessory dwelling units (or junior accessory dwelling units where permitted) pursuant to Section

## 21.10.030:

## 1. Interior Lots.

- a. No building shall occupy any portion of a required yard;
- b. Any building, any portion of which is used for human habitation, shall observe a distance from any side lot line the equivalent of the required side yard on such lot and from the rear property line the equivalent of twice the required side yard on such lot;
- c. The distance between buildings used for human habitation and between buildings used for human habitation and accessory buildings shall not be less than ten feet;
- d. All accessory structures shall comply with the following development standards:
  - i. The lot coverage shall include accessory structures in the lot coverage calculations for the lot,
  - ii. The distance between buildings used for human habitation and accessory buildings shall be not less than ten feet,
  - iii. When proposed on a lot adjoining native vegetation, accessory structures within a fire suppression zone must be reviewed and approved by the fire department,
  - iv. Buildings shall not exceed one story,
  - v. Building height shall not exceed fourteen feet if a minimum roof pitch of 3:12 is provided or ten feet if less than a 3:12 roof pitch is provided;
- e. Habitable detached accessory structures shall comply with all requirements of the zone applicable to placement of a dwelling unit on a lot including setbacks;
- f. Detached accessory structures which are not dwelling units and contain no habitable space, including, but not limited to, garages, workshops, tool sheds, decks over thirty inches above grade and freestanding patio covers shall comply with the following additional development standards when located within a lot's required setback areas:
  - i. The maximum allowable building area per structure shall not exceed a building coverage of four hundred forty square feet,
  - ii. The following setbacks shall apply: a front yard setback of twenty feet, a rear yard setback of five feet, a side yard setback of five feet and an alley setback of five feet,
  - iii. The maximum plumbing drain size shall be one and one-half inches in diameter so as to prohibit toilets, showers, bathtubs and other similar fixtures,
  - iv. The additional development standards listed above (subsections (A)(1)(f)(i) through (iii) of this section) shall apply to the entire subject accessory structure, not just the portion encroaching into a lot's setback area; and
- g. The provisions of this section are applicable notwithstanding the permit requirements contained in Section 18.04.015.

## 2. Corner Lots and Reversed Corner Lots.

- a. No building shall occupy any portion of a required yard;
- b. The distance between buildings used for human habitation and between buildings used for human habitation and accessory buildings shall not be less than ten feet;
- c. Any building, any portion of which is used for human habitation, shall observe a distance from the rear property line the equivalent of twice the required interior side yard on such lot;
- d. All accessory structures shall comply with the following development standards:
  - i. The lot coverage shall include accessory structures in the lot coverage calculations for the lot,
  - ii. The distance between buildings used for human habitation and accessory buildings shall be not less than ten feet,
  - iii. When proposed on a lot adjoining native vegetation, accessory structures within a fire suppression zone must be reviewed and approved by the fire department,
  - iv. Buildings shall not exceed one story,
  - v. Building height shall not exceed fourteen feet if a minimum roof pitch of 3:12 is provided or ten feet if less than a 3:12 roof pitch is provided;
- e. Habitable detached accessory structures shall comply with all requirements of the zone applicable to placement of a dwelling unit on a lot including setbacks;
- f. Detached accessory structures which are not dwelling units and contain no habitable space, including, but not limited to, garages, workshops, tool sheds, decks over thirty inches above grade and freestanding patio covers shall comply with the following additional development standards when located within a lot's required setback areas:
  - i. The maximum allowable building area per structure shall not exceed a building coverage of four hundred forty square feet,
  - ii. The following setbacks shall apply: a front yard setback of twenty feet, a rear yard setback of five feet, a side yard setback of five feet and an alley setback of five feet,
  - iii. The maximum plumbing drain size shall be one and one-half inches in diameter so as to prohibit toilets, showers, bathtubs and other similar fixtures,
  - iv. The additional development standards listed above (subsections (A)(2)(f)(i) through (iii) of this section) shall apply to the entire subject accessory structure, not just the portion encroaching into a lot's setback area; and
- g. The provisions of this section are applicable notwithstanding the permit requirements contained in Section 18.04.015.

(Ord. NS-718 § 5, 2004; Ord. CS-324 § 5, 2017; Ord. CS-384 § 11, 2020)

#### **§ 21.08.070. Minimum lot area.**

- A. The minimum required area of a lot in the R-A zone when the zone implements the RL land use designations shall be not less than one-half acre (twenty-one thousand seven hundred eighty square

feet), unless a greater minimum lot area is specified on the zoning map (ex. R-A-2.5 = two and one-half acre minimum lot area).

- B. The minimum required area of a lot in the R-A zone, when the zone implements the RLM land use designation, shall be not less than seven thousand five hundred square feet, unless otherwise shown on the zoning map.

(Ord. NS-718 § 5, 2004)

**§ 21.08.080. Lot width.**

- A. In the R-A zone every lot shall have a minimum lot width as follows:

1. Lots required to have an area up to ten thousand square feet, sixty feet;
2. Lots required to have an area of at least ten thousand square feet and up to twenty thousand square feet, seventy-five feet;
3. Lots required to have an area of twenty thousand square feet or more, eighty feet.

- B. The official or decision-making body with the authority to otherwise approve the subdivision may approve panhandle or flag-shaped lots where the lot width and yards shall be measured in accord with this section if the following circumstances are found to exist:

1. The property cannot be served adequately with a public street without panhandle lots due to unfavorable conditions resulting from unusual topography, surrounding land development, or lot configuration; and
2. Subdivision with panhandle lots will not preclude or adversely affect the ability to provide full public street access to other properties within the same block of the subject property.

- C. In approving a panhandle lot a determination shall be made as to what portion of such lot shall be the buildable lot; for purposes of this chapter, the buildable portion shall be the entire lot exclusive of any portion of the lot less than thirty-five feet in width that is used for access to the lot. Also, a determination shall be made on which property lines of the buildable lots are the front, sides and rear for purposes of providing required yards.

- D. Any panhandle lot approved pursuant to this section shall meet the following requirements:

1. The area of the buildable portion of the lot shall be a minimum ten thousand square feet or the minimum required by the zone, whichever is greater. In zone districts permitting less than ten thousand square-foot lots, the buildable portion of the lot may be less than ten thousand square feet provided the official or decision-making body with the authority to otherwise approve the subdivision finds from evidence submitted on a site plan that all requirements of this section will be met; however, in no case shall the buildable portion of the lot be less than eight thousand square feet in area. If a site plan for a subdivision with panhandle lots, with a buildable portion of less than ten thousand square feet, is approved, development within such subdivision shall conform to the plan as approved;
2. The width requirements for the buildable portion of the lot shall be met as required for lots in the zone district;
3. The yard requirements of the zone district shall be met as required for interior lots;
4. The length of the portion of the lot fronting on a public street or publicly dedicated easement

afforded access to the buildable lot shall not be greater than one hundred fifty feet for a single lot or two hundred feet when two such lots are adjoining. The minimum width for such access portion shall be twenty feet except where the access portion is adjacent to the same portion of another such lot, in which case the required minimum frontage shall be fifteen feet, provided a joint easement, ensuring common access to both such portions, is recorded;

5. An improved driveway shall be provided within the access portion of the lot from the public street or public easement to the parking area on the buildable lot at least fourteen feet wide for single lots and twenty feet wide when serving more than one lot. The minimum overhead clearance shall be ten feet. The driveway shall be constructed to accommodate public service vehicles with a minimum of two-inch thick asphalt concrete paving on proper base with rolled edges;
6. Drainage from the lot shall be channeled down the private access to a public street or special drainage means must be provided to the satisfaction of the City Engineer;
7. Each lot shall have three nontandem parking spaces with an approach not less than twenty-four feet in length with proper turnaround space to permit complete turnaround for forward access to the street. This parking and access arrangement shall be designed to the satisfaction of the City Engineer;
8. Structures permitted in the access portion of the lot shall be limited to mailboxes, fences, trash enclosures, landscape containers and nameplates. Except for mailboxes, these structures shall not be greater than forty-two inches in height if located within twenty feet of the street property line or greater than six feet in height beyond this point;
9. The property owner of such a lot shall agree to hold the city or any other public service agency harmless from liability for any damage to the driveway when being used to perform a public service;
10. Any other condition the official or decision-making body with the authority to otherwise approve the subdivision may determine to be necessary to properly develop such property.

(Ord. NS-718 § 5, 2004; Ord. CS-178 § VII, 2012)

#### **§ 21.08.090. Lot coverage.**

Lot coverage with buildings and structures shall not exceed forty percent of the lot. Buildings and structures used for growing or raising plants are not counted as coverage.

(Ord. NS-718 § 5, 2004)

#### **§ 21.08.100. Development standards.**

- A. No one-family dwelling unit, whether it be conventionally built, modular or a mobile home, shall be located on a lot in this zone unless such dwelling unit complies with the following development standards:
  1. Garage(s), which are provided to meet the parking requirements for dwellings pursuant to Section 21.44.020 of this title, shall be architecturally integrated with and have an exterior similar to the dwelling unit.
  2. All dwelling units shall have a permanent foundation. For mobile homes a foundation system installed pursuant to Section 18551 of the StateHealth and Safety Code shall satisfy the

requirements of this section.

3. Exterior siding material shall be stucco, masonry, wood or brick unless an alternative exterior material is approved by the City Planner. The City Planner may approve a siding material other than those listed in this section only if he or she finds that use of such materials is in harmony with other dwelling units in the neighborhood.
4. All roofs shall have a pitch of at least three inches in twenty inches unless another pitch is approved by the City Planner. No roof shall be made of corrugated, extruded or stamped metal.
5. All dwelling units shall have a minimum width of twenty feet.

(Ord. NS-718 § 5, 2004; Ord. CS-102 § XII, 2010; Ord. CS-164 § 10, 2011)

**CHAPTER 21.09  
R-E RURAL RESIDENTIAL ESTATE ZONE**

**§ 21.09.010. Intent and purpose.**

The intent of the R-E zone is to provide a residential area in harmony with the natural terrain and wildlife. Where feasible or desirable, there are to be large open areas between structures, large yards and areas left in a natural setting. The zones shall be limited to single-family development, with incidental and compatible agricultural uses. Public facilities shall be sufficient to provide for convenience and safety, but need not meet full city standards.

(Ord. 9498 § 4, 1978)

**§ 21.09.020. Permitted uses.**

- A. In an R-E zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of the zone, and is substantially similar to the specified permitted uses.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code:

"P" indicates the use is permitted. (See note 6 below)

"CUP" indicates that the use is permitted with approval of a conditional use permit. (See note 6 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Accessory dwelling units (subject to Section 21.10.030; defined: Section 21.04.121)			X
Animals and poultry — small ( $\leq 25$ )	1		
Apiary/bee keeping (subject to Section 21.42.140(B)(5))	1		
Aquaculture (defined: Section 21.04.036)	2		
Aviary	1		

Use	P	CUP	Acc
Barns, private garages, playhouses, windmills, silos, radio and television receiving antennas, stables and other similar accessory uses required for the conduct of the permitted uses			X
Biological habitat preserve (subject to Section 21.42.140(B)(30); defined: Section 21.04.048)	2		
Campsites (overnight) (subject to Section 21.42.140(B)(40))	2		
Cemeteries	3		
Churches, synagogues, temples, convents, monasteries and other places of worship	2		
Crop production	X		
Drive-thru facilities (not restaurants)	2		
Educational institutions or schools, public/private (defined: Section 21.04.140)	2		
Fairgrounds	3		
Family day care home (large) (defined: Section 21.04.147; subject to Chapter 21.83)			X
Family day care home (small) (defined: Section 21.04.148; subject to Chapter 21.83)			X
Farmworker housing complex, small (subject to Section 21.10.125; defined: Section 21.04.148.4)	X		
Floriculture	X		
Golf courses	3		
Grazing of ruminant animals (see note 1 below)	X		
Greenhouses > 2000 square feet (subject to Section 21.42.140(B)(70))	1		
Greenhouses less than or equal to two thousand square feet, provided all requirements for yards, setbacks and height are met			X
Hay and feed store	1		
Horses and other grazing animals (see note 2 below)			X
Junior accessory dwelling unit (accessory to a one-family dwelling; subject to Section 21.10.030; defined: Section 21.04.122)			X
Maintaining mail address for commercial and business license purposes only (see note 3 below)			X
Mobile buildings (subject to Section 21.42.140(B)(90); defined: Section 21.04.265)	2		
Mobile homes (see note 4 below)	X		
One one-family dwelling unit per lot	X		
Packing/sorting sheds > 600 square feet (subject to Section 21.42.140(B)(70))	1		

Use	P	CUP	Acc
Plant nurseries and nursery supplies	1		
Poultry, rabbits, chinchillas and other small animals (see note 5 below)			X
Produce stand	1		
Public/quasi-public buildings and facilities and accessory utility buildings/facilities (defined: Section 21.04.297)	2		
Recreation facilities	2		
Residential care facilities (serving six or fewer persons) (defined: Section 21.04.300)	X		
Satellite television antennae (subject to Section 21.53.130)	X		
Signs (subject to Chapter 21.41; defined: Section 21.04.305)	X		
Stables/riding academics (defined: Sections 21.04.310 and 21.04.315)	2		
Supportive housing (defined: Section 21.04.355.1)	X		
Transitional housing (defined: Section 21.04.362)	X		
Veterinary clinic/animal hospital (small animals) (defined: Section 21.04.378)	1		
Wireless communication facilities (subject to Section 21.42.140(B)(165); defined: Section 21.04.379)	1 / 2		
Youth farm projects that are sponsored by nonprofit organizations such as 4-H			X
Zoos (private) (subject to Section 21.42.140(B)(170); defined: Section 21.04.400)	2		

**Notes:**

1. Provided that there is a minimum of ten acres of land used exclusively for such grazing and the number of horses and cattle does not exceed four per acre, or small animals, such as goats and sheep, does not exceed twelve per acre. For combining of animals, one large animal is equivalent to three small animals.
2. Provided that such animals shall not exceed one for each twenty thousand square feet of land specifically designated for such animal.
3. Provided no stock in trade, supplies, professional equipment, apparatus or business equipment, except such as are accessory to a permitted use, are kept on the premises; and provided that no employees or assistants are engaged for services on the premises except in connection with uses specifically listed as permissible in this chapter; provided, further, that no more than one motor vehicle may contain equipment, tools and stock in trade maintained therein, provided such tools and equipment are not used for the performance of services upon the premises and the stock in trade is not sold from the premises.
4. Mobile homes must be certified under the National Mobilehome Construction and Safety Standards Act of 1974 (42 U.S.C. Section 5401 et seq.) on a foundation system pursuant to Section 18551 of the StateHealth and Safety Code.

**Notes:**

5. Provided that all such animals shall at all times be confined to an enclosure, and that not more than twenty-five of any one animal or combination of such animals may be maintained at any time on any single lot.
6. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. 9498 § 4, 1978; Ord. 9599 § 1, 1981; Ord. 9674 § 2, 1983; Ord. 9785 § 4, 1986; Ord. 9804 § 6, 1986; Ord. NS-409 § 4, 1997; Ord. NS-791 § 10, 2006; Ord. CS-102 §§ XIII—XV, 2010; Ord. CS-164 § 10, 2011; Ord. CS-189 § VIII, 2012; Ord. CS-191 § VI, 2012; Ord. CS-224 §§ V, VI, 2013; Ord. CS-249 § IV, 2014; Ord. CS-324 § 6, 2017; Ord. CS-384 §§ 10, 12, 2020)

**§ 21.09.050. District requirements.**

The R-E zone shall not be applied to any area of less than ten acres of contiguous land. Property separated by a public street shall be considered contiguous if more than one hundred feet of frontage is on direct opposite sides of the street.

(Ord. 9498 § 4, 1978)

**§ 21.09.060. Storage requirements.**

Storage of all equipment, supplies and recreation vehicles shall be within enclosed buildings or shall be shielded from view from public streets or easements by landscape barrier or other methods.

(Ord. 9498 § 4, 1978)

**§ 21.09.070. Building height.**

No building in the R-E zone shall exceed a height of thirty-five feet.

(Ord. 9498 § 4, 1978)

**§ 21.09.075. Fire-retardant roof required.**

All buildings in the R-E zone shall be constructed with a fire-retardant roof covering, as defined in Section 3203(e) of the 1976 edition of the Uniform Building Code.

(Ord. 9498 § 4, 1978)

**§ 21.09.080. Front yard.**

Every lot in the R-E zone shall have a front yard which has a depth of not less than seventy feet. Buildings or structures may occupy a portion of the front yard, as follows:

- (1) Fences of wood or wood and masonry combination, chain link or equal quality, not to exceed five feet in height, provided the fence is at least fifty percent open and is located at least ten feet from the front property line;
- (2) Roofed shelter for animals, open on at least three sides, provided it is located at least twenty feet from any property line fronting on a public street or easement;
- (3) The Planning Commission may approve the construction of dwellings and garages provided they are located at least twenty feet from the street property line in cases where the difference in elevation of

the required front yard setback line and the center line of the street exceed fifteen feet. Application for such reduction in required front yard setback shall be made by site development plan, as provided in Chapter 21.06.

(Ord. 9498 § 4, 1978)

#### **§ 21.09.090. Side yard.**

In an R-E zone, an interior side yard shall not be less than fifteen feet in width and street side yard shall not be less than fifty feet in width. The Planning Commission may approve the construction of dwellings and garages, provided they are located at least twenty feet from the street side yard property line in cases where the difference in elevation of the required street side yard setback line and the center line of the street exceeds ten feet. Application for such reduction in required street side yard setback shall be made by site development plan as provided in Chapter 21.06.

(Ord. 9498 § 4, 1978)

#### **§ 21.09.100. Placement of buildings.**

Placement of buildings on any lot shall conform to the following, except as otherwise stated for accessory dwelling units (or junior accessory dwelling units where permitted) pursuant to Section 21.10.030:

- (1) Except as permitted by Sections 21.09.080 and 21.09.090, no building shall occupy any portion of a required yard.
- (2) Any building, any portion of which is used for human habitation, shall observe a distance from any rear property line the equivalent of twice the required interior side yard.
- (3) The distance between buildings used for human habitation and detached accessory buildings shall not be less than ten feet.
- (4) The keeping of all domestic animals provided for in this chapter shall conform to all other provisions of law governing the same, and no pen, coop, stable or barn shall be erected within forty feet of any building used for human habitation or within twenty-five feet of any property line.
- (5) A building permit for a dwelling unit to be located further than five hundred feet from a fire hydrant shall not be issued without the approval of the Fire Chief. The Fire Chief may require the installation of additional safety equipment, including fire hydrants or stand pipes, as a condition of such approval.

(Ord. 9498 § 4, 1978; Ord. CS-324 § 7, 2017; Ord. CS-384 § 13, 2020)

#### **§ 21.09.110. Minimum lot area.**

The minimum required area of a lot in the R-E zone shall be determined by average natural slope of each lot proposed for the property. In no case shall a lot be created with an area of less than one acre. The area of a lot shall be determined by the application of the following formula:

- (1) Lot area requirements shall be as follows:

Average Natural Slope	Minimum Lot Size
0% to 12.5%	1 acre
12.5% to 20%	2 acres
20% to 25%	3 acres

Average Natural Slope	Minimum Lot Size
Over 25%	4 acres

- (2) Average natural slope shall be determined when the property is subdivided. The subdivision map shall indicate the proposed boundaries of each lot and the natural slope of each lot. To calculate average natural slope, the subdivision map shall be drawn to an appropriate scale (not greater than one inch equals two hundred feet) and contain contour intervals not greater than five feet. Computation of the average natural slope shall be done using the following formula:

$$S = \frac{0.00229 \times I \times L}{A}$$

where:      S = Average natural slope in percent

I = Contour interval in feet

L = Length of contour in feet

A = Acres of area being measured

0.00229 = Constant which converts square feet into acres and expresses slope in percent

The average natural slope shall be certified by a registered civil engineer.

- (3) When the subdivision is approved and recorded, the lot areas contained therein shall be a part of the zoning restrictions imposed on the subject property by this chapter.

(Ord. 9498 § 4, 1978)

### **§ 21.09.120. Lot width.**

- (1) In the R-E zone, every lot created shall have a minimum lot width of one hundred feet.
- (2) The official or decision-making body with the authority to otherwise approve the subdivision may approve panhandle or flag-shaped lots where the lot width and yards shall be measured as follows.
- (A) The buildable portion of the lot, which is the total area minus that portion containing the access portion (handle), shall meet the minimum area requirements of the R-E zone.
  - (B) The width requirement for the buildable portion of the lot shall be as required for lots in the R-E zone.
  - (C) The yard requirements of the R-E zone shall be met, except that front yard setbacks may be reduced to thirty feet.
  - (D) The minimum width of the access portion shall be twenty-four feet, except where the access portion is adjacent to the same portion of another such lot, in which case the required minimum width shall be fifteen feet, provided a joint easement ensuring common access of a minimum width of thirty feet to both such portions is recorded.
  - (E) An improved driveway shall be provided within the access portion of the lot from a public street or public easement to the parking area on the buildable portion of the lot which is at least fourteen feet wide for single lots and twenty feet wide when serving more than one lot. The minimum overhead clearance shall be ten feet. The driveway shall be constructed of two inch thick asphalt concrete paving on a proper base with rolled edges.

- (F) Each lot shall have at least three nontandem parking spaces, with an approach not less than twenty-four feet in length, with proper turnaround space to permit complete turnaround for forward access to the street. This parking and access arrangement shall be designated to the satisfaction of the City Engineer.
- (G) Structures permitted in the access portion of the lot shall be limited to mailboxes, fences, gates, trash enclosures, landscape containers and nameplates. Except for mailboxes, these structures shall not be greater than forty-two inches in height if located within twenty feet of the street property line or greater than six feet in height beyond this point.
- (H) The property owner of such a lot shall agree to hold the city or any other public service agency harmless from liability for any damage to the driveway when being used to perform a public service.

(Ord. 9498 § 4, 1978; Ord. 1256 § 7, 1982; Ord. NS-675 §§ 19, 20, 2003; Ord. CS-178 § VIII, 2012)

#### **§ 21.09.130. Lot coverage.**

All buildings including accessory buildings and structures, excluding greenhouses, shall not cover more than twenty percent of the area of the lot.

(Ord. 9498 § 4, 1978)

#### **§ 21.09.140. Parking.**

Notwithstanding parking requirements of Chapter 21.44, not fewer than two off-street parking spaces shall be provided for each residence. The required two spaces shall be covered by a garage or carport, and the driveway adequately paved with either concrete or asphalt cement prepared over adequate base. The following is an exception to the two parking space requirement:

One additional paved off-street (covered or uncovered) parking space shall be provided for an accessory dwelling unit and shall comply with the requirements of Chapter 21.44 of this title. The additional parking space may be provided through tandem parking (provided that the garage is set back a minimum of twenty feet from the property line) or in the front yard setback.

(Ord. 9498 § 4, 1978; Ord. NS-283 § 13, 1994; Ord. CS-324 § 2, 2017)

#### **§ 21.09.150. Subdivision of land.**

The subdivision of land in the R-E zone shall be subject to the following:

- (1) Subdivisions shall be subject to all provisions of the city's subdivision regulations (Title 20), except as specified in Section 21.09.160.
- (2) In addition, the City Council will review the tentative map for compliance with the intent and purpose of the R-E zone and with the following standards:
  - (A) Preservation of the rural and natural characteristics of the area within the R-E zone;
  - (B) That the orientation of improvements on the individual sites to relate with the natural topography;
  - (C) Property lines shall be designed in keeping with the terrain by following natural drainage courses, ridge lines and tops of graded slopes, wherever practicable;
  - (D) Grading shall be minimized but, where grading is necessary, it is to blend with the natural

- topography wherever practicable;
- (E) Favorable features of the individual sites (i.e., mature trees and other significant vegetation, rock outcroppings, mounds, view, etc.) can be preserved and maximized;
  - (F) The individual sites will have a desirable visual appearance from all practical view points, adjoining developments, streets, trails and other view corridors; and
  - (G) Each lot of the subdivision is buildable with usable access without undue alteration of the terrain.
- (3) To facilitate this review, the applicant shall submit a preliminary grading plan to the city with the tentative map. The preliminary grading plan shall show existing topography, preliminary grading, drainage, drives, building pads, streets and trails. In addition, the preliminary grading plans shall indicate all areas of mature trees and native perennial vegetation.
  - (4) In addition to the findings required by Title 20 and the Subdivision Map Act, the City Council must also find that a subdivision is consistent with the requirements of this section. Failure of a subdivision to meet the standards of this section shall be grounds for denial.

(Ord. 9498 § 4, 1978)

#### **§ 21.09.160. Modifications of public improvements.**

- (a) All public facilities, dedications and improvements shall be required in accord with this code and adopted policies and standards of the city; however, as hereinafter provided, the City Engineer may modify certain special public improvement standards provided the design of these modified improvements is related to the function, topography and needs of the area. Any such modifications shall be reflected as conditions of approval to a tentative subdivision map.
- (b) Street improvements and dedications for streets inside subdivisions may be modified as follows:
  - (1) All or part of the required sidewalks, curbs, gutters or drainage structures may be waived or modified if it is found that such improvements are unwarranted and would distract from the rural character of the area. If such requirements are waived, the City Engineer may require that drainage easements and/or drainage releases be made part of the tract map to ensure proper drainage over private property.
  - (2) Horizontal and vertical alignment standards may be modified or waived to reduce grading. In such cases, an adequate right-of-way shall be provided to accommodate possible future corrections to meet city standards.
  - (3) The City Council shall have the option of requiring that street right-of-way be privately maintained under a property owners' association or may accept an offer of dedication. If privately owned, the streets shall be open to the public by easement.
- (c) Public sewer systems shall be required to serve each lot in the R-E zone unless specifically waived by the City Council. Such waiver shall be conditioned on the installation of an alternative sewer disposal system permitted by this code and found by the City Council to be feasible for each lot. The determination of the adequacy of such alternate system shall be based on detailed soils testing on each existing or proposed lot as provided for by the county health department. If an alternate system is approved, the subdivider shall prepare plans for a future public sewer system as a backup system. Dedication of all easements necessary to construct such a backup public sewer system shall be required as a condition of final map approval.

- (d) Any modification pursuant to this section shall not relieve the subdivider from providing public facilities, dedications and improvements that also provide services necessary for the welfare of the general public, as required by the general plan, applicable specific plans or city ordinances or policies. (Ord. 9498 § 4, 1978; Ord. NS-602 § 3, 2001)

#### **§ 21.09.170. Covenants, conditions and restrictions.**

The filing of a tentative map in an R-E zone shall include the submittal of proposed private deed covenants, conditions and restrictions. As a minimum these documents shall include the following provisions:

- (1) Lots in the R-E zone may not be resubdivided.
- (2) Minimum floor area for dwelling units shall be included.
- (3) Provisions for the maintenance of private property, including private streets, pedestrian and equestrian trails and open areas, are in a manner consistent with the purposes of this zone.
- (4) The city shall be a party.
- (5) The covenants, conditions and restrictions may not be amended without the approval of the City Council. They must be approved by the City Council prior to approval of the final map and they must be recorded.

(Ord. 9498 § 4, 1978)

#### **§ 21.09.180. Findings required for rezoning or resubdivision to a more intensive use.**

Once an R-E zone has been adopted and subdivisions have occurred under the provisions of this chapter, no rezoning or resubdivision to a more intensive use may be granted on any lot without a finding by the City Council, in addition to all other findings required by law, that an improvement district has been formed which will provide for the financing of the improvements necessary to bring all public improvements, on-site and off-site, to full city standards and specifications applicable at the time of such rezoning, or that said improvements have otherwise been provided. This restriction shall be made a part of the covenants, conditions and restrictions required by Section 21.09.170.

(Ord. 9498 § 4, 1978)

#### **§ 21.09.190. Development standards.**

No one-family dwelling unit, whether it be conventionally built, modular or a mobile home, shall be located on a lot in this zone unless such dwelling unit complies with the following development standards:

- (1) Garage(s), which are provided to meet the parking requirements for dwellings pursuant to Section 21.44.020 of this title, shall be architecturally integrated with and have an exterior similar to the dwelling unit.
- (2) All dwelling units shall have a permanent foundation. For mobile homes a foundation system installed pursuant to Section 18551 of the State Health and Safety Code shall satisfy the requirements of this section.
- (3) Exterior siding material shall be stucco, masonry, wood or brick unless an alternative exterior material is approved by the City Planner. The City Planner may approve a siding material other than those listed in this section only if he finds that use of such material is in harmony with other dwelling units in the neighborhood.

(4) All roofs shall have a pitch of at least three inches in twenty inches unless another pitch is approved by the City Planner. No roof shall be made of corrugated, extruded or stamped metal.

(5) All dwelling units shall have a minimum width of twenty feet.

(Ord. 9599 § 2, 1981; Ord. 1261 § 39, 1983; Ord. NS-283 § 14, 1994; Ord. NS-675 § 76, 2003; Ord. CS-102 § XVI, 2010; Ord. CS-164 § 10, 2011)

**CHAPTER 21.10  
R-1 ONE-FAMILY RESIDENTIAL ZONE**

**Note: Prior ordinance history: Ord. Nos. 9060, 9103, 9170, 9224, 9239, 9343, 9427, 9455, 9467, 9502, 9559, 9598, 9599, 9624, 9686, 9731, 9785, 9804, 1256, 1261, 5336, NS-180, NS-204, NS-243, NS-283, NS-355, NS-402, NS-409, NS-663, and NS-675.**

**§ 21.10.010. Intent and purpose.**

- A. The intent and purpose of the R-1 one-family residential zone is to:
1. Implement the residential low density (RL), residential low-medium density (RLM) and residential medium density (RM) land use designations of the Carlsbad general plan; and
  2. Provide regulations and standards for the development of one-family dwellings and other permitted or conditionally permitted uses as specified in this chapter.

(Ord. NS-718 § 7, 2004)

**§ 21.10.020. Permitted uses.**

- A. In an R-1 zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of this zone, and is substantially similar to the specified permitted uses.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code:

"P" indicates use is permitted. (See note 4 below)

"CUP" indicates use is permitted with approval of a conditional use permit. (See note 4 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Accessory buildings/structures (ex. garages, workshops, tool sheds, patio covers, decks, etc.) (defined: Section 21.04.020)			X
Accessory dwelling unit (subject to Section 21.10.030; defined: Section 21.04.121)			X
Agricultural crops	X		
Animal keeping (household pets) (subject to Section 21.53.084)			X
Animal keeping (horses) (see note 1, below)			X
Animal keeping (wild animals) (subject to Section 21.53.085)			X
Aquaculture (defined: Section 21.04.036)	2		
Biological habitat preserve (subject to Section 21.42.140(B)(30); defined: Section 21.04.048)	2		
Campsites (overnight) (subject to Section 21.42.140(B)(40))	2		
Cemeteries	3		
Churches, synagogues, temples, convents, monasteries and other places of worship	2		
Dwelling, one-family (defined: Section 21.04.125) (see note 3, below)	X		
Educational institutions or schools, public/private (defined: Section 21.04.140)	2		
Family day care home (large) (subject to Chapter 21.83; defined: Section 21.04.147)			X
Family day care home (small) (subject to Chapter 21.83; defined: Section 21.04.148)			X
Farmworker housing complex, small (subject to Section 21.10.125; defined: Section 21.04.148.4)	X		
Golf courses (see note 2, below)	3		
Greenhouses (2,000 square feet maximum)	X		
Greenhouses > 2,000 square feet (subject to Section 21.42.140(B)(70))	1		
Home occupation (subject to Section 21.10.040)			X
Junior accessory dwelling unit (accessory to a one-family dwelling; subject to Section 21.10.030; defined: Section 21.04.122)			X
Mobile buildings (subject to Section 21.42.140(B)(90); defined: Section 21.04.265)	X	2	
Packing/sorting sheds (600 square feet maximum)	X		
Packing/sorting sheds > 600 square feet (subject to Section 21.42.140(B)(70))	1		
Public/quasi-public buildings and facilities and accessory utility buildings/facilities (defined: Section 21.04.297)	2		

Use	P	CUP	Acc
Residential care facilities (serving six or fewer persons) (defined: Section 21.04.300)	X		
Satellite TV antennae (subject to Sections 21.53.130 through 21.53.150; defined: Section 21.04.302)			X
Signs (subject to Chapter 21.41; defined: Section 21.04.305)			X
Supportive housing (defined: Section 21.04.355.1)	X		
Temporary bldg./trailer (real estate or construction) (subject to Sections 21.53.090 and 21.53.110)	X		
Transitional housing (defined: Section 21.04.362)	X		
Wireless communication facilities (subject to Section 21.42.140(B)(165); defined: Section 21.04.379)		1 / 2	
Zoos (private) (subject to Section 21.42.140(B)(170); defined: Section 21.04.400)		2	

**Notes:**

1. On each lot or combination of adjacent lots under one ownership, there may be kept one horse for each ten thousand square feet in the lot or lots; provided, however, that any such horse may be kept only if it is fenced and stabled so that at no time it is able to graze, stray or roam closer than seventy-five feet to any building used for human habitation, other than buildings on the lot or lots, and as to those buildings, no closer than fifty feet.
2. A conditional use permit is not required for a golf course if it is approved as part of a master plan for a planned community development.
3. Mobile homes must be certified under the National Mobilehome Construction and Safety Standards Act of 1974 (42 U.S.C. Section 5401 et seq.) on a foundation system pursuant to Section 18551 of the StateHealth and Safety Code.
4. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. CS-384 § 10, 2020; Ord. CS-324 § 2, 2017; Ord. CS-249 § V, 2014; Ord. CS-224 §§ VII, VIII, 2013; Ord. CS-191 § VII, 2012; Ord. CS-189 §§ XI, XII, 2012; Ord. CS-164 § 10, 2011; Ord. CS-102 §§ XVII—XIX, 2010; Ord. NS-791 § 11, 2006; Ord. NS-746 § 6, 2005; Ord. NS-718 § 7, 2004)

**§ 21.10.030. Accessory dwelling units and junior accessory dwelling units.**

- A. Purpose. This section provides standards for the establishment of accessory dwelling units (ADUs) and junior accessory dwelling units (JADUs). Pursuant to California Government Code Sections 65852.2 (effective Jan. 1, 2022) and 65852.22 (effective Jan. 1, 2020), local governments have the authority to adopt regulations designed to promote ADUs and JADUs.
- B. Standards of Review. Review of ADUs and JADUs shall be consistent with the following:
  1. ADU or JADU applications shall be considered a ministerial action without discretionary review or a public hearing if all requirements of this section are met, notwithstanding any other requirements of state law or this development code.

2. ADUs or JADUs developed within the coastal zone are subject to the permit requirements of Chapter 21.201 and require a building permit. Development of ADUs or JADUs outside of the coastal zone requires a building permit.
  3. The city shall act on an application to create an ADU or a JADU within the time period specified under California Government Code Sections 65852.2 (effective Jan. 1, 2022) and 65852.22 (effective Jan. 1, 2020).
  4. If the permit application to create an ADU or a JADU is submitted with a permit application to create a new one-family dwelling on the lot, the city may delay acting on the permit application for the ADU or the JADU until the city acts on the permit application to create the new one-family dwelling, but the application to create the ADU or JADU shall be considered without discretionary review or public hearing. If the applicant requests a delay, the time period specified under California Government Code Sections 65852.2 (effective Jan. 1, 2022) and 65852.22 (effective Jan. 1, 2020) shall be tolled for the period of the delay.
- C. Residential Use and Density. ADUs and JADUs, which comply with the requirements of this section and California Government Code Sections 65852.2 (effective Jan. 1, 2022) and 65852.22 (effective Jan. 1, 2020):
1. Shall be considered accessory residential uses or accessory residential buildings that are consistent with the general plan or zoning designations for the lot; and
  2. Shall not be considered to exceed the allowable density for the lot upon which it is located.
- D. Number and Location.
1. ADUs shall be permitted in zones that allow one-family dwellings, two-family dwellings, multiple-family dwellings, and mixed-use (residential uses in combination with non-residential uses), provided there is an existing or proposed dwelling on the lot where the ADU is proposed, as specified in California Government Code Sections 65852.2 (effective Jan. 1, 2022) and 65852.22 (effective Jan. 1, 2020). Refer to a specific zone's permitted uses table within this title.
  2. For zones that allow one-family dwellings, one JADU shall be permitted with an associated existing or proposed one-family dwelling. Refer to a specific zone's permitted uses table within this title.
  3. The number and location of ADUs or JADUs on a lot shall be subject to California Government Code Sections 65852.2 (effective Jan. 1, 2022) and 65852.22 (effective Jan. 1, 2020).
- E. Other Requirements and Standards. ADUs and JADUs shall comply with all the following requirements and standards:
1. ADUs and JADUs shall comply with the development requirements and standards of California Government Code Sections 65852.2 (effective Jan. 1, 2022) and 65852.22 (effective Jan. 1, 2020).
  2. When not in conflict with California Government Code Sections 65852.2 (effective Jan. 1, 2022) and 65852.22 (effective Jan. 1, 2020) and the coastal resource and public access protection requirements of the certified local coastal program, ADUs and JADUs shall also comply with applicable development requirements and standards of this code.
  3. The maximum size of an ADU or JADU shall be limited as follows, consistent with California

Government Code Sections 65852.2 (effective Jan. 1, 2022) and 65852.22 (effective Jan. 1, 2020):

- a. Attached ADUs – 50% of the total floor area of the main dwelling or 1,200 square feet, whichever is less, but not less than 800 square feet;
- b. Detached ADUs – 1,200 square feet;
- c. JADUs – 500 square feet.
4. A detached ADU shall be limited to one story and 16 feet maximum height, except that an ADU constructed above or below a detached garage shall be permitted and shall conform to the height limits applicable to the zone. Structures that contain an ADU located above or below a detached garage shall be limited to a maximum of two stories including the garage.
5. Roof decks shall not be permitted on detached ADUs.
6. The construction of an ADU or JADU that is all new construction, or is a conversion of a portion or all of an existing structure, or expands the square footage of an existing structure, shall be consistent with all habitat preserve buffers, geologic stability setbacks, and visual resource protection policies in the certified local coastal program, habitat management plan, general plan, or geotechnical report, as applicable.
7. On lots with one-family dwelling(s), the exterior roofing, trim, walls, windows and the color palette of the ADU or JADU shall incorporate the same features as the primary dwelling unit.
8. On lots with two-family or multiple-family dwellings, the exterior roofing, trim, walls, windows and the color palette of the ADU addition shall incorporate the same features as the existing building that the ADU would be provided within. For detached ADUs, it shall be reflective of the nearest building as measured from the wall of the existing building to the nearest wall of the proposed unit.
9. Parking.
  - a. An ADU shall provide off-street parking in compliance with Chapter 21.44 (Parking), unless it qualifies for an exemption as specified in California Government Code Section 65852.2 (effective Jan. 1, 2022).
  - b. No off-street parking is required for a JADU if it meets the requirements specified in California Government Code Section 65852.22 (effective Jan. 1, 2020).
  - c. When a garage, carport, or covered parking structure is demolished in conjunction with the construction of an ADU or converted to an ADU, the loss of parking for the primary dwelling does not need to be replaced, except on lots located west of the rail corridor and on lots located east of the rail corridor and west of Interstate 5 between Avenida Encinas to the north and Batiquitos Lagoon to the south. In which case, the loss of parking for the primary dwelling shall be replaced subject to the parking requirements in Chapter 21.44 (Parking), except as follows:
    - i. The replacement parking spaces may be covered, uncovered, or tandem spaces, or provided by the use of mechanical automobile parking lifts (within a garage); and may be located in the front, side or rear yard, provided the parking area is an improved parking surface, such as paving, hardscape, decomposed granite, etc.

- ii. The location of the replacement parking spaces shall be consistent with all habitat preserve buffers, geologic stability setbacks, and visual resource protection policies in the certified local coastal program.
10. ADUs intended to satisfy an inclusionary requirement shall comply with the requirements of Chapter 21.85, including, but not limited to, the applicable rental rates and income limit standards.
  11. A notice of restriction shall be recorded on the property declaring that:
    - a. An ADU or JADU shall not be used for short-term rentals of less than 30 days. This requirement does not apply to any unit that was issued a building permit prior to January 1, 2020.
    - b. The obligations and restrictions imposed on the approval of the ADU(s) per California Government Code Section 65852.2 (effective Jan. 1, 2022) or JADU per California Government Code Section 65852.22 (effective Jan. 1, 2020) are binding on all present and future property owners.
    - c. For a JADU, the property owner must reside in either the primary residence or the JADU. Sale of the JADU separate from the single-family residence is prohibited; said prohibition is binding on all present owners and future purchasers.
  12. For ADUs permitted prior to January 1, 2020, the city may continue to enforce a requirement for owner-occupancy of the ADU or primary residence.
  13. An ADU may be sold separately from the primary dwelling only in limited situations pursuant to California Government Code Section 65852.26 (effective Jan. 1, 2022).

(Ord. CS-427 § 5, 2022)

#### **§ 21.10.040. Home occupations.**

- A. Home occupations which are not disruptive to the residential character of the neighborhood shall be permitted as an accessory use, subject to the following conditions:
1. Home occupations shall be conducted as a secondary use by a resident or residents of the premises;
  2. No employees shall be employed on the premises;
  3. All home occupation activities shall be conducted entirely within the residential structure, except for permitted agricultural or horticultural uses;
  4. There shall be no external alteration to the appearance of the residential structure that would reflect the existence of the home occupation;
  5. No storage of materials, goods, equipment or stock in trade shall be permitted where visible from the exterior of the property;
  6. No deliveries or pickups by heavy duty commercial vehicles shall be permitted;
  7. Sale of goods or services shall not be conducted on the property, except for agricultural goods grown on the premises. This provision shall not be construed to prohibit taking orders for sale where delivery of goods or performance of services does not occur on the property;

8. The home occupation shall not cause any external effect that is inconsistent with the residential zone or disrupts the neighborhood, including, but not limited to, noise from equipment, traffic, lighting, offensive odor or electrical interference;
9. No advertising, signs or displays of any kind indicating the existence of the home occupation shall be permitted on the premises;
10. The home occupation shall not cause the elimination of required off-street parking;
11. The home occupation may not utilize an area greater than twenty percent of the combined total floor area of all on-site structures; and
12. A city business license is required for the conduct of a home occupation.

(Ord. NS-718 § 7, 2004)

#### **§ 21.10.050. Building height.**

In the R-1 zone no building shall exceed a height of thirty feet and two stories if a minimum roof pitch of 3:12 is provided or twenty-four feet and two stories if less than a 3:12 roof pitch is provided for lots under twenty thousand square feet. Single-family residences on lots with a lot area of twenty thousand square feet or greater and within a R-1 zone and specifying a -20 or greater area zoning symbol shall not exceed thirty-five feet and three stories with a minimum roof pitch of 3:12 provided.

(Ord. NS-718 § 7, 2004)

#### **§ 21.10.060. Front yard.**

Every lot in the R-1 zone shall have a front yard which has a depth not less than twenty feet, except that on key lots and lots which side upon commercially or industrially zoned property, the required front yard need not exceed fifteen feet.

(Ord. NS-718 § 7, 2004)

#### **§ 21.10.070. Side yards.**

A. In the R-1 zone every lot shall have side yards as follows:

1. Interior lots shall have the following side yards:
  - a. A side yard shall be provided on each side of the lot, which side yard has a width equal to ten percent of the lot width; provided, that such side yard shall not be less than five feet in width and need not exceed ten feet;
    - i. The width of one side yard may be reduced, subject to the following:
      - (A) The opposite side yard shall be increased in width by an amount equal to the reduction or shall be a minimum of ten feet in width, whichever is greater;
      - (B) The reduced side yard shall not be less than five feet in width nor shall it abut a lot or parcel of land with an adjacent reduced side yard;
      - (C) In the event special circumstances exist, such as extreme topographical features and/or irregularly shaped lots (such as those which front on cul-de-sacs), a reduced side yard may be permitted adjacent to a reduced side yard, provided a minimum of ten feet between buildings is maintained.

2. Corner lots and reversed corner lots shall have the following side yards:
  - a. On the side lot line which adjoins another lot, the side yard shall be equal to ten percent of the lot width; provided that such side yard shall not be less than five feet in width and need not exceed ten feet; and
  - b. On the side street, the width of the required side yard shall be ten feet and such side yard shall extend the full length of the lot.

(Ord. NS-718 § 7, 2004; Ord. CS-164 § 10, 2011; Ord. CS-178 § X, 2012)

#### **§ 21.10.080. Placement of buildings.**

- A. Placement of buildings on any lot shall conform to the following, except as otherwise stated for accessory dwelling units (or junior accessory dwelling units where permitted) pursuant to Section 21.10.030:
  1. Interior Lots.
    - a. No building shall occupy any portion of a required yard;
    - b. Any building, any portion of which is used for human habitation, shall observe a distance from any side lot line the equivalent of the required side yard on such lot and from the rear property line the equivalent of twice the required side yard on such lot;
    - c. The distance between buildings used for human habitation and between buildings used for human habitation and accessory buildings shall not be less than ten feet;
    - d. All accessory structures shall comply with the following development standards:
      - i. The lot coverage shall include accessory structures in the lot coverage calculations for the lot,
      - ii. The distance between buildings used for human habitation and accessory buildings shall be not less than ten feet,
      - iii. When proposed on a lot adjoining native vegetation, accessory structures within a fire suppression zone must be reviewed and approved by the fire department,
      - iv. Buildings shall not exceed one story,
      - v. Building height shall not exceed fourteen feet if a minimum roof pitch of 3:12 is provided or ten feet if less than a 3:12 roof pitch is provided;
    - e. Habitable detached accessory structures shall comply with all requirements of the zone applicable to placement of a dwelling unit on a lot including setbacks;
    - f. Detached accessory structures which are not dwelling units and contain no habitable space, including, but not limited to, garages, workshops, tool sheds, decks over thirty inches above grade and freestanding patio covers shall comply with the following additional development standards when located within a lot's required setback areas:
      - i. The maximum allowable building area per structure shall not exceed a building coverage of four hundred forty square feet,
      - ii. The following setbacks shall apply: a front yard setback of twenty feet, a rear yard

- setback of five feet, a side yard setback of five feet and an alley setback of five feet,
- iii. The maximum plumbing drain size shall be one and one-half inches in diameter so as to prohibit toilets, showers, bathtubs and other similar fixtures;
  - iv. The additional development standards listed above (subsections (A)(1)(f)(i) through (iii) of this section) shall apply to the entire subject accessory structure, not just the portion encroaching into a lot's setback area; and
  - g. The provisions of this section are applicable notwithstanding the permit requirements contained in Section 18.04.015.
2. Corner Lots and Reversed Corner Lots.
- a. No building shall occupy any portion of a required yard;
  - b. The distance between buildings used for human habitation and between buildings used for human habitation and accessory buildings shall not be less than ten feet;
  - c. Any building, any portion of which is used for human habitation, shall observe a distance from the rear property line the equivalent of twice the required interior side yard on such lot;
  - d. All accessory structures shall comply with the following development standards:
    - i. The lot coverage shall include accessory structures in the lot coverage calculations for the lot,
    - ii. The distance between buildings used for human habitation and accessory buildings shall be not less than ten feet,
    - iii. When proposed on a lot adjoining native vegetation, accessory structures within a fire suppression zone must be reviewed and approved by the fire department,
    - iv. Buildings shall not exceed one story,
    - v. Building height shall not exceed fourteen feet if a minimum roof pitch of 3:12 is provided or ten feet if less than a 3:12 roof pitch is provided;
  - e. Habitable detached accessory structures shall comply with all requirements of the zone applicable to placement of a dwelling unit on a lot including setbacks;
  - f. Detached accessory structures which are not dwelling units and contain no habitable space, including, but not limited to, garages, workshops, tool sheds, decks over thirty inches above grade and freestanding patio covers shall comply with the following additional development standards when located within a lot's required setback areas:
    - i. The maximum allowable building area per structure shall not exceed a building coverage of four hundred forty square feet,
    - ii. The following setbacks shall apply: a front yard setback of twenty feet, a rear yard setback of five feet, a side yard setback of five feet and an alley setback of five feet,
    - iii. The maximum plumbing drain size shall be one and one-half inches in diameter so as to prohibit toilets, showers, bathtubs and other similar fixtures,

iv. The additional development standards listed above (subsections (A)(2)(f)(i) through (iii) of this section) shall apply to the entire subject accessory structure, not just the portion encroaching into a lot's setback area; and

g. The provisions of this section are applicable notwithstanding the permit requirements contained in Section 18.04.015.

(Ord. NS-718 § 7, 2004; Ord. CS-324 § 10, 2017; Ord. CS-384 § 11, 2020)

#### **§ 21.10.090. Minimum lot area.**

- A. The minimum required area of a lot in the R-1 zone, when the zone implements the RL land use designation, shall be not less than one-half acre (twenty-one thousand seven hundred eighty square feet), unless a greater minimum lot area is specified on the zoning map (i.e., R-1-40,000 = forty thousand square foot minimum lot area).
- B. The minimum required area of a lot in the R-1 zone, when the zone implements the RLM land use designation, shall be not less than seven thousand five hundred square feet, unless otherwise shown on the zoning map.
- C. The minimum required area of a lot in the R-1 zone, when the zone implements the RM land use designation, shall be not less than six thousand square feet, unless otherwise shown on the zoning map.

(Ord. NS-718 § 7, 2004)

#### **§ 21.10.100. Lot width.**

- A. In the R-1 zone every lot shall have a minimum lot width as follows:
  1. Lots required to have an area up to ten thousand square feet, sixty feet;
  2. Lots required to have an area of at least ten thousand square feet and up to twenty thousand square feet, seventy-five feet; and
  3. Lots required to have an area of twenty thousand square feet or more, eighty feet.
- B. The official or decision-making body with the authority to otherwise approve the subdivision may approve panhandle or flag-shaped lots where the lot width and yards shall be measured in accord with this section if the following circumstances are found to exist.
  1. The property cannot be served adequately with a public street without panhandle lots due to unfavorable conditions resulting from unusual topography, surrounding land development, or lot configuration; and
  2. Subdivision with panhandle lots will not preclude or adversely affect the ability to provide full public street access to other properties within the same block of the subject property.
- C. In approving a panhandle lot, a determination shall be made as to what portion of such lot shall be the buildable lot; for purposes of this chapter, the buildable portion shall be the entire lot exclusive of any portion of the lot less than thirty-five feet in width that is used for access to the lot. Also, a determination shall be made on which property lines of the buildable lots are the front, sides and rear for purposes of providing required yards.
- D. Any panhandle lot approved pursuant to this section shall meet the following requirements:

1. The area of the buildable portion of the lot shall be a minimum ten thousand square feet or the minimum required by the zone whichever is greater. In zone districts permitting less than ten thousand square-foot lots, the buildable portion of the lot may be less than ten thousand square feet provided the official or decision-making body with authority to otherwise approve the subdivision finds from evidence submitted on a site plan that all requirements of this section will be met; however, in no case shall the buildable portion of the lot be less than eight thousand square feet in area. If a site plan for a subdivision with panhandle lots with a buildable portion of less than ten thousand square feet is approved, development within such subdivision shall conform to the plan as approved;
2. The width requirements for the buildable portion of the lot shall be met as required for lots in the zone district;
3. The yard requirements of the zone district shall be met as required for interior lots;
4. The length of the portion of the lot fronting on a public street or publicly dedicated easement afforded access to the buildable lot shall not be greater than one hundred fifty feet for a single lot or two hundred feet when two such lots are adjoining. The minimum width for such access portion shall be twenty feet except where the access portion is adjacent to the same portion of another such lot, in which case the required minimum frontage shall be fifteen feet, provided a joint easement ensuring common access to both such portions is recorded;
5. An improved driveway shall be provided within the access portion of the lot from the street or public easement to the parking area on the buildable lot at least fourteen feet wide for single lots and twenty feet wide when serving more than one lot. The minimum overhead clearance shall be ten feet. The driveway shall be constructed to accommodate public service vehicles with a minimum of two-inch thick asphalt concrete paving on proper base with rolled edges;
6. Drainage from the lot shall be channeled down the private access to a public street or special drainage means must be provided to the satisfaction of the City Engineer;
7. Each lot shall have three nontandem parking spaces with an approach not less than twenty-four feet in length with proper turnaround space to permit complete turnaround for forward access to the street. The parking and access arrangement shall be designed to the satisfaction of the City Engineer;
8. Structures permitted in the access portion of the lot shall be limited to mailboxes, fences, trash enclosures, landscape containers and nameplates. Except for mailboxes, the structures shall not be greater than forty-two inches in height if located within twenty feet of the street property line or greater than six feet in height beyond this point;
9. The property owner of such a lot shall agree to hold the city or any other public service agency harmless from liability for any damage to the driveway when being used to perform a public service;
10. Any other condition the official or decision-making body with the authority to otherwise approve the subdivision may determine to be necessary to properly develop such property.

(Ord. NS-718 § 7, 2004; Ord. CS-178 § XI, 2012)

#### **§ 21.10.110. Lot coverage.**

Lot coverage with buildings and structures shall not exceed forty percent of the lot. Buildings and

structures used for growing or raising plants or animals are not counted as coverage.  
(Ord. NS-718 § 7, 2004)

#### **§ 21.10.120. Development standards.**

- A. No one-family dwelling unit, whether it be conventionally built, modular or a mobile home, shall be located on a lot in this zone unless such dwelling unit complies with the following development standards:
  1. Garage(s), which are provided to meet the parking requirements for dwellings pursuant to Section 21.44.020 of this title, shall be architecturally integrated with and have an exterior similar to the dwelling unit;
  2. All dwelling units shall have a permanent foundation. For mobile homes a foundation system installed pursuant to Section 18551 of the StateHealth and Safety Code shall satisfy the requirements of this section;
  3. Exterior siding materials shall be stucco, masonry, wood or brick unless an alternative exterior material is approved by the City Planner. The City Planner may approve a siding material other than those listed in this section only if he or she finds that use of such material is in harmony with other dwelling units in the neighborhood;
  4. All roofs shall have a pitch of at least three inches in twenty inches unless another pitch is approved by the City Planner. No roof shall be made of corrugated, extruded or stamped metal;
  5. All dwelling units shall have a minimum width of twenty feet.

(Ord. NS-718 § 7, 2004; Ord. CS-102 § XXI, 2010; Ord. CS-164 § 10, 2011)

#### **§ 21.10.125. Farmworker housing complex standards.**

- A. Purpose.
  1. The purpose of this section is to establish standards to ensure that the development of farmworker housing complexes does not adversely impact adjacent parcels or the surrounding neighborhood and that they are developed in a manner which protects the health, safety, and general welfare of the nearby residents and businesses, and the character of the City of Carlsbad.
  2. The Employee Housing Act allows for flexibility in housing types for farmworker housing, including conventional and nonconventional structures, such as: living quarters, boardinghouse, tent, bunkhouse, mobilehome, manufactured home, recreational vehicle and travel trailers. The laws and regulations governing these structures depends on the housing type; however, all employee housing must comply with: the Employee Housing Act (Health and Safety Code Section 17000 et seq.) and the Employee Housing Regulations (Title 25—Housing and Community Development), which outline specific requirements for the construction of housing, maintenance of grounds, buildings, sleeping space and facilities, sanitation and heating; and the provisions of this section.
- B. The provisions of this section shall apply to: 1) single-family zones E-A, R-A, R-E, R-T, R-W, RD-M, L-C and R-1, areas designated by a master plan for single-family detached dwellings in P-C zones where agricultural uses are allowed; 2) lots within multifamily zones R-2, R-3, R-P and RMHP; 3) commercial, office and industrial zones C-1, O, C-2, C-T, C-M, C-L, M, P-M and P-U; and 4) open space zones O-S and CR-A/OS, which are developed with a farmworker housing complex.

- C. The property owner shall obtain all permits and/or approvals from the City of Carlsbad, as applicable, and the State Department of Housing and Community Development (HCD) pursuant to Title 25 of the California Code of Regulations. A farmworker housing complex may require a building permit, and if located in the coastal zone, may also require a coastal development permit issued according to the provisions of Chapter 21.201 of this title.
- D. A farmworker housing complex shall meet the setback, lot coverage, height, and other development standards applicable to the zone in which it is located. Additionally, a farmworker housing complex shall be located not less than seventy-five feet from barns, pens, or other structures that house livestock or poultry, pursuant to Title 25 of the California Code of Regulations, and not less than fifty feet from any other agricultural and non-agricultural use.
- E. All permanent farmworker housing shall provide landscaping around the entire perimeter of the housing to shield the housing from adjacent structures.
- F. Parking shall be as required by Chapter 21.44.
- G. Farmworker housing complexes shall comply, as applicable, with the following: 1) Employee Housing Act (California Health and Safety Code Sections 17000—17062); 2) Mobilehome Parks Act (California Health and Safety Code Sections 18200—18700); and Special Occupancy Parks Act (California Health and Safety Code Sections 18860—18874).
- H. Within thirty days after approval from the City of Carlsbad for farmworker housing, the applicant shall record in the office of the County Registrar-Recorder/County Clerk a covenant running with the land for the benefit of the City of Carlsbad, declaring that the farmworker housing will continuously be maintained as such in accordance with Title 21 of the Carlsbad Municipal Code and also that:
  - 1. The applicant will obtain and maintain, for as long as the farmworker housing is operated, the appropriate permit(s) from State Department of Housing and Community Development (HCD) pursuant to the Employee Housing Act and the regulations promulgated thereunder;
  - 2. The improvements required by the City of Carlsbad related to the farmworker housing shall be constructed and/or installed, and continuously maintained by the applicant;
  - 3. The applicant will submit the annual verification form to the City Planner as required by Section 21.10.125(I); and
  - 4. Any violation of the covenant and agreement required by this section shall be subject to the enforcement procedures of Title 1 of the Carlsbad Municipal Code.
- I. The property owner shall, if applicable: (1) complete and submit to the City Planner a verification form no later than thirty days after receiving a permit to operate from HCD; (2) a verification form shall be submitted to the City Planner annually to ensure compliance with Title 21 of the Carlsbad Municipal Code; and (3) the verification form shall include: information regarding the agricultural use, housing type, number of dwelling units or beds, number of occupants, occupants' employment information, and proof that a permit to operate from HCD has been obtained and maintained.
- J. Farmworker housing complex shall be removed from the property within 90 days of termination of the property's use from agricultural production.

(Ord. CS-189 § XIII, 2012)

**§ 21.10.130. Severability.**

If any section, subsection, sentence, clause, phrase or part of this chapter is for any reason found by a court of competent jurisdiction to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this chapter, which shall be in full force and effect. The City Council hereby declares that it would have adopted this chapter with each section, subsection, sentence, clause, phrase or part thereof regardless of the fact that any one or more sections, subsections, sentences, clauses, phrases, or parts be declared invalid or unconstitutional.

(Ord. NS-718 § 7, 2004)

**CHAPTER 21.12  
R-2 TWO-FAMILY RESIDENTIAL ZONE**

**Note: Prior ordinance history: Ord. Nos. 9060, 9336, 9343, 9674, 9731, 9785, 9804, 1256, NS-180, NS-243, NS-283, NS-355, NS-565, NS-663, and NS-675.**

**§ 21.12.010. Intent and purpose.**

- A. The intent and purpose of the R-2 two-family residential zone is to:
1. Implement the residential medium density (RM) land use designation of the Carlsbad general plan; and
  2. Provide regulations and standards for the development of residential dwellings, and other permitted or conditionally permitted uses, as specified in this chapter.

(Ord. NS-718 § 8, 2004)

**§ 21.12.020. Permitted uses.**

- A. In the R-2 zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of the zone, and is substantially similar to the specified permitted uses.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code:

"P" indicates the use is permitted. (See note 7 below)

"CUP" indicates that the use is permitted with approval of a conditional use permit. (See note 7 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Accessory buildings/structures (ex. garages, workshops, tool sheds, patio covers, decks, etc.) (see notes 1 and 2, below) (defined: Section 21.04.020)			X
Accessory dwelling unit (subject to Section 21.10.030; defined: Section 21.04.121)			X
Agricultural crops	X		
Animal keeping (household pets) (subject to Section 21.53.084)			X
Animal keeping (wild animals) (subject to Section 21.53.085)			X
Aquaculture (defined: Section 21.04.036)	2		
Biological habitat preserve (subject to Section 21.42.140(B)(30); defined: Section 21.04.048)	2		
Campsites (overnight) (subject to Section 21.42.140(B)(40))	2		
Cemeteries	3		
Churches, synagogues, temples, convents, monasteries and other places of worship	2		
Dwelling, one-family (defined: Section 21.04.125)	X		
Dwelling, two-family (see note 3, below) (defined: Section 21.04.130)	X		
Dwelling, multiple-family (see note 4, below) (defined: Section 21.04.135)	X		
Educational institutions or schools, public/private (defined: Section 21.04.140)		2	
Family day care home (large) (subject to Chapter 21.83; defined: Section 21.04.147)			X
Family day care home (small) (subject to Chapter 21.83; defined: Section 21.04.148)			X
Farmworker housing complex, small (subject to Section 21.10.125; defined: Section 21.04.148.4)	X		
Golf courses (see note 5, below)		3	
Greenhouses (2,000 square feet maximum)	X		
Greenhouses > 2,000 square feet (subject to Section 21.42.140(B)(70))		1	
Home occupation (subject to Section 21.10.040)			X
Junior accessory dwelling unit (accessory to a one-family dwelling; subject to Section 21.10.030; defined: Section 21.04.122)			X
Mobile buildings (subject to Section 21.42.140(B)(90); defined: Section 21.04.265)		2	
Mobile home (see note 6, below) (defined: Section 21.04.266)	X		
Packing/sorting sheds (600 square feet maximum)	X		

Use	P	CUP	Acc
Packing/sorting sheds > 600 square feet (subject to Section 21.42.140(B)(70))		1	
Public/quasi-public buildings and facilities and accessory utility buildings/facilities (defined: Section 21.04.297)		2	
Residential care facilities (serving six or fewer persons) (defined: Section 21.04.300)	X		
Satellite TV antennae (subject to Sections 21.53.130 through 21.53.150; defined: Section 21.04.302)			X
Signs (subject to Chapter 21.41; defined: Section 21.04.305)			X
Supportive housing (defined: Section 21.04.355.1)	X		
Temporary bldg./trailer (real estate or construction) (subject to Sections 21.53.090 and 21.53.110)	X		
Transitional housing (defined: Section 21.04.362)	X		
Wireless communication facilities (subject to Section 21.42.140(B)(165); defined: Section 21.04.379)		1 / 2	
Zoos (private) (subject to Section 21.42.140(B)(170); defined: Section 21.04.400)		2	

**Notes:**

1. Private garages (defined: Section 21.04.150) shall accommodate not more than two cars per dwelling unit.
2. When associated with a two-family or multiple-family dwelling, accessory buildings shall not include guesthouses or accessory living quarters (defined: Section 21.04.165).
3. If a one-family dwelling existed on a lot on the effective date of the ordinance codified in this title, a second one-family dwelling may be erected. Also, on corner lots two one-family dwellings may be erected if one house faces the street upon which such lot fronts and the other house faces upon the side street.
4. A multiple-family dwelling with a maximum of four units may be erected when the side lot line of a lot abuts R-P, commercial or industrial zoned lots, but in no case shall the property consist of more than one lot, or be more than ninety feet in width.
5. A conditional use permit is not required for a golf course if it is approved as part of a master plan for a planned community development.
6. Mobile homes must be certified under the National Mobilehome Construction and Safety Standards Act of 1974 (42 U.S.C. Section 5401 et seq.) on a foundation system pursuant to Section 18551 of the StateHealth and Safety Code.
7. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. NS-718 § 8, 2004; Ord. NS-746 § 7, 2005; Ord. NS-791 § 12, 2006; Ord. CS-102 §§ XXII—XXIV, 2010; Ord. CS-164 § 10, 2011; Ord. CS-189 § XIV, 2012; Ord. CS-191 § VIII, 2012; Ord. CS-224 §§ IX, X, 2013; Ord. CS-249 § VI, 2014; Ord. CS-324 § 2, 2017; Ord. CS-384 §§ 10, 15, 2020)

**§ 21.12.030. Building height.**

No building in the R-2 zone shall exceed a height of thirty feet and two stories if a minimum roof pitch of 3:12 is provided or twenty-four feet and two stories if less than a 3:12 roof pitch is provided for lots under twenty thousand square feet. Buildings on lots with a lot area of twenty thousand square feet or greater shall not exceed thirty-five feet and three stories with a minimum roof pitch of 3:12 provided.

(Ord. NS-718 § 8, 2004)

**§ 21.12.040. Front yard.**

Every lot in the R-2 zone shall have a front yard which has a depth not less than twenty feet, except that on key lots and on lots which side upon commercially or industrially zoned property, the depth of the required front yard need not exceed fifteen feet.

(Ord. NS-718 § 8, 2004)

**§ 21.12.050. Side yards.**

A. In the R-2 zone every lot shall have side yards as follows:

1. Interior lots shall have the following side yards:
  - a. A side yard shall be provided on each side of the lot which side yard has a width equal to ten percent of the lot width; provided that such side yard shall not be less than five feet in width and need not exceed ten feet;
  - b. The City Planner may approve a reduction in width of one side yard provided that the opposite side yard is increased in width by an amount equal to the reduction. The reduced side yard shall not be less than five feet in width nor shall it abut a lot or parcel of land with an adjacent reduced side yard, nor shall the increased side yard have a width of less than ten feet; and
  - c. In the event special circumstances exist, such as extreme topographical features and/or irregular shaped lots (such as those which front on cul-de-sacs), the City Planner may approve the application of a reduced side yard adjacent to a reduced side yard, subject to the following condition: a minimum of ten feet between buildings shall be maintained.
2. Corner lots and reversed corner lots shall have the following side yards:
  - a. On the side lot line which adjoins another lot, the side yard shall be equal to ten percent of the lot width; provided that such side yard shall not be less than five feet in width and need not exceed ten feet; and
  - b. On the side street, the width of the required side yard shall be ten feet and such side yard shall extend the full length of the lot.

(Ord. NS-718 § 8, 2004; Ord. CS-164 § 10, 2011)

**§ 21.12.060. Placement of buildings.**

A. Placement of buildings on any lot shall conform to the following, except as otherwise stated for accessory dwelling units (or junior accessory dwelling units where permitted) pursuant to Section 21.10.030:

1. Interior Lots.

- a. No building shall occupy any portion of a required yard;
  - b. Any building, any portion of which is used for human habitation, shall observe a distance from any side lot line the equivalent of the required side yard on such lot and from the rear property line the equivalent of twice the required side yard on such lot;
  - c. The distance between buildings used for human habitation and between buildings used for human habitation and accessory buildings shall not be less than ten feet;
  - d. All accessory structures shall comply with the following development standards:
    - i. The lot coverage shall include accessory structures in the lot coverage calculations for the lot,
    - ii. The distance between buildings used for human habitation and accessory buildings shall be not less than ten feet,
    - iii. When proposed on a lot adjoining native vegetation, accessory structures within a fire suppression zone must be reviewed and approved by the fire department,
    - iv. Buildings shall not exceed one story,
    - v. Building height shall not exceed fourteen feet if a minimum roof pitch of 3:12 is provided or ten feet if less than a 3:12 roof pitch is provided;
  - e. Habitable detached accessory structures shall comply with all requirements of the zone applicable to placement of a dwelling unit on a lot including setbacks;
  - f. Detached accessory structures which are not dwelling units and contain no habitable space, including, but not limited to, garages, workshops, tool sheds, decks over thirty inches above grade and freestanding patio covers shall comply with the following additional development standards when located within a lot's required setback areas:
    - i. The maximum allowable building area per structure shall not exceed a building coverage of four hundred forty square feet,
    - ii. The following setbacks shall apply: a front yard setback of twenty feet, a rear yard setback of five feet, a side yard setback of five feet and an alley setback of five feet,
    - iii. The maximum plumbing drain size shall be one and one-half inches in diameter so as to prohibit toilets, showers, bathtubs and other similar fixtures,
    - iv. The additional development standards listed above (subsections (A)(1)(f)(i) through (iii) of this section) shall apply to the entire subject accessory structure, not just the portion encroaching into a lot's setback area; and
  - g. The provisions of this section are applicable notwithstanding the permit requirements contained in Section 18.04.015.
2. Corner Lots and Reversed Corner Lots.
    - a. No building shall occupy any portion of a required yard;
    - b. The distance between buildings used for human habitation and between buildings used for human habitation and accessory buildings shall not be less than ten feet;

- c. Any building, any portion of which is used for human habitation, shall observe a distance from the rear property line the equivalent of twice the required interior side yard on such lot;
- d. All accessory structures shall comply with the following development standards:
  - i. The lot coverage shall include accessory structures in the lot coverage calculations for the lot,
  - ii. The distance between buildings used for human habitation and accessory buildings shall be not less than ten feet,
  - iii. When proposed on a lot adjoining native vegetation, accessory structures within a fire suppression zone must be reviewed and approved by the fire department,
  - iv. Buildings shall not exceed one story,
  - v. Building height shall not exceed fourteen feet if a minimum roof pitch of 3:12 is provided or ten feet if less than a 3:12 roof pitch is provided;
- e. Habitable detached accessory structures shall comply with all requirements of the zone applicable to placement of a dwelling unit on a lot including setbacks;
- f. Detached accessory structures which are not dwelling units and contain no habitable space, including, but not limited to, garages, workshops, tool sheds, decks over thirty inches above grade and freestanding patio covers shall comply with the following additional development standards when located within a lot's required setback areas:
  - i. The maximum allowable building area per structure shall not exceed a building coverage of four hundred forty square feet,
  - ii. The following setbacks shall apply: a front yard setback of twenty feet, a rear yard setback of five feet, a side yard setback of five feet and an alley setback of five feet,
  - iii. The maximum plumbing drain size shall be one and one-half inches in diameter so as to prohibit toilets, showers, bathtubs and other similar fixtures,
  - iv. The additional development standards listed above (subsections (A)(2)(f)(i) through (iii) of this section) shall apply to the entire subject accessory structure, not just the portion encroaching into a lot's setback area; and
- g. The provisions of this section are applicable notwithstanding the permit requirements contained in Section 18.04.015.

(Ord. NS-718 § 8, 2004; Ord. CS-324 § 11, 2017; Ord. CS-384 § 11, 2020)

#### **§ 21.12.070. Minimum lot area.**

- A. The minimum required area of a lot in the R-2 zone shall be not less than seven thousand five hundred square feet; except that when a lot is developed with a one-family dwelling, the minimum required lot area shall be not less than six thousand square feet, unless otherwise shown on the zoning map.
- B. All legally existing R-2 zoned lots, as of December 1, 1986, may be developed with a two-family dwelling regardless of the density allowed by the underlying general plan designation if they can comply with all applicable development standards in effect at the time of their development, and if

the findings to exceed the growth management control point density, as specified in Section 21.90.045, can be made.

(Ord. NS-718 § 8, 2004)

**§ 21.12.080. Lot width.**

- A. In the R-2 zone, every lot created after the effective date of the ordinance codified in this title shall maintain a width at the rear line of the required front yard of not less than the following:
  1. Lots required to have a minimum lot area of less than ten thousand square feet, sixty feet;
  2. Lots required to have a minimum lot area between ten thousand square feet to, but not including twenty thousand square feet, seventy-five feet;
  3. Lots required to have an area of twenty thousand square feet or more, eighty feet.

(Ord. NS-718 § 8, 2004)

**§ 21.12.090. Lot coverage.**

All buildings, including accessory buildings and structures, shall not cover more than fifty percent of the area of a lot.

(Ord. NS-718 § 8, 2004)

**CHAPTER 21.16  
R-3 MULTIPLE-FAMILY RESIDENTIAL ZONE**

**Note: Prior ordinance history: Ord. Nos. 9060, 9135, 9224, 9336, 9455, 9513, 9638, 9674, 9785, 9800, 9804, NS-243, NS-274, NS-283, NS-355, NS-409, NS-662, NS-663, and NS-675.**

**§ 21.16.010. Intent and purpose.**

- A. The intent and purpose of the R-3 multiple-family residential zone is to:
1. Implement the residential medium-high density (RMH) and residential high density (RH) land use designations of the Carlsbad general plan; and
  2. Provide regulations and standards for the development of residential dwellings and other permitted or conditionally permitted uses as specified in this chapter.

(Ord. NS-718 § 9, 2004)

**§ 21.16.020. Permitted uses.**

- A. In the R-3 zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of this zone, and is substantially similar to the specified permitted uses.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code:

"P" indicates the use is permitted. (See note 7 below)

"CUP" indicates that the use is permitted with approval of a conditional use permit. (See note 7 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

**Notes:**

1. Private garages (defined: Section 21.04.150) shall accommodate not more than two cars per dwelling unit.
2. When associated with a two-family or multiple-family dwelling, accessory buildings shall not include guesthouses or accessory living quarters (defined: Section 21.04.165).
3. One-family dwellings are permitted when developed as two or more detached units on one lot. Also, a single one-family dwelling shall be permitted on any legal lot that existed as of October 28, 2004, and which is designated and zoned for residential use. Any proposal to subdivide land or construct more than one dwelling shall be subject to the density provisions of the general plan and intent of the underlying residential land use designation.
4. A conditional use permit is not required for a golf course if it is approved as part of a master plan for a planned community development.

**Notes:**

5. Mobile homes must be certified under the National Mobilehome Construction and Safety Standards Act of 1974 (42 U.S.C. Section 5401 et seq.) on a foundation system pursuant to Section 18551 of the StateHealth and Safety Code.
6. A parking lot/structure (commercial) is permitted with approval of a CUP when the lot on which it is located in the R-3 zone abuts upon a lot zoned for commercial or industrial purposes.
7. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. NS-718 § 9, 2004; Ord. NS-746 § 8, 2005; Ord. NS-791 § 13, 2006; Ord. CS-102 §§ XXV—XXVII, 2010; Ord. CS-164 § 10, 2011; Ord. CS-178 § XII, 2012; Ord. CS-189 § XV, 2012; Ord. CS-191 § IX, 2012; Ord. CS-224 §§ XI, XII, 2013; Ord. CS-249 § VII, 2014; Ord. CS-324 § 2, 2017; Ord. CS-384 §§ 10, 15, 2020)

**§ 21.16.030. Building height.**

In the R-3 zone no building shall exceed a height of thirty-five feet.  
(Ord. NS-718 § 9, 2004)

**§ 21.16.040. Front yard.**

Every lot in the R-3 zone shall have a front yard of not less than twenty feet, except that on key lots and lots which side upon commercially or industrially zoned property the depth of the required front yard need not exceed fifteen feet.

(Ord. NS-718 § 9, 2004)

**§ 21.16.050. Side yards.**

A. In the R-3 zone every lot shall have side yards as follows:

1. Interior lots shall have a side yard on each side of the lot which side yard has a width not less than ten percent of the width of the lot; provided, that such side yard shall be not less than five feet in width and need not exceed ten feet; and
2. Corner lots and reversed corner lots shall have the following side yards:
  - a. On the side lot line which adjoins another lot, the side yard shall be the same as that required on an interior lot, and
  - b. On the side street side the width of the required side yard shall be ten feet and said side yard shall extend the full length of the lot.

(Ord. NS-718 § 9, 2004)

**§ 21.16.060. Placement of buildings.**

A. Placement of buildings on any lot shall conform to the following, except as otherwise stated for accessory dwelling units (or junior accessory dwelling units where permitted) pursuant to Section 21.10.030:

1. Interior Lots.
  - a. No building shall occupy any portion of a required yard;
  - b. Any building, any portion of which is used for human habitation, shall observe a distance from any side lot line the equivalent of the required side yard on such lot and from the rear property line the equivalent of twice the required side yard on such lot;
  - c. The distance between buildings used for human habitation and between buildings used for human habitation and accessory buildings shall not be less than ten feet;
  - d. All accessory structures shall comply with the following development standards:
    - i. The lot coverage shall include accessory structures in the lot coverage calculations for the lot,
    - ii. The distance between buildings used for human habitation and accessory buildings shall be not less than ten feet,
    - iii. When proposed on a lot adjoining native vegetation, accessory structures within a fire suppression zone must be reviewed and approved by the fire department,
    - iv. Buildings shall not exceed one story,
    - v. Building height shall not exceed fourteen feet if a minimum roof pitch of 3:12 is provided or ten feet if less than a 3:12 roof pitch is provided;
  - e. Habitable detached accessory structures shall comply with all requirements of the zone applicable to placement of a dwelling unit on a lot including setbacks;
  - f. Detached accessory structures which are not dwelling units and contain no habitable space, including, but not limited to, garages, workshops, tool sheds, decks over thirty inches above grade and freestanding patio covers shall comply with the following additional development standards when located within a lot's required setback areas:
    - i. The maximum allowable building area per structure shall not exceed a building coverage of four hundred forty square feet,
    - ii. The following setbacks shall apply: a front yard setback of twenty feet, a rear yard setback of five feet, a side yard setback of five feet and an alley setback of five feet,
    - iii. The maximum plumbing drain size shall be one and one-half inches in diameter so as to prohibit toilets, showers, bathtubs and other similar fixtures,
    - iv. The additional development standards listed above (subsections (A)(1)(f)(i) through (iii) of this section) shall apply to the entire subject accessory structure, not just the portion encroaching into a lot's setback area; and
  - g. The provisions of this section are applicable notwithstanding the permit requirements contained in Section 18.04.015.
2. Corner Lots and Reversed Corner Lots.
  - a. No building shall occupy any portion of a required yard;

- b. The distance between buildings used for human habitation and between buildings used for human habitation and accessory buildings shall not be less than ten feet;
- c. Any building, any portion of which is used for human habitation, shall observe a distance from the rear property line the equivalent of twice the required interior side yard on such lot;
- d. All accessory structures shall comply with the following development standards:
  - i. The lot coverage shall include accessory structures in the lot coverage calculations for the lot,
  - ii. The distance between buildings used for human habitation and accessory buildings shall be not less than ten feet,
  - iii. When proposed on a lot adjoining native vegetation, accessory structures within a fire suppression zone must be reviewed and approved by the fire department,
  - iv. Buildings shall not exceed one story,
  - v. Building height shall not exceed fourteen feet if a minimum roof pitch of 3:12 is provided or ten feet if less than a 3:12 roof pitch is provided;
- e. Habitable detached accessory structures shall comply with all requirements of the zone applicable to placement of a dwelling unit on a lot including setbacks;
- f. Detached accessory structures which are not dwelling units and contain no habitable space, including, but not limited to, garages, workshops, tool sheds, decks over thirty inches above grade and freestanding patio covers shall comply with the following additional development standards when located within a lot's required setback areas:
  - i. The maximum allowable building area per structure shall not exceed a building coverage of four hundred forty square feet,
  - ii. The following setbacks shall apply: a front yard setback of twenty feet, a rear yard setback of five feet, a side yard setback of five feet and an alley setback of five feet,
  - iii. The maximum plumbing drain size shall be one and one-half inches in diameter so as to prohibit toilets, showers, bathtubs and other similar fixtures,
  - iv. The additional development standards listed above (subsections (A)(2)(f)(i) through (iii) of this section) shall apply to the entire subject accessory structure, not just the portion encroaching into a lot's setback area; and
- g. The provisions of this section are applicable notwithstanding the permit requirements contained in Section 18.04.015.

(Ord. NS-718 § 9, 2004; Ord. CS-324 § 12, 2017; Ord. CS-384 § 11, 2020)

#### **§ 21.16.070. Minimum lot area.**

The minimum required area of a lot in the R-3 zone shall be not less than seven thousand five hundred square feet.

(Ord. NS-718 § 9, 2004; Ord. CS-102 § XXVIII, 2010)

**§ 21.16.080. Lot width.**

Every lot created after the effective date of the ordinance codified in this chapter shall maintain a width not less than sixty feet at the rear line of the required front yard.

(Ord. NS-718 § 9, 2004; Ord. CS-102 § XXIX, 2010)

**§ 21.16.090. Lot coverage.**

All buildings, including accessory buildings and structures, shall not cover more than sixty percent of the area of a lot.

(Ord. NS-718 § 9, 2004)

**CHAPTER 21.18  
R-P RESIDENTIAL PROFESSIONAL ZONE**

**Note: Prior ordinance history: Ord. Nos. 9060, 9224, 9336, 9391, 1256, 8674, 9606, 9785, 9804, NS-179, NS-240, NS-243, NS-274, NS-283, NS-402, NS-662, NS-663, and NS-675.**

**§ 21.18.010. Intent and purpose.**

- A. The intent and purpose of the R-P residential-professional zone is to:
1. Implement the office and related commercial (O), residential medium-high density (RMH) and residential high density (RH) land use designations of the Carlsbad general plan;
  2. Provide areas for the development of certain low-intensity business and professional offices and related uses in locations in conjunction with or adjacent to residential areas;
  3. Provide transitional light traffic-generating commercial areas between established residential areas and nearby commercial or industrial development; and
  4. Provide regulations and standards for the development of office and residential uses and other permitted or conditionally permitted uses as specified in this chapter.

(Ord. NS-718 § 10, 2004)

**§ 21.18.020. Permitted uses.**

- A. In an R-P residential zone, notwithstanding any other provision of this title, only the uses listed in Tables A and B, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Tables A and B, shall be subject to the provisions of Chapter 21.42 of this title.
- C. Uses similar to those listed in Tables A and B may be permitted if the City Planner determines such similar use falls within the intent and purpose of this zone, and is substantially similar to a specified permitted use.
- D. A use category may be general in nature, where more than one particular use fits into the general category (ex. in some commercial zones "offices" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in any zone, the use shall not be permitted in this R-P zone (even under a general use category), unless it is specifically listed in the zone as permitted or conditionally permitted.

**Table A  
Uses Permitted When the R-P Zone Implements the "O" (Office) General Plan Land Use  
Designation**

In the table, below, subject to all applicable permitting and development requirements of the municipal code:

"P" indicates the use is permitted. (See note 2 below)

**Table A**  
**Uses Permitted When the R-P Zone Implements the "O" (Office) General Plan Land Use Designation**

"CUP" indicates that the use is permitted with approval of a conditional use permit. (See note 2 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Accessory buildings/structures, which are customarily appurtenant to a permitted use (ex. incidental storage facilities) (see note 1, below) (defined: Section 21.04.020)			X

**Notes:**

1. Private garages (defined: Section 21.04.150) shall accommodate not more than two cars per dwelling unit.
2. When associated with a two-family or multiple-family dwelling, accessory buildings shall not include guesthouses or accessory living quarters (defined: Section 21.04.165).
3. One-family dwellings are permitted when developed as two or more detached units on one lot. Also, a single one-family dwelling shall be permitted on any legal lot that existed as of October 28, 2004, and which is designated and zoned for residential use. Any proposal to subdivide land or construct more than one dwelling shall be subject to the density and intent of the underlying residential land use designation.
4. A two-family dwelling shall not be permitted within the RH land use designation.

**Notes:**

5. Mobile homes must be certified under the National Mobilehome Construction and Safety Standards Act of 1974 (42 U.S.C. Section 5401 et seq.) on a foundation system pursuant to Section 18551 of the StateHealth and Safety Code.

(Ord. NS-718 § 10, 2004; Ord. NS-746 § 9, 2005; Ord. NS-791 § 14, 2006; Ord. CS-102 §§ XXX, XXXI, 2010; Ord. CS-164 § 10, 2011; Ord. CS-178 §§ XIII, XIV, 2012; Ord. CS-189 §§ XVI—XVIII, 2012; Ord. CS-191 § X, 2012; Ord. CS-224 §§ XIII, XIV, 2013; Ord. CS-249 § VIII, 2014; Ord. CS-324 § 2, 2017; Ord. CS-384 §§ 10, 15, 2020)

**§ 21.18.030. Development standards.**

- A. Subject to the general development standards of Chapters 21.41 and 21.44, no lot shall be created or structure constructed in the R-P zone that does not conform to the following specific standards:
  1. Lot Area Minimum. In the R-P zone the minimum area of all lots hereafter created shall be seven thousand five hundred square feet.
  2. Lot Width Minimum. Every lot hereafter created in the R-P zone shall maintain a minimum lot width at the rear line of the required front yard on the basis of the following:

Lot Area	Required Width
Less than 10,000 sq. ft.	60 feet
Less than 20,000 sq. ft.	75 feet
More than 20,000 sq. ft.	80 feet

3. Front Yard. Every lot in the R-P zone shall have a front yard of not less than twenty feet in depth, except key lots which side upon commercially or industrially-zoned property shall maintain a front yard of not less than fifteen feet.
4. Side Yard. In the R-P zone every lot shall have side yards as follows:
  - a. Interior lots shall have side yards that have width equal to ten percent of the lot width, provided that such side yard shall not be less than five feet in width and need not exceed ten feet in width; and
  - b. Corner lots shall have a side yard on the side lot line adjacent to another lot of a width within the limitations for an interior lot above and a side yard adjacent to the street of ten feet.
5. Rear Yard. In the R-P zone every lot shall have a rear yard of a depth equal to twenty percent of the lot width, provided that such rear yard need not exceed twenty feet.
6. Separation of Buildings. In addition to the required yards, buildings shall be set as follows:
  - a. Minimum distance between habitable buildings, ten feet; and
  - b. Minimum distance between habitable buildings and accessory structures, ten feet.
7. All accessory structures shall comply with the following development standards, except as otherwise permitted for accessory dwelling units pursuant to Section 21.10.030:

- a. The lot coverage shall include accessory structures in the lot coverage calculations for the lot;
  - b. The distance between buildings used for human habitation and accessory buildings shall be not less than ten feet;
  - c. When proposed on a lot adjoining native vegetation, accessory structures within a fire suppression zone must be reviewed and approved by the fire department;
  - d. Buildings shall not exceed one story; and
  - e. Building height shall not exceed fourteen feet if a minimum roof pitch of 3:12 is provided or ten feet if less than a 3:12 roof pitch is provided.
8. Habitable detached accessory structures shall comply with all requirements of the zone applicable to placement of a dwelling unit of a lot including setbacks.
  9. Detached accessory structures, which are not dwelling units and contain no habitable space, including, but not limited to, garages, workshops, tool sheds, decks over thirty inches above grade and freestanding patio covers shall comply with the following additional development standards when located within a lot's required setback areas:
    - a. The maximum allowable building area per structure shall not exceed a building coverage of four hundred forty square feet;
    - b. The following setbacks shall apply: A front yard setback of twenty feet, a rear yard setback of five feet, a side yard setback of five feet, and an alley setback of five feet;
    - c. The maximum plumbing drain size shall be one and one-half inches in diameter so as to prohibit toilets, showers, bathtubs and other similar fixtures; and
    - d. The additional development standards listed above (subsections (A)(10)(a) through (c) of this section) shall apply to the entire subject accessory structure, not just the portion encroaching into a lot's setback area.
  10. The provisions of this section are applicable notwithstanding the permit requirements contained in Section 18.04.015.
  11. Other than as provided in subsection (A)(9) above, no building shall be located in any of the required yards.
  12. Height Limits. In the R-P zone the maximum building height shall be thirty-five feet.
  13. Lot Coverage. In the R-P zone all buildings shall not cover more than sixty percent of the total lot area.
  14. Parking Off-Street. Parking shall not be provided in the required front or side yards.
- (Ord. NS-718 § 10, 2004; Ord. CS-324 § 13, 2017; Ord. CS-384 § 16, 2020)

#### **§ 21.18.040. Special conditions and standards.**

- A. In addition to the established development standards, when applicable the following conditions shall be met:
  1. Outside Display and Storage. No outdoor display of products or storage shall be permitted.

2. Residential Structure Conversion. All existing residential structures converted to commercial purposes shall be brought into conformance with all the requirements of this title and Title 18 of this code.
3. Walls. Any lot proposed for nonresidential development which adjoins a lot located in a residential zone district shall have a solid masonry wall of six feet in height installed along the common lot line, except in the front yard area where the wall shall be reduced to forty-two inches in height.
4. Enclosure of Activities. All nonresidential uses shall be located in a completely enclosed building.

(Ord. NS-718 § 10, 2004)

**CHAPTER 21.20  
R-T RESIDENTIAL TOURIST ZONE**

**§ 21.20.010. Permitted uses.**

- A. In an R-T zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of this zone, and is substantially similar to the specified permitted uses.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code:

"P" indicates the use is permitted. (See note 2 below)

"CUP" indicates that the use is permitted with approval of a conditional use permit. (See note 2 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

**Notes:**

1. Signs. (A) Nameplates not exceeding two square feet in area containing the name of the occupant of the premises, (B) One lighted sign not exceeding twenty square feet in area identifying permitted uses, provided such sign is stationary and nonflashing, is placed on the wall of the building, does not extend above or out from the front wall, and contains no advertising matter except the name and street address of the building upon which it is placed, (C) One unlighted sign not exceeding twelve square feet in area pertaining only to the sale, lease or hire of only the particular building, property or premises upon which displayed, or to identify public parking lots as permitted in this zone, (D) Location of the above signs shall not be closer to the front property line than midway between the front property line and the front setback line, and under no conditions closer than seven and one-half feet from the front property line; except that on key lots and lots which side upon commercially or industrially zoned property, the sign may be placed not closer than five feet to the property line.
2. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. 9060 § 900; Ord. 9135 § 1; Ord. 9146 § 1; Ord. 9171 § 1; Ord. 9188 § 1; Ord. 9785 § 10, 1986; Ord. 9800 § 4, 1986; Ord. 9804 § 6, 1986; Ord. NS-409 § 8, 1997; Ord. NS-791 § 15, 2006; Ord. CS-102 §§ XXXII, XXXIII, 2010; Ord. CS-189 § XIX, 2012; Ord. CS-191 § XI, 2012; Ord. CS-224 §§ XV, XVI,

2013; Ord. CS-225 § I, 2013; Ord. CS-249 § IX, 2014; Ord. CS-324 § 14, 2017; Ord. CS-384 § 17, 2020)

**§ 21.20.030. Building height.**

No building in the R-T zone shall exceed a height of thirty-five feet.  
(Ord. 9060 § 902; Ord. 9188 § 1; Ord. NS-180 § 14, 1991)

**§ 21.20.040. Front yard.**

There shall be a front yard of not less than twenty feet in depth.  
(Ord. 9060 § 903; Ord. 9188 § 1)

**§ 21.20.050. Side yards.**

In the R-T zone every lot shall have side yards as follows:

- (1) Interior lots shall have a side yard of not less than ten feet in width on one side of the lot and not less than five feet in width on the other side;
- (2) Corner lots and reversed corner lots shall have the following side yards:
  - (A) On the side lot line which adjoins another lot, the side yard shall be not less than five feet in width,
  - (B) On the side street side the width of the required side yard shall be ten feet in width and said side yard shall extend the full length of the lot;
  - (C) Garages or carports with vehicular egress opening toward a side street shall be located with a minimum of twenty feet between the garage or carport and the side street property line.

(Ord. 9060 § 904; Ord. 9188 § 1)

**§ 21.20.060. Use of setback areas.**

A required front or side yard shall not be used for vehicle parking except such portion as is devoted to driveway use. No automobile trailer, camper or boat may be stored or parked in a required front or side yard for any period exceeding seventy-two hours.

(Ord. 9060 § 905; Ord. 9188 § 1)

**§ 21.20.070. Rear yard.**

There shall be a rear yard of not less than twenty feet in depth.  
(Ord. 9060 § 906; Ord. 9188 § 1)

**§ 21.20.080. Accessory structures.**

- (1) All accessory structures shall comply with the following development standards, except as otherwise permitted for accessory dwelling units pursuant to Section 21.10.030:
  - (A) The lot coverage shall include accessory structures in the lot coverage calculations for the lot.
  - (B) The distance between buildings used for human habitation and accessory buildings shall be not less than ten feet.

- (C) When proposed on a lot adjoining native vegetation, accessory structures within a fire suppression zone must be reviewed and approved by the fire department.
- (D) Buildings shall not exceed one story.
- (E) Building height shall not exceed fourteen feet if a minimum roof pitch of 3:12 is provided or ten feet if less than a 3:12 roof pitch is provided.
- (2) Habitable detached accessory structures shall comply with all requirements of the zone applicable to placement of a dwelling unit on a lot including setbacks.
- (3) Detached accessory structures, which are not dwelling units and contain no habitable space, including, but not limited to, garages, workshops, tool sheds, decks over thirty inches above grade, and freestanding patio covers shall comply with the following additional development standards when located within a lot's required setback areas:
- (A) The maximum allowable building area per structure shall not exceed a building coverage of four hundred forty square feet.
- (B) The following setbacks shall apply: A front yard setback of twenty feet, a rear yard setback of five feet, a side yard setback of five feet, and an alley setback of five feet.
- (C) The maximum plumbing drain size shall be one and one-half inches in diameter so as to prohibit toilets, showers, bathtubs and other similar fixtures.
- (D) The additional development standards listed above (subsections (3)(A) through (C) of this section) shall apply to the entire subject accessory structure, not just the portion encroaching into a lot's setback area.
- (4) The provisions of this section are applicable notwithstanding the permit requirements contained in Section 18.04.015.

(Ord. 9060 § 907; Ord. 9188 § 1; Ord. NS-243 § 17, 1993; Ord. NS-355 § 12, 1996; Ord. NS-718 § 12, 2004; Ord. CS-324 § 15, 2017; Ord. CS-384 § 18, 2020)

#### **§ 21.20.090. Minimum lot area.**

- (a) The minimum lot area shall be not less than seven thousand five hundred square feet except when an application for site plan review has been approved.
- (b) Lot sizes larger than the required area: A number following the zoning symbol shall mean the minimum lot size in square feet.

(Ord. 9060 § 908; Ord. 9188 § 1; Ord. 9336 § 7, 1972)

#### **§ 21.20.100. Lot width.**

Every lot created after the effective date of the ordinance amendment codified in this section shall maintain a width of not less than the following:

- (1) Lots with a minimum area of nine thousand nine hundred ninety-nine square feet or less shall have a width of not less than sixty feet except when an application for site plan review has been approved;
- (2) Lots which have a minimum lot area of ten thousand square feet or more shall maintain a width of not less than seventy-five feet.

(Ord. 9060 § 910; Ord. 9188 § 1; Ord. NS-675 § 29, 2003)

**§ 21.20.110. Lot coverage.**

All buildings, including accessory buildings and structures, shall not cover more than seventy-five percent of the area of the lot, except when an application for site plan review has been approved.  
(Ord. 9060 § 911; Ord. 9188 § 1; Ord. NS-675 § 29, 2003)

## CHAPTER 21.21 H-O HOSPITAL OVERLAY ZONE

### **§ 21.21.010. Intent and purpose.**

The intent and purpose of the hospital overlay (H-O) zone is to:

- (1) Provide for the development of hospital facilities to meet the community's major medical needs;
- (2) Provide a method whereby hospitals may be developed in existing zones;
- (3) Promote comprehensive planning of a major hospital in conjunction with supporting facilities;
- (4) Ensure the compatibility of a hospital with surrounding future and existing land use;
- (5) Provide the city with a procedure to analyze fiscal and environmental impacts caused by a hospital and its supporting facilities.

(Ord. 9743 § 1, 1984)

### **§ 21.21.015. Prohibition.**

Hospitals shall be located only on property which has hospital overlay zoning.

(Ord. 9743 § 1, 1984)

### **§ 21.21.020. Application.**

The H-O zone may be applied to property in any zone except the CT, R-T, R-W, O-S and RMHP zones. The H-O zone may not be applied to an area less than twenty-five acres in size. In addition to the required application for a zone change, application for the H-O zone shall also include a traffic study analyzing possible impacts on surrounding streets and intersections, and an economic impact analysis describing the positive and negative fiscal impacts of a hospital and any supporting facility on the city.

(Ord. 9743 § 1, 1984)

### **§ 21.21.030. Criteria for implementation.**

Before application of the H-O zone to any property the following conditions must exist:

- (1) There is a need in the community for a hospital at the proposed location;
- (2) The proposed zone will be compatible with surrounding zoning and land use;
- (3) Development of a hospital at the proposed location will not be detrimental to public safety and welfare;
- (4) The proposed site is suitable in size and location for a major hospital facility;
- (5) The circulation system is adequate to serve a major hospital facility;
- (6) The proposed hospital will not create any significant impacts on the environment;
- (7) Development of the hospital will not cause adverse economic impacts on the city which cannot be mitigated to an acceptable level or for which the council cannot find that the need for the hospital overrides the negative economic impact;

(8) The proposed hospital has met all the criteria for hospitals under Division 1, Part 1.5 of the California Health and Safety Code;

(9) A site development plan is submitted under this chapter concurrently with the application for the zone change.

(Ord. 9743 § 1, 1984)

#### **§ 21.21.040. Permitted uses.**

Subject to the approval of a site development plan processed pursuant to this chapter the following uses are permitted in the H-O zone:

(1) Hospital (as defined in Section 21.04.170 of this code);

(2) Accessory uses and structures where related to the hospital, including, but not limited to, the following:

(A) Laboratories,

(B) Medical offices,

(C) Pharmacies,

(D) Health services such as senior citizens nutrition centers, physical therapy facilities and medical clinics,

(E) Trauma facilities, including, but not limited to, overnight residential facilities for trauma staff, helicopter pads,

(F) Skilled nurse facilities,

(G) Residential care facilities,

(H) Alcohol and drug care facilities,

(I) Restaurants within a hospital,

(J) Medical research facilities,

(K) Other similar uses normally associated with a hospital or medical offices;

(3) Child day care centers, subject to the provisions of Chapter 21.83 of this title.

(Ord. 9743 § 1, 1984; Ord. NS-409 § 9, 1997)

#### **§ 21.21.050. Site development plan.**

(a) Approval of a site development plan, processed according to the provisions of Chapter 21.06 (Q-overlay) shall be required for any development in the H-O zone except that for review of a hospital the Planning Commission shall act in an advisory capacity to the City Council. After review by the Planning Commission, the site development plan for the hospital shall be submitted to the City Council for approval. The site plan shall be processed for review by the City Council in the same manner as the plan is processed for Planning Commission review. After construction of the hospital, site plans for the development of accessory uses permitted in this zone shall be reviewed by the Planning Commission with appeal to the City Council. A hospital and accessory uses proposed as one

development may be approved by a single site plan which would be processed in the same manner as a hospital alone.

- (b) The site development plan shall include any conditions necessary to ensure compliance with the provisions of Section 21.21.030. Such conditions may include, but shall not be limited to, requirements for street and public facility improvements on and off the site, requirements for mitigation of adverse economic impacts, including, but not limited to, the payment of fees to provide public facilities, and requirements for mitigation of adverse environmental impacts.

(Ord. 9743 § 1, 1984)

#### **§ 21.21.060. Lot area.**

The minimum lot size for newly created lots within this zone shall be twenty-five thousand square feet.  
 (Ord. 9743 § 1, 1984)

#### **§ 21.21.070. Lot width.**

Every newly created lot shall have a width of not less than one hundred feet at the rear line of the required front yard.

(Ord. 9743 § 1, 1984)

#### **§ 21.21.080. Building height.**

The maximum height of structures within the H-O zone shall not exceed thirty-five feet. Additional building height may be permitted by a site development plan approved by the City Council.

(Ord. 9743 § 1, 1984)

#### **§ 21.21.090. Setbacks.**

Every lot shall provide required yards, measured from the property line as follows:

	<b>Driveways/Parking</b>	<b>1 Story Building</b>	<b>2—3 Stories up to 35'</b>
Front yard	10	15	20
Front yard on an arterial	20	25	35
Front yard on a prime arterial	30	40	50
Street side yard	10	15	20
Side yard on an arterial	15	20	30
Side yard on a prime arterial	30	40	50
Interior side yard	5	10	10
Rear yard	5	10	10

Through lots shall be considered to have two front yards and shall observe setbacks accordingly.

(Ord. 9743 § 1, 1984)

#### **§ 21.21.100. Setbacks—Structures over thirty-five feet in height.**

The above specified yard requirements apply only to those structures up to a height of thirty-five feet. For any other structure, which has been approved for increased height by site development plan, all required

yards shall be increased at a ratio of 0.5 additional feet horizontally, for every 1.5 feet of additional vertical construction.

(Ord. 9743 § 1, 1984)

#### **§ 21.21.110. Landscaping.**

All landscaping shall comply with the city landscape guidelines manual. All landscaped areas shall be served by a permanent irrigation system including bubblers or sprinklers. Prior to approval of a building permit, each applicant shall submit a landscape and irrigation plan for the approval of the City Planner. All approved improvements shall be installed prior to occupancy of the building.

- (1) Required Yards. All setback areas shall be planted with plant species consistent with the city landscape guidelines manual. Variations in ground plane by use of undulating mounding is encouraged to screen parking areas and to enhance the landscaping and building architecture. Landscaping along arterials should comply with the city's streetscaping program.
- (2) Parking Areas. A minimum of ten percent of that portion of the site devoted to uncovered parking shall be landscaped. Landscaping shall be designed so as to offer relief from the monotony of rows of parked cars, and to create an overhead canopy. A minimum of one fifteen gallon tree per five parking stalls shall be required in the parking area. All exposed parking areas shall be screened with landscaping, contouring and mounding.

(Ord. 9743 § 1, 1984; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011)

#### **§ 21.21.120. Building coverage.**

- (a) For developments which utilize surface parking, all structures shall not cover more than fifty percent of the lot on which they are located.
- (b) For developments which include a parking structure or parking is located within or under the building it serves, the total coverage of all structures shall not exceed seventy-five percent of the lot. This provision shall apply only if seventy-five percent of the required parking is located in the parking structure or within or under the building it serves.

(Ord. 9743 § 1, 1984)

#### **§ 21.21.130. Signs.**

A detailed sign program shall be submitted to the City Planner for approval prior to occupancy of any new building or installation of any new signs. All signs proposed in the H-O zone shall comply with the provisions of Chapter 21.41 and the following regulations:

- (1) Total Permitted Sign Area. Total maximum allowable area of all signs, including monument signs, shall not exceed one square foot per lineal foot of building frontage.
- (2) Monument Signs. One freestanding monument sign may be permitted for each lot. Said monument sign shall be no greater than six feet in height or six feet in length, (including the base) with a maximum of two sign faces. Comprehensively planned developments of a hospital and accessory uses may be permitted additional monument signs, above the allowable area, through the site development plan process.

(Ord. 9743 § 1, 1984; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011)

#### **§ 21.21.140. Parking.**

A. Parking shall be provided subject to the provisions of Chapter 21.44 of this title.

B. Additional parking may be required as part of the site development plan.  
(Ord. 9743 § 1, 1984; Ord. 9804 § 3, 1986; Ord. CS-102 § XXXIV, 2010)

#### **§ 21.21.150. Walls and fences.**

A solid masonry or stucco wall, six feet in height, shall be constructed along the common lot line with any residentially zoned property, except in the front yard where the wall shall be reduced to forty-two inches in height. Walls and fences up to a height of six feet are permitted except that no wall or fence shall be erected in any front yard setback in excess of forty-two inches and that all walls and fences shall observe a minimum setback of ten feet from the property line for a side yard on a street. Chain link, barbed wire, razor ribbon or other similar fences are specifically not permitted.

(Ord. 9743 § 1, 1984)

#### **§ 21.21.160. Lighting.**

- (a) Exterior lighting is required for all employee and visitor parking areas, walkways, and building entrances and exits.
  - (b) Light sources shall be designed to avoid direct or indirect glare to any off-site properties or public rights-of-way.
- (Ord. 9743 § 1, 1984)

#### **§ 21.21.170. Roof—Appurtenances.**

All roof appurtenances, including air conditioners, shall be architecturally integrated and shielded from view and the sound buffered from adjacent properties and streets, to the satisfaction of the City Planner.  
(Ord. 9743 § 1, 1984; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011)

#### **§ 21.21.180. Trash enclosures.**

Trash receptacle areas shall be enclosed by a six-foot-high masonry wall with gates pursuant to city standards.  
(Ord. 9743 § 1, 1984)

#### **§ 21.21.190. Loading areas.**

All loading areas shall be oriented and/or screened so as to be unobtrusive from the adjacent streets or properties.  
(Ord. 9743 § 1, 1984)

#### **§ 21.21.200. Expiration.**

If construction of the hospital has not commenced within two years from the approval of the hospital overlay zone and site development plan on a specific area, the H-O zone and site plan shall expire and the property will return to its underlying zoning.  
(Ord. 9743 § 1, 1984)

**CHAPTER 21.22  
R-W RESIDENTIAL WATERWAY ZONE**

**Note: Prior ordinance history: Ord. Nos. 9060, 9189, 9336, 9638, 9785, 9804, NS-180, NS-243, NS-274, NS-283, NS-355, NS-409, NS-662, NS-663, and NS-675.**

**§ 21.22.010. Intent and purpose.**

- A. The intent and purpose of the R-W residential waterway zone is to:
1. Implement the residential high density (RH) land use designation of the Carlsbad general plan;
  2. Provide an area in which residential development centered about a navigable waterway may be accommodated; and
  3. Provide regulations and standards for the development of residential dwellings and other permitted or conditionally permitted uses as specified in this chapter.

(Ord. NS-718 § 13, 2004)

**§ 21.22.020. Permitted uses.**

- A. In an R-W zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of this zone, and is substantially similar to the specified permitted uses.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code:

"P" indicates use is permitted. (See note 7 below)

"CUP" indicates use is permitted with approval of a conditional use permit. (See note 7 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Accessory buildings/structures (e.g., garages, workshops, tool sheds, patio covers, decks, etc.) (see notes 1 and 2 below) (defined: Section 21.04.020)			X
Accessory dwelling unit (subject to Section 21.10.030; defined: Section 21.04.121)			X
Animal keeping (household pets) (subject to Section 21.53.084)			X
Animal keeping (wild animals) (subject to Section 21.53.085)			X
Aquaculture (defined: Section 21.04.036)	2		
Biological habitat preserve (subject to Section 21.42.140(B)(30); defined: Section 21.04.048)	2		
Boat launching/docking facilities (see note 3 below)	X		
Campsites (overnight) (subject to Section 21.42.140(B)(40))	2		
Cemeteries	3		
Churches, synagogues, temples, convents, monasteries, and other places of worship	2		
Dwelling, one-family (see note 4 below) (defined: Section 21.04.125)	X		
Dwelling, two-family (defined: Section 21.04.130)	X		
Dwelling, multiple-family (subject to Section 21.53.120 if more than 4 units are proposed; defined: Section 21.04.135)	X		
Educational institutions or schools, public/private (defined: Section 21.04.140)	2		
Family day care home (large), subject to Chapter 21.83 (defined: Section 21.04.147)			X
Family day care home (small) (subject to Chapter 21.83; defined: Section 21.04.148)			X
Farmworker housing complex, small (subject to Section 21.10.125; defined: Section 21.04.148.4)	1		
Greenhouses > 2,000 square feet (subject to Section 21.42.140(B)(70))	1		
Golf courses (see note 5 below)	3		
Home occupation (subject to Section 21.10.040)			X
Housing for senior citizens (subject to Chapter 21.84)	X		
Junior accessory dwelling unit (accessory to a one-family dwelling; subject to Section 21.10.030; defined: Section 21.04.122)			X
Mobile buildings (subject to Section 21.42.140(B)(90); defined: Section 21.04.265)	2		
Mobile home (see notes 4 and 6 below) (defined: Section 21.04.266)	X		
Packing/sorting sheds > 600 square feet (subject to Section 21.42.140(B)(70))	1		

Use	P	CUP	Acc
Public/quasi-public buildings and facilities and accessory utility buildings/facilities (defined: Section 21.04.297)	2		
Residential care facilities (serving six or fewer persons) (defined: Section 21.04.300)	X		
Satellite TV antennae (subject to Sections 21.53.130 through 21.53.150; defined: Section 21.04.302)			X
Signs, subject to Chapter 21.41 (defined: Section 21.04.305)			X
Supportive housing (defined: Section 21.04.355.1)	X		
Temporary bldg./trailer (real estate or construction), subject to Sections 21.53.090 and 21.53.110	X		
Transitional housing (defined: Section 21.04.362)	X		
Windmills (exceeding height limit of zone) (subject to Section 21.42.140(B)(160))	1 / 2		
Zoos (private) (subject to Section 21.42.140(B)(170); defined: Section 21.04.400)	2		

**Notes:**

1. Private garages (defined: Section 21.04.150) shall accommodate not more than two cars per dwelling unit.
2. When associated with a two-family or multiple-family dwelling, accessory buildings shall not include guesthouses or accessory living quarters (defined: Section 21.04.165).
3. Boat launching and docking facilities are permitted only for the sole use of residents of any subdivision in which the facility is located, and which is within the R-W zone.
4. One-family dwellings are permitted when developed as two or more detached units on one lot. Also, a single one-family dwelling shall be permitted on any legal lot that existed as of October 28, 2004, and which is designated and zoned for residential use. Any proposal to subdivide land or construct more than one dwelling shall be subject to the density provisions of the general plan and intent of the underlying residential land use designation.
5. A conditional use permit is not required for a golf course if it is approved as part of a master plan for a planned community development.
6. Mobile homes must be certified under the National Mobile Home Construction and Safety Standards Act of 1974 (42 U.S.C. Section 5401 et seq.) on a foundation system pursuant to Section 18551 of the StateHealth and Safety Code.
7. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. NS-718 § 13, 2004; Ord. NS-746 § 10, 2005; Ord. NS-791 § 16, 2006; Ord. CS-102 §§ XXXV—XXXVII, 2010; Ord. CS-164 § 10, 2011; Ord. CS-189 § XX, 2012; Ord. CS-191 § XII, 2012; Ord. CS-224 § XVII, 2013; Ord. CS-249 § X, 2014; Ord. CS-324 § 2, 2017; Ord. CS-384 §§ 10, 15, 2020)

**§ 21.22.030. Building height.**

No building in the R-W zone shall exceed a height of thirty-five feet.  
(Ord. NS-718 § 13, 2004)

**§ 21.22.040. Front yard.**

Every lot shall have a front yard of not less than ten feet in depth.  
(Ord. NS-718 § 13, 2004)

**§ 21.22.050. Side yard.**

A. Every lot shall have side yards as follows:

1. Interior lots shall have a side yard on each side of the lot of not less than four feet in width;
2. Corner lots and reversed corner lots shall have the following side yards:
  - a. On the side lot line which adjoins another lot, the side yard shall be the same as that required on an interior lot, and
  - b. On the side street side the width of the required side yard shall be eight feet.

(Ord. NS-718 § 13, 2004)

**§ 21.22.060. Rear yard.**

There shall be a rear yard of not less than eight feet in depth.  
(Ord. NS-718 § 13, 2004)

**§ 21.22.070. Accessory structures.**

- A. All accessory structures shall comply with the following development standards, except as otherwise permitted for accessory dwelling units pursuant to Section 21.10.030:
  1. The lot coverage shall include accessory structures in the lot coverage calculations for the lot;
  2. The distance between buildings used for human habitation and accessory buildings shall be not less than ten feet;
  3. When proposed on a lot adjoining native vegetation, accessory structures within a fire suppression zone must be reviewed and approved by the fire department;
  4. Buildings shall not exceed one story;
  5. Building height shall not exceed fourteen feet if a minimum roof pitch of 3:12 is provided or ten feet if less than a 3:12 roof pitch is provided; and
- B. Habitable detached accessory structures shall comply with all requirements of the zone applicable to placement of a dwelling unit on a lot including setbacks.
- C. Detached accessory structures which are not dwelling units and contain no habitable space, including, but not limited to, garages, workshops, tool sheds, decks over thirty inches above grade and freestanding patio covers shall comply with the following additional development standards when located within a lot's required setback areas:

1. The maximum allowable building area per structure shall not exceed a building coverage of four hundred forty square feet;
  2. The following setbacks shall apply: a front yard setback of twenty feet, a rear yard setback of five feet, a side yard setback of five feet, and an alley setback of five feet;
  3. The maximum plumbing drain size shall be one and one-half inches in diameter so as to prohibit toilets, showers, bathtubs and other similar fixtures; and
  4. The additional development standards listed above (subsections (C)(1) through (3) of this section) shall apply to the entire subject accessory structure, not just the portion encroaching into a lot's setback area.
- D. The provisions of this section are applicable notwithstanding the permit requirements contained in Section 18.04.015.

(Ord. NS-718 § 13, 2004; Ord. CS-324 § 16, 2017; Ord. CS-384 § 19, 2020)

#### **§ 21.22.080. Minimum lot area.**

The minimum required area of a lot in the R-W zone shall not be less than five thousand square feet.  
(Ord. NS-718 § 13, 2004)

#### **§ 21.22.090. Lot width.**

Every lot shall have a width of not less than forty feet at the rear line of the required front yard.  
(Ord. NS-718 § 13, 2004)

#### **§ 21.22.100. Lot coverage.**

All buildings, including accessory buildings and structures, shall not cover more than seventy-five percent of the area of the lot.

(Ord. NS-718 § 13, 2004)

#### **§ 21.22.110. Waterway access.**

- A. Not less than seventy percent in number of the R-W zoned lots in any subdivision in an R-W zone shall have direct access to a navigable waterway.
- B. For each twenty lots or portion thereof without direct access to a navigable waterway, there shall be provided a boat launching facility within the subdivision on an R-W zoned lot which does have direct access to a navigable waterway. The area of such lot not utilized for the boat launching facility shall be improved for parking and shall conform to the requirements of Sections 21.44.080 and 21.44.100.
- C. "Direct access" for the purpose of this section means that at least twenty feet or one-half, whichever is the longer, of a side or rear lot line shall border upon such navigable waterway.
- D. "Navigable waterway" for the purpose of this section means an ocean inlet or lagoon, or other arm of the sea, actually usable for boating; and any channel actually usable for boating and docking facilities connecting with an ocean inlet or lagoon or other arm of the sea.

(Ord. NS-718 § 13, 2004)

**CHAPTER 21.24  
RD-M RESIDENTIAL DENSITY-MULTIPLE ZONE**

**Note: Prior ordinance history: Ord. Nos. 9060, 9251, 9336, 9455, 9513, 9534, 9638, 9658, 9674, 9785, 9804, 1256, 1261, NS-186, NS-243, NS-274, NS-283, NS-355, NS-409, NS-662, NS-663, and NS-675.**

**§ 21.24.010. Intent and purpose.**

- A. The intent and purpose of the RD-M residential density-multiple zone is to:
  - 1. Implement the residential medium density (RM), residential medium-high density (RMH) and residential high density (RH) land use designations of the Carlsbad general plan; and
  - 2. Provide regulations and standards for the development of residential dwellings and other permitted or conditionally permitted uses as specified in this chapter.

(Ord. NS-718 § 14, 2004)

**§ 21.24.020. Permitted uses.**

- A. In the RD-M zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. Uses similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purpose of this zone, and is substantially similar to a specified permitted use.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code: "P" indicates use is permitted. (See note 6 below)

"CUP" indicates use is permitted with approval of a conditional use permit. (See note 6 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Accessory buildings/structures (ex. garages, workshops, tool sheds, patio covers, decks, etc.) (see note 1 below) (defined: Section 21.04.020)			X
Accessory dwelling unit (subject to Section 21.10.030; defined: Section 21.04.121)			X

**Notes:**

- When associated with a two-family or multiple-family dwelling, accessory buildings shall not include guesthouses or accessory living quarters (defined: Section 21.04.165).
- Within the RM land use designation, a one-family dwelling/subdivision is permitted.
- Within the RMH and RH land use designations, one-family dwellings are permitted when developed as two or more detached units on one lot. Also, a single one-family dwelling shall be permitted on any legal lot that existed as of October 28, 2004, and which is designated and zoned for residential use. Any proposal to subdivide land or construct more than one dwelling shall be subject to the density and intent of the underlying residential land use designation.
- A conditional use permit is not required for a golf course if it is approved as part of a master plan for a planned community development.
- Mobile homes must be certified under the National Mobilehome Construction and Safety Standards Act of 1974 (42 U.S.C. Section 5401 et seq.) on a foundation system pursuant to Section 18551 of the StateHealth and Safety Code.
- Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. NS-718 § 14, 2004; Ord. NS-746 § 11, 2005; Ord. NS-791 § 17, 2006; Ord. CS-102 §§ XXXVIII—XL, 2010; Ord. CS-164 § 10, 2011; Ord. CS-178 § XV, 2012; Ord. CS-189 § XXI, 2012; Ord. CS-191 § XIII, 2012; Ord. CS-224 §§ XVIII, XIX, 2013; Ord. CS-249 § XI, 2014; Ord. CS-324 § 2, 2017; Ord. CS-384 §§ 10, 15, 2020)

**§ 21.24.030. Building height.**

No building shall exceed a height of thirty-five feet.

(Ord. NS-718 § 14, 2004)

**§ 21.24.040. Front yard.**

A. There shall be a front yard of not less than twenty feet in depth with exceptions as follows:

1. Fifteen feet shall be permitted providing carport or garage openings do not face onto the front yard; and
2. Ten feet shall be permitted providing carport or garage openings do not face onto the front yard, and that the remaining front yard is landscaped with a combination of flowers, shrubs, trees and irrigated with a sprinkler system. Landscape plans and irrigation system plans shall be approved by the City Planner prior to issuance of a building permit for a proposed structure.

(Ord. NS-718 § 14, 2004; Ord. CS-164 § 10, 2011)

**§ 21.24.050. Side yard.**

A. Every lot shall have side yard as follows:

1. Interior lots shall have a side yard on each side of the lot of not less than five feet in width;
2. Corner lots and reversed corner lots shall have side yards as follows:
  - a. On the side lot line which adjoins another lot, the side yard shall be the same as that required on an interior lot, and
  - b. On any side of a lot which is adjacent to a street, the side yard shall be ten feet, with exception that: the required ten-foot side yard abutting a street may be reduced to five feet, providing parking spaces do not open directly onto the street and, that the side yard is landscaped and maintained as prescribed in Section 21.24.040;
3. A zero foot side yard setback shall be permitted to one interior side yard, provided:
  - a. That the owners of both lots common to the proposed zero foot side yard are in agreement;
  - b. That the remaining side yard shall be not less than twenty-five percent of the total lot width measured at the front setback line;
  - c. That the building permit application and other permit applications required by this code (if any) for the project shall include a site plan that shows the proposed building location, parking, and side yard setback for both lots common with the proposed zero foot side yard, to the satisfaction of the City Planner; and
  - d. That an easement or other recorded agreement for maintenance purposes be granted to provide access to the adjoining lot when there is no side yard.

(Ord. NS-718 § 14, 2004; Ord. CS-102 § XLI, 2010; Ord. CS-164 § 10, 2011)

**§ 21.24.060. Setbacks—Subterranean parking.**

Zero foot setback for subterranean parking shall be permitted provided the required setbacks for the dwelling structure are landscaped and maintained as prescribed in Section 21.24.040.

(Ord. NS-718 § 14, 2004)

**§ 21.24.070. Rear yard.**

There shall be a rear yard of not less than ten feet in depth.

(Ord. NS-718 § 14, 2004)

**§ 21.24.080. Yards—Structures over thirty-five feet in height.**

The above specified yard requirements apply only to those structures up to a height of thirty-five feet. For any other structure which has had its height increased by approval of a specific plan, the yards shall be increased at a ratio of one and one-half additional foot horizontally, for each eight feet of vertical construction.

(Ord. NS-718 § 14, 2004)

**§ 21.24.090. Accessory structures.**

A. All accessory structures shall comply with the following development standards, except as otherwise permitted for accessory dwelling units pursuant to Section 21.10.030:

1. The lot coverage shall include accessory structures in the lot coverage calculations for the lot;
2. The distance between buildings used for human habitation and accessory buildings shall be not less than ten feet;
3. When proposed on a lot adjoining native vegetation, accessory structures within a fire suppression zone must be reviewed and approved by the fire department;
4. Buildings shall not exceed one story; and
5. Building height shall not exceed fourteen feet if a minimum roof pitch of 3:12 is provided or ten feet if less than a 3:12 roof pitch is provided.

B. Habitable detached accessory structures shall comply with all requirements of the zone applicable to placement of a dwelling unit on a lot including setbacks

C. Detached accessory structures which are not dwelling units and contain no habitable space, including, but not limited to, garages, workshops, tool sheds, decks over thirty inches above grade and freestanding patio covers shall comply with the following additional development standards when located within a lot's required setback areas:

1. The maximum allowable building area per structure shall not exceed a building coverage of four hundred forty square feet;
2. The following setbacks shall apply: a front yard setback of twenty feet, a rear yard setback of five feet, a side yard setback of five feet, and an alley setback of five feet;
3. The maximum plumbing drain size shall be one and one-half inches in diameter so as to prohibit toilets, showers, bathtubs and other similar fixtures; and
4. The additional development standards listed above (subsections (D)(1) through (3) of this section) shall apply to the entire subject accessory structure, not just the portion encroaching into a lot's setback area.

- D. The provisions of this section are applicable notwithstanding the permit requirements contained in Section 18.04.015.

(Ord. NS-718 § 14, 2004; Ord. CS-324 § 17, 2017; Ord. CS-384 § 20, 2020)

#### **§ 21.24.100. Lot area.**

- A. The minimum required area of a lot in the RD-M zone, when the zone implements the RM land use designation, shall be as follows:
1. For one-family dwellings: a lot area not less than six thousand square feet; and
  2. For two-family and multiple dwellings: a lot area not less than ten thousand square feet, except that the joining of two smaller lots shall be permitted although their total area does not equal the required lot area.
- B. The minimum lot area of a lot in the RD-M zone, when the zone implements the RMH or RH land use designations, shall not be less than ten thousand square feet, except that the joining of two smaller lots shall be permitted although their total area does not equal the required lot area.

(Ord. NS-718 § 14, 2004)

#### **§ 21.24.110. Lot coverage.**

All buildings, including accessory buildings and structures, shall cover no more of the lot than sixty percent.

(Ord. NS-718 § 14, 2004)

#### **§ 21.24.120. Lot width.**

Every lot shall have a width of not less than sixty feet at the rear line of the required front yard.

(Ord. NS-718 § 14, 2004)

#### **§ 21.24.130. Improvements required.**

- A. Prior to an occupancy permit being issued by the Community and Economic Development Director for any new units constructed in the RD-M zone, it shall be necessary for the developer to upgrade or install those public improvements deemed necessary for public convenience and necessity.
- B. Improvements as may be required by the City Engineer shall be constructed to city standards and specifications.
- C. In such case where there are not adjacent improvements or official street grade has not been established, the City Engineer may recommend to the City Council that a future street improvement agreement be entered into.

(Ord. NS-718 § 14, 2004; Ord. CS-164 § 14, 2011)

#### **§ 21.24.140. Special conditions for certain lots.**

- A. In approving a site development plan, planned development permit, tentative map or other discretionary permit, for a property located in the RD-M zone and adjacent to an R-1 zone, the Planning Commission or City Council may impose special conditions or requirements that include but are not limited to provisions for the following:

1. Special setbacks, yards, open space;
2. Special height and bulk of building regulations;
3. Additional landscaping;
4. Signs, fences and walls;
5. Special grading restrictions;
6. Regulation of point of ingress and egress;
7. Compatibility with surrounding properties and land uses; and
8. Such other conditions as deemed necessary to ensure conformity with the general plan and other adopted policies, goals or objectives of the city.

(Ord. NS-718 § 14, 2004)

## CHAPTER 21.25 COMMUNITY FACILITIES ZONE

### **§ 21.25.010. Intent and purpose.**

The intent and purpose of the C-F, community facilities, zone is:

- (1) To ensure that all master plans and residential specific plans (i.e., specific plans which include residential units) reserve community facilities sites of adequate size for uses which benefit the community as a whole by satisfying social/religious/institutional/human service needs;
- (2) To identify those uses which can be utilized to satisfy the community facilities uses requirements in master plans pursuant to Chapter 21.38 of this code and residential specific plans; and
- (3) To establish development standards for community facilities uses in master plans and residential specific plans.

(Ord. NS-579 § 1, 2001; Ord. CS-224 § XX, 2013)

### **§ 21.25.020. Applicability.**

This chapter applies as follows:

- (1) This chapter applies to those properties developed through a new master plan pursuant to Chapter 21.38 of this code approved after the effective date of the ordinance codified in this chapter.
- (2) This chapter applies to those properties developed through a new residential specific plan (a specific plan which includes residential units) of at least one hundred gross acres approved after the effective date of the ordinance codified in this chapter.
- (3) This chapter applies to any master plan or residential specific plan approved prior to the effective date of the ordinance codified in this chapter for which an application for amendment involving at least one hundred gross acres of undeveloped land is made by the property owner.
- (4) Master plans and residential specific plans approved prior to the effective date of the ordinance codified in this chapter and not described in subsection (3) of this section may satisfy their community facilities requirements (if any) as required by those approved master plans or specific plans.

(Ord. NS-579 § 1, 2001)

### **§ 21.25.030. Time period of reservation.**

As part of the master plan or residential specific plan application, the developer shall designate a portion(s) of the site for community facilities uses. The community facilities designation shall be for a minimum time period of ten years. The ten-year time period shall commence when final inspections have been approved for one hundred percent of the units in the first residential planning area in the master plan or specific plan. There shall be no automatic reversion of the community facilities site to other uses. If, at the end of the ten-year reservation period, community facilities have not developed in the community facilities designated area, then the developer may make an application for a major master plan amendment to eliminate the community facilities site(s) or to designate a different site(s) of the master plan or residential specific plan for such uses. If the developer proposes to eliminate the community facilities area, he or she shall demonstrate why it is infeasible that the designated area will ever develop with community facilities uses. If the developer proposes to designate a different site(s) for the community facilities uses, he or she shall demonstrate why the proposed alternative location is better than the originally designated location. If an

alternative location(s) is proposed, the total amount of acreage for the community facilities uses shall not be reduced from the originally designated acreage.

(Ord. NS-579 § 1, 2001)

**§ 21.25.040. Permitted uses.**

- A. In a C-F zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of this zone, and is substantially similar to the specified permitted uses.
- D. A use category may be general in nature, where more than one particular use fits into the general category (ex. in some commercial zones "office" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in another zone, the use shall not be permitted in this C-F community facilities zone (even under a general use category) unless it is specifically listed in Table A of this chapter as permitted or conditionally permitted.

**Table A  
Uses Permitted**

In the table, below, subject to all applicable permitting and development requirements of the municipal code: "P" indicates the use is permitted. (See note 1 below)

"CUP" indicates that the use is permitted with approval of a conditional use permit. (See note 1 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Adult and/or senior day care and/or recreation facility (private or nonprivate)		1	
Athletic fields		2	
Child day care center (subject to Chapter 21.83; defined: Section 21.04.086)	X		
Churches, synagogues, temples, convents, monasteries, and other places of worship		2	
Clubs — nonprofit; business, civic, professional, etc. (defined: Section 21.04.090)		1	
Educational institutions or schools, public/private (defined: Section 21.04.140)		2	

Use	P	CUP	Acc
Mobile buildings (subject to Section 21.42.140(B)(90); defined: Section 21.04.265)	1		
Office area (see note 2 below)			X
Religious reading room (separate from church)	1		
Satellite television antennae (subject to Sections 21.53.130—21.53.150; defined: Section 21.04.302)			X
Signs (subject to Chapter 21.41)			X
Veterans' organizations (including meeting facilities)	1		
Welfare and charitable services (private or semi-private) with no permanent residential uses (e.g., Good Will, Red Cross, Traveler's Aid)	1		
Wireless communication facilities (subject to Section 21.42.140 (B)(165); defined: Section 21.04.379)	1 / 2		
Youth organizations (e.g., Boy Scouts, Girl Scouts, Boys and Girls Clubs, YMCA and YWCA, except lodgings)	1		

**Notes:**

1. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.
2. If any office area is proposed with a use, the office area must be ancillary to the main use; it cannot be the principal use.

(Ord. NS-579 § 1, 2001; Ord. NS-791 § 18, 2006; Ord. CS-102 § XLII, 2010; Ord. CS-164 § 10, 2011; Ord. CS-178 § XVI, 2012; Ord. CS-189 § XXII, 2012; Ord. CS-224 § XXI, 2013)

**§ 21.25.060. Limitations on permitted uses.**

All uses shall be conducted wholly within a building except such uses as athletic fields, outdoor play areas, and other uses customarily conducted in the open.

(Ord. NS-579 § 1, 2001)

**§ 21.25.070. Minimum requirements for community facilities area.**

- (1) The minimum size of the community facilities area for new master plan developments and new residential specific plan developments is two net developable acres plus one percent of the total net developable acreage in the entire master plan or residential specific plan area.
- (2) The minimum size of the community facilities area for master plan developments and residential specific plan developments approved prior to the effective date of the ordinance codified in this chapter and described in Section 21.25.020(3) is two net developable acres plus one percent of the total net developable acreage in the area included in the proposed amendment.
- (3) All master plans and residential specific plans must provide for a child day care facility somewhere within their community facilities area.

(Ord. NS-579 § 1, 2001)

**§ 21.25.080. Building height.**

No building in the C-F zone shall exceed a height of thirty-five feet and three levels if a minimum roof pitch of 3:12 is provided or twenty-four feet and two levels if a roof pitch less steep than 3:12 is provided. Architectural projections may be allowed pursuant to Section 21.46.020 of this code.

(Ord. NS-579 § 1, 2001)

**§ 21.25.090. Yards.**

Front yard, side yard, or rear yard setbacks shall be as required through the development standards contained in the master plan or residential specific plan.

(Ord. NS-579 § 1, 2001)

**§ 21.25.100. Location and design standards.**

Every community facilities site shall satisfy the following criteria:

- (1) The community facilities uses shall be located so as to assure compatibility with adjacent land uses.
- (2) The community facilities area(s) shall be located and designed so as to provide adequate buffering from, and to minimize any negative impacts to, surrounding residential developments.
- (3) The community facilities structures shall be designed to be architecturally compatible with surrounding developments.
- (4) The community facilities site(s) shall be centrally located within the master plan or residential specific plan unless a noncentral location more effectively serves a greater number of residents of the master plan or residential specific plan.
- (5) All community facilities uses shall be located on one unified site unless provision of two or more sites more effectively serves a greater number of residents of the master plan or residential specific plan.

(Ord. NS-579 § 1, 2001)

**§ 21.25.110. Required notification.**

Full disclosure shall be made to all buyers of surrounding residential units and owners of surrounding properties within six hundred feet that a community facility will be located on the reserved portion of the property. All approvals of new master plans, new residential specific plans, and amendments to previously approved master plans and residential specific plans involving one hundred or more gross acres of undeveloped land shall be conditioned to provide documentation that this disclosure requirement has been accomplished to the satisfaction of the City Planner.

(Ord. NS-579 § 1, 2001; Ord. CS-164 § 10, 2011)

**§ 21.25.120. Severability.**

Should any section, subsection, sentence, clause, or phrase of the ordinance codified in this chapter be held for any reason to be invalid or unconditional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of the ordinance codified in this chapter. The City Council declares that it would have passed the ordinance codified in this chapter and each section, subsection, sentence, clause, and phrase thereof irrespective of the fact that any part thereof be declared invalid or unconditional.

City of Carlsbad, CA

§ 21.25.120

ZONING

§ 21.25.120

(Ord. NS-579 § 1, 2001)

**CHAPTER 21.26  
C-1 NEIGHBORHOOD COMMERCIAL ZONE**

**§ 21.26.010. Permitted uses.**

- A. In a C-1 zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of the zone, and is substantially similar to the specified permitted uses.
- D. A use category may be general in nature, where more than one particular use fits into the general category (ex. in some commercial zones "office" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in another zone, the use shall not be permitted in this C-1 neighborhood commercial zone (even under a general use category) unless it is specifically listed in Table A of this chapter as permitted or conditionally permitted.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code: "P" indicates use is permitted. (See note 1 below)

"CUP" indicates use is permitted with approval of a conditional use permit. (See note 1 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

**Note:**

1. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. 9060 § 1000; Ord. 9135 § 1; Ord. 9426 § 1, 1975; Ord. 9527 § 3, 1979; Ord. 9674 § 2, 1983; Ord. 6077 § 3, 1985; Ord. 9785 § 15, 1986; Ord. 9800 § 9, 1986; Ord. 9804 § 6, 1986; Ord. NS-409 § 12, 1997; Ord. NS-439 § 2, 1998; Ord. NS-791 § 19, 2006; Ord. CS-102 §§ XLIII—XLV, 2010; Ord. CS-164 § 10, 2011; Ord. CS-172 § II, 2012; Ord. CS-189 §§ XXIII, XXIV, 2012; Ord. CS-224 § XXII, 2013; Ord. CS-225 § II, 2013; Ord. CS-384 § 21, 2020)

**§ 21.26.013. Outdoor dining (incidental).**

- A. Subject to the requirements of this section, outdoor dining (incidental) may be established as part of any business that serves food and/or beverages for onsite consumption, such as but not limited to restaurants, bona fide eating establishments and delicatessens.

- B. If the proposed outdoor dining (incidental) is located in the coastal zone and is not exempt from a coastal development permit by Chapter 21.201 of this title, approval of a coastal development permit or minor coastal development permit, processed in accordance with Chapter 21.201, shall be required.
- C. Development Standards. All areas providing outdoor dining (incidental) shall comply with the following development standards:
1. Outdoor dining areas shall comply with all applicable requirements of the State of California Disabled Access Regulations (Title 24);
  2. Outdoor dining areas shall comply with all applicable requirements of the Alcoholic Beverage Commission, if alcoholic beverages are served in the outdoor area;
  3. Outdoor dining areas shall be operated only during the hours of operation of the associated business;
  4. Outdoor dining areas shall be used exclusively for eating and drinking;
  5. Outdoor dining areas shall be located on private property only;
  6. Outdoor dining areas shall provide adequate circulation to accommodate normal pedestrian traffic and circulation for the outdoor dining area. Pedestrian clearance between tables and/or walls/fences shall be a minimum forty-two inches wide;
  7. The maximum area provided for outdoor dining (incidental) shall be limited to a maximum of four hundred square feet;
  8. Outdoor dining areas shall not be located where the incidental outdoor dining area would:
    - a. Encroach into the public right-of-way;
    - b. Eliminate any existing required parking spaces;
    - c. Remove or reduce existing landscaping (unless equivalent additional landscaping is provided elsewhere to the satisfaction of the City Planner);
    - d. Present a traffic or pedestrian hazard; or
    - e. Be located where the nearness, volume or speed of vehicular traffic would be incompatible with outdoor dining, in the opinion of the City Engineer;
  9. When calculating square footage for purposes of determining parking required per Chapter 21.44 of this code, space used for outdoor dining (incidental) pursuant to this section shall be excluded.

(Ord. NS-492 § 2, 1999; Ord. CS-102 § XLVI, 2010; Ord. CS-164 § 10, 2011; Ord. CS-178 § XVIII, 2012)

#### **§ 21.26.015. Residential uses.**

Mixed use developments that propose residential uses in combination with commercial uses shall comply with the following requirements.

- A. Residential uses shall be located above the ground floor of a multi-storied commercial building with one or more of the nonresidential uses permitted by Section 21.26.010 of this title located on the ground floor.

- B. Residential uses shall be subject to the requirements of the chapters of this title, which include but are not limited to, Chapter 21.26, Chapter 21.44, and in the case of airspace subdivisions, Chapter 21.47.
- C. Residential uses shall be constructed at a minimum density of 15 dwelling units per acre, per Table 2-4 of the general plan land use and community design element, subject to approval of a site development plan processed in accordance with Chapter 21.06 of this title.
1. Density and yield of residential uses shall be determined consistent with the residential density calculations and residential development restrictions in Section 21.53.230 of this title and shall be based on 25% of the developable area. Unit yield in excess of the minimum shall be subject to the finding in subsection 2 below. In no case shall the calculation preclude the development of at least one dwelling unit in a mixed use development.
  2. Residential uses shall be secondary and accessory to the primary commercial use of the site. Compliance with this provision shall be evaluated as part of the site development plan.

- D. Residential uses shall include residential care facilities (serving six or fewer persons), supportive housing, and transitional housing.

(Ord. CS-172 § III, 2012; Ord. CS-191 § XIV, 2012; Ord. CS-249 § XII, 2014; Ord. CS-287 § 2, 2015)

#### **§ 21.26.020. Limitations on permitted uses.**

Every nonresidential use permitted shall be subject to the following conditions and limitations:

1. All uses shall be conducted wholly within a building except such uses as gasoline stations, electrical transformer substations, nurseries for sale of plants and flowers and other enterprises customarily conducted in the open;
2. Products made incident to a permitted use shall be sold only at retail on the premises, and not more than five persons may be employed in the manufacturing, processing and treatment of products permitted herein;
3. Storage shall be limited to accessory storage of commodities sold at retail on the premises.

(Ord. 9060 § 1001; Ord. 9224 § 2, 1969; Ord. NS-439 § 3, 1998; Ord. NS-492 § 3, 1999; Ord. CS-172 § IV, 2012)

#### **§ 21.26.030. Building height.**

- A. Except as otherwise provided in this section, no building within the C-1 zone shall exceed a height of 35 feet, including the protrusions described in Section 21.46.020.
- B. Purely architectural features such as flagpoles, steeples or architectural towers may be permitted to a maximum of 45 feet through approval of a minor site development plan processed in accordance with the provisions of Chapter 21.06 of this title, provided that the decision-making authority makes the specific findings that the protruding architectural features:
1. Do not function to provide usable floor area;
  2. Do not accommodate and/or screen building equipment;
  3. Do not adversely impact adjacent properties; and
  4. Are necessary to ensure a building's design excellence.

(Ord. 9060 § 1002; Ord. NS-180 § 16, 1991; Ord. NS-240 § 2, 1993; Ord. CS-178 § XIX, 2012)

**§ 21.26.040. Front yard.**

No front yard shall be provided except as may be required by a precise plan.  
(Ord. 9060 § 1003)

**§ 21.26.050. Side yards.**

Unless otherwise required by a precise plan, no side yard need be provided.  
(Ord. 9060 § 1004)

**§ 21.26.060. Placement of buildings.**

On any lot, the rear lot line of which abuts property in any "R" zone and no alley intervenes, no buildings shall be erected closer than 10 feet to the rear lot line; provided further, if such a lot abuts upon an alley, no building shall be erected closer than five feet to the rear lot line of such lot.  
(Ord. 9060 § 1005)

**CHAPTER 21.27  
OFFICE ZONE**

**§ 21.27.010. Intent and purpose.**

The office zone establishes regulations for the development of professional offices and closely related commercial uses. This zone is intended for exclusive office use but limited commercial may be permitted in certain circumstances. This zone may be utilized as a buffer between higher intensity commercial uses and residential development.

(Ord. 9698 § 1, 1983)

**§ 21.27.020. Permitted uses.**

- A. In an O zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of this zone, and is substantially similar to the specified permitted uses.
- D. A use category may be general in nature, where more than one particular use fits into the general category (ex. in some commercial zones "office" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in another zone, the use shall not be permitted in this office zone (even under a general use category) unless it is specifically listed in Table A of this chapter as permitted or conditionally permitted.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code: "P" indicates use is permitted. (See note 1 below)

"CUP" indicates use is permitted with approval of a conditional use permit. (See note 1 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

**Note:**

1. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. 9698 § 1, 1983; Ord. 9785 § 16, 1986; Ord. 9804 § 6, 1986; Ord. NS-675 § 76, 2003; Ord. NS-791 § 20, 2006; Ord. CS-102 §§ XLVIII—LI, 2010; Ord. CS-164 § 10, 2011; Ord. CS-178 § XXI, 2012; Ord. CS-189 §§ XXV, XXVI, 2012; Ord. CS-224 § XXIII, 2013; Ord. CS-225 § III, 2013; Ord. CS-287 § 8, 2015)

#### **§ 21.27.040. Minor site development plan required.**

Approval of a minor site development plan processed according to the provisions of Chapter 21.06 of this title shall be required for any development in the O zone.

(Ord. 9698 § 1, 1983; Ord. NS-409 § 14, 1997; Ord. CS-178 § XXII, 2012)

#### **§ 21.27.050. Development standards.**

A. The following development standards shall apply to all new construction, development or subdivision in the O zone:

1. Lot Area. The minimum area of any newly created lot shall be 10,000 square feet except that this requirement shall not be construed to prohibit condominium or planned unit developments approved pursuant to Chapter 21.47. This zone may be applied to existing lots of less than 10,000 square feet when it can be found that the lots are suitable in size and shape to accommodate development as permitted in the O zone.
2. Lot Width. Every newly created lot shall have a width of not less than 75 feet at the rear line of the required front yard.
3. Building Height. Except as otherwise provided in this section, no building within the O zone shall exceed a height of 35 feet, and allowed height protrusions as described in Section 21.46.020 shall not exceed a height of 45 feet. Additional building height up to a maximum of 45 feet may be permitted through approval of a minor site development plan processed in accordance with the provisions of Chapter 21.06 of this title, provided that:
  - a. All required setbacks shall be increased at a ratio of one horizontal foot for every one foot of vertical construction beyond 35 feet. The additional setback area will be maintained as landscaped open space; and
  - b. The allowed height protrusions as described in Section 21.46.020 do not exceed a height of 45 feet; with the exception of architectural features such as flagpoles, steeples or architectural towers which may be permitted up to 55 feet if the decision-making authority makes the specific findings that the protruding architectural features:
    - i. Do not function to provide usable floor area;
    - ii. Do not accommodate and/or screen building equipment;
    - iii. Do not adversely impact adjacent properties; and
    - iv. Are necessary to ensure a building's design excellence.
4. Setbacks. Every lot shall provide required yards, measured from the property line as follows:

	<b>Driveways/ Parking</b>	<b>1 Story Building</b>	<b>2 or more stories up to 35 feet<sup>1</sup></b>
Front yard	10'	15'	20'
Front yard on an arterial	15'	20'	30'
Front yard on a prime arterial	30'	40'	50'
Street side yard	10'	15'	20'
Side yard on an arterial	15'	20'	30'
Side yard on a prime arterial	30'	40'	50'
Interior side yard	5'	10'	10'
Rear yard	5'	10'	10'

**Notes:**

- 1 Buildings above thirty-five feet shall be set back an additional distance pursuant to subsection A.3 of this section.
  - a. Setbacks for parking may be reduced with construction of a six-foot solid masonry wall and appropriate landscape buffer on a rear or interior side yard only.
  - b. Through lots shall be considered to have two front yards and shall observe setbacks accordingly.
5. Permitted Intrusions. The following intrusions only may be permitted within the required setbacks:
  - a. Pedestrian walkways;
  - b. Landscaping;
  - c. Planters;
  - d. Fences or walls;
  - e. Approved areas of ingress and egress;
  - f. Approved monument signs;
  - g. Public and employee recreational facilities as approved by the City Planner;
  - h. Architectural projections such as eaves, sunscreens, columns and buttresses may extend six feet into any setback thirty feet and greater and three feet into any setback less than thirty feet.
6. Landscaping.
  - a. All landscaping shall comply with the city landscape guidelines manual. All landscaped areas shall be planted with a combination of trees, shrubs and groundcover. All landscaped areas shall be served by a permanent irrigation system including bubblers or sprinklers. Prior to approval of a building permit, each applicant shall submit a landscape and irrigation plan for the approval of the City Planner. All approved improvements shall be

installed prior to occupancy of the building.

- b. All setback areas shall be planted with plant species consistent with the landscape guidelines manual. Variations in ground plane by use of undulating mounding is encouraged to screen parking areas and to enhance the landscaping and building architecture. Landscaping along arterials should comply with the city's streetscaping program.
  - c. The use of decorative impervious surfaces for up to forty percent of the required yard areas for visual enhancement, pedestrian or employee recreational use may be permitted through a minor site development plan processed in accordance with the provisions of Chapter 21.06 of this title.
  - d. A minimum of ten percent of that portion of the site devoted to uncovered parking shall be landscaped. Landscaping shall be designed so as to offer relief from the monotony of rows of parked cars, and to create an overhead canopy. A minimum of one fifteen-gallon tree per four parking stalls shall be required in the parking area. All exposed parking areas shall be screened with landscaping, contouring and mounding.
7. Building Coverage.
    - a. For developments which utilize surface parking, all structures shall not cover more than fifty percent of the lot on which they are located.
    - b. For developments which include a parking structure or parking is located within or under the building it serves, the total coverage of all structures shall not exceed seventy-five percent of the lot. This provision shall apply only if seventy-five percent of the required parking is located in the parking structure or within or under the building it serves.
  8. Signs. All signs proposed in the O zone shall comply with Chapter 21.41 of this title.
  9. Walls and Fences. A solid masonry wall, six feet in height, shall be constructed along the common lot line with any residentially zoned property, except in the front yard where the wall shall be reduced to forty-two inches in height. Walls and fences up to a height of six feet are permitted except that no wall or fence shall be erected in any front yard setback in excess of forty-two inches and that all walls and fences shall observe a minimum setback of ten feet from the property line for side yard on a street. Chain link, barbed wire razor ribbon or other similar fences are specifically not permitted.
  10. Lighting. Exterior lighting is required for all employee and visitor parking areas, walkways, and building entrances and exits. Light sources shall be designed to avoid direct or indirect glare to any off-site properties or public rights-of-way.
  11. Roof Appurtenances. All roof appurtenances, including air conditioners, shall be architecturally integrated and shielded from view and the sound buffered from adjacent properties and streets, to the satisfaction of the City Planner.
  12. Trash Enclosures. Trash receptacle areas shall be enclosed by a six-foot-high masonry wall with gates pursuant to city standards.
  13. Loading Areas. All loading areas shall be oriented and/or screened so as to be unobtrusive from the adjacent streets or properties.

14. **Parking Requirements.** Off-street parking shall be provided pursuant to Chapter 21.44 of this title.
15. **Employee Eating Areas.** Outdoor eating facilities for employees shall be provided outside all industrial/office buildings containing more than five thousand square feet, as follows, except as noted below:
  - a. A minimum of three hundred square feet of outdoor eating facilities shall be provided for each five thousand square feet of building area. Credit towards the required amount of square footage will be given for indoor eating facilities on a 1:1 basis, as determined by the City Planner.
  - b. The area shall be easily accessible to the employees of the building.
  - c. The area shall be located such that a sense of privacy is apparent.
  - d. The area shall be landscaped and provided with attractive outdoor furniture, i.e., metal, wood, or concrete picnic tables, benches/chairs and trash receptacles.
  - e. The site size, location, landscaping and furniture required above shall be approved as part of the required discretionary action (tentative map, site development plan, planned unit development, etc.) required under Title 21 of this code. If no discretionary permit is required, a site plan showing the location, landscaping and facilities required above shall be submitted to the City Planner for approval prior to the issuance of any building permits.
  - f. This section shall not apply to industrial/office buildings which are located within one thousand feet of an approved mini-park or a city park which is accessible by walking as determined by the City Planner.

(Ord. 9698 § 1, 1983; Ord. 9786 § 1, 1986; Ord. NS-180 §§ 17, 23, 1991; Ord. NS-204 § 9, 1992; Ord. NS-240 § 3, 1993; Ord. NS-675 § 76, 2003; Ord. CS-102 §§ LIV, LV, 2010; Ord. CS-164 § 10, 2011; Ord. CS-178 § XXII, 2012)

**CHAPTER 21.28  
C-2 GENERAL COMMERCIAL ZONE**

**§ 21.28.010. Permitted uses.**

- A. In a C-2 zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of this zone, and is substantially similar to the specified permitted uses.
- D. A use category may be general in nature, where more than one particular use fits into the general category (ex. in some commercial zones "office" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in another zone, the use shall not be permitted in this C-2 general commercial zone (even under a general use category) unless it is specifically listed in Table A of this chapter as permitted or conditionally permitted.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code: "P" indicates use is permitted. (See note 1 below)

"CUP" indicates use is permitted with approval of a conditional use permit. (See note 1 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Accessory dwelling unit (subject to Section 21.10.030; defined: Section 21.04.121)			X

**Note:**

1. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. 9060 § 1100; Ord. 9356 § 1, 1973; Ord. 9426 § 3, 1975; Ord. 9480 § 1, 1977; Ord. 9527 § 5, 1979; Ord. 9674 § 2, 1983; Ord. 9785 § 17, 1986; Ord. 9804 § 6, 1986; Ord. NS-791 § 21, 2006; Ord. CS-102 §§ LVII—LIX, 2010; Ord. CS-164 § 10, 2011; Ord. CS-172 § VI, 2012; Ord. CS-189 §§ XXVII, XXVIII, 2012; Ord. CS-224 § XXIV, 2013; Ord. CS-225 § IV, 2013; Ord. CS-384 § 21, 2020)

**§ 21.28.015. Residential uses in the C-2 zone.**

Mixed use developments that propose residential uses in combination with commercial uses shall comply with the following requirements.

- A. Residential uses shall be located above the ground floor of a multi-storied commercial building with one or more of the nonresidential uses permitted by Section 21.28.010 of this title located on the ground floor.
- B. Residential uses shall be subject to the requirements of the chapters of this title, which include but are not limited to, Chapter 21.28, Chapter 21.44, and in the case of airspace subdivisions, Chapter 21.47.
- C. Residential uses shall be constructed at a minimum density of 15 dwelling units per acre, per Table 2-4 of the general plan land use and community design element, subject to approval of a site development plan processed in accordance with Chapter 21.06 of this title.
  1. Density and yield of residential uses shall be determined consistent with the residential density calculations and residential development restrictions in Section 21.53.230 of this title and shall be based on 25% of the developable area. Unit yield in excess of the minimum shall be subject to the finding in subsection 2 below. In no case shall the calculation preclude the development of at least one dwelling unit in a mixed use development.
  2. Residential uses shall be secondary and accessory to the primary commercial use of the site. Compliance with this provision shall be evaluated as part of the site development plan.
- D. Residential uses shall include residential care facilities (serving six or fewer persons), supportive housing, and transitional housing.

(Ord. CS-172 § VII, 2012; Ord. CS-191 § XV, 2012; Ord. CS-249 § XIII, 2014; Ord. CS-287 § 3, 2015)

**§ 21.28.020. Limitations on permitted uses.**

Every nonresidential use permitted in the C-2 zone shall be subject to the following conditions and limitations:

1. All uses shall be conducted wholly within a building except such uses as gasoline stations, electrical transformer substations, horticultural nurseries and other enterprises customarily conducted in the open.
2. Products made incident to a permitted use and manufactured or processed on the premises shall be sold only at retail on the premises, and not more than five persons may be employed in such manufacturing, processing and treatment of products.
3. Storage shall be limited to accessory storage of commodities sold at retail on the premises.

(Ord. 9060 § 1101; Ord. 9224 § 2, 1969; Ord. NS-439 § 6, 1998; Ord. NS-492 § 6, 1999; Ord. CS-172 § VIII, 2012)

**§ 21.28.030. Building height.**

- A. Except as otherwise provided in this section, no building in the C-2 zone shall exceed a height of thirty-five feet, and allowed height protrusions as described in Section 21.46.020 shall not exceed a height of forty-five feet.
- B. Building height above thirty-five feet may be permitted, subject to the following:
  1. Building height up to a maximum of forty-five feet may be permitted through approval of a minor site development plan processed in accordance with the provisions of Chapter 21.06 of this title, provided that:
    - a. The project complies with the provisions of subsection B.3 of this section.
    - b. The allowed height protrusions as described in Section 21.46.020 do not exceed a height of forty-five feet; with the exception of architectural features such as flagpoles, steeples or architectural towers, which may be permitted up to fifty-five feet if the decision-making authority makes the specific findings that the protruding architectural features:
      - i. Do not function to provide usable floor area;
      - ii. Do not accommodate and/or screen building equipment;
      - iii. Do not adversely impact adjacent properties; and
      - iv. Are necessary to ensure a building's design excellence.
  2. Building height above forty-five feet up to a maximum of fifty-five feet may be permitted through approval of a site development plan processed in accordance with the provisions of Chapter 21.06 of this title, provided that:
    - a. The project complies with the provisions of subsection B.3 of this section.
    - b. The allowed height protrusions as described in Section 21.46.020 do not exceed the height authorized by the decision-making authority.
    - c. The decision-making authority finds that:

- i. The height of the building(s) will not adversely affect surrounding properties; and
  - ii. The building(s) will not be unduly disproportional to other buildings in the area.
3. All required setbacks shall be increased at a ratio of one horizontal foot for every one foot of vertical construction beyond thirty-five feet. The additional setback area shall be maintained as landscaped open space.

(Ord. 9060 § 1102; Ord. 9489 § 1, 1977; Ord. NS-180 § 18, 1991; Ord. NS-240 § 4, 1993; Ord. CS-178 § XXIII, 2012)

**§ 21.28.040. Front yard.**

No front yard shall be provided except as may be required by a precise plan.

(Ord. 9060 § 1103)

**§ 21.28.050. Placement of buildings.**

On any lot, the rear lot line of which abuts property in any R zone and no alley intervenes, no building shall be erected closer than ten feet to the rear lot line; provided further, if such a lot abuts upon an alley, no building shall be erected closer than five feet to the rear lot line of such lot.

(Ord. 9060 § 1104)

**CHAPTER 21.29  
C-T COMMERCIAL TOURIST ZONE**

**Note: Prior ordinance history: Ord. Nos. 9478, 9674, 9785, 9800, NS-18, NS-180, NS-240, NS-439, and NS-492.**

**§ 21.29.010. Intent and purpose.**

- A. The intent and purpose of the C-T commercial tourist zone is to:
1. Implement the travel/recreation commercial (TR) land use designation of the Carlsbad general plan;
  2. Provide for the development of tourist-oriented attractions and commercial uses that serve the travel and recreational needs of tourists, residents, as well as employees of business and industrial centers; and
  3. Provide regulations and development standards to ensure such uses are compatible with and designed to protect surrounding properties, ensure safe traffic circulation, and promote economically viable tourist-oriented areas of the city.

(Ord. NS-769 § 2, 2005)

**§ 21.29.020. Location.**

It is intended that the C-T commercial tourist zone be placed on properties located near major transportation corridors or recreation areas as designated by the general plan and any applicable specific plans.

(Ord. NS-769 § 2, 2005)

**§ 21.29.030. Permitted uses.**

- A. In the C-T zone, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of this zone, and is substantially similar to the specified permitted uses.
- D. A use category may be general in nature, where more than one particular use fits into the general category (ex. in some commercial zones "offices" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in another zone, the use shall not be permitted in this C-T zone (even under a general use category) unless it is specifically listed in Table A of this chapter as permitted or conditionally permitted.

**Table A**  
**Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code:

"P" indicates use is permitted.

"CUP" indicates use is permitted with approval of a conditional use permit.

1 = Administrative hearing process

2 = Planning Commission hearing process

3 = City Council hearing process

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc

Zoos (private) (subject to Section 21.42.140(B)(170))	2		

**Notes:**

1. Accessory uses shall be developed as an integral part of a permitted use within or on the same structure or parcel of land.
2. A conditional use permit is not required for a golf course if it is approved as part of a master plan for a planned community development.

(Ord. NS-769 § 2, 2005; Ord. NS-791 § 22, 2006; Ord. CS-164 § 10, 2011; Ord. CS-189 §§ XXIX, XXX, 2012)

**§ 21.29.040. Building height.**

- A. No building in the C-T zone shall exceed a height of thirty-five feet or three levels, and allowed height protrusions as described in Section 21.46.020 shall not exceed forty-five feet. Additional building height may be permitted to a maximum of forty-five feet through a site development plan approved by the City Council provided that:
  1. The building does not contain more than three levels;
  2. All required setbacks shall be increased at a ratio of one horizontal foot for every one foot of vertical construction beyond thirty-five feet. The additional setback area will be maintained as landscaped open space;
  3. The building conforms to the requirements of Section 18.04.170 of this code; and
  4. The allowed height protrusions as described in Section 21.46.020 do not exceed forty-five feet; with the exception of architectural features such as flagpoles, steeples or architectural towers which may be permitted up to fifty-five feet if the council makes the specific findings that the protruding architectural features:
    - a. Do not function to provide usable floor area;
    - b. Do not accommodate and/or screen building equipment;
    - c. Do not adversely impact adjacent properties; and
    - d. Are necessary to ensure a building's design excellence.

(Ord. NS-769 § 2, 2005)

**§ 21.29.050. Placement of buildings.**

On any lot where the side or rear lot line abuts property in any R zone and no alley intervenes, no building shall be erected closer than ten feet to such lot line; provided, further, if such a lot abuts upon an alley, no building shall be erected closer than five feet to the rear lot line of such lot.

(Ord. NS-769 § 2, 2005)

**CHAPTER 21.30  
C-M HEAVY COMMERCIAL—LIMITED INDUSTRIAL ZONE**

**§ 21.30.010. Permitted uses.**

- A. In a C-M zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of this zone, and is substantially similar to the specified permitted uses.
- D. A use category may be general in nature, where more than one particular use fits into the general category (ex. in some commercial zones "office" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in another zone, the use shall not be permitted in this C-M heavy commercial—limited industrial zone (even under a general use category) unless it is specifically listed in Table A of this chapter as permitted or conditionally permitted.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code. "P" indicates use is permitted. (See notes 2 and 3 below)

"CUP" indicates use is permitted with approval of a conditional use permit. (See notes 2 and 3 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Adult businesses (subject to Chapters 8.60 and 21.43)	X		
Airports		3	
Alcoholic treatment centers		2	
Amusement parks		3	
Any use permitted in other commercial zones is permitted in the C-M zone, with exceptions as set out in note 1, below	X		
Aquaculture (defined: Section 21.04.036)	1		
Aquaculture stands (display/sale) (subject to Section 21.42.140(B)(10))	1		
Arcades—coin-operated (subject to Section 21.42.140(B)(15); defined: Section 21.04.091)		1

**Notes:**

1. Any use permitted in the commercial zones is allowed in the C-M zone, except: (A) Hotels and motels, (B) Hospitals (however, industrial emergency hospitals are permitted), (C) Residential care facilities, (D) Professional care facilities, (E) Private clubs, fraternities, sororities and lodges, excepting those the chief activity of which is a service customarily carried on as a business, (F) Institutions of a philanthropic or eleemosynary nature, including correctional and mental.
2. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.
3. For properties which are located within the boundaries of the Carlsbad Research Center (CRC) Specific Plan, please refer to the CRC Specific Plan for a list of allowable uses, setback requirements, etc.
4. The retail use shall be accessory to the permitted use and wholly contained within the building. All products for retail sale shall be produced, distributed, and/or warehoused on the premises. No outdoor display of merchandise or retail sales shall be permitted unless customarily conducted in the open. Parking for the accessory retail use shall be determined based on the parking requirement for the primary use pursuant to CMC Chapter 21.44.

(Ord. 9060 § 1200; Ord. 9252 § 2, 1970; Ord. 9455 § 7, 1976; Ord. 9502 § 7, 1978; Ord. 9674 § 2, 1983; Ord. 9785 § 19, 1986; Ord. 9804 § 6, 1986; Ord. NS-87 § 3, 1989; Ord. NS-208 § 3, 1992; Ord. NS-791 § 23, 2006; Ord. CS-063 § III, 2009; Ord. CS-102 §§ LXII—LXIV, 2010; Ord. CS-164 § 10, 2011; Ord. CS-189 §§ XXXI, XXXII, 2012; Ord. CS-224 § XXV, 2013; Ord. CS-225 §§ V, VI, 2013; Ord. CS-326 § 5, 2017)

**§ 21.30.020. Limitations on permitted uses.**

Every use permitted shall be subject to the following conditions and limitations:

- (1) When an industrial area fronts or sides upon a thoroughfare, the opposite side of which is classified for "R" purposes, there shall be maintained a building line setback of ten percent of the average depth of the lots in each block of such industrial area, provided such setback shall not be less than ten feet nor exceed fifty feet in depth. A minimum strip of landscaping approved by the Planning Commission shall be maintained along all frontage of the setback area. In addition thereto, the following uses may be permitted in such setback area:
  - (A) Landscaping,
  - (B) Motor vehicle parking (only if surfaced in such manner as to eliminate dust or mud),
  - (C) Employees recreational area without structures,
  - (D) Driveways (only if surfaced in such manner as to eliminate dust or mud),
  - (E) Railroad spur tracks, excluding storage of railroad motive power equipment or rolling stock,
  - (F) An ornamental open type fence not over eight feet in height, made of material such as woven wire, wood, welded wire, chain link or wrought iron;
- (2) All uses shall be conducted wholly within a completely enclosed building, or within an area enclosed on all sides with a solid wall or uniformly painted fence not less than five feet in height, except such

uses as gasoline stations, electrical transformer substations, horticultural nurseries and other enterprises customarily conducted in the open, provided such exclusion shall not include storage yards, contractor's yards and like uses;

- (3) All operations conducted on the premises shall not be objectionable by reason of noise, odor, dust, mud, smoke, vibration or other similar causes.

(Ord. 9060 § 1201; Ord. NS-439 § 9, 1998; Ord. NS-492 § 9, 1999)

#### **§ 21.30.030. Building height.**

- A. Except as otherwise provided in this section, no building in the C-M zone shall exceed a height of thirty-five feet, and allowed height protrusions as described in Section 21.46.020 shall not exceed a height of forty-five feet.
- B. Building height above thirty-five feet may be permitted subject to the following:
1. Building height up to a maximum of forty-five feet may be permitted through the approval of a minor site development plan processed in accordance with the provisions of Chapter 21.06 of this title, provided that:
    - a. The project complies with the provisions of subsection B.3 of this section.
    - b. The allowed height protrusions as described in Section 21.46.020 do not exceed a height of forty-five feet; with the exception of architectural features such as flagpoles, steeples or architectural towers, which may be permitted up to fifty-five feet if the decision-making authority makes the specific findings that the protruding architectural features:
      - i. Do not function to provide usable floor area;
      - ii. Do not accommodate and/or screen building equipment;
      - iii. Do not adversely impact adjacent properties; and
      - iv. Are necessary to ensure a building's design excellence.
  2. Building height above forty-five feet may be permitted through approval of a site development plan processed in accordance with the provisions of Chapter 21.06 of this title, provided that:
    - a. The project complies with the provisions of subsection B.3 of this section.
    - b. The allowed height protrusions as described in Section 21.46.020 do not exceed the height authorized by the decision-making authority.
    - c. The decision-making authority finds that:
      - i. The height of the building(s) will not adversely affect surrounding properties; and
      - ii. The building(s) will not be unduly disproportional to other buildings in the area.
  3. All required setbacks shall be increased at a ratio of one horizontal foot for every one foot of vertical construction beyond thirty-five feet. The additional setback area shall be maintained as landscaped open space.

(Ord. 9060 § 1202; Ord. 9645 § 1, 1982; Ord. NS-180 § 20, 1991; Ord. NS-240 § 6, 1993; Ord. CS-164 § 10, 2011; Ord. CS-178 § XXIV, 2012)

**§ 21.30.040. Front yard.**

No front yard shall be provided except as may be required by a precise plan.  
(Ord. 9060 § 1203)

**§ 21.30.050. Side yards.**

No side yards shall be provided except as may be required by a precise plan.  
(Ord. 9060 § 1204)

**§ 21.30.060. Placement of buildings.**

On any lot, the rear lot line of which abuts property in any "R" zone and no alley intervenes, no building shall be erected closer than ten feet to the rear lot line; provided further, if such a lot abuts upon an alley, no building shall be erected closer than five feet to the rear lot line of such lot.  
(Ord. 9060 § 1205)

**§ 21.30.070. Employee eating areas.**

Outdoor eating facilities for employees shall be provided outside all industrial/office buildings containing more than five thousand square feet, as follows, except as noted below:

- (1) A minimum of three hundred square feet of outdoor eating facilities shall be provided for each five thousand square feet of building area. Credit towards the required amount of square footage will be given for indoor eating facilities on a 1:1 basis, as determined by the City Planner.
- (2) The area shall be easily accessible to the employees of the building.
- (3) The area shall be located such that a sense of privacy is apparent.
- (4) The area shall be landscaped and provided with attractive outdoor furniture, i.e., metal, wood, or concrete picnic tables, benches/chairs and trash receptacles.
- (5) The site size, location, landscaping and furniture required above shall be approved as part of the required discretionary action (tentative map, site development plan, planned unit development, etc.) required under this title. If no discretionary permit is required, a site plan showing the location, landscaping and facilities required above shall be submitted to the City Planner for approval prior to the issuance of any building permits.
- (6) This section shall not apply to industrial/office buildings which are located within one thousand feet of an approved mini-park or a city park which is accessible by walking as determined by the City Planner.

(Ord. 9786 § 1, 1986; Ord. CS-164 § 10, 2011; Ord. CS-178 § XXV, 2012)

**CHAPTER 21.31  
C-L LOCAL SHOPPING CENTER ZONE**

**§ 21.31.010. Intent and purpose.**

The intent and purpose of the C-L local shopping center zone is to:

- A. Implement the local shopping center (L) land use designation of the Carlsbad general plan;
- B. Assure that any site zoned C-L will be developed so as to provide a range of goods and services to meet the daily necessities and convenience of the residents of the neighborhoods in which the site is located;
- C. Assure that local shopping centers are developed consistent with adopted specific plans, master plans, and local facilities management plans;
- D. Assure that local shopping centers will be compatible with surrounding development and the local neighborhoods in which they are located;
- E. Provide opportunities for local shopping centers to supplement their principal function of providing local neighborhoods with daily goods and services through the inclusion of community-serving uses, residential uses, general offices, medical offices, public and semi-public facilities, and entertainment uses when such other uses are found by the city to be desirable and can be integrated into the form and function of the local shopping center; and
- F. Create a permit process through which proposals for new, expanded or redeveloped local shopping centers will be reviewed to assure that shopping centers comply with the intents and purposes stated herein, include superior and creative design and architecture, and conform with the city's objectives for the community's environment, health, safety, and welfare.

(Ord. NS-765 § 3, 2005; Ord. CS-178 § XXVII, 2012)

**§ 21.31.020. Definition: local shopping center.**

"Local shopping center" means a group of architecturally unified commercial establishments providing primarily neighborhood-serving goods and services, numbering at least three such establishments, built upon a site that is planned, developed, owned and managed as an operating unit related in its location, size, and type of shops to the trade area that it serves and with on-site parking in definite relationship to the types and total size of the stores. A local shopping center provides daily necessities and convenience goods and services needed by the neighborhood in which it is located. Therefore, it normally will have as major anchor tenants a grocery store and/or drug store or such combination of other establishments that function to provide equivalent goods and services, plus other secondary tenants. Other uses and tenants may supplement, but not replace, the local-serving nature of the center.

(Ord. NS-765 § 3, 2005)

**§ 21.31.030. Permitted uses.**

- A. In the C-L zone, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapters 21.42 and 21.50 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar

use falls within the intent and purposes of this zone, and is substantially similar to the specified permitted uses.

- D. A use category may be general in nature, where more than one particular use fits into the general category (ex. in some commercial zones "offices" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in another zone, the use shall not be permitted in this C-L zone (even under a general use category) unless it is specifically listed in Table A of this chapter as permitted or conditionally permitted.

**Table A**  
**Uses Permitted in the C-L Zone**

In the table, below, subject to all applicable permitting and development requirements of the municipal code: "P" indicates the use is permitted. (See note 5 below)

"CUP" indicates that the use is permitted with approval of a conditional use permit. (See note 5 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Accessory buildings/structures, which are customarily appurtenant to a permitted use (ex. incidental storage facilities (see note 1, below) (defined: Section 21.04.020)			X

**Notes:**

1. Accessory buildings and structures and ancillary uses shall be developed as an integral part of a permitted use within or on the same structure or parcel of land.
2. Educational facilities, other. No individual educational facility shall occupy more than ten thousand square feet of gross leasable floor area within any local shopping center.
3. Offices. The total floor area of an office uses shall not exceed forty percent of the gross leasable floor area within any local shopping center.
4. Retail sales may also include those types of goods and services that are typically offered by "community" retail establishments. When "community" retail establishments are included in a local shopping center, they shall be subject to the following: the definition of a local shopping center, Section 21.31.020, and the function of the local shopping center land use class as described in the Carlsbad general plan.
5. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. NS-791 § 29, 2006; Ord. CS-102 §§ LXVI—LXVIII, 2010; Ord. CS-164 § 10, 2011; Ord. CS-172 §§ X, XI, 2012; Ord. CS-178 § XXVIII, 2012; Ord. CS-189 §§ XXXIII, XXXIV, 2012; Ord. CS-224 § XXVI, 2013; Ord. CS-225 § VII, 2013; Ord. CS-384 § 21, 2020)

**§ 21.31.040. Site development plan for new local shopping centers.**

- A. A site development plan shall be required for the development of a new local shopping center. The site development plan shall be processed subject to Chapter 21.06 (Q qualified development overlay zone) of this title, as modified by this section.
- B. Mandatory Findings of Fact. In addition to the findings set out in Section 21.06.020(b) (Q qualified development overlay zone—findings), no site development plan for a local shopping center shall be approved unless the decision-making authority finds that the site, either by itself or in combination with another adjoining center, will provide the normal range of goods and services to meet the everyday needs of the local neighborhood, in keeping with the intent and purpose of both this zone and the local shopping center general plan designation. For the purpose of this section, "adjoining center" means that the second shopping center either abuts the subject center or is located on property immediately across a common street.

(Ord. NS-765 § 3, 2005; Ord. CS-178 § XXIX, 2012)

**§ 21.31.050. Redeveloping, remodeling, and expanding existing shopping centers.**

- A. Except as otherwise provided in this section, a proposal to redevelop, remodel or expand an existing local shopping center shall be processed through a site development plan or a site development plan amendment.
- B. Where a site development plan does not exist for an existing center, a site development plan shall first be obtained pursuant to Section 21.31.040.
- C. Where a site development plan exists, the proposal shall be processed through an amendment to the site development plan, pursuant to Section 21.54.125.
- D. Exceptions. The following are excepted from the need to obtain an amendment to an existing site development plan or for a new site development plan for an existing center that does not have one:

1. Tenant improvements;
2. Any one addition of new floor area with a cumulative total of less than one thousand square feet;
3. Any non-floor-area changes to the site design that collectively result in less than a ten percent change to the site, as determined by the City Planner.

(Ord. NS-765 § 3, 2005; Ord. CS-164 § 10, 2011; Ord. CS-178 § XXIX, 2012)

#### **§ 21.31.060. Special requirements to be addressed in the site development plan.**

A site development plan for a local shopping center shall show how each of the following, if applicable, will be developed:

- A. Employee eating and outdoor eating areas:
  1. Required eating areas for employees (subject to Section 21.31.080(L));
  2. Food courts or outdoor seating areas, operated in common with or available to the patrons of more than one restaurant, if any;
  3. Restaurants with eating areas located outdoors or within common areas otherwise designated for pedestrian or other traffic, if any;
- B. Areas for temporary outdoor display and sales of seasonal items (pumpkins, Christmas trees, etc.);
- C. Areas designated for outdoor cooking or barbequing, if any;
- D. Kiosks and vending carts, if any;
- E. Signs;
- F. Recycling facilities;
- G. Special events area or public gathering area, if any;
- H. Bicycle parking;
- I. Shopping cart collection and storage areas; and
- J. Access points to the site for pedestrians and internal pedestrian circulation.

(Ord. NS-765 § 3, 2005)

#### **§ 21.31.065. Residential uses.**

Mixed use developments that propose residential uses in combination with commercial uses shall comply with the following requirements.

- A. Residential uses shall be located above the ground floor of a multi-storied commercial building with one or more of the nonresidential uses permitted by Section 21.31.030 of this title located on the ground floor.
- B. Residential uses shall be subject to the requirements of the chapters of this title, which include but are not limited to, Chapter 21.31, Chapter 21.44, and in the case of airspace subdivisions, Chapter 21.47.

C. Residential uses shall be constructed at a minimum density of 15 dwelling units per acre, per Table 2-4 of the general plan land use and community design element, subject to approval of a site development plan processed in accordance with Chapter 21.06 of this title.

1. Density and yield of residential uses shall be determined consistent with the residential density calculations and residential development restrictions in Section 21.53.230 of this title and shall be based on 25% of the developable area. Unit yield in excess of the minimum shall be subject to the finding in subsection 2 below. In no case shall the calculation preclude the development of at least one dwelling unit in a mixed use development.
2. Residential uses shall be secondary and accessory to the primary commercial use of the site. Compliance with this provision shall be evaluated as part of the site development plan.

D. Residential uses shall include residential care facilities (serving six or fewer persons), supportive housing, and transitional housing.

(Ord. CS-172 § XII, 2012; Ord. CS-191 § XVI, 2012; Ord. CS-249 § XIV, 2014; Ord. CS-287 § 6, 2015)

#### **§ 21.31.070. Limitations on permitted uses.**

Every nonresidential use permitted shall be subject to the following conditions and limitations:

- A. Conduct Uses in Buildings. All uses shall be conducted wholly within a building, except such uses as gasoline stations, nurseries for sale of plants and flowers, uses set out in Section 21.31.060, and other enterprises customarily conducted in the open or otherwise as identified and permitted in a site development plan. The City Planner is authorized to make any necessary interpretations of this subsection;
- B. On-Site Manufacture of Goods. Products made incident to a permitted use shall be sold only at retail on the premises, and not more than five persons may be employed in the manufacturing of products permitted herein;
- C. Storage shall be limited to:
  1. Accessory storage of commodities to be sold at retail on the premises; and
  2. Materials to be recycled.

(Ord. NS-765 § 3, 2005; Ord. CS-164 § 10, 2011; Ord. CS-172 § XIII, 2012)

#### **§ 21.31.080. Development standards.**

- A. Property Size. No site shall be included in the local shopping center zone unless all constituent properties are contiguous, planned as an integrated whole, and aggregate to a minimum of four net acres, if already developed with retail uses, or seven gross acres, if undeveloped or developed with uses other than retail.
- B. Building Height.
  1. Except as otherwise provided in this section, no building in the C-L zone shall exceed a height of thirty-five feet, and allowed height protrusions as described in Section 21.46.020 shall not exceed a height of forty-five feet.
  2. Additional building height may be permitted to a maximum of forty-five feet through approval of a minor site development plan processed in accordance with the provisions of Chapter 21.06

of this title, provided that:

- a. All required yards shall be increased at a ratio of one horizontal foot for every one foot of vertical construction beyond thirty-five feet. The additional yard area will be maintained as landscaped open space; and
- b. The allowed height protrusions as described in Section 21.46.020 do not exceed a height of forty-five feet; with the exception of architectural features such as flagpoles, steeples, or architectural towers, which may be permitted up to fifty-five feet if the decision-making authority finds that the protruding architectural features:
  - i. Do not function to provide usable floor area; and
  - ii. Do not adversely impact adjacent properties; and
  - iii. Are necessary to ensure a building's design excellence.

C. Yards.

1. The following yards shall apply to the periphery of a local shopping center unless otherwise established through a prior site development plan approval:

**Table B: Yards**

<b>Site Property Line is Adjacent to</b>	<b>Yard Depth</b>
Primary Arterial Road	20 feet
Secondary Arterial Road	15 feet
Non-Arterial Road	10 feet
Not On A Street Frontage	10 feet

2. Protrusions into Yards. The following intrusions only may be permitted within required yards:
  - a. Pedestrian walkways;
  - b. Landscaping;
  - c. Fences or walls;
  - d. Approved areas of ingress and egress;
  - e. Directional signs and approved monument signs;
  - f. Public recreational facilities or outdoor eating areas as authorized in the site development plan;
  - g. Architectural projections such as eaves, trellises, sun shades, columns, and buttresses may extend up to three feet into any yard.

D. Landscaping. Landscaping shall be provided pursuant to the City of Carlsbad Landscape Manual and Chapter 21.44 (Parking).

E. Walls and Fences.

1. A solid masonry wall, six feet in height, shall be constructed along the common lot line with

any residentially zoned property, except that the wall shall be forty-two inches in height along that part of the common lot line that bounds the front yard of the residential property.

2. Other walls and fences up to a height of six feet are permitted except that no wall or fence shall be erected in excess of forty-two inches in height within a yard adjacent to streets. Chain link, barbed wire, razor ribbon or other similar fences are specifically not permitted.
- F. Lighting. Exterior lighting is required for all employee and visitor parking areas, walkways, and building entrances and exits. Light sources shall be designed to avoid direct or indirect glare to any off-site properties or public rights-of-way.
- G. Roof Appurtenances. All roof appurtenances, including air conditioners, shall be architecturally integrated and shielded from view and the sound buffered from adjacent properties and streets, to the satisfaction of the City Planner.
- H. Trash Enclosures. Trash receptacle areas shall be enclosed by a six-foot-high masonry wall with gates subject to city standards.
- I. Loading Areas and Docks. All loading areas shall be oriented and/or screened so as to be unobtrusive from the adjacent streets or properties. Appropriate mitigating measures shall be incorporated to assure that noise from a loading area or dock does not exceed sixty-five dB CNEL at the shopping center's property line.
- J. Parking Requirements. Parking shall be provided subject to the provisions of Chapter 21.44 of this title.
- K. Employee Eating Areas. Outdoor eating facilities for employees of the center shall be provided, as follows, except as noted below:
  1. A minimum of three hundred square feet of outdoor eating facilities shall be provided for each fifty thousand square feet of floor area, or portion thereof. Credit towards the required amount of floor area will be given for centers in which two or more restaurants share a common, public eating area in a food court or for other public eating area available to all patrons, comprising at least six hundred square feet.
  2. The area shall be easily accessible to the employees of the local shopping center.
  3. The area shall be landscaped and provided with attractive outdoor furniture, i.e., metal, wood, or concrete picnic tables, benches/chairs and trash receptacles.
  4. The site size, location, landscaping and furniture required above shall be approved as part of the required site development plan, or if no site development plan is required, a plan of the eating area shall be provided to and approved by the City Planner.
- L. Signs. Signage for sites in the C-L zone that are subject to a site development plan shall be implemented according to a sign program, as established by Section 21.41.060 (sign ordinance) of this title. Signs for sites not subject to a site development plan shall be subject to all other provisions of Chapter 21.41 (sign ordinance).
- M. Recycling Areas. Where state law requires a recycling area for beverage containers to be located within the center, said recycling area shall be subject to the provisions of Chapter 21.105 of this title. The location of all recycling areas shall be set out in the site development plan and the parameters of operation shall be called out.

(Ord. NS-765 § 3, 2005; Ord. CS-164 § 10, 2011; Ord. CS-178 § XXXI, 2012)

**§ 21.31.090. Severability.**

If any section, subsection, sentence, clause, phrase or part of this chapter is for any reason found by a court of competent jurisdiction to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this chapter, which shall be in full force and effect. The City Council hereby declares that it would have adopted this chapter with each section, subsection, sentence, clause, phrase or part thereof irrespective of the fact that any one or more sections, subsections, sentences, clauses, phrases or parts be declared invalid or unconstitutional.

(Ord. NS-765 § 3, 2005)

**CHAPTER 21.32  
M INDUSTRIAL ZONE**

**§ 21.32.010. Permitted uses.**

- A. In an M zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of the zone, and is substantially similar to the specified permitted uses.
- D. A use category may be general in nature, where more than one particular use fits into the general category (ex. in some commercial zones "offices" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in another zone, the use shall not be permitted in this M Industrial Zone (even under a general use category) unless it is specifically listed in Table A of this chapter as permitted or conditionally permitted.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code: "P" indicates use is permitted. (See note 1 below)

"CUP" indicates use is permitted with approval of a conditional use permit. (See note 1 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

CS-225 §§ VIII, IX, 2013; Ord. CS-326 § 6, 2017)

**§ 21.32.020. Front yard.**

Any building structure, or any part thereof in an M zone shall have a front yard only when any one or more of the following conditions apply:

- (1) If the premises is devoted to an "R" use in the M zone, the depth of the front yard shall conform to the front yard requirements in the R-3 zone;
- (2) When property classified for "M" purposes comprises part of the frontage in a block on one side of a street between intersecting streets and the remainder of the frontage in the same block is classified for "R" purposes, the front yard in such M zone shall conform to the front yard required in the R-3 zone;
- (3) A front yard shall be provided as may be required by a precise plan, variance or conditional use permit.

(Ord. 9060 § 1301)

**§ 21.32.030. Side yards.**

Every lot in an M zone, when used for "C" or "M" purposes, need provide no side yards except such as may be incorporated in a precise plan or in a conditional use permit or variance.

(Ord. 9060 § 1302)

**§ 21.32.040. Placement of buildings.**

No building shall be erected closer than ten feet to the rear lot line of any lot zoned for "C" or "M" purposes when such lot abuts upon property classified for "R" purposes and no alley intervenes.

Any building located on an alley and having an opening used as a means of access from such alley shall maintain a distance of not less than five feet from such alley.

(Ord. 9060 § 1303)

**§ 21.32.050. Building height.**

- A. Except as otherwise provided in this section, no building in the M zone shall exceed a height of thirty-five feet, and allowed height protrusions as described in Section 21.46.020 shall not exceed a height

of forty-five feet.

B. Building height above thirty-five feet may be permitted, subject to the following:

1. Building height up to a maximum of forty-five feet may be permitted through approval of a minor site development plan processed in accordance with the provisions of Chapter 21.06 of this title, provided that:
  - a. The project complies with the provisions of subsection B.3 of this section.
  - b. The allowed height protrusions as described in Section 21.46.020 do not exceed a height of forty-five feet; with the exception of architectural features such as flagpoles, steeples or architectural towers, which may be permitted up to fifty-five feet if the decision-making authority makes the specific findings that the protruding architectural features:
    - i. Do not function to provide usable floor area;
    - ii. Do not accommodate and/or screen building equipment;
    - iii. Do not adversely impact adjacent properties; and
    - iv. Are necessary to ensure a building's design excellence.
2. Building height above forty-five feet may be permitted through approval of a site development plan processed in accordance with the provisions of Chapter 21.06 of this title, provided that:
  - a. The project complies with the provisions of subsection B.3 of this section.
  - b. The allowed height protrusions, as described in Section 21.46.020, do not exceed the height authorized by the decision-making authority.
  - c. The decision-making authority finds that:
    - i. The height of the building(s) will not adversely affect surrounding properties; and
    - ii. The building(s) will not be unduly disproportional to other buildings in the area.
3. All required setbacks shall be increased at a ratio of one horizontal foot for every one foot of vertical construction beyond thirty-five feet. The additional setback area will be maintained as landscaped open space.

(Ord. 9060 § 1304; Ord. 9753 § 1, 1985; Ord. NS-180 § 21, 1991; Ord. NS-240 § 7, 1993; Ord. CS-164 § 10, 2011; Ord. CS-178 § XXXII, 2012)

### **§ 21.32.060. Employee eating areas.**

Outdoor eating facilities for employees shall be provided outside all industrial/office buildings containing more than five thousand square feet, as follows, except as noted below:

- (1) A minimum of three hundred square feet of outdoor eating facilities shall be provided for each five thousand square feet of building area. Credit towards the required amount of square footage will be given for indoor eating facilities on a 1:1 basis, as determined by the City Planner.
- (2) The area shall be easily accessible to the employees of the building.
- (3) The area shall be located such that a sense of privacy is apparent.

(4) The area shall be landscaped and provided with attractive outdoor furniture, i.e., metal, wood, or concrete picnic tables, benches/chairs and trash receptacles.

(5) The site size, location, landscaping and furniture required above shall be approved as part of the required discretionary action (tentative map, site development plan, planned unit development, etc.) required under this title.

If no discretionary permit is required, a site plan showing the location, landscaping and facilities required above shall be submitted to the City Planner for approval prior to the issuance of any building permits.

(6) This section shall not apply to industrial/office buildings which are located within one thousand feet of an approved mini-park or a city park which is accessible by walking as determined by the City Planner.

(Ord. 9786 § 1, 1986; Ord. CS-164 § 10, 2011; Ord. CS-178 § XXXIII, 2012)

#### **§ 21.32.070. Emergency shelter.**

A. The purpose of this section is to establish standards to ensure that the development of emergency shelters does not adversely impact adjacent parcels or the surrounding neighborhood and that they are developed in a manner which protects the health, safety, and general welfare of the nearby residents and businesses and the character of the City of Carlsbad.

B. No individual shall be denied emergency shelter because of an inability to pay.

C. Emergency shelters shall be operated under the authority of a governing agency or private, nonprofit organization that provides, or that contracts with recognized community organizations to provide, emergency shelters and which, when required by law, are properly registered and licensed.

D. State laws and regulations. Emergency shelters shall comply with the latest California Health and Safety Codes.

E. Emergency shelters shall comply with all property development standards of the zone in which they are located in addition to the following development standards.

1. Location. No emergency shelter shall be located:

a. Immediately adjacent to any residentially zoned property;

b. Within three hundred feet of another emergency or similar shelter.

2. Maximum Number of Beds or Persons. No more than thirty beds shall be provided and no more than thirty persons shall be served in any single emergency shelter, except as authorized by a conditional use permit approved by the City Council pursuant to Chapter 21.42.

3. Parking. Parking shall be as required by Chapter 21.44.

4. Building and premises. Each emergency shelter shall include, at a minimum, the following:

a. Adequate interior and exterior lighting;

b. Adequate indoor client intake/waiting area if client intake is to occur on-site. If an exterior waiting area is also provided, it shall be enclosed or screened from public view and adequate to prevent queuing into the public right-of-way and required parking and access;

- c. Clean sanitary beds and sanitation facilities, including showers and toiletries;
  - d. Segregated sleeping, lavatory and bathing areas if the emergency shelter accommodates both men and women in the same building. Reasonable accommodation shall be made to provide segregated sleeping, lavatory and bathing areas for families;
  - e. Individual lockers to allow shelter clients to secure their private possessions while using the shelter.
- F. Management. At least one facility manager shall be on-site at all hours the facility is open. Additional support staff shall be provided, as necessary, to ensure that at least one staff member is provided in all segregated sleeping areas, as appropriate.
- G. No person shall be allowed to camp on the premises or sleep on the premises outside of the shelter building.
- H. Emergency shelters may provide one or more of the following types of supportive facilities or services for the exclusive use or benefit of the shelter clients:
- 1. Central cooking and dining room(s);
  - 2. Recreation areas, indoor and/or outdoors;
  - 3. Laundry facilities for clients to wash their clothes;
  - 4. Intake and administrative offices;
  - 5. Counseling and other supportive services.

(Ord. CS-190 § V, 2012)

## CHAPTER 21.33 O-S OPEN SPACE ZONE

### **§ 21.33.010. Intent and purpose.**

The intent and purpose of the O-S zone is to:

- (1) Provide for open space and recreational uses which have been deemed necessary for the aesthetically attractive and orderly growth of the community;
- (2) Protect and encourage said uses wherever feasible;
- (3) Be used in conjunction with publicly owned property utilized as parks, open space, recreation areas, civic centers and other public facilities of a similar nature;
- (4) Designate high priority resource areas at time of development that, when combined would create a logical and comprehensive open space system for the community;
- (5) Implement the goals and objectives of the general plan;
- (6) Protect areas set-aside and preserved as natural habitat and the biological resources located in the areas in conformance with the city's habitat management plan.

(Ord. 9385 § 2, 1974; Ord. NS-783 § 2, 2006)

### **§ 21.33.015. Carlsbad State Beach.**

Developments on Carlsbad State Beach will require permits subject to the requirements of the certified local coastal program. The local coastal program certified a coastal shoreline development overlay zone applicable to Carlsbad State Beach. It also established policies for the overall master plan for the area.  
(Ord. NS-365 § 2, 1996)

### **§ 21.33.020. Permitted uses.**

- A. In an O-S zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of the zone, and is substantially similar to the specified permitted uses.
- D. A use category may be general in nature, where more than one particular use fits into the general category (e.g., in some commercial zones "office" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in another zone, the use shall not be permitted in this O-S open space zone (even under a general use category) unless it is specifically listed in Table A of this chapter as permitted or conditionally permitted.

**Table A**  
**Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code: "P" indicates use is permitted. (See note 1 below)

"CUP" indicates use is permitted with approval of a conditional use permit. (See note 1 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Aquaculture (defined: Section 21.04.036)		1	
Aquaculture stands (display/sale) (subject to Section 21.42.140(B)(10))		1	
Athletic fields		2

**Notes:**

1. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.
2. A conditional use permit is required unless the use is permitted in conjunction with another permit such as a Master Plan, Specific Plan, or Planned Development.

(Ord. 9385 § 2, 1974; Ord. 9461 § 1, 1976; Ord. NS-791 § 25, 2006; Ord. CS-102 §§ LXXV, LXXVI, 2010; Ord. CS-164 § 10, 2011; Ord. CS-189 §§ XXXVII, XXXVIII, 2012; Ord. CS-224 § XXIX, 2013)

**§ 21.33.045. Open space preserved in conformance with the habitat management plan.**

- A. Notwithstanding Section 21.33.020 of this chapter, no development, uses, structures or activities shall be permitted in areas zoned for open space which have been set-aside and preserved for natural habitat in conformance with the city's habitat management plan except as provided below:
1. Activities related to the management, maintenance and biological monitoring of the habitat by the managing entity as required by the habitat management plan and city and other regulatory agency permits and approved by the wildlife agencies in the habitat management plan and/or MHCP in order to preserve and protect the property for natural habitat purposes. Fuel modification activities are not allowed within the preserve areas;
  2. Planting and maintaining of locally native trees, shrubs and other native landscaping elements in order to restore or enhance the habitat area as required by the habitat management plan and city and other regulatory agency permits and approved by the wildlife agencies in the habitat management plan and/or MHCP including the appurtenances necessary to maintain the native landscaping placed thereon;
  3. Trails which are approved as part of the citywide trail program and which are located in

conformance with city and other regulatory agency permits and are consistent with the habitat management plan and MHCP Volume I, Section 6.3.8 for public access, and approved by the wildlife agencies;

4. Passive recreation uses such as hiking, picnicking and bird-watching if allowed by the city and other regulatory agency permits and approved by the wildlife agencies;
  5. Existing utility easements;
  6. Additional easements, subject to approval of the wildlife agencies, that are consistent with the preservation of the natural condition of the property, do not impair or interfere with the conservation values of the property and do not compromise the overall levels of conservation in the preserve or adversely affect preserve and species goals;
  7. Fencing as required by the managing entity and which does not adversely affect wildlife movement and approved by the wildlife agencies;
  8. Signing which identifies the property as a habitat preserve and informs persons of the nature and restrictions on the property and approved by the wildlife agencies; and
  9. Other, minor ancillary uses or structures which have been specifically approved as part of the habitat management plan or as allowed by city or other regulatory agency permits and approved by the wildlife agencies. Ancillary structures that are specific to a project development, such as storm drains or detention basins, shall be allowed outside the preserve (any exceptions shall follow the appropriate process for a boundary adjustment).
- B. A conservation easement shall be placed on all open space areas set-aside and preserved as natural habitat in conformance with the habitat management plan. The conservation easement shall ensure that the property will be preserved in perpetuity and will be managed and maintained for its natural habitat value. The easement shall specifically list all allowable and prohibited open space uses.

(Ord. NS-783 § 3, 2006)

#### **§ 21.33.050. Lot area, minimum.**

There shall be no minimum lot area established for the O-S zone district. The size of the lot shall be dependent upon the existing or proposed use.

(Ord. 9385 § 2, 1974)

#### **§ 21.33.060. Building height.**

No building or structure in the O-S zone district shall exceed twenty-five feet in height unless a higher elevation is approved by a minor conditional use permit issued by the City Planner.

(Ord. 9385 § 2, 1974; Ord. NS-180 § 22, 1991; Ord. CS-224 § XXX, 2013)

**CHAPTER 21.34  
P-M PLANNED INDUSTRIAL ZONE**

**Note: Prior ordinance history: Ord. Nos. 1256, 1261, 9060, 9216, and 9674.**

**§ 21.34.010. Intent and purpose.**

The intent and purpose of this chapter is to accomplish the following:

- (1) Allow the location of business and light industries engaged primarily in research and/or testing, compatible light manufacturing, and business and professional offices; allow certain commercial/retail uses which cater to, support, or are accessory to the uses allowed in this zone; and allow flexibility for other select uses (i.e., athletic clubs/gyms, churches, daycare centers, recreation facilities, etc.) when found to be compatible with the P-M zone through the issuance of a conditional use permit;
- (2) Promote an attractive and high-quality design in developments which upgrades the city's natural environment and identity;
- (3) Provide for the phasing of development which is coordinated with the development of public improvements and services;
- (4) Encourage reduced energy consumption by building design and by allowing, in certain cases, compatible residential development which provides housing for employees of this zone;
- (5) Provide for alternative transportation modes for employees of this zone by a combination of bus facilities, ride-share programs, and pedestrian and bicycle circulation systems.

(Ord. 9693 § 1, 1983; Ord. CS-224 § XXXI, 2013; Ord. CS-225 § X, 2013)

**§ 21.34.020. Permitted uses.**

- A. In a P-M zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of the zone, and is substantially similar to the specified permitted uses.
- D. A use category may be general in nature, where more than one particular use fits into the general category (ex. in some commercial zones "offices" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in another zone, the use shall not be permitted in this P-M zone (even under a general use category) unless it is specifically listed in Table A of this chapter as permitted or conditionally permitted.

**Table A**  
**Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code: "P" indicates use is permitted. (See note 2 below)

"CUP" indicates use is permitted with approval of a conditional use permit. (See note 2 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Wireless communication facilities (subject to Section 21.42.140(B)(165); defined: Section 21.04.379)		1 / 2	

**Notes:**

- Business and professional offices which are primarily not retail in nature and are compatible with the industrial uses in the vicinity.
- Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of this code, shall be subject to the requirements of CMC Chapter 8.09.

**Notes:**

3. The retail use shall be accessory to the permitted use and wholly contained within the building. All products for retail sale shall be produced, distributed, and/or warehoused on the premises. No outdoor display of merchandise or retail sales shall be permitted unless customarily conducted in the open. Parking for the accessory retail use shall be determined based on the parking requirement for the primary use pursuant to CMC Chapter 21.44.
4. A primary retail use shall cater to or support the industrial and office uses in the P-M zone.
5. Subject uses shall comply with the distance requirements in Section 21.42.140(B)(137).

(Ord. 9693 § 1, 1983; Ord. 9785 § 21, 1986; Ord. 9804 § 6, 1986; Ord. NS-87 § 5, 1989; Ord. NS-675 § 76, 2003; Ord. NS-791 § 26, 2006; Ord. CS-063 § V, 2009; Ord. CS-102 § LXXVIII, LXXIX, 2010; Ord. CS-164 § 10, 2011; Ord. CS-189 §§ XXXIX, XL, 2012; Ord. CS-190 § VI, 2012; Ord. CS-224 § XXXII, 2013; Ord. CS-225 §§ XI, XII, 2013; Ord. CS-290 §§ 4, 5, 2015; Ord. CS-326 §§ 7, 8, 2017)

**§ 21.34.050. Minor site development plan required.**

- A. No development in the P-M zone shall be done without first obtaining approval of a minor site development plan processed in accordance with the provisions of Chapter 21.06 of this title; except that notice of the application for a minor site development plan, required pursuant to Section 21.06.060 of this title, shall not be required for development in the P-M zone, unless the application includes a request to exceed the permitted building height pursuant to Section 21.34.070.A of this chapter.
- B. If the applicant contemplates the construction of the project in phases, the minor site development plan application shall so state and shall include a proposed phasing schedule.

(Ord. 9693 § 1, 1983; Ord. 9758 § 6, 1985; Ord. NS-675 §§ 31, 32, 76, 2003; Ord. CS-164 § 10, 2011; Ord. CS-178 § XXXV, 2012)

**§ 21.34.070. Development standards.**

All industrial projects shall comply with the following development standards:

- A. Building Height.
  1. Except as otherwise provided in this section, no building in the P-M zone shall exceed a height of thirty-five feet, and allowed height protrusions as described in Section 21.46.020 shall not exceed a height of forty-five feet.
  2. Building height above thirty-five feet may be permitted subject to the following:
    - a. Building height up to a maximum of forty-five feet may be permitted through approval of a minor site development plan processed in accordance with the provisions of Chapter 21.06 of this title, provided that:
      - i. The project complies with the provisions of subsection A.2.c of this section; and
      - ii. The allowed height protrusions as described in Section 21.46.020 do not exceed a height of forty-five feet; with the exception of architectural features such as flagpoles, steeples or architectural towers, which may be permitted up to fifty-five feet if the decision-making authority makes the specific findings that the protruding architectural features:

- (A) Do not function to provide usable floor area;
  - (B) Do not accommodate and/or screen building equipment;
  - (C) Do not adversely impact adjacent properties; and
  - (D) Are necessary to ensure a building's design excellence.
- b. Building height above forty-five feet may be permitted through approval of a site development plan processed in accordance with the provisions of Chapter 21.06 of this title, provided that:
- i. The project complies with the provisions of subsection A.2.c of this section.
  - ii. The allowed height protrusions as described in Section 21.46.020 do not exceed the height authorized by the decision-making authority.
  - iii. The decision-making authority finds that:
    - (A) The height of the building(s) will not adversely affect surrounding properties; and
    - (B) The building(s) will not be unduly disproportional to other buildings in the area.
- c. All required setbacks shall be increased at a ratio of one horizontal foot for every one foot of vertical construction beyond thirty-five feet. The additional setback area shall be maintained as landscaped open space.

B. Setbacks.

1. Front Yard and Side Street Yard on Prime, Major and Secondary Streets. Every lot in the P-M zone that has a front yard or side street yard facing on a prime, major or secondary street shall have a minimum setback of fifty feet. This setback shall be measured from the right-of-way line. This setback shall be entirely landscaped and irrigated; however, upon approval of the City Planner, the landscaped portion of the setback may be reduced to thirty-five feet to accommodate a driveway along the portion of the setback farthest from the right-of-way or private street. Any driveway within the front yard setback shall be screened from the public or private street by a mixture of mounding and landscaping to the satisfaction of the City Planner.
2. Front Yard and Street Side Yard on Collector, Local and Private Streets. Every lot in the P-M zone that has a front yard or side street yard facing on a collector, local or private street shall have an average setback of thirty-five feet; however, the setback shall not be less than twenty-five feet. This setback shall be entirely landscaped and irrigated and shall be measured from the right-of-way line or, in the case of a private street, from the curb line.
3. Side Yard—Interior. All interior side yards shall have a minimum setback of ten feet which shall be entirely landscaped and irrigated.
4. Rear Yard. The rear yard setback shall be a minimum of twenty feet of which at least ten feet adjacent to the rear property line shall be entirely landscaped and irrigated.
5. Walls and Fences. A wall or fence located in any part of a required setback area shall not exceed six feet in height. A wall or fence located in any required front setback or side street area shall not exceed thirty-six inches in height.

6. Landscaping in Parking Areas. A minimum of ten percent of the required parking area, inclusive of driveways, shall be landscaped subject to the approval of the City Planner. Landscaping in the building setback areas shall not count towards meeting this requirement.
7. Minimum Lot Area. Except for developments proposed as condominiums or planned unit developments, each lot shall have a minimum lot area of one acre. However, the decision-making authority for the subdivision map may permit a reduction in the minimum lot area requirement if it is found that the reduced lot area is necessary for the development of a comprehensively planned project requiring a minor site development plan pursuant to this chapter and that the reduction of the lot area does not create adverse impacts to surrounding properties.
8. Lot Coverage. All buildings, including accessory building structures, shall cover not more than fifty percent of the area of a lot. Open parking areas shall not be counted in determining lot coverage.
9. Private Streets. Private streets may be permitted within a project requiring a minor site development plan pursuant to this chapter provided their width and geometric design are related to the function, topography and needs of the development, and their structural design, pavement and construction comply with the requirement of the city's street improvement standards and further provided that the permit is processed concurrently with a subdivision map. The width of private streets shall not be less than the minimum standards of this subsection. Pavement between curbs of private streets shall not be less than the following:

Type of Street	Minimum Width Curb to Curb
2 lanes, no parking	32 feet
2 lanes, parking one side	42 feet
2 lanes, parking on both sides	52 feet

- C. Employee Eating Areas. Outdoor eating facilities for employees shall be provided outside all industrial/office buildings containing more than five thousand square feet, as follows, except as noted below:

1. A minimum of three hundred square feet of outdoor eating facilities shall be provided for each five thousand square feet of building area. Credit towards the required amount of square footage will be given for indoor eating facilities on a 1:1 basis, as determined by the City Planner.
2. The area shall be easily accessible to the employees of the building.
3. The area shall be located such that a sense of privacy is apparent.
4. The area shall be landscaped and provided with attractive outdoor furniture, i.e., metal, wood, or concrete picnic tables, benches/chairs and trash receptacles.
5. The site size, location, landscaping and furniture required above shall be approved as part of the required minor site development plan required under this title. If no discretionary permit is required, a site plan showing the location, landscaping and facilities required above shall be submitted to the City Planner for approval prior to the issuance of any building permits.
6. This section shall not apply to industrial/office buildings which are located within one thousand feet of an approved mini-park or a city park which is accessible by walking as determined by

the City Planner.

(Ord. 9693 § 1, 1983; Ord. 9786 § 1, 1986; Ord. NS-180 § 23, 1991; Ord. NS-240 § 8, 1993; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011; Ord. CS-178 § XXXVII, 2012)

#### **§ 21.34.080. Design criteria.**

All industrial projects shall comply with the following design criteria:

1. The overall plan shall be comprehensive, imaginative and innovative, embracing land, buildings, landscaping and their relationships, and shall conform to adopted plans of all governmental agencies for the area in which the proposed development is located.
2. The plan shall provide for adequate open space, circulation, off-street parking and other pertinent amenities. Buildings, structures and facilities in the parcel shall be well integrated, oriented and related to the topographic and natural landscape features of the site.
3. The proposed development shall be compatible with existing and planned surrounding land uses and with circulation patterns on adjoining properties. It shall not constitute a disruptive element to the community.
4. The internal street system shall not be a dominant feature in the overall design; rather, it should be designed for the efficient and safe flow of vehicles without creating a disruptive influence on the activity and function of the development.
5. The design of buildings and surrounding environment shall be architecturally integrated and compatible with each other.
6. Screening walls for storage spaces, loading areas and equipment shall be architecturally integrated with the surrounding building design.
7. Building placement shall be designed to create opportunities for plazas or other landscaped open spaces within the project.

(Ord. 9693 § 1, 1983)

#### **§ 21.34.090. Performance standards.**

All industrial uses shall comply with the following performance standards:

1. The maximum allowable exterior noise level of any use shall not exceed 65 Ldn as measured at the property line. For properties that are approved nonresidential planned developments, the exterior noise level shall be measured from the parcel owned in common by the owner's association, which constitutes the perimeter property lines. Where a property is occupied by more than one use (whether within the same building or in separate buildings), the noise level shall not be in excess of 45 Ldn as measured within the interior space of the neighboring establishment. Noise caused by motor vehicles traveling to and from the site are exempt from this standard.
2. All uses shall be operated so as not to emit matter causing unpleasant odors which are perceptible to the average person while within or beyond the lot containing such uses.
3. All uses shall be so operated as not to generate vibration discernible without instruments by the average person while on or beyond the lot upon which the source is located or within an adjoining enclosed space if more than one establishment occupies a structure. Vibration caused by motor vehicles, trains and temporary construction is exempted from this standard.

4. All uses shall be operated so as not to produce humidity, heat, glare or high-intensity illumination which is perceptible without instruments by the average person while on or beyond the lot containing the use.
5. All uses shall meet the air quality standards of the San Diego County Air Quality Control Board (AQCB). In addition, all uses shall be operated so as not to emit particulate matter or air contaminants which are readily detectable without instruments by the average person while on the lot containing such uses.
6. All manufacturing, assembling, compounding, fabrication, packaging, processing and treating operations shall be conducted entirely within an enclosed building.
7. All outdoor storage, including equipment, shall be completely enclosed by a solid decorative concrete or masonry wall not less than six feet in height. Any such wall shall be architecturally compatible with the main buildings on the site and shall screen the stored materials from the view of industrially zoned adjoining properties and public streets. If complete visual screening of stored materials is not possible, trees and other plant materials shall be used. Any walls or landscaping used for screening purposes shall be subject to the approval of the City Planner.

Outdoor storage shall not be allowed adjacent to non-industrially zoned properties.

8. All discharge of industrial waste shall be in conformity with the provisions of Chapter 13.16 of this code, as amended.

(Ord. 9693 § 1, 1983; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011; Ord. CS-290 § 6, 2015)

#### **§ 21.34.120. Final map.**

Building permits for construction within any planned industrial development shall not be issued until a final subdivision map or parcel map has been recorded for the property. A final map which deviates from the conditions imposed by the permit shall not be approved.

(Ord. 9693 § 1, 1983)

#### **§ 21.34.130. Final planned industrial development plan.**

- A. For applications that have filed a parcel map or tentative map concurrent with a minor site development plan required pursuant to this chapter, a final planned industrial development plan shall be submitted to and approved by the City Planner prior to the recordation of the final map.
- B. For applications that have not filed a parcel map or tentative map concurrent with a minor site development plan required pursuant to this chapter, a final planned industrial development plan shall be submitted to and approved by the City Planner prior to the issuance of any building permits.
- C. The final planned industrial development plan shall reflect all required revisions and refinements. The final planned industrial development plan shall include:
  1. Improvement plans for private streets, water, sewerage and drainage systems, walkways, fire hydrants, parking areas and storage areas. The plan shall include any off-site work necessary for proper access, or for the proper operation of water, sewerage or drainage system;
  2. A final grading plan;
  3. Final elevation plans;

4. A final landscaping plan including methods of soil preparation, plant types, sizes and location, and irrigation system plans showing location, dimensions and types; and
  5. A plan for lighting of streets, driveways and parking areas.
- D. Where a development requiring a minor site development plan pursuant to this chapter contains any land or improvements proposed to be held in common ownership, the applicant shall submit a declaration of covenants, conditions and restrictions with the final planned industrial development plan. Such declaration shall set forth provisions for maintenance of all common areas, payment of taxes and all other privileges and responsibilities of the common ownership and shall be reviewed by and subject to approval by the City Planner and City Attorney.
- E. A final planned industrial development plan may be submitted for a portion of the development, provided the City Planner approves the construction phases as part of the permit and provided that the phases are consistent with any subdivision map filed on the property. The plan for the first portion must be submitted within the time limits of this section. Subsequent units may be submitted at later dates in accord with the approved phasing schedule.
- F. The City Planner shall review the plan for conformity to the requirements of this chapter and the minor site development plan. If the City Planner finds the plan to be in substantial conformance with all such requirements, the City Planner shall approve the plan.

(Ord. 9693 § 1, 1983; Ord. NS-675 §§ 76, 2003; Ord. CS-164 § 10, 2011; Ord. CS-178 § XXXIX, 2012)

#### **§ 21.34.140. Certification of occupancy.**

A certification of occupancy shall not be issued for any structure requiring a minor site development plan pursuant to this chapter until all improvements required by the minor site development plan have been completed to the satisfaction of the City Engineer, City Planner and the Community and Economic Development Director.

(Ord. 9693 § 1, 1983; Ord. NS-675 §§ 76, 79, 2003; Ord. CS-164 §§ 10, 14, 2011; Ord. CS-178 § XL, 2012)

#### **§ 21.34.150. Maintenance.**

All private streets, walkways, parking areas, landscaped areas, storage areas, screening, sewers, drainage facilities, utilities, open space and other improvements not dedicated to public use shall be maintained by the property owners or as otherwise approved by the City Council. Provisions acceptable to the city shall be made for the preservation and maintenance of all such improvements prior to the issuance of building permits.

(Ord. 9693 § 1, 1983)

#### **§ 21.34.160. Failure to maintain.**

- A. All commonly owned land, improvements and facilities shall be preserved and maintained in a safe condition and in a state of good repair. Any failure to so maintain is unlawful and a public nuisance endangering the health, safety and general welfare of the public and a detriment to the surrounding community.
- B. In addition to any other remedy provided by law for the abatement, removal and enjoinderment of such public nuisance, the City Engineer may, after giving notice, cause the necessary work of maintenance or repair to be done. The costs thereof shall be assessed against the owner or owners of the project.

- C. The notice shall be in writing and mailed to all persons whose names appear on the last equalized assessment roll as owners of real property within the project at the address shown on the assessment roll. Notice shall also be sent to any person known to the City Engineer to be responsible for the maintenance or repair of the common areas and facilities of the project under an indenture or agreement. The City Engineer shall also cause at least one copy of such notice to be posted in a conspicuous place on the premises. No assessment shall be held invalid for failure to post or mail or correctly address any notice.
- D. The notice shall particularly specify the work required to be done and shall state that if the work is not commenced within five days after receipt of such notice and diligently and without interruption prosecuted to completion, the city shall cause such work to be done, in which case the cost and expense of such work, including incidental expenses incurred by the city, will be assessed against the property or against each separate lot and become a lien upon such property.
- E. If upon the expiration of the five-day period provided for in subsection D of this section the work has not been done or, having been commenced, is not being performed with diligence, the City Engineer shall proceed to do such work or cause such work to be done. Upon completion of such work, the City Engineer shall file a written report with the City Council setting forth the fact that the work has been completed and the cost thereof, together with a legal description of the property, against which cost is to be assessed. The City Council shall thereupon fix a time and place for hearing protests against which the cost is to be assessed and against the assessment of the cost of such work. The City Engineer or the City Clerk, if so directed by the council, shall thereafter give notice in writing to the owners of the project in the manner provided in subsection C of this section of the hour and place that the City Council will pass upon the City Engineer's report and will hear protests against the assessments. Such notice shall also set forth the amount of the proposed assessment.
- F. Upon the date and hour set for the hearing of protests, the City Council shall hear and consider the City Engineer's report and all protests, if there be any, and then proceed to confirm, modify or reject the assessments.
- G. A list of assessments as finally confirmed by the City Council shall be sent to the City Treasurer for collection. If any assessment is not paid within 10 days after its confirmation by the City Council, the City Clerk shall cause to be filed in the office of the County Recorder a notice of lien, substantially in the following form:

**NOTICE OF LIEN**

Pursuant to Chapter 21.34, Title 21, of the Carlsbad Municipal Code (Ordinance No. 9693), the City of Carlsbad did on the \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_\_, cause maintenance and repair work to be done in the Planned Industrial Development project known as \_\_\_\_\_ which was constructed under the Minor Site Development Plan No. \_\_\_\_\_ for the purpose of abating a public nuisance and enforcing compliance with the terms of said minor site development plan, and the Council of the City of Carlsbad did on the \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_\_, by its Resolution No. \_\_\_\_\_ assess the cost or portion of the cost thereof upon the real property hereinafter described, and the same has not been paid nor any part thereof, and the City of Carlsbad does hereby claim a lien upon said real property until the same sum with interest thereon at the maximum rate allowed by law from the date of the recordation of this instrument has been paid in full and discharged of record. The real property hereinbefore mentioned and upon which a lien is hereby claimed is that certain parcel of land in the City of Carlsbad, County of San Diego, State of California, particularly described as follows:

(Description of Property)

**NOTICE OF LIEN**

Dated this \_\_\_\_\_ day of \_\_\_\_\_ 20\_\_\_\_\_,  
\_\_\_\_\_, City Clerk, City of Carlsbad

- H. From and after the date of recordation of such notice of lien, the amount of the unpaid assessment shall be a lien on the property against which the assessment is made, and such assessment shall bear interest at the maximum rate allowed by law until paid in full. The lien shall continue until the amount of the assessment and all interest thereon has been paid. The lien shall be subordinate to tax liens and all fixed special assessment items previously imposed upon the same property, but shall have priority over all contractual liens and all fixed special assessment liens which may thereafter be created against the property. From and after the date of recordation of such notice of lien, all persons shall be deemed to have notice of contents thereof.

(Ord. 9693 § 1, 1983; Ord. CS-178 § XLI, 2012)

**CHAPTER 21.35  
V-B VILLAGE-BARRIO ZONE**

**Note: Prior ordinance history: Ord. Nos. NS-330, NS-340, NS-371, NS-439, NS-506, NS-675 NS-703, CS-178, CS-164, CS-052 and CS-037**

**§ 21.35.010. Intent and purpose.**

The Village-Barrio zone is intended to establish land use classifications, development standards, procedures and guidelines for that unique area of the city described in the Village and Barrio master plan and designated "V-B, Village-Barrio" on the zoning map.

(Ord. CS-334 § 6, 2018)

**§ 21.35.020. Incorporation of the Village and Barrio master plan by reference.**

The Village and Barrio master plan, as adopted by City Council Ordinance CS-357 on August 27, 2019, and as approved and certified by the California Coastal Commission on October 16, 2019, is hereby adopted by reference and incorporated into this chapter.

(Ord. CS-334 § 6, 2018)

**§ 21.35.030. Land affected by this chapter.**

This chapter shall apply only to lands located within the boundaries of the Village and Barrio master plan and zoned "V-B, Village-Barrio" on the zoning map.

(Ord. CS-334 § 6, 2018)

**§ 21.35.040. Compliance with the Village and Barrio master plan and the Carlsbad Municipal Code.**

Projects developed pursuant to this chapter shall be subject to the provisions of the Village and Barrio master plan, and all applicable provisions of the Carlsbad Municipal Code, including, but not limited to, those provisions of Titles 18, 19, 20 and 21.

(Ord. CS-334 § 6, 2018)

**§ 21.35.050. General regulations.**

Except as otherwise provided by the Village and Barrio master plan, the regulations of this title which apply to uses generally or generally to all zoning classifications shall apply to property and uses in this zone.

(Ord. CS-334 § 6, 2018)

**§ 21.35.060. Permitted uses.**

The development standards of the Village and Barrio master plan, including the permitted uses table, shall identify the permitted, conditionally permitted, and prohibited uses in the V-B zone. Any use not identified in the permitted uses table is not permitted unless the City Planner determines that such use falls within the vision and intent of the master plan district in which it is proposed and is substantially similar to an allowed use in the district. Further, the City Planner shall not find that a use substantially similar to an expressly prohibited use is permitted in any district.

(Ord. CS-334 § 6, 2018)

**§ 21.35.070. Permit required.**

Unless specifically exempt from a discretionary permit pursuant to the Village and Barrio master plan and Section 21.201.060, no building permit or other entitlement shall be issued for any development or use in the V-B zone unless there is a valid site development plan, conditional use permit, coastal development permit or other discretionary permit as required by the Village and Barrio master plan and as approved for the property.

(Ord. CS-334 § 6, 2018)

**§ 21.35.080. Findings of fact.**

No determination or decision shall be made pursuant to this chapter unless the decision-making authority finds, in addition to any other findings otherwise required for the project, that the project is consistent with the general plan, this code, as applicable, the Village and Barrio master plan, and the local coastal program, as applicable.

(Ord. CS-334 § 6, 2018)

**§ 21.35.090. Amendments to the Village and Barrio master plan.**

Amendments to the Village and Barrio master plan shall be deemed to be amendments to this chapter; provided, however, that such amendments are processed and noticed in a manner which meets the requirements of Chapter 21.52 of this code and are approved and adopted by City Council ordinance.

(Ord. CS-334 § 6, 2018)

**CHAPTER 21.36  
P-U PUBLIC UTILITY ZONE**

**§ 21.36.010. Intent and purpose.**

The intent and purpose of the P-U zone is to provide for certain public utility and related uses subject to a precise development plan procedure to:

- A. Insure compatibility of the development with the general plan and the surrounding developments;
- B. Insure that due regard is given to environmental factors;
- C. Provide for public improvements and other conditions of approval necessitated by the development.  
(Ord. 9060 § 1390; Ord. 9268 § 1, 1971; Ord. 9441 § 1, 1975)

**§ 21.36.020. Permitted uses.**

- A. In a P-U zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title. Approval of a conditional use permit is required for the generation and transmission of electrical energy and shall require a finding by the City Council that the use serves an extraordinary public purpose in addition to the other findings required for a conditional use found in Chapter 21.42.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of the zone, and is substantially similar to the specified permitted uses.
- D. A use category may be general in nature, where more than one particular use fits into the general category (ex. in some commercial zones "office" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in another zone, the use shall not be permitted in this P-U zone (even under a general use category) unless it is specifically listed in Table A of this chapter as permitted or conditionally permitted.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code: "P" indicates use is permitted. (See note 1 below)

"CUP" indicates use is permitted with approval of a conditional use permit. (See note 1 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Accessory uses and structures			X
Airports	3		
Aquaculture (defined: Section 21.04.036)	1		
Aquaculture stands (display/sale) (subject to Section 21.42.140(B)(10))	1

**Note:**

1. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. 9060 § 1391; Ord. 9268 § 1, 1971; Ord. 9441 § 1, 1975; Ord. 9507 § 4, 1978; Ord. 9674 § 2, 1983; Ord. 9785 § 22, 1986; Ord. 9804 § 6, 1986; Ord. NS-791 § 26, 2006; Ord. CS-102 § LXXXI, 2010; Ord. CS-158 § I, 2011; Ord. CS-170 §§ 4, 5, 2012; Ord. CS-189 §§ XLI, XLII, 2012; Ord. CS-224 § XXXIII, 2013; Ord. CS-250 § 3, 2014; Ord. CS-253 § I, 2014)

**§ 21.36.030. Precise development plan.**

No building permit or other entitlement for any use in the P-U zone shall be issued until a precise development plan has been approved for the property. The precise development plan may include provisions for any accessory use necessary to conduct any permitted use.

(Ord. 9060 § 1392; Ord. 9268 § 1, 1971; Ord. 9441 § 1, 1975)

**§ 21.36.040. Procedure.**

An application for a precise development plan shall be made and processed in accord with the procedures for a zone change pursuant to Chapter 21.52 of this code, except that any council decision shall be final and need not be referred back to the Planning Commission.

(Ord. 9060 § 1393; Ord. 9268 § 1, 1971; Ord. 9441 § 1, 1975; Ord. 9530 § 1, 1979)

**§ 21.36.050. Conditions.**

The City Council may impose such conditions on the applicant and the plan as are determined necessary and consistent with the provisions of this chapter, the general plan and any specific plans that include provisions for, but are not limited to, the following:

- (1) Setbacks, yards and open space;

- (2) Special height and bulk of building regulations;
- (3) Fences and walls;
- (4) Regulation of signs;
- (5) Landscaping;
- (6) Special grading restrictions;
- (7) Requiring street dedication and improvements (or posting of bonds);
- (8) Requiring public improvements either on or off the subject site that are needed to service the proposed development;
- (9) Time period within which the project or any phases of the project shall be completed;
- (10) Regulation of points of ingress and egress;
- (11) Parking;
- (12) Regulation of the type, quality, distribution and use of reclaimed water, or reclaimed wastewater.  
(Ord. 9060 § 1394; Ord. 9268 § 1, 1971; Ord. 9441 § 1, 1975; Ord. 9551 § 1, 1980)

**§ 21.36.060. Minimum lot area.**

The minimum required area of a lot in the P-U zone shall be not less than seven thousand five hundred square feet.

(Ord. 9060 § 1395; Ord. 9268 § 1, 1971; Ord. 9441 § 1, 1975)

**§ 21.36.070. Lot coverage.**

All buildings and structures, including accessory buildings and structures, shall cover no more than fifty percent of the area of the lot.

(Ord. 9060 § 1396; Ord. 9268 § 1, 1971; Ord. 9441 § 1, 1975)

**§ 21.36.080. Parking and loading areas.**

No parking or loading area shall be located:

- (1) In a front, side or rear yard adjoining a street;
- (2) Within ten feet of an interior side or rear property line.  
(Ord. 9441 § 1, 1975)

**§ 21.36.090. Landscaping required.**

Except for approved ways of ingress and egress and parking and loading areas, all required yards shall be:

- (1) Permanently landscaped with one or a combination of more than one of the following: lawn, shrubs, trees and flowers;
- (2) Served by a water irrigation system and supplied with bubblers and sprinklers.

No walls or fences over four feet in height may be constructed in any area where landscaping is required.

(Ord. 9441 § 1, 1975)

**§ 21.36.100. Final precise development plan.**

After approval, the applicant shall submit a reproducible copy of the precise development plan which incorporates all requirements of the approval to the City Manager for signature. Prior to signing the final precise development plan, the City Manager shall determine that all applicable requirements have been incorporated into the plan and that all conditions of approval have been satisfactorily met or otherwise guaranteed.

The final signed precise development plan shall be the official site layout plan for the property and shall be attached to any application for a building permit on the subject property.

(Ord. 9441 § 1, 1975)

**CHAPTER 21.37  
RMHP RESIDENTIAL MOBILE HOME PARK ZONE**

**§ 21.37.010. Intent and purpose.**

- A. The intent and purpose of the mobile home park zone is to:
1. Provide locations where mobile homes and mobile home parks may be established, maintained and protected;
  2. Provide a means to regulate and control the conversion of existing mobile home parks to another use;
  3. Promote and encourage an orderly residential environment with appropriate physical amenities; and
  4. Implement the goals and objectives of the general plan, including all residential land use designations and the housing element.

(Ord. 9564 § 2, 1980; Ord. NS-718 § 15, 2004)

**§ 21.37.020. Permitted uses.**

- A. In an RMHP zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of the zone, and is substantially similar to the specified permitted uses.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code: "P" indicates use is permitted. (See note 4 below)

"CUP" indicates use is permitted with approval of a conditional use permit. (See note 4 below)

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

**Notes:**

1. A conditional use permit is not required for a golf course if it is approved as part of a master plan for a planned community development.
2. A mobile home park may be a condominium, planned unit development, or rental park consisting of mobile homes. Subject to the provisions of Section 18551 of the California Health and Safety Code, mobile homes may be placed on permanent foundation systems in condominium or planned-unit development parks. Subject to the provisions of Sections 18551.1 and 18611 of the California Health and Safety Code mobile homes and factory-built houses may be placed on permanent foundation systems in any mobile home park for which a permit was issued after January 1, 1982 and designated to accommodate homes on permanent foundation systems.
3. Public/quasi-public accessory utility buildings/facilities include, but are not limited to, water wells, water storage, pump stations, booster stations, transmission/distribution electrical substations, operating centers, gas metering/regulating stations or telephone exchanges, with the necessary accessory equipment incidental thereto.
4. Any use meeting the definition of an entertainment establishment, as defined in Section 8.09.020 of the Carlsbad Municipal Code (CMC), shall be subject to the requirements of CMC Chapter 8.09.

(Ord. 9564 § 2, 1980; Ord. 9615 § 1, 1983; Ord. 9674 § 2, 1983; Ord. 9785 § 23, 1986; Ord. 9804 § 6, 1986; Ord. NS-409 § 18, 1997; Ord. NS-718 § 15, 2004; Ord. NS-746 § 12, 2005; Ord. NS-791 § 27, 2006; Ord. CS-102 §§ LXXXII, LXXXIII, 2010; Ord. CS-164 § 10, 2011; Ord. CS-189 § XLIII, 2012; Ord. CS-191 § XVII, 2012; Ord. CS-224 §§ XXXIV, XXXV, 2013; Ord. CS-249 § XV, 2014)

**§ 21.37.030. Permit required.**

- A. No person shall develop a mobile home park and no mobile home park shall be established unless a mobile home park permit has been issued according to this chapter.
- B. The requirement for a mobile home park permit and the design criteria and development standards identified in this chapter, are not applicable to the filing of a tentative map or a parcel map for a subdivision to be created from the conversion of a rental mobile home park to a resident ownership provided that the Planning Commission and City Council find that the mobile home park shall remain substantially in conformance with the existing facility allowing conversion. Such conversion of existing mobile home parks shall still be subject to Sections 21.37.110 and 21.37.120.

(Ord. 9564 § 2, 1980; Ord. 9836 § 1, 1987; Ord. NS-718 § 15, 2004; Ord. CS-061 § 4, 2009)

**§ 21.37.040. Application and fees.**

- A. An application for a mobile home park permit may be made by the owner of the property affected or the authorized agent of the owner. The application shall:
  1. Be made in writing on a form provided by the City Planner;
  2. State fully the circumstances and conditions relied upon as grounds for the application; and

3. Be accompanied by:
    - a. A legal description of the property involved.
    - b. Adequate plans, which include a development plan showing the location of all mobile home lots and accessory buildings, a landscape plan and a grading plan including cross-sections of any proposed grading.
    - c. All other materials as specified by the City Planner.
  4. If the applicant contemplates the construction of a mobile home park in phases, the application shall so state and shall include a proposed construction schedule;
  5. If the project is to provide open areas and recreational facilities to be used by the occupants of two or more dwelling units, it shall be stated in the application and the application shall include a plan, acceptable to the city, for the preservation and maintenance of the common elements of the property; and
  6. If the proposed park will be a condominium or planned unit development, a tentative map prepared according to the requirements of Chapter 20.12 of this code shall be filed at the time of the application for the mobile home park. No tentative map for a mobile home condominium or planned unit development shall be approved unless a mobile home park permit has first been approved. A tentative map for a mobile home condominium or planned unit development shall not be deemed submitted for approval until the date of the first Planning Commission hearing on the permits.
- B. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.

(Ord. 9564 § 2, 1980; Ord. 1256 §§ 7, 13, 1982; Ord. NS-675 §§ 76, 81, 2003; Ord. NS-718 § 15, 2004; Ord. CS-164 §§ 10, 11, 2011; Ord. CS-178 § LII, 2012)

#### **§ 21.37.050. Decision-making authority.**

- A. An application for a mobile home park permit may be approved, conditionally approved or denied by the City Council based upon its review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the public hearing.
- B. Before the City Council decision, the Planning Commission shall hear and consider the application for a mobile home park permit and shall prepare a recommendation and findings for the City Council. The action of the Planning Commission shall be filed with the City Clerk, and a copy shall be mailed to the applicant.
- C. The City Council shall hear the matter, and may approve or conditionally approve the mobile home park permit if it finds that the design and improvement of the project are consistent with the development standards and design criteria established by this chapter.

(Ord. 9564 § 2, 1980; Ord. 1256 § 7, 1982; Ord. NS-675 § 76, 2003; Ord. NS-718 § 15, 2004; CS-164 § 10, 2011; Ord. CS-178 § LII, 2012)

#### **§ 21.37.060. Announcement of decision and findings of fact.**

When a decision on a mobile home park permit is made pursuant to this chapter, the decision-making authority shall announce its decision in writing in accordance with the provisions of Section 21.54.120 of this code.

(Ord. 9564 § 2, 1980; Ord. 9758 § 8, 1985; Ord. NS-718 § 15, 2004; Ord. CS-178 § LII, 2012)

**§ 21.37.070. Effective date.**

The decision of the City Council on a mobile home park permit is final, conclusive and shall be effective upon the date specified in the announcement of decision.

(Ord. 9564 § 2, 1980; Ord. NS-718 § 15, 2004; Ord. CS-178 § LII, 2012)

**§ 21.37.075. Expiration, extensions and amendments.**

- A. The expiration period for an approved mobile home park permit shall be as specified in Section 21.58.030 of this title.
- B. The expiration period for an approved mobile home park permit may be extended pursuant to Section 21.58.040 of this title.
- C. An approved mobile home park permit may be amended pursuant to the provisions of Section 21.54.125 of this title.

(Ord. CS-178 § LIII, 2012)

**§ 21.37.080. Final mobile home park plan.**

- A. After approval of the mobile home park permit, the applicant shall prepare a reproducible copy of the approved mobile home park site plan known hereafter as the final mobile home park plan, which shall incorporate all requirements of the mobile home park permit approval.
- B. The final mobile home park plan shall be submitted to the City Planner for signature. Prior to signing the final mobile home park plan, the City Planner shall determine that all applicable requirements have been incorporated into the plan and that all conditions of approval have been satisfactorily met or otherwise guaranteed.

(Ord. 9564 § 2, 1980; Ord. 1256 § 10, 1982; Ord. NS-675 §§ 76, 77, 2003; Ord. NS-718 § 15, 2004; Ord. CS-164 § 10, 2011)

**§ 21.37.090. Design criteria.**

- A. The following design criteria shall apply to all mobile home parks:
  - 1. The overall plan shall be comprehensive, embracing land, mobile homes, buildings, landscaping and their interrelationships, and shall conform to adopted plans for all governmental agencies for the area in which the proposed development is located;
  - 2. The plan shall provide for adequate circulation, off-street parking, open recreational areas and other pertinent amenities. Mobile homes, buildings, structures and facilities in the park shall be well integrated, oriented and related to the topographic and natural landscape features of the site;
  - 3. The proposed development shall be compatible with existing and planned land use and with circulation patterns on adjoining properties. It shall not constitute a disruptive element to the neighborhood or community; and
  - 4. Common areas and recreational facilities shall be located so as to be readily accessible to the occupants of the dwelling units and shall be well related to any common open spaces provided.

(Ord. 9564 § 2, 1980; Ord. NS-718 § 15, 2004)

**§ 21.37.100. Development standards.**

- A. A mobile home park shall comply with the following development standards:
1. A mobile home park shall be not less than five acres for a condominium or planned unit development park and fifteen acres for a rental park;
  2. Fifteen percent of the mobile home sites may be three thousand square feet in area to accommodate a twenty foot wide mobile home. The remaining sites shall have a minimum of three thousand five hundred square feet in area;
  3. Each mobile home lot shall have a width of not less than fifty feet;
  4. Not more than one single-family mobile home or factory-built home may be placed on a mobile home lot. Each mobile home or factory-built house shall contain one dwelling unit only. No mobile home or factory-built house shall be less than twenty-four feet wide, except for the fifteen percent affordable housing units which may be twenty feet wide;
  5. Each mobile home site shall have a front yard of not less than five feet. The front yard so required shall not be used for vehicle parking, except such portion thereof as is devoted to driveway use;
  6. On corner mobile home sites, the side yard adjoining the mobile home park street shall not be less than five feet;
  7. Except for corner lots, each mobile home lot shall have a side yard of not less than three feet and a rear yard of not less than three feet;
  8. The minimum separation between mobile homes or between a mobile home and a building shall be as follows: from side to side, ten feet; from side to rear, eight feet; from rear to rear, six feet;
  9. Notwithstanding the separation requirement, a private garage may be located immediately adjacent to a mobile home if the interior of the garage wall adjacent to the mobile home is constructed of materials approved for one-hour fire resistive construction. If there are openings in the mobile home wall adjacent to the garage wall, a minimum of three feet separation shall be maintained between the mobile home and a private garage which does not meet the requirements for one-hour fire resistive construction;
  10. Private garages shall maintain a minimum side yard and rear yard of not less than three feet;
  11. Carports/awnings must be constructed of noncombustible materials and may be constructed to the lot line provided there is a minimum of three feet clearance from a mobile home or any other structures on the adjacent lots;
  12. A maximum of two storage cabinets shall be permitted on each mobile home lot. The aggregate floor area of the cabinets shall not exceed one hundred square feet nor shall the height of the cabinets exceed ten feet. Storage cabinets may be located on a lot line or adjacent to a mobile home or mobile home accessory building or structure or beneath an awning or carport; provided, that it does not obstruct the required exiting or openings for light and ventilation of a mobile home or a cabana, or prevent service or inspection of mobile home equipment and utility connections or encroach within a designated open space area;
  13. Expansion or alteration of buildings which are nonconforming by reason of inadequate yards shall comply with Section 21.48.090. Miscellaneous accessory structures such as lath houses,

green-houses, storage buildings (greater than one hundred square feet in floor area), etc., may be erected on a mobile home lot, provided they are located a minimum of six feet from any mobile home, outside any required yard and the occupied area of a lot does not exceed seventy-five percent of the lot;

14. When used for access to a parking facility, a side yard shall be wide enough for a ten foot wide unobstructed driveway. All such side yard driveways shall be paved with cement or asphaltic concrete;
15. Window awnings, not including structures, may project not more than four feet into any front yard and the following features may be erected or project into any required yard:
  - a. Vegetation, including trees, shrubs and other plants,
  - b. Necessary appurtenances for utility service,
  - c. Mailboxes;
16. The area of the mobile home and all mobile home accessory structures shall not cover more than seventy-five percent of the mobile home site;
17. Parking shall be provided subject to the provisions of Chapter 21.44 of this title;
18. Mobile home park streets shall be provided in such a pattern as to provide convenient traffic circulation within the mobile home park. Such streets shall be built to the following standards:
  - a. No roadway shall be less than thirty four feet in width,
  - b. There shall be concrete curbs on each side of the streets,
  - c. The mobile home park streets shall be paved according to standards established by the City Engineer,
  - d. Mobile home park streets shall be lighted in accordance with the standards established by the City Engineer;
19. (Reserved)
20. The City Council may permit decentralization of the recreational facilities in accordance with principles of good planning;
21. Utilities.
  - a. All utilities shall be underground, and
  - b. Television reception shall be by means of cable television or one antenna or several common antennae if the size or configuration of the mobile home park requires more than one. Individual TV antennas on a coach shall be prohibited;
22. Common trash-bin enclosures shall be provided. They shall be of masonry construction and compatible with the mobile home park;
23. Service buildings and facilities shall be strategically located throughout the park for convenient access from mobile homes. No service building shall be closer than twenty feet to any property adjacent to the mobile home park;

24. Mobile home parks shall be enclosed by solid masonry fences, six feet in height, subject to City Planner approval, along dedicated street frontages and interior property lines; and
25. All new mobile homes shall bear a valid insignia of approval issued by the State Department of Housing and Community Development.

(Ord. 9564 § 2, 1980; Ord. 1256 § 7, 1982; Ord. 9782 § 1, 1985; Ord. 9804 § 4, 1986; Ord. NS-24 § 1, 1988; Ord. NS-602 § 4, 2001; Ord. NS-675 § 76, 2003; Ord. NS-718 § 15, 2004; Ord. CS-102 §§ LXXXIV, LXXXV, 2010; Ord. CS-164 § 10, 2011)

#### **§ 21.37.110. Removal of mobile home park zone.**

- A. The removal of the mobile home park zone shall be accomplished according to the procedure for change of zone established by Chapter 21.52 of this code.
- B. No change of zone shall be approved unless the City Council, after recommendation of the Planning Commission, finds:
  1. That the change of zone is consistent with the housing element;
  2. That for the property used for a mobile home park, the applicant has provided notice of termination of tenancy required by the California Civil Code Section 798.56(f) and that all requirements of the Civil Code regarding termination of tenancy will be met;
  3. That for property used for a mobile home park, a plan satisfactory to the City Council to mitigate the impact on residents of the park has been prepared. Such plan shall include a phase-out schedule which establishes a timetable for the change of use and shall include an assistance plan, including programs to aid residents who will be displaced by the change of use in locating and securing new residences. Such aid may include financial assistance. The following factors shall guide the council in approving or disapproving the plan:
    - a. The age of the mobile home park,
    - b. The number of low income individuals or households needing assistance for relocation, and
    - c. The availability of relocation housing, sites for mobile home relocation, or both, having reasonably equivalent amenities, within the North County area within fifteen miles of the Pacific Ocean.
- C. In making decisions pursuant to this section, the council shall consider the effect of the decision on the housing needs of the community and balance those needs against the public service needs of the residents and available fiscal and environmental resources.

(Ord. 9564 § 2, 1980; Ord. NS-718 § 15, 2004)

#### **§ 21.37.120. Conversion.**

- A. "Conversion" means a use of the mobile home park for a purpose other than the rental, or the holding out for rent, of two or more mobile home sites to accommodate mobile homes used for human habitation. A conversion may affect an entire park or any portion thereof. "Conversion" includes, but is not limited to, a change of the park or any portion thereof to a condominium, stock cooperative, planned unit development or any form of ownership wherein spaces within the park are to be sold. "Conversion" does not include a change in the use of the property requiring a change of zone.

B. With the exception of mobile home parks converting from a rental mobile home park to resident ownership, no conversion shall be allowed unless a mobile home park permit has been approved by the City Council pursuant to Chapter 21.37.

At the time of filing a tentative or parcel map for a subdivision to be created from the conversion of an existing rental mobile home park to residential ownership, the subdivider shall comply with the requirements of Government Code Section 66427.5.

C. No conversion permit shall be issued unless the City Council finds:

1. That the notice required by California Civil Code Section 798.56(f) has been or will be given;
2. Each of the tenants of the proposed condominium, stock cooperative project, planned unit development or other form of ownership has been or will be given notice of an exclusive right to contract for the purchase of their respective site or mobile home lot upon the same terms and conditions that such site will be initially offered to the general public or terms more favorable to the tenant. The right shall run for a period of not less than one hundred eighty days from the date of issuance of the subdivision public report pursuant to Section 11018.2 of the Business and Professions Code, unless the tenant gives prior written notice of his or her intention not to exercise the right; and
3. That the conversion is consistent with the general plan; a specific finding of consistency with the housing element shall be made.

D. Following recordation of a certificate of compliance or conditional certificate of compliance, owners/tenants of mobile homes on any unpurchased remaining interest shall not be economically displaced for a period of one year from the date of recordation. A rent increase may be levied during this year provided the increase is equal to or less than the average annual rent increase levied during the previous three years.

E. As a condition of the waiver of tentative map pursuant to Section 21.37.130, the owner of the unpurchased remaining interest shall have a relocation plan approved by the City Council for those tenants who choose to relocate their mobile homes. The relocation plan shall also provide assistance for residents who are renting a coach in the park who will be displaced by the purchase of their space. The following factors shall guide the council in approving or disapproving the plan:

1. The age and condition of the mobile home units;
2. The number of low-income individuals or households needing assistance for relocation;
3. The availability of relocation housing, sites for mobile home relocation, or both, having reasonably equivalent amenities, within the North County area within fifteen miles of the Pacific Ocean; and
4. The necessity for financial assistance for relocation.

F. Conditions, covenants and restrictions (CC&Rs) for any conversion shall be submitted to the City Planner for approval prior to final map, or final action and the CC&Rs shall provide for the periodic maintenance of the exteriors of the mobile homes. The conditions, covenants and restrictions cannot be altered or dissolved without written city approval.

(Ord. 9564 § 2, 1980; Ord. 9684, 1983; Ord. 9836 §§ 2—5, 1987; Ord. NS-718 § 15, 2004; Ord. CS-061 § 4, 2009; Ord. CS-164 § 10, 2011)

**§ 21.37.130. Waiver of tentative and final map for mobile home park conversions.**

- A. Other provisions of this chapter notwithstanding, the City Council may, by resolution, waive the requirement for a tentative and final map for a single parcel subdivision for the conversion of an existing mobile home park to condominiums. Prior to granting such a waiver, the City Council shall make the following findings:
1. This waiver shall be granted only to conversion of existing mobile home parks on a single parcel;
  2. A petition requesting the conversion shall be signed by the property owner and at least two-thirds of the residents of the mobile home park and shall be submitted to the City Planner;
  3. The proposed subdivision shall not result in the economic displacement from the subject mobile home park of tenants/owners on remaining unpurchased interests located within the subject mobile home park unless the owner complies with Section 21.37.120(E);
  4. A mobile home park permit shall be concurrently approved by the City Council with the granting of this waiver. Even though a project may be deemed exempt, the permit application shall include an analysis of conformance with present development; and
  5. The subdivision shall comply with such requirements then in effect as may have been established by the Subdivision Map Act or this chapter pertaining to area, improvement and design, floodwater drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, environmental protection and other requirements of the Subdivision Map Act or this chapter.
- B. The subdivider requesting a waiver as provided for in this section shall make application therefor on such forms as may be provided for by the City Planner.
- C. Upon the grant of a waiver as provided for under this section, the City Engineer shall prepare a certificate of compliance or conditional certificate of compliance, as appropriate, for recordation in the office of the County Recorder for the purpose of documenting the approval of the subdivision. The City Engineer shall not record or release for recordation a conditional certificate of compliance prepared pursuant to this section unless and until the owner or owners of the property to be subdivided have entered into an agreement with the city to provide for the satisfactory completion of all conditions of the certificate of compliance and shall have provided improvement security, as appropriate, as provided for in Chapter 5 of the Subdivision Map Act.

(Ord. 9836 § 6, 1987; Ord. NS-718 § 15, 2004; Ord. CS-164 § 10, 2011)

**§ 21.37.140. Severability.**

In any section, subsection, paragraph, sentence, clause or phrase of this chapter and the ordinance to which it is a part, or any part thereof, is held for any reason to be unconstitutional, invalid or ineffective by any court of competent jurisdiction, the remaining sections, subsections, paragraphs, sentences, clauses, and phrases shall not be affected thereby. The City Council hereby declares that it would have adopted this chapter and the ordinance to which it is a part regardless of the fact that one or more sections, subsections, paragraphs, sentences, clauses, or phrases may be determined to be unconstitutional, invalid, or ineffective. Furthermore, if the entire ordinance or application is deemed invalid by a court of competent jurisdiction, any repeal of Chapter 21.37 will be rendered void and cause such Carlsbad Municipal Code provision to remain in full force and effect for all purposes.

(Ord. CS-061 § 5, 2009)

## CHAPTER 21.38 P-C PLANNED COMMUNITY ZONE

**Note: Prior ordinance history: Ord. Nos. 9060, 9218, 9262, and 9338.**

### **§ 21.38.010. Intent and purpose.**

The intent and purpose of the P-C, planned community zone, is to:

- A. Provide a method for and to encourage the orderly implementation of the general plan and any applicable specific plans by the comprehensive planning and development of large tracts of land under unified ownership or developmental control so that the entire tract will be developed in accord with an adopted master plan to provide an environment of stable and desirable character;
- B. Provide a flexible regulatory procedure to encourage creative and imaginative planning of coordinated communities involving a mixture of residential densities and housing types, open space, community facilities, both public and private and, where appropriate, commercial and industrial areas;
- C. Allow for the coordination of planning efforts between developer and city to provide for the orderly development of all necessary public facilities to insure their availability concurrent with need;
- D. Provide a framework for the phased development of an approved master planned area to provide some assurance to the developer that later development will be acceptable to the city; provided such plans are in accordance with the approved planned community master plan; and
- E. Ensure that all new and, as appropriate, existing master plans reserve a site or sites for community facilities uses which benefit the community as a whole by satisfying social/religious/human service needs pursuant to Chapter 21.25 of this code.

(Ord. 9458 § 1, 1976; Ord. NS-579 § 2, 2001)

### **§ 21.38.020. Permitted uses and structures.**

In the P-C, planned community, zone the permitted uses and structures shall be established by a master plan of development approved in accordance with this chapter which may include any use found to be necessary and desirable for a community planned in accordance with the purposes of this chapter, provided that such permitted uses and structures shall be consistent with the general plan and applicable specific plans. Prior to approval of a master plan, the property may be used as permitted by Chapter 21.07 for the E-A exclusive agriculture zone. After approval of a master plan, such agricultural uses may be continued if the master plan so provides.

(Ord. 9458 § 1, 1976; Ord. NS-409 § 19, 1997; Ord. NS-579 § 3, 2001)

### **§ 21.38.021. Community facilities sites required.**

All new master plans shall include graphic plans and text to reserve a site within the master plan area for community facilities uses pursuant to Chapter 21.25 of this code.

(Ord. NS-579 § 4, 2001)

### **§ 21.38.025. Accessory dwelling units.**

Accessory dwelling units or junior accessory dwelling units are permitted according to the provisions of

Section 21.10.030.

(Ord. NS-283 § 6, 1994; Ord. NS-663 § 11, 2003; Ord. NS-718 § 16, 2004; Ord. CS-324 § 2, 2017; Ord. CS-384 § 22, 2020)

**§ 21.38.030. General provisions.**

- A. The P-C zone may be established on parcels of land which are suitable for and of sufficient size to be planned and developed in a manner consistent with the purposes and objectives of this chapter. No P-C zone shall include less than one hundred acres of contiguous land.
- B. A planned community shall be subject to all other applicable provisions of Title 20, Subdivisions, and Title 21, Zoning, of this code. Where a conflict in regulation occurs, the regulations specified in this chapter or the approved master plan shall control.

(Ord. 9458 § 1, 1976; Ord. CS-102 § LXXXVI, 2010)

**§ 21.38.040. Master plan required.**

Prior to the approval for any permits for development on property zoned P-C, planned community, a master plan of development must be approved by the City Council in accord with the provisions of this chapter. A master plan when approved by ordinance shall establish the regulations for the development of the planned community within the P-C zone, and the regulations shall become a part thereof.

(Ord. 9458 § 1, 1976)

**§ 21.38.050. Application and fees.**

- A. Prefiling Procedure.
  - 1. Prior to filing an application for a master plan, an applicant may prefile the proposal with the City Planner for review.
  - 2. The City Planner shall contact interested departments and agency personnel and arrange any necessary meetings with the applicant. This procedure may involve a review of the general outline of the proposal.
  - 3. After review, the City Planner shall provide the applicant with written comments, including recommendations as appropriate to inform and assist the applicant prior to the applicant's formal application.
- B. Master Plan Application.
  - 1. An application for a master plan and all related amendments may be made by the owner of the property affected or the authorized agent of the owner. The application shall:
    - a. Be made in writing on a form provided by the City Planner;
    - b. State fully the circumstances and conditions relied upon as grounds for the application; and
    - c. Be accompanied by a preliminary master plan graphic and text, open area plan and sign program, a legal description of the property involved and all other materials as specified by the City Planner.
- C. At the time of filing a preliminary application or a master plan application, the applicant shall pay the

application fee contained in the most recent fee schedule adopted by the City Council.  
(Ord. 9458 § 1, 1976; Ord. 9568 § 3, 1980; Ord. 1256 § 13, 1982; Ord. 1261 § 44, 1983; Ord. NS-675  
§§ 76, 81, 2003; Ord. CS-164 §§ 10, 11, 2011; Ord. CS-178 § LV, 2012)

### **§ 21.38.060. Contents of master plan.**

A master plan for the development of a planned community shall consist of the following:

A. Graphic plans of the proposed development that include the following:

1. A map and legal description of the property with a north point scale not less than one inch equals two hundred feet, showing the date of preparation and the name and address of the plan's preparer, be it company or person, is required.
2. Location of the various land uses shall be indicated by the use of zone designations of development zones and overlay zones as provided in this title. Development of property within the area of each such zone shall be subject to the regulations of the indicated zone unless specifically modified as a part of the master plan approval. All master plans shall allow a maximum building height of thirty feet and two stories if a minimum roof pitch of 3/12 is provided or twenty-four feet and two stories if less than a 3/12 roof pitch is provided for single-family and duplex projects on lots with a lot area less than twenty thousand square feet in size. Lots with a lot area of twenty thousand square feet or greater and zoned R-1 and specifying a -20 or greater area zoning symbol by the master plan may have a building height limit of thirty-five feet and three stories with a minimum roof pitch of 3/12 provided. A master plan may impose a lower building height limit than those stated in this section in its development standards. Neighborhood commercial uses within a master plan shall conform to Section 21.26.030 of the C-1 zone. Tourist-oriented commercial uses within a master plan shall conform to Section 21.29.060 of the C-T zone. All other commercial uses within a master plan shall conform to the building height regulations contained in Section 21.28.030 of the C-2 zone. All industrial uses within a master plan shall conform to the building height regulations as contained in Section 21.34.070.A of the P-M zone. Office uses shall conform to Section 21.27.050.A.3 of the O zone.
3. An integrated open space program that is at least fifteen percent of the total master planned area is required, except that the City Council may reduce this amount if the proposed open space is found to be adequate and is integrated with a proportional amount of off-site open space. This open space program shall address four separate categories of open space including:
  - a. Open space for the preservation of natural resources;
  - b. Open space for the managed production of resources;
  - c. Open space for outdoor recreation; and
  - d. Open space for public health and safety.

Land uses considered as open space for purposes of this chapter are properties that are publicly or commonly owned for the benefit and use of the public or residents of the community such as parks, recreation facilities, greenbelts that are at least twenty feet wide, natural areas that are at least ten thousand square feet in area, bikeways and pedestrian paths. These areas are to be indicated in the master plan and not used for any other purpose.

4. Specific development provisions to be applied such as a planned unit development permit or a conditional use permit shall be indicated. Development of property within areas so indicated shall be in accord with the terms of the permit and the provisions of this title applicable to such permits.
  5. The location of public and quasi-public facilities such as schools, fire stations, transmission lines and booster stations shall be indicated.
  6. The locations of major circulation systems and collector streets and their relationship to the circulation element shall be indicated. Bikeways, pedestrian paths, interconnecting open space areas and other special access means shall also be shown.
  7. Facilities for water supply and sewerage disposal, including sewer and water trunk lines, fire station sites, storm drainage and flood control structures and any other public facility needed to properly service the proposed community shall be indicated.
  8. Phasing of development shall be indicated. Adequate public facilities, open space, recreation areas and street systems shall be provided for each phase.
  9. A map showing topographical contours at no less than 25-foot intervals. Existing trees and other natural features shall be indicated on such map.
  10. Proposed development shall be consistent with the topography to reduce the amount of grading. The graphic is to indicate where significant grading is anticipated and for what reasons it is necessary.
- B. A text shall accompany the graphic and shall include in the order as listed below:
1. A description of each type of land use by acre and area indicating the number and type of anticipated dwelling units in each of the residential areas, anticipated uses in the commercial, industrial zones and the land area for parks, schools, common open area and other public facilities and community services. For each of the open space categories identified in subsection A.3, the master plan text shall also include a description of the resource type/environmental constraint being preserved or avoided or the types of recreational facilities proposed within recreational open space areas, and a program for preserving and/or maintaining the open space areas,
  2. Land use and public facility economic impact report that contains the following:
    - a. Justification for the proportions of the various land uses based on the projected population and acceptable marketing or planning techniques,
    - b. Projected fiscal impacts the development will have on the ability of the city and other governmental or quasi-public agencies to provide necessary services. This report shall include the approximate cost of dwelling units, anticipated land and sales taxes to the city and costs of necessary public services. The report shall be prepared by an economic

consultant independent of the applicant but at the applicant's expense,

3. Special development regulations, including any modifications of zone designation regulations,
  4. A program to meet the needs for parks, schools and other public facilities based on the anticipated population of the community and the timing of its development,
  5. Method to be employed for the maintenance of commonly held private land such as open space, recreation areas, street and parking areas. Some possible methods, depending on the circumstances, are maintenance by developer, homeowners' association, maintenance district, or city,
  6. Phasing schedule indicating the timing for each section of the development, what public facilities, open space, recreation facilities or amenities will be provided with each phase,
  7. Special requirements as requested by the applicant or required by the City Council which may include, but are not limited to, any of the matters which may be regulated by specific plan pursuant to Section 65451 of the Government Code,
  8. Measures to be used to mitigate any adverse environmental impact as noted in the adopted environmental impact report for the project;
- C. A landscape open area plan that includes all open spaces as required by this chapter and all other such areas proposed for the development. This plan shall include a graphic indicating areas to be landscaped, left natural, used as recreation, open space and bike or pedestrian ways. In addition, the plan shall include the proposed ownership, and indicate who shall have the responsibility for the maintenance of the various types of open areas;
- D. A community identification sign program that, in addition to signs otherwise permitted, the master plan area will show community entrance signs, directional signs and temporary informational signs. The program may include the following:
1. Graphic representation of design motif,
  2. Location of permanent community entrance, directional and informational signs,
  3. Type, number and dimensions of temporary informational and directional signs that will be used during development only,
  4. Special sign program for the commercial and industrial portion of the community including standards for development based on sign area footage per lineal foot, face of building and sign height maximums. A community identification sign program is in addition to those signs permitted in Chapter 21.41, but in no case may the sign program exceed that allowed for community identity signs in Chapter 21.41. If no community identification sign program is desired, the master plan text shall so indicate;
- E. Park land dedications may be required as a condition of all master plans. All park land required shall be dedicated up front, concurrent with the approval of the first final map within the master plan area. Prior to dedicating park land over to the city, the master plan applicant shall be required to submit the following information to the city:
1. The master plan shall identify the location and acreage of the park site on the land use map and shall also include a discussion of the park in the master plan text. Prior to final adoption of the master plan the applicant shall enter into a recordable agreement with the city, and agreeable to

the city, which generally depicts the location of the park site on a map and also contains provision whereby the developer agrees to dedicate the described park area when required under this section,

2. This park area shall be dedicated to the city prior to the adoption of the first final map within the master plan area,
3. The master plan shall include the location of the park, biological and soils analysis of the site along with a cultural resources inventory and any other environmental reports as may be required by the City Planner, and a conceptual development plan of the park to the satisfaction of the Community Services Director,
4. The applicant shall also provide, in writing, a statement as to whether or not the park site has ever been used for the disposal or storage of toxic wastes pursuant to Section 25300 et seq., of the Health and Safety Code.

(Ord. 9458 § 1, 1976; Ord. 9838 §§ 1—3, 1987; Ord. NS-180 § 24, 1991; Ord. NS-204 § 10, 1992; Ord. NS-286 § 6, 1994; Ord. CS-164 § 10, 2011; Ord. CS-178 § LVI, 2012)

#### **§ 21.38.070. Notices and hearings.**

Notice of an application for a master plan shall be given pursuant to the provisions of Sections 21.54.060.A and 21.54.061 of this title.

(Ord. 9458 § 1, 1976; Ord. CS-178 § LVII, 2012)

#### **§ 21.38.080. Decision-making authority.**

An application for a master plan may, by ordinance, be approved, conditionally approved or denied by the City Council.

- A. Before the City Council decision, the Planning Commission shall hear and consider the application for a master plan and shall prepare a recommendation and findings for the City Council, including all matters set out in Section 21.38.090 of this chapter. The action of the Planning Commission shall be filed with the City Clerk, and a copy shall be mailed to the applicant.
- B. The City Council shall hear the matter, and after considering the findings and recommendations of the Planning Commission, may by ordinance approve or conditionally approve the master plan if, from the evidence presented at the hearing, all of the findings of fact in Section 21.38.090 of this chapter are found to exist.
- C. The City Council may make substantial modifications to the Planning Commission's recommendation on a proposed master plan, including modifications not previously considered by the Planning Commission. The City Council, in its discretion, may refer said modifications back to the Planning Commission for recommendation.

(Ord. 9458 § 1, 1976; Ord. 1256 § 7, 1982; Ord. NS-675 §§ 76, 77, 2003; Ord. CS-164 § 10, 2011; Ord. CS-178 § LVII, 2012)

#### **§ 21.38.090. Findings of fact.**

The City Council shall not approve or conditionally approve a master plan unless all of the following facts exist:

- A. The proposed development as described by the master plan is consistent with the provisions of the

general plan and any applicable specific plans.

- B. All necessary public facilities can be provided concurrent with need and adequate provisions have been provided to implement those portions of the capital improvement program applicable to the subject property.
- C. The residential and open space portions of the community will constitute an environment of sustained desirability and stability, and that it will be in harmony with or provide compatible variety to the character of the surrounding area, and that the sites proposed for public facilities, such as schools, playgrounds and parks, are adequate to serve the anticipated population and appear acceptable to the public authorities having jurisdiction thereof.
- D. The proposed commercial and industrial uses will be appropriate in area, location and overall design to the purpose intended. The design and development standards are such as to create an environment of sustained desirability and stability. Such development will meet performance standards established by this title.
- E. In the case of institutional, recreational, and other similar nonresidential uses, such development will be proposed, and surrounding areas are protected from any adverse effects from such development.
- F. The streets and thoroughfares proposed are suitable and adequate to carry the anticipated traffic thereon.
- G. Any proposed commercial development can be justified economically at the location proposed and will provide adequate commercial facilities of the types needed at such location proposed.
- H. The area surrounding the development is or can be planned and zoned in coordination and substantial compatibility with the development.
- I. Appropriate measures are proposed to mitigate any adverse environmental impact as noted in the adopted environmental impact report for the project.

(Ord. 9458 § 1, 1976; Ord. 1256 § 7, 1982; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011; Ord. CS-178 § LVII, 2012)

#### **§ 21.38.100. Effective date and appeals.**

The decision of the City Council is final, conclusive and shall be effective upon the date specified in the announcement of decision.

(Ord. 9458 § 1, 1976; Ord. CS-178 § LVII, 2012)

#### **§ 21.38.120. Amendment of master plan.**

An approved master plan may be amended pursuant to the following:

- A. An application to amend a master plan shall be submitted in accordance with Section 21.38.050 of this chapter, or may be initiated by City Council motion.
- B. Minor Master Plan Amendments. Master plan amendments, which are determined by the City Planner to be minor in nature, may be approved, conditionally approved or denied by the Planning Commission at a public hearing noticed in accordance with Chapter 21.54 of this title. A minor amendment shall not change the densities or boundaries of the subject property, or involve an addition of a new use or group of uses not shown on the original master plan, or the rearrangement of uses within the master plan.

C. Master Plan Amendments. Master plan amendments that are not minor in nature shall be processed in accordance with Section 21.54.125 of this title.

(Ord. 9458 § 1, 1976; Ord. 9568 § 3, 1980; Ord. 1261 § 44, 1983; Ord. NS-675 § 76, 2003; Ord. CS-178 § LVII, 2012)

#### **§ 21.38.130. Implementation of master plan.**

- (a) To insure that the provisions and requirements of the approved master plan are fulfilled, the following procedures shall be used:
- (1) Upon final approval of a master plan, the City Planner shall affix the master plan designation number on the official zone map.
  - (2) Subdivision of land in the master plan area shall meet all requirements of Titles 20 and 21 of this code and the approved master plan.
  - (3) Development of property within a master plan pursuant to a special process such as site development plan, planned unit development permit or conditional use permit shall meet all requirements of the permit, the approved master plan, and the provisions of this title applicable to such permit.
  - (4) Ministerial permits such as building permits, business licenses, and home occupations shall meet all requirements of this code and the approved master plan.
- (b) The planned community master plan process is part of the ongoing city planning effort. It is anticipated that amendments to the master plan may be necessary prior to completion of the planned community. Approval and construction of a sectional part of a master plan shall not vest rights in the remainder of the plan. The plan is intended rather as a planning framework to insure that the parts of the plan as constituted are properly integrated into the city's planning process.

(Ord. 9458 § 1, 1976; Ord. 1261 § 44, 1983; Ord. NS-675 § 76, 2003)

#### **§ 21.38.140. Additional standards.**

The City Council may by resolution adopt additional standards of development for master plans. Master plans approved or amended after the effective date of such regulations shall comply therewith. For amended master plans that are partially constructed, the new standards shall apply to the undeveloped portions only.

(Ord. 945 § 1, 1976)

#### **§ 21.38.141. Additional standards—Rancho La Costa, Batiquitos Lagoon Watershed.<sup>7</sup>**

The contents of the master plan as described in Section 21.38.060 shall include the following additional information required below and be approved in accordance with the following additional development standards:

- (a) Permits—Required. Developments as defined in Section 21.04.107, (including, but not limited to, land divisions) require a coastal development permit subject to the requirement of this zone. All uses in this zone are subject to the procedural requirements of Chapter 21.201. Prior to or simultaneously with the approval of any division of land or any other development, a master plan of development for the property called Rancho La Costa shall be approved in accordance with the provisions of this

---

7. Note: Applies only to Rancho La Costa, Hunt Properties, covered by the Mello I LCP Segment.

chapter.

- (b) Maximum Density of Development. The master plan shall be approved subject to a maximum density of development as follows:
- (1) Agricultural land (with soils rated at I through IV under the Land Use Capability Classification System of the Soil Conservation Service) shall result in an allowable intensity of development of one residential dwelling unit per ten acres;
  - (2) All slopes greater than twenty-five percent shall result in an allowable development intensity of one dwelling unit per ten acres;
  - (3) All slopes greater than twenty percent but less than twenty-five percent shall result in a development intensity of one dwelling unit per five acres;
  - (4) All slopes greater than fifteen percent but less than twenty percent shall result in a development intensity of one dwelling unit per acre;
  - (5) All slopes greater than ten percent but less than fifteen percent shall result in a development intensity of two dwelling units per acre;
  - (6) All areas with a slope of less than ten percent shall result in a development intensity of six units per acre.

The master plan shall include a topographic map at a scale sufficient to determine the above but no less than one inch equals one hundred feet having a contour interval of five feet with overlays delineating areas of greater than ten, fifteen, twenty and twenty-five percent slopes. A map showing the type of soil erodibility, and class based on the Land Use Capability Classification System of the Soil Conservation Service shall be submitted in the same scale as the slopes. The master plan shall show the computation of the densities and acreage of soils of the various classes and erodibility.

The plan required as a part of the master plan shall be certified as accurate by a registered engineer or other qualified professional to be true and accurate containing reasonably accurate estimates of the amount of cut and fill. The plan shall show the existing and the finished topography of the ground to be graded and filled, including a site plan of the proposed residential or commercial development in the same scale so that it can be superimposed upon the topographic map.

- (c) Drainage and Erosion Control. Any development proposal that affects steep slopes (twenty-five percent inclination or greater) shall be required to prepare a slope map and analysis for the affected slopes. Steep slopes are identified on the PRC Toups maps. The slope mapping and analysis shall be prepared during the CEQA environmental review on a project-by-project basis and shall be required as a condition of a coastal development permit.
- (1) For those slopes mapped as possessing endangered plant/animal species and/or coastal sage scrub and chaparral plant communities, the following policy language would apply:
    - (A) Slopes of twenty-five percent grade and over shall be preserved in their natural state, unless the application of this policy would preclude any reasonable use of the property, in which case an encroachment not to exceed ten percent of the steep slope area over twenty-five percent grade may be permitted. For existing legal parcels, with all or nearly all of their area in slope area over twenty-five percent grade, encroachment shall be limited so that at no time is more than twenty percent of the entire parcel (including areas under

twenty-five percent slope) permitted to be disturbed from its natural state. This policy shall not apply to the construction of roads of the city's circulation element or the development of utility systems. Use of slopes over twenty-five percent may be made in order to provide access to flatter areas if there is no less environmentally damaging alternative available.

- (B) No further subdivisions of land or utilization of planned unit developments shall occur on lots that have their total area in excess of twenty-five percent slope unless a planned unit development is proposed which limits grading and development to not more than ten percent of the total site area.
  - (C) Slopes and areas remaining undisturbed as a result of the hillside review process, shall be placed in a permanent open space easement as a condition of development approval. The purpose of the open space easement shall be to reduce the potential for localized erosion and slide hazards, to prohibit the removal of native vegetation except for creating firebreaks and/or planting fire retardant vegetation and to protect visual resources of importance to the entire community.
- (2) For all other steep slope areas, the City Council may allow exceptions to the above grading provisions provided the following mandatory findings to allow exceptions are made:
- (A) A soils investigation conducted by a licensed soils engineer has determined the subject slope area to be stable and grading and development impacts mitigatable for at least seventy-five years, or life of structure.
  - (B) Grading of the slope is essential to the development intent and design.
  - (C) Slope disturbance will not result in substantial damage or alteration to major wildlife habitat or native vegetation areas.
  - (D) If the area proposed to be disturbed is predominated by steep slopes and is in excess of ten acres, no more than one third of the total steep slope area shall be subject to major grade changes.
  - (E) If the area proposed to be disturbed is predominated by steep slopes and is less than ten acres, complete grading may be allowed only if no interruption of significant wildlife corridors occurs.
  - (F) Because north-facing slopes are generally more prone to stability problems and in many cases contain more extensive natural vegetation, no grading or removal of vegetation from these areas will be permitted unless all environmental impacts have been mitigated. Overriding circumstances are not considered adequate mitigation.
- (3) Drainage and runoff shall be controlled so as not to exceed at any time the rate associated with property in its present state, and appropriate measures shall be taken onsite and/or offsite to prevent siltation of lagoons and other environmentally sensitive areas.
- (4) The appropriate measures shall be installed prior to onsite grading.
- (5) Modification of these standards and criteria may be granted to portions of properties where strict application of the standards and criteria would, even after application of clustering and other innovative development techniques, result in less than one-half of the development potential that would be attainable under the maximum density of development specified in subsection (b) of this section.

Such modification shall be limited to the standards and criteria expressed in subsection (c)(1)(A) of this section, and shall not exceed that necessary to the attainment of said one-half of the development potential.

Where such modification must involve grading or other disruption of lands of twenty percent slope or greater, such grading or disruption shall be limited to not more than one-fourth of the land area of the property which is of twenty percent slope or greater.

In selecting areas within the property of twenty percent slope or greater which will be subject to modification of standards and criteria, lands with the following characteristics shall receive preference.

- (A) Land with the lowest relative degree of environmental sensitivity.
- (B) Land with the relatively gentler slopes.
- (C) Land which will require the least amount of cut and fill, and upon which runoff and erosion can be most effectively controlled.
- (D) Land with the least amount of visual impact when viewed from a circulation element road or public vista point.
- (E) Land which, when graded and developed, would have the least environmental and visual impact on the steep-sloped land form upon which such grading or development is to take place.
- (6) A site specific technical report shall be required addressing the cumulative effects of developing each subwatershed and recommending measures to mitigate both increased runoff and sedimentation. It shall be reviewed and prepared according to the City of Carlsbad Engineering Standards and provisions of the Local Coastal Program, with the additions and changes adopted herein, such that a natural drainage system is generally preserved for the eastern undeveloped watersheds, but that storm drains are allowed for those western portions of the watershed which have already been incrementally developed.
- (7) Mitigation measures tailored to project impacts and consistent with the control of cumulative development shall be implemented prior to development in accordance with the following additional criteria:
  - (A) Submittal of a runoff control plan designed by a licensed engineer qualified in hydrology and hydraulics, which would assure no increase in peak runoff rate from the developed site over the greatest discharge expected from the existing undeveloped site as a result of a ten-year frequency storm. Runoff control shall be accomplished by a variety of measures, including, but not limited to, onsite catchment basins, detention basins, siltation traps and energy dissipators and shall not be concentrated in one area or a few locations.
  - (B) Detailed maintenance arrangements and various alternatives for providing the ongoing repair and maintenance of any approved drainage and erosion control facilities. If the offsite or onsite improvements are not to be accepted or maintained by a public agency, detailed maintenance agreements shall be secured prior to issuance of a permit.
  - (C) All permanent runoff and erosion control devices shall be developed and installed prior to or concurrent with any onsite grading activities.

- (D) All grading activities shall be prohibited within the period from October 1st to March 31st of each year.
- (E) All areas disturbed by grading, but not completed during the construction period, including graded pads, shall be planted and stabilized prior to October 1st with temporary or permanent (in the case of finished slopes) erosion control measures and native vegetation. The use of temporary erosion control measures, such as berms, interceptor ditches, sandbagging, filtered inlets, debris basins and silt traps, shall be utilized in conjunction with plantings to minimize soil loss from the construction site. Said planting shall be accomplished under the supervision of a licensed landscaped architect and shall consist of seeding, mulching, fertilization and irrigation adequate to provide ninety percent coverage within ninety days. Planting shall be repeated, if the required level of coverage is not established. This requirement shall apply to all disturbed soils, including stockpiles.
- (d) Buffers/Open Space. The master plan shall include buffers and open space to separate agriculture use from residential development.

Adequate buffer areas, generally of at least one hundred feet, between agricultural operations and new development shall be established and protected through conservation easements. The buffer area shall include natural vegetation, natural grade separations, and other natural features. In addition, roads shall be designed as much as possible to function as buffers between agriculture and residences. Residential uses shall be sited and designed to provide an open space area away from use conflicts. Cut and fill shall not occur adjacent to agricultural areas in order to provide a natural buffer. The P-C zone requirement of open space can be used in conjunction with this requirement. Lands to be preserved in open space shall be dedicated to coastal conservancy through the use of open space easements in perpetuity free of prior liens prior to issuance of a permit. Land subject to open space easements may remain in private ownership with the appropriate easements, use restrictions and maintenance arrangements to be secured from the developer prior to issuance of a permit. The city shall require the developer or a homeowner's association to maintain the open space area or it can alternatively require payment of fees if the coastal conservancy certifies that the maintenance fee is adequate. If a homeowner association is to maintain the open space, appropriate provision for fees and maintenance shall be required as a condition of approval of the permit.

- (e) Siting/Parking. Due to severe site constraints, innovative siting and design criteria (including shared use of driveways, clustering, tandem parking, pole construction) shall be incorporated in the master plan to minimize the paved surface area. Dwelling units shall be clustered in the relatively flat portions of the site.

(Ord. NS-365 § 3, 1996; Ord. CS-005 § 1, 2008)

#### **§ 21.38.150. Undeveloped areas of existing planned communities.**

Undeveloped portions of properties zoned P-C on the effective date of this chapter shall be regulated by this section as follows:

- (1) Properties of less than one hundred acres shall be considered lawfully nonconforming. The development of such property shall require a planned unit development permit or a condominium permit issued in accordance with the provisions of Chapter 21.45 or Chapter 21.47, whichever chapter is applicable to the development. If no master plan has been approved for the property, the land use shall be consistent with the general plan. If a master plan has been approved, the density and other provisions of such plan shall be consistent with the general plan. If a master plan has been approved, the density and other provisions of such plan shall constitute the underlying zone for purposes of the

planned unit development or condominium permit.

- (2) Properties of more than one hundred acres for which no master plan has been approved shall comply fully with the provisions of this chapter.
- (3) Properties of more than one hundred acres, with an approved master plan, shall require either a planned unit development or permits which shall be accomplished in accordance with the provisions of Chapter 21.45 or Chapter 21.47, whichever chapter is applicable to the development. The density and other provisions of such plan shall constitute the underlying zone for the purposes of the planned unit development or condominium permits. The City Council, by motion, or the property owner, by application, may initiate an amendment to the master plan to bring it into accord with the provisions of this chapter. If such amendment is approved, the development of such property shall be in accordance with this chapter.
- (4) Notwithstanding the provisions of this section, property with an approved specific plan adopted pursuant to P-C zone regulations in effect prior to the effective date of this chapter can be developed in accord with such specific plan without further processing as required in this chapter.

(Ord. 9458 § 1, 1976; Ord. 9535 § 1, 1979)

**CHAPTER 21.39  
L-C LIMITED CONTROL ZONE**

**§ 21.39.010. Intent and purpose.**

The intent and purpose of the L-C zone is to provide an interim zone for areas where planning for future land uses has not been completed or plans of development have not been formalized. After proper planning or plan approval has been completed, property zone L-C may be rezoned in accord with this title.  
(Ord. 9337 § 6, 1973; Ord. 9441 § 2, 1975)

**§ 21.39.020. Permitted uses.**

- A. In an L-C zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted subject to the requirements and development standards specified in this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of this zone, and is substantially similar to the specified permitted uses.
- C. A use category may be general in nature, where more than one particular use fits into the general category (ex. in some commercial zones "office" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in another zone, the use shall not be permitted in this limited control zone (even under a general use category) unless it is specifically listed in Table A of this chapter as permitted.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code: "P" indicates use is permitted.

"CUP" indicates use is permitted with approval of a conditional use permit.

1 = Minor Conditional Use Permit (Process One), pursuant to Chapter 21.42 of this title.

2 = Conditional Use Permit (Process Two), pursuant to Chapter 21.42 of this title.

3 = Conditional Use Permit (Process Three), pursuant to Chapter 21.42 of this title.

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Accessory uses and structures (see note 4 below)			X
Animals and poultry—small (less than 25) (see note 1 below)	X		
Cattle, sheep, goats, and swine production (see note 2 below)	X		
Crop production	X		
Dwelling, single-family (farm house)			X
Family day care home (large)(defined: Section 21.04.147) (subject to Chapter 21.83)			X

Use	P	CUP	Acc
Family day care home (small)(defined: Section 21.04.148) (subject to Chapter 21.83)			X
Farmworker housing complex, small (subject to Section 21.10.125; defined: Section 21.04.148.4)	X		
Floriculture	X		
Greenhouses, less than 2,000 square feet	X		
Guest house			X
Horses, private use	X		
Mobile home (see note 5 below)			X
Nursery crop production	X		
Other uses or enterprises similar to the above customarily carried on in the field of agriculture	X		
Produce/flower stands for display and sale of products produced on the same premises (see note 3 below)	X		
Satellite television antennae (subject to Sections 21.53.130 through 21.53.150)(defined: Section 21.04.302)			X
Signs (subject to Chapter 21.41)			X
Tree farms	X		
Truck farms	X		
Wildlife refuge	X		

**Notes:**

1. Small animals and poultry: Provided that not more than twenty-five of any one or combination thereof shall be kept within seventy-five feet of any habitable structure, nor shall they be located within three hundred feet of habitable structure on an adjoining parcel zoned for residential uses, nor shall they be located within one hundred feet of a parcel zoned for residential uses when a habitable structure is not involved. In any event, the distance from the parcel zoned for residential uses shall be the greater of the distances so indicated.
2. Cattle, sheep, goats, and swine production: Provided that the number of any one or combination of said animals shall not exceed one animal per half acre of lot area. Said animals shall not be located within seventy-five feet of any habitable structure, nor shall they be located within three hundred feet of a habitable structure on an adjoining parcel zoned for residential uses, nor shall they be located within one hundred feet of a parcel zoned for residential uses when a habitable structure is not involved. In any event, the distance from the parcel zoned for residential uses shall be the greater of the distances so indicated.
3. Produce/flower stands: Provided that the floor area shall not exceed two hundred square feet and is located not nearer than twenty feet to any street or highway.
4. Accessory uses/structures include, but are not limited to, private garages, children's playhouses, radio and television receiving antennas, windmills, silos, tank houses, shops, barns, offices, coops, lath houses, stables, pens, corrals, and other similar accessory uses and structures required for the conduct of the permitted uses.

**Notes:**

5. Mobile home: Certified under the National Mobile Home Construction and Safety Standards Act of 1974 (42 U.S.C. Section 5401 et seq.) on a foundation system pursuant to Section 18551 of the State Health and Safety Code.

(Ord. 9337 § 6, 1973; Ord. 9441 § 2, 1975; Ord. NS-791 § 28, 2006; Ord. CS-164 § 10, 2011; Ord. CS-189 §§ XLIV, XLV, 2012; Ord. CS-224 § XXXVI, 2013)

**§ 21.39.030. Conditional uses.**

Notwithstanding any other provision of this title, no conditional uses shall be permitted in the L-C limited control zone.

(Ord. 9441 § 2, 1975)

**§ 21.39.040. Minimum area.**

Except when imposed by operation of Section 21.61.020 of this code, the L-C limited control zone shall not be applied to an area less than one acre.

(Ord. 941 § 2, 1975; Ord. 9540 § 1, 1980)

## CHAPTER 21.40 S-P SCENIC PRESERVATION OVERLAY ZONE

### **§ 21.40.010. Intent and purpose.**

- A. The intent and purpose of the S-P scenic preservation overlay zone is to:
1. Supplement the underlying zoning by providing additional regulations for development within designated areas to preserve or enhance outstanding views, flora and geology, or other unique natural attributes and historical and cultural resources;
  2. Provide regulations in areas which possess outstanding scenic qualities or would create buffers between incompatible land uses which enhance the appearance of the environment and contribute to community pride and community prestige;
  3. Preserve those areas of the city that provide unique and special open space functions consistent with the underlying permitted use;
  4. Implement the goals and objectives of the general plan;
  5. Provide guidelines for development of certain arterial streets identified as scenic corridors.

(Ord. 9386 § 2, 1974; Ord. 9725 § 1, 1984)

### **§ 21.40.020. Application.**

The S-P scenic preservation overlay zone shall be applied in a uniform manner to those areas within the city which, in the opinion of the City Council, are worthy of preservation because of their outstanding views, flora and geology, or other unique natural attributes and historical and cultural resources. The boundaries of this zone shall be established by the procedures designated in Chapter 21.52. When only a portion of a parcel of land lies within the designated scenic overlay, the provisions of this chapter shall apply only to that portion lying within the scenic overlay boundaries.

(Ord. 9386 § 2, 1974)

### **§ 21.40.030. Permitted uses and structures.**

In the S-P scenic preservation overlay zone any principal use, accessory use, transitional use or conditional use permitted in the underlying zone is permitted subject to the same conditions and restrictions applicable in such underlying zone and to all of the requirements of this chapter and to the development standards provided in Chapters 21.41 and 21.44.

(Ord. 9386 § 2, 1974)

### **§ 21.40.040. Special use permit.**

Unless specifically exempted from the requirements of this chapter, no building permit or other entitlement shall be issued for any development or use in the S-P zone unless there is a valid special use permit approved for the property.

(Ord. 9386 § 2, 1974; Ord. CS-178 § LIX, 2012)

### **§ 21.40.045. Scenic corridors.**

The S-P scenic preservation overlay zone may be applied to arterial streets within the city which the City Council determines are worthy of special treatment in order to improve or protect scenic views

and traffic safety along the arterial. The boundaries of the scenic corridor shall be established by the procedures designated in Chapter 21.52. When only a portion of a parcel of land lies within the designated scenic corridor overlay, the provisions of this chapter shall apply only to the portion within the overlay boundaries.

(Ord. 9725 § 2, 1984)

#### **§ 21.40.050. Exceptions.**

The following uses are excepted from the special use permit requirements:

- (1) Development of one single-family dwelling unit on a parcel of record as of May 2, 1974;
- (2) Minor modification or alteration of existing structures or buildings which involves new land coverage of less than two hundred square feet and does not increase the height of the existing structure;
- (3) The repair or reconstruction of an existing nonconforming structure that is destroyed by fire or other disaster to no more than fifty percent of the structure's original value.

(Ord. 9386 § 2, 1974; Ord. CS-178 § LX, 2012)

#### **§ 21.40.060. Application and fees.**

A. An application for a special use permit may be made by the owner of the property affected or the authorized agent of the owner. The application shall:

1. Be made in writing on a form provided by the City Planner;
2. State fully the circumstances and conditions relied upon as grounds for the application; and
3. Be accompanied by adequate plans, a legal description of the property involved and all other materials as specified by the City Planner.

B. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.

(Ord. 9386 § 2, 1974; Ord. 1256 § 7, 1982; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011; Ord. CS-178 § LX, 2012)

#### **§ 21.40.070. Notices and hearings.**

Notice of an application for a special use permit shall be given pursuant to the provisions of Sections 21.54.060.A and 21.54.061 of this title.

(Ord. 9386 § 2, 1974; Ord. CS-178 § LX, 2012)

#### **§ 21.40.080. Decision-making authority.**

Applications for a special use permit shall be acted upon in accordance with the following:

- (1) An application for a special use permit may be approved, conditionally approved or denied by the Planning Commission based upon its review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the public hearing.
- (2) The Planning Commission shall hear the matter, and may approve, conditionally approve, or deny the special use permit if all of the findings of fact in Section 21.40.085 of this title are found to exist.

(Ord. 9386 § 2, 1974; Ord. 1261 § 45, 1983; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011; Ord.

CS-178 § LXI, 2012)

**§ 21.40.085. Findings of fact and decision considerations.**

A. Findings of Fact.

1. The decision-making authority shall not issue a special use permit unless it is found that:
  - a. The project is consistent with the purposes of this chapter and all other applicable requirements of this code;
  - b. The project is consistent with the general plan, local coastal program, and applicable master or specific plans;
  - c. The project will not adversely affect the scenic, historical or cultural qualities of the property.

B. Decision Considerations.

1. When making a decision on a special use permit, the decision-making authority may impose specific development standards in accordance with Section 21.40.110 and shall consider the following factors:
  - a. When the S-P scenic preservation overlay zone is applied to protect something worth looking at, i.e., a landmark, a civic center, a mountain or an area bounding the main entrance to the city, the development standards of the proposed use should deal with preserving the integrity of that amenity.
  - b. When the S-P scenic preservation overlay zone is applied to an area from which there is an outstanding view, i.e., a scenic corridor, the development standards of the proposed use should deal with maintaining those views as much as possible.
  - c. Special consideration should be given to preserving the following:
    - i. Hillsides, hilltops, valleys, beaches, lagoons and lakes that provide visual and physical relief in the form of natural contrast to the city;
    - ii. Open space areas which assist in defining neighborhood, district and city identity;
    - iii. Unique topographical features or natural rock outcroppings and other notable landmarks;
    - iv. Areas of significant historical value;
    - v. Prime vista sites;
    - vi. Scenic and historical corridors.

(Ord. CS-178 § LXI, 2012)

**§ 21.40.090. Announcement of decision and findings of fact.**

When a decision on a special use permit is made pursuant to this chapter, the decision-making authority shall announce its decision in writing in accordance with the provisions of Section 21.54.120 of this title.  
(Ord. 9386 § 2, 1974; Ord. 1256 § 7, 1982; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011; Ord.

(Ord. CS-178 § LXII, 2012)

**§ 21.40.095. Effective date and appeals.**

Decisions on special use permits shall become effective unless appealed in accordance with the provisions of Section 21.54.150 of this title.

(Ord. CS-178 § LXIII, 2012)

**§ 21.40.100. Expiration, extensions and amendments.**

- A. The expiration period for an approved special use permit shall be as specified in Section 21.58.030 of this title.
- B. The expiration period for an approved special use permit may be extended pursuant to Section 21.58.040 of this title.
- C. An approved special use permit may be amended pursuant to the provisions of Section 21.54.125 of this title.

(Ord. 9386 § 2, 1974; Ord. CS-178 § LXIV, 2012)

**§ 21.40.110. Development standards.**

Specific development standards may be applied to areas within the S-P scenic preservation overlay zone by specific plan or as part of a special use permit. Such standards shall control notwithstanding the provisions of the underlying zone and may include but are not limited to the following:

- (1) Sign Control. Restrictions on size, content, design and location;
- (2) Underground Utilities. Requiring the undergrounding of utilities when said action is necessary to carry out the intent and purpose of this chapter;
- (3) Landscaping. Prescribing landscaping requirements and review of plans;
- (4) Architectural Treatment. Establishing acceptable architectural motifs and review of plans;
- (5) Setbacks. Establishment of deeper setbacks when necessary to maintain scenic corridor;
- (6) Side Yards. Establishment of wider side yards when providing views through the property;
- (7) Height Limitations. Reducing maximum height limits in order to maximize views from beyond;
- (8) Building Bulk. Restrictions on maximum bulk of buildings to break up solid facade;
- (9) Spacing of Buildings. Requiring off-set spacing of buildings to maximize a prime vista point;
- (10) Other Conditions. Any other regulation or condition necessary to protect the scenic resources of the community consistent with the purposes of this chapter.

(Ord. 9386 § 2, 1974)

**§ 21.40.115. Scenic corridor development guidelines.**

The City Council shall, by resolution, adopt guidelines for development of property with a scenic corridor overlay. Development within a scenic corridor shall be consistent with the scenic corridor guidelines in addition to complying with the other requirements of the chapter. If compliance with one or more specific

standards of the scenic corridor guidelines is infeasible for a particular project, the Planning Commission, or the City Council upon appeal, may grant exceptions to those specific standards; provided, however, that the scenic nature of the corridor and traffic safety are protected to the greatest extent feasible, as outlined in the adopted guidelines.

(Ord. 9725 § 3, 1984)

#### **§ 21.40.117. Contents of scenic corridor guidelines.**

The scenic corridor guidelines shall consist of the following:

- (1) A map or description of the boundaries of the corridor area;
- (2) Development guidelines which address the following items:
  - (A) Design theme;
  - (B) Median break frequency;
  - (C) Sidewalk description;
  - (D) Sign regulations;
  - (E) Building height maximums;
  - (F) Grading restrictions;
  - (G) Setbacks;
  - (H) Street furniture;
  - (I) Street light spacing;
  - (J) Roof equipment restrictions;
  - (K) Other conditions necessary to protect the public safety or scenic resources of the corridor.

The guidelines shall apply to the total length of an arterial within the city limits, however, this length may be divided into appropriate sub-areas for purposes consistent with this chapter.

(Ord. 9725 § 4, 1984)

#### **§ 21.40.120. Conditions.**

The Planning Commission or City Council on appeal may impose such conditions on the applicant and the permit as are determined necessary consistent with the provisions of this chapter.

(Ord. 9386 § 2, 1974)

#### **§ 21.40.135. Coastal zone restrictions.**

Within the coastal zone, existing public views and panorama shall be maintained. Through the individualized review process, sites considered for development shall be conditioned so as to not obstruct or otherwise damage the visual beauty of the coastal zone. In addition to the above, height limitations and see-through construction techniques should be employed. Shoreline development shall be built in clusters to leave open areas around them to permit more frequent views of the shoreline. Vista points shall be incorporated as a part of larger projects. The unique characteristics of older communities such as the

Carlsbad Village Drive corridor shall be preserved through design requirements which are in accordance with the flavor of the existing neighborhood.

(Ord. NS-365 § 5, 1996)

## CHAPTER 21.41 SIGN ORDINANCE

**Note: Prior ordinance history: Ord. Nos. NS-606, CS-038, CS-164, and CS-178.**

### **§ 21.41.005. Purpose.**

- A. The purposes of the sign ordinance codified in this chapter include to:
1. Implement the city's community design and safety standards as set forth in the general plan;
  2. Maintain and enhance the city's appearance by regulating the design, character, location, number, type, quality of materials, size, illumination and maintenance of signs;
  3. Respect and protect the right of free speech by sign display, while reasonably regulating the structural, locational and other noncommunicative aspects of signs, generally for the public health, safety, welfare and specifically to serve the public interests in traffic and pedestrian safety and community aesthetics;
  4. Eliminate the traffic safety hazards to pedestrians and motorists posed by off-site signs bearing commercial messages;
  5. Generally limit commercial signage to on-site locations in order to protect the aesthetic environment from the visual clutter associated with the unrestricted proliferation of signs, while providing channels of communication to the public;
  6. Allow the communication of information for commercial and noncommercial purposes without regulating the content of noncommercial messages;
  7. Allow the expression of political, religious and other noncommercial speech at all times and allow for an increase in the quantity of such speech in the period preceding elections;
  8. Protect and improve pedestrian and vehicular traffic safety by balancing the need for signs which facilitate the safe and smooth flow of traffic (i.e., traffic directional signs) without an excess of signage which may distract motorists, overload their capacity to quickly receive information, visually obstruct traffic signs or otherwise create congestion and safety hazards;
  9. Minimize the possible adverse effects of signs on nearby city and private property;
  10. Serve the city's interests in maintaining and enhancing its visual appeal for tourists and other visitors, by preventing the degradation of visual quality which can result from excess signage;
  11. Protect the investments in property and lifestyle quality made by persons who choose to live, work or do business in the city;
  12. Defend the peace and tranquility of residential zones and neighborhoods by generally forbidding commercial signs on private residences, while allowing residents the opportunity, within reasonable limits, to express political, religious and other noncommercial messages from their homes; and
  13. Enable the fair, consistent and efficient enforcement of the sign regulations of the city.

(Ord. CS-226 § I, 2013)

**§ 21.41.010. Applicability.**

- A. The provisions of this chapter shall apply generally to all zones established by this title.
- B. Properties and uses in the Village-Barrio (V-B) zone are regulated first by the sign standards of the Village and Barrio master plan, and then, to the extent not covered by said master plan, by the provisions of this chapter.
- C. Signs on city property, both within the V-B zone and other zones, are controlled by other provisions of the Carlsbad Municipal Code, not by this chapter.
- D. In those areas of the city where master plan or specific plan sign standards or sign programs are adopted by ordinance as special zoning regulations, those sign standards or sign programs shall apply; however, the "message substitution" provisions of this chapter, Section 21.41.025(A)(2), shall apply to such programs and plans.
- E. All other sign programs that were approved prior to the effective date of this chapter, but not by ordinance, are subject only to the "message substitution" provisions of this chapter (Section 21.41.025(A)(2)).
- F. Except as noted in the preceding paragraph, a sign, as defined in this chapter, may be affixed, erected, constructed, placed, established, mounted, created or maintained only in conformance with the standards, procedures and other requirements of this chapter. The standards regarding number and size of signs regulated by this chapter are maximum standards, unless otherwise stated.

(Ord. CS-226 § I, 2013; Ord. CS-334 § 7, 2018)

**§ 21.41.020. Definitions.**

- A. Whenever the following terms are used in this chapter, they shall have the meaning established by this section:

"Abandoned sign" means any sign that meets any of the following criteria:

- a. Sign is located on property that becomes vacant or unoccupied for a period of at least ninety days,
- b. Sign which pertains to any occupant or business unrelated to the premises' present occupant or business, or
- c. Sign which pertains to a time, event or purpose which no longer applies.

"Abate" means to put an end to and physically remove. Discontinuance of a sign without removal of the entire sign structure shall not constitute abatement.

"Advertising for hire." See "General advertising."

"Address sign" means the identification of the location of a building or use on a street by a number(s).

"A-frame sign" means a freestanding sign designed to be easily movable and to rest on the ground without being affixed to any object or structure. Such signs are commonly in the shape of the letter "A," but may also be in the shape of an inverted letter "T" or a letter "H," functionally similar signs are also within this definition.

"Animated sign" means any sign with action or motion or color changes, whether or not requiring electrical energy or set in motion by wind. This definition excludes flags and does not apply to electronic message boards or digital displays.

"Attraction board" means a sign capable of supporting copy which is readily changeable, such as theater marquee, and which refers to products, services or coming events on the premises.

"Average grade" means the average level of the finished surface of the ground directly beneath a monument or pole sign.

"Awning sign" means a sign that is a part of, or attached to, an awning, canopy or other fabric, metal, plastic or structural protective cover over a door, entrance, window, architectural feature or outdoor service area. A marquee is not an awning or canopy.

"Balloon" means a small inflatable device used for purposes of commercial signage, advertising or attention getting. See also "inflatable signs."

"Banner" means any sign made of cloth, lightweight fabric, bunting, plastic, vinyl, paper or similar material that is permanently or temporarily placed on, or affixed to, real property in a location where it is visible to the public from outside of the building or structure. A flag, as defined, shall not be considered a banner.

"Beacon" means a stationary or revolving light (including laser lights, klieg lights, spot lights, search lights, projected image signs and similar devices) with one or more beams projected into the atmosphere or directed at one or more points away from the light source and used for purposes other than police, fire, public safety or news gathering operations.

"Bench sign" means a sign painted on or affixed to any portion of a bench or seating area at bus stops or other such pedestrian areas.

"Billboard" means a permanent structure sign in a fixed location which meets any one or more of the following criteria:

- a. The sign is used for the display of off-site commercial messages;
- b. The sign is used for general advertising for hire;
- c. The sign is not an accessory or auxiliary use serving a principal use on the same parcel, but rather is a separate or second principal use of the parcel;
- d. The sign is a profit center on its own, and in the case of multiple principal uses on the same parcel, the sign is distinct from the main operations of the principal use on the parcel;
- e. The sign is a non-accessory use.

"Building elevation" means the front, rear or side of the external face of a building.

"Building frontage" means the total width of the elevation of a building which fronts on a public or private street or the building elevation along which the main entrance exists. For the purposes of calculating permitted sign area, every building has only one building frontage. If more than one business is located in a single building, then such area shall be limited to that portion which is occupied by each individual business or establishment.

"Building marker" means a sign cut into a masonry surface or made of bronze or similar material permanently affixed to a public building or building of designated historic significance.

"Bus stop signs" means a sign mounted on a shelter which serves as a bus stop or passenger waiting area for public transportation; this definition does not include devices giving the schedule and/or prices for the transportation service.

"Canopy sign." See "awning sign."

"Changeable copy sign" means a sign or portion thereof with characters, letters or illustrations that can be physically or mechanically changed or rearranged without altering the face or the surface of the sign. This does not include a digital display.

"Channel lettered sign" means a sign with individually cut, three dimensional letters or figures affixed to a building or sign structure.

"City property" means all land located within the corporate limits of the city to which the city holds the present right of possession and control, or is part of the public right-of-way located within the city. The definition also includes facilities and properties owned or operated by the city.

"Commercial center" means a commercial development that includes predominantly retail businesses with access driveways or parking spaces shared by one or more of the businesses.

"Commercial mascot" means a live person or animal attired or decorated with commercial insignia, images or symbols, and/or holding signs displaying commercial messages. Includes sign twirlers and sign clowns, but does not include hand-held signs displaying noncommercial messages.

"Commercial signage" or "commercial message" means any sign or sign copy with wording, logo or other representation that directly or indirectly names, advertises or calls attention to a business, product, service or other commercial activity or which proposes a commercial transaction or relates primarily to commercial or economic interests.

"Construction sign" means a temporary sign displayed on real property on which construction of new improvements is occurring during the time period which begins with the issuance of the first necessary permit for the construction and ends with the latest of any of the following, or their functional equivalents: notice of completion or certificate of occupancy.

"Cornerstone" means stone or other wall portion laid at or near the foundation of a building and which indicates in permanent markings the year of construction. Also called "foundation stone."

"Digital display" means a physical method of image presentation using LCD (liquid crystal display), LED (light emitting diode), plasma displays, projected images, or other functionally equivalent display technologies. Signs using such display methods are called by various names, including, CEVMS (commercial electronic variable message signs or changeable electronic variable message signs), electronic message boards, electronic reader boards, dynamic signs, digital signs, electronic signs, message centers and similar terms.

"Directional sign" means an on-site sign designed to guide or direct pedestrian or vehicular traffic to uses on the same site.

"Directory sign" means a sign listing the persons, activities or tenants located on-site.

"Eaveline" means the bottom of the roof eave or parapet.

"Establishment" means any organization or activity which uses land for purposes other than residential use. It includes all business and commercial uses, as well as institutional, public, semipublic and other noncommercial uses but does not include private residential uses; however hotels, motels, inns, bed and breakfast places, etc. are within this definition. Automated facilities, which have live persons in attendance only during limited or maintenance hours (i.e., power transformer stations, broadcasting towers, water tanks, weather data collection stations, vending machines, etc.) are not within this definition.

"Externally illuminated" means illuminated by a light source that is located externally to the sign surface. This method of lighting may include, but is not limited to, spotlighting or backlighting.

"Façade sign" means a sign fastened to the exterior walls of a building exposed to public view. See

also "wall sign."

"Fascia sign" means a sign fastened to or engraved in the band or board at the edge of a roof overhang.

"Flag" means a device, generally made of flexible materials such as cloth, fabric, paper or plastic, usually used as a symbol of a government, political subdivision, public agency, company logo, belief system or concept.

"Freestanding commercial building" means a building occupied by a single user retail business, or a noncommercial use located in a zoning district where commercial activities are allowed, that has direct vehicular access to an adjacent street.

"Freestanding sign" means a sign supported upon the ground and not attached to any building. This definition includes monument signs and pole signs.

"Freeway service station" means a gas/service station located on a property that is contiguous to a freeway interchange.

"General advertising" means the enterprise of offering sign display space for a fee or other consideration to a variety of advertisers, commercial or noncommercial.

"Hand held" means those signs or visual communication devices which are held by or otherwise mounted on human beings or animals.

"Inflatable signs" or "inflatable attention-getting devices" means any device filled with air or gas, that is, attached or tethered to the ground, site, merchandise, building or roof and used for the purposes of commercial signage, advertising or attention getting. Commercial advertising blimps, when tethered, are within this definition.

"Internally illuminated" means the illumination of the sign face from behind so that the light shines through translucent sign copy or lighting via neon or other gases within translucent tubing incorporated onto or into the sign face.

"Logo" means a trademark or symbol of an organization, belief system or concept.

"Marker board" means a board designed for displaying images made by chalk, markers or similar devices; includes devices commonly known as blackboards, whiteboards and chalkboards. Also includes devices sold under commercial names such as Promethean Boards, Activeboards, and functionally similar devices.

"Marquee" means a permanent canopy structure attached to and supported by a building and projecting near or over private sidewalks or public rights-of-way, generally located near the entrance to a hotel, theater or entertainment use, and used as a display surface for a sign message.

"Master plan" means a plan prepared and adopted pursuant to Chapter 21.38 of this code.

"Mobile billboard" means a vehicle for which the primary use is the display of general advertising message(s).

"Monument sign" means a freestanding sign, which is supported by a base that rests upon the ground and of which the display or copy is an integral part of the design. A monument sign does not include poles or pylons. Contrast; pole sign.

"Multi-face sign" means a sign displaying information on at least two surfaces, each having a different orientation, or on a curved surface so that the copy or image is different when viewed from different angles.

"Multi-tenant building" means a nonresidential building in which there exists two or more separate nonresidential tenant spaces, businesses or establishments.

"Neon sign" means a sign that utilizes neon or other fluorescing, inert or rarified gases within translucent tubing in or on any part of the sign structure.

"Noncommercial message" means any image on a sign which conveys or expresses commentary on topics of public concern and debate, including, by way of example and not limitation, social, political, educational, religious, scientific, artistic, philosophical and charitable subjects. This definition also includes signs regarding fund raising or membership drive activities for noncommercial or nonprofit concerns.

"Nonconforming sign" means any sign which was legally established in conformance with all applicable laws in effect at the time of original installation but which does not conform to the requirements of this chapter or other later enactments.

"On-site sign" means a sign displaying a commercial message which relates or pertains to the business conducted, services available or rendered or goods available for sale, rent or use, upon the same premises where the sign is located. On-site can mean more than the exact same parcel or premises, upon which the sign is located if that site is part of a larger commercial center, as to any store, business, or establishment that is within the commercial center. A sign program may define "on-site" in a manner which applies only to that program. The on-site/off-site distinction applies only to commercial messages.

"Off-site sign" means any sign that gives directions to or identifies a commercial use, product or activity not located or available on the same premises as the sign. The on-site/off-site distinction applies only to commercial messages. There is no location criterion for noncommercial messages.

"Pennant" means an individual or a series of lightweight plastic, fabric or other material, whether or not containing a message of any kind, suspended from a rope, wire or string, designed to move in the wind.

"Permanent sign" means any sign which is intended to be and is so constructed as to be of lasting and enduring condition, remaining unchanged in character, condition (beyond normal wear and tear) and position and in a permanent manner affixed to the ground, wall or building. The message display of a sign may be changed without affecting its character as a permanent sign.

"Person" means any natural person, marital estate, sole proprietorship, partnership, limited partnership, corporation (of any type or form, regardless of where incorporated), trust, association, limited liability company, unincorporated association or any other juridical person capable of legally owning, occupying or using land.

"Pole sign" means a freestanding sign that is greater than six feet in height and is supported by one or more vertical supports. The definition applies even if the support poles or pylons are covered with cladding or skirting.

"Portable sign" means a sign made of any material which, by its design, is readily movable including, but not limited to, signs on wheels, casters and rollers, "A-frame" signs and signs attached to vehicles or trailers or water vessels.

"Premises" means the place where a business or other establishment is located. If there is only one business or establishment on the legal parcel, then the entire parcel is the premises. If there is more than one business or other establishment on a single parcel, then the premises is the portion of the parcel actually occupied or exclusively used by the business or other establishment, except that signs relating to the owner or manager of the entire parcel may be considered on-site when placed anywhere on the parcel.

"Prohibited sign" means any sign that is specifically not permitted by this chapter or was erected

without complying with the regulations of this chapter in effect at the time of construction, display or use.

"Projecting sign" means a sign which projects more than ten inches from a wall or other vertical surface, generally at about ninety degrees.

"Property owner" means the owner of the property on which the sign is displayed or proposed to be displayed. When the property is land, "owner" includes the legal owner according to the official land records of the San Diego County Recorder, all beneficial owners thereof and all persons presently holding a legal right to possession of the subject property.

"Regional commercial center" means a commercial development located upon a property with a regional commercial general plan land use designation and having the following characteristics: project site area between thirty and one hundred acres; gross lease area between three hundred thousand and one million five hundred thousand square feet; major tenants may include full-line department stores (two or more), factory outlet centers, power centers of several high volume specialty stores, warehouse club stores or automobile dealerships; secondary tenants may include a full range of specialty retail, restaurants and entertainment. A center is still within this definition even if it includes one or more noncommercial uses.

"Right-of-way" means an area or strip of land, either public or private, on which an irrevocable right-of-passage has been recorded for the use of vehicles or pedestrians or both.

"Roof sign" means a sign erected and constructed wholly or in part upon, against or above the roof of a building. For purposes of this chapter, any portion of a building above or behind the fascia or parapet of a building shall be considered part of the roof.

"Shopping complex" means the same as "commercial center."

"Sign" means any device, fixture, placard or structure that uses any color, form, graphic, illumination, symbol, image or writing to advertise, announce the purpose of, identify a person, product, service or entity or to communicate information of any kind to the public. However, the following are not within the definition of "sign" for the regulatory purposes of this chapter:

- a. Any public or legal notice required by a court or public agency;
- b. Decorative or architectural features of buildings (not including letters, trademarks or moving parts);
- c. Holiday decorations and lights, in season, clearly incidental to and associated with holidays or cultural observances and which are on display on a given parcel for not more than forty-five calendar days in a calendar year;
- d. Building markers, as defined herein;
- e. Cornerstones, as defined herein;
- f. Symbols or insignia which are an integral part of a doormat or welcome mat, or embedded directly into the sidewalk or entrance surface, so long as such device is otherwise legal and is located entirely on private property and on the ground or sidewalk;
- g. Items or devices of personal apparel or decoration but not including hand held signs or commercial mascots;
- h. Marks on tangible goods, which identify the maker, seller, provider or product, as such are customarily used in the normal course of the trade or profession;

- i. Symbols of noncommercial organizations or concepts including, but not limited to, religious or political symbols, when such are permanently integrated into the structure of a permanent building which is otherwise legal; by way of example and not limitation: stained glass windows, carved doors or friezes, church bells and decorative fountains;
- j. Property entry and security protection notices and signs warning of dangers or health and safety policies, such as, by way of example and not limited to, "Beware of Dog," "Danger High Voltage," "No Shirt No Service," etc., when such are not over one square foot on residential uses or two square feet on other uses and firmly affixed to their mounting surface or device;
- k. The legal use of fireworks, candles and artificial lighting not otherwise regulated by this chapter;
- l. Devices which are located entirely within an enclosed structure and are not visible from the exterior thereof;
- m. Advertisements or banners mounted on or towed behind free-flying airborne vessels or craft, such as airplanes, dirigibles, untethered blimps and the like;
- n. Advertisements or banners mounted on trains or other mass transit vehicles which legally pass through the city;
- o. License plates, license plate frames, registration insignia and noncommercial messages on street legal vehicles and properly licensed watercraft and messages relating to the business of which the vehicle or vessel is an instrument or tool (not including general advertising) and messages on the vehicle or watercraft relating to the proposed sale, lease or exchange of the vehicle or vessel;
- p. Messages on golf carts, wheelchairs, personal scooters, human powered taxis, shopping carts or other small wheeled vehicles. Signs on any motorized device which may legally travel upon public roads or highways is not within this definition;
- q. Vending machines which do not display general advertising;
- r. Automated teller machines at banks and facilities for walk up and drive up service at banks, credit unions and similar establishments;
- s. Murals, paintings and similar pictorial displays that are painted directly onto a building and are not intended to draw attention to any use, product, service or event.

"Sign area" means the display or message area of the sign. The methods of computing sign area are detailed in Section 21.41.070.A.

"Sign height" means the height of the highest point on the sign structure above grade or ground beneath. The methods of calculating sign height are stated in Section 21.41.070.B.

"Sign permit" means an entitlement from the city to place or erect a sign.

"Sign program" means a plan that integrates signs for a project with buildings, circulation and landscaping to form a coordinated architectural statement.

"Site development plan" means a plan required pursuant to Chapter 21.06 of this code.

"Specific plan" means a plan prepared and adopted pursuant to Section 65451 of the California Government Code.

"Street frontage" means the distance along which a lot line adjoins a public street, from one lot line intersecting said street to the furthest distant lot line intersecting the same street. Corner lots have at least two street frontages.

"Suspended sign" means a sign hung from the underside of a marquee, pedestrian arcade or covered walkway, usually at approximately ninety degrees to the building wall or storefront.

"Tall freestanding sign" means a monument or pole sign that is greater than fifteen feet in height.

"Temporary seasonal sales permit" means a permit to allow outdoor seasonal and holiday sales, including, but not limited to, Christmas trees, pumpkins and flowers, on private property.

"Temporary sign" means a sign, including paper, cardboard wood, plastic, synthetic, fabric or similar materials, which by virtue of its physical nature is not suitable for long term display or permanent mounting.

"Traffic directional sign" means a sign which indicates place, location or direction for the information of drivers or pedestrians.

"Unsafe sign" means a sign posing an immediate peril or reasonably foreseeable threat of injury or damage to persons or property on account of the condition of the physical structure of the sign or its mounting mechanism. A sign may not be considered "unsafe" within this definition by virtue of the message displayed thereon.

"Vehicle sign" means a sign mounted upon a vehicle which may legally be parked on or move on public roads, as well as a sign mounted upon a water vessel which may legally move upon the waters.

"Vessel sign" means a sign mounted upon a water vessel which may legally move upon the waters.

"Wall sign" means a sign attached to a wall surface that does not project or extend more than ten inches from the wall, which is confined within the limits of an outside wall and which displays only one display surface.

"Window sign" means any sign painted or affixed to the inside or outside of a window surface or otherwise located within a building so as to be visible from the exterior of the building. This definition does not include window displays of merchandise offered for sale.

(Ord. CS-226 § I, 2013; Ord. CS-261 § I, 2014)

### **§ 21.41.025. General provisions.**

A. The provisions stated in this section apply to all signs within the regulatory scope of this chapter, and override more specific provisions to the contrary elsewhere in this chapter.

1. Owner's Consent Required.

- a. The consent of the property owner is required before any sign may be displayed on any real or personal property within the city;
- b. In the case of city property, the owner's consent shall be pursuant to other provisions of the Carlsbad Municipal Code.

2. Message Substitution.

- a. Subject to the owner's consent, a noncommercial message of any type may be substituted for all or part of the commercial or noncommercial message on any sign allowed pursuant to this chapter.

- b. Design criteria which may apply to commercial signs, such as color, lettering style or height, and compatibility with other signs on the same parcel or other signs subject to a sign program, do not apply to noncommercial message signs even when they are in an area subject to a sign program, master plan or specific plan.
  - c. Message substitution is a continuing right and may be exercised any number of times, in whole or in part.
  - d. No special or additional permit is required to substitute a noncommercial message for any other message on an allowable sign, provided the sign is already permitted or exempt from the permit requirement and the sign structure satisfies all applicable laws, rules, regulations and policies.
  - e. When a noncommercial message is substituted for any other message, the sign is still subject to the same location and structure regulations, such as size, height, illumination, duration of display, building and electrical code requirements, as would apply if the sign were used to display a commercial message or some other noncommercial message.
  - f. This substitution provision shall prevail over any other provision to the contrary, whether more specific or not, in this chapter and applies retroactively to sign programs, master plans and specific plans which were adopted or approved before this chapter was enacted.
  - g. This provision does not:
    - i. Create a right to increase the total amount of signage on a parcel, lot or land use;
    - ii. Authorize the physical expansion of an existing sign;
    - iii. Affect the requirement that a sign structure or mounting device be properly permitted;
    - iv. Allow a change in the physical structure of a sign or its mounting device; or
    - v. Allow the substitution of an off-site commercial message in place of an on-site commercial message or a noncommercial message.
  - h. In addition to the noncommercial message display allowable under this provision, on any legal parcel, any unutilized sign display area which is available as a matter of right (i.e., not including display area available under some discretionary approval process), may be used to display noncommercial messages; a permit for such signage is required only when the physical structure or mounting device is subject to a building permit under the building code and/or an electrical permit under the electric code.
3. Noncommercial Speech.
    - a. In addition to the sign display area available under the message substitution provision, signs displaying noncommercial messages only are allowable at all times and on all parcels, subject to the following regulations:
      - i. A sign permit is required only if the sign qualifies as a structure requiring a building permit or an electrical permit;
      - ii. On parcels where the principal use is residential, the allowable display area is eight square feet per residential unit at all times;

- iii. On parcels where the principal use is anything other than residential, the allowable display area is eight square feet per nonresidential establishment at all times; and
- iv. The allowable display space for noncommercial speech is increased by twenty-five percent during the time period which begins thirty days before a primary, general, or special election and ends within five days following the closing of the polls.

4. Legal Nature of Sign Rights and Duties.

- a. All rights, duties and responsibilities related to permanent signs attach to the land on which the sign is mounted, affixed or displayed and run with the land.
- b. The city may demand compliance with this chapter and with the terms of any sign permit from the permit holder, the owner of the sign, the property owner or the person mounting the sign.

5. Transfer of Signage Rights.

- a. Rights and duties relating to permanent signs may not be transferred between different parcels of real property.
- b. All duly issued and valid sign permits for permanent signs affixed to land shall automatically transfer with the right to possession of the real property on which the sign is located.
- c. This provision does not affect the ownership of signs, and does not prevent a given sign from being moved from one location to another, so long as the sign is properly permitted in the new location.

6. Compliance.

- a. Responsibility for compliance with this chapter is joint and severable as to all persons erecting, mounting, displaying or modifying any sign, all persons in control and custody of the property on which a sign is displayed, and the persons who are legal owners of record of the property on which a sign is displayed.

7. Discretionary Approvals.

- a. Whenever any sign permit, variance, CUP, sign program or special planning area approval, or other sign-related decision, is made by any exercise of official discretion, such discretion shall be exercised only as to the noncommunicative aspects of the sign, such as size, height, orientation, location, setback, illumination, spacing, scale and mass of the structure, etc.
- b. Graphic design may be evaluated only for a sign program, and then only as applicable to commercial message signs.

8. Mixed Use Zones or Overlay Districts.

- a. In any zone where both residential and nonresidential uses are allowed, the sign related rights and responsibilities applicable to any particular parcel or land use shall be determined as follows:
  - i. Residential uses shall be treated as if they were located in a zone where a use of that

type would be allowed as a matter of right, and

- ii. Nonresidential uses shall be treated as if they were located in a zone where that particular use would be allowed, either as a matter of right or subject to a conditional use permit or similar discretionary permit.

(Ord. CS-226 § I, 2013; Ord. CS-261 § I, 2014)

#### **§ 21.41.030. Prohibited signs.**

- A. The following signs, as defined in this chapter, are prohibited in all zones of the city, unless a more specific provision or city policy allows them at certain times and places:
  1. Abandoned signs, including their structures and supports;
  2. A-frame signs, as defined herein;
  3. Animated signs including, but not limited to signs that move, blink, flash, change color, reflect, revolve or make noise;
  4. Balloons or other inflatable signs or devices, as defined herein;
  5. Beacons, as defined herein;
  6. Billboards, as defined herein;
  7. Bus stop bench/shelter signs, as defined herein;
  8. Digital display signs;
  9. Exposed neon lighted signs on any building elevation that faces and is within five hundred feet of any property line that adjoins residentially zoned property;
  10. Commercial mascots and hand held or sandwich board signs carried by a person on city property or in the public right-of-way and displaying a commercial message;
  11. Marker boards, as defined herein;
  12. Mobile billboards or any other type of vehicle that is moving or parked on city streets whose primary purpose is displaying general advertising;
  13. Off-site commercial signs excluding real estate for sale signs per Civil Code 713;
  14. Portable signs with commercial messages; except for temporary signs as indicated in Sections 21.41.040 and 21.41.100;
  15. Roof signs;
  16. Signs attached to trees, plants, rocks, fences, utility poles/cabinets or other objects, the primary function of which is not to support a sign;
  17. Signs physically blocking or impeding the free passage of persons through doors, fire escapes or public rights-of-way;
  18. Signs erected on or over city property including public easements and public rights-of-way, except those needed for traffic and public safety regulation and those erected pursuant to other

provisions of the Carlsbad Municipal Code;

19. Signs simulating in color or design a traffic sign or signal or using words, symbols or characters in such a manner as to be reasonably likely to interfere with, mislead or confuse pedestrian or vehicular traffic;
20. Signs that do not conform with applicable Uniform Building Code as adopted by Carlsbad and National Electric Code as adopted by Carlsbad;
21. Temporary signs, including, but not limited to, banners (i.e.; feather banners) and pennants, except as provided for in Sections 21.41.040 and 21.41.100; and
22. Unsafe signs, as defined in this chapter.

(Ord. CS-226 § I, 2013; Ord. CS-261 § II, 2014)

### § 21.41.040. Signs on private property not requiring a sign permit.

The signs listed in Table A do not require a sign permit, and their area and number shall not be included in the aggregate area or number of signs subject to a permit requirement, for any given property.

**Table A**  
**Signs on Private Property not Requiring a Sign Permit**

Description of Sign	Type of Sign	Maximum Number of Signs	Maximum Sign Area	Maximum Sign/ Letter Height	Additional Sign Standards - See Sections 21.41.070—21.41.090 and those listed below
Traffic control, traffic directional or warning signs erected or required by government agencies	Freestanding, wall, banner				
Address sign	Wall	1 per building	6 square feet per sign	The minimum height shall be: residential - 4 inches and nonresidential - 12 inches, unless the Fire Marshal requires a greater height	
Noncommercial message signs on residential and nonresidential property	Wall, freestanding, or window		8 square feet per residential unit; 8 square feet per nonresidential establishment	6 feet above average grade or 3.5 feet above average grade if in the front yard	May not be illuminated
Additional political and other noncommercial message signs on private property during campaign periods	Freestanding		2 square feet per residential unit; 2 square feet per nonresidential establishment	6 feet above average grade or 3.5 feet above average grade if in the front yard	1. May be located on any private property, with owner's consent 2. Display time limited to 30 days preceding any federal, state or local (primary, general or special) election and shall be removed, by the person placing or erecting such sign within 5 days following such election. 3. This is in addition to the noncommercial messages allowed under the substitution provision and the noncommercial messages allowed at all times on residential and nonresidential properties.

**Table A**  
**Signs on Private Property not Requiring a Sign Permit**

Description of Sign	Type of Sign	Maximum Number of Signs	Maximum Sign Area	Maximum Sign/ Letter Height	Additional Sign Standards - See Sections 21.41.070—21.41.090 and those listed below
Window signs located in commercial centers and freestanding commercial buildings	Window		Total copy area shall not exceed 25% of the window area	7 feet above average grade/6 inches	
Freestanding sign on single dwelling unit or condominium unit - property which is for rent, sale or lease (displayed on the owner's real property or real property owned by others with their consent [pursuant to California Civil Code Section 713])	Freestanding	1 per dwelling unit	4 square feet per sign	6 feet above average grade/6 inches	Shall be removed from the building or property within 15 days after the sale, rental or lease
Flags in nonresidential zones	Pole: freestanding or mounted on the side of a building	Maximum of 3 flags per nonresidential establishment	24 square feet per flag	Flag pole height: The lesser of 35 feet or the height of the tallest legally permitted structure existing on the premises	
Flags in residential zones	Pole: freestanding or mounted on the side of a building	Maximum of 2 flags per occupied dwelling unit	24 square feet per flag	Flag pole height: the lesser of 35 feet or the height of the tallest legally permitted structure existing on the premises	Flags with commercial images are not allowed in residential zones
Temporary signs attached to parked or stationary vehicles visible from the public right-of-way	Window (inside)	2 per vehicle	10 inches by 12 inches per sign		No limitation if sign is not visible from public right-of-way
Signs permanently attached to or painted on vehicles, with non-changeable copy, used in the day-to-day operations of a business					Does not apply to "general advertising" or "mobile billboards"

(Ord. CS-226 § I, 2013)

**§ 21.41.050. Application and permit procedures.****A. Sign Permit Required.**

1. It shall be unlawful for any person to affix, place, erect, suspend, attach, construct, structurally or electrically alter (not including a change in sign copy or sign face), move or display any temporary or permanent sign within the city without first obtaining a sign permit in accordance with the provisions of this section, unless the sign is exempt from the permit requirement under Section 21.41.040.
2. The regulations contained in this section apply to sign permits which are not associated with a sign program. Permit applications for sign programs are regulated by Section 21.41.060.
3. A sign permit shall not be required for cleaning or other normal maintenance of an existing sign, unless a structural or electrical change is made.
4. No sign permit is required when a political, religious or other noncommercial message is substituted for another commercial message on a pre-existing sign or when a noncommercial message is substituted for a noncommercial message on a properly permitted sign.
5. In the coastal zone, unless otherwise exempt under applicable policies of the city's certified LCP, any person proposing signage governed by this chapter shall also obtain a coastal development permit with the exception of a new wall sign or the change of copy of an existing wall sign both of which shall be exempt from this requirement.

**B. Application for Permit.**

1. The application for a sign permit shall be made in writing on the form provided by the City Planner and shall be accompanied by the required fee. Such application shall set forth and contain the following information:
  - a. A drawing to scale showing the design of the sign, including dimensions, sign size, colors (applies to commercial message signs only), materials, method of attachment, source of illumination and showing the relationship to any building or structure to which it is proposed to be installed or affixed or to which it relates;
  - b. A site plan, including all dimensions, drawn to scale indicating the location of the sign relative to the property line, rights-of-way, streets, sidewalks, vehicular access points and existing buildings or structures and off-street parking areas located on the premises;
  - c. The number, size, type and location of all existing signs on the same building, lot or premises; and
  - d. Any structural information and plans necessary to ensure compliance with the latest adopted building code and electrical code.

**C. Fees.** All signs require a sign permit fee and plan checking fee (if applicable) that shall be paid in accordance with the schedule established by resolution of the City Council.**D. Method of Review.**

1. The purpose of a sign permit is to ensure compliance with the provisions of this chapter and the relevant building and electrical codes.

2. After receiving a complete sign application, the City Planner shall render a decision to approve, approve with modifications or deny such sign application within fifteen days; however, an approval with modifications shall be limited to requiring compliance with this chapter.
3. The application shall be approved and the permit issued whenever the proposed sign meets the following requirements:
  - a. The proposed sign conforms to all size, height and other standards for signs subject to a permit requirement as such requirements are set forth in this chapter;
  - b. The proposed sign is consistent with any applicable sign program; and
  - c. The sign conforms to the construction standards of the latest adopted building and electrical codes.

E. Revocation or Cancellation of Permit.

1. The City Planner shall revoke any issued permit upon refusal of the holder thereof to comply with the terms of the permit and/or the provisions of this chapter after written notice of noncompliance and fifteen days opportunity to cure.
2. If the work authorized under a sign permit has not been completed within six months after the date of issuance, such permit shall become null and void.

(Ord. CS-226 § I, 2013; Ord. CS-261 § III, 2014)

**§ 21.41.060. Sign programs and modified sign programs.**

- A. Purpose. The purpose of a sign program is to integrate signs with a project's building, site and landscaping design to form a unified architectural statement.
- B. Applicability.
1. A sign program shall be required for:
    - a. Master plans,
    - b. Specific plans,
    - c. Nonresidential projects requiring a site development plan processed pursuant to Chapter 21.06 of this code, and
    - d. Industrial or office developments of greater than ten acres in area.
  2. A sign program may be proposed for all other types of development projects or discretionary permits not listed in paragraph 1 of this subsection B.
  3. For those projects requiring or proposing a sign program, no sign permit shall be issued for an individual sign, unless, and until, a sign program for the project, lot or building on which the sign is proposed to be erected has been approved by the city in conformance with this chapter.
- C. Sign Programs and Sign Standards Modifications. Sign programs may establish standards for sign area, number, location, and/or dimension that vary from the standards of this chapter as follows:
1. A sign program that complies with the standards of this chapter shall require the approval of a ministerial sign program application by the City Planner provided that all of the findings of fact

listed in subsection G of this section can be made.

2. A sign program proposal that exceeds the standards of this chapter by up to fifteen percent shall require the approval of a modified minor sign program discretionary application by the City Planner provided that all of the findings of fact listed in subsection H of this section can be made.
3. A sign program proposal that exceeds the standards of this chapter by greater than fifteen percent up to thirty percent requires the approval of a modified sign program discretionary application by the Planning Commission provided that all of the findings of fact listed in subsection H of this section can be made.
4. When calculating the permitted number of signs allowed by a sign program, if the calculation results in a fractional sign of one-half or greater, then the fraction may be rounded up to the next whole number. If the calculation results in a fractional sign of less than one-half, then the fraction shall be rounded down to the next whole number.
5. When calculating the permitted number of signs allowed by a modified sign program, if the calculation results in a fractional sign, then the fractional sign may be rounded up to the next whole number.
6. Sign program design standards shall not apply to noncommercial messages.
7. All sign programs must incorporate the provisions for substitution of noncommercial messages as specified in Section 21.41.025.A.2. Message substitution applies but may not override contrary provisions in leases.
8. In the absence of a master or specific plan, the sign program application may not be used to permit a sign type which is otherwise prohibited.

D. Application and Fees.

1. An application for a sign program, modified minor sign program or modified sign program may be made by the owner of the property affected or the authorized agent of the owner.
2. The application for a sign program, modified minor sign program or modified sign program shall be made in writing on the form provided by the City Planner.
3. The application shall be accompanied by the required fee contained in the most recent fee schedule adopted by the City Council.
4. The application shall state fully the circumstances and conditions relied upon as grounds for the application.
5. The application shall contain the following information:
  - a. A copy of an approved development plan (master plan, specific plan, planned industrial permit, site development plan or other approved development project or discretionary permit) drawn to scale showing the location of property lines, rights-of-way, adjacent streets, sidewalks and on-site buildings, landscaped areas, off-street parking areas and vehicular access points;
  - b. A drawing to scale showing the design of each sign, including dimensions (height and width), sign size (area), colors, materials, method of attachment, source of illumination

and location of each sign on any building, structure or property;

- c. Computation of the total number of signs, sign area for individual signs, total sign area and height of signs for each existing and proposed sign type;
- d. A materials board or sign sample that is an accurate representation of proposed colors, material and style of copy; and
- e. The number, size, type and location of all existing signs on the same building, lot or premises.

E. Notices and Hearings.

1. Notice of an application for a modified minor sign program shall be given pursuant to the provisions of Sections 21.54.060.B and 21.54.061 of this title.
2. Notice of an application for a modified sign program shall be given pursuant to the provisions of Sections 21.54.060.A and 21.54.061 of this title.

F. Decision-Making Authority. Applications for a modified minor sign program or a modified sign program shall be acted upon in accordance with the following:

1. Modified Minor Sign Program.

- a. An application for a modified minor sign program may be approved, conditionally approved or denied by the City Planner based upon his/her review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the administrative hearing, if one is conducted pursuant to the provisions of Section 21.54.060.B.2 of this title.
- b. The City Planner may approve or conditionally approve the modified minor sign program if all of the findings of fact in subsection H of this section are found to exist.

2. Modified Sign Program.

- a. An application for a modified sign program may be approved, conditionally approved or denied by the Planning Commission or City Council, as specified in Section 21.54.040 of this title.
- b. The decision on the modified sign program shall be based on the decision-making authority's review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the public hearing.
- c. The decision-making authority shall hear the matter, and may approve or conditionally approve the sign program if all of the findings of fact in subsection H of this section are found to exist.

G. Findings of Fact for Sign Programs that Comply with Standards of this Chapter. A proposed sign program will be approved only upon the following findings:

1. All signs comply with the sign area, number, height, location and other sign standards as set forth in this chapter.
2. The signs have been integrated with the project's building, site and landscaping design to form a unified architectural statement.

H. Findings of Fact for Modified Minor Sign Programs or Modified Sign Programs that Vary from the Standards of this Chapter. A modified minor sign program or modified sign program that varies from the standards of this chapter shall be approved only upon the following findings:

1. The standards established by the modified minor sign program or modified sign program do not exceed any applicable rules or limits in the general plan or local coastal program;
2. The modified minor sign program or modified sign program is necessary to ensure that signs are proportionate to and compatible with the number, size, height, scale and/or orientation of project buildings;
3. The modified minor sign program or modified sign program is necessary to ensure the visibility of the overall development to pedestrians and motorists; and
4. The modified minor sign program or modified sign program is necessary to enhance the overall project design, and the aesthetics and/or directional function of all proposed signs.

I. Announcement of Decision and Findings of Fact. When a decision on a modified minor sign program or modified sign program is made pursuant to this chapter, the decision-making body shall announce its decision in writing in accordance with the provisions of Section 21.54.120 of this title.

J. Effective Date and Appeals. Decisions on modified minor sign programs and modified sign programs shall become effective and may be appealed in accordance with the applicable provisions of Sections 21.54.140 and 21.54.150 of this title.

K. Expiration, Extensions and Amendments.

1. The expiration period for an approved modified minor sign program or modified sign program shall be as specified in Section 21.58.030 of this title.
2. The expiration period for an approved modified minor sign program or modified sign program may be extended pursuant to Section 21.58.040 of this title.
3. An approved modified minor sign program or modified sign program may be amended pursuant to the provisions of Section 21.54.125 of this title.

L. Existing Sign Programs. Existing sign programs approved prior to the effective date of this chapter are subject only to the message substitution provision of this chapter; all other terms of the existing sign program shall continue in force.

M. Binding Effect. After approval of a sign program, modified minor sign program or modified sign program all signs subsequent thereto shall be erected, constructed, installed, displayed, altered, placed or maintained only in conformance with such program unless and until modified by the procedures outlined herein.

(Ord. CS-226 § I, 2013)

#### **§ 21.41.070. General sign standards.**

The following sign standards shall apply to all signage within the city.

A. Sign Area. Sign area is computed as follows:

1. Wall, Retaining Wall, Fascia, Awning, Window and Landscape/Hardscape Feature Signs.

- a. Sign area shall be computed by measuring the smallest square, rectangle, triangle, circle or combination thereof, that will encompass the extreme limits of the graphic image, writing, representation, emblem or other display, together with any material or color forming an integral part of the background of the message or display or otherwise used to differentiate the sign from the backdrop or structure against which it is placed.
  - b. Sign area does not include any supporting framework or bracing unless such is designed in a way as to function as a communicative element of the sign.
2. Pole Signs. Sign area shall be computed as the area of the surface(s) upon which the sign message is placed including the supporting column(s) if decorated or displayed with advertising.
  3. Multi-Faced Signs.
    - a. The sign area for a two-sided or multi-faced sign shall be computed by adding together the area of all sign faces visible from any one point.
    - b. When two sign faces are placed back to back, so that both faces cannot be viewed from any one point at the same time, and when such sign faces are part of the same structure, the sign area shall be computed by the measurement of one of the faces.
    - c. In the case of a sign of spherical or cylindrical shape, the area of the sign shall be one-half of the surface area.
  4. Flags, Banners, Pennants, etc. Sign area is the entire surface area, one side only.
  5. Monument, Freestanding and Suspended Signs. Sign area shall be computed by measuring the entire area contained within the frame, cabinet, monument, monument base or fixture.
- B. Sign Height—Monument, Pole and Freestanding Signs. Sign height is measured as follows: Sign height is specified as the greatest vertical measurement from the top of the sign or sign cabinet, including all ornamentation and supports, to the average grade beneath the sign.
  - C. Placement of Commercial Signs. Commercial signs shall be placed on the property of the use for which the sign is intended to identify or relate, unless placement on another property is specifically allowed by this chapter or other relevant law.
  - D. Placement of Noncommercial Messages on Signs.
    1. Noncommercial messages are allowed wherever commercial signage is permitted within Chapter 21.41 and is subject to the same standards and total maximum allowances per lot or building of each sign type specified in this chapter.
    2. A permit is required for a noncommercial message only when the sign structure has not been previously permitted.

(Ord. CS-226 § I, 2013; Ord. CS-261 § IV, 2014)

#### **§ 21.41.080. Sign design standards.**

Each permanent approved sign shall meet the following design standards.

- A. Colors. For commercial messages on signs, fluorescent, "Day-Glo" and similar colors shall not be used.

B. Materials.

1. All permanent signs shall be constructed of durable materials, which are compatible in kind and/or appearance to the building supporting or identified by the sign.
2. Such materials may include, but are not limited to:
  - a. Ceramic tile,
  - b. Sandblasted, hand carved or routed wood,
  - c. Channel lettering,
  - d. Concrete, stucco or stone monument signs with recessed or raised lettering.

C. Sign Location.

1. Wall signs must be located below the roofline on structures with pitched roofs. However, wall signs can be located on the parapet of a flat roofed building. Wall signs are not allowed on any equipment enclosure located above the roofline.
  2. Directional signs shall be located to facilitate traffic internal to the site.
- D. Relationship to Buildings. Each permanent commercial message sign located upon a premises with more than one main building, such as a commercial, office or industrial project, shall be designed to incorporate the materials common or similar to all buildings.
- E. Relationship to Other Signs. Where there is more than one sign on a lot, building or project site, all permanent signs displaying a commercial message shall have designs which similarly treat or incorporate the following design elements:
1. Type of construction materials;
  2. Sign/letter color and style of copy;
  3. Method used for supporting sign (i.e., wall or ground base);
  4. Sign cabinet or other configuration of sign area;
  5. Illumination; and
  6. Location.
- F. Relationship to Streets. Signs shall be designed and located so as not to interfere with the unobstructed clear view of the public right-of-way and nearby traffic regulatory signs of any pedestrian, bicyclist or motor vehicle driver.
- G. Sight Distance. No sign or sign structure shall be placed or constructed so that it impairs the city's sight distance requirements, per City Engineering standards, at any public or private street intersection or driveway.
- H. Sign Illumination.
1. Illuminated wall signs are prohibited on any building elevation that faces and is located within three hundred feet of any property line that adjoins residentially zoned property.

2. Illumination from or upon any sign shall be shaded, shielded, directed or reduced so as to minimize light spillage onto the public right-of-way or adjacent properties.
  3. Externally illuminated signs shall be lighted by screened or hidden light sources.
  4. Free-standing and building-mounted signs shall either be non-illuminated or externally illuminated, except for signs with opaque backgrounds which give the appearance of individual channel letters and/or changeable copy signs.
- I. Logos and Graphics. Corporate logos and graphics may be used in conjunction with allowed signage. Logos, graphics and trademarks are included in total sign area, and are subject to sign height standards, but are not subject to sign letter height standards.
- J. Landscaping. Each monument and pole sign shall include landscaping around the base of the sign, at a minimum ratio of two square feet for every one square foot of sign area, so as to protect the sign from vehicles, improve the appearance of the installation and screen light fixtures and other appurtenances.

(Ord. CS-226 § I, 2013)

**§ 21.41.090. Coastal zone sign standards.**

- A. The following sign restrictions apply to properties in the coastal zone except the Agua Hedionda Lagoon and Village-Barrio segments. If there is a conflict between the coastal zone sign standards of this section and any regulations of this chapter, the standards of this section shall prevail. Otherwise, within the coastal zone, the sign regulations of this chapter shall apply.
1. Each business or establishment shall be entitled to one façade sign.
  2. Each shopping complex shall have only one directory sign which shall not exceed fifteen feet in height, including mounding.
  3. Monument sign height including mounding shall not exceed eight feet and shall apply where three or fewer commercial establishments exist on a parcel.
  4. Tall freestanding and roof signs shall not be allowed.
  5. Off-premises signs shall not be allowed.

(Ord. CS-226 § I, 2013; Ord. CS-261 § V, 2014; Ord. CS-334 § 8, 2018)

### § 21.41.095. Permitted permanent signs.

Table B states the criteria for a permit for permanent signs for each type of development and/or corresponding zones. In addition to the type of sign permitted, Table B provides the maximum number, maximum sign area, maximum sign height and letter height, permitted location and other standards.

Table B

#### Permanent Signs Permitted by Type of Development and Zone With a Sign Permit

Type of Development and/or Zone	Type of Sign	Maximum Number of Signs	Maximum Sign Area	Maximum Sign/Letter Height	Location	Additional Sign Standards— See Sections 21.41.070—21.41.090 and those listed below
Single Family Residential Lots	See Section 21.41.100, Permitted Temporary Signs					
	See Section 21.41.040, Signs on Private Property Not Requiring a Sign Permit					
Residential Subdivisions, Condominiums, Apartment Projects and Mobile Home Parks	Monument	1 per project entrance	60 square feet per sign	6 feet above average grade/24 inches	Driveway entrance or at other strategic location	(See Note 1 below)
	Directory Signs - Wall Mounted or Freestanding	1 per building entrance	6 square feet per sign	6 feet above average grade	Signs are to be located and oriented to direct visitors upon entry into the project or building	

**Table B**  
**Permanent Signs Permitted by Type of Development and Zone With a Sign Permit**

Type of Development and/or Zone	Type of Sign	Maximum Number of Signs	Maximum Sign Area	Maximum Sign/Letter Height	Location	Additional Sign Standards— See Sections <b>21.41.070—21.41.090 and those listed below</b>
Commercial Centers and Freestanding Commercial Buildings (located within the C-1, C-2, C-L or C-T zones)	Monument	1 per driveway entrance	60 square feet per sign	6 feet above average grade/24 inches	Driveway entrance or at other strategic location	(See Note 1 below)
	Wall, Fascia or Awning	No maximum number	Total sign area for all wall, fascia or awning signs shall not exceed 1 sq. ft. per each lineal foot of building frontage	Varies/Tenant Leased Space: < 2,500 square feet: 24 inches; 2,500—10,000 square feet: 30 inches; 10,001—50,000 square feet: 36 inches; > 50,000—100,000 square feet: 48 inches; >100,000 square feet: 60 inches	1. Fascia Sign: Centered on Fascia; 2. Awning sign: over doors or windows	The length of any sign shall not exceed 75% of the length of the building frontage or lease space to which the sign pertains (See Notes 2, 3 and 6 below).
	Suspended or Projecting	1 per establishment	6 square feet per sign	Minimum 8-foot clearance from finished grade to bottom of sign	Suspended - Underside of walkway overhang at 90 degrees to the business establishment	Suspended may not be internally illuminated
	Directional Sign	3 per driveway entrance	6 square feet per sign	6 feet above average grade	Should be located to facilitate traffic internal to the site	

**Table B**  
**Permanent Signs Permitted by Type of Development and Zone With a Sign Permit**

Type of Development and/or Zone	Type of Sign	Maximum Number of Signs	Maximum Sign Area	Maximum Sign/Letter Height	Location	Additional Sign Standards—See Sections <b>21.41.070—21.41.090 and those listed below</b>
Drive-Thru Facilities	Reader Board Wall or Monument	Restaurants: 2 per existing establishment; other non-restaurant drive-thru facilities: 1 per establishment	24 square feet per sign	6 feet above average grade		Reader boards are allowed in addition to other signs permitted for commercial centers and freestanding commercial buildings.
Regional Commercial Center	Pole	1 per center	150 square feet per sign	35 feet above average grade	Primary project entrance or in a location approved by the City Planner	Pole sign is allowed in addition to other signs permitted for commercial centers.
Office, Industrial and Commercial Uses in the R-P, O, C-M, P-M, and M Zones	Monument	1 per lot	60 square feet per sign	6 feet above average grade/24 inches	Primary driveway entrance or at other strategic location	(See Notes 1 and 5 below)
	Directional Signs	3 per driveway entrance	6 square feet per sign	6 feet above average grade	Should be located to facilitate traffic internal to the site	
	Wall	Buildings less than 50,000 square feet in area: 2 signs per building (1 sign per building elevation)	50 square feet per sign	24 inches		(See Notes 3 through 6 below)
		Buildings 50,000—100,000 square feet in area: 4 signs per building (2 signs per building elevation)	60 square feet per sign	36 inches		

**Table B**  
**Permanent Signs Permitted by Type of Development and Zone With a Sign Permit**

Type of Development and/or Zone	Type of Sign	Maximum Number of Signs	Maximum Sign Area	Maximum Sign/Letter Height	Location	Additional Sign Standards—See Sections <b>21.41.070—21.41.090 and those listed below</b>
		Buildings greater than 100,000 square feet in area: 6 signs per building (2 signs per building elevation)	70 square feet per sign	48 inches		
Office or Industrial Establishment with a Separate Building Entrance in a Multitenant Building	Wall or Fascia	1 per establishment	8 square feet per sign	12 inches	Directly above entrance	Allowed in addition to wall signs permitted for buildings in the R-P, O, C-M, P-M and M zones
Ground Floor Commercial Establishment with a Separate Building Entrance in a Multitenant Building Located in the R-P, O, C-M, P-M and M Zones	Wall or Fascia	1 per establishment	20 square feet per sign	18 inches	1. Wall Sign: not permitted above the plate height elevation of the ground floor; 2. Fascia Sign: centered on fascia, directly above establishment entrance	
Commercial Establishment with a Separate Building Entrance in a Multitenant Building Located in the R-P, O, C-M, P-M and M Zones	Suspended	1 per establishment	5 square feet per sign	Minimum 8-foot clearance from finished grade to bottom of sign	Underside of walkway overhang at 90 degrees to the commercial business establishment	May not be internally illuminated
Office/Industrial Parks	Park Identification Sign	1 per each park entrance that is located along an arterial road	75 square feet per sign	6 feet above average grade/24 inches	Near primary park entrances	(See Note 1 below)

**Table B**  
**Permanent Signs Permitted by Type of Development and Zone With a Sign Permit**

Type of Development and/or Zone	Type of Sign	Maximum Number of Signs	Maximum Sign Area	Maximum Sign/Letter Height	Location	Additional Sign Standards—See Sections <b>21.41.070—21.41.090 and those listed below</b>
Hotels/Motels	Monument	1 per driveway entrance	60 square feet per sign	6 feet above average grade/24 inches	Primary project entrance or at other strategic location	(See Note 1 below)
	Wall or Fascia or Awning	2 Wall or Fascia or Awning Signs per street frontage	Total sign area for all wall, fascia or awning signs (per building) shall not exceed 1 square foot per each lineal foot of building frontage	24 inches	1. Fascia Sign: Centered on Fascia; 2. Awning Sign: Over doors or windows	(See Notes 2, 3, and 6 below)
	Directional	3 per driveway entrance	6 square feet per sign	6 feet above average grade	Should be located to facilitate traffic internal to the site	
Professional Care Facility	Monument	1 per driveway entrance	60 square feet per sign	6 feet above average grade/24 inches	Primary project entrance or at other strategic location	(See Note 1 below)
	Wall	1 per street frontage	Total wall sign area shall not exceed 1 square foot per each lineal foot of building frontage	24 inches		(See Notes 3 and 6 below)
	Directional	3 per driveway entrance	6 square feet per sign	6 feet above average grade	Should be located to facilitate traffic internal to the site	
Resort Hotels	Monument	1 per driveway entrance	60 square feet per sign	6 feet above average grade/24 inches	Primary project entrance or at other strategic location	(See Note 1 below)

**Table B**  
**Permanent Signs Permitted by Type of Development and Zone With a Sign Permit**

Type of Development and/or Zone	Type of Sign	Maximum Number of Signs	Maximum Sign Area	Maximum Sign/Letter Height	Location	Additional Sign Standards—See Sections <b>21.41.070—21.41.090 and those listed below</b>
	Wall	1 per street frontage	60 square feet per sign; total wall sign area shall not exceed 1 square foot per each lineal foot of building frontage	36 inches		(See Notes 2, 3 and 6 below)
	Directional	3 per driveway entrance	6 square feet per sign	6 feet above average grade	Should be located to facilitate traffic internal to the site	
Gas/Service Stations	Monument	1 per street frontage	60 square feet per sign	6 feet above average grade/24 inches	Primary project entrance or at other strategic location	(See Note 1 below) Sign may include motor fuel prices as required by state law
	Wall	1 per street frontage	30 square feet per sign	24 inches		(See Notes 3 and 6 below)
	Canopy	4 per site	10 square feet per sign	18 inches	Attached to canopy, not to extend beyond or above the canopy	Must be designed as an integral part of the canopy structure
	Fuel Pump	1 per fuel pump	2.5 square feet per sign		Must be attached to the fuel pump	
	Pole (freeway service stations only)	1 per site	50 square feet per sign	35 feet above average grade/36 inches		Only permitted at freeway service stations
Stand-alone Theater or Cinema	Wall	1 per street frontage	Total sign area for all wall signs shall not exceed 1 square feet per each lineal foot of building frontage	60 inches		(See Notes 3 and 6 below) See Commercial centers for permitted signage for a theater that is not a stand-alone establishment

**Table B**  
**Permanent Signs Permitted by Type of Development and Zone With a Sign Permit**

Type of Development and/or Zone	Type of Sign	Maximum Number of Signs	Maximum Sign Area	Maximum Sign/Letter Height	Location	Additional Sign Standards—See Sections <b>21.41.070—21.41.090 and those listed below</b>
	Suspended or Projecting	1 per site	6 square feet per sign	Minimum 8-foot clearance from finished grade to bottom of sign	Suspended - Underside of walkway overhang at 90 degrees to the building	Suspended may not be internally illuminated
	Attraction Board (Pole or Marquee)	1 per site	100 square feet plus 10 square feet per screen or stage over 1, up to a maximum of 160 square feet per sign	Maximum pole sign height: 35 feet above average grade/24 inches; Marquee: 24 inches	Marquee signs must be building mounted	
	Program Poster	1 per screen or stage	6 square feet per sign		Must be building mounted	
Government, Church, or Private School	Wall	1 per street frontage	40 square feet per sign; total wall sign area shall not exceed 1 square foot per each lineal foot of building frontage	24 inches		(See Note 6 below)
	Monument	1 per street frontage	60 square feet per sign	6 feet above average grade/24 inches	Primary project entrance or at other strategic location	(See Note 1 below)
	Directional	3 per driveway entrance	6 square feet per sign	6 feet above average grade	Should be located to facilitate traffic internal to the site	

**Table B**  
**Permanent Signs Permitted by Type of Development and Zone With a Sign Permit**

Type of Development and/or Zone	Type of Sign	Maximum Number of Signs	Maximum Sign Area	Maximum Sign/Letter Height	Location	Additional Sign Standards— See Sections <b>21.41.070—21.41.090 and those listed below</b>
Public Parks, Playgrounds, Recreational Facilities, Nature/ Interpretive Centers and Similar Uses	Monument	1 per street frontage	60 square feet per sign	6 feet above average grade/24 inches	Primary project entrance or at other strategic location	(See Notes 1, 3 and 6 below)
	Wall	1 per street frontage	30 square feet per sign	24 inches		
	Directional	3 per driveway entrance	6 square feet per sign	6 feet above average grade	Should be located to facilitate traffic internal to the site	
Produce/Flower Stand in the E-A, R-A and L-C Zones	Wall or Freestanding	1 per produce/flower stand	32 square feet per sign	Freestanding: 8 feet above average grade/24 inches	Freestanding: Primary project entrance	Shall be displayed only during the time period the produce/flowers are available for sale on the property
Nursery, Greenhouse, Packing Shed, Stable, Riding Academy and Similar Uses	Freestanding	1 per site	32 square feet per sign	8 feet above average grade/24 inches	Primary project entrance or at other strategic location	May not be illuminated
P-U zone	Monument	1 per street frontage (2 signs maximum)	60 square feet per sign	6 feet above average grade/24 inches	Primary project entrance or at other strategic location	(See Note 1 below)
	Wall	1 per street frontage (2 signs maximum)	40 square feet per sign	24 inches		(See Note 6 below)
	Directional	3 per driveway entrance	6 square feet per sign	6 feet above average grade	Should be located to facilitate traffic internal to the site	

**Table B**

Type of Development and/or Zone	Type of Sign	Maximum Number of Signs	Maximum Sign Area	Maximum Sign/Letter Height	Location	Additional Sign Standards—See Sections <b>21.41.070—21.41.090 and those listed below</b>
OS zone, except for uses listed elsewhere in this table	See Section 21.41.100, Permitted Temporary Signs					

**Notes:**

1. Monument signs on entry walls (e.g., curved, angled or similar walls integrated into a project entry or perimeter) are permitted. In cases where entry walls are located on both sides of an entry drive, one sign on each wall (each at the maximum square footage) is permitted.
2. Building elevations on restaurants, hotels or motels which front along or are within three hundred feet of the right-of-way of and visible from Interstate 5, State Route 78, Palomar Airport Road or El Camino Real shall not have more than one wall sign along those elevations.
3. Illuminated wall signs are prohibited on any building elevation that faces and is within three hundred feet of any property line that adjoins residentially zoned property.
4. Building elevations which front along or are within three hundred feet of the right-of-way and visible from Interstate 5, State Route 78, Palomar Airport Road or El Camino Real shall not have more than one wall sign along those elevations.  
Notwithstanding the above, two wall signs along a building elevation that fronts the above-noted corridors may be permitted under the following circumstances:
  - (a) A building elevation must have a minimum of one hundred fifty lineal feet in order to have more than one wall sign along that elevation.
  - (b) The minimum spacing between wall signs along an elevation shall not be less than seventy-five feet.
  - (c) The cumulative length of all wall sign(s) along any building elevation shall not exceed one-third of the length of that same elevation.
5. These sign standards supersede the sign standards for the C-M, M and P-M zoned properties that are located within Area 4 of the El Camino Real corridor development standards.
6. Wall signs must be located below the roof line on structures with pitched roofs. However, wall signs can be located on the parapet of a flat roofed building. Wall signs are not allowed on any equipment enclosure located above the roof line.

(Ord. CS-226 § I, 2013; Ord. CS-261 § VI, 2014)

### § 21.41.100. Permitted temporary signs.

Table C provides a listing of all temporary signs permitted for each type of development and corresponding zones with a sign permit. In addition to the type of sign permitted, Table C provides the maximum number, maximum sign area per sign, maximum sign height and letter height, permitted location and other provisions.

**Table C**  
**Temporary Signs Permitted by Type of Development and Zone With a Sign Permit**

Type of Development and Zone	Type of Sign	Maximum Number of Signs	Maximum Sign Area	Maximum Sign/Letter Height	Location	Remarks
Projects Which Are Under Construction in All Zones	Wall or Freestanding	1 per project	32 square feet per sign	Freestanding: 8 feet above average grade	Must be located on the project site; may not project into the public right-of-way	1. May not be illuminated; 2. shall be removed prior to the granting of the last certificate of occupancy by the city
Real Property or Project Which is for Rent, Sale or Lease - in All Zones (Owner's Real Property or Owned by Others With Owner's Consent, per California Civil Code 713)	Freestanding	1 per property	Residential projects of 2 to 10 units: 12 square feet; residential projects of more than 10 units, commercial, office and industrial properties: 32 square feet per sign	8 feet above average grade	Must be located on the property; may not project into the public right-of-way	1. May not be illuminated; 2. residential projects: shall be removed from the property within 15 days from the date that all the properties are sold or no longer for sale, whichever occurs first; 3. commercial and office/ industrial properties: shall be removed from the building or property within 15 days after the sale, rental or lease
All Commercial, Office and Industrial Zones	Interim Temporary Sign	1 per establishment	30 square feet per sign	Attached to monument or wall at the establishment location		1. Permitted only for establishments waiting for permanent sign construction and installation; 2. approval limited to 45 days maximum or when the permanent sign is installed whichever occurs first; 3. a city sign permit for the permanent sign must first be issued

**Table C**  
**Temporary Signs Permitted by Type of Development and Zone With a Sign Permit**

Type of Development and Zone	Type of Sign	Maximum Number of Signs	Maximum Sign Area	Maximum Sign/Letter Height	Location	Remarks
All Commercial, Office, and Industrial Zones	Banner or Freestanding Signs with a temporary seasonal sales location permit	1 per street frontage	30 square feet per banner or freestanding sign		Must be located on the site of the seasonal sales event	Limited to the period of time specified in the temporary seasonal sales location permit
Any Public or Private Property with a Special Events Permit (See C.M.C. Chapter 8.17)						
Community Event at Public Parks Recreational Facilities					Pursuant to other provisions of the Carlsbad Municipal Code	

(Ord. CS-226 § I, 2013)

**§ 21.41.110. Construction and maintenance.**

- A. Construction. Every sign, and all parts, portions and materials thereof, shall be manufactured, assembled and erected in compliance with all applicable state, federal and city regulations and the latest adopted versions of the Building Code and the National Electric Code.
- B. Maintenance.
  - 1. Every sign and all parts, portions and materials shall be maintained and kept in good repair.
  - 2. The display surface of all signs shall be kept clean, neatly painted and free from rust, cracking, peeling, corrosion or other states of disrepair.

(Ord. CS-226 § I, 2013)

**§ 21.41.120. Removal of signs.**

- A. Any sign which is unsafe, as defined herein, or which does not conform to Uniform Building Code and National Electric Code standards, or installed or placed in the public right-of-way or on city property contrary to other provisions of the Carlsbad Municipal Code, may be removed by any officer or employee of the city designated to do so without prior notice. Alternatively, the city may issue a notice of nonconformance and give the sign owner and/or the property owner fifteen days in which to cure the nonconformance.
- B. Any other sign that is in violation of the provisions of this chapter must be removed by the permittee, owner or person in charge of the sign upon written notice by the city. Such written notice shall specify the nature of the violation, order the cessation thereof and require either the removal of the sign or the execution of remedial work in the time and in the manner specified by the notice.
- C. The time for removal or repair shall not be less than thirty calendar days from the date of mailing the notice for permanent signs and not less than fifteen calendar days for temporary signs.
- D. Within ten days of the mailing of the notice, the permittee, owner or person in charge of the sign may request a hearing before the City Planner to determine whether the sign was erected or maintained in violation of this chapter. Such request must be made in writing and received by the city within the ten days after mailing of notice.
- E. Upon receipt of a written request for a hearing, the City Planner shall schedule a hearing and send a written notice by first class mail of the time, place and date for the hearing, which shall be no later than thirty days after the date of receipt of the written request, unless the party responsible for the sign requests a later hearing date. The time for compliance with the original order shall be stayed during the pendency of the hearing. The City Planner will notify the appellant of the decision to affirm, modify or revoke the order to remove or repair within ten days of the conclusion of the hearing; failure to give such notice of decision shall result in the withdrawal of the notice of violation, but shall not prevent a new notice of violation being issued for a different time period from that specified in the original notice.
- F. Whenever the permittee, owner or person in charge of the sign fails to comply with an order of the City Planner requiring compliance with this chapter, any expense of such inaction shall be charged to the permittee, owner or person in charge of the sign. Such amount shall constitute a debt owed to the city. No permit shall thereafter be issued to any permittee, owner or person in charge of the sign who fails to pay such costs. Any costs, including attorney's fees, incurred by the city in collection of the costs shall be added to the amount of the debt.

- G. Every person billed may request a hearing regarding the accuracy of the amount billed. Following the hearing, the City Planner shall, within ten days of the conclusion of the hearing, notify the person billed of any adjustment to the bill or any determination not to make an adjustment. This notification shall specify the date by which such bill shall be paid. Nonpayment becomes a lien on the property.  
(Ord. CS-226 § I, 2013)

**§ 21.41.125. Appeal of denial or revocation.**

- A. Any person seeking to appeal a decision of the City Planner granting or denying an application for issuance of, or renewal of, a sign permit, revoking a permit or ordering the removal of a sign, must file a written notice of appeal with the City Planner no later than ten days after the date of the notice of the decision. The notice shall state, with specificity, the factual and legal basis of the appeal. The City Planner shall expeditiously schedule a hearing before the Planning Commission and notify the appellant, in writing, of the day, time and location of the hearing, which shall be held not later than thirty days after the notice of appeal is received by the city, unless time is waived by the appellant. The time for compliance of any original order shall be stayed during the pendency of the hearing before the Planning Commission.
- B. The Planning Commission shall hold a hearing and provide the appellant with a written decision within ten days of the conclusion of the hearing. If the approval, denial, revocation or removal order is affirmed on review, the appellant may file a written notice of appeal to the City Council with the City Clerk no later than ten days after the date of the notice of the decision. The City Clerk shall then schedule a hearing before the City Council, which shall be held within thirty days of the receipt of the notice of appeal, and notify the appellant, in writing, of the day, time, and location of the hearing; however, the hearing may be held later than thirty days upon the request or concurrence of the appellant. The time for compliance of any original order shall be stayed during the pendency of the hearing before the City Council.

The City Council shall provide the appellant with a written decision within ten days of the conclusion of the hearing. Any person dissatisfied with the City Council's decision may seek prompt judicial review pursuant to California law.

(Ord. CS-226 § I, 2013)

**§ 21.41.130. Nonconforming signs.**

- A. Except for normal repair and maintenance and any modification required for NEC compliance, no non-conforming sign shall be expanded, structurally or electrically altered (not including a change in sign face or sign copy), moved or relocated, unless it is brought into conformance with all current provisions of this chapter.
- B. When a sign, which was in compliance with all applicable laws in effect at the time it was originally erected, is physically damaged, whether by vandalism, forces of nature or other causes, the sign may be repaired or restored to its original size, shape, height, orientation and message; however, the repair or restoration must be done in a manner which complies with current building and electrical codes and/or the requirements of any applicable sign program.

(Ord. CS-226 § I, 2013)

**§ 21.41.140. Remedies and penalties.**

Any sign, which has been properly removed under this chapter, may be returned to the owner upon payment to the city of the costs of removal. If no timely request is made for hearing or if no demand is

made for the return of the sign removed, the city is authorized to destroy or dispose of the removed sign not earlier than thirty days after the removal of such sign.

(Ord. CS-226 § I, 2013)

#### **§ 21.41.150. Violations.**

A. It is unlawful for any person to:

1. Install, mount, affix, create, erect, display or maintain any sign in a manner that is inconsistent with this chapter or any permit for such sign;
2. Install, mount, affix, create, erect, display or maintain any sign requiring a permit without such a permit; or
3. Fail to remove any sign which the city has ordered to be removed for being in violation of this chapter.

B. Violations of any provisions of this chapter shall be subject to the enforcement remedies and penalties provided for herein and in Chapter 1.08 of this code. The city may also pursue any civil remedies provided by law, including injunctive relief, as to signs not in conformance with this chapter:

1. Each day of a continued violation shall be considered a separate violation when applying the penalty portions of this chapter.
2. Each sign installed, created, erected or maintained in violation of this chapter shall be considered a separate violation when applying the penalty portions of this chapter.

(Ord. CS-226 § I, 2013)

#### **§ 21.41.160. Severability.**

If any section, subsection, sentence, clause phrase or part of this chapter is for any reason found by a court of competent jurisdiction to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this chapter, which shall be in full force and effect. The City Council hereby declares that it would have adopted this chapter with each section, subsection, sentence, clause, phrase or part thereof irrespective of the fact that any one or more sections, subsections, sentences, clauses, phrases or parts be declared invalid or unconstitutional.

(Ord. CS-226 § I, 2013)

## CHAPTER 21.42 MINOR CONDITIONAL USE PERMITS AND CONDITIONAL USE PERMITS

### **§ 21.42.010. Purpose.**

The purpose of the minor conditional use permit or conditional use permit is to allow special consideration for certain uses to be located in zones other than those in which they are classified as permitted because of their particular characteristics.

Such uses may only be suitable in specific locations in a zoning classification or only if such uses are designed or laid out in a particular manner on the site or are subjected to specific conditions to assure compatibility within the zone and its surroundings. Since it would be impractical and detrimental to the peace, health, safety and general welfare to permit such uses in all areas of the city in any one or more zones, the peace, health, safety and general welfare will be promoted if such uses are authorized only by minor conditional use permit or conditional use permit in accordance with the standards hereinafter set forth.

The privileges and conditions of a minor conditional use permit or conditional use permit are a covenant that runs with the land, and, in addition to binding the permittee, bind each successor in interest.

(Ord. NS-791 § 1, 2006)

### **§ 21.42.030. Findings of fact.**

- A. A minor conditional use permit or conditional use permit may be granted only if the following facts are found to exist in regard thereto:
  1. That the requested use is necessary or desirable for the development of the community, and is in harmony with the various elements and objectives of the general plan, including, if applicable, the certified local coastal program, specific plan or master plan;
  2. That the requested use is not detrimental to existing uses or to uses specifically permitted in the zone in which the proposed use is to be located;
  3. That the site for the proposed conditional use is adequate in size and shape to accommodate the yards, setbacks, walls, fences, parking, loading facilities, buffer areas, landscaping and other development features prescribed in this code and required by the City Planner, Planning Commission or City Council, in order to integrate the use with other uses in the neighborhood;
  4. That the street system serving the proposed use is adequate to properly handle all traffic generated by the proposed use.
- B. When the subject of the application for minor conditional use permit or conditional use permit is protected by the First Amendment to the United States Constitution, or Article I, Section 2 of the California Constitution, then only the definite objective guidelines and standards of this chapter and of any other chapter of this code applicable to the property shall apply. The general health, safety and welfare requirements of this subsection shall not apply and any requirements of this code which may not be constitutionally applied shall be severed from the requirements which may be constitutionally applied and those applicable shall remain in full force and effect.

(Ord. NS-791 § 1, 2006; Ord. CS-164 § 10, 2011; Ord. CS-178 § LXXII, 2012)

### **§ 21.42.040. Conditions which may be added prior to granting permit.**

- A. In granting a minor conditional use permit or conditional use permit, any and all conditions necessary to protect the public health, safety and welfare, may be added thereto, including, but not limited to, the following:
1. Regulation of use;
  2. Special yards, open space, and buffers;
  3. Fences and walls;
  4. Dedicating and improving public improvements;
  5. Regulation of points of vehicular ingress and egress;
  6. Requiring placement and maintenance of landscaping;
  7. Regulation of signage, noise, vibration, odors, etc.;
  8. Regulation of time for certain uses on the subject property;
  9. Time schedule for developing the proposed use;
  10. Time period during which the proposed use may be continued;
  11. Any other conditions necessary for the development of the city in an orderly and efficient manner and in conformity with the intent and purpose set forth in this chapter.

(Ord. NS-791 § 1, 2006)

#### **§ 21.42.050. Application and fees.**

- A. Application for a minor conditional use permit or conditional use permit may be made by the owner of the property affected or the authorized agent of the owner. The application shall:
1. Be made in writing on a form provided by the City Planner.
  2. State fully the circumstances and conditions relied upon as grounds for the application; and
  3. Shall be accompanied by adequate plans, a legal description of the property involved and all other materials as specified by the City Planner.
- B. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.

(Ord. NS-791 § 1, 2006; Ord. CS-164 § 11, 2011; Ord. CS-178 § LXXIII, 2012)

#### **§ 21.42.060. Notices and hearings.**

- A. Notice of an application for a minor conditional use permit shall be given pursuant to the provisions of Sections 21.54.060.B and 21.54.061 of this title.
- B. Notice of an application for a conditional use permit shall be given pursuant to the provisions of Sections 21.54.060.A and 21.54.061 of this title.

(Ord. NS-791 § 1, 2006; Ord. CS-164 § 10, 2011; Ord. CS-178 § LXXIII, 2012)

#### **§ 21.42.070. Decision-making authority.**

A. Applications for minor conditional use permits or conditional use permits shall be acted upon in accordance with the following. Please refer to the use regulation table in each zone to determine whether the conditional use permit is decided by process one, two or three.

1. Process One—Minor Conditional Use Permit.

- a. An application for a minor conditional use permit may be approved, conditionally approved or denied by the City Planner based upon his/her review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the administrative hearing, if one is conducted pursuant to the provisions of Section 21.54.060.B.2 of this title.
- b. The City Planner may approve or conditionally approve the minor conditional use permit if all of the findings of fact in Section 21.42.030 of this title are found to exist.

2. Process Two.

- a. An application for a conditional use permit subject to process two may be approved, conditionally approved or denied by the Planning Commission based upon its review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the public hearing.
- b. The Planning Commission shall hear the matter, and may approve or conditionally approve the conditional use permit if all of the findings of fact in Section 21.42.030 of this title are found to exist.

3. Process Three.

- a. An application for a conditional use permit subject to process three may be approved, conditionally approved or denied by the City Council based upon its review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the public hearing.
- b. Before the City Council decision, the Planning Commission shall hear and consider the application for the conditional use permit and shall prepare a recommendation and findings for the City Council. The action of the Planning Commission shall be filed with the City Clerk, and a copy shall be mailed to the applicant.
- c. The City Council shall hear the matter, and may approve or conditionally approve the conditional use permit if all of the findings of fact in Section 21.42.030 of this title are found to exist.

(Ord. NS-791 § 1, 2006; Ord. CS-164 § 10, 2011; Ord. CS-178 § LXXIII, 2012)

**§ 21.42.080. Announcement of decision and findings of fact.**

When a decision on a minor conditional use permit or conditional use permit is made pursuant to this chapter, the decision-making authority shall announce its decision in writing in accordance with the provisions of Section 21.54.120 of this title.

(Ord. NS-791 § 1, 2006; Ord. CS-164 § 10, 2011; Ord. CS-178 § LXXIII, 2012)

**§ 21.42.100. Effective date and appeals.**

A. Decisions of the City Planner on minor conditional use permits shall become effective unless

appealed in accordance with the provisions of Section 21.54.140 of this title.

- B. Decisions of the Planning Commission on conditional use permits shall become effective unless appealed in accordance with the provisions of Section 21.54.150 of this title.

- C. Decisions of the City Council on conditional use permits are final, conclusive and shall be effective upon the date specified in the announcement of decision.

(Ord. NS-791 § 1, 2006; Ord. CS-164 § 10, 2011; Ord. CS-178 § LXXIII, 2012)

**§ 21.42.110. Expiration, extensions and amendments.**

- A. Expiration of Permit if Not Exercised. The expiration period for an approved minor conditional use permit or conditional use permit shall be as specified in Section 21.58.030 of this title.
- B. Extension of Permit if Not Exercised. The expiration period for an approved minor conditional use permit or conditional use permit may be extended pursuant to Section 21.58.040 of this title.
- C. Expiration of Permit. Such rights and privileges granted under a minor conditional use permit or conditional use permit shall also expire at such time as the City Planner/Planning Commission/City Council may designate in the approval of the minor conditional use permit or conditional use permit.
- D. All existing conditional use permits approved prior to February 21, 2006, which include an expiration date and a requirement to extend the permit, may be hereby approved administratively by the City Planner in perpetuity without the requirement to extend the conditional use permit.
- E. An approved minor conditional use permit or conditional use permit may be amended pursuant to the provisions of Section 21.54.125 of this title.

(Ord. NS-791 § 1, 2006; Ord. CS-164 § 10, 2011; Ord. CS-178 § LXXIII, 2012)

**§ 21.42.120. Revocation.**

- A. The City Planner/Planning Commission/City Council shall have continuing jurisdiction over any minor conditional use permit or conditional use permit.
- B. To consider the revocation of a minor conditional use permit, the City Planner shall hold an administrative hearing after giving notice pursuant to the provisions of Sections 21.54.060.B and 21.54.061 of this title.
- C. To consider the revocation of a conditional use permit, the Planning Commission/City Council shall hold a public hearing after giving notice pursuant to the provisions of Sections 21.54.060.A and 21.54.061 of this title.
- D. The City Planner/Planning Commission/City Council may revoke and terminate the minor conditional use permit or conditional use permit in whole or in part, reaffirm the minor conditional use permit or conditional use permit, modify the conditions or impose new conditions.
- E. Revocation actions of the City Planner/Planning Commission are appealable pursuant to Sections 21.54.140 and 21.54.150 of this title.
- F. A minor conditional use permit or conditional use permit may be revoked or conditions modified or added on any one or more of the following grounds:
1. That the minor conditional use permit or conditional use permit was obtained by fraud or misrepresentation;

2. That the use for which such approval is granted is not being exercised;
3. That the minor conditional use permit or conditional use permit is being or recently has been exercised contrary to any of the terms or conditions of approval;
4. That the use for which such approval was granted has ceased to exist or has been suspended for one year or more;
5. That the use is in violation of any statute, ordinance, law or regulation;
6. That the use permitted by the minor conditional use permit or conditional use permit is being or has been so exercised as to be detrimental to the public health, safety or welfare or so as to constitute a nuisance.

(Ord. NS-791 § 1, 2006; Ord. CS-164 § 10, 2011; Ord. CS-178 § LXXIII, 2012)

#### **§ 21.42.140. Development standards and special regulations.**

- A. The following development standards applicable to the particular zone in which any minor conditional use or conditional use is proposed to be located shall prevail, unless in the findings and conditions recited in the letter or resolution dealing with each such matter, specific exemptions are made with respect thereto:
  1. Front and side yard setbacks;
  2. Building height;
  3. Lot area; and
  4. Off-street parking.
- B. The minor conditional uses and conditional uses identified in this section shall be subject to the following special regulations:
  5. Apiary. All hives or boxes housing bees shall be placed at least four hundred feet from any street, school, park, residential zone, or dwelling or place of human habitation other than that occupied by the owner or caretaker of the apiary.
  10. Aquaculture Stands. In considering the appropriateness of such facility, the minimum following criteria shall be considered:
    - a. Safe access;
    - b. Adequate parking;
    - c. Location and appearance of structure or facility;
    - d. Appearance and location of signs;
    - e. Compatibility with adjacent uses;
    - f. Scale of operation.
  15. Arcades (Coin-Operated).
    - a. No alcoholic beverages shall be permitted on premises.

- b. All activities shall be conducted within the confines of a structure designed to contain the noise created by such operation.
  - c. An opening shall be provided through which an unobstructed view of the interior of the premises can be obtained from the exterior of the building.
17. Auto Repair. Service bays shall be screened from adjacent properties and public view by a wall, fence, hedge or other appropriate plant or landscape material between the service bay and the property line.
18. Auto Storage/Impound Yards. On-site auto storage areas shall be screened to reduce the view of the auto storage area from surrounding properties and streets. Screening may be accomplished by a combination of walls, fencing, landscaping or berms.
20. Bars and Cocktail Lounges.
- a. An opening shall be provided through which an unobstructed view of the interior of the premises can be obtained from the exterior of the building.
  - b. Parking shall be provided at the rate of not less than one space per fifty square feet of gross floor area.
  - c. Surrounding grounds, including parking areas, shall be maintained in a neat and orderly condition at all times.
  - d. Any structure housing such operation shall meet all applicable code provisions prior to occupancy.
  - e. Licensee or agent shall not permit open containers of alcoholic liquor to be taken from the premise.
  - f. No bar or cocktail lounge shall be located within five hundred feet of any other bar or cocktail lounge.
25. Bed and Breakfast Uses.
- a. All proposed bed and breakfast uses shall be located within a historically or architecturally interesting structure which is located in a scenic or other area of the city with a unique character.
  - b. A resident manager or owner must live at and be involved in the daily operation of the facility. Documents pertaining to the operation and maintenance of such facility shall be submitted for staff approval prior to building permit issuance.
  - c. All bed and breakfast uses shall contain no less than three and no more than eight individually decorated guest rooms. A common room shall be available for social interaction.
  - d. If meals are served other than for guests staying at the facility, then the use shall be subject to the requirements of this code for the establishment of a restaurant.
  - e. Parking spaces shall be provided at a ratio of two spaces for the owner/manager, plus one space for each guest room. Guest parking spaces may be covered or uncovered. One covered parking space shall be provided for the owner/manager unit. No parking is

permitted within the front yard setback.

- f. Exterior lighting shall be designed to limit direct light glare outside of the project site.
- g. No kitchens or other cooking facilities in the guest rooms.
- h. Occupancy of guest units shall be limited to seven days.
- i. The application for a conditional use permit shall include the submittal of an architectural theme, colored elevations and site plan for review.

30. Biological Habitat Preserve.

- a. The biological habitat preserve shall not adversely impact the city's ability to provide public facilities and improvements such as, but not limited to, circulation element roadways, sewer or water infrastructure improvements and drainage improvements, as provided for in the citywide facilities and improvements plan, and the certified local coastal program.
- b. The biological habitat preserve shall be consistent with the city's habitat management plan or agency-approved habitat management plan.
- c. The biological habitat preserve shall be consistent with the city's local coastal program.
- d. A conditional use permit shall not be required when a biological habitat preserve is associated with a development proposal otherwise requiring environmental review and discretionary approval by the city, or a coastal development permit.
- e. Nothing in this section shall be construed as permitting encroachment or impacts to environmentally sensitive habitat areas and wetlands not permitted elsewhere in the certified local coastal program.

35. Bowling Alleys.

- a. No noise shall be audible outside of the structure.
- b. If alcoholic beverages are offered for consumption on site, no open container shall be permitted to be removed from the premises.
- c. Parking requirements for any bar area not meeting the definition of bona fide eating establishment shall be computed at one space per fifty square feet of gross floor area.

40. Campsites (Overnight).

- a. Any campsite shall be located in, adjacent to, or shall be directly associated with existing or planned parks and open space system and shall augment the city's general plan.
- b. An overnight campsite shall comply with all federal, state and local laws.
- c. The site plan for an overnight campsite shall be prepared by a licensed architect or landscape architect.
- d. No person shall occupy any part of an overnight campsite for more than ninety days, in the aggregate, during any given year.
- e. The design of an overnight campsite shall be subject to the following conditions:

- i. Upon site review, a perimeter six-foot fence or wall may be required. Interior six-foot fencing shall be required to isolate major trash collection and storage areas. Such fences or walls shall be of materials compatible with an approved architectural scheme for the total development.
- ii. Primary road surfaces, i.e., two-way throughways, shall be blacktop, asphalt or equivalent road surfaces. One-way throughways with sufficient natural drainage may be surfaced with decomposed granite or equivalent, otherwise hard surface equal to two-way requirements will be required. The remaining travel surfaces (camp pads, footpaths, maintenance roads) will be covered with decomposed granite or equivalent material.
- iii. Associated signs, freestanding or attached to buildings shall be designed and constructed in accordance with city ordinances.
- iv. Unit site densities shall be computed from a slope analysis of the project area: zero to five percent slope = maximum seven units/acre; six to fifteen percent slope = maximum three units/acre; sixteen plus percent slope = permanent open space.
- v. Sites within the campground shall be clearly marked and shall be not less than two thousand five hundred square feet in area.
- vi. Sites utilized by auto-truck campers, trailers, mobile coaches, shall front on a roadway not less than fifteen feet wide and which affords access to a public road.
- vii. Said campground facility shall total not less than ten acres, of which not less than sixty percent of the site shall be utilized for recreation activities, other than buildings, roadways, parking pads, trash or storage areas.
- viii. Camping spaces shall be placed at random throughout the project, so as not to reflect uniformity in appearance or design.
- ix. Exterior lighting shall be a type so as not to make visible a direct light source or cause glare outside the campground facility. Proposed light fixtures shall be subject to review to assure compatibility with the architectural scheme of the total development.
- x. Landscaping and sprinkler system shall be constructed in conformance with a plan prepared by a registered landscape architect and approved by the City Planner prior to building permit issuance. The sprinkler system shall be applied only to those areas that are not in extensive recreational use. Such landscaping shall be in conformance with but not limited to the following minimum standards:
  - (A) The campground site shall be planted with combinations of flowers, turf, groundcovers, shrubs, and trees; said plantings shall be distributed throughout the site to create a park-like effect.
  - (B) Trees shall be planted at a ratio of one for each one thousand square feet of gross land area. Ten percent of all trees shall be of specimen size. The remaining ninety percent shall be equally divided among fifteen, five and one-gallon sizes. Existing on-site trees may be utilized to fulfill tree requirements.
- xi. An architectural concept plan including plans for all structures and fences shall be

adopted for the total development to assure harmony and compatibility of all facilities within the campground.

- xii. Documents pertaining to the maintenance of all facilities including landscaping, and designating those persons responsible for same, shall be submitted for staff approval prior to building permit issuance.
- xiii. Other conditions may be imposed in connection with any conditional use permit issued for a campsite, pursuant to conditional use permit ordinance regulations then in effect.

45. Car Wash.

- a. The site shall be designed to reduce the visual impacts of buildings and waiting cars on surrounding development and from public streets.
- b. All structures shall be architecturally designed to ensure compatibility with surrounding development.
- c. A noise analysis addressing noise impacts on surrounding development may be required.
- d. A traffic study which analyzes the impact of the proposed carwash on adjacent and nearby intersections may be required. The limits of this study shall be established by the City Planner.
- e. Adequate parking and circulation shall be provided on-site to accommodate the proposed use.
- f. Waiting areas for cars shall be screened by a combination of landscaping, fencing and berthing.
- g. All signs shall comply with an approved sign program.
- h. Adequate means of eliminating grease and oils from drainage systems shall be provided.

50. Drive-Thru Restaurants. Drive-thru restaurants are prohibited within all zones in the city, including coastal zone properties. The drive-thru restaurant prohibition applies citywide to all existing and proposed specific plans, master plans, and related amendments. Drive-thru restaurants that are either existing or have received final approvals on January 5, 1998 are allowed to continue in existence subject to the terms and conditions of this code and the conditional use permit or other discretionary permit permitting them and may apply for and may be granted CUP extensions under this code.

55. Drug Paraphernalia Stores.

- a. No drug paraphernalia store shall be located within five hundred feet of any school, church, residence, residential area, children's camp or club, child care facility, community center, library, park, public beach or playground.
- b. No drug paraphernalia store shall have a sign or advertisement which displays, shows or represents drug paraphernalia or any illegal drug including, but not limited to, marijuana, hashish, cocaine, or any controlled substance as defined in the Health and Safety Code of the State of California.

- c. An opening shall be provided through which an unobstructed view of the interior of the premises can be obtained from the exterior of the building.

60. Escort Services.

- a. An opening shall be provided through which an unobstructed view of the interior of the premises can be obtained from the exterior of the building.
- b. No such business shall be located within five hundred feet of any residential zone.
- c. An application for a conditional use permit shall be referred to the Chief of Police, which application shall be under oath, and shall include, among other things, the true names and addresses of all persons financially interested in the business. The past criminal record, if any, of all persons financially interested in the business shall be shown on such application. The term "persons financially interested" shall include the applicant and all persons who share in the profits of the business on the basis of gross or net revenue, including landlords, lessors, lessees, and the owner of the building, fixtures or equipment. The application shall also be accompanied by fingerprints of persons financially interested.

The Chief of Police shall make such investigation as is necessary to determine the background of the applicant and other persons financially interested. The Chief of Police shall report to the Planning Commission his or her findings and recommendations as to whether to approve, deny, or conditionally approve or deny the conditional use permit in writing within one hundred eighty days after the application is submitted. The recommendations of the Police Chief shall be based on the findings and may also be based on his or her judgment of potential enforcement problems and reasons therefor from the proposed establishment. Failure to so report shall be deemed approval of the application. The Planning Commission may deny an application based on the findings and recommendations of the Chief of Police.

65. Gas Stations.

- a. Permits for gas stations shall be granted only in the event one or more of the following factual situations is found to exist:
  - i. The use is to be developed as part of a master-planned recreation area, industrial park, regional or community shopping center.
  - ii. The use is to be developed as part of a freeway-service facility, containing a minimum of two freeway-oriented uses.
  - iii. The use is to be developed as part of a commercial facility that is an integral part of a planned community development.
- b. Development Standards.
  - i. All structures shall be architecturally designed to be compatible with surrounding neighborhood uses.
  - ii. Landscape plans shall consist of the following:
    - (A) Perimeter planter areas of a minimum of six feet in width and planter areas adjacent to the structure;

- (B) Six-inch concrete curb bounding all planter areas;
  - (C) Landscaping including a combination of flowers, shrubs and trees;
  - (D) A sprinkler system providing total and effective coverage to all landscaped areas;
  - (E) A statement delineating a maintenance schedule and responsibility for maintenance of landscaped areas.
- iii. A six-foot-high masonry wall shall be constructed on all sides of the property that adjoin residential or residential-professional zoned property.
  - iv. All exterior lighting shall be shielded or oriented in such way so as not to glare on adjacent properties.
  - v. All displays and storage shall be contained within the main structure.
  - vi. Trash containers shall be contained within a six-foot high enclosure.
  - vii. All signs shall be in conformance with the city's sign ordinance.
  - viii. Full public improvements shall be provided as may be required for public convenience and necessity.
- c. The development standards (see subparagraph b above) shall apply to existing gas stations when renovated structurally, and any newly developed service stations. Provisions regarding location shall not apply to gas stations in existence as of September 15, 1970.
70. Greenhouses (Greater Than Two Thousand Square Feet in Area) and Packing/Sorting Sheds (Greater Than Six Hundred Square Feet in Area).
- a. Lighting shall be directed away from nearby residences and shall not create undue illumination.
  - b. Fans shall not create a noise nuisance to nearby residences.
  - c. Driveways shall be improved with dust control material and be maintained.
  - d. Structure, including panels or coverings, shall be maintained and not become a safety hazard or nuisance to the neighborhood.
  - e. The approving conditional use permit resolution shall contain the time limits of the permit and the provisions for periodic review.
75. Hazardous Waste Facilities. Applications for specified hazardous waste facilities shall be processed in accordance with the requirements of this code and of Chapter 6.5 of Division 20 of the Health and Safety Code commencing with Section 25100. A conditional use permit for a specified hazardous waste facility shall not be approved unless all of the following findings can be made:
- a. That all of the findings required by this chapter for approval of a conditional use permit can be made;
  - b. That the project is consistent with Chapter IX Section C (General Areas) and Appendix

IX-B (General Areas) of the San Diego County hazardous waste management plan; and

- c. That the project is consistent with Chapter IX Section B (Siting Requirements) and Appendix IX-A (Siting Criteria) of the San Diego County hazardous waste management plan.

80. Hotel and Motel Uses.

- a. The application shall include the submittal of an architectural theme, colored elevations and site plan.
- b. When adjoining residentially zoned property, hotels and motels under this section must comply with the following provisions:
  - i. Front yard setbacks, buildings — twenty-five feet or the same distance as existing buildings on adjoining lots; driveway or parking area — ten feet; outdoor recreational amenities — ten feet;
  - ii. A six-foot-high masonry wall shall be constructed along all property lines that are adjacent to residentially zoned properties (except where prohibited by approved driveways).

85. Liquor Stores.

- a. There are specifically designated parking spaces that are sufficient for the use.
- b. Traffic flow on public streets or in parking areas will not cause congestion or be detrimental to other nearby neighborhood commercial uses.
- c. That all measures have been taken to insure compatibility of the use with the surrounding neighborhood.
- d. An opening shall be provided through which an unobstructed view of the interior of the premises can be obtained from the exterior of the building.
- e. Such establishment shall not be located within five hundred feet of any other licensed liquor store.

90. Mobile Buildings.

- a. The mobile building shall be occupied by a permitted or conditional use allowed in the zone in which it is placed.
- b. The occupancy shall be limited to a five-year term, unless extended by the appropriate decision-maker.
- c. Newly placed mobile buildings shall not be installed on permanent foundations.
- d. All mobile buildings shall have wood or stucco siding and must be installed with skirting to screen the chassis, wheels, and temporary foundation system.
- e. All mobile buildings must meet all applicable local, state, and federal codes including, but not limited to, manufacturer's certificate of origin, current and valid registration tags, adequate accessibility for disabled persons, temporary foundation system design and installation, utility connections, and zoning requirements such as building height and

setbacks.

95. Oil and gas facilities (on-shore) including, but not limited to, processing plants, refineries, storage facilities, transfer stations, pipelines, warehouses, offices, tanker terminals, helicopter pads and the like. Such facilities are prohibited except upon findings by the City Council that:
  - a. Approval of the proposed project and facilities will pose no danger to life and property to residents of the neighborhood, community or city;
  - b. Approval of the proposed project will not pose a potential threat of damage or injuries to nearby residents;
  - c. The benefits of the proposed project clearly outweigh the possible adverse environmental effects;
  - d. There are no feasible alternatives to the proposed project; and
  - e. The location and approval of the on-shore facilities at the particular location clearly outweigh any potential harm to public health, safety, peace, morals, comfort and general welfare of persons residing or working in the neighborhood or community and will not be detrimental or injurious to property in the neighborhood, community or to the general welfare of the city.
  - f. Such facilities shall also require a minor site development plan pursuant to Chapter 21.34 of this title.

100. Parks, Public.

- a. All applications for a public park shall include a master park site plan exhibit. The master park site plan exhibit shall include the general location of and maximum anticipated site area and building area of proposed major and accessory park uses (i.e., picnic areas, playfields, playgrounds, athletic fields, swimming pools, tennis/volleyball courts, gymnasiums, clubhouses, restrooms, trails, driveways, parking areas and fences).
- b. The development of the specific uses that are identified on the master park site plan shall not require an additional conditional use permit or an amendment to the existing master park site plan conditional use permit.
- c. Park improvements that do not add a new land use to the master park site plan or increase the maximum anticipated site area or building area for a use by more than twenty percent of what is anticipated on the master park site plan may be approved administratively by the City Planner.

105. Pawnshops.

- a. No pawnshop shall be located within five hundred feet of any establishment licensed to dispense (for on-site or off-site consumption) alcoholic beverages.
- b. No pawnshop shall be located within five hundred feet of any residentially zoned property.
- c. An opening shall be provided through which an unobstructed view of the interior of the premises can be obtained from the exterior of the building.

110. Pool Halls or Billiard Parlors.

- a. No such establishment shall be located within five hundred feet of any establishment licensed to dispense alcoholic beverages for consumption on-site or off-site.
  - b. No establishment shall be permitted to dispense alcoholic beverages for consumption on-site or off-site.
  - c. An opening shall be provided through which an unobstructed view of the interior of the premises can be obtained from the exterior of the building.
  - d. Each structure housing such operation shall be constructed so as to contain within the structure all noise and other objectionable byproducts of such operation.
115. Processing Plants For Farm Crops, Similar To Those Being Grown On The Premises. No processing plant shall be located within fifty feet of any lot line.
120. Recreational Vehicle (RV) Storage.
- a. Only recreational vehicles as defined in Section 21.04.298 of this code may be stored within any recreational vehicle storage area; all stored vehicles must be in an operable condition and, if required, currently licensed.
  - b. Permitted recreational vehicle storage shall not be utilized as a sales yard, or as storage for a sales yard. An occasional sale by an individual may be permitted.
  - c. The maintenance, restoration and/or repair of any vehicle shall not be permitted within any recreational vehicle storage area, unless otherwise specifically permitted by the conditional use permit.
  - d. The utilization of a stored vehicle as a living unit shall not be permitted.
  - e. An accessory building, for administrative and security purposes, may be permitted by the conditional use permit.
  - f. All approved recreational vehicle storage areas shall be subject to the following development standards:
    - i. All recreational vehicle storage areas shall be surfaced with two inches of asphalt on four inches of base, or with an alternative acceptable to the City Engineer. In addition, the interior circulation and parking and layout design shall be subject to the approval of the City Engineer.
    - ii. All setbacks shall be landscaped with trees, shrubs and other plant material to the satisfaction of the City Planner. However, in no case shall less than a ten-foot-wide planter along all street frontages and a five-foot-wide planter along all interior lot lines be landscaped as specified above. In addition, three percent of the remainder of the site shall be landscaped with a variety of plant material and in locations throughout the storage area. These areas shall be a minimum dimension in all directions of four feet and bounded by a minimum six-inch concrete or masonry curb. All landscaped areas shall be served by a water irrigation system providing total and effective coverage to all landscaping.
    - iii. The storage area shall be screened from all views by a minimum eight-foot-high wall or fence. Said wall or fence shall entirely surround the site and shall observe a minimum setback equal to the required planting areas specified by the previous

development standard set out in subparagraph (f)(ii). The decision-making body may impose any additional conditions necessary to mitigate adverse visual affects of the wall or fence.

- iv. On-site visitor and employee parking shall be provided within the storage area at a ratio of one space per every ten thousand square feet of lot area, or as required by the conditional use permit. However, in no case shall less than three on-site visitor/employee parking spaces be provided.
- v. Signing for a recreational vehicle storage area shall be limited to a wall sign with a maximum total area of twenty square feet in all zones. No freestanding signs shall be permitted.

125. Residential Care Facilities (Serving More Than Six Persons).

- a. Facilities shall comply with all the rules, regulations and standards required by the State Department of Social Services.
- b. Facilities shall meet current California Code of Regulations (Title 24) for occupancy, as defined.
- c. Facilities shall provide off-street parking as required in Chapter 21.44 of this title.
- d. Additional requirements and restrictions may be imposed as determined necessary by the decision-making authority to ensure facilities meet the findings stated in Section 21.42.030. These requirements and restrictions may include provisions regarding but not limited to the following items:
  - i. Hours of operation, such as for deliveries and other services;
  - ii. Noise;
  - iii. Lighting;
  - iv. Location and screening of parking, service, and other outdoor areas;
  - v. Security;
  - vi. Loitering.

130. (Reserved)

135. Residential Uses in the P-M Zone. One-family dwellings, two-family dwellings and multiple-family dwellings or a combination thereof, which serve to house the employees of businesses located in the P-M zone, may be conditionally permitted subject to the following findings:

- a. A planned development permit for the project has been approved, or is approved concurrently with the conditional use permit, by the City Council.
- b. The residential development is an integral part of an industrial park or large industrial use.
- c. The residential development is designed to be compatible with the industrial use it serves by means of landscaping, open space separations, etc.
- d. The industrial development served by the residential development shall provide for

convenient and efficient vehicular, bicycle or pedestrian transportation to and from the residential development.

- e. The maximum allowable density for the residential development shall be established by the City Council but in no event shall the density exceed 40 dwelling units per acre.

137. Shooting Ranges (Indoor).

- a. Applicability. This subsection applies only to privately owned and/or operated indoor shooting ranges that are commercial enterprises open to the public or private groups on a membership basis. It does not apply to governmental facilities which provide training for police and other law enforcement entities.
- b. Location.
  - i. Indoor shooting ranges are conditionally permitted within the planned industrial (P-M) zone subject to approval of a conditional use permit.
  - ii. Distance Requirements. The establishment of an indoor shooting range shall not be permitted within 600 feet of a school (public or private), public park, day care facility, residential use, residential land use designation, or residential zoning district.
  - iii. For the purpose of measuring the distance requirements set forth in subsection (B)(137)(b)(ii) of this section, all distances shall be measured (without regard to intervening structures) in a straight line extended between the nearest property lines of:
    - (A) The property on which the indoor shooting range is or will be located;
    - (B) The property on which one of the uses/zones/designations specified in subsection (B)(137)(b)(ii) of this section is located; and
    - (C) For properties that are approved nonresidential planned developments, distances shall be measured from the parcel owned in common by the owner's association, which constitutes the perimeter property lines.
  - iv. The distance requirements in subsection (B)(137)(b)(ii) of this section shall apply to those uses/designations/zones specified in subsection (B)(137)(b)(ii) of this section that:
    - (A) Are existing; or
    - (B) Have received approval by the city for the use/zone/designation and said approval has not expired or become invalid; or
    - (C) Have submitted an application to establish those uses/designations/zones specified in subsection (B)(137)(b)(ii) of this section after the approval of a conditional use permit to establish an indoor shooting range.
  - v. Other Location Requirements. Indoor shooting ranges are not permitted within multitenant buildings, and shall only be constructed within a stand-alone building.
- c. General Requirements.
  - i. Every indoor shooting range shall be in compliance with the applicable building,

zoning, and fire code requirements of the Carlsbad Municipal Code in addition to all other applicable federal, state and local laws.

- ii. The applicant, owner and/or operator shall submit to a criminal background check as part of the conditional use permit application. The criminal background check shall be filed with the Carlsbad Chief of Police or designee in a form approved by the Chief of Police. Clearance from the Carlsbad police department shall be required as part of a complete conditional use permit application for an indoor shooting range. "Owner" means any of the following: (1) the sole proprietor of an indoor shooting range; (2) any general partner of a partnership that owns and operates an indoor shooting range; (3) the owner of a controlling interest in a corporation or L.L.C. that owns and operates an indoor shooting range; or (4) the person designated by the officers of a corporation or the members of an L.L.C. to be the business license holder for an indoor shooting range owned and operated by the corporation. This is an on-going requirement that also applies to all employees of the range and stays in effect after approval of the conditional use permit through the business license requirement.
  - (A) The applicant, owner and/or operator shall never have been convicted of any felony.
  - (B) The applicant, owner and/or operator shall never have been convicted of a misdemeanor involving a firearm and/or violence.
  - (C) The applicant, owner and/or operator shall never have been convicted of a violation of law concerning the manufacture, use, possession, or sale of firearms.
- iii. The applicant shall provide sufficient and substantial evidence that the proposed indoor shooting range is properly designed, constructed and equipped for the discharge of firearms within the facility, to the satisfaction of the building official. The indoor shooting range shall be designed to safely contain bullets within the range portion of the building. Tactical shooting is permitted provided the range design addresses this type of use.
- iv. A minimum of one range safety officer shall be on duty during all operating hours. Range safety officers shall be certified by the National Rifle Association Range Safety Officer Program or equivalent training program (such as law enforcement programs), and shall be responsible for:
  - (A) The operation and maintenance of the shooting range.
  - (B) Inspection of all firearms and ammunition for proper function and operation.
  - (C) Enforcement of safety protocols and the regulations of the indoor shooting range.
  - (D) Ensuring that all firearms and ammunition at the indoor shooting range remain securely stored at all times, and in compliance with all applicable laws and regulations.
- v. No other weapons, other than legal firearms, shall be discharged in an indoor shooting range.

- vi. Firearms classified as illegal under state or federal statute, shall not be allowed.
- vii. Firearms or ammunition deemed not safe by the range safety officer shall not be discharged within the indoor shooting range.
- viii. Firearms safety rules and regulations shall be prominently posted in a general area of the facility, and available to all customers of the establishment. Compliance with those regulations shall be monitored and enforced by a range safety officer, employed by the indoor shooting range.
- ix. Indoor shooting ranges shall be permitted to operate during the hours of 8:00 a.m. to 10:00 p.m., unless amended by the conditional use permit.
- x. No person, employee, member, or customer of an indoor shooting range shall be allowed to enter or leave the premises with a loaded firearm, unless permitted by or exempted by state or federal law.
- xi. All firearms shall only be loaded on the firing line under the supervision of the range safety officer, unless permitted by or exempted by state or federal law.
- xii. Illegal drugs or alcohol may not be consumed on the property, nor shall the sale of alcohol be permitted on the property.
- xiii. Individuals deemed by the range safety officer, or other employees of the indoor shooting range, to be under the influence of drugs and/or alcohol and as such present a safety concern, shall be prohibited from utilizing the indoor shooting range.
- xiv. Individuals who the range safety officer, or other employees of the indoor shooting range, believes to pose a threat to themselves or others, shall be prohibited from utilizing the indoor shooting range. The Carlsbad police department shall be contacted immediately if the range safety officer, or an employee, reasonably believes that a person on the premises may be a threat to themselves or others.
- xv. Individuals under 18 years of age will be allowed to utilize the facility, provided:
  - (A) They are at least eight years of age; and
  - (B) They are accompanied by a parent or legal guardian, or are under adult supervision and a signed release and waiver of liability by the parent or guardian is provided.
- xvi. All persons at the firing line shall wear approved eye and ear protection under the supervision of the range safety officer. All employees of an indoor shooting range shall receive eye and ear protection and shall receive proper training regarding the use of suitable eye and ear protection.
- xvii. The sale and rental of firearms, the proper storage of ammunition, and the sale of accessories onsite are permitted, subject to applicable state and federal laws. All such uses shall be clearly documented and considered as part of the conditional use permit application.
- xviii. The manufacture of ammunition shall not be allowed, except for bullet reloading, unless permitted through the conditional use permit.

xix. All doors, gates, and entrances between the shooting points and backstop shall be securely locked at all times when a person is engaged in practice shooting.

- d. Safety and Management Plan. A plan with detailed standard operating procedures for safety and conformance with environmental laws shall be submitted with the conditional use permit application and reviewed and approved by the Carlsbad Chief of Police or designee, Public Works Director or designee and City Planner or designee. The plan must be in full compliance with the National Shooting Sports Foundation 5-Star Assessment, or equivalent rating system (if applicable), and/or the NRA Range Source Book: A Guide to Planning and Construction, published by the National Rifle Association, or by an equivalent guidebook (if applicable) deemed comparable by the Carlsbad Chief of Police or designee, Public Works Director or designee and City Planner or designee. Such plan shall include, but not be limited to, the following information:
- i. Plans for the installation and maintenance of interior and exterior surveillance cameras. Cameras shall observe the parking lot, lobby, store, firing lanes, and all general areas within an indoor shooting range and its perimeter. Recordings from the surveillance cameras must be maintained for not less than 30 days and shall be made available to members of the Carlsbad police department upon request.
  - ii. Plans for the installation and maintenance of adequate exterior and interior lighting.
  - iii. Protocols for the safe display and storage of firearms and ammunition.
  - iv. Protocols to ensure open lines of communication exists between an indoor shooting range and Carlsbad police and fire departments. These protocols shall be developed, with cooperation of the Carlsbad police and fire departments.
  - v. Protocols to ensure that firearms and ammunition deemed unsafe will not be discharged within the firing line.
  - vi. Protocols to ensure access behind the firing line is provided in a safe and controlled manner.
  - vii. Any areas of the indoor shooting range used for tactical shooting shall be clearly identified.
  - viii. Procedures to prevent suicides within the indoor shooting range.
  - ix. Procedures to prevent the theft of rented firearms.
  - x. Plans to adequately staff the range with range safety officers.
  - xi. An evacuation plan shall be provided.
  - xii. Hours of operation.
  - xiii. A plan to reduce exposure to hazardous waste, provide clean air and decrease noise for all employees and customers in accordance with the California Division of Occupational Safety and Health and the National Institute for Occupational Safety and Health's (NIOSH) Preventing Occupational Exposure to Lead and Noise at Indoor Shooting Ranges, published by the Centers for Disease Control and Prevention.

- xiv. Disclosure and education regarding lead hazards shall be provided to employees and customers.
- xv. A hazardous waste diversion and disposal plan in accordance with California Department of Toxic Substances Control regulatory standards. The removal of lead, and any waste materials and liquids that are contaminated with lead, must be addressed in this plan. This plan shall also include the recycling of spent lead bullets consistent with applicable state and federal law.
- xvi. Exhaust air ventilated from inside the shooting range out of the building shall be filtered to meet the California Environmental Protection Agency ambient air quality standards for lead.
- xvii. A plan to mitigate noise impacts on the surrounding community shall be provided. An indoor shooting range shall meet a peak event sound level of 65 dB, as measured at the property line. In addition, an indoor shooting range shall not cause the noise within buildings on the same lot or adjacent lots to exceed a peak event sound level of 45 dB. A noise study shall be prepared consistent with the requirements of the Carlsbad Noise Guidelines Manual demonstrating compliance with the noise levels of this requirement.
- xviii. Failure to submit a safety and management plan as required shall be grounds to refuse to accept or automatically deny an application for a conditional use permit. Failure to adequately implement or maintain the safety and management plan and any provision of this ordinance shall be grounds for revocation of the conditional use permit, pursuant to Section 21.42.120.
- xix. Any future revisions or modifications of the safety and management plan must be approved by the Carlsbad Chief of Police or designee, Public Works Director or designee and City Planner or designee. Failure to obtain approval or otherwise disregard, edit, modify, revise or in any way change the safety and management plan on file is grounds for revocation of the conditional use permit, pursuant to Section 21.42.120.

140. Tattoo Parlors.

- a. No tattoo parlor shall be located within 500 feet of any licensed alcoholic beverage dispensing operation offering said beverages for on-site or off-site consumption.
- b. No tattoo parlor shall be operated in conjunction with nor share any operating space with any other business.
- c. An opening shall be provided through which an unobstructed view of the interior of the premises can be obtained from the exterior of the building.

150. Thrift Shops.

- a. An application for a conditional use permit shall be referred to the Chief of Police, which application shall be under oath, and shall include, among other things, the true names and addresses of all persons financially interested in the business. The past criminal record, if any, of all persons financially or otherwise interested in the business shall be shown on such application. The term "persons financially interested" shall include the applicant and all persons who share in the profits of the business on the basis of gross or net revenue,

including landlords, lessors, lessees and the owner of the building, fixtures or equipment. The application shall also be accompanied by fingerprints of persons financially interested.

The Chief of Police shall make such investigation as is necessary to determine the background of the applicant and other persons financially interested. The Chief of Police shall report to the Planning Commission his or her findings and recommendations as to whether to approve, deny or conditionally approve or deny the conditional use permit in writing within 30 days after the application is submitted. The recommendation of the Police Chief shall be based on the findings and may also be based on his or her judgment of potential enforcement problems and reasons therefor from the proposed establishment. Failure to so report shall be deemed approval of the application. The Planning Commission may deny an application based on the findings and recommendations of the Chief of Police. Charitable organizations shall be specifically exempt from the report provisions of this section. For purposes of this section, a "charitable organization" is one organized for religious, scientific, social, literary, educational, recreational, benevolent, or other purpose not that of pecuniary profit.

- b. No goods shall be taken on a consignment basis.
155. Time-Share Projects. All projects in residential zones shall be subject to the development standards and design criteria of Chapter 21.45 of this code, while all projects in nonresidential zones shall be subject to the development and design criteria of the underlying zone, except that:
  - a. The City Council may reduce the required resident parking down to one parking space per unit, based on the results of a parking study prepared by a registered Traffic Engineer that demonstrates that adequate parking will be provided and the reduction will not adversely affect the neighborhood.
  - b. The City Council may waive the storage area requirements of Section 21.45.060 of this title. Any reduction in the storage requirements shall be supported by a finding that the reduction is necessary for the development of the project and will not adversely affect the neighborhood.
  - c. If a time-share project on a residentially zoned property is proposed with reduced standards, the applicant shall provide a conversion plan showing how the project can be altered to bring it into conformance with the development standards and design criteria of the planned development ordinance. A conversion shall be approved as and be made a part of the permit for the project.
  - d. If a time-share project is proposed in a nonresidential zone, it shall be conditioned to be converted to a hotel use if it cannot be successfully marketed as a time-share project, and shall be subject to all conditions of subsection (B)(155) of this section.
  - e. All proposals for time-share projects shall be accompanied by a detailed description of the methods proposed to be employed to guarantee the future adequacy, stability and continuity of a satisfactory level of management and maintenance. A management and maintenance plan shall be approved as and made a part of the permit for the project.
  - f. All units in a time-share project shall be time-share units except a permanent on-site management residence unit may be permitted. The maximum time increment for recurrent exclusive use of occupancy of a time-share unit shall be four months. A note indicating this requirement shall be placed on the final map for the project.

- g. In addition to the four mandatory findings required for the issuance of a conditional use permit under Section 21.42.030 of this chapter, the City Council shall find that the time-share project is located in reasonable proximity to an existing resort or public recreational area and, therefore, can financially and geographically function as a successful time-share project and that the project will not be disruptive to existing or future uses in the surrounding neighborhood.
  - h. Time-share projects may be allowed in the P-C zone if specified in the master plan for the area in which they will be located and the land use designation for the master plan area in which the proposed time-share project will be located is similar to the R-P, R-3, RD-M, R-T, C-T or C-2 zones.
  - i. All of the provisions of this section shall apply to the conversion of an existing structure to a time-share project.
  - j. All time-share projects shall be processed in accordance with this section except that subsequent to Planning Commission review, the matter shall be set for public hearing before the City Council. The City Council may approve, conditionally approve or deny the project. The decision of the City Council is final.
  - k. A subdivision map filed in accordance with Title 20 of this code shall accompany any application for a time-share project.
160. Windmills (Exceeding the Height Limit of the Zone). May be conditionally permitted provided the purpose of such windmills is to generate usable electrical or mechanical energy and provided the windmill is architecturally compatible with the other buildings on the site.
165. Wireless Communication Facilities (WCFs):
- a. Shall comply with City Council policy statement No. 64. An application for a WCF may be processed as a minor conditional use permit, pursuant to this chapter, if it is found to be consistent with the preferred location and the stealth design review and approval guidelines of City Council policy statement No. 64.
  - b. WCF conditional use permit applications that do not comply with the preferred location and the stealth design review and approval guidelines of City Council policy statement No. 64 shall be processed as a conditional use permit by process 2.
170. Zoos (Private).
- a. The property for such private zoo has a minimum of twenty thousand square feet;
  - b. No animal is kept within twenty feet of any property line;
  - c. A valid wild animal permit has been issued by the state.
- (Ord. NS-791 § 1, 2006; Ord. CS-164 §§ 10, 14, 2011; Ord. CS-172 § XV, 2012; Ord. CS-178 § LXXIV, 2012; Ord. CS-189 § XLVI, 2012; Ord. CS-191 § XVIII, 2012; Ord. CS-224 §§ XXXVII, XXXVIII, 2013; Ord. CS-249 § XVI, 2014; Ord. CS-290 § 7, 2015; Ord. CS-326 § 9, 2017)

**CHAPTER 21.43  
ADULT BUSINESSES**

**Note: Prior ordinance history: Ord. Nos. 9527, 9812, and NS-294.**

**§ 21.43.010. Intent and purpose.**

- A. The intent and purpose of this chapter is to regulate the location of adult businesses, which is necessary due to the following:
  - 1. Adult businesses tend to have judicially recognized adverse secondary effects on the community, including, but not limited to:
    - a. Increases in crime in the vicinity of adult businesses;
    - b. Decreases in property values in the vicinity of adult businesses;
    - c. Increases in vacancies in residential and commercial areas in the vicinity of adult businesses;
    - d. Interference with residential property owners' enjoyment of their properties (when such properties are located in the vicinity of adult businesses) as a result of increases in crime, litter, noise, and vandalism; and
    - e. The deterioration of neighborhoods.
- B. In addition to the operational regulations for adult businesses mandated in Chapter 8.60 of the Municipal Code, the regulations in this chapter are necessary to prevent adverse secondary effects of adult businesses, while at the same time protecting the constitutional rights of those individuals who desire to own, operate or patronize adult businesses.

(Ord. CS-063 § VI, 2009)

**§ 21.43.020. Definitions.**

- A. The definitions found in Section 8.60.020 of the Municipal Code are incorporated herein by reference.
- B. In addition to any other definitions contained in the Municipal Code, the following words and phrases shall, for the purpose of this chapter, be defined as follows, unless it is clearly apparent from the context that another meaning is intended. Should any of the definitions be in conflict with any current provisions of the Municipal Code, these definitions shall prevail.

"Child day care center" means any child day care facility as defined in Carlsbad Municipal Code Section 21.04.086 and Section 1596.750 of the California Health and Safety Code other than family day care homes.

"Park" means any public or private parks, whether for passive or active recreational uses or both. Active recreational uses may include, but are not limited to, skate parks, tot lot and play lot areas, structures and special use facilities such as swimming pools, basketball courts, tennis courts, handball and racquetball courts, horseshoes, and picnic facilities.

"Religious institution/place of worship" means any portion of a building or structure that is used primarily for religious worship and religious activities.

"Residential land use designation" means any property within the city that carries a residential general plan land use designation permitting the location of a dwelling or dwellings, including RL (Residential Low Density), RLM (Residential Low Medium Density), RM (Residential Medium Density), RMH (Residential Medium High Density) and RH (Residential High Density).

"Residential zone" means any property within the city that carries a zoning designation permitting the location of a dwelling or dwellings, including R-A (Residential Agricultural), R-E (Rural Residential Estate), R-1 (One-Family Residential), R-2 (Two-Family Residential), R-3 (Multiple-Family Residential), RMHP (Residential Mobile Home Park), RD-M (Residential Density-Multiple), R-P (Residential Professional), R-T (Residential Tourist), and R-W (Residential Waterway).

"School" means any institution of learning for minors, whether public or private, offering instruction in those courses of study required by the California Education Code and/or which is maintained pursuant to standards set by the Board of Education of the State of California. This definition includes a nursery school, kindergarten, elementary school, middle or junior high school, senior high school, or any special institution of education under the jurisdiction of the California Department of Education. For the purposes of this section, "school" does not include a vocational or professional institution of higher education, including a community or junior college, college, or university.

(Ord. CS-063 § VI, 2009)

### **§ 21.43.030. Location requirements for adult businesses.**

#### A. Zones Where Adult Businesses Are Permitted.

1. Adult businesses are permitted only on sites that are within the C-M, C-M/Q, M, M-Q, P-M, or P-M/Q zones, provided such uses are not precluded by any applicable specific plan or master plan.

#### B. Distance Requirements.

1. In addition to the zone requirements specified in subsection A of this section, an adult business shall not be established or located within 1,000 feet of any of the following:
  - a. Another adult business;
  - b. Child day care center;
  - c. Park;
  - d. Religious institution/place of worship;
  - e. Residential land use designation;
  - f. Residential zone; or
  - g. School.
2. For the purpose of measuring the distance requirements set forth in subsection B.1 of this section, all distances shall be measured (without regard to intervening structures) in a straight line extended between the nearest property lines of:
  - a. The property on which the adult business is or will be located; and
  - b. The property on which one of the uses/zones/designations specified in subsection B.1 of this section is located.

3. The distance requirements established by subsection B.1.a of this section shall apply to:
  - a. Any adult business operating as a legal conforming use with an approved adult business license from the city;
  - b. Any adult business that has an approved adult business license from the city, but has not yet begun operating the business at the approved business location.
4. The distance requirements established in subsection B.1 of this section shall apply to those uses/designations/zones specified in subsections B.1.b through B.1.g of this section that:
  - a. Are existing; or
  - b. Have received approval by the city for the use/zone/designation and said approval has not expired or become invalid.
5. The distance requirements from the uses/designations/zones specified in subsections B.1.b through B.1.g of this section shall not apply to those uses/designations/zones for which the city is reviewing but has not yet approved an application to establish the use/designation/zone.

C. Other Location Requirements.

1. An adult business that either: (a) has an approved adult business license from the city, but has not yet begun operating the business at the approved business location, or (b) is operating as a legal conforming use with an approved adult business license from the city, shall not be rendered a nonconforming or illegal use by the subsequent location of child day care centers, parks, religious institutions/places of worship, residential land use designations, residential zones, or schools that are within the locational limitations set forth in this section.
  - a. A use shall be deemed to be subsequently located if it is established within the locational limitations of this section following the date an application for an adult business license is filed pursuant to the requirements of Chapter 8.60 of the Municipal Code.

(Ord. CS-063 § VI, 2009)

**§ 21.43.040. Other requirements for adult businesses.**

- A. All adult businesses shall comply with the requirements of Chapter 8.60 of the Municipal Code.
- B. All adult business performers shall comply with the requirements of Chapter 8.70 of the Municipal Code.
- C. No building permit, adult business license, or other permit or entitlement for use shall be legally valid if issued to any adult business proposed to operate or to be established in the city unless the location requirements specified in Section 21.43.030 are satisfied.

(Ord. CS-063 § VI, 2009)

**§ 21.43.050. Violations.**

- A. Any owner, operator, manager, employee or independent contractor of an adult business violating or permitting, counseling, or assisting the violation of any of these provisions regulating adult businesses shall be subject to any and all civil remedies, including license revocation. All remedies provided herein shall be cumulative and not exclusive. Any violation of these provisions shall constitute a separate violation for each and every day during which such violation is committed or

continued.

- B. In addition to the remedies set forth in subsection A of this section, any adult business that is operating in violation of these provisions regulating adult businesses is hereby declared to constitute a public nuisance and, as such, may be abated or enjoined from further operation.
- C. The restrictions imposed pursuant to this section do not constitute a criminal offense. Notwithstanding any other provision of the Carlsbad Municipal Code, the city does not impose a criminal penalty for violations of the provisions of this ordinance related to adult businesses.

(Ord. CS-063 § VI, 2009)

## CHAPTER 21.44 PARKING

**Note: Prior ordinance history: Ord. Nos. 9804, 9792, NS-138, NS-179, NS-274, NS-283, NS-288, NS-307, NS-409, NS-662, NS-675, and NS-703.**

### **§ 21.44.010. Required off-street parking.**

- A. Off-street parking, designed in accordance with the requirements of this chapter, shall be provided for:
  1. All newly constructed buildings;
  2. Additions to existing buildings, except for:
    - a. An existing single family residence which does not meet the required parking standard (i.e. a two-car garage) may expand floor area if a minimum of two off-street parking spaces are provided on-site in a location consistent with Section 21.44.060.
  3. Any change of use within an existing building.
- B. All required parking shall be made permanently available and be permanently maintained for parking purposes.
- C. When calculating the required number of parking spaces, if the calculation results in a fractional parking space, the required number of parking spaces shall always be rounded up to the nearest whole number.

(Ord. NS-834 § I, 2007; Ord. CS-050 § III, 2009)

### § 21.44.020. Off-street parking spaces required.

- A. The number of off-street parking spaces required for the uses or structures designated in this section shall be no less than as set forth in Table A, below.
- B. In the case of multiple uses in a building or on a lot, the total requirements for off-street parking facilities shall be the sum of the requirements for the various uses computed separately, except as otherwise noted. Off-street parking facilities for one use shall not be considered as providing required parking facilities for any other use except as specified in Section 21.44.080 for joint use.

**Table A**  
**Number of Off-Street Parking Spaces Required**

Use	Number of Off-Street Parking Spaces																						
<b>Residential Uses</b>																							
Accessory dwelling units	<p>1 space (covered or uncovered), in addition to the parking required for the primary use; unless otherwise specified in Section 21.10.030 of this code.</p> <p>The additional parking space may be provided through tandem parking on a driveway and may be within the front or side yard setback.</p>																						
One-family dwellings	<p>Two spaces per unit, provided as either:</p> <ul style="list-style-type: none"> <li>• A two-car garage (minimum interior 20 feet × 20 feet); or</li> <li>• Two separate one-car garages (minimum interior 12 feet × 20 feet each); or</li> <li>• As otherwise permitted, pursuant to Section 21.10.030 of this title, when a garage is converted to an accessory dwelling unit.</li> </ul>																						
Two-family dwellings (apartments only), for condominium projects see "planned developments"	<p>Same as required for one-family dwellings</p> <table border="1"> <tr> <td>Visitor parking</td> <td colspan="3">Same as required for multiple-family dwelling visitor parking</td></tr> </table>			Visitor parking	Same as required for multiple-family dwelling visitor parking																		
Visitor parking	Same as required for multiple-family dwelling visitor parking																						
Multiple-family dwellings (apartments only), for condominium projects see "planned developments"	<table border="1"> <tr> <td>Studio and one-bedroom units</td> <td colspan="3">1.5 spaces/unit, one of which must be covered</td></tr> <tr> <td>Units with two or more bedrooms</td> <td colspan="3">2 spaces/unit, one of which must be covered</td></tr> <tr> <td>Visitor parking</td> <td>Projects with 10 units or fewer</td> <td>0.30 space per each unit</td> <td></td></tr> <tr> <td></td> <td>Projects with 11 units or more</td> <td>0.25 space per each unit</td> <td></td></tr> <tr> <td></td> <td colspan="3">Visitor parking may be covered or uncovered</td></tr> </table>			Studio and one-bedroom units	1.5 spaces/unit, one of which must be covered			Units with two or more bedrooms	2 spaces/unit, one of which must be covered			Visitor parking	Projects with 10 units or fewer	0.30 space per each unit			Projects with 11 units or more	0.25 space per each unit			Visitor parking may be covered or uncovered		
Studio and one-bedroom units	1.5 spaces/unit, one of which must be covered																						
Units with two or more bedrooms	2 spaces/unit, one of which must be covered																						
Visitor parking	Projects with 10 units or fewer	0.30 space per each unit																					
	Projects with 11 units or more	0.25 space per each unit																					
	Visitor parking may be covered or uncovered																						
Planned developments	See Chapter 21.45																						
Fraternities	1.25 spaces for each sleeping room																						
Mobile home parks	2 paved and covered spaces per unit																						

**Table A**  
**Number of Off-Street Parking Spaces Required**

Use	Number of Off-Street Parking Spaces
	1 visitor parking space for every 4 units. On-street parking may be counted towards meeting the visitor parking requirement
	Recreation and laundry areas combined shall have sufficient parking facilities to accommodate one automobile for every five mobile home sites up to fifty lots and one space for each ten lots thereafter
Residential care facilities	2 spaces, plus 1 space/three beds
Rooming house	1 space for each sleeping room
Housing for senior citizens	1.5 covered spaces per unit, plus 1 covered space for an onsite manager's unit (when provided), and 1 visitor parking space per every five units, subject to approval of a site development plan
Time-share projects	1.2 spaces per unit
Emergency shelters	The number of required parking spaces shall be determined by the City Planner and shall be based on the operating characteristics of a specific proposal, including, but not limited to, number of: (1) employees, (2) beds, and (3) service deliveries.

**Commercial, Industrial, and Other Non-Residential Uses**

Farmworker housing complex, large	The number of required parking spaces shall be determined by the City Planner and shall be based on the operating characteristics of a specific proposal, including, but not limited to, number of: (1) employees, (2) beds, and (3) service deliveries.	
Farmworker housing complex, small	One parking space for every four beds plus one space for an on-site manager	
Bed and breakfast uses	2 spaces, one of which must be covered for the owner's unit, plus 1 space for each guest room	
Bowling alleys	6 per alley	
Car rental agencies	1 space/250 square feet of gross floor area for the car rental office space and customer waiting area. Adequate rental car fleet parking shall be addressed through a fleet parking plan that shall be reviewed and approved by the City Planner	
Child day care center	1 space/employee plus 1 space for each 10 children	
Delicatessen	1 space/250 square feet of gross floor area	
Driving ranges	1 space/tee plus required parking for accessory uses	
Educational facilities, other	1 space/200 square feet of gross floor area	
Educational institution or school	Preschools/Nurseries	1 space/employee plus 1 space for each 10 students, with an adequate loading and unloading area
	Elementary Schools	1 space/employee, with an adequate loading and unloading area

**Table A**  
**Number of Off-Street Parking Spaces Required**

Use	Number of Off-Street Parking Spaces	
Financial institutions and professional offices	High Schools	1 space/employee plus 1 space for each 10 students, with an adequate loading and unloading area
	Colleges	1 space/employee plus 1 space for each 3 students, with an adequate loading and unloading area
	Medical Office	1 space/200 square feet of gross floor area
	Financial Institutions	1 space/250 square feet of gross floor area
	Other office uses	1 space/250 square feet of gross floor area
	Office uses within 300 feet of the boundary of the Village-Barrio zone	1 space/300 square feet of gross floor area
	Furniture and appliance sales	1 space/600 square feet of gross floor area
	Golf courses	6 spaces/hole plus required parking for accessory uses
	Gyms and health spas	1 space/200 square feet of gross floor area
	Hospitals	3 spaces per bed, or 1 per 200 square feet of gross floor area, whichever is greater
	Hotels and motels	1.2 spaces per unit
	Industrial building ("spec" - no specific uses identified)	1 space/250 square feet of gross floor area <sup>1</sup>
	Libraries	1 space/200 square feet of gross floor area
	Library substations	1 space/250 square feet of gross floor area
	Manufacturing	1 space/400 square feet of gross floor area, plus 1 space for each vehicle used in conjunction with the use
Motor vehicle uses	Mortuaries	1 space/50 square feet of assembly area
	Gas Stations	1 space/300 square feet of gross floor area, excluding work bays associated with vehicle repair
		Gas stations that include motor vehicle repair services shall provide additional parking as required for motor vehicle "repair" uses
	Sales	1 space/400 square feet of gross floor area

**Table A**  
**Number of Off-Street Parking Spaces Required**

Use	Number of Off-Street Parking Spaces	
	Repair	4 spaces for every work bay (up through three work bays), plus 2 spaces per bay in excess of three bays. Work bays do not count as parking spaces
Museums	1 space/500 square feet of gross floor area	
Personal and professional services <sup>3</sup>	1 space/300 square feet of gross floor area	
Professional care facilities	0.45 parking spaces per every bed	
Public assembly	1 space/5 seats, or 1 space/100 square feet of assembly area, whichever is greater	
Recreational vehicle storage areas	1 space for every 10,000 square feet of storage area, with a minimum of 3 spaces	
Recycling facilities	1 space per employee plus 1 space for each commercial vehicle of the recycling facility; and space for a minimum of 6 vehicles or the anticipated peak hourly customer load, whichever is greater, as determined by the City Planner	
Research and development (R&D)	1 space/250 square feet of gross floor area	
	Bio industrial R&D - 1 space/300 square feet of gross floor area	
Restaurants	Less than 4,000 square feet in size	1 space/100 square feet of gross floor area
	4,000 square feet or greater	40 spaces plus 1 space/50 square feet of gross floor area in excess of 4,000 square feet
Retail uses	Individual	1 space/300 square feet of gross floor area
	Shopping Center	1 space/200 square feet of gross floor area <sup>2</sup>
Shooting ranges (indoor)	1.5 spaces for each firing lane within the range, plus required parking for other associated uses based on the parking standard for each use	
Theaters	1 space/5 seats	
Visitor/information center	1 space per 400 square feet of gross floor area	
Warehouse	1 space/1,000 square feet of gross floor area, plus 1 space for each vehicle used in conjunction with the use	

**Notes:**

- |              |                                                                                                                                                                                                                                                                                                                                                                                          |
|--------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <sup>1</sup> | Projects proposing a "spec" industrial building may provide parking at manufacturing or warehouse standards, provided a deed restriction is recorded on the property indicating that these uses on the property will be retained and no other type of use creating a need for additional parking will be permitted, unless more parking area is provided to meet city parking standards. |
| <sup>2</sup> | Uses permitted in the underlying zone may be allowed in under-parked shopping centers without the need to provide additional parking, provided there is no expansion of floor area (this does not apply to conditionally permitted uses).                                                                                                                                                |
| <sup>3</sup> | Personal and professional service uses include, but are not limited to, copying/duplicating services, dry cleaners, laundromats, beauty and barber shops, cosmetic services, nail salons, shoe/garment repair, travel agent, etc.                                                                                                                                                        |

(Ord. NS-834 § I, 2007; Ord. CS-102 § LXXXVIII, 2010; Ord. CS-164 § 10, 2011; Ord. CS-189 § XLVII, 2012; Ord. CS-190 § VII, 2012; Ord. CS-191 §§ XIX, XX, 2012; Ord. CS-249 § XVII, 2013; Ord. CS-290 § 8, 2015; Ord. CS-324 §§ 18, 19, 2017; Ord. CS-334 § 9, 2018; Ord. CS-384 § 23, 2020)

**§ 21.44.030. Parking requirements for uses not specified.**

- A. Where the parking requirements for a use are not specifically defined herein, the parking requirements for such use shall be determined by the City Planner. Such determination shall be based upon the following:
1. The parking requirements for the most comparable use specified in this chapter; and/or
  2. A parking study or other evidence satisfactory to the City Planner.

(Ord. NS-834 § I, 2007; CS-102 § LXXXIX, 2010; Ord. CS-164 § 10, 2011)

**§ 21.44.040. Waiver or modification of parking standards.**

- A. The City Planner may waive or modify the provisions as set forth in this title establishing required parking areas for uses such as electrical power generating plants, electrical transformer stations, utility or corporation storage yards or other uses of a similar or like nature where there are a minimal number of employees/occupants.
- B. The City Planner may modify the required parking standards where it can be demonstrated that adequate parking will be provided and the modification will not adversely affect the neighborhood or the site design and circulation. The modification shall be based on the results of a parking study prepared by a registered Traffic Engineer or other qualified parking consultant, or other evidence satisfactory to the City Planner.

(Ord. CS-102 § XC, 2010; Ord. CS-164 § 10, 2011)

**§ 21.44.050. General requirements.**

- A. The following general requirements shall apply to all parking spaces and areas:

**Table B**  
**Parking Spaces and Areas**

<b>Subject</b>	<b>Requirement</b>															
<b>Parking space size</b>	<p>Standard parking space      Minimum area of 170 square feet Minimum width of 8.5 feet Maximum overhang of 2.5 feet, provided the overhang does not encroach into any required landscape setback</p> <p>Parallel parking space      Minimum length of 24 feet, exclusive of driveway/drive-aisle entrances and aprons Minimum length of 20 feet if located immediately adjacent to a driveway/drive-aisle apron Minimum width of 7 feet</p> <p>Compact parking space      Minimum width of 8 feet Minimum length of 15 feet No overhang permitted</p>															
<b>Compact parking</b>	<p>Nonresidential zones      Up to 25% of the total required parking spaces may be compact spaces</p> <p>Residential zones      Up to 45% of the required visitor parking spaces may be compact spaces</p> <p>All zones      Compact car spaces shall be located in separate parking aisles from standard sized spaces Aisles for compact car spaces shall be clearly marked with permanent pole signs denoting "Compact Cars Only" Compact car spaces shall be located in close proximity to the facility they are intended serve, so as to encourage their maximum usage</p>															
<b>Minimum width of aisles that provide access to parking spaces</b>	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 30%;">30 and 45 degree parking</td> <td style="width: 40%;">One-way traffic</td> <td style="width: 30%;">14 feet wide</td> </tr> <tr> <td></td> <td>Two-way traffic</td> <td>24 feet wide</td> </tr> <tr> <td style="text-align: center;">60 degree parking</td> <td style="text-align: center;">One-way traffic</td> <td style="text-align: center;">18 feet wide</td> </tr> <tr> <td></td> <td>Two-way traffic</td> <td>24 feet wide</td> </tr> <tr> <td style="text-align: center;">90 degree parking</td> <td style="text-align: center;">24 feet wide</td> <td></td> </tr> </table> <p>20 feet - where no vehicles pull into or back-out into a drive-aisle from a parking space Additional width may be required for vehicle/emergency vehicle maneuvering area</p>	30 and 45 degree parking	One-way traffic	14 feet wide		Two-way traffic	24 feet wide	60 degree parking	One-way traffic	18 feet wide		Two-way traffic	24 feet wide	90 degree parking	24 feet wide	
30 and 45 degree parking	One-way traffic	14 feet wide														
	Two-way traffic	24 feet wide														
60 degree parking	One-way traffic	18 feet wide														
	Two-way traffic	24 feet wide														
90 degree parking	24 feet wide															
<b>Circulation</b>	Circulation within a parking area must be such that a car entering the parking area need not enter a street to reach another aisle and that a car need not enter a street backwards. This provision shall not apply to off-street parking required for one-family and two-family dwelling units.															

**Table B**  
**Parking Spaces and Areas**

<b>Subject</b>	<b>Requirement</b>
<b>Location of required parking</b>	For one-family, two-family, and multiple-family dwellings See Section 21.44.060
	For other residential uses or care facilities (e.g., housing for senior citizens, hospitals, and, when serving more than six persons, residential care facilities, etc.) Not more than 150 feet walking distance from the nearest point of the parking facility to the nearest point of the building that the parking facility is required to serve.
	For uses other than those specified above Not more than 300 feet walking distance from the nearest point of the parking facility to the nearest point of the building that the parking facility is required to serve.
<b>Required landscaping of parking areas</b>	For parking areas having a capacity of five or more vehicles (except parking provided for one-family and two-family dwellings) For purposes of required landscaping, the words "parking area" shall include all blacktop or paved areas, including access ways and areas. At least 3% of the parking area shall be planted and maintained with trees listed on the city's official street tree list, or approved shrubs. Said trees or shrubs shall be: <ul style="list-style-type: none"> <li>• Contained in planting areas with a minimum dimension of 4 feet and bounded by a concrete or masonry curb of a minimum of 6 inches in height;</li> <li>• Located throughout the off-street parking areas in order to obtain the maximum amount of dispersion.</li> </ul> All landscaped areas shall be served by a water irrigation system and be supplied with bubblers or sprinklers. All plans for such landscaped areas shall be approved by the City Planner prior to the construction and placement thereof.
<b>Development and maintenance of public or private parking areas with a capacity for 5 or more vehicles</b>	Surfacing Off-street parking areas shall be paved or otherwise surfaced and maintained so as to eliminate dust or mud, and shall be so graded and drained as to dispose of all surface water. In no case shall such drainage be allowed across sidewalks or driveways. Border barricades, screening, and landscaping Every parking area that is not separated by a fence from any street or alley property line upon which it abuts, shall be provided with a suitable concrete curb or timber barrier not less than 6 inches in height, and located not less than 2 feet from such street or alley property lines, and such curb or barrier shall be securely installed and maintained; provided no such curb or barrier shall be required across any driveway or entrance to such parking area.

**Table B**  
**Parking Spaces and Areas**

Subject	Requirement
	<p>Every parking area abutting property located in a residential zone shall be separated from such property by a solid wall, view-obscuring fence or compact evergreen hedge 6 feet in height measured from the grade of the finished surface of such parking lot closest to the contiguous residentially zoned property; provided, that along the required front yard, the fence, wall or hedge shall not exceed 42 inches in height. No such wall, fence or hedge need be provided where the elevation of that portion of the parking area immediately adjacent to a residential zone is 6 feet or more below the elevation of such residentially zoned property along the common property line.</p> <p>Any lights provided to illuminate any public parking area, semi-public parking area or used car sales area permitted by this chapter shall be so arranged as to reflect the light away from any premises upon which a dwelling unit is located.</p>
Entrances and exits	<p>The location and design of all entrances and exits shall be subject to the approval of the City Planner or other designated person, provided no entrance or exit, other than on or from an alley, shall be closer than 5 feet to any lot located in a residential zone.</p>
<b>Parking areas for commercial or office/professional uses in R-3, R-P and R-T zones</b>	<p>No parking lot to be used as an accessory to a commercial or office/professional establishment shall be established until reviewed by the City Planner and its location approved. Such approval may be conditioned upon the City Planner requiring the planting and/or maintenance of trees, shrubs or other landscaping within and along the borders of such parking area.</p> <p>The parking lot shall be no farther than fifty feet when measured from its closest boundary to the commercial or office/professional establishment to which it is accessory.</p> <p>Such parking lot shall be used solely for the parking of private passenger vehicles.</p>

(Ord. NS-834 § I, 2007; Ord. CS-164 § 10, 2011; Ord. CS-178 § LXXVI, 2012; Ord. CS-249 § XVIII, 2014)

**§ 21.44.060. Off-street parking—Residential zones.**

A. In all residential zones the following parking regulations shall apply:

1. Garages, parking stalls, carports and RV parking spaces (excluding those in approved RV parking lots) shall be for the exclusive use of the residents only and shall not be separately sold or rented to nonresidents of the property.
2. Required parking spaces for dwelling units shall be located subject to the following:

**Table C**  
**Location of Required Parking Spaces in Residential Zones**

Parking Required For:	Location Standards For Required Parking Spaces	
<b>One-family, two-family, and multiple-family dwellings</b>	All dwelling types	Required parking spaces shall be located on the same lot or building site as the buildings they are required to serve.
		Required parking shall not be located within the front yard setback.
		Required uncovered parking spaces may be located within the side and/or rear yard setback, provided that a 6-foot-high masonry wall (or some other solid material approved by the decision-making authority) is built along the property line adjacent to the setback area.
	Accessory dwelling units	Same as parking required for primary residential use, with the following exceptions: <ul style="list-style-type: none"> <li>• May be located in the front or side yard setback; and</li> <li>• May be located as a tandem space on a driveway.</li> <li>• Other parking requirements and exemptions may be applicable pursuant to Section 21.10.030.</li> </ul>
	Multiple-family dwellings	Required parking spaces shall be located no more than 150 feet as measured in a logical walking path from the entrance to the unit it could be considered to serve.
Visitor parking for two-family and multiple-family dwellings		Same as parking required for primary residential use, with the following exception: <ul style="list-style-type: none"> <li>• Required visitor parking need not be located within a garage.</li> <li>• Required visitor parking spaces shall be not more than 300 feet walking distance to the unit the parking space is required to serve.</li> <li>• For projects with 10 or fewer units (outside the Beach Area Overlay Zone), all required visitor parking may be located within driveways (located in front of a unit's garage), provided that all dwelling units in the project have driveways with a depth of 20 feet or more (measured from the front property line, back of sidewalk, or edge of drive-aisle, whichever is closest to the structure).</li> </ul>
		Tandem parking within the front yard setback shall be permitted, provided: <ul style="list-style-type: none"> <li>• There is a minimum of one parking space per dwelling unit located within the required setback lines; and</li> <li>• The front yard building setback is no less than 20 feet (in the R-W zone, the front yard setback shall be no less than 10 feet to a second or third building floor).</li> </ul>

**Table C**  
**Location of Required Parking Spaces in Residential Zones**

<b>Parking Required For:</b>	<b>Location Standards For Required Parking Spaces</b>	
	Subterranean parking	A zero foot setback for subterranean parking shall be permitted, provided that within the setback area(s) all of the "subterranean parking structure" is completely underground and the setbacks are fully landscaped, except for driveways necessary to provide access.

3. Garages in residential zones shall be constructed according to the following standards:

**Table D**  
**Residential Garage Standards**

<b>Type</b>	<b>Garage Standard</b>
One-car garage	Minimum interior dimensions of 12 feet by 20 feet.
Two-car garage (both spaces for same unit)	Minimum interior dimensions of 20 feet by 20 feet.
Multiple one-car garages in one structure	Each separate, one-car garage shall have interior dimensions of 12 feet by 20 feet, exclusive of supporting columns.  As a minimum, each space shall be separated from the adjacent garage, floor to ceiling, by a permanent stud partition with $\frac{1}{2}$ -inch gypsum board on one side, where no additional fire protection is required.
Enclosed parking garage with multiple, open parking spaces	Each parking space shall maintain a standard stall size of 8.5 feet by 20 feet, exclusive of supporting columns or posts.  A backup distance of 24 feet shall be maintained in addition to a minimum 5 feet turning bump-out located at the end of any stall series.

4. The parking of vehicles in residential zones shall be subject to the following regulations:

<b>Type of Vehicle</b>	<b>Where Vehicles Can Be Parked</b>
<b>Passenger vehicles, and light-duty commercial vehicles used as a principal means of transportation by an occupant of the dwelling</b>	One-family, two-family, and multiple-family dwellings  One-family dwellings on individual lots (in addition to parking spaces required pursuant to Table A of this chapter or as otherwise permitted pursuant to Section 21.10.030 of this code)
	Garage  Covered or uncovered parking spaces provided as required for the dwelling unit  In the required front yard on a paved driveway or parking area that: 1. Does not exceed 30% of the required front yard area; or 2. Is comprised of 24 feet of width extended from the property line to the rear of the required front yard, whichever is greater.
	A paved area between the required front yard and the actual front of the building, as long as it is an extension and does not exceed the width of the area described above.
	Any other area of the lot provided that they are screened from view from the public right-of-way.

Type of Vehicle	Where Vehicles Can Be Parked
<b>Recreational vehicles, boats, and trailers</b>	<p>For corner lots, the provisions of this subsection shall apply to the required street side yard; however, in no case, shall the provisions of this section allow parking in both the required front yard and the required street side yard.</p> <p>One-family dwellings on individual lots</p> <p>In an enclosed structure observing all required setbacks</p> <p>Open parking in the side yard or the rear yard</p> <p>Subject to City Planner approval, open parking in the required front yard is permitted if the parking area does not exceed the maximum paved area permitted for passenger vehicles, and that access to the side or rear yard cannot be provided. In making this determination, the City Planner shall give notice pursuant to Section 21.54.060.B and shall consider:</p> <ol style="list-style-type: none"> <li>1. Whether parking in, or access to, the side or rear yard would require structural alteration to the existing residence, or would require the removal of significant or unique landscaping. A fence shall not be deemed to prevent access to the side or rear yard;</li> <li>2. Whether parking in or access to the side or rear yard would require extensive grading;</li> <li>3. Whether, because of the configuration of the lot, existing landscaping, the location of the structures on the lot, and the size of the recreational vehicle, parking of the recreational vehicle in the front yard would interfere with visibility to or from any street;</li> <li>4. Whether allowing parking of the recreational vehicle in the front yard would interfere with traffic on the street or sidewalk, or would encroach into the street and utility right-of-way.</li> </ol> <p>Any person may file an objection to the decision or request an administrative hearing with the City Planner pursuant to Section 21.54.060.B. The decision of the City Planner shall become effective unless appealed in accordance with the provisions of Section 21.54.140 of this title.</p> <p>Note: A corner lot is deemed to have reasonable access to the rear yard.</p> <p>Notwithstanding the above, during the construction of a permanent one-family dwelling on a lot, the owner of the lot may live in a recreational vehicle upon said lot during construction of said dwelling for a period not to exceed six months.</p> <p>The provisions listed in this section are not intended to supersede more restrictive homeowner provisions contained in approved conditions, covenants and restrictions (CC&amp;Rs). If the provisions of any such CC&amp;Rs are less restrictive than the ordinance codified in this section, then the provisions contained herein shall apply.</p>

Type of Vehicle	Where Vehicles Can Be Parked	
<b>Inoperable vehicles</b>	One-family, two-family, and multiple-family dwellings	Storage or parking of inoperable, wrecked, dismantled or abandoned vehicles shall be regulated by Chapter 10.52 of this code, with the following exception: • For one-family dwellings on individual lots, not more than two vehicles in any inoperable, wrecked or dismantled condition may be parked in the side yard or rear yard while said vehicles are being repaired or restored by the owner of the property, provided the vehicles are visually screened from the public right-of-way.
<b>Heavy-duty commercial vehicles</b>	One-family, two-family, and multiple-family dwellings	No heavy-duty commercial vehicles as defined by Section 10.40.075 of this code, except for trailers as permitted by the provision for "recreational vehicles, boats, and trailers" above, shall be parked on any residential lot, except while loading or unloading property; or when such vehicle is parked in connection with, and in aide of, the performance of a service to the property on which the vehicle is parked.

(Ord. NS-834 § I, 2007; Ord. CS-164 § 10, 2011; Ord. CS-178 § LXXV, 2012; Ord. CS-324 §§ 20—22, 2017; Ord. CS-384 § 24, 2020)

#### **§ 21.44.070. Comprehensive planned facilities.**

- A. Areas may be exempted from the parking requirements as otherwise set up in this chapter, provided:
1. Such area shall be accurately defined by the Planning Commission after processing in the same manner required for an amendment to the zoning title;
  2. No such district may be established and exempted from the provisions of Section 21.44.020 unless sixty percent or more of all record lots comprising such proposed district are zoned to uses first permitted in a commercial (C) or industrial (M) zone;
  3. Such exemptions shall apply only to uses first permitted in the commercial (C) or industrial (M) zones;
  4. Before such defined district shall be exempt as provided in this section, active proceeding under any applicable legislative authority shall be instituted to assure that the exempted area shall be provided with comprehensive parking facilities which will reasonably serve the entire district.

(Ord. NS-834 § I, 2007)

#### **§ 21.44.080. Joint use of off-street parking facilities.**

- A. Joint use of off-street parking facilities shall be allowed for uses or activities listed in subsection A.1 of this section, subject to the requirements of subsection A.2 of this section.
1. Uses or Activities.
    - a. Up to fifty percent of the parking facilities required by this chapter for a use considered to be primarily a daytime use may be provided by the parking facilities of a use considered to be primarily a nighttime use;
    - b. Up to fifty percent of the parking facilities required by this chapter for a use considered to

- be primarily a nighttime use may be provided by the parking facilities of a use considered to be primarily a daytime use;
- c. Up to one hundred percent of the parking facilities required by this chapter for a church or for an auditorium incidental to a public or parochial school may be supplied by parking facilities of a use considered to be primarily a daytime use;
  - d. Up to fifty percent of the parking facilities required by this chapter for a church may be jointly utilized by an on-site, accessory, child day care center provided there is no substantial conflict in the principal operating hours of the church and child day care center;
  - e. The following uses are typical daytime uses: banks, business offices, retail stores, personal service shops, clothing or shoe repair or service shops, manufacturing or wholesale buildings and similar uses;
  - f. The following uses are typical of nighttime uses: dance halls, theaters and bars.
2. Requirements for Joint Use of Off-Street Parking.
    - a. The owner or lessee of the subject property shall provide written evidence to the planning division to demonstrate compliance with the provisions and requirements of this section.
    - b. The buildings or uses associated with the joint use of a parking facility shall be located within one hundred fifty feet of such parking facility;
    - c. The application shall show that there is no substantial conflict in the principal operating hours of the buildings or uses for which the joint use of a parking facility is proposed;
    - d. Parties involved in the joint use of a parking facility shall provide evidence of agreement for such joint use by a proper legal instrument approved by the City Attorney as to form and content. Such instrument, when approved as conforming to the provisions of this title, shall be recorded in the office of the County Recorder and copies thereof filed with the City Planner.

(Ord. NS-834 § I, 2007; Ord. CS-063 § VII, 2009; Ord. CS-164 §§ 10, 11, 2011)

#### **§ 21.44.090. Common parking facilities.**

- A. Common parking facilities may be provided in lieu of the individual requirements contained herein, but such facilities shall be approved by the decision-making authority as to size, shape and relationship to business sites to be served, provided the total of such off-street parking spaces, when used together, shall not be less than the sum of the various uses computed separately.
- B. When any such common facility is to occupy a site of 5,000 square feet or more, then the parking requirements as specified herein for each of two or more participating buildings or uses may be reduced not more than 15%, subject to approval by the decision-making authority.

(Ord. NS-834 § I, 2007)

#### **§ 21.44.100. Parking area plan.**

The site plan submitted with a building permit application for the building to which a parking area is accessory shall clearly indicate the proposed development, including location, size, shape, design, curb cuts, lighting, landscaping and other features and appurtenances of the proposed parking area.

(Ord. NS-834 § I, 2007)

**CHAPTER 21.45  
PLANNED DEVELOPMENTS**

**Note: Prior ordinance history: Ord. Nos. NS-612, NS-662, NS-633, NS-675, and NS-718.**

**§ 21.45.010. Intent and purpose.**

- A. The purpose of the planned development ordinance is to:
  1. Recognize the need for a diversity of housing and product types;
  2. Provide a method for clustered property development that recognizes that the impacts of environmentally and topographically constrained land preclude the full development of a site as a standard single-family subdivision;
  3. Establish a process to approve the following:
    - a. One-family dwellings and twin-homes on individual lots of less than seven thousand five hundred square feet in size or as otherwise allowed by the underlying zone;
    - b. Condominium projects consisting of two-family and multiple-family dwellings, as well as one-family dwellings developed as two or more detached dwellings on one lot;
    - c. Condominium conversions; and
    - d. Private streets;
  4. Encourage and allow more creative and imaginative design by including relief from compliance with standard residential zoning regulations. To offset this flexibility in development standards, planned developments are required to incorporate amenities and features not normally required of standard residential developments.

(Ord. NS-834 § II, 2007)

**§ 21.45.020. Applicability.**

- A. A planned development permit is required for the development of one-family dwellings or twin-homes on lots of less than seven thousand five hundred square feet or as otherwise allowed by the underlying zone, attached or detached condominiums, condominium conversions, and private streets.
- B. These regulations do not apply to attached residential units proposed for inclusion as part of a commercial development project.
- C. Any application for a planned development permit that was deemed complete prior to the effective date of the ordinance reenacting this chapter, shall not be subject to the amended provisions of this chapter but shall be processed and approved or disapproved pursuant to the ordinance superseded by the ordinance codified in this chapter.
- D. If there is a conflict between the regulations of this chapter and any regulations approved as part of the city's certified local coastal program, a redevelopment plan, master plan or specific plan, the regulations of the local coastal program, redevelopment plan, master plan or specific plan shall prevail.

- E. A planned development permit shall apply to residential projects only, as specified in Table A, Permitted Residential Uses, of this chapter.
- F. A planned development permit shall be required for the development of a private street within a residential development that is not otherwise subject to the requirements of this chapter. Such residential development shall not be subject to any development standard of this chapter, except the private street standards.

(Ord. NS-834 § II, 2007)

#### **§ 21.45.030. Definitions.**

- A. Whenever the following terms are used in this chapter, they shall have the meaning established by this section:

"Condominium project" means a common interest development defined by Section 4100 of the California Civil Code, and which consists of two or more attached or detached dwelling units on one lot.

"Drive-aisle" means an improved surface on private property intended for shared vehicular access (serving two or more residential units, attached or detached) from a public/private street to a driveway(s) or open/enclosed parking.

"Driveway" means an improved surface on private property intended for exclusive vehicular access from a public/private street or drive-aisle to open/enclosed parking for a single residential unit (attached or detached).

"Net pad area" means the building pad of a lot excluding all natural or manufactured slopes greater than 3 feet in height except intervening manufactured slopes between split-level pads on a single lot.

"Planned development" means a form of development usually characterized by a unified site design for a number of housing units, clustering buildings and providing common open space, recreation and streets.

"Twin-home" means two dwellings attached by a common wall where each dwelling is on a separate lot that allows for separate ownership.

(Ord. NS-834 § II, 2007; Ord. CS-242 § 1, 2014)

#### **§ 21.45.040. Permitted zones and uses.**

Table A, Permitted Residential Uses, specifies the types of residential uses, and the zones where such uses are permitted, subject to the approval of a planned development permit. The uses specified in Table A are in addition to any principal use, accessory use, transitional use or conditional use permitted in the underlying zone.

**Table A**  
**Permitted Residential Uses**

Legend:

P = Permitted.

(#) Number within parentheses = Permitted only in certain circumstances.

X = Not permitted.

<b>Zone</b>	<b>Residential Use</b>	
	One-Family Dwelling or Twin-Home on Small Lots (one unit per lot)	Condominium Project
R-1	(1) or (4)	One-family dwellings - (3) or (4) Two-family dwellings - (1) or (4) Multiple-family dwellings - (4)
R-2	P	One-family or two-family dwellings - P Multiple-family dwellings - (2) or (4)
R-3	P	P
RD-M	P	P
R-W	X	P
R-P	(5)	(6)
RMHP	P	P
P-C	(7)	(7)
V-B	(8)	(8)
Accessory Uses	(9)	(9)

**Notes:**

- (1) Permitted when the project site is contiguous to a higher intensity land use designation or zone, or an existing project of comparable or higher density.
- (2) Permitted when the proposed project site is contiguous to a lot or lots zone R-3, R-T, R-P, C-1, C-2, C-M or M, but in no case shall the project site consist of more than one lot nor be more than 90 feet in width, whichever is less.
- (3) Permitted when developed as two or more detached units on one lot.
- (4) Permitted when the project site contains sensitive biological resources as identified in the Carlsbad Habitat Management Plan. In the case of a condominium project, attached or detached units may be permitted when the site contains sensitive biological resources.
- (5) Permitted when the R-P zone implements the RMH land use designation.
- (6) Permitted when the R-P zone implements the RMH or RH land use designations.
- (7) Permitted uses shall be consistent with the master plan.
- (8) Refer to the Village and Barrio master plan for permitted uses.
- (9) Refer to Table F for permitted accessory uses.

(Ord. NS-834 § II, 2007; Ord. CS-099 § II, 2010; Ord. CS-334 § 10, 2018)

### **§ 21.45.050. Application and permit.**

#### A. Application and Fee.

1. An application for a planned development permit may be made by the owner of the property affected or the authorized agent of the owner. The application shall:

- a. Be made in writing on a form provided by the City Planner;
  - b. State fully the circumstances and conditions relied upon as grounds for the application; and
  - c. Be accompanied by adequate plans, a legal description of the property involved and all other materials as specified by the City Planner.
  - d. A planned development permit application for a small-lot subdivision (intended to be developed with one dwelling per lot) may be approved without architecture and plotting; in which case, approval of a major planned development permit amendment will be required at a later date to authorize the proposed structures and their placement.
  - e. A planned development permit application for a condominium project shall require approval of architecture and plotting concurrent with the approval of the condominium subdivision.
  - f. The application for a planned development permit shall state the proposed method of land division (i.e., small lots, or air-space condominiums).
2. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.
- B. Processing Procedures. Table B, Processing Procedures, identifies required procedures for minor (four or fewer dwelling units) and major (five or more dwelling units) planned development permits.

**Table B  
Processing Procedures**

<b>Topic</b>	<b>Minor Planned Development Permit</b>	<b>Major Planned Development Permit</b>
Decision-Making Authority	City Planner	Planning Commission (PC)
Map Required	Minor Subdivision Map (See Title 20, Chapter 20.24)	Major Subdivision Map (See Title 20, Chapter 20.12)
Required Findings	See Section 21.45.050.C	See Section 21.45.050.C
Notices and Hearings	See Chapter 21.54, Sections 21.54.060.B and 21.54.061	See Chapter 21.54, Sections 21.54.060.A and 21.54.061
Announcement of Decision and Findings of Fact	See Chapter 21.54, Section 21.54.120	See Chapter 21.54, Section 21.54.120
Effective Date and Appeals	See Chapter 21.54, Section 21.54.140	See Chapter 21.54, Section 21.54.150
Expiration and Extensions	See Chapter 21.58, Sections 21.58.030 and 21.58.040	See Chapter 21.58, Sections 21.58.030 and 21.58.040
Amendments	See Section 21.45.100	See Section 21.45.100

C. Findings of Fact.

1. The decision-making authority shall approve or conditionally approve a planned development permit only if the following findings are made:

- a. The proposed project is consistent with the general plan, and complies with all applicable provisions of this chapter, and all other applicable provisions of this code.
- b. The proposed project will not be detrimental to existing uses, or to uses specifically permitted in the area in which the proposed use is to be located, and will not adversely impact the site, surroundings, or traffic.
- c. The project will not adversely affect the public health, safety, or general welfare.
- d. The project's design, including architecture, streets, and site layout:
  - i. Contributes to the community's overall aesthetic quality;
  - ii. Includes the use of harmonious materials and colors, and the appropriate use of landscaping; and
  - iii. Achieves continuity among all elements of the project.

D. Modifications to Development Standards.

1. The decision-making authority may approve a modification to the development standards specified in this chapter if all of the following findings are made in writing:
  - a. The proposed planned development designed with the modified development standard(s) is consistent with the purpose and intent of this chapter; and
  - b. The proposed modification(s) will result in the preservation of natural habitat as required by the Carlsbad Habitat Management Plan (HMP); and
  - c. The amount of natural habitat preservation required by the HMP could not be achieved by strict adherence to the development standards of this chapter; and
  - d. The proposed modification(s) will not adversely affect the public health, safety, or general welfare; and
  - e. If the project is located within the coastal zone, the modification is consistent with all local coastal program policies and standards for the protection of coastal resources.
2. Any application for a planned development permit that involves a request for a modification to the development standards of this chapter shall include documentation that clearly demonstrates the modification is necessary to implement the natural habitat preservation requirements of the HMP.
3. The decision-making authority may modify the plan, or impose such conditions or requirements that are more restrictive than the development standards specified in this chapter, the underlying zone or elsewhere in this code, as deemed necessary to protect the public health, safety and general welfare, or to insure conformity with the general plan and other adopted policies, goals or objectives of the city.

(Ord. NS-834 § II, 2007; Ord. CS-164 §§ 10, 11, 2011; Ord. CS-178 § LXXVIII, 2012)

**§ 21.45.060. General development standards.**

- A. All planned developments shall comply with the general development standards specified in Table C below. Specific standards applicable to one-family dwellings and twin-homes on small-lots can be

found in Table D; and standards applicable to condominium projects can be found in Table E.

- B. In addition to the provisions of this chapter, a planned development project shall be subject to the development standards of the project site's underlying zone.
- C. If there is a conflict between the development standards of this chapter and the development standards applicable to the project site's underlying zone, the standards of this chapter shall prevail. Exception: the development standards specified in the city's local coastal program, a redevelopment plan, master plan or specific plan shall prevail if such standards conflict with the standards of this chapter.
- D. When approved, a planned development permit shall become a part of the zoning regulations applicable to the subject property.

**Table C**  
**General Development Standards**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD												
C.1	Density	Per the underlying General Plan designation. When two or more general plan land use designations exist within a planned development, the density may be transferred from one general plan designation to another with a general plan amendment.												
C.2	Arterial Setbacks	<p>All dwelling units adjacent to any arterial road shown on the Circulation Element of the General Plan shall maintain the following minimum setbacks from the right-of-way:</p> <p>Prime Arterial: 50 feet;      Major Arterial: 40 feet;      Secondary Arterial: 30 feet;      Carlsbad Boulevard: 20 feet</p> <p>Half (50%) of the required arterial setback area located closest to the arterial shall be fully landscaped to enhance the streetscene and buffer homes from traffic on adjacent arterials, and</p> <ul style="list-style-type: none"> <li>• Shall contain a minimum of one 24" box tree for every 30 lineal feet of street frontage; and</li> <li>• Shall be commonly owned and maintained</li> </ul> <p>Project perimeter walls greater than 42 inches in height shall not be located in the required landscaped portion of the arterial setback, except noise attenuation walls that</p> <ul style="list-style-type: none"> <li>• Are required by a noise study, and</li> <li>• Due to topography, are necessary to be placed within the required landscaped portion of the arterial setback</li> </ul>												
C.3	Permitted Intrusions into Setbacks/Building Separation	Permitted intrusions into required building setbacks shall be the same as specified in Section 21.46.120 of this code. The same intrusions specified in Section 21.46.120 shall be permitted into required building separation.												
C.4	<p>Streets</p> <p>Private</p> <p>Public</p>	<table border="1"> <tr> <td>Minimum right-of-way width</td> <td>56 feet</td> </tr> <tr> <td>Minimum curb-to-curb width</td> <td>34 feet</td> </tr> <tr> <td>Minimum parkway width (curb adjacent)</td> <td>5.5 feet, including curb</td> </tr> <tr> <td>Minimum sidewalk width</td> <td>5 feet (setback 6 inches from property line)</td> </tr> <tr> <td>Minimum right-of-way width</td> <td>60 feet</td> </tr> <tr> <td>Minimum curb-to-curb width</td> <td>34 feet</td> </tr> </table>	Minimum right-of-way width	56 feet	Minimum curb-to-curb width	34 feet	Minimum parkway width (curb adjacent)	5.5 feet, including curb	Minimum sidewalk width	5 feet (setback 6 inches from property line)	Minimum right-of-way width	60 feet	Minimum curb-to-curb width	34 feet
Minimum right-of-way width	56 feet													
Minimum curb-to-curb width	34 feet													
Minimum parkway width (curb adjacent)	5.5 feet, including curb													
Minimum sidewalk width	5 feet (setback 6 inches from property line)													
Minimum right-of-way width	60 feet													
Minimum curb-to-curb width	34 feet													

**Table C**  
**General Development Standards**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD
		<p>Minimum parkway width (curb adjacent)</p> <p>7.5 feet, including curb</p> <p>Minimum sidewalk width</p> <p>5 feet (setback 6 inches from property line)</p>
	Street trees within parkways	<p>One-family dwellings and twin homes on small lots</p> <p>A minimum of one street tree (24-inch box) per lot is required to be planted in the parkway along all streets</p> <p>Condominium projects</p> <p>Street trees shall be spaced no further apart than 30 feet on center within the parkway</p> <p>Tree species should be selected to create a unified image for the street, provide an effective canopy, avoid sidewalk damage and minimize water consumption</p>
C.5	Drive-aisles	<p>3 or fewer dwelling units</p> <p>Minimum 12 feet wide when the drive-aisle is not required for emergency vehicle access, as determined by the Fire Chief.</p> <p>If the drive-aisle is required for emergency vehicle access, it shall be a minimum of 20 feet wide.</p> <p>4 or more dwelling units</p> <p>Minimum 20 feet wide.</p> <p>All projects</p> <p>No parking shall be permitted within the minimum required width of a drive-aisle.</p> <p>A minimum 24-foot vehicle back-up/maneuvering area shall be provided in front of garages, carports or uncovered parking spaces (this may include driveway area, drive-aisles, and streets).</p> <p>Additional width may be required for vehicle/emergency vehicle maneuvering area.</p> <p>Parkways and/or sidewalks may be required.</p> <p>No more than 24 dwelling units shall be located along a single-entry drive-aisle.</p> <p>All drive-aisles shall be enhanced with decorative pavement.</p>
C.6	Number of Visitor Parking Spaces Required (1)	<p>Projects with 10 units or fewer</p> <p>0.30 space per each unit</p> <p>Projects 11 units or more</p> <p>0.25 space per each unit</p> <p>When calculating the required number of visitor parking spaces, if the calculation results in a fractional parking space, the required number of visitor parking spaces shall always be rounded up to the nearest whole number.</p>

**Table C**  
**General Development Standards**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD
C.7	Location of Visitor Parking	<p>On private/public streets</p> <p>On-street visitor parking is permitted on private/public streets, subject to the following:</p> <ul style="list-style-type: none"> <li>• The private/public street is a minimum 34-feet wide (curb-to-curb)</li> <li>• There are no restrictions that would prohibit on-street parking where the visitor parking is proposed</li> <li>• The visitor parking spaces may be located:           <ul style="list-style-type: none"> <li>◊ Along one or both sides of any private/public street(s) located within the project boundary, and</li> <li>◊ Along the abutting side and portion of any existing public/private street(s) that is contiguous to the project boundary</li> </ul> </li> </ul> <p>In parking bays along public/private streets within the project boundary, provided the parking bays are outside the minimum required street right-of-way width.</p> <p>When visitor parking is provided as on-street parallel parking, not less than 24 lineal feet per space, exclusive of driveway/drive-aisle entrances and aprons, shall be provided for each parking space, except where parallel parking spaces are located immediately adjacent to driveway/drive-aisle aprons, then 20 lineal feet may be provided.</p> <p>Within the Beach Area Overlay Zone, on-street parking shall not count toward meeting the visitor parking requirement.</p>
	On drive-aisles	Visitor parking must be provided in parking bays that are located outside the required minimum drive-aisle width.
	On a driveway	<p>Outside the Beach Area Overlay Zone</p> <p>One required visitor parking space may be credited for each driveway in a project that has a depth of 40 feet or more.</p> <p>For projects with 10 or fewer units, all required visitor parking may be located within driveways (located in front of a unit's garage), provided that all dwelling units in the project have driveways with a depth of 20 feet or more.</p>

**Table C**  
**General Development Standards**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD	
C.8	Screening of Parking Areas	Within the Beach Area Overlay Zone	<p>One required visitor parking space may be credited for each driveway in a project that has a depth of 40 feet or more.</p> <p>If the streets within and/or adjacent to the project allow for on-street parking on both sides of the street, then visitor parking may be located in a driveway, subject to the following:</p> <ul style="list-style-type: none"> <li>• All required visitor parking may be located within driveways (located in front of a unit's garage), provided that all dwelling units in the project have driveways with a depth of 20 feet or more.</li> <li>• If less than 100% of the driveways in a project have a depth of 20 feet or more, then a 0.25 visitor parking space will be credited for each driveway in a project that has a depth of 20 feet or more (calculations resulting in a fractional parking space credit shall always be rounded down to the nearest whole number).</li> </ul>
		All projects	<p>The minimum driveway depth required for visitor parking (20 feet or 40 feet) applies to driveways for front or side-loaded garages, and is measured from the property line, back of sidewalk, or from the edge of the drive-aisle, whichever is closest to the structure.</p>
		Compact parking	<p>For projects of more than 25 units, up to 25% of visitor parking may be provided as compact spaces (8 feet by 15 feet). No overhang is permitted into any required setback area or over sidewalks less than 6 feet wide.</p> <p>For all projects within the Beach Area Overlay Zone, up to 55% of the visitor parking may be provided as compact spaces (8 feet by 15 feet).</p>
		Distance from unit	Visitor parking spaces must be located no more than 300 feet as measured in a logical walking path from the entrance of the unit it could be considered to serve.
C.9	Community Recreational Space(1)	Community recreational space shall be provided for all projects of 11 or more dwelling units, as follows:	
		Minimum community recreational space required	Project is NOT within RH general plan designation      200 square feet per unit

**Table C**  
**General Development Standards**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD
		Project IS within RH general plan designation      150 square feet per unit
	Projects with 11 to 25 dwelling units	Community recreational space shall be provided as either (or both) passive or active recreation facilities.
	Projects with 26 or more dwelling units	Community recreational space shall be provided as both passive and active recreational facilities with a minimum of 75% of the area allocated for active facilities.
	Projects with 50 or more dwelling units	Community recreational space shall be provided as both passive and active recreational facilities for a variety of age groups (a minimum of 75% of the area allocated for active facilities).
	All projects (with 11 or more dwelling units)	<p>For projects consisting of one-family dwellings or twin homes on small-lots, at least 25% of the community recreation space must be provided as pocket parks.</p> <ul style="list-style-type: none"> <li>• Pocket park lots must have a minimum width of 50 feet and be located at strategic locations such as street intersections (especially "T-intersections") and where open space vistas may be achieved.</li> </ul> <p>Community recreational space shall be located and designed so as to be functional, usable, and easily accessible from the units it is intended to serve.</p> <p>Credit for indoor recreation facilities shall not exceed 25% of the required community recreation area.</p> <p>Required community recreation areas shall not be located in any required front yard and may not include any streets, drive-aisles, driveways, parking areas, storage areas, slopes of 5% or greater, or walkways (except those walkways that are clearly integral to the design of the recreation area).</p>
	Recreation Area Parking	<p>In addition to required resident and visitor parking, recreation area parking shall be provided, as follows: 1 space for each 15 residential units, or fraction thereof, for units located more than 1,000 feet from a community recreation area.</p> <p>The location of recreation area parking shall be subject to the same location requirements as for visitor parking, except that required recreation area parking shall not be located within a driveway(s).</p>
	Examples of recreation facilities include, but are not limited to, the following:	
	Active	<p>Swimming pool area</p> <p>Children's playground equipment</p> <p>Spa</p>

**Table C**  
**General Development Standards**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD
		Courts (tennis, racquetball, volleyball, basketball)
		Recreation rooms or buildings
		Horseshoe pits
		Pitch and putt
		Grassy play areas with a slope of less than 5% (minimum area of 5,000 square feet and a minimum dimension of 50 feet)
		Any other facility deemed by the City Planner to satisfy the intent of providing active recreational facilities.
	Passive	Benches
		Barbecues
		Community gardens
		Grassy play areas with a slope of less than 5%.
C.10	Lighting	Lighting adequate for pedestrian and vehicular safety shall be provided.
C.11	Reserved	
C.12	Recreational Vehicle (RV) Storage(1)	<p>Required for projects with 100 or more units, or a master or specific plan with 100 or more planned development units. Exception: RV storage is not required for projects located within the RMH or RH land use designations.</p> <p>20 square feet per unit, not to include area required for driveways and approaches.</p> <p>Developments located within master plans or residential specific plans may have this requirement met by the common RV storage area provided by the master plan or residential specific plan.</p> <p>RV storage areas shall be designed to accommodate recreational vehicles of various sizes (i.e. motorhomes, campers, boats, personal watercraft, etc.).</p> <p>The storage of recreational vehicles shall be prohibited in the front yard setback and on any public or private streets or any other area visible to the public. A provision containing this restriction shall be included in the covenants, conditions and restrictions for the project. All RV storage areas shall be screened from adjacent residences and public rights-of-way by a view-obscuring wall and landscaping.</p>
C.13	Storage Space	480 cubic feet of separate storage space per unit.

**Table C**  
**General Development Standards**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD
		If all storage for each unit is located in one area, the space may be reduced to 392 cubic feet.
		Required storage space shall be separately enclosed for each unit and be conveniently accessible to the outdoors.
		Required storage space may be designed as an enlargement of a covered parking structure provided it does not extend into the area of the required parking stall, and does not impede the ability to utilize the parking stall (for vehicle parking).
		A garage (12' × 20' one-car, 20' × 20' two-car, or larger) satisfies the required storage space per unit.
		This requirement is in addition to closets and other indoor storage areas.

**Note:**

- (1) This standard does not apply to housing for senior citizens (see Chapter 21.84 of this code).

(Ord. NS-834 § II, 2007; Ord. CS-026 § 1, 2009; Ord. CS-164 § 10, 2011)

**§ 21.45.070. Development standards for one-family dwellings and twin-homes on small lots.**

- A. In addition to the general development standards found in Table C, planned developments that include one-family dwellings or twin-homes on small lots shall comply with the following development standards found in Table D, One-Family Dwellings and Twin-Homes on Small Lots.

**Table D**  
**One-Family Dwellings and Twin-Homes on Small Lots**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD	
D.1	Livable Neighborhood Policy	Must comply with City Council Policy 66, Principles for the Development of Livable Neighborhoods.	
D.2	Architectural Requirements	Must comply with City Council Policy 44, Neighborhood Architectural Design Guidelines.	
D.3	Minimum Lot Area	One-family dwellings	5,000 square feet (one dwelling per lot)
		Twin-homes	3,750 square feet (one dwelling per lot)
		Exception	3,500 square feet (one-family or twin-home - one dwelling per lot) when either: 1. The project site contains sensitive biological resources as identified in the Carlsbad habitat management plan; or 2. The site has a general plan designation of RMH and unique circumstances such as one of the following exists: a. The project is for lower income or senior citizen housing; b. The site is located west of Interstate 5; c. The dwelling units are designed with alley-loaded garages; or d. The site is either located contiguous to a Circulation Element roadway or within 1,200 feet of a commuter rail/transit center, commercial center or employment center.
D.4	Maximum Lot Coverage	1 story homes	60% of the net pad area
		Homes with 2 or more stories	45% of the net pad area for all lots in a project, if the minimum lot area in the project is 5,000 square feet or greater.
			50% of the net pad area for all lots in a project, if the minimum lot area in the project is less than 5,000 square feet.
		Porches with no livable space above the porch, and porte-cochères no more than 20 feet in width and 6 feet in depth are exempt from lot coverage requirements.	

**Table D**  
**One-Family Dwellings and Twin-Homes on Small Lots**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD		
<b>D.5</b>	Minimum Lot Width(1)	One-family dwellings on lots equal to or greater than 5,000 square feet	50 feet (35 feet when a lot is located on a cul-de-sac, or the curved portion of a sharply curved street/drive-aisle)	
		One-family dwellings on lots less than 5,000 square feet	40 feet (35 feet when a lot is located on a cul-de-sac, or the curved portion of a sharply curved street/drive-aisle)	
		Twin-homes	35 feet	
<b>D.6</b>	Minimum Street/Drive-Aisle Frontage	Lots located on the curved portion of sharply curved streets/drive-aisles or cul-de-sacs: 25 feet.		
<b>D.7</b>	Minimum Setback from a Private or Public Street(2), (3)	Residential structure	10 feet	
		Direct entry garage	20 feet	
<b>D.8</b>	Minimum Setback from a Drive-Aisle(4)	Residential structure	5 feet, fully landscaped (walkways providing access to dwelling entryways may be located within required landscaped area)	
		Garage	3 feet	
			Garages facing directly onto a drive-aisle shall be equipped with an automatic garage door opener.	
		Projects of 25 units or less within the RMH and RH general plan designations	0 feet (residential structure and garage) Garages facing directly onto a drive-aisle shall be equipped with an automatic garage door opener.	
<b>D.9</b>	Minimum Interior Side Yard Setback	One-family dwellings	Option 1	Residential structure Each interior side yard setback shall be a minimum of 10% of the lot width; provided that each side yard setback is not less than 5 feet, and need not exceed 10 feet.

**Table D**  
**One-Family Dwellings and Twin-Homes on Small Lots**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD			
				Garage	Located on the front half of the lot Same as required for residence. Located on the rear half of the lot Need not exceed 5 feet Any living space above a garage shall observe the same interior side yard setback required for the residence.
				Option 2	Residential structure and garage One interior side yard setback may be reduced to 0 feet (zero lot line); provided the other side yard setback is a minimum of 20% of the lot width, and need not exceed 20 feet.
			Twin-homes		One side yard - 0 feet (the side yard where the dwellings on each lot are attached). The other side yard setback shall be a minimum of 20% of the lot width, and need not exceed 20 feet.
		Residential structure Garage (located on the rear half of the lot)			20% of lot width, provided the rear yard setback is not less than 10 feet, and need not exceed 20 feet. 5 feet from rear property line Any living space above a garage shall observe the same rear yard setback required for "residence," above.
D.10	Minimum Rear Yard Setback (where the rear property line does not front on a street or drive-aisle)				
D.11	Maximum Building Height/Number of Stories				Same as required by the underlying zone, and not to exceed three stories(5), (8)
	Private Recreational Space	Minimum total area per unit			400 square feet (may consist of more than one recreational space)
		Minimum dimension of recreational space	15 feet		
					Required private recreational space shall be located at ground level and designed so as to be functional, usable, and easily accessible from the dwelling it is intended to serve, and shall not have a slope gradient greater than 5%.
					Required private recreational space shall not be located within front yard setback areas, and may not include any driveways, parking areas, storage areas, or walkways (except those walkways that are clearly integral to the design of the recreation area).
					Open or lattice-top patio covers may be located within the required private recreation space (provided the patio cover complies with all applicable standards, including the required setbacks specified in Section 21.45.090).

**Table D**  
**One-Family Dwellings and Twin-Homes on Small Lots**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD	
		<p>Attached solid patio covers and decks/balconies may project into a required private recreational space, subject to the following:</p> <ul style="list-style-type: none"> <li>The depth of the projection shall not exceed 6 feet (measured from the wall of the dwelling that is contiguous to the patio/deck/balcony).</li> <li>The length of the projection shall not be limited, except as required by any setback or lot coverage standards.</li> <li>The patio cover/deck/balcony shall comply with all applicable standards, including the required setbacks specified in Section 21.45.090.</li> </ul>	
D.13	Resident Parking	2 spaces per unit, provided as either:(6)	a two-car garage (minimum 20 feet × 20 feet), or 2 separate one-car garages (minimum 12 feet × 20 feet each)
D.14	Garages for 3 or more cars-in-a-row	<p>No more than 20% of the total project units may include garages with doors for 3 or more cars-in-a-row that directly face the street, including garages constructed as 3 one-car garages located adjacent to each other, or constructed as a two-car garage separated from a one-car garage with all garage doors directly parallel to the street.</p> <p>Garages that are recessed 20 feet or more back from the forward-most plane of the house shall not be subject to the 20% 3-car garage limitation stated above.</p> <p>Garages with doors for 3 or more cars in-a-row shall not be permitted on lots less than 5,000 square feet in area.</p>	
D.15	Driveways	Driveways for side-loaded garages must be enhanced with decorative pavement to improve appearance.	

**Notes:**

- |     |                                                                                                                                                                                                                                                                                                                                                            |
|-----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (1) | Lot width is measured 20' behind the front property line.                                                                                                                                                                                                                                                                                                  |
| (2) | See Table C in Section 21.45.060 for required setbacks from an arterial street.                                                                                                                                                                                                                                                                            |
| (3) | Building setbacks shall be measured from one of the following (whichever is closest to the building): a) property line; or b) the outside edge of the required street right-of-way width.                                                                                                                                                                  |
| (4) | Building setbacks shall be measured from one of the following (whichever is closest to the building): a) property line; b) the outside edge of the required drive-aisle width; c) the back of sidewalk; or d) the nearest side of a parking bay located contiguous to a drive-aisle (excluding parking located in a driveway in front of a unit's garage). |
| (5) | If a project is located within the Beach Area Overlay Zone, building height shall be subject to the requirements of Chapter 21.82 of this code.                                                                                                                                                                                                            |
| (6) | The required resident parking within the R-W zone shall be 2 spaces/unit, 1 of which must be covered. Any uncovered required parking space in the R-W zone may be located within a required front yard setback and may be tandem.                                                                                                                          |
| (7) | Garage location standards do not apply to projects where all garages are alley loaded.                                                                                                                                                                                                                                                                     |

**Notes:**

- (8) Protrusions above the height limit shall be allowed pursuant to Section 21.46.020 of this code. Such protrusions include protective barriers for balconies and roof decks.

(Ord. NS-834 § II, 2007; Ord. CS-026 § 1, 2009)

### **§ 21.45.080. Development standards for condominium projects.**

In addition to the general development standards found in Table C, condominium projects shall comply with the following development standards listed in Table E, Condominium Projects.

**Table E  
Condominium Projects**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD	
E.1	Livable Neighborhood Policy	Must comply with City Council Policy 66, Principles for the Development of Livable Neighborhoods.	
E.2	Architectural Requirements	One-family and two-family dwellings	Must comply with City Council Policy 44, Neighborhood Architectural Design Guidelines
		Multiple-family dwellings	<p>There shall be at least three separate building planes on all building elevations. The minimum offset in planes shall be 18 inches and shall include, but not be limited to, building walls, windows, and roofs.</p> <p>All building elevations shall incorporate a minimum of four complimentary design elements, including, but not limited to:</p> <ul style="list-style-type: none"> <li>• A variety of roof planes;</li> <li>• Windows and doors recessed a minimum of 2 inches;</li> <li>• Decorative window or door frames;</li> <li>• Exposed roof rafter tails;</li> <li>• Dormers;</li> <li>• Columns;</li> <li>• Arched elements;</li> <li>• Varied window shapes;</li> <li>• Exterior wood elements;</li> <li>• Accent materials such as brick, stone, shingles, wood, or siding;</li> <li>• Knee braces; and</li> <li>• Towers.</li> </ul>

**Table E**  
**Condominium Projects**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD	
E.3	Maximum Coverage	60% of total project net developable acreage.	
E.4	Maximum Building Height	Same as required by the underlying zone, and not to exceed three stories(1), (7)	
		Projects within the RH general plan designation(1), (7)	40 feet, if roof pitch is 3:12 or greater 35 feet, if roof pitch is less than 3:12 Building height shall not exceed three stories
		From a private or public street(2), (3)	Residential structure 10 feet Direct entry garage 20 feet
E.5	Minimum Building Setbacks	From a drive-aisle(4)	Residential structure (except as specified below) 5 feet, fully landscaped (walkways providing access to dwelling entryways may be located within required landscaped area)
			Residential structure directly above a garage 0 feet when projecting over the front of a garage.
		Garage	3 feet Garages facing directly onto a drive-aisle shall be equipped with an automatic garage door opener.
			Projects of 25 units or less within the RMH and RH general plan designations 0 feet (residential structure and garage) Garages facing directly onto a drive-aisle shall be equipped with an automatic garage door opener.
		Balconies/decks (unenclosed and uncovered)	0 feet May cantilever over a drive-aisle, provided the balcony/deck does not impede access and complies with all other applicable requirements, such as:
			<ul style="list-style-type: none"> <li>• Setbacks from property lines</li> <li>• Building separation</li> <li>• Fire and Engineering Department requirements</li> </ul>

**Table E**  
**Condominium Projects**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD
	From the perimeter property lines of the project site (not adjacent to a public/private street)	The building setback from an interior side or rear perimeter property line shall be the same as required by the underlying zone for an interior side or rear yard setback.
E.6	Minimum Building Separation	10 feet
E.7	Resident Parking(6)	<p>All dwelling types</p> <p>If a project is located within the RH general plan designation, resident parking shall be provided as specified below, and may also be provided as follows:</p> <ul style="list-style-type: none"> <li>• 25% of the units in the project may include a tandem two-car garage (minimum 12 feet × 40 feet).</li> <li>• Calculations for this provision resulting in a fractional unit may be rounded up to the next whole number.</li> </ul> <p>One-family and two-family dwellings</p> <p>2 spaces per unit, provided as either:</p> <ul style="list-style-type: none"> <li>• a two-car garage (minimum 20 feet × 20 feet), or</li> <li>• 2 separate one-car garages (minimum 12 feet × 20 feet each)</li> <li>• In the R-W Zone, the 2 required parking spaces may be provided as 1 covered space and 1 uncovered space(5)</li> </ul> <p>Multiple-family dwellings</p> <p>Studio and one-bedroom units</p> <p>1.5 spaces per unit, 1 of which must be covered(5)</p> <p>When calculating the required number of parking spaces, if the calculation results in a fractional parking space, the required number of parking spaces shall always be rounded up to the nearest whole number.</p> <p>Units with two or more bedrooms</p> <p>2 spaces per unit, provided as either:</p> <ul style="list-style-type: none"> <li>• a one-car garage (12 feet × 20 feet) and 1 covered or uncovered space; or(5)</li> <li>• a two-car garage (minimum 20 feet × 20 feet), or</li> <li>• 2 separate one-car garages (minimum 12 feet × 20 feet each)</li> <li>• In the R-W Zone and the Beach Area Overlay Zone, the 2 required parking spaces may be provided as 1 covered space and 1 uncovered space(5)</li> </ul>

**Table E**  
**Condominium Projects**

REF. NO.	SUBJECT	<b>DEVELOPMENT STANDARD</b>				
		<p>Required parking may be provided within an enclosed parking garage with multiple, open parking spaces, subject to the following:</p> <ul style="list-style-type: none"> <li>• Each parking space shall maintain a standard stall size of 8.5 feet by 20 feet, exclusive of supporting columns; and</li> <li>• A backup distance of 24 feet shall be maintained in addition to a minimum 5 feet turning bump-out located at the end of any stall series.</li> </ul>				
		<p>Required resident parking spaces shall be located no more than 150 feet as measured in a logical walking path from the entrance of the units it could be considered to serve.</p>				
E.8	Private Recreational Space	<p>One-family, two-family, and multiple-family dwellings</p>				
	One-family and two-family dwellings	Minimum total area per unit	<p>Projects not within the RMH or RH general plan designations</p> <p>Projects within the RMH or RH general plan designations</p>	<p>400 square feet</p> <p>200 square feet</p>		
		<p>May consist of more than one recreational space.</p>				
		<p>May be provided at ground level and/or as a deck/balcony or roof deck.</p>				
		If provided at ground level	<p>Minimum dimension</p>	<p>Not within the RMH or RH general plan designations</p> <p>Within the RMH or RH general plan designations</p>		
			<p>15 feet</p> <p>10 feet</p>			
		<p>Shall not have a slope gradient greater than 5%.</p>				
		<p>Attached solid patio covers and decks/balconies may project into a required private recreational space, subject to the following:</p>				

**Table E**  
**Condominium Projects**

REF. NO.	SUBJECT	DEVELOPMENT STANDARD									
		<ul style="list-style-type: none"> <li>The depth of the projection shall not exceed 6 feet (measured from the wall of the dwelling that is contiguous to the patio/deck/balcony).</li> <li>The length of the projection shall not be limited, except as required by any setback or lot coverage standards.</li> </ul> <p>Open or lattice-top patio covers may be located within the required private recreation space (provided the patio cover complies with all applicable standards, including the required setbacks).</p>									
		<table border="1"> <tr> <td>If provided above ground level as a deck/balcony or roof deck</td><td>Minimum dimension Minimum area</td><td>6 feet 60 square feet</td></tr> <tr> <td>Multiple-family dwellings</td><td>Minimum total area per unit (patio, porch, or balcony)</td><td>60 square feet</td></tr> <tr> <td></td><td>Minimum dimension of patio, porch or balcony</td><td>6 feet</td></tr> </table>	If provided above ground level as a deck/balcony or roof deck	Minimum dimension Minimum area	6 feet 60 square feet	Multiple-family dwellings	Minimum total area per unit (patio, porch, or balcony)	60 square feet		Minimum dimension of patio, porch or balcony	6 feet
If provided above ground level as a deck/balcony or roof deck	Minimum dimension Minimum area	6 feet 60 square feet									
Multiple-family dwellings	Minimum total area per unit (patio, porch, or balcony)	60 square feet									
	Minimum dimension of patio, porch or balcony	6 feet									
		Projects of 11 or more units that are within the RH general plan designation may opt to provide an additional 75 square feet of community recreation space per unit (subject to the standards specified in Table C of this chapter), in lieu of providing the per unit private recreational space specified above.									

**Notes:**

- (1) If a project is located within the Beach Area Overlay Zone, building height shall be subject to the requirements of Chapter 21.82 of this code.
- (2) See Table C in Section 21.45.060 for required setbacks from an arterial street.
- (3) Building setbacks shall be measured from the outside edge of the required street right-of-way width, whichever is closest to the building.
- (4) Building setbacks shall be measured from one of the following (whichever is closest to the building): a) the outside edge of the required drive-aisle width; b) the back of sidewalk; or c) the nearest side of a parking bay located contiguous to a drive-aisle (excluding parking located in a driveway in front of a unit's garage).
- (5) Any uncovered required parking space in the R-W zone may be located within a required front yard setback and may be tandem.
- (6) This standard does not apply to housing for senior citizens (see Chapter 21.84 of this code).
- (7) Protrusions above the height limit shall be allowed pursuant to Section 21.46.020 of this code. Such protrusions include protective barriers for balconies and roof decks.

(Ord. NS-834 § II, 2007; Ord. CS-026 §§ 5—9, 2009)

**§ 21.45.090. Residential additions and accessory uses.****A. General.**

1. Additions and accessory uses shall be subject to all applicable development standards of this chapter, unless otherwise specified in this section and except as otherwise permitted for accessory dwelling units or junior accessory dwelling units pursuant to Section 21.10.030.
2. Additions to buildings that are legally nonconforming shall comply with the requirements of Chapter 21.48 of this code.

**B. One-Family Dwellings and Twin-Homes on Small Lots.**

1. Table F lists the provisions for residential additions and accessory uses to one-family dwellings and twin-homes on small lots.
2. The additions and accessory uses listed in Table F shall be subject to the approval/issuance of a building permit.

Addition/Accessory Use	Minimum Front Yard Setback	Minimum Side and Rear Yard Setbacks
Attached/detached patio covers(2)	10 feet to posts (2-foot overhang permitted)	5 feet to posts (2-foot overhang permitted)
Pool, spa	20 feet	5 feet - pool 2 feet - spa
Non-habitable detached accessory buildings/structures (e.g., garages, workshops, decks over 30 inches in height)(1),(2),(3)	20 feet	5 feet
Accessory dwelling units or junior accessory dwelling units(2), (3)	20 feet	See 21.10.030
Habitable detached accessory buildings (i.e. guest houses; not including accessory dwelling units)(1), (2), (3)	Same setbacks as required for the primary dwelling	Same setbacks as required for the dwelling
Additions to dwelling (attached)		

**Notes:**

- (1) Maximum building height is 1 story and 14 feet with a 3:12 roof pitch or 10 feet with less than a 3:12 roof pitch.
- (2) Minimum 10-foot separation required between a habitable building and any other detached accessory building/structure.
- (3) Must be architecturally compatible with the existing structure.

**C. Condominium Projects.** Additions and accessory uses to condominium projects shall be subject to Section 21.45.100 (Amendments to permits).

(Ord. NS-834 § II, 2007; Ord. CS-050 § IV, 2009; Ord. CS 324 §§ 2, 23, 2017; Ord. CS-384 § 25, 2020)

**§ 21.45.100. Amendments to permits.**

- A. An approved planned development permit may be amended pursuant to the provisions of Section 21.54.125 of this title, except that project revisions specified in subsection B of this section shall not require an amendment.
- B. Amendment Exceptions.
  - 1. A project revision shall not be required to obtain an amendment to an existing planned development permit if all of the following findings are made:
    - a. The proposed revision does not increase the density (i.e., the addition of units);
    - b. The proposed revision does not decrease the density by more than ten percent and provided the density is not decreased below the minimum density of the underlying residential land use designation of the general plan;
    - c. The proposed revision does not change the boundary of the subject property;
    - d. The proposed revision does not involve the addition of a new land use not shown on the original permit (e.g., adding a commercial use to a residential project, replacing single-family units with attached residential units, vice versa for each example, etc.);
    - e. The proposed revision does not rearrange the major land uses within the development (e.g., it does not exchange the locations of single-family units with attached units);
    - f. The proposed revision does not create changes of greater than ten percent, provided that compliance will be maintained with the applicable development standards of this code as follows:
      - i. Per individual lot or structure basis: Building floor area, coverage or height (except that height reductions of more than ten percent are permitted);
      - ii. On an aggregate project basis: Parking, open space, recreation or landscaping areas;
    - g. The proposed revision is architecturally compatible with existing structures within the development.

(Ord. NS-834 § II, 2007; Ord. CS-164 §§ 10, 11, 2011; Ord. CS-178 § LXXIX, 2012)

**§ 21.45.110. Conversion of existing buildings to planned developments.**

- A. Applicability. Any application for the conversion of existing buildings to a planned development (e.g., converting apartments to condominiums) shall be subject to all provisions of this chapter.
- B. Building Plans and Gas/Electric Plan.
  - 1. An application for conversion of an existing structure to a planned development shall include building plans indicating how the building relates to present building and zoning regulations and where modifications will be required.
  - 2. Also, the application shall include a letter from San Diego Gas and Electric explaining that the plans to connect the gas and electric system to separate systems are acceptable.

C. Conversions within the Coastal Zone. The conversion of existing residential units within the Coastal Zone that are occupied by persons or families of low or moderate income shall be subject to the requirements of Section 65590 of the California Government Code.

D. Notice to Tenants and Findings.

1. Each prospective and existing tenant of the proposed condominium project shall be given written notice of the proposed conversion in accordance with Sections 66452.8 and 66452.9 of the California Government Code (Subdivision Map Act); and
2. In addition to all other required findings for a subdivision, the City Council shall make all of the findings set forth in Section 66427.1 of the California Government Code (Subdivision Map Act).

(Ord. NS-834 § II, 2007)

**§ 21.45.130. Proposed common ownership land or improvements.**

A. Where a planned development contains any land or improvement proposed to be held in common ownership, the applicant shall submit a declaration of covenants, conditions and restrictions (CC&Rs) with the final map. Such declaration shall set forth provisions for maintenance of all common areas, payment of taxes and all other privileges and responsibilities of the common ownership.

B. The CC&Rs shall include provisions:

1. For maintenance of all common areas, payment of taxes and all other privileges and responsibilities of the common ownership.
2. Prohibiting the homeowners' association from quitclaiming land in an association easement for ownership to private property owners thus allowing the homeowners to privatize a common area for their own use.

C. The CC&Rs shall be reviewed by and subject to approval of the City Planner.

(Ord. NS-834 § II, 2007; Ord. CS-164 § 10, 2011)

**§ 21.45.140. Maintenance.**

All private streets, walkways, parking areas, landscaped areas, storage areas, screening sewers, drainage facilities, utilities, open space, recreation facilities and other improvements not dedicated to public use shall be maintained by the property owners. Provisions acceptable to the City Planner shall be made for the preservation and maintenance of all such improvements prior to the issuance of building permits.

(Ord. NS-834 § II, 2007; Ord. CS-164 § 10, 2011)

**§ 21.45.150. Failure to maintain.**

A. Public Nuisance.

1. All commonly-owned lots, improvements and facilities shall be preserved and maintained in a safe condition and in a state of good repair.
2. Any failure to so maintain is unlawful and a public nuisance if it endangers the health, safety and general welfare of the public and is a detriment to the surrounding community.

B. Removal of Public Nuisance.

1. In addition to any other remedy provided by law for the abatement, removal and enjoinder of such public nuisance, the Community and Economic Development Director or Housing and Neighborhood Services Director may, after giving notice, cause the necessary work of maintenance or repair to be done.

2. The costs thereof shall be assessed against the owner or owners of the project.

C. Notice of Maintenance Required.

1. The notice shall be in writing and mailed to:

- a. All persons whose names appear on the last equalized assessment roll as owners of real property within the project at the address shown on the assessment roll; and
- b. Any person known to be responsible for the maintenance or repair of the common areas and facilities of the project under an indenture or agreement.

2. At least one copy of such notice shall be posted in a conspicuous place on the premises.

3. The notice shall particularly specify:

- a. The work required to be done; and
- b. That the work must be commenced within thirty days after receipt of such notice, and diligently and without interruption prosecuted to completion; and
- c. If upon the expiration of the thirty-day period, the work is not commenced and being performed with diligence, the city shall cause such work to be done; in which case, the cost and expense of such work, including incidental expenses incurred by the city, will be assessed against the property or against each separate lot and become a lien upon such property.

D. Upon completion of such work, the Community and Economic Development Director or Housing and Neighborhood Services Director shall file a written report with the City Council setting forth the fact that the work has been completed and the cost thereof, together with a legal description of the property against which the cost is to be assessed.

1. Written notice shall be provided to all persons specified in subsection C.1 of this section of the hour and place that the City Council will pass upon the written report and will hear any protests against the assessments shall be provided. Such notice shall also set forth the amount of the proposed assessment.

- a. Upon the date and hour set for the hearing, the City Council shall hear and consider the report and any protests before proceeding to confirm, modify or reject the assessments.

E. A list of assessment as finally confirmed by the City Council shall be sent to the City Treasurer for collection.

1. If any assessment is not paid within ten days after its confirmation by the City Council, the City Clerk shall cause to be filed in the office of the County Recorder a notice of lien, in a form approved by the City Attorney.

- a. From and after the date of recordation of such notice of lien, the amount of the unpaid assessment shall be a lien on the property against which the assessment is made, and such

assessment shall bear interest at the maximum rate allowed by law until paid in full.

- b. The lien shall continue until the amount of the assessment and all interest thereon has been paid.

- c. The lien shall have priority according to law.

(Ord. NS-834 § II, 2007; Ord. CS-164 §§ 9, 14, 2011)

**§ 21.45.160. Model homes.**

- A. Except for model homes, building permits for construction within the proposed planned development shall not be issued until a final subdivision map has been recorded for the project.
- B. A maximum of six model home units may be constructed prior to recordation of the final map, provided that adequate provision acceptable to the City Planner and City Attorney are made guaranteeing removal of such complex if the final map is not recorded.

(Ord. NS-834 § II, 2007;; Ord. CS-164 § 10, 2011)

**§ 21.45.170. Restriction on reapplication for planned development permit.**

The restrictions on the reapplication for a planned development permit are specified in Section 21.54.130 of this code.

(Ord. NS-834 § II, 2007)

## CHAPTER 21.46 YARDS

### **§ 21.46.010. Height of buildings on through lots.**

On through lots one hundred fifty feet or less in depth, the height of a building on such lot may be measured from the sidewalk level of the street on which the building fronts. On through lots more than one hundred fifty feet in depth, the height regulations and basis of height measurements for the street permitting the greater height shall apply to a depth of not more than one hundred fifty feet from that street.

(Ord. 9060 § 1600)

### **§ 21.46.020. Allowed protrusions above height limits.**

Roof structures specifically for the housing of elevators, stairways, tanks, ventilating fans or similar equipment required to operate and maintain the building, fire or parapet walls, skylights, architectural features or towers, flagpoles, chimneys, smokestacks, wireless masts and similar structures may be erected above the height limits prescribed in this title but no roof structure or any other space above the height limit prescribed for the zone in which the building is located shall be allowed for the purpose of providing additional floor space, or be taller than the minimum height requirement to accommodate or enclose the intended use.

However, the exception in this section does not apply if there is a specific provision elsewhere in this title for the protrusions under consideration.

(Ord. 9060 § 1601; Ord. NS-204 § 12, 1992; Ord. NS-240 § 9, 1993; Ord. NS-675 § 41, 2003)

### **§ 21.46.030. Regulations.**

Except as provided in this chapter, every required yard shall be open and unobstructed from the ground to the sky. No yard or open space provided around any building for the purpose of complying with the provisions of this title shall be considered as providing a yard or open space for any other building, and no yard or open space on any adjoining property shall be considered as providing a yard or open space on a building site whereon a building is to be erected.

(Ord. 9060 § 1602)

### **§ 21.46.040. Modification of side yard requirement on combined lots.**

When the common boundary line separating two contiguous lots is covered by a building or permitted group of buildings, such lots shall constitute a single building site and the yard spaces as required by this ordinance shall then not apply to such common boundary line.

(Ord. 9060 § 1603)

### **§ 21.46.050. When more than one main building exists.**

Where two or more buildings are, by definition of this title, considered main buildings, then the front yard requirement shall apply only to the building closest to the front lot line.

(Ord. 9060 § 1604)

### **§ 21.46.060. Formula for yard requirements.**

The City Planner may adopt a formula or establish standard practices by which to determine appropriate and practical yards in all residential zones where geometric shape and dimensions and topography are

such as to make the literal application of required yards impractical. After the adoption of such formula or standard practices, they shall be applied as an administrative act.

(Ord. 9060 § 1605; Ord. CS-178 § LXXXII, 2012)

#### **§ 21.46.070. Modification of required front yards.**

The depth of required front yards may be modified on unimproved lots intervening between lots having nonconforming front yards or between a lot having a nonconforming front yard and a vacant corner lot. A nonconforming front yard shall be deemed to be an area between the front lot line and the closest part of the main building, and which is greater or less in depth than that defined in this title as constituting a required front yard.

- (1) The depth of a nonconforming front yard and the rear line thereof shall be deemed to be coincident with that portion of the main building lying closest to the front property line; provided, that the degree of nonconformity to be credited in adjoining front yards in either direction from the rear line of the required front yard shall in no instance exceed sixty percent of the required front yard depth;
- (2) The rear line representing the depth of a modified front yard on any lot as defined in subsection (1) of this section shall be established in the following manner:
  - (A) A point shall be established on each improved lot having a nonconforming or conforming front yard between which are located lots needing adjustment, and such point shall be located at the intersection of the rear line of such front yard with a line that constitutes the depth of the lot,
  - (B) A straight line shall be drawn from such point across any intervening unimproved lot or lots, to a point similarly established on the next lot in either direction on which a main building exists which establishes a conforming or nonconforming front yard,
  - (C) The depth of the modified front yard on any lot traversed by the straight line defined in subsection (B) above shall be established by the point where said straight line intersects the line constituting the depth of each such intervening lot.

(Ord. 9060 § 1606)

#### **§ 21.46.080. Property abutting half-streets.**

A building or structure shall not be erected or maintained on a lot which abuts a highway having only a portion of its required width dedicated and where no part of such dedication would normally revert to said lot if the highway were vacated, unless the yards provided and maintained in connection with such building or structure have a width or depth of that portion of the lot needed to complete the road width, plus the width or depth of the yards required on the lot by this ordinance, if any. This section applies to all zones and whether or not yards are required.

This section does not require a yard of such width or depth as to reduce the buildable width of a corner lot to less than forty feet.

(Ord. 9060 § 1607)

#### **§ 21.46.090. Measurement of front yards.**

Front yard requirements shall be measured from the front property line or the indicated edge of a street for which a precise plan exists.

(Ord. 9060 § 1608)

**§ 21.46.100. Vision clearance, corner and reversed corner lots.**

All corner lots and reversed corner lots subject to yard requirements shall maintain for safety vision purposes a triangular area one angle of which shall be formed by the front and side lot lines separating the lot from the streets, and the sides of such triangle forming the corner angle shall each be fifteen feet in length, measured from the aforementioned angle. The third side of the triangle shall be a straight line connecting the last two mentioned points which are distant fifteen feet from the intersection of the front and side lot lines, and within the area comprising the triangle no tree, fence, shrub or other physical obstruction higher than forty-two inches above the established grade shall be permitted.

(Ord. 9060 § 1609)

**§ 21.46.110. Dwellings and apartments above stores.**

Front and side yard requirements shall not be applicable to dwellings and apartments erected above stores. (Ord. 9060 § 1610)

**§ 21.46.120. Permitted intrusions into required yards.**

The following intrusions may project into any required yards, but in no case shall such intrusions extend more than two feet into such required yards:

- (1) Cornices, eaves, belt courses, sills, buttresses or other similar architectural features;
- (2) Fireplace structures not wider than eight feet measured in the general direction of the wall of which it is a part;
- (3) Stairways, balconies and fire escapes;
- (4) Uncovered porches and platforms which do not extend above the floor level of the first floor; provided, that they may extend six feet into the front yard;
- (5) Planting boxes or masonry planters not exceeding forty-two inches in height;
- (6) Guard railings for safety protection around ramps.

(Ord. 9060 § 1611; Ord. 9675 § 1, 1983; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011; Ord. CS-178 § LXXXIII, 2012)

**§ 21.46.130. Walls, fences or hedges.**

In any "R" zone, no fence, wall or hedge over forty-two inches in height shall be permitted in any required front yard setback. In the required side yard or street side of either a corner lot or reversed corner lot, a six-foot high fence may be permitted when approved by the City Planner when the safety and welfare of the general public are not imposed upon. The issuing of a permit upon the approval of the City Planner shall be subject to special conditions which may vary due to the topography, building placement and vehicular or pedestrian traffic. On an interior lot, a wall or fence not more than six feet in height may be located anywhere to the rear of the required front yard.

(Ord. 9060 § 1612; Ord. 9180 § 1; Ord. 9291 § 1, 1972; Ord. 1256 § 14, 1982; Ord. NS-675 § 42, 2003; Ord. CS-102 § XCI, 2010; Ord. CS-164 § 10, 2011)

**§ 21.46.140. Trees, shrubs and flowers.**

Shrubs, flowers, plants and hedges not more than forty-two inches in height, and trees shall be permitted in any required yard, except as provided in Section 21.46.100.

(Ord. 9060 § 1613)

**§ 21.46.150. Multiple or row dwellings fronting upon a side yard.**

The minimum width of the side yard upon which dwellings front shall be not less than ten feet.

(Ord. 9060 § 1614)

**§ 21.46.160. Multiple or row dwellings rearing upon a side yard.**

Where two-family dwellings or multiple-family dwellings, group houses, court apartments or row dwellings are arranged so that the rear of such dwellings abut upon the side yards, and such dwellings have openings onto such side yards used as secondary means of access to the dwellings, the required side yards to the rear of such dwellings shall be increased by one foot for each dwelling unit having such an entrance or exit opening into or served by such yard, provided such increase need not exceed five feet.

(Ord. 9060 § 1615)

**§ 21.46.170. One building on a lot or building site.**

Any building which is the only building on a lot or building site is a main building unless authorized by variance.

(Ord. 9060 § 1616)

**§ 21.46.180. Through lots.**

Through lots one hundred eighty feet or more in depth may be improved as two separate lots, with the dividing line midway between the street frontages, and each resulting one-half shall be subject to the controls applying to the street upon which such one-half faces. If each resulting one-half be below the minimum lot area as determined by this ordinance, then no division may be made and only one single-family dwelling may be erected upon such lot. If the whole of any through lot is improved as one building site, the main building shall conform to the zone classification of the frontage occupied by such main building, and no accessory building shall be located closer to either street than the distance constituting the required front yard on such street.

(Ord. 9060 § 1617)

**§ 21.46.190. Lot area not to be reduced.**

No lot area shall be so reduced or diminished that the lot area, yards or other open spaces shall be smaller than prescribed by this ordinance, nor shall the density of population be increased in any manner except in conformity with the regulations established by this title.

(Ord. 9060 § 1618)

**§ 21.46.200. Greater lot area than prescribed.**

Greater lot areas than those prescribed in the various zones may be required when such greater areas established by the adoption of a precise plan in the manner prescribed by law, designating the location and size of such greater required areas.

(Ord. 9060 § 1619)

## CHAPTER 21.47 NONRESIDENTIAL PLANNED DEVELOPMENTS

### **§ 21.47.010. Intent and purpose.**

The intent and purpose of the nonresidential planned development regulations are to:

- (1) Ensure that nonresidential projects develop in accordance with the general plan and all applicable specific and master plans;
- (2) Provide for nonresidential projects which are compatible with surrounding developments;
- (3) Provide a method to approve separate ownership of units within multiple-unit buildings or upon a parcel of land containing more than one unit;
- (4) Provide for a method to approve separate ownership of planned unit development lots defined herein;
- (5) Provide for conversion of existing developments to condominiums provided such conversion meets the intent of this chapter and comply with the requirements of the underlying zone.

(Ord. 9685 § 1, 1983)

### **§ 21.47.020. Nonresidential planned development permit.**

The City Council, Planning Commission or City Planner, as provided in this chapter, may approve a permit for a nonresidential planned development in any industrial, commercial or office zone, or combination of zones subject to the requirements thereof except as they may be modified in accord with this chapter.

The application for a nonresidential planned development shall state whether the applicant intends to develop the project as a planned unit development, condominium project or stock cooperative project. For purposes of this chapter, a planned unit development is defined by Section 11003 of the Business and Professions Code of the state and a condominium project is defined by Section 4100 of the California Civil Code.

(Ord. 9685 § 1, 1983; Ord. NS-675 § 76, 2003; Ord. CS-102 § XCIII, 2010; Ord. CS-164 § 10, 2011; Ord. CS-178 § LXXXV, 2012; Ord. CS-242 § 2, 2014)

### **§ 21.47.030. Permitted uses.**

Any principal use, accessory use, transitional use or conditional use permitted in the underlying zone is permitted in a nonresidential planned development.

(Ord. 9685 § 1, 1983)

### **§ 21.47.040. Application and fee.**

- A. An application for a nonresidential planned development permit may be made by the owner of the property affected or the authorized agent of the owner. The application shall:
  1. Be made in writing on a form provided by the City Planner;
  2. State fully the circumstances and conditions relied upon as grounds for the application;
  3. State whether the applicant intends to develop the project as a planned unit development, condominium project or stock cooperative project;

4. Be accompanied by adequate plans, a legal description of the property involved and all other materials as specified by the City Planner;
  5. Be accompanied by a tentative map or tentative parcel map, as applicable, in accordance with Title 20 of this code;
  6. If the applicant contemplates the construction of a nonresidential planned development in phases, the application shall so state and shall include a proposed phasing schedule;
  7. If the applicant proposes to convert existing buildings to a nonresidential planned development, the plans shall reflect the existing buildings and show all proposed changes and additions.
- B. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.

(Ord. 9685 § 1, 1983; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011; Ord. CS-178 § LXXXVI, 2012)

#### **§ 21.47.050. Notices and hearings.**

- A. Notice of an application for a nonresidential planned development permit for less than five units or lots shall be given pursuant to the provisions of Section 21.54.060.B and 21.54.061.
- B. Notice of an application for a nonresidential planned development permit for five or more units or lots shall be given pursuant to the provisions of Sections 21.54.060.A and 21.54.061 of this title.

(Ord. 9685 § 1, 1983; Ord. NS-675 § 76, 2003; Ord. CS-178 § LXXXVI, 2012)

#### **§ 21.47.060. Decision-making authority.**

- A. Applications for nonresidential planned development permits shall be acted upon in accordance with the following:
  1. Nonresidential Planned Development Permit for Less Than Five Units or Lots.
    - a. An application for a nonresidential planned development permit for less than five units or lots may be approved, conditionally approved or denied by the City Planner based upon his/her review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the administrative hearing, if one is conducted pursuant to the provisions of Section 21.54.060.B.2 of this title.
    - b. The City Planner may approve or conditionally approve the nonresidential planned development permit if all of the findings of fact in Section 21.47.070 of this chapter are found to exist.
  2. Nonresidential Planned Development Permit for Five or More Units or Lots.
    - a. An application for a nonresidential planned development permit for five or more units or lots may be approved, conditionally approved or denied by the Planning Commission based upon its review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the public hearing.
    - b. The Planning Commission shall hear the matter, and may approve or conditionally approve the nonresidential planned development permit if all of the findings of fact in Section 21.47.070 of this chapter are found to exist.

(Ord. 9685 § 1, 1983; Ord. CS-178 § LXXXVI, 2012)

**§ 21.47.070. Findings of fact.**

- A. The decision-making authority shall approve or conditionally approve a nonresidential planned development permit only if it finds that all of the following facts exist:
1. The granting of this permit will not adversely affect and will be consistent with the code, the general plan, applicable specific plans, master plans, and all adopted plans of the city and other governmental agencies;
  2. The proposed use at the particular location is necessary and desirable to provide a service or facility which will contribute to the general well-being of the neighborhood and the community;
  3. Such use will not be detrimental to the health, safety or general welfare of persons residing or working in the vicinity, or injurious to property or improvements in the vicinity;
  4. The proposed nonresidential planned development meets all of the minimum development standards of the underlying zone, except for lot area;
  5. In granting a nonresidential planned development permit, the decision-making authority may modify the plan or impose such conditions as it deems necessary to protect the public health, safety and general welfare.

(Ord. 9685 § 1, 1983; Ord. CS-178 § LXXXVI, 2012)

**§ 21.47.073. Announcement of decision and findings of fact.**

When a decision on a nonresidential planned development permit is made pursuant to this chapter, the decision-making authority shall announce its decision in writing in accordance with the provisions of Section 21.54.120 of this title.

(Ord. 9685 § 1, 1983; Ord. NS-176 §§ 6, 18, 1991; Ord. NS-352 § 3, 1996; Ord. NS-506 § 4, 1999; Ord. NS-675 § 43, 2003; Ord. CS-178 § LXXXVIII, 2012)

**§ 21.47.075. Effective date and appeals.**

- A. Decisions made by the City Planner pursuant to this chapter shall become effective unless appealed in accordance with the provisions of Section 21.54.140 of this title.
- B. Decisions made by the Planning Commission pursuant to this chapter shall become effective unless appealed in accordance with the provisions of Section 21.54.150 of this title.

(Ord. NS-675 § 44, 2003; Ord. CS-164 § 10, 2011; Ord. CS-178 § LXXXVIII, 2012)

**§ 21.47.080. Development standards.**

All nonresidential planned developments shall comply with all requirements and development standards of the underlying zone and all requirements of Title 20 (Subdivision Ordinance), with the following exception: nonresidential planned unit developments as defined herein may create lots that do not meet the requirements of Title 20 of the underlying zone. There are no size nor configuration standards for such lots beyond those imposed as a part of the permit, but they shall be reasonable as to intended use and relation to the project and the surrounding area and shall meet the intent and purpose of this chapter as stated herein.

(Ord. 9685 § 1, 1983)

**§ 21.47.090. Conversion of existing buildings to nonresidential planned developments.**

- (a) Conversion of existing buildings to a nonresidential planned development which is a condominium,

planned unit development or stock cooperative shall be processed in the same manner and meet all the standards prescribed in this chapter for a nonresidential planned development. In addition, the structure to be converted must meet present city building regulations.

- (b) An application for conversion of an existing structure to a nonresidential planned development shall include building plans indicating how the building relates to present building and zoning regulations and where modifications will be required. Also, the application shall include a letter from San Diego Gas and Electric explaining that the plans to connect the gas and electric system to separate systems is acceptable.

(Ord. 9685 § 1, 1983)

#### **§ 21.47.100. Expiration, extensions, and amendments.**

- A. The expiration period for an approved nonresidential planned development permit shall be as specified in Section 21.58.030 of this title.
- B. The expiration period for an approved nonresidential planned development permit may be extended pursuant to the provisions of Section 21.58.040 of this title.
- C. An approved nonresidential planned development permit may be amended pursuant to the provisions of Section 21.54.125 of this title.

(Ord. 9685 § 1, 1983; Ord. CS-178 § LXXXIX, 2012)

#### **§ 21.47.140. Final map.**

Building permits for construction within the proposed nonresidential planned development shall not be issued until a final subdivision map has been recorded for the project. A final map which deviates from the conditions imposed by the permit shall not be approved.

(Ord. 9685 § 1, 1983)

#### **§ 21.47.150. Certification of occupancy.**

A certification of occupancy shall not be issued for any structure in a nonresidential planned development until all improvements required by the permit have been completed to the satisfaction of the City Engineer, City Planner and the Community and Economic Development Director.

(Ord. 9685 § 1, 1983; Ord. NS-675 §§ 76, 79, 2003; Ord. CS-164 §§ 10, 14, 2011)

#### **§ 21.47.160. Maintenance.**

All private streets, walkways, parking areas, landscaped areas, storage areas, screening, sewers, drainage facilities, utilities, open space, recreation facilities and other improvements not dedicated to public use shall be maintained by the property owners. Provisions acceptable to the city shall be made for the preservation and maintenance of all such improvements prior to the issuance of building permits.

(Ord. 9685 § 1, 1983)

**CHAPTER 21.48  
NONCONFORMING LOTS, STRUCTURES AND USES**

**§ 21.48.010. Purpose and intent.**

- A. The purpose and intent of this chapter is to:
1. Allow for the development of nonconforming lots that were legally created.
  2. Establish procedures for the abatement of structures and uses that do not comply with all of the requirements and development standards of this title and which may be adverse to the orderly development of the city and to the public health, safety, or welfare of persons or property.
  3. Permit the continuation of uses and continued occupancy and maintenance of structures that were legally established but do not comply with all of the requirements and development standards of this title, in a manner that is not adverse to the public health, safety or welfare of persons or property.
  4. Permit the repair, alteration, expansion or replacement of nonconforming structures subject to the requirements of this chapter.
  5. Permit the expansion or replacement of nonconforming uses subject to the requirements of this chapter.

(Ord. CS-050 § VI, 2009)

**§ 21.48.020. Applicability.**

- A. The provisions of this chapter apply to:
1. Legally created lots which do not conform to the current requirements and development standards of the zone in which they are located.
  2. Legally constructed structures and site development features that do not comply with the current requirements and development standards of the zone in which they are located.
  3. Legally established uses which do not conform to the current permitted use regulations of the zone in which they are located.
- B. The provisions of this chapter do not apply:
1. To nonconforming signs, which are addressed in Section 21.41.130.
  2. When an accessory dwelling unit or junior accessory dwelling unit is proposed on a lot with an existing nonconforming residential structure that is nonconforming with regard to geologic setback, public view encroachment, coastal access, or habitat preserve buffers, and development of the proposed accessory dwelling unit or junior accessory dwelling unit does not result in redevelopment of the nonconforming residential structure. Pursuant to California Government Code Section 65852.2, the city shall not require, as a condition for approval of an accessory dwelling unit or a junior accessory dwelling unit, the correction of nonconforming zoning conditions, except where the accessory dwelling unit or junior accessory dwelling unit is located in the coastal zone and is attached to the nonconforming residential structure that is nonconforming with regard to geologic setback, public view encroachment, coastal access, or habitat preserve buffers, and will result in redevelopment of the nonconforming structure. For

purposes of this section, redevelopment shall mean alterations to the residential structure resulting from construction of an accessory dwelling unit or junior accessory dwelling unit that consist of: (a) additions to an existing structure; or (b) exterior or interior renovations; or (c) demolition or replacement of an existing principal structure, or portions thereof, any of which results in replacement (including demolition, renovation or alteration) of fifty percent or more of major structural components including exterior walls, floor, roof structure or foundation, or a fifty percent increase in gross floor area.

(Ord. CS-050 § VI, 2009; Ord. CS-384 § 26, 2020; Ord. CS-427 § 6, 2022)

#### **§ 21.48.030. General provisions.**

- A. It shall be the responsibility of the owner of a nonconforming lot, structure or use to prove to the City Planner that such lot, structure or use was lawfully established, existed on the date of adoption or amendment of this chapter, and has existed continuously as defined herein.
- B. Nothing in this chapter shall be deemed to prevent the rehabilitation, repair, alteration, strengthening or restoring to a safe condition of any structure or part thereof declared to be unsafe by any city official charged with protecting the public safety, upon order of such official. Repairs and alterations may be made to restore a structure to the same condition that existed prior to damage or deterioration, provided that such repairs or structural alterations conform to the provisions of this chapter.

(Ord. CS-050 § VI, 2009)

#### **§ 21.48.040. Nonconforming lots.**

A nonconforming lot may be developed, provided that the development is consistent with the general plan and complies with all of the requirements and development standards of the zone, master plan, or specific plan in which it is located.

(Ord. CS-050 § VI, 2009)

#### **§ 21.48.050. Nonconforming residential structures and uses.**

- A. Specific Provisions.
  1. A nonconforming residential structure and/or nonconforming residential use may be continued and the structure and/or use repaired, altered, expanded or replaced in accordance with the provisions of this chapter provided that the repair, alteration, expansion or replacement does not:
    - a. Result in an additional structural nonconformity; and
    - b. Increase the degree of the existing nonconformity of all or part of such structure or use (i.e. the addition of a new dwelling unit to an existing over density residential use except as otherwise allowed by the General Plan); and
    - c. Reduce the number and size of any required existing parking spaces.
  2. Any expansion of floor area or the addition of a new dwelling unit that results in an increase in parking demand, pursuant to Chapter 21.44, shall provide additional parking to satisfy the increase in parking demand, in compliance with the parking requirements of Chapter 21.44.
  3. An existing single family residence which does not meet the required parking standard (i.e. a two-car garage) may expand floor area if a minimum of two off-street parking spaces are

provided on-site in a location consistent with Section 21.44.060(4).

- B. Repair or Alteration. A nonconforming residential structure and/or a structure which is occupied by a nonconforming residential use may be repaired or altered, provided that the repair or alteration complies with all current fire protection and building codes and regulations contained in Titles 17 and 18.
- C. Expansion.
  - 1. A nonconforming residential structure and/or a nonconforming residential use may be expanded, so as to occupy a greater area of land or more floor area subject to issuance of all required discretionary and building permits and provided that an application for a nonconforming construction permit is submitted and the City Planner approves the findings of fact pursuant to Section 21.48.080(D).
  - 2. Where a single-family residential structure is nonconforming only by reason of substandard yards, the provisions of this chapter requiring a nonconforming construction permit for an expansion shall not apply provided that:
    - a. The area of expansion is not more than forty percent of the existing floor space prior to the enlargement or a maximum of six hundred forty square feet, whichever is less; and
    - b. The area of expansion, when combined with prior expansions of the nonconforming structure, does not exceed forty percent of the floor space that existed prior to any expansions or six hundred forty square feet, whichever is less; and
    - c. The area of expansion shall comply with all current development standards including, but not limited to, setbacks, lot coverage and height limitations; and
    - d. Expansions that exceed the limits of this exception shall require a nonconforming construction permit.
- D. Replacement in the Event of a Disaster. A nonconforming residential structure and/or nonconforming residential use that is destroyed by fire, explosion, or other casualty or natural disaster, may be replaced subject to issuance of all required discretionary and building permits and provided that an application for a nonconforming construction permit is submitted within two years of the date of the disaster and the City Planner approves the findings of fact pursuant to Section 21.48.080.D. The City Planner may grant an extension to the above two-year application submittal limit upon demonstration of good cause by the applicant.
- E. Voluntary Demolition and Subsequent Replacement. A nonconforming residential structure and/or nonconforming residential use that is proposed to be voluntarily demolished may be replaced subject to issuance of all required discretionary and building permits and provided that an application for a nonconforming construction permit is submitted and the City Planner approves the findings of fact pursuant to Section 21.48.080.D prior to the date of the demolition.

(Ord. CS-050 § VI, 2009; Ord. CS-178 §§ XC—XCII, 2012)

#### **§ 21.48.060. Nonconforming nonresidential structures.**

- A. Specific Provisions.
  - 1. A nonconforming nonresidential structure may be continued and the structure repaired, altered, expanded or replaced in accordance with the provisions of this chapter provided that the repair,

- alteration, expansion or replacement does not:
- a. Result in an additional structural nonconformity; and
  - b. Increase the degree of the existing nonconformity of all or part of such structure; and
  - c. Reduce the number and size of any required existing parking spaces.
2. Any expansion of floor area that results in an increase in parking demand, pursuant to Chapter 21.44, shall provide additional parking to satisfy the increase in parking demand.
- B. Repair or Alteration. A nonconforming nonresidential structure may be repaired or altered subject to issuance of all required discretionary and building permits, provided that the repair or alteration complies with all current fire protection and building codes and regulations contained in Titles 17 and 18.
- C. Expansion. A nonconforming nonresidential structure may be expanded, so as to occupy a greater area of land or more floor area subject to issuance of all required discretionary and building permits and provided that an application for a nonconforming construction permit is submitted and the City Planner approves the findings of fact pursuant to Section 21.48.080.D.
- D. Replacement in the Event of a Disaster. A nonconforming nonresidential structure that is destroyed by fire, explosion, or other casualty or natural disaster, may be replaced subject to issuance of all required discretionary and building permits and provided that an application for a nonconforming construction permit is submitted within two years of the date of the disaster and the City Planner approves the findings of fact pursuant to Section 21.48.080.D.
- E. Voluntary Demolition and Subsequent Replacement. A nonconforming nonresidential structure that is proposed to be voluntarily demolished may be replaced subject to issuance of all required discretionary and building permits and provided that an application for a nonconforming construction permit is submitted and the City Planner approves the findings of fact pursuant to Section 21.48.080.D prior to the date of the demolition.

(Ord. CS-050 § VI, 2009; Ord. CS-178 §§ XCIII—XCV, 2012)

#### **§ 21.48.070. Nonconforming nonresidential uses.**

- A. Specific Provisions.
1. A nonconforming nonresidential use and/or structure which is occupied by a nonconforming nonresidential use may be continued and the structure and/or use repaired, altered, expanded or replaced in accordance with the provisions of this chapter provided that the repair, alteration, expansion or replacement does not:
    - a. Increase the degree of the existing nonconformity of all or part of such structure or use; and
    - b. Reduce the number and size of any required existing parking spaces.
  2. Any expansion of a nonresidential use and/or structure which is occupied by a nonconforming nonresidential use that results in an increase in parking demand, pursuant to Chapter 21.44, shall provide additional parking to satisfy the increase in parking demand.
- B. Repair or Alteration. A structure which is occupied by a nonconforming nonresidential use may be repaired or altered subject to issuance of all required discretionary and building permits, provided that

he repair or alteration complies with all current fire protection and building codes and regulations contained in Titles 17 and 18.

- C. Expansion of Use. A nonconforming nonresidential use may be expanded, so as to occupy a greater area of land or more floor area within a structure, subject to issuance of all required discretionary and building permits, provided that an application for a conditional use permit is submitted and the Planning Commission approves the findings of fact pursuant to Section 21.42.030(A).
- D. Relocation. A nonconforming nonresidential use may be moved, in whole or in part, to any other on-site structure, or to any other portion of the structure, lot or site within or upon which it is located, subject to issuance of all required discretionary and building permits and provided that an application for a conditional use permit is submitted and the Planning Commission approves the findings of fact pursuant to Section 21.42.030(A).
- E. Change of Use. A nonconforming nonresidential use may be changed to a use that is permitted in the zone in which the subject property is located, or may be changed to a use that is more conforming, subject to approval of the City Planner and the issuance of a business license.
- F. Replacement of Use. A nonconforming nonresidential use may be replaced with the same or a similar use, as determined by the City Planner, so long as the replacement use does not expand or in any other manner increase the degree of nonconformity with the use regulations of this title.
- G. Discontinuance. If a structure or parcel of land which is occupied by a nonconforming nonresidential use is, or hereafter becomes vacant and remains unoccupied for a continuous period of one year or more, the Planning Director shall determine and shall notify the owner of the property, in writing, that the nonconforming use has been discontinued and the nonconforming use may not be renewed or reestablished.
- H. Reestablishment of a Nonconforming Use in the Event of a Disaster. A nonconforming nonresidential use that is destroyed by fire, explosion, other casualty or natural disaster, may be reestablished subject to issuance of all required discretionary and building permits and provided that an application for a conditional use permit is submitted within two years of the date of the disaster, and the Planning Commission approves the findings of fact pursuant to Section 21.42.030(A).
- I. Voluntary Demolition and Subsequent Reconstruction. A nonconforming nonresidential use that is proposed to be voluntarily demolished and subsequently reconstructed, may be reestablished subject to issuance of all required discretionary and building permits and provided that an application for a conditional use permit is submitted and the Planning Commission approves the findings of fact pursuant to Section 21.42.030(A) prior to the demolition.

(Ord. CS-050 § VI, 2009)

#### **§ 21.48.080. Nonconforming construction permit.**

- A. Application and Fees.
  - 1. An application for a nonconforming construction permit may be made by the owner of the property affected or the authorized agent of the owner. The application shall:
    - a. Be made in writing on a form provided by the City Planner;
    - b. State fully the circumstances and conditions relied upon as grounds for the application; and

- c. Be accompanied by adequate plans, a legal description of the property involved and all other materials as specified by the City Planner.
  - 2. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.
- B. Notices and Hearings. Notice of an application for a nonconforming construction permit shall be given pursuant to the provisions of Sections 21.54.060.B and 21.54.061 of this title.
- C. Decision-Making Authority.
- 1. An application for a nonconforming construction permit may be approved, conditionally approved or denied by the City Planner based upon his/her review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the administrative hearing, if one is conducted pursuant to the provisions of Section 21.54.060.B.2 of this title.
  - 2. The City Planner may approve or conditionally approve the nonconforming construction permit if all of the findings of fact in Section 21.48.080.D of this title are found to exist.
- D. Findings of Fact.
- 1. A nonconforming construction permit shall be granted only if the following facts are found to exist in regard thereto:
    - a. The expansion/replacement of the structure and/or use would not result in an adverse impact to the health, safety and welfare of surrounding uses, persons or property.
    - b. The area of expansion shall comply with all current requirements and development standards of the zone in which it is located, except as provided in Section 21.48.050(A)(3) of this chapter.
    - c. The expansion/replacement structure shall comply with all current fire protection and building codes and regulations contained in Titles 17 and 18.
    - d. The expansion/replacement would result in a structure that would be considered an improvement to, or complementary to and/or consistent with the character of the neighborhood in which it is located.
- E. Announcement of Decision and Findings of Fact. When a decision on a nonconforming construction permit is made pursuant to this chapter, the decision-making authority shall announce its decision in writing in accordance with the provisions of Section 21.54.120 of this title.
- F. Effective Date and Appeals. The City Planner's decision on nonconforming construction permits shall become effective unless appealed in accordance with the provisions of Section 21.54.140 of this title.
- G. Expiration, Extensions and Amendments.
- 1. Expiration of Permit if Not Exercised. The expiration period for an approved nonconforming construction permit shall be as specified in Section 21.58.030 of this title.
  - 2. Extension of Permit if Not Exercised. The expiration period for an approved nonconforming construction permit may be extended pursuant to Section 21.58.040 of this title.
  - 3. Amendment. An approved nonconforming construction permit may be amended pursuant to the

provisions of Section 21.54.125 of this title.

(Ord. CS-050 § VI, 2009; Ord. CS-164 §§ 10, 14, 2011; Ord. CS-178 § XCVI, 2012; Ord. CS-212 § 1, 2013)

**§ 21.48.090. Abatement of nonconforming structures and uses.**

- A. If a nonconforming use and/or structure is determined by the City Planner to be adverse to the orderly development of the city and/or to the public health, safety, or welfare of persons or property, the City Planner shall schedule a public hearing before the Planning Commission to establish the conditions of abatement and the abatement period. The abatement period shall start from the date of the applicable resolution and shall be:
  - 1. For All Residential Uses. Not less than one or more than five years.
  - 2. For All Nonresidential Uses. Not less than one or more than ten years.
  - 3. For All Nonconforming Structures. Not less than three years or more than twenty-five years.
  - 4. Nothing in these provisions shall preclude abatement of a nuisance pursuant to Section 6.16.150 of the Carlsbad Municipal Code.
- B. Notices and Hearings. Notice of said public hearing shall be given as required by Section 21.54.060.A and 21.54.061 of this title.
- C. Public Hearing Evidence.
  - 1. The Planning Commission shall consider at the public hearing, all pertinent data to enable it to arrive at an equitable abatement period which will protect the public health, safety or welfare of persons or property, yet will allow the owner of record, or lessee if applicable, sufficient time to amortize their investment.
  - 2. The owner or lessee shall be allowed to present any evidence related to the case.
  - 3. When setting the abatement period, the Planning Commission shall take into consideration the type of construction, age, condition, and extent of nonconformity of the structure or use in question; any structural alterations or expansions; and/or the installation of major equipment designed into the structure prior to the date of nonconformity.
- D. Hearing Decision. After the close of the public hearing, the Planning Commission shall determine and establish by resolution the abatement period, and shall set forth in said resolution all findings and facts upon which the date of such abatement period is based.
- E. Notice of Decision to Owner. The secretary of the Planning Commission shall formally notify the owner of the property of the action of the Planning Commission by mailing a copy of the resolution, via certified return receipt mail, within ten days following the date of its adoption by the Planning Commission.
- F. Effective Date and Appeals. The above action of the Planning Commission shall become effective unless appealed in accordance with the provisions of Section 21.54.150 of this title.
- G. Recordation. The secretary of the Planning Commission shall transmit a final signed copy of the resolution of the Planning Commission or City Council, whichever is final, to the County Recorder of San Diego for recordation.

(Ord. CS-050 § VI, 2009; Ord. CS-178 § XCVI, 2012)

**CHAPTER 21.49  
PLANNING MORATORIUM**

**§ 21.49.010. Purpose and intent.**

- (a) Based on a series of reports, the City Council has found that the city has reached its sewage treatment capacity rights in the Encina water pollution control facility. In view of the fact that sewer service was in most cases unavailable to serve potential building in the city, the City Council added Chapter 18.05 to the municipal code to impose a moratorium on the issuance of building permits subject to certain exceptions.
- (b) The public facilities element of the Carlsbad general plan provides that developments may not be approved unless the City Council can find that all the necessary public services, including sewer service, will be available when needed. Due to the lack of sewage capacity, it is impossible in most cases for the City Council in considering a development to make the necessary findings in order to support an approval. In order to implement the general plan provision, and in view of the fact that sewer service in most cases is unavailable, the City Council has determined that it is necessary to impose a moratorium on the processing of developmental approvals.
- (c) It is also the purpose and intent of this chapter to provide for the eventuality that additional amounts of sewage treatment capacity will become available and to provide authority for the adoption, by the City Council, by resolution, of a system for allocating that capacity among competing demands. Such an allocation would authorize an applicant to process a development in accordance with the usual city procedures.

(Ord. 9518 § 1, 1979)

**§ 21.49.020. Planning moratorium.**

Notwithstanding any provisions of the Carlsbad Municipal Code to the contrary, application, processing or approval of any entitlement for development pursuant to Title 20 or Title 21 of the Carlsbad Municipal Code is prohibited except as follows:

- (1) Applications for approvals located within that portion of the city within the service territory of the San Marcos or Leucadia County water districts may be accepted and processed provided the applicant submits in conjunction with his or her application a letter from such district indicating that the sewer services are available in connection with the development. The application may be approved if the appropriate decision-making body finds that sewer service remains available and will continue to remain available concurrent with need in connection with the development. Such applications may also be accepted and processed provided the applicant submits a letter from such district indicating that sewer service will be available to serve the development, and provided further, that the City Council finds that it is reasonable to expect that sewer service will be available to serve the development concurrent with need.

The approval for any project processed pursuant hereto shall be subject to a condition that final maps may not be approved nor building permits issued until the City Council finds that sewer capacity is in fact available and valid sewer connection permits have been issued.

- (2) Applications for conditional use permits, variances, reversions to acreage, certificates of compliance and adjustment plots may be accepted, processed and approved if the City Manager determines that the approval of such item will not require any new sewer connection permit. The City Manager's determination may be appealed to the City Council, whose decision shall be final.

- (3) Any necessary applications for projects undertaken by the city may be accepted, processed and approved.
  - (4) Any application for which the Carlsbad Municipal Code provides an alternative method of sewer disposal for the project site may be accepted, processed and approved.
  - (5) The City Council may grant exceptions for projects of other governmental agencies if the City Council in its sole discretion determines that the project is necessary and in the public interest.
  - (6) Applications for tentative subdivision map extensions may be accepted, processed and approved subject to the imposition of certain conditions, to insure that the tentative map cannot be finalized without the finding by the City Council that adequate sewer service is available.
  - (7) The City Council may grant exceptions for projects of certain privately owned community facilities, such as churches, schools and hospitals, if the City Council in its sole discretion determines that such project is necessary and in the public interest.
  - (8) Applications for revision of an approved tentative subdivision map may be accepted and processed; provided the City Manager determines that no additional sewer capacity will be required. Such revisions may be approved if the City Council finds that no additional sewer capacity will be required, no additional lots or dwelling units are proposed, the subdivision boundaries are retained, and it is consistent with zoning and applicable general and specific plans.
  - (9) Applications for projects located within the service territory of the city to be served by a satellite sewage treatment facility may be accepted, processed and approved. The approval of any project processed pursuant hereto shall be subject to a condition that final maps or other similar approvals may not be given until the City Council finds that sewer capacity is in fact available. Building permits shall not issue until a valid sewer connection permit has been issued which may be subject to such system for the allocation of capacity in the satellite plant or such other source of sewerage treatment capacity as the City Council may adopt.
  - (10) Applications for revisions to approved master plans in the planned community zone may be accepted and processed.
  - (11) Applications for general plan amendments may be accepted, processed and approved.
  - (12) Applications for annexations may be accepted, processed and approved, provided the City Manager finds that such annexation is necessary to accommodate a revision to an approved master plan or specific plan.
- (Ord. 9600 § 1, 1981; Ord. 9577 § 1, 1981; Ord. 9552 § 1, 1980; Ord. 9542 § 1, 1979; Ord. 9539 §§ 1, 2, 1979; Ord. 9518 § 1, 1979)

#### **§ 21.49.025. Exception for Encina sewer service territory.**

The provisions of Section 21.49.020 shall not apply to land within the Encina sewer service territory or the Palomar Airport Drainage Basin, all as shown on the map entitled sewer service areas on file with the City Clerk and incorporated by reference herein. This section shall be effective when the City Council determines that the capacity from the rerating of the Encina plant is available.

(Ord. 9556 § 1, 1980; Ord. 9600 § 2, 1981)

#### **§ 21.49.030. Sewer allocation system.**

In the event the City Council determines that additional amounts of sewage treatment capacity are

available, but which are not of sufficient quantity to justify lifting the planning moratorium imposed by this chapter, it shall have authority to adopt by resolution a system for allocating all or any part of that capacity. If an applicant receives an allocation pursuant to any such system, it shall constitute an exemption from the provisions of this chapter, and the applicant shall be permitted to apply for and process his or her project; provided that it is done in accordance with the procedures of the allocation system.

(Ord. 9518 § 1, 1979)

## CHAPTER 21.50 VARIANCES

**Note: Prior ordinance history: Ord. Nos. NS-791 and CS-102.**

### **§ 21.50.010. Intent and purpose.**

- A. When practical difficulties, unnecessary hardships, or results inconsistent with the general purpose of this title result through the strict and literal interpretation and enforcement of the provisions hereof, a minor variance or variance from the provisions of this title may be approved or conditionally approved, so that the spirit of this title shall be observed, public safety and welfare secured and substantial justice done.
- B. The purpose of any minor variance or variance shall be to prevent discrimination, and no variance shall be approved or conditionally approved which would have the effect of granting a special privilege not shared by other property in the same vicinity and zone.

(Ord. CS-178 § XCVII, 2012)

### **§ 21.50.020. Application and fee.**

- A. An application for a minor variance or variance may be made by the record owner or owners of the property affected or the authorized agent of the owner or owners. The application shall:
  - 1. Be made in writing on a form provided by the City Planner;
  - 2. State fully the circumstances and conditions relied upon as grounds for the application; and
  - 3. Be accompanied by adequate plans, which allow for detailed review pursuant to this chapter and demonstrate compliance with the requirements of this chapter, a legal description of the property involved and all other materials as specified by the City Planner.
- B. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.

(Ord. CS-178 § XCVII, 2012)

### **§ 21.50.030. Notices and hearings.**

- A. Notice of an application for a minor variance shall be given pursuant to the provisions of Sections 21.54.060.B and 21.54.061 of this title.
- B. Notice of an application for a variance shall be given pursuant to the provisions of Sections 21.54.060.A and 21.54.061 of this title.

(Ord. CS-178 § XCVII, 2012)

### **§ 21.50.040. Decision-making authority.**

- A. Minor Variances.
  - 1. The City Planner may approve, conditionally approve or deny a minor variance for the following:
    - a. Modifications of distance or area regulations, provided such modification does not exceed

seventy-five percent of required front, side or rear yards nor exceed ten percent of maximum lot coverage regulations;

- i. Unenclosed balconies, patios and decks which extend above the existing ground level may be allowed to project to the property lines of side or rear yards immediately adjacent to permanent open space areas.
  - b. Modifications of the minimum lot width regulations, provided such modification does not result in a lot width less than fifty feet;
  - c. Walls or fences to exceed heights permitted by the zoning regulations;
  - d. Modifications to the sign area regulations, provided such modification does not exceed ten percent of the maximum allowed sign area;
  - e. Modifications to the sign height regulations provided such modification does not exceed ten percent of the maximum allowed sign height.
2. The City Planner's decision shall be based upon his/her review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the administrative hearing, if one is conducted pursuant to the provisions of Section 21.54.060.B.2 of this title.
  3. The City Planner may approve or conditionally approve a minor variance if all the findings of fact in Section 21.50.050 of this title are found to exist.

B. Variances.

1. The Planning Commission may approve, conditionally approve or deny a variance that is not subject to subsection A of this section.
2. The Planning Commission's decision shall be based upon its review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the public hearing.
3. The Planning Commission shall hear the matter and may approve or conditionally approve the variance if all the findings of fact in Section 21.50.050 of this title are found to exist.

(Ord. CS-178 § XCVII, 2012)

**§ 21.50.050. Findings of fact.**

- A. No minor variance or variance shall be approved or conditionally approved unless the decision-making authority finds:
  1. That because of special circumstances applicable to the subject property, including size, shape, topography, location or surroundings, the strict application of the zoning ordinance deprives such property of privileges enjoyed by other property in the vicinity and under identical zoning classification;
  2. That the minor variance or variance shall not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and zone in which the subject property is located and is subject to any conditions necessary to assure compliance with this finding;
  3. That the minor variance or variance does not authorize a use or activity which is not otherwise

expressly authorized by the zone regulation governing the subject property;

4. That the minor variance or variance is consistent with the general purpose and intent of the general plan, this title and any applicable specific or master plans;
5. In addition, in the coastal zone, that the minor variance or variance is consistent with the general purpose and intent of the certified local coastal program and does not reduce or in any manner adversely affect the requirements for protection of coastal resources.

(Ord. CS-178 § XCVII, 2012)

**§ 21.50.060. Announcement of decision and findings of fact.**

When a decision on a minor variance or variance is made pursuant to this chapter, the decision-making authority shall announce its decision in writing in accordance with the provisions of Section 21.54.120 of this title.

(Ord. CS-178 § XCVII, 2012)

**§ 21.50.070. Effective date and appeals.**

- A. Decisions on minor variances shall become effective unless appealed in accordance with the provisions of Section 21.54.140 of this title.
- B. Decisions on variances shall become effective unless appealed in accordance with the provisions of Section 21.54.150 of this title.

(Ord. CS-178 § XCVII, 2012)

**§ 21.50.080. Expiration, extensions and amendments.**

- A. The expiration period for minor variances and variances shall be as specified in Section 21.58.030 of this title.
- B. The expiration period for an approved minor variance or variance may be extended pursuant to Section 21.58.040 of this title.
- C. An approved minor variance or variance may be amended pursuant to the provisions of Section 21.54.125 of this title.

(Ord. CS-178 § XCVII, 2012)

## CHAPTER 21.52 AMENDMENTS

**Note: Prior ordinance history: Ord. Nos. CS-102 and CS-164.**

### **§ 21.52.010. Purpose.**

- A. The purpose of this chapter is to establish the process and requirements to amend this title, the general plan, and the local coastal program, including amendments to the boundaries of land use designations and zones.
- B. The process and requirements established by this chapter regarding amendments to the local coastal program are intended to be consistent with and shall not supersede the requirements of the California Coastal Act.

(Ord. CS-178 § XCIX, 2012)

### **§ 21.52.020. Amendment initiation.**

- A. Amendments to this title, the general plan, or local coastal program may be initiated by:
  1. The verified application of one or more owners of property or building proposed to be changed or reclassified;
  2. Resolution of intention of the City Council;
  3. Resolution of intention of the Planning Commission;
  4. The City Planner.

(Ord. CS-178 § XCIX, 2012)

### **§ 21.52.030. Application and fees.**

- A. An application to amend this title, the general plan, or local coastal program shall:
  1. Be made in writing on a form provided by the City Planner;
  2. State fully the circumstances and conditions relied upon as grounds for the application; and
  3. Be accompanied by all other materials as specified by the City Planner.
- B. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.
- C. If the application is applicable to a specific parcel(s) of land, the application shall be made by the owner of the property affected or the owner's authorized agent. This paragraph shall not apply to an amendment initiated by the city. In addition to the provisions of subsection A of this section, such applications shall also include:
  1. Adequate plans and a legal description of the property involved.

(Ord. CS-178 § XCIX, 2012)

**§ 21.52.040. Notices and hearings.**

Notice of an application to amend this title, the general plan, or the local coastal program shall be given pursuant to the provisions of Sections 21.54.060.A and 21.54.061 of this title.

(Ord. CS-178 § XCIX, 2012)

**§ 21.52.050. Decision-making authority.**

A. The City Council may approve or deny amendments to this title, the general plan, or local coastal program.

1. Before the City Council decision, the Planning Commission shall hear and consider the application and shall prepare a recommendation for the City Council that includes the reasons for the recommendation and the relationship of the proposed amendment to applicable provisions of this title, the general plan and local coastal program, and any applicable master or specific plan.
2. The City Council shall hear the matter, and after considering the findings and recommendations of the Planning Commission, may approve, conditionally approve, or deny amendments to this title, the general plan or local coastal program.
3. The City Council may make substantial modifications to the Planning Commission's recommendation on a proposed amendment to this title, the general plan, or local coastal program, including modifications not previously considered by the Planning Commission. The City Council, in its discretion, may refer said modifications back to the Planning Commission for recommendation.

B. Amendments to the local coastal program are also subject to approval by the California Coastal Commission.

(Ord. CS-178 § XCIX, 2012)

**§ 21.52.060. Announcement of decision and findings of fact.**

When a decision is made pursuant to this chapter, the decision-making authority shall announce its decision in writing in accordance with the provisions of Section 21.54.120 of this title.

(Ord. CS-178 § XCIX, 2012)

**§ 21.52.070. Effective date.**

A. A decision of the City Council to amend the general plan or this title is final, conclusive and shall be effective thirty days after the City Council's adoption of the resolution (for amendments to the general plan) or ordinance (for amendments to this title).

B. Within the coastal zone, the City Council's approval of an amendment to the local coastal program shall not become effective until the amendment is approved by the California Coastal Commission, pursuant to Section 30514 of the Public Resources Code.

(Ord. CS-178 § XCIX, 2012)

## CHAPTER 21.53 USES GENERALLY

### **§ 21.53.010. All zones subject to this chapter.**

The foregoing regulations pertaining to the several zones shall be subject to the general provisions, conditions and exceptions contained in this chapter.

(Ord. 9060 § 1500; Ord. 9804 § 5, 1986)

### **§ 21.53.015. Voter authorization required for airport expansion.**

- (a) The City Council shall not approve any zone change, general plan amendment or any other legislative enactment necessary to authorize expansion of any airport in the city nor shall the city commence any action or spend any funds preparatory to or in anticipation of such approvals without having been first authorized to do so by a majority vote of the qualified electors of the city voting at an election for such purposes.
- (b) This section was proposed by initiative petition and adopted by the vote of the City Council without submission to the voters and it shall not be repealed or amended except by a vote of the people.

(Ord. 9558 § 1, 1980; Ord. 9804 § 5, 1986)

### **§ 21.53.020. Limitation of land use—Sewer availability.**

Except as provided in this title, no building shall be erected, reconstructed or structurally altered, nor shall any building or land be used for any purpose other than is specifically permitted in the same zone in which such building or land is located. Any rights heretofore granted for such development by Title 21 are qualified and made subject to Chapter 18.05 of this code. Notwithstanding the zoning which applies to any property within the city, that property may not be developed unless it is determined that a sewer is available to serve such development and the City Council approves issuance of permits therefor pursuant to a sewer allocation system as the city may adopt.

(Ord. 9060 § 1501; Ord. 9508 § 1, 1978; Ord. 9538 § 1, 1979; Ord. 9804 § 5, 1986)

### **§ 21.53.030. Limitation on issuance of building permit.**

No building permit shall be issued for any building or structure to be erected on a lot having less than twenty feet frontage on a dedicated public street or a public dedicated easement accepted by the city or on a lot situated at the terminus of a street that should be extended. Where the panhandle or flag-shaped portion of a lot is adjacent to the same portion of another such lot, the required minimum frontage on such street or easement shall be fifteen feet provided a joint easement ensuring common access to both such portions is agreed upon by the owners of such lots and recorded. The City Council based on a report from the City Engineer may grant an exception to the limitations of this section for lots situated at the terminus of a street that should be extended.

(Ord. 9060 § 1501(1); Ord. 9073 § 2; Ord. 9467 § 4, 1976; Ord. 9804 § 5, 1986)

### **§ 21.53.040. Clarification of ambiguity.**

If ambiguity arises concerning the appropriate classification of a particular use within the meaning and intent of this title, or if ambiguity exists with respect to matters of height, yard requirements, area requirements or zone boundaries, as set forth in this title and as they may pertain to unforeseen circumstances, including technological changes in processing of materials, it shall be the duty of the City Planner to make an interpretation and thereafter such interpretation shall govern.

(Ord. 9060 § 1502; Ord. 9804 § 5, 1986; Ord. CS-178 § C, 2012)

**§ 21.53.050. Use control in reclassified precise plan.**

In order to assure that the purpose and provisions of a formally adopted precise plan of record shall be conformed to, the land reclassified within any precise plan shall be limited exclusively to such uses as are permitted in the zone to which it is classified. Uses shown on such precise plan, including automobile parking, shall conform to such precise plan, even though such use, or uses, are not otherwise specifically classified by this title as permissible in any given zone.

(Ord. 9060 § 1503; Ord. 9804 § 5, 1986)

**§ 21.53.060. Indicated potential classifications.**

All potential zoning as presently delineated on the zoning map is removed.

(Ord. 9060 § 1504; Ord. 9110 § 1; Ord. 9114 § 1; Ord. 9804 § 5, 1986)

**§ 21.53.070. Translating potential classifications to permissible use.**

Types of land use indicated by circumscribed symbols within areas identified on the zoning map by a dashed line may be activated and made permissible uses by the adoption of a precise plan of design for the area. Such precise plan shall be adopted as a part of the proceedings for the reclassification of property to the indicated potential zone as provided in Chapter 21.52 and the map adopted thereby shall constitute an amendment to the zoning map. This precise plan shall by map, diagram or test, or all of them, indicate boundaries, design, arrangement and dimensions of any streets, alleys, parking areas, building sites and similar features pertinent to precise zoning. The comprehensive provisions of such precise plan shall take precedence over the individual provisions of this title covering subjects such as parking, yards, etc.

(Ord. 9060 § 1505; Ord. 9804 § 5, 1986)

**§ 21.53.080. Public utilities.**

The provisions of this title shall not be construed to limit or interfere with the installation, maintenance and operation of mutual water companies or public utility pipe lines and electric or telephone transmission lines, or railroads, when located in accordance with the applicable rules and regulations of the Public Utilities Commission of the State of California within rights-of-way, easements, franchises or ownerships of such public utilities.

(Ord. 9060 § 1506; Ord. 9804 § 5, 1986)

**§ 21.53.084. Keeping of dogs, cats and household pets.**

Ordinary household pets, including, but not limited to, dogs and cats, may be kept in any zone. Not more than three adult dogs or cats in any combination are permitted for each dwelling unit, together with offspring under four months of age. Such keeping shall conform to the requirements of Chapters 7.04 and 7.08.

(Ord. 9502 § 9, 1978; Ord. 9804 § 5, 1986)

**§ 21.53.085. Wild animals.**

In zones where the keeping of wild animals is permitted, a wild animal may be kept, provided a wild animal permit has been issued for it by the state and provided the keeping of such wild animal does not constitute the establishment or maintenance of a private zoo, as defined in Section 21.04.400 of this title. Private zoos may be established or maintained only as permitted by the underlying zone.

(Ord. 9501 § 3, 1978; Ord. 9804 § 5, 1986; Ord. 5072 § 3, 1986; Ord. CS-178 § CI, 2012)

**§ 21.53.090. Temporary real estate office.**

In any newly created subdivision, the subdivider or assignee may operate a temporary real estate office for the purpose of selling lots in the subdivision only. Such use shall cease no later than the date of the close of escrow of the final home in the subdivision.

(Ord. 9060 § 1507; Ord. 9186 § 1; Ord. 9804 § 5, 1986; Ord. CS-178 § CI, 2012)

**§ 21.53.110. Temporary construction buildings.**

Temporary structures for the housing of tools and equipment, or containing supervisory offices in connection with major construction on major construction projects may be established and maintained during the progress of such construction on such project and shall be abated within sixty days after completion, or sixty days after cessation of work.

(Ord. 9060 § 1509; Ord. 9804 § 5, 1986)

**§ 21.53.120. Affordable housing multi-family residential projects—Site development plan required.**

A. Site Development Plan Requirement.

1. Notwithstanding anything to the contrary in this code, no building permit or other entitlement shall be issued for any multi-family residential development having more than four dwelling units or an affordable housing project of any size unless a site development plan has been approved for the project. The site development plan shall be processed pursuant to the provisions of Chapter 21.06 of this title.
2. A site development plan for a multi-family residential project (not affordable) shall not be required for any project processed pursuant to the provisions of Chapter 21.45 of this title.

B. Development Standards.

1. The development (both for multi-family residential and affordable housing) shall be subject to the development standards of the zone in which the development is located and/or any applicable specific or master plan except for affordable housing projects as expressly modified by the site development plan. The site development plan for affordable housing projects may allow less restrictive development standards than specified in the underlying zone or elsewhere provided that the project is in conformity with the general plan and adopted policies and goals of the city, it would have no detrimental effect on public health, safety and welfare, and, in the coastal zone, any project processed pursuant to this chapter shall be consistent with all certified local coastal program provisions, with the exception of density. In addition, the decision-making authority in approving a site development plan may impose special conditions or requirements which are more restrictive than the development standards in the underlying zone or elsewhere that include provisions for, but are not limited to, the following:
  - a. Density of use;
  - b. Compatibility with surrounding properties and land uses;
  - c. Parking standards;
  - d. Setbacks, yards, active and passive open space required as part of the entitlement process, and on-site recreational facilities;

- e. Height and bulk of buildings;
  - f. Fences and walls;
  - g. Signs;
  - h. Additional landscaping;
  - i. Grading, slopes and drainage;
  - j. Time period within which the project or any phases of the project shall be completed;
  - k. Points of ingress and egress;
  - l. Such other conditions as deemed necessary to ensure conformity with the general plan and other adopted policies, goals or objectives of the city.
- C. In addition the decision-making authority may require that the developer provide public improvements either on or off the subject site as are needed to serve the proposed development or to mitigate public facilities needs or impacts created by the project.
- (Ord. 9767 § 1, 1985; Ord. 9804 § 5, 1986; Ord. 9826 § 1, 1987; Ord. NS-207 § 6, 1992; Ord. NS-402 § 7, 1997; Ord. NS-753 § 2, 2005; Ord. CS-178 § CII, 2012)

#### **§ 21.53.130. Satellite television antenna—Purpose.**

The purpose and intent of Sections 21.53.130 through 21.53.150 promulgating satellite television antenna regulations are to set forth clearly defined health, safety or aesthetic objectives of the city which do not operate to impose unreasonable limitations on, or prevent, reception of satellite-delivered signals by antennas or to impose costs on the users of such antennas that are excessive in light of the purchase and installation cost of the equipment, while recognizing that the following standards are necessary and important in preserving the health, safety or aesthetic qualities of the community and various zones in which satellite television antennas are to be located. The further intent and purpose of Sections 21.53.130 through 21.53.150 is to promote the orderly and aesthetically pleasing installation and use of satellite television antennas in all zones while prohibiting to the maximum extent possible unsightly antennas not screened from public view or located in areas where they present the least intrusive appearance to the neighborhood, community and the public.

(Ord. NS-100 § 2, 1990)

#### **§ 21.53.140. Satellite television antenna—Generally.**

- (a) Satellite television antennae, as defined in Section 21.04.302, are permitted in all zones subject to the provisions of this section and the provisions of the underlying zone. Satellite television antennae less than thirty inches in diameter are permitted in any zone and are not subject to the requirements of this section, provided that such antennae are attached to a permitted main or accessory structure on the lot.
- (b) Any satellite antenna erected without an approved satellite antenna permit shall be charged an investigation fee, in addition to the permit fee, which shall be collected whether or not a permit is then or subsequently issued. The investigation fee shall be equal to the amount of the permit fee required by this chapter. The payment of such investigation fee shall not exempt the property owner or applicant from compliance with all other provisions of this chapter nor from any penalty prescribed by this code.

- (c) "Antenna Height" Defined. The height of the antenna or dish shall be measured vertically from the highest point of the structure when positioned for operation to the bottom of the base at either roof or ground level whichever is applicable.
- (d) Residential Zone Restrictions. Satellite television antennae shall be considered as accessory to the main structure and shall be permitted in all residential zones subject to the following limitations.
  - (1) The antenna shall be ground-mounted.
  - (2) The antenna shall be located within the rear or side yard only; on corner lots the antenna shall not be located on the street side yard.
  - (3) The antenna shall not exceed fifteen feet in height.
  - (4) The antenna shall not be permitted on properties which have been designated as historic sites.
  - (5) The antenna shall be screened from adjacent properties and public view by a wall, fence, hedge or appropriate plant or landscape material between the antenna and the property line so that no more than twenty-five percent of the antenna extends above the top of the screening material. The proposed antenna screening shall be subject to the review and approval of the City Planner.
  - (6) The antenna shall be located at least four feet from any property line.
  - (7) No more than one satellite television antenna shall be permitted per lot.
  - (8) The antenna shall not exceed ten feet in diameter.
- (e) Commercial and Industrial Zone Restrictions. Satellite television antennae shall be considered as accessory to the main structure and shall be permitted in all commercial and industrial zones subject to the following limitations:
  - (1) Ground-mounted antenna.
    - (A) Ground-mounted antenna shall be located in the rear fifty percent of the lot.
    - (B) The antenna shall not exceed twenty feet in height.
    - (C) The antenna shall not be used as a sign or contain any advertising copy.
    - (D) The antenna shall be screened from adjacent properties and public view by a wall, fence, hedge or other appropriate plant or landscape material between the antenna and the property line so that no more than twenty-five percent of the antenna extends above the top of the screening material.
    - (E) The antenna shall not be located in any required parking area.
  - (2) Roof-mounted antenna may be permitted subject to the following limitations.
    - (A) Roof-mounted antenna shall not exceed fifteen feet in height; provided, however, that in no event shall the antenna extend more than five feet above the permitted height of building upon which it is located.
    - (B) Roof-mounted antennae shall be screened by recessing the antenna into the roof line or by constructing a screen out of similarly textured roofing or exterior wall material as the structure upon which it is located so that the antenna is not visible at ground level.

- (3) No more than one satellite television antenna shall be permitted per lot; provided, however, that additional antennae may be permitted by the City Planner if there is more than one use on a lot which cannot feasibly be served by a single antenna.
- (A) In the PM, CM and M zones, more than one satellite antenna per use may be permitted with a minor conditional use permit. Installation of said antennae shall comply with subsections (e)(1) and (2) listed above.
- (4) The provisions of this subsection shall apply to hotels and motels located in residential zones.
- (5) The provisions of this subsection shall not apply to satellite television antenna used by and located upon the property of a commercial cable television operator franchised by the city.
- (f) Exception—Planned Unit Developments and Condominiums. Provisions of this section shall apply to residential planned developments, planned unit developments or condominiums; provided, however, that roof-mounted antennae may be allowed as part of the planned development permit for the project.
- (g) Agricultural Zone Restrictions. Satellite television antennae shall be considered as accessory to the main structure or use on the property and shall be permitted subject to the following limitations:
- (1) The antenna shall be ground-mounted.
  - (2) The antenna shall be located at least four feet from any property line.
  - (3) The antenna shall not exceed 20 feet in height.
  - (4) The antenna shall be screened from public view by a wall, fence, hedge, or other appropriate plant or landscape material between the antenna and the property line so that no more than 25% of the antenna is visible above the screening material.
- (h) Public Utility Zone Restrictions. Satellite television antennae shall be considered a permitted accessory use in the public utility zones.
- (i) Nonconforming Antennae. Any satellite television antenna erected prior to the effective date of the ordinance codified in this chapter shall be brought into compliance with the provisions of this section no later than one year after the effective date of that ordinance.
- (j) Whenever a discretionary permit is required for construction of a project, the satellite antenna permit may be consolidated with the discretionary permit.
- (k) Nothing in this section shall be construed to eliminate or change the requirement for a conditional use permit for radio or television transmitters.
- (Ord. 9785 § 24, 1986; Ord. 9804 § 5, 1986; Ord. NS-19 § 2, 1988; Ord. NS-100 §§ 3—6, 1990; Ord. CS-164 § 10, 2011; Ord. CS-224 § XXXIX, 2013; Ord. CS-334 § 11, 2018)

#### **§ 21.53.150. Satellite television antenna—Waiver or modification of standards.**

If, after application of the standards set forth in Section 21.53.140, a satellite antenna cannot be physically located on the applicant's property or would result in the imposition of unreasonable costs considering the purchase and installation of the equipment, then the City Planner shall waive or modify the standard(s), but only to the extent necessary to allow the installation of one satellite television antenna to be located on the applicant's property in such a place and manner as to present the least impact on aesthetics from the neighboring properties, neighborhood and public taking into account all the remaining health, safety or

aesthetic regulations set forth in that section.

(Ord. NS-100 § 7, 1990; Ord. CS-102 § CII, 2010; Ord. CS-164 § 10, 2011)

**§ 21.53.230. Residential density calculations, residential development restrictions on open space and environmentally sensitive lands.**

- (a) For the purposes of Titles 20 and 21 of this code, residential density shall be determined based on the number of dwelling units per developable acre of property.
- (b) The following lands are considered to be undevelopable and shall be excluded from density calculation:
  - (1) Beaches;
  - (2) Permanent bodies of water;
  - (3) Floodways;
  - (4) Natural slopes with an inclination of greater than 40% except as permitted pursuant to Section 21.95.140.B of this code;
  - (5) Significant wetlands;
  - (6) Significant riparian or woodland habitats;
  - (7) Land subject to major power transmission easements;
  - (8) Land upon which other significant environmental features as determined by the environmental review process for a project are located;
  - (9) Railroad track beds.
- (c) No residential development shall occur on any property listed in subsection (b). Subject to the provisions of Chapters 21.33 and 21.110, the City Council may permit limited development of such property if, when considering the property as a whole, the prohibition against development would constitute an unconstitutional deprivation of property. The Planning Commission or City Council, whichever is the final decision-making body for a residential development may permit accessory facilities, including, but not limited to, recreational facilities, view areas, and vehicular parking areas, to be located in floodplains (subject to Chapter 21.110) and on land subject to major power transmission easements.
- (d) No more than 50% of the portion of a site containing 25% to 40% slopes may be utilized for calculating allowable residential density. Residential development on slopes with an inclination of 25% to 40%, inclusive, shall be designed to minimize the amount of grading necessary to accommodate the project. For projects within the coastal zone, the grading provisions of the Carlsbad local coastal program and Chapters 21.38 and 21.203 of the municipal code shall apply.
- (e) The potential unit yield for a property, based on the minimum, growth management control point (GMCP), or maximum density of the applicable general plan land use designation, shall be subject to the following:
  - (1) Equation used to determine unit yield: developable lot area (in acres) × density = unit yield.
    - (A) "Density" used in this calculation is the minimum, GMCP, or maximum density of the

applicable general plan land use designation;

- (B) The resulting unit yield shall be subject to Table A, below.
- (2) For purposes of this section:
  - (A) "Rounded-up" means rounding the fractional unit yield up to the next whole unit; and
  - (B) "Rounded-down" means rounding the fractional unit yield down to the previous whole unit, but not less than one unit.
- (3) The information contained in Table A, below, shall not preclude the city from approving residential densities above the GMCP, or maximum density of the applicable land use designation, subject to adopted city policies and regulations.

**Table A Unit Yield Rounding**

Density Used for Calculation	Unit Yield Includes a	Provisions for Unit Yield Rounding
Minimum	fractional unit of 0.5 or greater	SHALL be rounded-up <sup>1</sup>
	fractional unit below 0.5	MAY be rounded-down <sup>2</sup>
GMCP	fractional unit of 0.5 or greater	MAY be rounded-up <sup>3</sup>
	fractional unit below 0.5	SHALL be rounded-down
Maximum	fractional unit	SHALL be rounded-down

**Notes:**

- 1 Unless the project density is allowed below the minimum of the density range, pursuant to the general plan.
- 2 Unit yields rounded-down pursuant to this provision that result in a density below the minimum density of the applicable land use designation shall be considered consistent with the general plan.
- 3 Subject to a fractional and/or whole unit allocation from the "excess dwelling unit bank" and provided the maximum density of the applicable land use designation is not exceeded.

(Ord. 9795 § 1, 1986; Ord. NS-446 § 2, 1998; Ord. NS-524 § 6, 2000; Ord. NS-753 §§ 3, 4, 2005; Ord. CS-171 § 1, 2012; Ord. CS-178 § CIII, 2012; Ord. CS-287 § 7, 2015)

**§ 21.53.240. Nonresidential development restrictions on open space and environmentally sensitive lands.**

Nonresidential development shall be designed to avoid development on lands identified in Section 21.53.230.

(Ord. 9795 § 2, 1986)

**§ 21.53.250. On-shore oil and gas facilities.**

In all zones except C-M, M and P-M on-shore oil and gas facilities including, but not limited to, processing plants, refineries, storage facilities, transfer stations, pipelines, warehouses, offices, tanker terminals, helicopter pads and the like are prohibited.

(Ord. NS-87 § 2, 1989)

**CHAPTER 21.54  
PROCEDURES, HEARINGS, NOTICES AND FEES**

**§ 21.54.010. Review and approval/denial of applications.**

- A. Permit Streamlining Act Compliance. The city shall comply with the requirements of the California Permit Streamlining Act (Title 7, Division 1, Chapter 4.5 of the California Government Code).
- B. Application Form.
  1. The City Planner shall prescribe the form of applications for the development permits or approvals and applications for changes in zone or general plan boundaries or classifications.
  2. The City Planner may prepare and provide application forms and shall prescribe the type of information to be provided with the application by the applicant.
  3. No application shall be accepted unless it is in the proper form and contains all required information.
- C. Signatures on Applications.
  1. All applications shall include the signatures of the owner(s) of the property affected or the authorized agent of the owner.
  2. If signatures of persons other than the owners of property making the application are required or offered in support of, or in opposition to, an application, they may be received as evidence of notice having been served upon them of the pending application, or as evidence of their opinion on the pending issue, but they shall in no case infringe upon the free exercise of the powers vested in the city as represented by the Planning Commission and the City Council.
- D. Applications as Part of Permanent Record. Applications filed pursuant to this title shall be numbered consecutively in the order of their filing, and shall become a part of the city's permanent official records, and there shall be attached thereto and permanently filed therewith copies of all notices and actions with certificates and affidavits of posting, mailing or publications pertaining thereto.
- E. Filing Fees. A fee in an amount established by City Council resolution shall be paid at the time of filing an application for a development permit for approval, or application for a change in zone or general plan boundaries or classifications. No application shall be accepted or deemed accepted until the appropriate fee or fees have been paid.
- F. Application Completeness.
  1. In accordance with Title 7, Division 1, Chapter 4.5, Article 3 of the California Government Code, applications shall be reviewed for completeness as follows:
  2. The City Planner shall consult with appropriate departments concerning the application and shall, within thirty days after the application has been filed with the city, determine in writing whether the application is complete and shall transmit the determination to the applicant.
  3. If the application is determined to be incomplete:
    - a. The written determination shall specify those parts of the application which are incomplete and shall indicate the manner in which the application can be made complete, including a list and description of the specific information needed to complete the application.

- b. The applicant shall have six months from the date the application was initially filed to either resubmit the application or submit the information specified in the determination. Failure of the applicant to resubmit the application or to submit the materials in response to the determination within the six months shall be deemed to constitute withdrawal of the application. If an application is withdrawn or deemed withdrawn a new application must be submitted.
  - 4. Within thirty days of any resubmittal of an application or submittal of materials in response to a written determination of incompleteness, the City Planner shall determine in writing whether the application, together with the subsequently submitted materials, constitute a complete application and shall immediately transmit the determination to the applicant.
  - 5. If an application, together with the submitted materials, is determined by the City Planner to be incomplete, the applicant may appeal the decision in writing to the Planning Commission pursuant to Section 21.54.140. The applicant may also appeal the decision of the Planning Commission to the City Council pursuant to Section 21.54.150.
    - a. The city shall make a final written determination on the appeal not later than sixty calendar days after the receipt of the applicant's written appeal of the City Planner's decision.
  - 6. Failure by the city to meet the time limits specified in this section shall cause the application to be deemed complete.
  - 7. Nothing in this section precludes an applicant and the city from mutually agreeing to an extension of any time limit provided in this section.
- G. Time Limits for Approval or Denial of Development Permits. The city shall approve or disapprove a development permit application within the time limits specified in Title 7, Division 1, Chapter 4.5, Article 5 of the California Government Code, unless an extension of time is mutually agreed to by the applicant and city pursuant to Government Code Section 65957.
- H. Permit Streamlining Act not Applicable to Legislative Actions. The time limits specified in subsections F and G of this section do not apply to legislative actions and likewise do not apply to development permit applications that include legislative changes in applicable general plans, zoning ordinances or other controlling land use legislation.
- (Ord. 9060 § 2000; Ord. 9760 § 15, 1985; Ord. NS-675 §§ 56—58, 76, 2003; Ord. CS-164 § 10, 2011; Ord. CS-178 § CV, 2012)

#### **§ 21.54.040. Decision-making authority for multiple development permits.**

- A. For purposes of this section, "development permit" means any permit, entitlement or approval required pursuant to Title 20 or 21 of this code, or pursuant to any applicable master, specific, or redevelopment plan.
- B. For purposes of this section, "City Planner" shall be interchangeable with "City Engineer" and "Housing and Neighborhood Services Director," and "City Council" shall be interchangeable with "Housing and Redevelopment Commission."
- C. When multiple development permits are processed concurrently for a proposed project, the decision-making authority for all such development permits shall be as follows:
  - 1. The City Planner shall have the authority to approve, conditionally approve or deny, on all concurrently processed development permits, provided that such permits do not include a

development permit that requires a decision from the Planning Commission or City Council.

2. The Planning Commission shall have the authority to approve, conditionally approve or deny, on all concurrently processed development permits that:
    - a. Include a development permit that has been appealed to the Planning Commission in accordance with Section 21.54.140; or
    - b. Include a development permit that requires a decision from the Planning Commission; and that
    - c. Does not include a development permit that requires a decision from the City Council.
  3. The City Council shall have the authority to make a decision on all concurrently processed development permits that:
    - a. Include a development permit that has been appealed to the City Council in accordance with Section 21.54.150 of this title; or
    - b. Include a development permit that requires a decision from the City Council.
- D. Except for appeals, the City Council shall first receive a recommendation from the Planning Commission prior to making a decision on all concurrently processed development permits.  
(Ord. 9060 § 2003; Ord. 9220 § 1, 1968; Ord. 9568 § 5, 1980; Ord. 9760 § 16, 1985; Ord. CS-178 § CV, 2012)

#### **§ 21.54.050. Setting of hearing.**

- A. All proposals for amending zone or general plan boundaries or classifications, or for the granting of any development permit or approval requiring a hearing as provided in this title shall be set for hearing by the City Planner when such hearings are to be held before the Planning Commission and by the City Clerk for hearings to be held before the City Council. Conditional uses in the coastal zone shall be subject to the requirements of this chapter and the additional requirements of Chapter 21.201 as applicable.
- B. The city shall approve or disapprove a project within the time limits specified in California Government Code Sections 65950, 65950.1, 65951, or 65952, unless an extension of time is mutually agreed to by the applicant and city as provided in Government Code Section 65957.
- C. The time limits specified in this section and in Section 21.54.010 above do not apply to legislative actions and likewise does not require that permit applications be deemed approved if not acted on within the statutory period when such permit applications would require legislative changes in applicable general plans, zoning ordinances or other controlling land use legislation.

(Ord. 9060 § 2004; Ord. 1256 § 10, 1982; Ord. 9760 § 17, 1985; Ord. NS-365 § 12, 1996; Ord. CS-079 § VI, 2010; Ord. CS-178 § CV, 2012)

#### **§ 21.54.060. Notices of applications and hearings.**

- A. Noticing of Public Hearings.
  1. When a provision of this code requires notice of a public hearing to be given pursuant to this subsection, at least ten calendar days prior to the public hearing, notice of the hearing shall be given in all of the following ways:

- a. Notice by Mail. Mailed or delivered to:
  - i. The owner of the subject real property or the owner's duly authorized agent;
  - ii. The project applicant and/or the applicant's representative;
  - iii. Each local agency expected to provide water, sewage, streets, roads, schools, or other essential facilities or services to the project, whose ability to provide those facilities and services may be significantly affected by the project;
  - iv. All owners of real property as shown on the latest equalized assessment roll within six hundred feet of the real property that is the subject of the hearing. In lieu of utilizing the assessment roll, records of the county assessor or tax collector that contain more recent information than the assessment roll may be used. If the number of owners to whom notice would be mailed or delivered pursuant to this subparagraph is greater than one thousand, in lieu of mailed or delivered notice, notice may be given by placing a display advertisement of at least one-eighth page in at least two newspapers of general circulation within the city.
  - v. All occupants within one hundred feet of the subject property and the area office of the California Coastal Commission (applicable to coastal development permits only).
  - vi. Any person who has filed a written request for notice with the City Clerk. The City Clerk shall charge a fee established by City Council resolution which is reasonably related to the costs of providing this service. Each request shall be annually renewed.
- b. Published or Posted Notice. Unless newspaper advertisement is provided pursuant to Section 21.54.060.A.iv, the public hearing notice shall either be:
  - i. Published pursuant to California Government Code Section 6061 in at least one newspaper of general circulation within the city at least ten calendar days prior to the hearing; or
  - ii. Posted at least ten calendar days prior to the hearing in at least three public places in the city, including one public place in the area directly affected by the proceeding.
2. When a provision of this code requires notice of a public hearing to be given pursuant to this subsection, notice shall be published pursuant to California Government Code Section 6061 in at least one newspaper of general circulation within the city at least ten calendar days prior to the hearing.

B. Noticing of Administrative Permits.

1. When a provision of this code requires notice of an application pursuant to this subsection, at least ten calendar days prior to a decision on the application, written notice shall be given as follows:
  - a. Notice by Mail. Mailed or delivered to:
    - i. The owner of the subject real property or the owner's duly authorized agent;
    - ii. The project applicant and/or the applicant's representative;
    - iii. All owners of real property as shown on the latest equalized assessment roll within

three hundred feet of the real property that is the subject of the administrative permit; or all owners within one hundred feet for minor coastal development permits only. In lieu of utilizing the assessment roll, records of the county assessor or tax collector that contain more recent information than the assessment roll may be used. If the number of owners to whom notice would be mailed or delivered pursuant to this subsection is greater than one thousand, in lieu of mailed or delivered notice, notice may be given by placing a display advertisement of at least one-eighth page in at least two newspapers of general circulation within the city.

- iv. All occupants within one hundred feet of the subject property, and to the area office of the California Coastal Commission. This requirement applies to minor coastal development permits only.
  - v. Any person who has filed a written request for notice with the City Clerk. The City Clerk shall charge a fee established by City Council resolution which is reasonably related to the costs of providing this service. Each request shall be annually renewed.
2. Once notice has been given in accordance with Section 21.54.060.B.1, any person may file written comments or a written request to be heard within ten calendar days of the date of the notice. If a written request to be heard is filed, the City Planner shall:
    - a. Schedule an administrative hearing; and
    - b. Provide written notice at least five calendar days prior to the date of the administrative hearing to the owner of the subject real property or the owner's duly authorized agent, the project applicant and/or applicant's representative, and any person who filed written comments or a written request to be heard.
  3. The noticing requirements specified in Section 21.54.060.A shall apply if an administrative permit is processed concurrently with a permit, entitlement, or action that requires a public hearing.

(Ord. 9060 § 2005; Ord. 9428 § 1, 1975; Ord. 9536 § 1, 1979; Ord. 9758 § 15, 1985; Ord. NS-44 § 1, 1988; Ord. NS-365 § 13, 1996; Ord. CS-178 § CV, 2012)

#### **§ 21.54.061. Content of notice.**

- A. The notice given pursuant to Section 21.54.060 shall include the date, time and place of a public hearing, the identity of the hearing body or officer, a general explanation of the matter to be considered, and a general description, in text or diagram, of the location of the real property if any, that is the subject of the hearing.
- B. However, within the coastal zone such notice shall contain the following additional information:
  1. A statement that the development is within the coastal zone;
  2. The date of filing of the application and the name of the applicant;
  3. The number assigned to the application;
  4. A brief description of the general procedure of local government concerning the conduct of hearing and local actions;
  5. The system for local and Coastal Commission appeals, including any local fees required,

expressly stating whether the matter is appealable to the Coastal Commission.

C. Notice given pursuant to Section 21.54.060.B shall include a statement that an administrative hearing shall be held upon written request.

(Ord. 9758 § 16, 1985; Ord. NS-365 § 14, 1996; Ord. CS-178 § CV, 2012)

#### **§ 21.54.063. Failure to receive notice.**

The failure of any person or entity to receive notice given pursuant to this chapter shall not constitute grounds for any court to invalidate the action for which the notice is given. If a decision-making body receives substantial evidence that notice has not been given as required by this chapter, then the decision-making body may continue the matter for hearing after proper notice has been given.

(Ord. 9758 § 18, 1985)

#### **§ 21.54.064. Applicant's responsibilities.**

The applicant for any action requiring a notice of public hearing or notice of administrative permit pursuant to the provisions of Section 21.54.060 of this title shall provide the city with public notification materials (i.e. radius map, mailing list and labels as specified by the City Planner) and notice mailing fee equal to the current postage rate to cover the cost of mailing the notice.

(Ord. 9758 § 19, 1985; Ord. CS-102 § CIII, 2010; Ord. CS-164 § 10, 2011; Ord. CS-178 § CVII, 2012)

#### **§ 21.54.080. Investigations.**

The Planning Commission shall cause to be made by its own members, or members of its staff, such investigation of facts bearing upon an application set for hearing that will assure action on each case consistent with the purpose of this title, previous amendments or variances.

(Ord. 9060 § 2007)

#### **§ 21.54.090. Rule establishment for conduct of hearings.**

The Planning Commission may establish rules governing the conduct of public hearings conducted by it.

(Ord. 9060 § 2008)

#### **§ 21.54.100. Hearing continuance without public notice.**

If, for any reason, testimony on any case set for public hearing cannot be completed on the date set for such hearing, the person presiding at such public hearing may, before adjournment or recess thereof, publicly announce the time and place to, and at which, said hearing will be continued, and no further notice is required. However, if a decision on a matter set for public hearing is continued by the decision-making body to a time which is not announced at the hearing to be continued to a time certain, the city shall provide notice of the further hearings or action on the proposed development in the same manner and within the same time limits as established in Sections 21.54.060 and 21.54.061.

(Ord. 9060 § 2009; Ord. NS-365 § 15, 1996; Ord. NS-675 § 59, 2003)

#### **§ 21.54.110. Permanent files shall include summary of testimony.**

A summary of all pertinent testimony offered at public hearings held in connection with an application filed pursuant to this ordinance, and the names of persons testifying shall be recorded and made a part of the permanent files of the case.

(Ord. 9060 § 2010)

**§ 21.54.120. Announcement of decision and findings of fact.**

- A. When a decision is made pursuant to this title an announcement of the decision and findings of fact shall be provided when:
  - 1. Pursuant to Section 21.54.060 of this chapter, a public notice was provided for the associated application; or
  - 2. Notice of such decision is required to be provided pursuant to this section.
- B. The decision-making body shall announce its decision in writing as follows:
  - 1. The City Planner shall announce his/her decision and findings by letter.
  - 2. The Planning Commission shall announce its decision and findings by formal resolution.
  - 3. The City Council shall announce its decision and findings (if applicable) by formal resolution or ordinance.
- C. The announcement of decision and findings shall include:
  - 1. A statement that the permit is approved, conditionally approved, or denied;
  - 2. The facts and reasons which, in the opinion of the decision-making body, make the approval or denial of the permit necessary to carry out the provisions and general purpose of this title;
  - 3. Such conditions and limitations that the decision-making body may impose in the approval of the permit.
- D. The announcement of decision and findings shall be mailed to:
  - 1. The owner of the subject real property or the owner's duly authorized agent, the project applicant and/or the applicant's representative at the address or addresses shown on the application filed with the planning division;
  - 2. Any person who has filed a written request for a notice of decision;
  - 3. Any person who filed a written request for an administrative hearing or to be heard at an administrative hearing.

(Ord. 9379 § 2, 1974; Ord. NS-44 § 2, 1988; Ord. NS-365 § 16, 1996; Ord. CS-178 § CVIII, 2012)

**§ 21.54.125. Amendments to development permits.**

- A. For purposes of this section, "development permit" means any permit, entitlement or approval required pursuant to Title 21 of this code, or pursuant to any applicable master, specific, or redevelopment plan.
- B. Any approved development permit may be amended by following the same procedure required for the approval of said development permit (except that if the City Council approved the original permit, the Planning Commission shall have the authority to act upon the amendment), and upon payment of the application fee contained in the most recent fee schedule adopted by the City Council.
- C. If an approved development permit was issued pursuant to the provisions of Section 21.54.042 of this title, any amendment to said permit shall be acted on by the decision-making authority that approved the original permit, except that if the City Council approved the original permit, the Planning

Commission shall have the authority to act upon the amendment.

- D. In granting an amendment, the decision-making authority may impose new conditions and may revise existing conditions.

(Ord. CS-178 § CIX, 2012)

**§ 21.54.130. Restriction on reapplication after denial.**

No application for a zone change, general plan amendment, planned development, variance, conditional use permit, site development plan, specific plan, master plan or other permit, or any amendment to a previously issued permit or plan shall be accepted if a substantially similar application has been finally denied within one year prior to the application date. The City Planner shall determine if the subsequent application is substantially similar to the previously denied application. The effective date of the City Planner's decision and method for appeal of such decision shall be governed by Section 21.54.140 of this code.

(Ord. 9744 § 1, 1984; Ord. NS-675 §§ 60, 76, 2003; Ord. CS-164 § 10, 2011)

**§ 21.54.140. Effective date of order—Appeal of City Planner or Housing and Neighborhood Services Director decisions.**

- A. This section shall apply to those decisions or determinations of the City Planner or Housing and Neighborhood Services Director made pursuant to this title or City Planner determinations pursuant to Title 19 or Title 20. Accordingly, in this section, "Housing and Neighborhood Services Director" shall be interchangeable with "City Planner"; "housing and neighborhood services department" shall be interchangeable with "planning division"; and "Community Development Commission" shall be interchangeable with "City Council."
- B. Whenever the City Planner is authorized, pursuant to this title, Title 19, or Title 20 to make a decision or determination, such decision or determination is final and effective when the City Planner's written determination is mailed or otherwise delivered to the person(s) affected by the determination, whichever time is least restrictive. Within ten calendar days of the date that a decision or determination becomes final, a written appeal may be filed with the City Planner by an interested person. An individual member of the City Council can be an interested person for purposes of the appeal. Filing of such an appeal within such time limits shall stay the effect of the decision or determination of the City Planner until such time as the Planning Commission has acted on the appeal. The appeal shall specifically state the reason or reasons for the appeal. The burden of proof is on the appellant to establish by substantial evidence that the grounds for the requested action exist. Grounds for appeal shall be limited to the following: that there was an error or abuse of discretion on the part of the City Planner in that the decision was not supported by the facts presented to the City Planner prior to the decision being appealed; or that there was not a fair and impartial hearing. Fees for filing an appeal under this section shall be established by resolution of the City Council.
- C. Upon the filing of an appeal, the City Planner shall schedule the appeal for hearing before the Planning Commission as soon as practicable. An appeal shall be heard and noticed in the same manner as was required of the determination or decision being appealed. The appeal hearing before the Planning Commission is de novo; however the Planning Commission shall consider only the evidence presented to the City Planner for consideration in the determination or decision being appealed. The Planning Commission shall determine all matters not specified in the appeal have been found by the City Planner and are supported by substantial evidence. The Planning Commission may affirm, modify, or reverse the decision of the City Planner, and make such order supported by substantial evidence as it deems appropriate, including remand to the City Planner with directions for

further proceedings. The Planning Commission action on an appeal shall be final unless appealed to the City Council, pursuant to the provisions of Section 21.54.150.

(Ord. 9807 § 2, 1986; Ord. NS-176 § 7, 1991; Ord. NS-352 § 5, 1996; Ord. NS-506 § 6, 1999; Ord. NS-675 § 61, 2003; Ord. CS-099 § IV, 2010; Ord. CS-102 § CIV, 2010; Ord. CS-164 §§ 10—12, 2011; Ord. CS-178 § CX, 2012; Ord. CS-199 § 4, 2013)

**§ 21.54.150. Effective date of order—Appeal of Planning Commission decisions.**

- (a) This section shall apply to those decisions or determinations of the Planning Commission made pursuant to this title or Title 19. Accordingly, in this section, "Housing and Neighborhood Services Director" shall be interchangeable with "City Planner"; "housing and neighborhood services department" shall be interchangeable with "planning division"; and "Community Development Commission" shall be interchangeable with "City Council."
- (b) Whenever the Planning Commission is authorized pursuant to this title or Title 19 to make a decision or determination, such decision or determination is final and effective upon the adoption of the resolution or decision. Within ten calendar days of the date that a decision or determination becomes final, a written appeal may be filed with the City Clerk. An individual member of the City Council can be an interested person for purposes of the appeal. Filing of such an appeal within such time limits shall stay the effect of the decision or determination of the Planning Commission until such time as the City Council has acted on the appeal as set forth in this title. The appeal shall specifically state the reason or reasons for the appeal. The burden of proof is on the appellant to establish by substantial evidence that the grounds for the decision or determination exist. Grounds for appeal shall be limited to the following: that there was an error or abuse of discretion on the part of the Planning Commission in that the decision was not supported by the facts presented to the Planning Commission prior to the decision being appealed; or that there was not a fair and impartial hearing. Fees for filing an appeal under this section shall be established by resolution of the City Council.
- (c) Upon the filing of an appeal, the City Clerk shall schedule the appeal for hearing before the City Council as soon as practicable. An appeal shall be heard and noticed in the same manner as was required of the determination or decision being appealed. The appeal hearing before the City Council is de novo; however the City Council shall consider only the evidence presented to the Planning Commission for consideration in the determination or decision being appealed. The City Council shall determine all matters not specified in the appeal have been found by the Planning Commission and are supported by substantial evidence. The City Council may affirm, modify, or reverse the action of the Planning Commission, and make such order supported by substantial evidence as it deems appropriate, including remand to the Planning Commission with directions for further proceedings. Any action by the City Council shall be final and conclusive; provided, however, that any action reversing the decision of the Planning Commission shall be by the affirmative vote of at least three members of the City Council.
- (d) Upon receipt of a written appeal to the City Council filed with the City Clerk, the City Clerk shall advise the City Planner who shall transmit to said clerk the Planning Commission's complete record of the case.

(Ord. NS-675 § 62, 2003; Ord. CS-099 § V, 2010; Ord. CS-102 § CV, 2010; Ord. CS-164 §§ 10—12, 2011; Ord. CS-199 § 5, 2013)

## CHAPTER 21.55 DEDICATION OF LAND AND FEES FOR SCHOOL FACILITIES

### **§ 21.55.010. Title.**

This chapter shall be known as the school facilities dedication and fee ordinance.

(Ord. 9505 § 1, 1978)

### **§ 21.55.020. Authority—Conflict.**

This chapter is adopted pursuant to the provisions of Section 66478 of the California Government Code. In the case of any conflict between the provisions of this chapter, and those of the California Government Code, the latter shall prevail.

(Ord. 9505 § 1, 1978; Ord. NS-365 § 17, 1996; Ord. CS-102 § CVI, 2010)

### **§ 21.55.030. Purpose and intent.**

This chapter is intended to implement the school facilities dedication and fees legislation in the city and to provide authority whereby the city, affected school districts, and applicants for land development approvals may undertake such reasonable steps as the City Council determines to be necessary to alleviate overcrowding of school facilities.

(Ord. 9505 § 1, 1978)

### **§ 21.55.040. Regulations.**

The City Council may from time to time, by resolution, issue regulations to establish procedures, interpretations and policy directions for the administration of this chapter.

(Ord. 9505 § 1, 1978)

### **§ 21.55.050. Findings.**

The City Council of the city finds and declares as follows:

- (a) Adequate school facilities should be available for children residing in new residential developments.
- (b) Public and private residential developments may require the expansion of existing public schools or the construction of new school facilities.
- (c) In many areas of the city, the funds for the construction of new classroom facilities are not available when new development occurs, resulting in the overcrowding of existing schools.
- (d) New housing developments frequently cause conditions of overcrowding in existing school facilities which cannot be alleviated under existing law within a reasonable period of time.
- (e) That, for these reasons, new and improved methods of financing for interim school facilities necessitated by new development are needed in the city.

(Ord. 9505 § 1, 1978)

### **§ 21.55.060. General plan.**

The general plan of the city provides for the location of public schools. Those interim school facilities to be constructed from fees paid or those lands to be dedicated for school facilities as required by this chapter

shall be consistent with the general plan of the city.

(Ord. 9505 § 1, 1978)

**§ 21.55.070. Definitions.**

Whenever the following words are used in this chapter, unless otherwise defined, they shall have the meaning ascribed to them in this section:

"Conditions of overcrowding" means that the total enrollment of a school, including enrollment from proposed development, exceeds the capacity of such school as determined by the governing body of the district.

"Decision making body" means the City Council, Planning Commission, City Engineer, City Planner and Community and Economic Development Director.

"Dwelling unit" means a building or a portion thereof, or a mobile home, designed for residential occupancy by one person or a group of two or more persons living together as a domestic unit.

"Interim facilities" or "interim school facilities" means temporary classrooms, including their utilities, furnishings and toilet facilities not constructed with permanent foundations.

"Reasonable methods for mitigating conditions of over-crowding" shall include, but not be limited to, the following:

- (1) Agreements between a subdivider and the affected school district whereby temporary-use buildings will be leased to the school district;
- (2) The use of temporary-use buildings owned by the school district;
- (3) The use of temporary portable classrooms, student busing, classroom double sessions, year-round use of school facilities, school boundary realignments, and elimination of low priority school facility uses;
- (4) The use of available annual tax rate bond revenues or state loan revenues, to the extent authorized by law;
- (5) The use of funds which could be available from the sales of surplus school district real property and funds available from any other sources.

"Residential development" means a project containing residential dwellings, including mobile homes, of one or more units, or a subdivision of land for the purpose of constructing one or more residential dwelling units. Residential development includes but is not limited to:

- (1) A tentative or final subdivision map or parcel map or a time extension or amendment to such a map;
- (2) A conditional use permit;
- (3) A site development plan;
- (4) A variance;
- (5) A privately proposed specific plan or amendment thereto which would allow an increase in authorized residential density;
- (6) A privately proposed amendment to the city general plan which would allow an increase in

authorized residential density;

- (7) An ordinance rezoning property to a residential use or to a more intense residential use;
- (8) A grading permit;
- (9) A building permit;
- (10) Any other discretionary permit for residential use.

(Ord. CS-164 §§ 10, 14, 2011; Ord. NS-675 §§ 76, 79, 2003; Ord. 1261 § 52, 1983; Ord. 1256 § 7, 1982; Ord. 9533 § 2, 1979; Ord. 9505 § 1, 1978)

#### **§ 21.55.080. Exemptions.**

A residential development shall be exempt from the requirements of this chapter when it consists only of the following:

- (a) Any modification or remodel of an existing legally established dwelling unit where no additional dwelling units are created;
- (b) Any rebuilding of a legally established dwelling unit destroyed or damaged by accident, act of God or other catastrophe;
- (c) A condominium conversion where fees have been paid pursuant to this chapter in connection with the issuance of approvals for the construction of the building being converted.

(Ord. 9505 § 1, 1978)

#### **§ 21.55.090. Notice to school districts.**

The city shall notify all potentially affected school districts of an application for any residential developments proposed for location within their boundaries. Such notice shall not be required if said district has already made the findings listed in Section 21.55.100 or for developments for which a grading permit or building permit are the only required city approvals.

(Ord. 9505 § 1, 1978)

#### **§ 21.55.100. School district findings.**

If the governing body of the school district which operates an elementary or high school in the city makes a finding supported by clear and convincing evidence that (a) conditions of overcrowding exist in one or more attendance areas within the district which will impair the normal functioning of educational programs including the reason for such conditions existing; and (b) that all reasonable methods of mitigating conditions of overcrowding have been evaluated and no feasible methods for reducing such conditions exist, the governing body of the school district shall notify the City Council. The notice of findings sent to the city shall specify the mitigation measures considered by the school district. After the receipt of any notice of findings complying with this section, the City Council shall determine whether it concurs in such school district findings. The City Council may schedule and hold a public hearing on the matter of its proposed concurrence prior to making its determination. If the City Council concurs in such findings, the provisions of Section 21.55.120 shall be applicable to actions taken on residential development by a decision-making body.

(Ord. 9505 § 1, 1978)

**§ 21.55.110. Requirements of notice of findings.**

Any notice of findings sent by a school district to the City Council shall specify:

- (a) The findings listed in Section 21.55.100.
- (b) The mitigation measures and methods, including those listed in subsection (a) of Section 21.55.070 considered by the school district and any determination made concerning them by the district;
- (c) The precise geographic boundaries of the overcrowded attendance area or areas;
- (d) Whether the school district has received an apportionment pursuant to the Leroy F. Green State School Building Lease Purchase Law of 1976 (Chapter 22, commencing with Section 17700, of Part 10 of the California Education Code);
- (e) Such other information as may be required by the City Council.

(Ord. 9505 § 1, 1978; Ord. 9533 § 3, 1979)

**§ 21.55.120. Restriction on approval of residential developments—City Council findings.**

Within the attendance area where it has been determined pursuant to Section 21.55.100 that conditions of overcrowding exist, no decision-making body shall approve an application for a residential development within such area, unless such decision-making body makes one of the following findings:

- (a) That action will be taken pursuant to this chapter to provide dedications of land and/or fees to mitigate conditions of overcrowding; or
- (b) That there are specific overriding fiscal, economic, social or environmental factors which in the judgment of the decision-making body would benefit the city, thereby justifying the approval of a residential development otherwise subject to the provisions of this chapter. An agreement between the applicant for a residential development and the school district to mitigate conditions of overcrowding within that attendance area may be considered by a decision-making body as such an overriding factor.

(Ord. 9505 § 1, 1978)

**§ 21.55.130. Requirement of fees and/or dedications.**

For the purpose of establishing an interim method of providing classroom facilities where overcrowding conditions exist as determined pursuant to Section 21.55.100, the city may require, as a condition to the approval of a residential development, the dedication of land, the payment of fees in lieu thereof, or a combination of both, as determined by a decision-making body during the hearings and other proceedings on specific residential development applications falling within its jurisdiction. Prior to imposition of the fees and/or dedications of land, it shall be necessary for a decision-making body acting on the application to make the following findings:

- (a) The city general plan provides for the location of public schools.
- (b) The land or fees, or both, transferred to a school district shall be used only for the purpose of providing interim elementary, junior high or high school classroom and related facilities.
- (c) The location and amount of land to be dedicated or the amount of fees to be paid, or both, shall bear a reasonable relationship and will be limited to the needs of the community for interim elementary, junior high or high school facilities and shall be reasonably related and limited to the need for schools

caused by the development; provided, however, the fee shall not exceed the amount necessary to pay five annual lease payments for the interim facilities. In lieu of the fees, the builder of a residential development may, at the developer's option and at the developer's expense, provide interim facilities, owned or controlled by such developer, at the place designated by the school district, and at the conclusion of the fifth school year the developer shall, at developer's expense, remove the interim facilities from such place.

- (d) The facilities to be constructed, purchased, leased, or rented from such fees, or the land to be dedicated, or both, is consistent with the city general plan.

(Ord. 9505 § 1, 1978; Ord. 9533 § 4, 1979)

#### **§ 21.55.140. Payment of fees in smaller developments.**

Only the payment of fees shall be required in subdivisions containing fifty lots or less and in residential developments where a building permit or grading permit are the only required city approvals. Sections 21.55.160, 21.55.170, 21.55.180 and 21.55.190 shall not apply to residential developments for which only fees may be required.

(Ord. 9505 § 1, 1978)

#### **§ 21.55.150. Standards for land dedication and fees.**

The standards for the amount of dedicated land or fees to be required shall be determined by the City Council and set by resolution. The governing board of each school district where a determination has been made pursuant to Section 21.55.100 that conditions of overcrowding exist, shall recommend standards for their attendance areas to the City Council. Such standards and the facts supporting them shall be transmitted to the City Council within sixty days of a request therefor by the City Council or within sixty days following the issuance of the initial permit for the development. Failure to provide such recommendation shall constitute a waiver by the governing body of the school district of the fees. If the City Council concurs in such recommended standards, they shall, until revised, be used by decision-making bodies in situations where dedications of land and/or fees are required as a condition to the approval of a residential development. Nothing in this section shall prevent the City Council from using standards other than those recommended by the school district in the event the City Council is unable to concur in those transmitted by the district.

(Ord. 9505 § 1, 1978; Ord. 9533 § 5, 1979)

#### **§ 21.55.155. Limitation on fee—Builder's option.**

- (a) Notwithstanding anything in this chapter to the contrary, after a school district has received an apportionment pursuant to the Leroy F. Green State School Building Lease Purchase Law of 1976 (Chapter 22, commencing with Section 17700, of Part 10 of the California Education Code), the dedication of land or the payment of a fee shall not be required. Any school district receiving such an apportionment shall immediately notify the city.
- (b) Notwithstanding the provisions of Section 21.55.150, the fee to be required by this chapter shall not exceed the amount necessary to pay five annual lease payments for the interim facilities. In lieu of such fees, the builder of a residential development shall have the option, at his or her expense, of providing interim facilities, owned or controlled by such builder, at the place designated by the school district, and at the conclusion of the fifth school year the builder shall, at his or her expense, remove the interim facilities. In exercising such option the builder shall make arrangements satisfactory to the school district prior to the issuance of building permits within the residential development.

(Ord. 9505 § 1, 1978; Ord. 9533 § 5, 1979)

**§ 21.55.160. Filing application for residential development.**

At the time of filing an application for approval of a residential development located within an attendance area where the findings required by Section 21.55.100 have been made, the applicant shall, as part of such filing, indicate whether he or she prefers to dedicate land for school facilities, to pay a fee in lieu thereof, or do a combination of these. If the applicant prefers to dedicate land, he or she shall suggest the specific land.

(Ord. 9505 § 1, 1978)

**§ 21.55.170. Notification to school districts.**

Upon receipt of an application for a residential development within an attendance area where the findings required by Section 21.55.100 have been made, the City Planner shall notify the affected school districts thereof. Said notification shall be made no later than thirty days prior to consideration of the application by a decision-making body.

(Ord. 9505 § 1, 1978; Ord. 1256 § 7, 1982; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011)

**§ 21.55.180. Decision factors.**

(a) Upon receipt of the notification required by Section 21.55.170, the governing board of the affected school district shall recommend whether a dedication of land within the development, payment of a fee in lieu thereof, or a combination of both, should be required. The school district shall make and transmit their recommendation to the City Planner within twenty days of the notification date. Failure by a district to reply within such twenty-day period shall be deemed to be a recommendation that a fee payment only be required. The City Planner shall submit the recommendation to the appropriate decision-making body for concurrence. If the decision-making body concurs in such recommendations, it may, at the time of its consideration of a residential development application, impose such requirements. In their respective actions regarding this determination, the school district and the decision-making body shall consider the following factors:

- (1) Whether lands offered for dedication will be consistent with the city general plan;
- (2) Whether the lands offered for dedication meet the criteria established by Education Code Section 39000, et seq.;
- (3) The topography, soils, soil stability, drainage, access, location and general utility of land in the development available for dedication;
- (4) Whether the location and amount of lands proposed to be dedicated or the amount of fees to be paid, or both, will bear a reasonable relationship and will be limited to the needs of the community for interim elementary, junior high school, or senior high school facilities and will be reasonably related and limited to the need for schools caused by the development;
- (5) If only a subdivision is proposed, whether it will contain fifty parcels or less.

Nothing herein shall prevent a decision-making body from imposing requirements other than those recommended by the school district in the event that a decision-making body is unable to concur in the district's recommendation hereunder.

- (b) If the school district has entered into an agreement with the applicant for the residential development to mitigate conditions of overcrowding within the attendance area covered by the application, the governing board shall, upon receipt of the notification required by Section 21.55.170, so advise the City Planner and transmit a copy thereof for submission to the appropriate decision-making body for

consideration as an overriding factor under Section 21.55.120.  
(Ord. 9505 § 1, 1978; Ord. 1256 § 7, 1982; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011)

#### **§ 21.55.190. School district schedule.**

Following the action by a decision-making body to require the dedication of land or the payment of fees, or both, the City Planner shall notify each school district affected thereby. The governing body of the school district shall then submit a schedule specifying how it will use the land or fees, or both, to solve the conditions of overcrowding. The schedule shall include the school sites to be used, the classroom facilities to be made available, and the times when such facilities will be available. In the event the governing body of the school district cannot meet the schedule, it shall submit modifications to the City Council and the reasons for the modifications.

(Ord. 9505 § 1, 1978; Ord. 1256 § 7, 1982; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011)

#### **§ 21.55.200. Land dedication.**

When land is to be dedicated, it shall be offered for dedication to the affected school district in substantially the same manner as prescribed in Title 20 regarding streets and public easements for subdivisions. Dedicated land which subsequently is determined by the school district to be unsuitable for school purposes may be sold with the approval of the City Council. The funds derived therefrom must be used in accordance with this chapter.

(Ord. 9505 § 1, 1978)

#### **§ 21.55.210. Fee payment.**

If the payment of a fee is required, such payment or the pro rata amount thereof shall be made at the time a building permit within the residential development is approved and issued.

(Ord. 9505 § 1, 1978)

#### **§ 21.55.220. Fees held in trust.**

Fees paid under this chapter shall be held in trust by the city. Such fees, plus accrued interest, less a reasonable service and handling charge of no more than the accrued interest, shall be transferred to the school districts operating schools within the attendance area from which the fees were collected from time to time as the City Council may determine.

(Ord. 9505 § 1, 1978)

#### **§ 21.55.230. Use of land and fees.**

All land or fees, or both, collected pursuant to this chapter and transferred to a school district, shall be held in trust and shall be used only by the district for the purpose of providing interim elementary, junior high or high school classroom and related facilities in the attendance area from which the land or fees were collected.

(Ord. 9505 § 1, 1978)

#### **§ 21.55.240. Refunds.**

If a residential development approval is vacated or voided, and if the affected school district has not made use of the land and/or fees collected therefor, and if the applicant so requests, the governing board of the school district shall order the land and/or fees returned to the applicant.

(Ord. 9505 § 1, 1978)

**§ 21.55.250. Agreement for fee distribution.**

If two separate school districts operate schools in an attendance area where the City Council has concurred that overcrowding conditions exist for both school districts, the City Council will enter into an agreement with the governing body of each school district for the purpose of determining the distribution of revenues from the fees levied pursuant to this chapter. In the event the school districts do not agree, the city shall retain all fees until an agreement is secured.

(Ord. 9505 § 1, 1978)

**§ 21.55.260. Fee fund records and reports.**

Any school district receiving funds pursuant to this chapter shall maintain a separate account for any fees paid and shall file a report with the City Council on the balance in the account at the end of the previous fiscal year and the facilities leased, purchased, or constructed during the previous fiscal year. In addition, the report shall specify which attendance areas will continue to be overcrowded when the fall term begins and where conditions of overcrowding will no longer exist. Such report shall be filed by August 1st of each year and shall be filed more frequently at the request of the City Council.

(Ord. 9505 § 1, 1978)

**§ 21.55.270. Termination of dedication and fee requirements.**

When it is determined by the City Council that conditions of overcrowding no longer exist in an attendance area, decision-making bodies shall cease levying any fee or requiring the dedication of any land for that area pursuant to this chapter. Action under this section shall not affect the validity of conditions already imposed for levy of fees and dedications of land and such conditions shall remain binding.

(Ord. 9505 § 1, 1978)

**§ 21.55.280. Operative date.**

This chapter shall become operative on October 5, 1978.

(Ord. 9505 § 1, 1978)

**§ 21.55.290. Residential developments in process—Exempted.**

Residential developments for which the only city approvals required are a grading permit or building permit are exempt from the provisions of this chapter, provided the application for such grading permit or building permit has been accepted by the city as complete and was on file with the city on September 5, 1978.

(Ord. 9505 § 1, 1978)

## CHAPTER 21.56 INTERPRETATION

### **§ 21.56.010. Provisions to be minimum requirements—Conflict of provisions.**

In interpreting and applying the provisions of this title they shall be held to be the minimum requirement for the promotion of the public health, safety, comfort, convenience and general welfare. It is not intended by this title to interfere with or abrogate or annul any easement, covenant or other agreement between parties, provided, however, for developments located in the coastal zone, easements, covenants, or other agreements between parties may not annul the requirements, restrictions or obligations placed on the zone. When this title imposes a greater restriction upon the use of building or land, or upon the height of buildings, or requires larger open spaces than are imposed or required by other ordinances, rules, regulations, or by easements, covenants or agreements, the provisions of this title shall control.

(Ord. 9060 § 2100; Ord. NS-365 § 18, 1996)

**CHAPTER 21.58  
VIOLATION—REVOCATION—EXPIRATION**

**Note: Prior ordinance history: Ord. Nos. 9060, 9337, 9423, and 9760.**

**§ 21.58.010. Notice of violation for noncompliance with conditions.**

- (a) Failure to comply with the conditions of approval for any discretionary or ministerial permit is unlawful. Whenever the city has knowledge that conditions of approval of any permit or discretionary action issued pursuant to this title have not been complied with, the city shall mail by certified mail a notice of intention to record a notice of violation to the property owner and the permittee. The notice of intention to record a notice of violation shall:
  - (1) Describe the conditions of development in detail, naming the permittees and owners of the property;
  - (2) Describe the violation (specifying which condition(s) have not been satisfied);
  - (3) State that an opportunity will be given to the property owner and/or permittee to present evidence why such notice should not be recorded; and
  - (4) Specify a place, time, and date, which is not less than thirty days and not more than sixty days from the date of mailing at which the owner may present evidence to the city.
- (b) If, after the owner and/or permittee has presented evidence, the city determines that there has been no violation, the city shall mail a clearance letter to the owner and permittee.
- (c) If, however, after the owner and/or permittee has presented evidence, the city determines that the owner and/or permittee has in fact not complied with conditions of the subject approval or discretionary action, or if within fifteen days of receipt of a copy of such notice the owner and/or permittee of such real property fails to inform the city of his or her objection to recording the notice of violation, the city shall record the notice of violation with the County Recorder.
- (d) The notice of violation, when recorded, shall be deemed to be constructive notice of the violation to all successors in interest in such real property.

(Ord. CS-102 § CVII, 2010)

**§ 21.58.020. Revocation of permits or variance.**

- (a) The decision-making body who issued a permit pursuant to this title may revoke or modify said permit or variance; except those permits or variances issued by the City Planner, in which case the Planning Commission, may revoke or modify said permit or variance. The revocation hearing shall be noticed consistent with Section 21.54.060, and the revocation shall be based on one or more of the following grounds:
  - (1) That the approval was obtained by fraud;
  - (2) That the use for which such approval is granted is not being exercised;
  - (3) That the use for which such approval was granted has ceased to exist or has been suspended for one year or more;
  - (4) That the permit or variance granted is being, or recently has been, exercised contrary to the terms or conditions of such approval, or in violation of any statute, ordinance, law or regulation;

- (5) That the use for which the approval was granted was so exercised as to be detrimental to the public health or safety, or so as to constitute a nuisance.

(Ord. CS-102 § CVII, 2010; Ord. CS-164 § 10, 2011)

#### **§ 21.58.030. Expiration of permits.**

Any permit or approval granted pursuant to this title becomes null and void if not exercised within two years of the date of approval; however, permits or approvals which are issued in conjunction with a tentative map or tentative parcel map, shall not expire sooner than the approved tentative map or tentative parcel map. The permit or approval may be extended pursuant to Section 21.58.040.

(Ord. CS-102 § CVII, 2010; Ord. CS-178 § CXII, 2012)

#### **§ 21.58.040. Extensions.**

- (a) This section shall apply to extensions of time that may be granted to permits or approvals granted pursuant to this title.
- (b) The City Planner may administratively, without a public hearing or notice, extend the time within which the right or privilege granted under a permit or approval is valid, subject to the following:
- (1) Prior to the expiration date of the permit or approval, the applicant shall submit a written request for a time extension, along with payment of the application fee contained in the most recent fee schedule adopted by the City Council.
- (2) Provided the written request for a time extension is timely filed, the permit shall be automatically extended until a decision to approve, conditionally approve or deny the request is rendered; however, if a time extension is granted, it shall be based on the original approval date.
- (3) The City Planner shall extend the permit or approval for an additional two years, if the following findings are made:
- (A) The permit or approval remains consistent with the general plan, all titles of this code and growth management program policies and standards in place at the time the extension is considered.
- (B) Circumstances have not substantially changed since the permit or approval was originally granted.
- (C) The City Planner may grant no more than three, two-year extensions, for a total cumulative time extension of six years; except however, that any permit or approval issued in conjunction with the approval of a tentative map or tentative parcel map shall be extended for the same period of time that a tentative map or tentative parcel map may be extended pursuant to Title 20 of this code.
- (D) All project related permits or approvals, which were granted concurrently, shall be extended to expire concurrently, provided all such permits are extended pursuant to the provisions of this section.
- (E) When granting an extension of a permit or approval, the City Planner may impose new conditions and may revise existing conditions.
- (F) The City Planner shall announce in writing, by letter, his/her decision to grant or deny an extension of a permit or approval. A copy of the letter announcing the City Planner's

decision shall be mailed to the applicant and/or the applicant's representative and to any person who has filed a written request to receive such notice.

(Ord. CS-178 § CXIII, 2012)

**CHAPTER 21.60  
PERMITS—LICENSE ENFORCEMENT**

**§ 21.60.010. Certificate of occupancy permit.**

To assure compliance with the parking requirements and other provisions of the zoning title, a certificate of occupancy shall be obtained from the Community and Economic Development Director before:

- (1) Any new building be initially occupied or used;
- (2) Any existing building be altered or a change of type or class of use be made; and
- (3) A change of use of any unimproved premises be made.

(Ord. 9060 § 2300; Ord. 1261 § 53, 1983; Ord. NS-675 § 79, 2003; Ord. CS-164 § 14, 2011)

**§ 21.60.020. Conflicting licenses or permits.**

All departments, officials or public employees vested with the duty or authority to issue permits or licenses where required by law shall conform to the provisions of this title. No such license or permit for uses, buildings or purposes where the same would be in conflict with the provisions of this title shall be issued. Any such license or permit, if issued in conflict with the provisions hereof, shall be null and void.  
(Ord. 9060 § 2301)

**§ 21.60.030. Permit issuance for model homes.**

Whenever a tentative subdivision map shall have been approved by the Carlsbad city Planning Commission and the Carlsbad City Council, the Community and Economic Development Director may issue building permits for model homes to be located on property contained within any such tentative map under the following conditions:

- (1) That no certificate of occupancy or final inspection certificate shall be issued for such model homes until the final subdivision map shall have been filed and recorded;
- (2) That all model homes shall be erected on lots as indicated on the approved subdivision map and all regulations of the Zoning Ordinance shall be observed in the manner required of lots on a recorded subdivision;
- (3) That not more than four building permits for model homes may be issued for any one proposed subdivision for which a tentative map has been fully approved by the city; provided, that if such model homes are to be located on streets that are not dedicated and improved in accordance with the standards of the city not more than two building permits for more than two such model homes may be issued;
- (4) That if for any reason the final recording of the final map is not completed within a one-year period, or the map is abandoned, final inspection certificate and certificate of occupancy for any model homes erected under this section may be issued upon the dedication of the full right-of-way required along the full frontage of any lots built upon and the full improvement to city standards of such right-of-way.

(Ord. 9060 § 2301.1; Ord. 9082 § 1; Ord. 1261 § 53, 1983; Ord. NS-675 § 79, 2003; Ord. CS-164 § 14, 2011)

**CHAPTER 21.61  
JUDICIAL REVIEW OF ZONING DECISIONS AND TIME LIMITATION**

**§ 21.61.010. Time limits for judicial review of zoning decisions.**

Any legally permitted action or proceeding to attack, review, set aside, void, annul, or seek damages or compensation for any city decision or action taken pursuant to this title or to determine the reasonableness, legality or validity of any condition attached thereto shall not be maintained by any person unless such action or proceeding is commenced and service effected within the time limits specified in Chapter 1.16 of this code and Section 65860 of the Government Code and Sections 21167 and 30801 of the Public Resources Code. Thereafter all persons are barred from commencing or prosecuting any action or proceeding or asserting any defense of invalidity or unreasonableness of such decision or of such proceedings, determinations or actions taken. For the purpose of this section, the terms "decision," "determination," "action taken" and "action taken pursuant to this code" shall include administrative, adjudicatory, legislative, discretionary, executive and ministerial decisions, determinations, proceedings or other action taken or authorized by this code. The provisions of this section shall not expand the scope of judicial review and shall prevail over any conflicting provisions and any otherwise applicable law relating to the subject matter.

(Ord. 1216 § 2, 1979)

**§ 21.61.020. Zoning as the result of judicial decision.**

Whenever any zone or zone classification is declared invalid as applied to any specific property or properties by the final action of any court of competent jurisdiction, such property shall automatically be zoned L-C limited control and shall be subject to the provisions of Chapter 21.39 of this code without the necessity of any action by the city.

(Ord. 9540 § 2, 1980)

**§ 21.61.025. Notification of litigation and Attorney General intervention for developments in the coastal zone.**

The provisions of Public Resources Code Section 30800 et seq., shall apply to developments in the coastal zone in any case where no appeal has been filed from the decision of a local government on a development permit in the coastal zone (including decisions or nonappealable developments) or where an appeal has been filed but the Commission has determined not to hear the appeal, and where litigation has subsequently been commenced against the local government concerning its decision, the local government and plaintiff or petitioner shall promptly forward a copy of the complaint or petition to the Executive Director of the Commission. At the request of the local government (with the concurrence of the commission) or upon an order of the Commission, the Executive Director shall request the Attorney General to intervene in such litigation on behalf of the Commission. Administrative remedies pertaining to coastal development permits are not deemed to have been exhausted unless all appeal procedures provided by the California Coastal Act and its regulations have been utilized.

(Ord. NS-365 § 19, 1996)

## **CHAPTER 21.62 VIOLATIONS**

### **§ 21.62.010. Violation—Penalty.**

Each person, firm or corporation found guilty of a violation is deemed guilty of a separate offense for every day during any portion of which any violation of any provisions of this title is committed, continued or permitted by such person, firm or corporation, and shall be punishable therefor as provided in this title and in Section 1.08.010 of this code, and any use, occupation or building or structure maintained contrary to the provisions hereof shall constitute a public nuisance.

(Ord. 9060 § 2401)

### **§ 21.62.020. Violation—Remedies.**

The city retains the right to enforce any remedy for violations in accordance with Chapters 1.08 and 1.10 of the Carlsbad Municipal Code, including, but not limited to, recording a notice of violation.

(Ord. CS-102 § CIX, 2010)

## CHAPTER 21.70 DEVELOPMENT AGREEMENTS

### **§ 21.70.005. Authority for adoption—Applicability.**

This chapter is adopted under the authority of Government Code Sections 65864—65869.5. This chapter shall be applicable to any project for which an applicant requests consideration of a development agreement.

(Ord. 9643 § 1, 1982; Ord. NS-302 § 1, 1995)

### **§ 21.70.010. Application.**

- A. An application for a development agreement may be made by any person having a legal or equitable interest in real property for the development of the real property or by that person's authorized agent. The application shall:
  1. Be made in writing on a form provided by the City Planner;
  2. State fully the circumstances and conditions relied upon as grounds for the application;
  3. Be accompanied by adequate plans, a legal description of the property involved and all other materials as specified by the City Planner;
  4. Be accompanied by the form of development agreement agreeable to the City Planner and City Attorney. The proposed agreement shall contain all the elements required by Government Code Section 65865.2 and may include any other provisions permitted by law, including requirements that the applicant provide sufficient security approved by the City Attorney to ensure provision of public facilities;
  5. Be accompanied by a fiscal impact analysis, if the applicant claims that the project will have an economic benefit to the city.
- B. The City Planner shall require an applicant or the applicant's authorized agent to submit proof of interest in the real property and of the authority of the agent to act for the applicant. Before processing the application, the City Planner shall obtain the opinion of the City Attorney as to the sufficiency of the applicant's interest in the real property to enter into the agreement.

(Ord. 9643 § 1, 1982; Ord. 1261 § 54, 1983; Ord. NS-302 § 2, 1995; Ord. CS-164 § 10, 2011; Ord. CS-178 § CXV, 2012)

### **§ 21.70.020. Fees and reimbursements.**

- A. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.
  1. Nothing in this chapter shall relieve the applicant from the obligation to pay any other fee for a city approval, permit or entitlement required by this code.
  2. The city may require the applicant to agree to pay the city's costs in negotiating, preparing and processing the development agreement, including the fees and expenses of special counsel and any other consultants engaged by the city in connection with the development agreement.

(Ord. 9643 § 1, 1982; Ord. NS-302 § 3, 1995; Ord. CS-178 § CXV, 2012)

### **§ 21.70.030. Accounting requirements.**

- A. For any development agreement entered into on or after January 1, 2004, the city shall comply with Government Code Section 66006 et seq., the Mitigation Fee Act, with respect to any fee it receives or costs it recovers pursuant to this chapter.
- B. The Mitigation Fee Act requires the city to deposit developer fees or costs reimbursements collected associated with the development agreement into a separate capital facilities account or fund and spend the money only for the purpose for which it was collected. The city must provide an annual public report accounting for these funds.

(Ord. 9643 § 1, 1982; Ord. 1261 § 54, 1983; Ord. NS-302 § 4, 1995; Ord. CS-164 § 10, 2011; Ord. CS-178 § CXVII, 2012)

#### **§ 21.70.040. Notices and hearings.**

Notice of an application for a development agreement shall be given pursuant to the provisions of Sections 21.54.060.A and 21.54.061 of this title.

(Ord. 9643 § 1, 1982; Ord. NS-302 § 5, 1995; Ord. CS-164 § 10, 2011; Ord. CS-178 § CXVII, 2012)

#### **§ 21.70.050. Decision-making authority.**

- A. An application for a development agreement may be approved, modified or denied by the City Council based upon its review of the facts as set forth in the application, the circumstances of the particular case, and evidence presented at the public hearing.
- B. Prior to the City Council's decision on a development agreement, the application shall be processed as follows:
  1. The City Planner shall review the application and may reject it if it is incomplete or inaccurate for processing. If the Planner finds that the application is complete, he or she shall accept it for filing.
  2. After the application is found to be complete, the City Planner shall forward a copy of the application and proposed agreement to the City Attorney for review.
  3. If the applicant claims that the project will have an economic benefit to the city, the City Planner shall forward a copy of the application, proposed agreement, and fiscal impact analysis, to the Finance Director for review.
  4. If the project is located within the coastal zone, the city shall forward copies of any proposed development agreement to the California Coastal Commission for review and invite comments as to its consistency with the certified local coastal program.
  5. The City Planner shall review the application and proposed agreement and shall prepare a report and recommendation to the Planning Commission on the agreement; said report shall include the recommendations of the City Attorney and Finance Director.
  6. The Planning Commission shall hear and consider the application and prepare a recommendation and findings for the City Council, including the matters stated in Section 21.70.050 of this chapter.
- C. The City Council shall hear the matter and consider the findings and recommendations of the Planning Commission.
- D. The City Council may approve the development agreement only if all the findings of fact in Section

21.70.060 of this chapter are found to exist.

- E. If the City Council approves the development agreement, it shall adopt an ordinance approving the agreement and directing the Mayor to execute the agreement after the effective date of the ordinance on behalf of the city. Before execution, each agreement shall be approved as to form by the City Attorney.

(Ord. 9643 § 1, 1982; Ord. 1261 § 54, 1983; Ord. NS-302 § 6, 1995; Ord. CS-164 § 10, 2011; Ord. CS-178 § CXVII, 2012)

#### **§ 21.70.060. Findings of fact.**

- A. The City Council shall not approve a development agreement unless it finds that the agreement:
1. Is consistent with the objectives, policies, general land uses and programs specified in the general plan, the certified local coastal program and any applicable specific plan;
  2. Is compatible with the uses authorized in and the regulations prescribed for the land use district in which the real property is located and all other provisions of Title 21 of this code;
  3. Is in conformity with public convenience, general welfare and good land-use practices;
  4. Will not be detrimental to the health, safety and general welfare;
  5. Will not adversely affect the orderly development of property or the preservation of property values;
  6. Is consistent with the provisions of Government Code Sections 65864—65869.5;
  7. Where applicable, ensures provision of public facilities in a manner consistent with the general plan;
  8. When applicable, is consistent with the provisions of Title 20 of this code;
  9. Will result in the provision of economic, environmental, recreational, cultural or social benefits to the city which would not be attainable without approval of the agreement.

(Ord. 9643 § 1, 1982; Ord. 1261 § 54, 1983; Ord. NS-302 § 7, 1995; Ord. CS-164 § 10, 2011; Ord. CS-178 § CXVII, 2012)

#### **§ 21.70.110. Irregularity in proceedings.**

No action, inaction or recommendation regarding the proposed development agreement shall be held void or invalid or be set aside by a court by reason of any error, irregularity, informality, neglect or omission as to any matter pertaining to petition, application, notice, finding, record, hearing, report, recommendation or any matters of procedure whatever, unless after an examination of the entire case, including the evidence, the court is of the opinion that the error complained of was prejudicial and that by reason of the error the complaining party sustained and suffered substantial injury, and that a different result would have been probable if the error had not occurred or existed. There is no presumption that error is prejudicial or that injury was done if error is shown.

(Ord. 9643 § 1, 1982)

#### **§ 21.70.120. Amendment and cancellation of agreement by mutual consent.**

- (a) Either party may propose an amendment to or cancellation in whole or in part of the development

agreement previously entered into. The amendment or cancellation permitted by this section must be by mutual consent of the parties.

- (b) The procedure for proposing and adoption of an amendment to or cancellation in whole or in part of the development agreement is the same as the procedure for entering into an agreement in the first instance. However, where the city initiates the proposed amendment to or cancellation in whole or in part of the development agreement, it shall first give notice to the property owner of its intention to initiate such proceedings at least thirty days in advance of the giving of public notice of the hearing to consider the amendment or cancellation.

(Ord. 9643 § 1, 1982)

#### **§ 21.70.130. Recordation.**

- (a) Within ten days after the city enters into the development agreement, the City Clerk shall have the agreement recorded with the County Recorder.
- (b) If the parties to the agreement or their successors in interest amend or cancel the agreement as provided in Government Code Section 65868, or if the city terminates or modifies the agreement as provided in Government Code Section 65865.1 for failure of the applicant to comply in good faith with the terms or conditions of the agreement, the City Clerk shall have notice of such action recorded with the County Recorder.

(Ord. 9643 § 1, 1982)

#### **§ 21.70.150. Procedure for periodic review.**

- (a) The City Council or the Planning Commission, if the matter has been referred, shall conduct a public review hearing at which the property owner must demonstrate good faith compliance with the terms of the agreement. The burden of proof on this issue is upon the property owner.
- (b) The City Council shall determine upon the basis of substantial evidence whether or not the property owner has, for the period under review, complied in good faith with the terms and conditions of the agreement.
- (c) If the City Council finds and determines on the basis of substantial evidence that the property owner has complied in good faith with the terms and conditions of the agreement during the period under review, no other action is necessary.
- (d) If the City Council finds and determines on the basis of substantial evidence that the applicant has not complied in good faith with the terms and conditions of the agreement during the period under review, the council may initiate proceedings to modify or terminate the agreement.

(Ord. 9643 § 1, 1982)

#### **§ 21.70.160. Modification or termination.**

- A. A development agreement may be amended, or canceled in whole or in part, by mutual consent of the parties to the agreement or their successors in interest.
- B. Notice of intention to amend or cancel any portion of the agreement shall be given in the manner provided by Section 21.54.060.A of this title.

(Ord. 9643 § 1, 1982; Ord. CS-178 § CXIX, 2012)

**§ 21.70.170. No damages on termination.**

In no event shall the applicant or his/her successors in interest be entitled to any damages against the city upon termination of the agreement.

(Ord. 9643 § 1, 1982)

**§ 21.70.180. No vesting of rights.**

Approval and construction of a portion or phase of a development pursuant to the agreement shall not vest any rights to construct the remainder or any other portion of the development nor create any vested rights to the approval thereof if the agreement is terminated as provided in this chapter.

(Ord. 9643 § 1, 1982)

**§ 21.70.190. Reservation of rights.**

The City Council reserves the right to terminate or modify any development agreement after a public hearing if such termination or modification is reasonable and necessary to protect the public health, safety or welfare.

(Ord. 9643 § 1, 1982)

**CHAPTER 21.80  
COASTAL DEVELOPMENT PERMITS—AGUA HEDIONDA**

**§ 21.80.010. Definitions.**

**Coastal Zone.** The coastal zone is defined as the Agua Hedionda segment of the Carlsbad coastal zone and shown on the map entitled "Agua Hedionda segment of the Carlsbad Coastal Zone," dated January 26, 1983, and on file in the planning division.

"Development" means, on land, in or under water the placement or erection of any solid material or structure; discharge or disposal of any dredged material or of any gaseous, liquid, solid, or thermal waste; grading, removing, dredging, mining, or extraction of any materials; change in the density or intensity of use of land, including, but not limited to, subdivision pursuant to the subdivision map act and any other division of land, including lot splits, except where the land division is brought about in connection with the purchase of such land by a public agency for public recreational use; change in the intensity of use of water, or of access thereto; construction, reconstruction, demolition, or alteration of the size of any structure, including any facility of private, public, or municipal utility, and the removal or harvesting of major vegetation other than for agricultural purposes, kelp harvesting, and timber operations which are in accordance with a timber harvesting plan submitted pursuant to the provisions of the Z'berg-Nejedly Forest Practice Act of 1973 (commencing with Section 4511). As used in this section, "structure" includes but is not limited to any building, road, pipe, flume, conduit, siphon, aqueduct, telephone line, and electric power transmission and distribution line.

"Major energy facility" means any energy facility as defined by Public Resources Code Section 30107 and exceeding fifty thousand dollars in estimated cost of construction.

"Major public works project" means any public works project as defined by Title 14 California Administrative Code Section 13012 and exceeding fifty thousand dollars in estimated cost of construction. (Ord. 9670 § 1, 1983; Ord. NS-675 § 79, 2003; amended during 2-04 supplement; Ord. CS-164 § 11, 2011)

**§ 21.80.020. Permit required.**

No development shall occur in the coastal zone without a permit having first been issued according to the provisions of this chapter.

(Ord. 9670 § 1, 1983)

**§ 21.80.030. Development exempt from coastal development permit procedures.**

- (a) A permit issued for a development which is categorically excluded from the coastal development permit requirements pursuant to California Public Resources Code Section 30610 shall be exempt from the requirement of this chapter. The City Planner shall maintain a record of all permits issued for categorically excluded development. The records shall include the applicant's name, an indication that the project is located in the coastal zone, the location of the project, and a brief description of the project.
- (b) The following developments are within the original permit jurisdiction of the Coastal Commission pursuant to California Public Resources Code Section 30600.5(b). Consequently, they are exempt from the requirements of this chapter:
  - (1) Developments between the sea and the first public road paralleling the sea or within three hundred feet of the inland extent of any beach or of the mean high tide line of the sea where there is no beach, whichever is the greater distance;

- (2) Developments located on tidelands, submerged lands, public trust lands, within one hundred feet of any wetland, estuary, stream, or within three hundred feet of the top of the seaward face of any coastal bluff;
- (3) Any development which constitutes a major public works project or a major energy facility;
- (4) Any development proposed or undertaken within ports covered by Chapter 8 commencing with Section 30700 of the Public Resources Code or within any state university or college within the coastal zone;
- (5) Any development proposed by any state agency. Applications for these developments must be made directly with the Commission.

(Ord. 9670 § 1, 1983; Ord. NS-675 § 78, 2003; Ord. CS-164 § 10, 2011)

#### **§ 21.80.040. Application.**

Application for a permit for a coastal development permit shall be made in accordance with the procedures set forth in this section.

- (a) An application for a permit may be made by the record owner or owners of the property affected or the authorized agent of the owner or owners. The application shall be filed with the City Planner upon forms provided by the Planner. The application shall be accompanied by adequate plans which allow for detailed review pursuant to this chapter, a legal description of the property and all other materials and information specified by the Director.
- (b) At the time of filing the application the applicant shall pay a processing fee in an amount specified by City Council resolution.
- (c) Unless the property has previously been legally subdivided and no further subdivision is required the application shall be accompanied by a tentative map which shall be filed with the Director in accordance with procedures set forth in Chapter 20.12 of this code. If the project contains four or less lots or units, the application shall be accompanied by a tentative parcel map which shall be filed with the City Engineer in accordance with procedures set forth in Chapter 20.24 of this code.
- (d) Whenever the development would require a permit or approval under the provisions of this title, notwithstanding this chapter, the application shall include sufficient information to allow review of such permit or approval. Application for all permits or approvals under this title and the coastal permit may be consolidated into one application.
- (e) The City Planner may require that the application contain a description of the feasible alternatives to the development or mitigation measures which will be incorporated into the development to substantially lessen any significant effect on the environment which may be caused by the development.
- (f) The application shall provide the applicant an opportunity to indicate whether the project qualifies for administrative approval pursuant to Section 21.80.160.

(Ord. 9670 § 1, 1983; Ord. NS-675 § 78, 2003; Ord. CS-164 § 10, 2011)

#### **§ 21.80.050. Duties of City Planner.**

- (a) After the application has been accepted as complete the City Planner shall determine if the project is exempt from the requirements of this chapter pursuant to Section 21.80.030. The Planner shall give notice of a determination of exemption to all persons specified in Section 21.80.160. The cost of

providing this notice shall be included in the fee paid by the applicant.

- (b) The City Planner shall approve, conditionally approve or deny permits for projects qualifying for administrative approval pursuant to Section 30624 of the state Public Resources Code; providing, however, that an administrative permit shall not be issued for any development which must be reviewed by the Coastal Commission pursuant to Sections 30579(b) and 30601 of the Public Resources Code.
- (c) The City Planner shall issue all emergency permits.
- (d) If the Planner determines that the matter does not qualify for an exemption or an administrative or emergency permit, then the Planner shall set the matter for public hearing before the Planning Commission. The coastal permit may be set for hearing at the same time as any other permit for the project.
- (e) The effective date of the City Planner's decision and the method for appeal of such decision shall be governed by Section 21.54.140.

(Ord. 9670 § 1, 1983; Ord. NS-675 §§ 63, 78, 2003; Ord. CS-164 § 10, 2011)

#### **§ 21.80.060. Transmittal of Planning Commission.**

Unless the application is exempt or qualifies for an administrative or emergency permit, the Director shall transmit the application, together with a recommendation thereon, to the Planning Commission for public hearing when all necessary reports and processes have been completed. An application for a coastal permit may be considered in conjunction with any other discretionary permit required for the project.

(Ord. 9670 § 1, 1983)

#### **§ 21.80.070. Planning Commission action.**

After a public hearing the Planning Commission may approve, conditionally approve or deny the application. No approval or conditional approval shall be given unless the Planning Commission finds: (1) that the development is consistent with the provisions of the Agua Hedionda land use plan; and (2) will not conflict with the development of permanent ordinances and procedures for implementation of the Agua Hedionda local coastal program.

(Ord. 9670 § 1, 1983)

#### **§ 21.80.080. Effective date of order—Appeal of Planning Commission decision.**

- (a) The effective date of the decision of the Planning Commission and method for appeal of such decision shall be governed by Section 21.54.150 of this code.
- (b) If the development for which a coastal development permit also requires other discretionary approvals for which the Planning Commission is not given final approval authority, then the Planning Commission action on the coastal development permit shall be deemed a recommendation to the City Council.

(Ord. 9670 § 1, 1983; Ord. NS-356 § 6, 1996; Ord. NS-506 § 7, 1999; Ord. NS-675 § 64, 2003)

#### **§ 21.80.090. City Council action.**

If the review of the coastal development is consolidated with other reviews pursuant to this code for which the Planning Commission does not have final approval authority, the City Council shall hold a public hearing on the coastal permit. At the public hearing, the City Council shall review the Planning

Commission's decision, shall consider the matter and shall approve, conditionally approve or disapprove the permit. The City Council shall not approve or conditionally approve or disapprove the permit unless it finds that the project is consistent with the Agua Hedionda land use plan and that approval or conditional approval will not conflict with the development of permanent ordinances and procedures for implementation of the Agua Hedionda local coastal program. The decision of the City Council is final. (Ord. 9670 § 1, 1983)

#### **§ 21.80.100. Public hearings.**

Whenever a public hearing is required by this chapter, notice of the hearing shall be given as provided in Section 21.54.060(1) of this code. When the hearing on a coastal development permit is consolidated with the hearing on a tentative map, notice shall satisfy the requirements of both this chapter and Title 20 of this code. In addition to the persons required to be notified pursuant to Section 21.54.060(1) or Title 20, notice shall be given to all persons who have previously requested notice of development permits within the coastal zone. The list of persons requesting such notice shall be updated annually. (Ord. 9670 § 1, 1983)

#### **§ 21.80.110. Appeals to Coastal Commission.**

- (a) Any final action taken by the city on a coastal development permit application, or any permit approval which occurs by operation of law, may be appealed to the Coastal Commission by any person, the Executive Director or any two members of the Commission pursuant to Public Resources Code Section 30602. Exhaustion of all local appeals must occur before an application may be appealed to the Commission.
- (b) The appeal shall be filed not later than thirty days after the date of the final local action. (Ord. 9670 § 1, 1983)

#### **§ 21.80.120. Notice of final local action.**

Within five working days of a final local action on an application for any coastal development, or any approval which occurs by operation of law, the City Planner shall provide notice of the action by first class mail to the Commission and to any persons who specifically requested notice of such final action by submitting an addressed, stamped envelope to the city. Such notice shall include any conditions of approval and written findings and the procedures for appeal of the local action to the Commission. (Ord. 9670 § 1, 1983; Ord. NS-675 § 76, 2003; Ord. CS-164 § 10, 2011)

#### **§ 21.80.130. Effective date of permit.**

The coastal development permit shall be valid upon the expiration of thirty days from the date of the final local action unless an appeal to the Commission has been filed or the notice of final local action does not comply with the requirements of Section 21.80.110.

(Ord. 9670 § 1, 1983)

#### **§ 21.80.140. Review of recorded documents.**

All coastal development permits subject to conditions that require the recordation of deed restrictions, offers to dedicate or agreements imposing restrictions on real property shall be subject to the following procedures:

- (a) The Executive Director of the Commission shall review and approve all legal documents specified in

the conditions of approval of a coastal development permit that are necessary to find the development consistent with the land use plan.

- (b) The Executive Director of the Commission shall have fifteen working days from receipt of the documents in which to complete the review and notify the applicant of recommended revisions, if any.
- (c) The local government may issue the permit upon expiration of the fifteen-working-day period if notification of inadequacy has not been received by the local government within that time period.
- (d) If the Executive Director has recommended revisions to the applicant, the permit shall not be issued until the deficiencies have been resolved to the satisfaction of the Executive Director.

(Ord. 9670 § 1, 1983)

#### **§ 21.80.150. Expiration of coastal permits.**

A coastal development permit shall expire on the latest expiration date applicable to any other permit or approval required for the project, including any extension granted for other permits or approvals. Should the project require no permits or approvals other than a coastal development permit, the coastal development permit shall expire one year from its date of approval if the project has not been commenced during that time.

(Ord. 9670 § 1, 1983)

#### **§ 21.80.160. Administrative permits procedures.**

- (a) An applicant requesting an administrative permit shall so indicate at the time the application is filed.
- (b) Notice than an administrative permit has been issued shall be given to the public and shall also be given to all organizations and individuals who have previously requested such notice. The public notice shall be given by at least one of the following procedures:
  - (1) Publication at least one time in a newspaper of general circulation in the city;
  - (2) Posting for not less than ten days on and off site in the area where the project is located;
  - (3) Direct mailing to owners of property within three hundred feet of the project as such owners are shown on the latest equalized assessment roll.
- (c) Approval or conditional approval of an administrative permit may be given only if the City Planner makes the findings specified in Section 21.80.070. Any application for a development deemed a principal permitted use within the meaning of Section 30624 of the Public Resources Code may be issued an administrative permit under this chapter only if the development is specifically categorized as the principal permitted use in the certified land use plan unless specifically set forth in Section 30624 of the Public Resources Code.
- (d) The effective date of any decision of the Director pursuant to this section and method for appeal of such decision shall be governed by Section 21.54.140 of this code. The appeal shall be considered by the Planning Commission in accordance with the provisions of this chapter for any other application.
- (e) Notice of the Director's decision on an administrative application shall be mailed to the applicant within five days of the dates of the decision. The applicant may appeal the decision as provided in subsection (d).

(f) Amendments to administrative permits may be considered on the same criteria and under the same procedures as original applications pursuant to this section.

(Ord. 9670 § 1, 1983; Ord. NS-675 §§ 65, 78, 2003; Ord. CS-164 § 10, 2011)

**§ 21.80.170. Applications for emergency permits.**

- (a) Applications in case of emergency shall be made by letter to the City Planner or in person or by telephone, if time does not allow. "Emergency" means a sudden, unexpected occurrence demanding immediate action to prevent or mitigate loss or damage to life, health, property or essential public services.
- (b) The following information shall be included in the request:
  - (1) Nature of the emergency;
  - (2) Cause of the emergency, insofar as this can be established;
  - (3) Location of the emergency;
  - (4) The remedial, protective or preventive work required to deal with the emergency; and
  - (5) The circumstances during the emergency that appeared to justify the cause(s) of action taken, including the probable consequences of failing to take action.
- (c) The Director shall verify the facts, including the existence and the nature of the emergency, insofar as time allows.
- (d) The Director shall provide public notice of the emergency work, with the extent and type of notice determined on the basis of the nature of the emergency.
- (e) The Director may grant an emergency permit upon reasonable terms and conditions, including an expiration date and the necessity for a regular permit application later, if the Director finds that:
  - (1) An emergency exists that requires action more quickly than permitted by the procedures for administrative permits or for regular permits and the work can and will be completed within thirty days unless otherwise specified by the terms of the permit;
  - (2) Public comment on the proposed emergency action has been reviewed, if time allows; and
  - (3) The work proposed would be consistent with the requirements of the certified land use plan.
- (f) The Director shall not issue an emergency permit for any work that falls within the provisions of Public Resources Code, Sections 30159(b) and 30601.
- (g) The Director shall report, in writing, to the Coastal Commission through its Executive Director and to the City Council, at its first scheduled meeting after the emergency permit has been issued, the nature of the emergency and the work involved. The report of the Director shall be informational only; the decision to issue an emergency permit is solely at the discretion of the Director subject to the provisions of this section. Copies of this report shall be available at the meeting and shall be mailed to all persons who have requested such notification in writing. If at that meeting, one-third of the City Council so request, the permit issued by the Director shall not go into effect and the application for a coastal development permit shall be processed in due course in accordance with the procedures set forth in Chapter 21.80.

(Ord. 9670 § 1, 1983; Ord. NS-675 § 78, 2003; Ord. CS-054 § 3, 2009; Ord. CS-164 § 10, 2011)

**§ 21.80.180. Termination.**

The provisions of this chapter shall be effective until such time as the ordinances and other acts necessary to implement the Agua Hedionda local coastal program are adopted, at which time this chapter shall be superseded by the chapter establishing the permit procedures.

(Ord. 9670 § 1, 1983)

**§ 21.80.190. Severability.**

If any section, subsection, subdivision, paragraph, sentence, clause or phrase of this chapter or any part thereof is for any reason held to be unconstitutional such decision shall not affect the validity of the remaining portions of this chapter or any part thereof. The City Council hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, subdivisions, paragraphs, sentences, clauses or phrases be declared unconstitutional.

(Ord. 9670 § 1, 1983)

## CHAPTER 21.82 BEACH AREA OVERLAY (BAO) ZONES

### **§ 21.82.010. Intent and purpose.**

- A. The intent and purpose of the beach area overlay (BAO) zone is to supplement the underlying residential zoning by providing additional regulations for development within designated beach areas to:
1. Ensure that development will be compatible with surrounding developments, both existing and proposed, in the beach area;
  2. Provide for adequate parking as needed by residential projects;
  3. Ensure that adequate public facilities will exist to serve the beach area;
  4. Protect the unique mix of residential development and aesthetic quality of the area.

(Ord. NS-834 § III, 2007)

### **§ 21.82.020. Application.**

The beach area overlay zone shall apply to any residentially zoned property within the area bounded by the AT&SF Railroad right-of-way to the east, the Pacific Ocean to the west, Buena Vista Lagoon to the north and Agua Hedionda Lagoon to the south.

(Ord. NS-834 § III, 2007)

### **§ 21.82.030. Permitted uses.**

In the beach area overlay zone, any principal use, accessory use, transitional use or conditional use permitted in the underlying zone is permitted subject to the same conditions and restrictions applicable in such underlying zone and to all of the requirements of this chapter.

(Ord. NS-834 § III, 2007)

### **§ 21.82.040. Site development plan required.**

No building permit or other entitlement shall be issued for any use in the beach area overlay zone unless there is a valid site development plan approved for the property processed pursuant to Chapter 21.06 (Q-Overlay Zone) of this code. When a development requires a conditional use permit or is processed pursuant to Chapter 21.45 of this code, a site development plan is not required unless the planned development is for four or less units in which case a site development plan shall be processed. Further, a site development plan is not required for the construction, reconstruction, alteration or enlargement of a single-family residential dwelling on a residentially zoned lot.

(Ord. NS-834 § III, 2007)

### **§ 21.82.050. Building height.**

No newly constructed, reconstructed, altered or enlarged residential structure within the beach area overlay zone shall exceed thirty feet if a minimum 3/12 roof pitch is provided or twenty-four feet if less than a 3/12 roof pitch is provided.

(Ord. NS-834 § III, 2007; Ord. CS-026 § 10, 2009)

### **§ 21.82.060. Parking.**

- A. With the exception of the parking standards specified in this section, the parking standards specified in Chapter 21.44 shall apply.
- B. The parking standards specified in Chapter 21.45 shall apply to planned developments within the BAO zone.
- C. Visitor Parking.

1. Visitor parking shall be provided for all residential development, as follows:

**TABLE A NUMBER OF VISITOR PARKING SPACES REQUIRED**

<b>Number of Units</b>	<b>Amount of Visitor Parking</b>
Projects with 10 dwelling units or less	A 0.30 space per each unit or fraction thereof.
Projects with 11 units or more	A 0.25 space per each unit or fraction thereof.

- 2. When calculating the required number of parking spaces, if the calculation results in a fractional parking space, the required number of parking spaces shall always be rounded up to the nearest whole number.
  - 3. Required visitor parking may be provided within driveways, subject to the following:
    - a. One required visitor parking space may be credited for each driveway in a project that has a depth of forty feet or more.
    - b. If all streets within and/or adjacent to the project allow for on-street parking on both sides of the street, then visitor parking may be located in a driveway, subject to the following:
      - i. All required visitor parking may be located within driveways, provided that all dwelling units in the project have driveways with a depth of twenty feet or more.
      - ii. If less than one hundred percent of the driveways in a project have a depth of twenty feet or more, then a 0.25 visitor parking space will be credited for each driveway in a project that has a depth of twenty feet or more (calculations resulting in a fractional parking space credit shall always be rounded down to the nearest whole number).
      - iv. The minimum twenty-foot driveway depth required for visitor parking applies to driveways for front or side-loaded garages, and is measured from the property line, back of sidewalk, or from the edge of street pavement, whichever is closest to the structure.
    - 4. Up to fifty-five percent of the visitor parking may be provided as compact spaces (eight feet by fifteen feet);
    - 5. No credit will be given for on-street parking to satisfy any of the parking requirements above.
- (Ord. NS-834 § III, 2007)

#### **§ 21.82.070. Approved projects.**

This chapter shall not apply to projects having received final discretionary approval, pursuant to Titles 20 and 21 both, from the City of Carlsbad prior to June 26, 1985. If projects exempted above have not commenced construction and made substantial progress towards completion by June 26, 1987, then this chapter shall apply to those projects at that time.

City of Carlsbad, CA

§ 21.82.070

ZONING

§ 21.82.070

(Ord. NS-834 § III, 2007)

## CHAPTER 21.83 CHILD CARE

### **§ 21.83.010. Purpose.**

The purposes of the child care development regulations are to:

- A. Recognize that affordable, quality, licensed child care is critical to both the well-being of children and parents as well as the economic vitality of the city;
- B. Provide a comprehensive set of guidelines to ensure a safe child care environment and to maintain compatibility between child care facilities and surrounding land uses;
- C. Ensure that the needs of children for adequate care are balanced with the rights of property owners;
- D. Facilitate the establishment of child care facilities as a permitted use within certain zones;
- E. Enhance provider awareness of city requirements;
- F. Authorize child day care centers in P-M and C-M zones as conditionally permitted uses and subject to specified standards; and
- G. Implement state law with regard to the provision of child care facilities. As stated in Health and Safety Code, Section 1597.40: "Family Day Care Homes must be situated in normal residential surroundings so as to give children the home environment which is conducive to healthy and safe development. It is the public policy of this state to provide children in a Family Day Care Home the same home environment as provided in a traditional home setting." It is the policy of the state that small and large family day care homes do not constitute a change of occupancy of residentially zoned and occupied properties for purposes of local ordinances as well as local building and fire codes. Traffic and noise generated by child day care homes are considered to be of normal residential levels which may be reasonably restricted but not used as a basis for permit denial. Conditions, covenants and restrictions (CC&Rs) restricting or prohibiting child care homes in residential neighborhoods were voided by Health and Safety Code Section 1597.40(c). Judgments on the quality of child care are the responsibility of parents, the provider, and the licensing agency.

(Ord. NS-409 § 21, 1997)

### **§ 21.83.020. Definitions.**

For the purposes of this chapter, the terms used herein relating to the provision of child care services are defined as follows:

"Acutely hazardous materials" means substances which have the greatest potential to pose a hazard to public health and the environment in the event of accidental release. These substances are identified in California Health and Safety Code Chapter 6.95.

"Threshold planning quantities" means the amount of specific acutely hazardous materials which, if accidentally released into the environment, are likely to cause acute health effects resulting in significant injury to or death of humans.

"Child or children" means a person or persons, under eighteen years of age being provided care and supervision in a child care facility.

"Child day care center" means a facility other than a family day care home which provides nonmedical care, protection, and supervision for children under eighteen years of age for periods of less than twenty-

four hours per day. Child day care centers include preschools, nursery schools, employer-sponsored child day care facilities, and before- and after-school recreational programs, but do not include public or private elementary schools.

"Employer-sponsored child day care center" means any child day care center at the employer's site of business and operated directly or through a provider contract by any person or entity having one or more employees, and available exclusively for the care of that employer, and of the officers, managers, and employees of the employer.

"Family day care home" means a single-family dwelling which regularly provides nonmedical care, protection, and supervision of fourteen or fewer children, in the provider's own home, for periods of less than twenty-four hours per day, while the parents or guardians are away. The actual number of children permitted in a family day care home is based on age composition as determined by the permitting agency. Family day care homes include either of the following:

1"Large family day care home," means a detached, single-family dwelling which provides family day care for seven to fourteen children, inclusive, including children under the age of ten years who reside at the home as defined in Section 1596.78 of the California Health and Safety Code and as permitted by the licensing agency;

2"Small family day care home," means a detached, single-family dwelling which provides family day care for eight or fewer children, including children under the age of ten years who reside at the home as defined in Section 1596.78 of the California Health and Safety Code and as permitted by the licensing agency.

"Provider" means a person or entity who operates a child day care center or a large family day care home and is licensed by the county to provide child care services.

(Ord. NS-409 § 21, 1997)

#### **§ 21.83.030. Exclusions.**

The requirements of this chapter do not apply to the following:

- A. Any child day care home providing care for the children of only one family in addition to the provider's own children;
- B. Any cooperative arrangement between parents for the care of their children by one or more of the parents where no payment for the care is involved;
- C. Any arrangement for the receiving and care of children by a relative;
- D. Any public recreation programs conducted by a public entity specified in and meeting the requirements of Health and Safety Code Section 1596.792(g); or recreation programs conducted for children by a Boys' Club, a Girls' Club, the Brownies, the Cub/Boy/Girl Scouts, the Campfire Girls or similar such organizations as determined by state regulations issued pursuant to Health and Safety Code Section 1596.793; and
- E. Any public or private schools operating before- and after-school recreational programs or child day care centers.

(Ord. NS-409 § 21, 1997; Ord. NS-675 § 68, 2003)

#### **§ 21.83.040. Use chart.**

The following use chart indicates the zones where small and large family day care homes and child day

care centers are permitted, subject to the requirements of this chapter.

- "P" indicates that the use is permitted in the zone.
- "LDCP" indicates that the use is permitted subject to approval of a large family day care permit, processed in accordance with Section 21.83.050 of this chapter.
- "MCUP" indicates that the use is permitted subject to approval of a minor conditional use permit (process one) processed in accordance with Chapter 21.42 of this title.
- "CUP" indicates that the use is permitted subject to approval of a conditional use permit (process two) processed in accordance with Chapter 21.42 of this title.
- "X". indicates that the use is prohibited in the zone.

**Notes:**

- (1) Permitted only when the large family day care home is located on a lot occupied by a detached, single-family dwelling, subject to the provisions of Section 21.83.050 of this chapter.
- (2) Permitted subject to the provisions of Section 21.83.080 of this chapter.
- (3) Child day care centers are allowed as a permitted use (no conditional use permit or minor conditional use permit required) within existing buildings on developed church or school sites, subject to the provisions of Section 21.83.080 of this chapter.
- (4) Permitted subject to the standards of the controlling document (Village and Barrio master plan or designated master plan).
- (5) Permitted subject to the provisions of Sections 21.83.060 and 21.83.080 of this chapter.

(Ord. NS-409 § 21, 1997; Ord. NS-765 § 4, 2005; Ord. CS-102 § CX, 2010; Ord. CS-178 § CXXII, 2012; Ord. CS-334 § 12, 2018)

**§ 21.83.050. Requirements for large family day care homes.**

- A. The applicant shall obtain all licenses and permits required by state law for operation of the facility and shall keep all state licenses or permits valid and current.
- B. Large Family Day Care Permit. No large family day care home shall operate without first obtaining a large family day care permit issued by the city.
  1. Application and Fee.
    - a. An application for a large family day care permit may be made by the owner of the property affected or the authorized agent of the owner. The application shall:
      - i. Be made in writing on a form provided by the City Planner;
      - ii. State fully the circumstances and conditions relied upon as grounds for the application; and
      - iii. Be accompanied by adequate plans, a legal description of the property involved and all other materials as specified by the City Planner.
      - iv. Applicants who reside on rented or leased property shall provide proof of written notice to the landlord or owner of the property that they intend to operate a family day care home on the rented or leased premises in accordance with Section 1597.40 of the California Health and Safety Code.
    - b. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.
  2. Decision-Making Authority. The City Planner shall approve the large family day care permit if the City Planner finds that the request complies with the requirements of this section.
  3. Announcement of Decision and Findings of Fact. When a decision on a large family day care permit is made pursuant to this chapter, the decision-making body shall announce its decision in writing in accordance with the provisions of Section 21.54.120 of this title.
  4. Effective Date and Appeals. The decision of the City Planner made pursuant to this section shall become effective or may be appealed in accordance with Section 21.54.140 of this title.
  5. Expiration, Extensions And Amendments.
    - a. The expiration period for a large family day care permit shall be as specified in Section 21.58.030 of this title.
    - b. A large family day care permit may be extended pursuant to Section 21.58.040 of this title.
    - c. A large family day care permit may be amended pursuant to Section 21.58.124 of this title.
- C. Development Standards.
  1. The facility shall comply with all zoning standards otherwise applicable to other single-family residences, however, the use of a detached, single-family dwelling for the purposes of this section shall not constitute a change of occupancy for purposes of Title 18 of this code.
  2. The facility shall comply with all standards relating to fire and life safety applicable to single-

family residences established by the state Fire Marshal contained in Title 24 of the California Code of Regulations as amended from time to time.

3. The subject site shall not be located closer than one thousand two hundred lineal feet from any other large family day care home on the same street.
4. An outdoor play area which satisfies the requirements of the state, community care licensing division shall be provided in the rear yard and shall be enclosed by a natural barrier, wall, solid fence, or other solid structure a minimum of five feet in height. The provider shall ensure that outdoor play times do not begin until after nine a.m. and end before five p.m. The provider shall stagger the number of children playing outdoors at any one time to reduce noise impacts on surrounding residences.
5. All outdoor play areas shall be adequately separated from vehicular circulation and parking areas by a strong fence such as chain link, wood or masonry.
6. Required garages shall be prohibited for use as a family day care home and shall be utilized for parking two of the applicant's onsite vehicles during the daily operation of the day care home rather than parking the vehicles on the street or in the driveway.
7. The applicant shall designate the onsite driveway as the official drop-off and pick-up area for children and shall notify parents of this requirement. Said driveway shall remain free and clear of parked cars.
8. The applicant shall require that employees park in locations which will not inconvenience nearby residents. To disrupt the neighborhood as little as possible, best efforts shall be made by the applicant to require employees to park as close as possible to the family day care home.

(Ord. NS-409 § 21, 1997; Ord. NS-565 § 2, 2001; Ord. NS-675 § 69, 2003; Ord. CS-178 § CXXII, 2012)

#### **§ 21.83.060. Child day care centers in the P-M and C-M zones.**

A. Child day care centers are permitted in the P-M and C-M zones with a conditional use permit (process two) processed in accordance with Chapter 21.42 of this title, and subject to Section 21.83.080 of this chapter and the following provisions:

1. The applicant shall conduct an evaluation of the health and safety risks associated with the proposed child day care center. The evaluation shall include a survey of all businesses within one thousand feet of the proposed child day care center to determine the nature and quantity of hazardous materials in use nearby. If the conditional use permit is granted, thereafter, the provider shall conduct similar annual evaluations and disclose results to the Fire Chief and City Planner. The evaluations must demonstrate to the satisfaction of the Fire Chief and City Planner that the occurrence of the following within one thousand feet of the child care center presents no significant health or safety risks to the occupants:
  - a. Use or storage of acutely hazardous materials in amounts above the threshold planning quantities (TPQs);
  - b. Use or storage of more than ten thousand gallons of flammable liquids; or
  - c. Use or storage of more than one thousand five hundred pounds of flammable compressed gas.
2. Prior to enrollment of the child in the child day care center, the provider shall, in writing, inform

the child's parents that their child(ren) may be subject to health and safety risks due to the presence, use and discharge of hazardous materials (including acutely hazardous materials above the TPQs) in the area. Parents shall also be informed that the provider may be required to retain custody of their children for extended time periods during an emergency.

3. Prior to occupancy, the provider shall prepare and obtain approval by the Fire Chief of an emergency operating plan which prescribes procedures to be followed during the existence of the child day care center which ensure the following:
  - a. That children can be evacuated from the building within five minutes and relocated to a predetermined refuge area(s) within ten minutes of emergency notification; and
  - b. Quarterly exercise of the plan.
4. The applicant shall enter into an agreement with the city to discontinue operation of the child day care center immediately upon the discovery of the existence of hazardous materials as described in Section 21.83.060A.1.a above when such materials are found by the Fire Chief and City Planner to present a health and safety risk to children attending the child day care center. The applicant shall have ninety days to mitigate, to the satisfaction of the Fire Chief, the impacts created by the use of said hazardous materials. If impacts are not mitigated within ninety days, the conditional use permit for the child day care center shall become null and void. The applicant shall agree to indemnify and hold the city and its officers, employees, and agents free and harmless from any claims, actions, damages, costs, or expenses arising from exposure of children to hazardous substances as a result of the presence of the former in or near the child day care center. The Fire Chief or City Planner are authorized to enter into the agreement on behalf of the city.
5. The applicant shall submit a conversion plan at the time of application which demonstrates to the satisfaction of the City Planner and the Fire Chief that the child day care center could be converted to a use permitted within the zone if the conditional use as a child day care center is discontinued.
6. Upon acceptance of a complete application and payment of the required fees, the City Planner shall process the application in accordance with Chapter 21.54 of this title except that notices shall be given to all property owners within one thousand feet of the subject property.

(Ord. NS-409 § 21, 1997; Ord. NS-565 § 3, 2001; Ord. CS-164 § 10, 2011; Ord. CS-178 § CXXII, 2012)

#### **§ 21.83.080. Development standards for child day care centers.**

All child day care centers shall comply with the following development standards:

- A. The applicant has or will obtain all licenses and permits required by state law for operation of the facility. The applicant shall keep all state licenses or permits valid and current.
- B. The center shall meet all zoning standards otherwise applicable to the project site.
- C. Indoor and outdoor play areas which satisfy the requirements of the County of San Diego day care licensing agency shall be provided. The outdoor play area shall be adjacent to the center and accessible through the center itself. The outdoor play area shall be enclosed by a natural barrier, wall, or fence a minimum of five feet in height. If located adjacent to residentially-zoned property, the separating barrier, wall, or fence shall be of solid construction. Said outdoor play area shall not be allowed in any required front, side or rear yard setbacks and shall be located and designed so as to

reduce noise impacts on adjacent properties.

- D. The outdoor play space shall be viewable directly from the interior of the structure by having windows at strategic points so that the yard area can be seen from the inside of the child care center.
- E. Each child day care center shall have a direct source of natural light which shall be located so as to maximize the ability for children to see out of windows.
- F. The following parking requirements shall apply:
  - 1. Parking shall be provided consistent with the standards specified in Chapter 21.44, unless otherwise specified in this section.
  - 2. Parking shall not be located in any required front yard setback.
  - 3. An adequate on-site loading/unloading area shall be provided which can be easily accessed from the child day care center without crossing any driveways or streets. This area may be counted towards the required parking.
  - 4. Clearly designated pedestrian walkways shall be provided.
- G. Signs shall be permitted in accordance with the underlying zone as provided in Chapter 21.41 of this title.
- H. Any additional conditions regarding safety and access deemed necessary or desirable by the City Engineer, or Community and Economic Development Director.

(Ord. NS-409 § 21, 1997; Ord. NS-675 § 79, 2003; Ord. CS-102 § CXI, 2010; Ord. CS-164 § 14, 2011)

**CHAPTER 21.84  
HOUSING FOR SENIOR CITIZENS**

**§ 21.84.010. Title.**

This chapter shall be known and may be cited and referred to as the "Housing for Senior Citizens Ordinance of the City of Carlsbad."

(Ord. NS-662 § 12, 2003)

**§ 21.84.020. Purpose.**

A. The purpose of the housing for senior citizens regulations is to:

1. Recognize the housing needs of senior citizens;
2. Provide a mechanism and standards for the development of rental or for-sale housing available to senior citizens;
3. Provide comprehensive standards and regulations to ensure housing is designed to meet the special needs of senior citizens (i.e., physical, social and economic needs);
4. Facilitate the establishment of housing for senior citizens within certain zones subject to the approval of a site development plan;
5. Comply with state and federal laws prohibiting age discrimination in housing; and
6. Provide standards and regulations for housing for senior citizens construed in accordance with California Civil Code Sections 51.2, 51.3 and 51.4, the Federal Fair Housing Act, and the Federal Code of Regulations Title 24 Sections 100.300 to 100.308.

(Ord. NS-662 § 12, 2003)

**§ 21.84.030. Definitions.**

A. For the purposes of this chapter, the terms used in this chapter relating to the provision of housing for senior citizens are defined as follows:

"Cohabitant" refers to and means persons who live together as husband and wife, or persons who are domestic partners within the meaning of Section 297 of the Family Code.

"Disability" means any mental or physical disability as defined in Section 12926 of the Government Code.

"Housing" or "dwelling unit" means any residential accommodation (rental unit or for-sale unit) designed for occupancy by a senior citizen or qualifying resident, and each unit having only one kitchen, excluding mobile homes in a "senior citizen housing development."

"Housing community" means any dwelling or group of dwelling units governed by a common set of rules, regulations or restrictions. A portion or portions of a single building shall not constitute a housing community.

"Housing for senior citizens" means a housing community:

- a. Provided under any state or federal program that the Secretary of Housing and Urban Development determines is specifically designed and operated to assist senior citizens (as defined in the state or federal program); or

- b. Intended for, and solely occupied by, persons sixty-two years of age or older; or
- c. Intended and operated for occupancy by persons fifty-five years of age or older, and where the housing facility is consistent with the definition of a "senior citizen housing development."

"Senior citizen" means:

- a. A person sixty-two years of age or older; or
- b. A person fifty-five years of age or older in a "senior citizen housing development."

"Senior citizen housing development" means:

- a. A residential development developed, substantially rehabilitated, or substantially renovated, for persons fifty-five years of age or older, that has:
  - i. At least thirty-five dwelling units (rental or for-sale units); and
  - ii. At least eighty percent of the occupied dwelling units occupied by at least one person who is fifty-five years of age or older.

B. The following definitions shall only apply to a "senior citizen housing development":

"Qualifying resident" means a person fifty-five years of age or older in a senior citizen housing development.

"Qualified permanent resident" means:

- a. A person who meets both of the following requirements:
  - i. Was residing with the qualifying resident prior to the death, hospitalization, or other prolonged absence of, or the dissolution of marriage with, the qualifying resident; and
  - ii. Was forty-five years of age or older, or was a spouse, cohabitant, or person providing primary physical or economic support to the qualifying resident.
- b. A disabled person or person with a disabling illness or injury who is a child or grandchild of the qualifying resident or a qualified permanent resident, who needs to live with the qualifying resident or qualified permanent resident because of the disabling condition, illness or injury.

"Permitted health care resident" means a person hired to provide live-in, long-term, or terminal health care to a qualifying resident, or a family member of the qualifying resident providing that care. The care provided by a permitted health care resident must be substantial in nature and must provide either assistance with necessary daily activities or medical treatment, or both.

(Ord. NS-662 § 12, 2003)

**§ 21.84.040. Use table.**

Housing for senior citizens is permitted subject to the approval of a minor site development plan (MSDP) or site development plan (SDP) in certain zones as indicated in the following table:

**Table A**  
**Zones Where Housing for Senior Citizens Is Permitted**

Zone	Housing for Senior Citizens
R-3	MSDP/SDP <sup>1</sup>
R-P	MSDP/SDP <sup>1,2</sup>
R-T	MSDP/SDP <sup>1</sup>
R-W	MSDP/SDP <sup>1</sup>
RD-M	MSDP/SDP <sup>1</sup>
V-B	See note 3, below
P-C	See note 3, below

Note: Housing for senior citizens is prohibited in those zones not indicated.

**Notes:**

- 1 Housing for senior citizens with four units or less shall be subject to the approval of a minor site development plan, and housing for senior citizens with five units or more shall be subject to the approval of a site development plan.
- 2 The city may approve a minor site development plan or site development plan for housing for senior citizens on property in the R-P zone where the general plan applicable to such property permits residential uses.
- 3 May be permitted subject to the standards of the controlling document (i.e., in V-B zone -Village and Barrio master plan, and in P-C zone -applicable master plan) and the provisions of this chapter.

(Ord. NS-662 § 12, 2003; Ord. CS-099 § VI, 2010; Ord. CS-178 § CXXIII, 2012; Ord. CS-334 § 13, 2018)

**§ 21.84.050. Location guidelines.**

- A. Housing for senior citizens should, whenever reasonably possible, be located consistent with the following location guidelines:
  1. The proposed project should be located in close proximity to a wide range of commercial retail, professional, social and community services patronized by senior citizens; or have its own private shuttle bus which will provide daily access to these services;
  2. The proposed project should be located within a reasonable walking distance of a bus or transit stop unless a common transportation service for residents is provided and maintained;
  3. The proposed project should be located in a topographically level area; and
  4. Development of housing for senior citizens at the proposed location should not be detrimental to public health, safety and general welfare.

(Ord. NS-662 § 12, 2003)

**§ 21.84.060. Development standards and design criteria.**

- A. Housing for senior citizens shall comply with all applicable development standards of the underlying

zone, except those which may be modified in this chapter or as an additional incentive granted pursuant to Chapter 21.86 of this code.

- B. In the coastal zone, any project processed pursuant to this chapter and Chapter 21.86 of this code shall be consistent with all certified local coastal program provisions, with the exception of density.
- C. The following parking requirements shall apply:
  - 1. Parking shall be provided consistent with the standards specified in Chapter 21.44, unless otherwise specified in this section.
  - 2. Whenever possible, parking spaces should be laid out at either a thirty, forty-five or sixty degree angle; and
  - 3. Required parking spaces shall be available to residents of the project at no fee.
- D. To the maximum extent feasible, architectural harmony, through the use of appropriate building height, materials, bulk and scale within the development and within the existing neighborhood and community shall be obtained.
- E. The building(s) shall be finished on all sides with similar roof and wall materials, colors and architectural accent features.
- F. Laundry facilities must be provided in a separate room at the ratio of one washer and one dryer for every twenty-five dwelling units or fractional number thereof. At least one washer and one dryer shall be provided in every project. Washers and dryers may be coin operated.
- G. A manager's unit shall be provided in every housing project of sixteen or more units (rental projects only). The manager's unit shall be a complete dwelling unit and so designated on all plans.
- H. Housing for senior citizens shall be designed to encourage social contact by providing a minimum of one common room, which may include, but is not limited to, a recreation/social room, a common dining facility or a reading/TV room. Common open space shall also be provided, which may include, but is not limited to, community gardening areas or open landscaped areas with walkways and seating. Common areas shall be designed to ensure that they are useful and functional for residents, and shall comply with the following:
  - 1. The minimum amount of common area required in each project shall be no less than twenty square feet per dwelling unit;
  - 2. Common space excludes all stairwells and any balconies of less than forty square feet;
  - 3. Unless the building is serviced by an elevator, common rooms shall be located on the ground floor; and
  - 4. Adjacent toilet facilities for men and women shall be provided.
- I. In addition to the common areas described above, additional services and programs are encouraged, but not required, to be included in all projects to meet the physical and social needs of senior citizens. Such desirable services and programs may include, but are not limited to, the following:
  - 1. Social and recreational programs;
  - 2. Continuing education, information and counseling services;

3. House cleaning/cooking;
  4. Inside/outside maintenance services;
  5. Emergency and preventative health care programs/services; and
  6. Transportation services.
- J. Access to all common areas and housing units within a project shall be provided without use of stairs, either by means of an elevator or sloped walking ramps.
- K. Entryways, walkways, and hallways in the common areas, and doorways and paths of access to and within the housing units, shall be as wide as required by current laws applicable to new multifamily housing construction for provision of access to persons using a standard-width wheelchair.
- L. Walkways and hallways in the common areas shall be equipped with standard height railings or grab bars to assist persons who have difficulty with walking, and shall have lighting conditions that are of sufficient brightness to assist persons who have difficulty seeing.
- M. Trash collection containers shall be provided in an easily accessible location and in manner that requires a minimum of physical exertion by residents. Trash collection containers shall also be completely screened and located as inconspicuously as possible. Trash enclosures shall be of similar colors and materials as the main building.
- N. Dwelling units shall be provided with the following:
1. Tubs and/or showers equipped with, or adaptable for, at least one grab bar;
  2. Tubs and/or showers equipped with temperature regulating devices;
  3. Slip resistant tub and/or shower bottom surfaces; and
  4. Peepholes in entry doors.
- O. The design of housing for senior citizens should, to the extent practicable, implement the principles of universal design as currently established by the Center for Universal Design at the North Carolina State University, or any other residential design elements for seniors that may currently be established by the California Department of Aging. Universal design principles encourage building design with accessible and adaptable features that are universally usable by most people regardless of their level of ability or disability. Examples of universal design are as follows:
1. A dwelling unit should be designed to be accessible or adaptable for disabled access;
  2. An adaptable dwelling unit has all accessible features that a fixed accessible unit has but allows some items to be omitted or concealed until needed so the dwelling unit can be better matched to individual needs when occupied; and
  3. In an adaptable unit, wide doors, no steps, knee spaces, control and switch locations, grab bar reinforcing and other access features must be built in. Grab bars, however, can be omitted and installed when needed. Knee space can be concealed by installing a removable base cabinet that can be removed when needed. Counter tops and closet rods can be placed on adjustable supports rather than fixed at lower heights as required for wheelchair users.
- P. Housing for senior citizens shall comply with all applicable building and housing codes and requirements for access and design imposed by law, including, but not limited to, the Fair Housing

Act (42 U.S.C. Section 3601 et seq.), the Americans with Disabilities Act (42 U.S.C. Section 12101 et seq.), and the regulations of Title 24 of the California Code of Regulations that relate to access for persons with disabilities or handicaps. Nothing in this section shall be construed to limit or reduce any right or obligation applicable under those laws.

(Ord. NS-662 § 12, 2003; Ord. CS-102 § CXII, 2010)

#### **§ 21.84.070. Inclusionary housing requirements and density bonus provisions.**

- A. Any market-rate rental or for-sale project constructed pursuant to this chapter shall be required to comply with the inclusionary requirements for residential developments in Chapter 21.85 of this code.
- B. Upon written request by an applicant, and in return for his or her agreement to develop and operate a project in accordance with this chapter and Chapter 21.86 of this code (residential density bonus), the final decision-making authority shall allow an increase in the number of dwelling units permitted per acre (density), provided the request for density bonus complies with the requirements of Chapter 21.86.

(Ord. NS-662 § 12, 2003)

#### **§ 21.84.080. Application process.**

- A. Preliminary Review Application. A preliminary review application may be submitted prior to the submittal of a formal application (note: if the project includes a request for a density bonus, a preliminary review application is required).
  1. The preliminary review application shall include the following information:
    - a. A brief description of the proposal including the total number of senior units, density bonus units and affordable senior units proposed;
    - b. The general plan and zoning designations and assessor's parcel number(s) of the project site;
    - c. A site plan, drawn to scale, which includes: building footprints, driveway and parking layout, existing contours and proposed grading; and
    - d. A letter identifying what specific incentives (i.e., density bonus, standards modifications or financial incentives) are being requested of the city, if any.
  2. After review of the preliminary application, the planning division shall provide to an applicant a letter identifying project issues of concern to staff, and the incentives or assistance that the City Planner can support when making a recommendation to the final decision-making authority.
- B. Formal Application. Except as otherwise provided in this chapter, a minor site development plan or site development plan for housing for senior citizens shall be processed in accordance with the provisions of Chapter 21.06 of this title, excluding Section 21.06.020(b). The findings for approval of a minor site development plan or site development plan for housing for senior citizens are specified in Section 21.84.090 of this chapter.
  1. In addition to the application requirements specified in Chapter 21.06, a minor site development plan or site development plan application for housing for senior citizens shall include the following information:

- a. If a density bonus or other incentives are requested, a letter shall be submitted signed by the present owner stating how the project will comply with Government Code Section 65915 and stating what is being requested from the city, (i.e., density bonus, modification of development standards or other additional incentives);
  - b. A detailed vicinity map showing the project location and such details as the nearest market, transit stop, park or recreation center, medical facilities or other related uses and services likely to be patronized by senior citizens;
  - c. A set of floor plans for each different type of unit indicating a typically furnished apartment, with dimensions of doorways, hallways, closets and cabinets;
  - d. A floor plan of the first floor or other floor showing any common areas and accommodations;
  - e. A monitoring and maintenance plan; and
2. The decision-making authority for the minor site development plan or site development plan shall be as specified in Chapter 21.06 of this title, unless the project involves a request for financial incentives from the city. If financial incentives are requested, the City Council shall have the authority to approve, conditionally approve or deny:
    - a. The minor site development plan or site development plan, upon a recommendation from the Planning Commission; and
    - b. The request for financial incentives, upon a recommendation from the Housing Commission.
- C. Building Permit. At the time of plan submittal for building permits, in addition to other required information, the applicant shall submit a set of detailed drawings for kitchens and bathrooms indicating counter and cabinet heights and depth, type of pulls, faucets, grab-bars, tub and/or shower dimensions, and handicapped turn space where appropriate.

(Ord. NS-662 § 12, 2003; Ord. CS-102 § CXIII, 2010; Ord. CS-164 §§ 10, 11, 2011; Ord. CS-178 § CXXIV, 2012)

#### **§ 21.84.090. Findings for approval.**

- A. A minor site development plan or site development plan for housing for senior citizens shall be approved only if the following findings are made:
  1. The project is consistent with the various goals, objectives, policies and programs of the general plan, the provisions of municipal code Title 21 (zoning ordinance), the local coastal program (if applicable), and/or the provisions of an applicable master or specific plan;
  2. The project site is adequate in size and shape to accommodate the proposed project;
  3. The project is properly related to and will not adversely impact the site, surroundings and environmental settings, and will not be detrimental to existing uses specifically permitted in the area in which the proposed project is to be located;
  4. The project shall not result in density or design that is incompatible with other land uses in the immediate vicinity, and the project will provide and maintain all yards, setbacks, walls, fences, landscaping, and other features determined necessary to provide compatibility with existing or

permitted future uses in the neighborhood;

5. The street system serving the proposed project is adequate to properly handle all traffic generated by the project; and
6. The request for a density bonus and/or additional incentive(s) is consistent with the provisions of Chapter 21.86 of this code. (This finding shall only apply to projects requesting a density bonus and/or additional incentives.)

(Ord. NS-662 § 12, 2003; Ord. CS-178 § CXXIV, 2012)

**§ 21.84.100. Additional requirements.**

- A. No housing development constructed prior to January 1, 1985, shall fail to qualify as a "senior citizen housing development" because it was not originally developed or put to use for occupancy by senior citizens.
- B. Any person who, on January 1, 1985, had the right to reside in, occupy, or use housing that is subject to the provisions for a "senior citizen housing development" in this chapter and California Civil Code Sections 51.2, 51.3 and 51.4, shall not be deprived of the right to continue that residency, occupancy, or use as the result of the implementation of this chapter.
- C. Any person who is not sixty-two years of age or older, and who, on September 13, 1988, had the right to reside in, occupy, or use housing that is restricted to occupancy by persons sixty-two years of age or older, shall not be deprived of the right to continue that residency, occupancy or use as a result of the implementation of this chapter; provided that all new occupants are persons 62 years of age or older.
- D. A developer of housing for senior citizens shall establish a homeowner's association, Board of Directors, or other governing body, and corresponding covenants, conditions and restrictions or other documents or written policy. Said CC&Rs or other documents or written policy shall be submitted to and approved by the City Planner and recorded prior to issuance of a building permit. At a minimum, the CC&Rs or other documents or written policy shall set forth the following:
  1. Limitations on occupancy, residency or use on the basis of age;
    - a. Any such limitation shall not be more exclusive than to require that:
      - i. Each person in residence in each dwelling unit be required to be sixty-two years of age or older; or
      - ii. In a "senior citizen housing development" one person in residence in each dwelling unit is required to be a senior citizen or qualifying resident, and that each other resident in the same dwelling unit may be required to be a qualified permanent resident, a permitted health care resident, or a person under fifty-five years of age whose occupancy is permitted under California Civil Code Section 51.3(h) or Section 51.4(b);
    - b. The limitations on occupancy may allow for occupancy of units by employees of the housing community (and family members residing in the same unit) who are under sixty-two years of age, or who do not qualify as a qualifying resident, provided they perform substantial duties directly related to the management or maintenance of the housing community;

- c. The limitations on occupancy for housing that is intended for, and solely occupied by, persons sixty-two years of age or older, shall not be less exclusive than to require that the persons commencing any occupancy of a dwelling unit be sixty-two years of age or older, excluding occupancy by persons, permitted pursuant to Section 21.84.100.C and D.1.b, above;
  - d. In a "senior citizen housing development," the limitations on occupancy may be less exclusive than stated above, but shall at least require that the persons commencing any occupancy of a dwelling unit include a qualifying resident who intends to reside in the unit as his or her primary residence on a permanent basis;
  - e. In a "senior citizen housing development," the limitation on occupancy may result in more than, but not less than eighty percent, all of the dwellings being actually occupied by a qualifying resident;
2. In a "senior citizen housing development," upon the death, dissolution of marriage, or upon hospitalization, or other prolonged absence of the qualifying resident, any qualified permanent resident, as defined in this chapter and Section 51.3 of the California Civil Code, shall be entitled to continue his or her occupancy, residency, or use of the dwelling unit as a permitted resident. This provision shall not apply to a permitted health care resident;
3. In a "senior citizen housing development," a permitted health care resident shall be entitled to occupy a dwelling unit during any period that the person is actually providing live-in, long-term, or hospice health care to a senior citizen or qualifying resident for compensation, which includes the provision of lodging and food in exchange for care;
4. In a "senior citizen housing development," upon the absence of the qualifying resident, a permitted health care resident shall be entitled to continue his or her occupancy, residency, or use of the dwelling unit only if: a) the qualifying resident became absent from the dwelling unit due to hospitalization or other necessary medical treatment and expects to return to his or her residence within ninety days from the date the absence began; and b) the absent qualifying resident, or an authorized person acting for the qualifying resident, submits a written request to the owner, HOA, Board of Directors, or other governing body stating that the qualifying resident desires that the permitted health care resident be allowed to remain in order to be present when the qualifying resident returns to reside in the development. The HOA, Board of Directors, or other governing body may permit a permitted health care resident to remain for a period longer than ninety days, but not to exceed an additional ninety days;
5. In a "senior citizen housing development," for any person who is a qualified permanent resident, as defined in this chapter, whose disabling condition ends, the owner, HOA, Board of Directors, or other governing body may require the formerly disabled resident to cease residing in the development, subject to the provisions of California Civil Code Section 51.3(b)(3); and
6. In a "senior citizen housing development," CC&Rs or other documents or written policy shall allow temporary residency for a guest, who may be less than fifty-five years in age, of a qualifying resident, or qualified permanent resident, for periods of time, not less than sixty days in any year, that are specified in the CC&Rs or other documents or written policy.
- E. CC&Rs or other documents or written policies applicable housing for senior citizens that contain age restrictions, shall be enforceable only to the extent permitted in California Civil Code Section 51.3, the Federal Fair Housing Act, and the Federal Code of Regulations Title 24 Sections 100.300 to 100.308, notwithstanding lower age restrictions contained in those documents.

(Ord. NS-662 § 12, 2003; Ord. CS-102 § CXIV, 2010; Ord. CS-164 § 10, 2011)

**§ 21.84.110. Monitoring and reporting requirements.**

To assure compliance with the age requirement of this chapter, all applicants/owners of housing for senior citizens shall be required to submit, on an annual basis, an updated list of all project tenants and their age to the city's Planner.

(Ord. NS-662 § 12, 2003; Ord. CS-164 § 10, 2011)

## CHAPTER 21.85 INCLUSIONARY HOUSING

### **§ 21.85.010. Purpose and intent.**

The purpose and intent of this chapter is as follows:

- A. It is an objective of the city, as established by the housing element of the city's general plan, to ensure that all residential development, including all master planned and specific planned communities and all residential subdivisions provide a range of housing opportunities for all identifiable economic segments of the population, including households of lower and moderate income. It is also the policy of the city to:
    1. Require that a minimum of fifteen percent of all approved residential development as set forth in Section 21.85.030(A) be restricted to and affordable to lower-income households; subject to adjustment based on the granting of an inclusionary credit;
    2. Require that for those developments which provide ten or more units affordable to lower-income households, at least ten percent of the lower-income units shall have three or more bedrooms;
    3. Under certain conditions, allow alternatives to on-site construction as a means of providing affordable units; and
    4. In specific cases, allow inclusionary requirements to be satisfied through the payment of an in-lieu fee as an alternative to requiring inclusionary units to be constructed.
  - B. It is the purpose of this chapter to ensure the implementation of the city objective and policy stated in subsection A.
  - C. Nothing in this chapter is intended to create a mandatory duty on the part of the city or its employees under the Government Tort Claims Act and no cause of action against the city or its employees is created by this chapter that would not arise independently of the provisions of this chapter.
- (Ord. NS-535 § 1, 2000; Ord. NS-794 § 2, 2006; Ord. CS-109 § II, 2010; Ord. CS-368 § 3, 2020)

### **§ 21.85.020. Definitions.**

Whenever the following terms are used in this chapter, they shall have the meaning established by this section:

"Affordable housing" means housing for which the allowable housing expenses paid by a qualifying household shall not exceed a specified fraction of the county median income, adjusted for household size, as follows:

1. Extremely low-income, rental or ownership units: the product of thirty percent times thirty percent of the county median income, adjusted for household size;
2. Very low-income, rental and ownership units: the product of thirty percent times fifty percent of the county median income, adjusted for household size;
3. Low-income, ownership units: the product of thirty percent times eighty percent of the county median income, adjusted for household size; and
4. Low-income, rental units: the product of thirty percent times seventy percent of the county

median income, adjusted for household size.

"Affordable housing agreement" means a legally binding agreement between a developer and the city to ensure that the inclusionary requirements of this chapter are satisfied. The agreement establishes, among other things, the number of required inclusionary units, the unit sizes, location, affordability tenure, terms and conditions of affordability and unit production schedule.

"Allowable housing expense" means the total monthly or annual recurring expenses required of a household to obtain shelter. For an ownership unit, allowable housing expenses include loan principal and interest at the time of initial purchase by the homebuyer, allowances for property and mortgage insurance, property taxes, homeowners' association dues and a reasonable allowance for utilities as defined by the Code of Federal Regulations (24 CFR 982). For a rental unit, allowable housing expenses include rent and a utility allowance as established and adopted by the City of Carlsbad housing authority, as well as all monthly payments made by the tenant to the lessor in connection with use and occupancy of a housing unit and land and facilities associated therewith, including any separately charged fees, utility charges, or service charges assessed by the lessor and payable by the tenant.

"Affordable housing policy team" shall consist of the Community and Economic Development Director, City Planner, Housing and Neighborhood Services Director, Administrative Services Director/Finance Director and a representative of the City Attorney's office.

"Combined inclusionary housing project" means separate residential development sites which are linked by a contractual relationship such that some or all of the inclusionary units which are associated with one development site are produced and operated at a separate development site or sites.

"Conversion" means the change of status of a dwelling unit from an ownership unit to a rental unit or vice versa and/or a market-rate unit to a unit affordable to lower-income households.

"Development revision" means revisions to development permits, entitlements, and/or related maps.

"Density bonus" shall have the same meaning as defined in Section 21.86.020(A)(7) of this title.

"Extremely low-income household" means those households whose gross income is equal to or less than thirty percent of the median income for San Diego County as determined by the U.S. Department of Housing and Urban Development.

"Financial assistance" means assistance to include, but not be limited to, the subsidization of fees, infrastructure, land costs, or construction costs, the use of redevelopment set-aside funds, community development block grant (CDBG) funds, or the provision of other direct financial aid in the form of cash transfer payments or other monetary compensation, by the City of Carlsbad.

"Growth management control point" shall have the same meaning as provided in Chapter 21.90, Section 21.90.045 of this title.

"Incentives or concessions" shall have the same meaning as defined in Section 21.86.020(A)(12) of this title.

"Inclusionary credit" means a reduction in the inclusionary housing requirement granted in return for the provision of certain desired types of affordable housing or related amenities as determined by the City Council.

"Inclusionary housing project" means a new residential development or conversion of existing residential buildings which has at least fifteen percent of the total units reserved and made affordable to lower-income households as required by this chapter.

"Inclusionary unit" means a dwelling unit that will be offered for rent or sale exclusively to and which shall be affordable to lower-income households, as required by this chapter.

"Income" means any monetary benefits that qualify as income in accordance with the criteria and procedures used by the City of Carlsbad housing and redevelopment department for the acceptance of applications and recertifications for the tenant based rental assistance program, or its successor.

"Low-income household" means those households whose gross income is more than fifty percent but does not exceed eighty percent of the median income for San Diego County as determined annually by the U.S. Department of Housing and Urban Development.

"Lower-income household" means low-income, very low-income and extremely low-income households, whose gross income does not exceed eighty percent of the median income for San Diego County as determined annually by the U.S. Department of Housing and Urban Development.

"Market-rate unit" means a dwelling unit where the rental rate or sales price is not restricted either by this chapter or by requirements imposed through other local, state, or federal affordable housing programs.

"Offsets" means concessions or assistance to include, but not be limited to, direct financial assistance, density increases, standards modifications or any other financial, land use, or regulatory concession which would result in an identifiable cost reduction enabling the provision of affordable housing.

"Ownership unit" means a residential unit with a condominium or other subdivision map allowing units to be sold individually.

"Rental unit" means a residential unit with no condominium or other subdivision map allowing units to be sold individually.

"Residential development" means any new residential construction of ownership or rental units; or development revisions, including those with and without a master plan or specific plan, planned unit developments, site development plans, mobile home developments and conversions of apartments to condominiums, as well as dwelling units for which the cost of shelter is included in a recurring payment for expenses, whether or not an initial lump sum fee is also required.

"Target income level" means the income standards for extremely low, very low and low-income levels within San Diego County as determined annually by the U.S. Department of Housing and Urban Development, and adjusted for family size.

"Total residential units" means the total units approved by the final decision-making authority. Total residential units are composed of both market-rate units and inclusionary units.

"Very low-income household" means a household earning a gross income equal to fifty percent or less of the median income for San Diego County as determined annually by the U.S. Department of Housing and Urban Development.

(Ord. NS-535 § 1, 2000; Ord. NS-794 § 3, 2006; Ord. CS-109 § III, 2010; Ord. CS-164 §§ 10, 12, 14, 2011)

### **§ 21.85.030. Inclusionary housing requirement.**

The inclusionary housing requirements of this chapter shall apply as follows:

- A. This chapter shall apply to all housing development projects that result in the construction of new residential units, including mixed use projects that include residential units and the conversion of apartments to condominiums.
- B. For any residential development or development revision of seven or more units as set forth in subsection A, not less than fifteen percent of the total units approved shall be constructed and restricted both as to occupancy and affordability to lower-income households.

- C. For those developments which are required to provide ten or more units affordable to lower-income households, at least ten percent of the lower-income units shall have three or more bedrooms.
- D. This chapter shall not apply to the following:
  - 1. Existing residences which are altered, improved, restored, repaired, expanded or extended, provided that the number of units is not increased, except that this chapter shall pertain to the subdivision of land for the conversion of apartments to condominiums;
  - 2. Conversion of a mobile home park pursuant to Section 21.37.120 of the code;
  - 3. The construction of a new residential structure which replaces a residential structure that was destroyed or demolished within two years prior to the application for a building permit for the new residential structure, provided that the number of residential units is not increased from the number of residential units of the previously destroyed or demolished residential structure;
  - 4. Any residential unit which is accessory as defined in Section 21.04.020 of this code;
  - 5. Accessory dwelling units not constructed to fulfill inclusionary housing requirements and developed in accordance with Section 21.10.030 of this code;
  - 6. Any project or portion of a project which is a commercial living unit as defined in Section 21.04.093 of this code; and
  - 7. Those residential units which have obtained affordable housing approvals prior to the effective date of the ordinance codified in this chapter, as set forth in Section 21.85.160 of this chapter.

(Ord. NS-535 § 1, 2000; Ord. CS-109 §§ IV—VI, 2010; Ord. CS-324 § 2, 2017; Ord. CS-368 § 4, 2020)

### **§ 21.85.035. New master plans or specific plans.**

New master plans and specific plans shall submit an inclusionary housing plan as follows:

- A. All master plans and specific plans approved on or after the effective date of the ordinance codified in this chapter are required by this chapter to provide an inclusionary housing plan within the master plan or specific plan document. This inclusionary housing plan will include appropriate text, maps, tables, or figures to establish the basic framework for implementing the requirements of this chapter. It shall establish, as a minimum, but not be limited to, the following:
  - 1. The number of market-rate units in the master plan or specific plan;
  - 2. The number of required inclusionary units for lower-income households over the entire master plan or specific plan;
  - 3. The designated sites for the location of the inclusionary units, including, but not limited to, any sites for locating off-site inclusionary housing projects or combined inclusionary housing projects;
  - 4. A general provision stipulating that an affordable housing agreement shall be made a condition of all future discretionary permits for development within the master or specific plan area such as tentative maps, parcel maps, planned unit developments and site development plans. The provision shall establish that all relevant terms and conditions of any affordable housing agreement shall be filed and recorded as a restriction on the project as a whole and those individual lots, units or projects which are designated as inclusionary units. The affordable housing agreement shall be consistent with Section 21.85.140 of this chapter.

- B. The location and phasing of inclusionary dwelling units may be modified as a minor amendment to the master plan pursuant to Section 21.38.120 of this title if the City Council authorizes such modifications when approving the master plan.
- C. All existing master plans or specific plans proposed for major amendment, pursuant to Section 21.38.120 of this code, shall incorporate into the amended master plan or specific plan document an inclusionary housing plan, consistent with this section of this chapter.

(Ord. NS-535 § 1, 2000)

**§ 21.85.040. Affordable housing standards.**

The affordable housing standards are as follows:

- A. All qualifying residential developments pursuant to Section 21.85.030(A) are subject to and must satisfy the inclusionary housing requirements of this chapter, notwithstanding a developer's request to process a residential development under other program requirements, laws or regulations, including, but not limited to, Chapter 21.86 (Residential Density Bonus) of this code. If an applicant seeks to construct affordable housing to qualify for a density bonus in accordance with the provisions of Chapter 21.86 (Residential Density Bonus), those affordable dwelling units that qualify a residential development for a density bonus shall also be counted toward satisfying the inclusionary housing requirements of this chapter.
- B. Whenever reasonably possible, inclusionary units should be built on the residential development project site.
- C. The required inclusionary units shall be constructed concurrently with market-rate units unless both the final decision-making authority of the city and developer agree within the affordable housing agreement to an alternative schedule for development.
- D. Inclusionary rental units shall remain restricted and affordable to the designated income group for fifty-five years. In addition to the income of a targeted group, limitations on assets may also be used as a factor in determining eligibility for rental or ownership units. Notwithstanding anything to the contrary in this chapter, no inclusionary unit shall be rented for an amount which exceeds ninety percent of the actual rent charged for a comparable market unit in the same development, if any.
- E. After the initial sale of the inclusionary ownership units at a price affordable to the target income level group, inclusionary ownership units shall remain affordable to subsequent income eligible buyers pursuant to a resale restriction with a term of thirty years or ownership units may be sold at a market price to other than targeted households provided that the sale shall result in the recapture by the city or its designee of a financial interest in the units equal to the amount of subsidy necessary to make the unit affordable to the designated income group and a proportionate share of any appreciation. Funds recaptured by the city shall be used in assisting other eligible households with home purchases at affordable prices. To the extent possible, projects using ownership units to satisfy inclusionary requirements shall be designed to be compatible with conventional mortgage financing programs including secondary market requirements.
- F. Inclusionary units should be located on sites that are in proximity to or will provide access to employment opportunities, urban services, or major roads or other transportation and commuter rail facilities and that are compatible with adjacent land uses.
- G. The design of the inclusionary units shall be reasonably consistent or compatible with the design of the total project development in terms of appearance, materials and finished quality.

H. Inclusionary projects shall provide a mix of number of bedrooms in the affordable dwelling units in response to affordable housing demand priorities of the city.

I. No building permit shall be issued, nor any development approval granted for a development which does not meet the requirements of this chapter. No inclusionary unit shall be rented or sold except in accordance with this chapter.

(Ord. NS-535 § 1, 2000; Ord. NS-794 § 4, 2006; Ord. CS-109 §§ VII—IX, 2010; Ord. CS-368 § 5, 2020)

#### **§ 21.85.050. Calculating the required number of inclusionary units.**

Subject to adjustments for an inclusionary credit, the required number of lower-income inclusionary units shall be fifteen percent of the total residential units approved by the final decision-making authority, including density bonus units. If the inclusionary units are to be provided within an off-site combined or other project, the required number of lower-income inclusionary units shall be fifteen percent of the total residential units to be provided both on-site and/or off-site. Subject to the maximum density allowed per the growth management control point or per specific authorization granted by the Planning Commission or City Council, fractional units for both market rate and inclusionary units of 0.5 will be rounded up to a whole unit. If the rounding calculation results in a total residential unit count which exceeds the maximum allowed, neither the market rate nor the inclusionary unit count will be increased to the next whole number.

Example 1: Total residential units = fifteen percent inclusionary units plus eighty-five percent market-rate units. If the final decision-making authority approves one hundred total residential units, then the inclusionary requirement equals fifteen percent of the "total" or fifteen units ( $100 \times 0.15 = 15$ ). The allowable market-rate units would be eighty-five percent of the "total" or eighty-five units.

Example 2: If the inclusionary units are to be provided off-site, the total number of inclusionary units shall be calculated according to the total number of market-rate units approved by the final decision-making authority. If one hundred market-rate units are approved, then this total is divided by 0.85 which provides a total residential unit count ( $100 \div 0.85 = 117$ ). The fifteen percent requirement is applied to this "total" (one hundred seventeen units) which equals the inclusionary unit requirement ( $117 \times 0.15 = 17.6$  units).  
(Ord. NS-535 § 1, 2000; Ord. NS-794 § 5, 2006; Ord. CS-368 § 6, 2020)

#### **§ 21.85.060. Inclusionary credit adjustment.**

Certain types of affordable housing are relatively more desirable in satisfying the city's state-mandated affordable housing requirement as well as the city's housing element goals, objectives and policies, and these may change over time.

To assist the city in providing this housing, developers may receive additional (more than one unit) credit for each of such units provided, thereby reducing the total inclusionary housing requirement to less than fifteen percent of all residential units approved. A schedule of inclusionary housing credit specifying how credit may be earned shall be adopted by the City Council and made available to developers subject to this chapter.

(Ord. NS-535 § 1, 2000; Ord. NS-794 § 6, 2006)

#### **§ 21.85.070. Alternatives to construction of inclusionary units.**

Notwithstanding any contrary provisions of this chapter, at the sole discretion of the City Council, the city may determine that an alternative to the construction of new inclusionary units is acceptable.

A. The City Council may approve alternatives to the construction of new inclusionary units where the proposed alternative supports specific housing element policies and goals and assists the city in

meeting its state housing requirements. Such determination shall be based on findings that new construction would be infeasible or present unreasonable hardship in light of such factors as project size, site constraints, market competition, price and product type disparity, developer capability, and financial subsidies available. Alternatives may include, but not be limited to, acquisition and rehabilitation of affordable units, conversion of existing market-rate units to affordable units, construction of special needs housing projects or programs (shelters, transitional housing, etc.), and the construction of accessory dwelling units.

- B. Accessory dwelling units constructed to satisfy an inclusionary housing requirement shall be rent restricted to affordable rental rates, and renters shall be income-qualified, as specified in the applicable affordable housing agreement. In no event shall a developer be allowed to construct more than a total of fifteen accessory dwelling units in any given development, master plan, or specific plan, to satisfy an inclusionary requirement.
- C. Contribution to a special needs housing project or program may also be an acceptable alternative based upon such findings. The requisite contribution shall be calculated in the same manner as an in-lieu fee per Section 21.85.110.

(Ord. NS-535 § 1, 2000; Ord. CS-109 § X, 2010; Ord. CS-324 § 2, 2017)

#### **§ 21.85.080. Combined inclusionary housing projects.**

An affordable housing requirement may be satisfied with off-site construction as follows:

- A. When it can be demonstrated by a developer that the goals of this chapter and the city's housing element would be better served by allowing some or all of the inclusionary units associated with one residential project site to be produced and operated at an alternative site or sites, the resulting linked inclusionary project site(s) is a combined inclusionary housing project.
- B. It is at the sole discretion of the City Council to authorize the residential site(s) which form a combined inclusionary housing project. Such decision shall be based on findings that the combined project represents a more effective and feasible means of implementing this chapter and the goals of the city's housing element. Factors to be weighed in this determination include: the feasibility of the on-site option considering project size, site constraints, competition from other projects, difficulty in integrating due to significant price and product type disparity, and lack of capacity of the on-site development entity to deliver affordable housing. Also to be considered are whether the off-site option offers greater feasibility and cost effectiveness, particularly regarding potential local public assistance and the city's affordable housing financial assistance policy, location advantages such as proximity to jobs, schools, transportation, and services, diminished impact on other existing developments, capacity of the development entity to deliver the project, and satisfaction of multiple developer obligations that would be difficult to satisfy with multiple projects.
- C. All agreements between parties to form a combined inclusionary housing project shall be made a part of the affordable housing agreement required for the site(s), which affordable housing agreement(s) shall be approved by council.
- D. Location of the combined inclusionary housing project is limited to sites within the same city quadrant in which the market-rate units are located, or sites which are contiguous to the quadrant in which the market-rate units are proposed.

(Ord. NS-535 § 1, 2000)

**§ 21.85.090. Creation of inclusionary units not required.**

Inclusionary units created which exceed the final requirement for a project may, subject to City Council approval in the affordable housing agreement, be utilized by the developer to satisfy other inclusionary requirements for which it is obligated or market the units to other developers as a combined project subject to the requirements of Section 21.85.080.

(Ord. NS-535 § 1, 2000)

**§ 21.85.100. Offsets to the cost of affordable housing development.**

- A. The city shall consider making offsets available to developers when necessary to enable residential projects to provide a preferable product type or affordability in excess of the requirements of this chapter.
- B. Offsets will be offered by the city to the extent that resources and programs for this purpose are available to the city and approved for such use by the City Council, and to the extent that the residential development, with the use of offsets, assists in achieving the city's housing goals. To the degree that the city makes available programs to provide offsets, developers may make application for such programs.
- C. Evaluation of requests for offsets shall be based on the effectiveness of the offsets in achieving a preferable product type and/or affordability objectives as set forth within the housing element; the capability of the development team; the reasonableness of development costs and justification of subsidy needs; and the extent to which other resources are used to leverage the requested offsets.
- D. Nothing in this chapter establishes, directly or through implication, a right to receive any offsets from the city or any other party or agency to enable the developer to meet the obligations established by this chapter.
- E. Any offsets approved by the City Council and the housing affordability to be achieved by use of those offsets shall be set out within the affordable housing agreement pursuant to Section 21.85.140 or, at the city's discretion in a subsequent document.
- F. Developers are encouraged to utilize local, state or federal assistance, when available, to meet the affordability standards set forth in Sections 21.85.030 and 21.85.040.
- G. For development located in the coastal zone, any offset provided pursuant to this section shall be consistent with the applicable provisions of the certified Carlsbad Local Coastal Program Land Use Plan(s), with the exception of density.

(Ord. NS-535 § 1, 2000; Ord. NS-794 § 7, 2006; Ord. NS-889 § 1, 2008)

**§ 21.85.110. In-lieu fees.**

Payment of a fee in lieu of construction of affordable units may be appropriate in the following circumstances:

- A. For any qualifying residential development or development revision pursuant to Section 21.85.030(A) of less than seven units, the inclusionary requirements may be satisfied through the payment to the city of an in-lieu fee.
- B. The in-lieu fee to be paid for each market-rate dwelling unit shall be fifteen percent of the subsidy needed to make affordable to a lower-income household one newly constructed, typical attached-housing unit. This subsidy shall be based upon the City Council's determination of the average

subsidy that would be required to make affordable typical, new two-bedroom/one-bath and three-bedroom/two-bath ownership units and rental units, each with an assumed affordability tenure of at least fifty-five years.

- C. The dollar amount and method of payment of the in-lieu fees shall be fixed by a schedule adopted, from time to time, by resolution of the City Council. Said fee shall be assessed against the market-rate lots/units of a development.
  - D. All in-lieu fees collected hereunder shall be deposited in a housing trust fund. Said fund shall be administered by the city and shall be used only for the purpose of providing funding assistance for the provision of affordable housing and reasonable costs of administration consistent with the policies and programs contained in the housing element of the general plan.
  - E. At the discretion of the City Council, where a developer is authorized to pay a fee in lieu of development, an irrevocable dedication of land or other non-monetary contribution of a value not less than the sum of the otherwise required in-lieu fee may be accepted as an alternative to paying the in-lieu fee if it is determined that the non-monetary contribution will be effectual in furthering the goals and policies of the housing element and this chapter. The valuation of any land offered in-lieu shall be determined by an appraisal made by an agent mutually agreed upon by the city and the developer. Costs associated with the appraisal shall be borne by the developer.
  - F. Where a developer is authorized to pay a fee in lieu of development of affordable housing units, any approvals shall be conditioned upon a requirement to pay the in-lieu fee in an amount established by resolution of the City Council in effect at the time of payment.
  - G. As an alternative to paying an in-lieu fee(s), inclusionary housing requirements may be satisfied either through a combined inclusionary housing project, pursuant to Section 21.85.080 of this chapter or new construction of inclusionary units subject to approval of the final decision-making authority.
- (Ord. NS-535 § 1, 2000; Ord. CS-109 §§ XI, XII, 2010)

#### **§ 21.85.120. Collection of fees.**

All fees collected under this chapter shall be deposited into a housing trust fund and shall be expended only for the affordable housing needs of lower-income households, and reasonable costs of administration consistent with the purpose of this chapter.

(Ord. NS-535 § 1, 2000)

#### **§ 21.85.130. Preliminary project application and review process.**

The preliminary project application/review process shall be as follows:

- A. A developer of a residential development not subject to a master plan or specific plan, proposing an inclusionary housing project shall have an approved site development plan prior to execution of an affordable housing agreement for the project. The developer may submit a preliminary application to the Housing and Neighborhood Services Director prior to the submittal of any formal applications for such housing development. The preliminary application shall include the following information if applicable:
  1. A brief description of the proposal including the number of inclusionary units proposed;
  2. The zoning, general plan designations and assessors parcel number(s) of the project site;
  3. A site plan, drawn to scale, which includes: building footprints, driveway and parking layout,

- building elevations, existing contours and proposed grading; and
4. A letter identifying what specific offsets and/or adjustments are being requested of the city. Justification for each request should also be included.
- B. Within thirty days of receipt of the preliminary application for projects not requesting offsets or inclusionary credit adjustments, or ninety days for projects requesting offsets or inclusionary credit adjustments, the department shall provide to an applicant, a letter which identifies project issues of concern, the offsets and inclusionary credit adjustments that the Community and Economic Development Director can support when making a recommendation to the final decision-making authority, and the procedures for compliance with this chapter. The applicant shall also be provided with a copy of this chapter and related policies, the pertinent sections of the California codes to which reference is made in this chapter and all required application forms.
- (Ord. NS-535 § 1, 2000; Ord. NS-794 § 8, 2006; Ord. CS-164 §§ 12, 14, 2011)

#### **§ 21.85.140. Affordable housing agreement as a condition of development.**

This chapter requires the following:

- A. Developers subject to this chapter shall demonstrate compliance with this chapter by executing an affordable housing agreement prepared by the city Housing and Neighborhood Services Director and submitted to the developer for execution. Agreements which conform to the requirements of this section and which do not involve requests for offsets and/or an inclusionary credit, other than those permitted by right, if any, shall be reviewed by the affordable housing policy team and approved by the Community and Economic Development Director or designee. Agreements which involve requests for offsets and/or an inclusionary credit, other than those permitted by right, shall require the recommendation of the Housing Commission and action by the City Council as the final decision-maker. Following the approval and execution by all parties, the affordable housing agreement with approved site development plan shall be recorded against the entire development, including market-rate lots/units and the relevant terms and conditions therefrom filed and subsequently recorded as a separate deed restriction or regulatory agreement on the affordable project individual lots or units of property which are designated for the location of affordable units. The approval and execution of the affordable housing agreement shall take place prior to final map approval and shall be recorded upon final map recordation or, where a map is not being processed, prior to the issuance of building permits for such lots/units. The affordable housing agreement may require that more specific project and/or unit restrictions be recorded at a future time. The affordable housing agreement shall bind all future owners and successors in interest for the term of years specified therein.
- B. An affordable housing agreement, for which the inclusionary housing requirement will be satisfied through new construction of inclusionary units, either on-site or off-site, shall establish, but not be limited to, the following:
  1. The number of inclusionary dwelling units proposed, with specific calculations detailing the application of any inclusionary credit adjustment;
  2. The unit square footage, and number of bedrooms;
  3. The proposed location of the inclusionary units;
  4. Amenities and services provided, such as daycare, after school programs, transportation, job training/employment services and recreation;

5. Level and tenure of affordability for inclusionary units;
  6. Schedule for production of dwelling units;
  7. Approved offsets provided by the city;
  8. Where applicable, requirements for other documents to be approved by the city, such as marketing, leasing and management plans; financial assistance/loan documents; resale agreements; and monitoring and compliance plans;
  9. Where applicable, identification of the affordable housing developer and agreements specifying their role and relationship to the project.
- C. An affordable housing agreement, for which the inclusionary housing requirement will be satisfied through payment to the city of any in-lieu contributions other than fee monies, such as land dedication, shall include the method of determination, schedule and value of total in-lieu contributions.
- D. An affordable housing agreement will not be required for projects which will be satisfying their inclusionary housing requirement through payment to the city of an in-lieu fee.

(Ord. NS-535 § 1, 2000; Ord. NS-794 §§ 9, 10, 2006; Ord. CS-164 §§ 12, 14, 2011)

#### **§ 21.85.145. Agreement processing fee.**

The City Council may establish by resolution, fees to be paid by the developer at the time of preliminary project application to defray the city's cost of preparing and/or reviewing all inclusionary housing agreements.

(Ord. NS-535 § 1, 2000)

#### **§ 21.85.150. Agreement amendments.**

Any amendment to an affordable housing agreement shall be processed in the same manner as an original application for approval, except as authorized in Section 21.85.035(B). Amendments to affordable housing agreements initially approved prior to the effective date of the ordinance codified in this chapter shall be entitled to consideration under the ordinance provisions superseded by the ordinance codified in this chapter.

(Ord. NS-535 § 1, 2000)

#### **§ 21.85.155. Expiration of affordability tenure.**

The city or its designee shall have a one-time first right of refusal to purchase any project containing affordable units offered for sale at the end of the minimum tenure of affordability for rental projects. The first right of refusal to purchase the rental project shall be submitted in writing to the Housing and Neighborhood Services Director. Within ninety days of its receipt, the city shall indicate its intent to exercise the first right of refusal for the purpose of providing affordable housing.

(Ord. NS-535 § 1, 2000; Ord. CS-164 § 12, 2011)

#### **§ 21.85.160. Pre-existing approvals.**

Any residential developments for which a site development plan for the affordable housing component of the development was approved prior to the effective date of the ordinance codified in this chapter shall be subject to the ordinance in effect at the time of the approval.

(Ord. NS-535 § 1, 2000)

**§ 21.85.170. Enforcement.**

Enforcement provisions are as follows:

- A. The provisions of this chapter shall apply to all developers and their agents, successors and assigns proposing a qualifying residential development governed by this chapter pursuant to Section 21.85.030(A). No building permit or occupancy permit shall be issued, nor any entitlement granted, for a project which is not exempt and does not meet the requirements of this chapter. All inclusionary units shall be rented or owned in accordance with this chapter.
- B. The city may institute any appropriate legal actions or proceedings necessary to ensure compliance with this chapter, including, but not limited to, actions to revoke, deny or suspend any permit or development approval.
- C. Any individual who sells or rents a restricted unit in violation of the provisions of this chapter shall be required to forfeit all monetary amounts so obtained. Such amounts shall be added to the city's housing trust fund.

(Ord. NS-535 § 1, 2000; Ord. CS-109 § XIII, 2010)

**§ 21.85.180. Savings clause.**

All code provisions, ordinances, and parts of ordinances in conflict with the provisions of this chapter are repealed. The provisions of this chapter, insofar as they are substantially the same as existing code provisions relating to the same subject matter shall be construed as restatements and continuations thereof and not as new enactments. With respect, however, to violations, rights accrued, liabilities accrued, or appeals taken, prior to the effective date of the ordinance codified in this chapter, under any chapter, ordinance, or part of an ordinance shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceedings, with respect to any such violation, right, liability or appeal.

(Ord. NS-535 § 1, 2000)

**§ 21.85.190. Severability.**

If any provision of this chapter or the application thereof to any person or circumstances is held invalid, the remainder of the chapter and the application of the provision to other persons not similarly situated or to other circumstances shall not be affected thereby.

(Ord. NS-535 § 1, 2000; Ord. CS-109 § XIV, 2010)

**§ 21.85.195. Fee deferral.**

Notwithstanding anything in this chapter to the contrary, all housing in-lieu and housing impact fees for any residential development that consists of five or more dwelling units shall only be paid prior to building permit issuance, or, at the request of the applicant, deferred until all work required for final inspection has been completed and all department approvals required for final inspection have been obtained by the applicant.

The amount of the fees shall be based on the fees in effect at the time of the request for the final inspection, not the time of building permit issuance.

In the event that the city, for any reason, fails to collect any or all fees prior to final inspection, such fees shall remain the obligation of the developer and/or the property owner.

(Ord. CS-200 § V, 2013; Ord. CS-271 § V, 2015)

## CHAPTER 21.86 DENSITY BONUS

### **§ 21.86.010. Purpose.**

The public good is served when there exists in a city, housing which is appropriate for the needs of and affordable to the public who reside within that city. There is in the City of Carlsbad a need for housing affordable to various groups, such as lower income, moderate income and senior citizen households. Therefore, it is in the public interest for the city to promote the construction of such additional housing through the exercise of its powers and utilization of its resources to facilitate the development of quality housing affordable for these types of households.

- A. It is the purpose of this section to specify how compliance with Government Code Section 65915 et seq. ("State Density Bonus Law") will be implemented, as required by Government Code Section 65915, subdivision (a).
- B. It is the purpose of this section to implement the goals, objectives and policies of the housing element of the city's general plan.
- C. It is the purpose of this section to provide the implementing framework, as it relates to affordable housing density bonuses, and offer concessions and incentives for eligible housing developments which are consistent with the city's long-standing commitment to provide for affordable housing.

(Ord. CS-382 § 3, 2020)

### **§ 21.86.020. Definitions.**

The definitions found in State Density Bonus Law shall apply to the terms contained in this chapter.  
(Ord. CS-382 § 3, 2020)

### **§ 21.86.030. Applicability.**

A housing development as defined in State Density Bonus Law shall be eligible for a density bonus and other regulatory incentives that are provided by State Density Bonus Law when the applicant seeks and agrees to provide very-low, low or moderate income housing units, or units intended to serve seniors, transitional foster youth, disabled veterans, homeless persons, and lower income students in the threshold amounts specified in State Density Bonus Law. A housing development includes only the residential component of a mixed-use project. A commercial development as defined in Section 21.86.110 shall be eligible for a commercial development bonus as provided in Section 21.86.110.

The granting of a density bonus, incentive or concession, pursuant to this section, shall not be interpreted, in and of itself, to require a general plan amendment, development code amendment, zone change, other discretionary approval, or the waiver of a city ordinance or provisions of a city ordinance unrelated to development standards.

(Ord. CS-382 § 3, 2020)

### **§ 21.86.040. Application requirements.**

- A. Any applicant requesting a density bonus and any incentive(s), waiver(s), parking reductions, or commercial development bonus provided by State Density Bonus Law shall submit a density bonus report as described below concurrently with the filing of the planning application for the first discretionary permit required for the housing development, commercial development, or mixed-use development. The requests contained in the density bonus report shall be processed concurrently with

the planning application. The applicant shall be informed whether the application is complete consistent with California Government Code Section 65943.

- B. The density bonus report shall include the following minimum information:
1. Requested Density Bonus.
    - a. Summary table showing the maximum number of dwelling units permitted by the zoning and general plan excluding any density bonus units, proposed affordable units by income level, proposed bonus percentage, number of density bonus units proposed, total number of dwelling units proposed on the site, and resulting density in units per acre.
    - b. A tentative map and/or preliminary site plan, drawn to scale, showing the number and location of all proposed units, designating the location of proposed affordable units and density bonus units.
    - c. The zoning and general plan designations and assessor's parcel number(s) of the housing development site.
    - d. A description of all dwelling units existing on the site in the five-year period preceding the date of submittal of the application and identification of any units rented in the five-year period. If dwelling units on the site are currently rented, income and household size of all residents of currently occupied units, if known. If any dwelling units on the site were rented in the five-year period but are not currently rented, the income and household size of residents occupying dwelling units when the site contained the maximum number of dwelling units, if known.
    - e. Description of any recorded covenant, ordinance, or law applicable to the site that restricted rents to levels affordable to very-low or lower income households in the five-year period preceding the date of submittal of the application.
    - f. If a density bonus is requested for a land donation, the location of the land to be dedicated, proof of site control, and reasonable documentation that each of the requirements included in California Government Code Section 65915, subdivision (g) can be met.
  2. Requested Concession(s) or Incentive(s). In the event an application proposes concessions or incentives for a housing development pursuant to State Density Bonus Law, the density bonus report shall include the following minimum information for each incentive requested, shown on a site plan if appropriate:
    - a. The city's usual development standard and the requested development standard or regulatory incentive.
    - b. Except where mixed-use zoning is proposed as a concession or incentive, reasonable documentation to show that any requested incentive will result in identifiable and actual cost reductions to provide for affordable housing costs or rents.
    - c. If approval of mixed-use zoning is proposed, reasonable documentation that nonresidential land uses will reduce the cost of the housing development, that the nonresidential land uses are compatible with the housing development and the existing or planned development in the area where the proposed housing development will be located, and that mixed-use zoning will provide for affordable housing costs or rents.

3. Requested Waiver(s). In the event an application proposes waivers of development standards for a housing development pursuant to State Density Bonus Law, the density bonus report shall include the following minimum information for each waiver requested on each lot, shown on a site plan if appropriate:
  - a. The city's usual development standard and the requested development standard.
  - b. Reasonable documentation that the development standards for which a waiver is requested will have the effect of physically precluding the construction of a development at the densities or with the concessions or incentives permitted by California Government Code Section 65915.
4. Requested Parking Reduction. In the event an application proposes a parking reduction for a housing development pursuant to California Government Code Section 65915, subdivision (p), a table showing parking required by the zoning regulations, parking proposed under Section 65915, subdivision (p), and reasonable documentation that the project is eligible for the requested parking reduction.
5. Child Care Facility. If a density bonus or incentive is requested for a child care facility in a housing development, reasonable documentation that all of the requirements included in California Government Code Section 65915, subdivision (h) can be met.
6. Condominium Conversion. If a density bonus or incentive is requested for a condominium conversion, reasonable documentation that all of the requirements included in California Government Code Section 65915.5 can be met.
7. Commercial Development Bonus. If a commercial development bonus is requested for a commercial development, the application shall include the proposed partnered housing agreement and the proposed commercial development bonus, as defined in Section 21.86.110, and reasonable documentation that each of the standards included in Subsection 21.86.110(C) has been met.
8. Fee. Payment of any fee in an amount set by resolution of the City Council for staff time necessary to determine compliance of the density bonus plan with State Density Bonus Law.

(Ord. CS-382 § 3, 2020)

#### **§ 21.86.050. Density bonus.**

All calculations are rounded up for any fractional numeric value in determining the total number of units to be granted, including base density and bonus density as well as the resulting number of affordable units needed for a given density bonus project.

- A. If a housing development qualifies for a density bonus under more than one income category, or additionally as a senior citizen housing development as defined in Chapter 21.84 and State Density Bonus Law, or as housing intended to serve transitional foster youth, disabled veterans, homeless persons, or lower income students, the applicant shall identify the categories under which the density bonus would be associated and granted. Density bonuses from more than one category can be combined up to the maximum allowed under State Density Bonus Law.
- B. The density bonus units shall not be included in determining the number of affordable units required to qualify a housing development for a density bonus pursuant to State Density Bonus Law.
- C. The applicant may elect to accept a lesser percentage of density bonus than the housing development

is entitled to, or no density bonus, but no reduction will be permitted in the percentages of required affordable units contained in California Government Code Section 65915, subdivisions (b), (c), and (f). Regardless of the number of affordable units, no housing development shall be entitled to a density bonus of more than what is authorized under State Density Bonus Law.

(Ord. CS-382 § 3, 2020)

#### **§ 21.86.060. Incentives.**

- A. Incentives include incentives and concessions as defined in State Density Bonus Law. The number of incentives that may be requested shall be based upon the number the applicant is entitled to pursuant to State Density Bonus Law.
- B. Nothing in this section requires the provision of direct financial incentives for the housing development, including, but not limited to, the provision of financial subsidies, publicly owned land, fee waivers, or waiver of dedication requirements. The city, at its sole discretion, may choose to provide such direct financial incentives.

(Ord. CS-382 § 3, 2020)

#### **§ 21.86.070. Local coastal program consistency.**

- A. State Density Bonus Law provides that it shall not be construed to supersede or in any way alter or lessen the effect or application of the California Coastal Act of 1976 (California Public Resources Code Section 30000 et seq.), and further provides that the granting of a density bonus or an incentive shall not be interpreted, in and of itself, to require a local coastal plan amendment.
- B. Development within the coastal zone that is granted a density bonus, incentive(s), waiver(s), parking reduction(s), or commercial development bonus shall be consistent with the coastal resource protection policies, and where applicable, the public access requirements of the certified Carlsbad Local Coastal Program.

(Ord. CS-382 § 3, 2020; Ord. CS-426 § 2, 2022)

#### **§ 21.86.080. Review procedures.**

All requests for density bonuses, incentives, parking reductions, waivers, or commercial development bonuses shall be considered and acted upon by the approval body with authority to approve the development within the timelines prescribed by California Government Code Section 65950 et seq., with right of appeal to the City Council.

- A. Eligibility for Density Bonus, Incentive(s), Parking Reduction, and/or Waiver(s) for a Housing Development. To ensure that an application for a housing development conforms with the provisions of State Density Bonus Law and the Coastal Act, the staff report presented to the decision-making body shall state whether the application conforms to the following requirements of state law as applicable:
  1. The housing development provides the affordable units or senior housing required by State Density Bonus Law to be eligible for the density bonus and any incentives, parking reduction, or waivers requested, including the replacement of units rented or formerly rented to very-low and low income households as required by California Government Code Section 65915, subdivision (c)(3).
  2. Any requested incentive will result in identifiable and actual cost reductions to provide for affordable housing costs or rents; except that, if a mixed-use development is requested, the

application must instead meet all of the requirements of California Government Code Section 65915, subdivision (k)(2).

3. The development standards for which a waiver is requested would have the effect of physically precluding the construction of a development at the densities or with the concessions or incentives permitted by California Government Code Section 65915.
  4. The housing development is eligible for any requested parking reductions under California Government Code Section 65915, subdivision (p).
  5. If the density bonus is based all or in part on donation of land, all of the requirements included in California Government Code Section 65915, subdivision (g) have been met.
  6. If the density bonus or incentive is based all or in part on the inclusion of a child care facility, all of the requirements included in California Government Code Section 65915, subdivision (h) have been met.
  7. If the density bonus or incentive is based all or in part on the inclusion of affordable units as part of a condominium conversion, all of the requirements included in California Government Code Section 65915.5 have been met.
  8. If the housing development is in the coastal zone, the development is consistent with the coastal resource protection policies, and where applicable, the public access requirements of the certified Carlsbad Local Coastal Program.
- B. If a commercial development bonus is requested for a commercial development, the decision-making body shall make a finding that the development complies with all of the requirements of Section 21.86.110(C), that the city has approved the partnered housing agreement, and that the commercial development bonus has been mutually agreed upon by the city and the commercial developer. If the project is in the coastal zone, the decision-making body shall also find that the commercial development is consistent with the coastal resource protection policies, and where applicable, the public access requirements of the certified Carlsbad Local Coastal Program.
- C. The decision-making body shall grant an incentive requested by the applicant unless it makes a written finding, based upon substantial evidence, of any of the following:
1. The proposed incentive does not result in identifiable and actual cost reductions to provide for affordable housing costs, as defined in California Health and Safety Code Section 50052.5, or for affordable rents, as defined in California Health and Safety Code Section 50053; or
  2. The proposed incentive would be contrary to state or federal law; or
  3. The proposed incentive would have a specific, adverse impact upon public health or safety or the physical environment or on any real property that is listed in the California Register of Historic Resources, and there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the housing development unaffordable to low and moderate income households. For the purpose of this subsection, specific adverse impact means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified, written public health or safety standards, policies, or conditions as they existed on the date that the application for the housing development was deemed complete.
- D. The decision-making body shall grant the waiver of development standards requested by the applicant unless it makes a written finding, based upon substantial evidence, of any of the following:

1. The proposed waiver would be contrary to state or federal law; or
  2. The proposed waiver would have an adverse impact on any real property listed in the California Register of Historic Resources; or
  3. The proposed waiver would have a specific, adverse impact upon public health or safety or the physical environment, and there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the housing development unaffordable to low and moderate income households. For the purpose of this subsection, specific adverse impact means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified, written public health or safety standards, policies, or conditions as they existed on the date that the application for the housing development was deemed complete.
- E. If any density bonus, incentive, parking reduction, waiver, or commercial development bonus is approved pursuant to this chapter, the applicant shall enter into an affordable housing agreement or senior housing agreement with the city pursuant to Section 21.86.090.

(Ord. CS-382 § 3, 2020; Ord. CS-426 § 3, 2022)

**§ 21.86.090. Affordable housing agreement and senior housing agreement.**

- A. Affordable Housing Agreement. Except where a density bonus, incentive, waiver, parking reduction, or commercial development bonus is provided for a market-rate senior housing development, the applicant shall enter into an affordable housing agreement with the city, in a form approved by the City Attorney, to be executed by the City Manager, to ensure that the requirements of this section are satisfied. The affordable housing agreement shall guarantee the affordability of the affordable units for a minimum of 55 years or a longer period of time if required by the construction or mortgage financing assistance program, mortgage insurance program, or rental subsidy program; shall identify the type, size and location of each affordable unit; and shall specify phasing of the affordable units in relation to the market-rate units.
- B. Senior Housing Agreement. Where a density bonus, waiver, or parking reduction is provided for a market-rate senior housing development, the applicant shall enter into a restrictive covenant with the city, running with the land, in a form approved by the City Attorney, to be executed by the City Manager, to require that the housing development be operated as "housing for older persons" consistent with state and federal fair housing laws.
- C. The executed affordable housing agreement or senior housing agreement shall be recorded against the housing development prior to final or parcel map approval, or, where a map is not being processed, prior to issuance of building permits for the housing development. The affordable housing agreement or senior housing agreement shall be binding on all future owners and successors in interest.
- D. The affordable housing agreement shall include, but not be limited to, the following:
  1. The number of density bonus dwelling units granted;
  2. The number and type of affordable dwelling units;
  3. The unit size(s) (square footage) of target dwelling units and the number of bedrooms per target dwelling unit;
  4. The proposed location of the affordable dwelling units;

5. Schedule for production of affordable dwelling units;
6. Incentives or concessions or waivers provided by the city;
7. Where applicable, tenure and conditions governing the initial sale of the affordable units;
8. Where applicable, tenure and conditions establishing rules and procedures for qualifying tenants, setting rental rates, filling vacancies, and operating and maintaining units for affordable rental dwelling units;
9. Marketing plan; publication and notification of availability of affordable units;
10. Compliance with federal and state laws;
11. Prohibition against discrimination;
12. Indemnification;
13. City's right to inspect units and documents;
14. Remedies.

(Ord. CS-382 § 3, 2020)

#### **§ 21.86.100. Design and quality.**

- A. The city may not issue building permits for more than 50 percent of the market rate units until it has issued building permits for all of the affordable units, and the city may not approve any final inspections or certificates of occupancy for more than 50 percent of the market rate units until it has issued final inspections or certificates of occupancy for all of the affordable units.
- B. Affordable units shall be comparable in exterior appearance and overall quality of construction to market rate units in the same housing development. Interior finishes and amenities may differ from those provided in the market rate units, but neither the workmanship nor the products may be of substandard or inferior quality as determined by the city.
- C. The number of bedrooms of the affordable units shall at least equal the minimum number of bedrooms of the market rate units.

(Ord. CS-382 § 3, 2020)

#### **§ 21.86.110. Commercial density bonus.**

- A. The following definitions shall apply to commercial density bonus:

"Commercial development" means a development project for nonresidential uses.

"Commercial development bonus" means a modification of development standards mutually agreed upon by the city and a commercial developer and provided to a commercial development eligible for such a bonus under Section 21.86.110(C). Examples of a commercial development bonus include an increase in floor area ratio, increased building height, or reduced parking.

"Partnered housing agreement" means an agreement approved by the city between a commercial developer and a housing developer identifying how the commercial development will provide housing available at affordable ownership cost or affordable rent consistent with Section 21.86.110(C). A partnered housing agreement may consist of the formation of a partnership, limited liability company, corporation, or other entity recognized by the state in which the commercial

developer and the housing developer are each partners, members, shareholders, or other participants, or a contract between the commercial developer and the housing developer for the development of both the commercial development and the housing development.

- B. When an applicant proposes to construct a commercial development and has entered into a partnered housing agreement approved by the city, the city shall grant a commercial development bonus mutually agreed upon by the developer and the city. The commercial development bonus shall not include a reduction or waiver of fees imposed on the commercial development to provide for affordable housing.
- C. The requirements for commercial development bonus are as follows, which also be described in the partnered housing agreement:
  - 1. The housing development shall be located either: (a) on the site of the commercial development; or (b) on a site within the city that is within one-half mile of a major transit stop and is located in close proximity to public amenities, including schools and employment centers.
  - 2. At least thirty percent of the total units in the housing development shall be made available at affordable ownership cost or affordable rent for low-income households, or at least 15 percent of the total units in the housing development shall be made available at affordable ownership cost or affordable rent for very low-income households.
  - 3. The commercial developer must agree either to directly build the affordable units; donate a site consistent with subparagraph (C)(1) above for the affordable units; or make a cash payment to the housing developer for the affordable units.

- D. Any approved partnered housing agreement shall be described in the city's housing element annual report as required by California Government Code Section 65915.7, subdivision (k).

(Ord. CS-382 § 3, 2020)

#### **§ 21.86.120. Interpretation.**

If any portion of this chapter conflicts with State Density Bonus Law or other applicable state law, state law shall supersede this chapter. Any ambiguities in this chapter shall be interpreted to be consistent with State Density Bonus Law.

(Ord. CS-382 § 3, 2020)

#### **§ 21.86.130. Inclusionary housing.**

All housing development projects are required to provide affordable housing units in accordance with Chapter 21.85, Inclusionary Housing, of this title. If an applicant seeks to construct affordable housing to qualify for a density bonus in accordance with the provisions of this chapter, those affordable dwelling units provided to meet the inclusionary requirement established pursuant to Chapter 21.85 of this title shall be counted toward satisfying the density bonus requirements of this chapter.

(Ord. CS-382 § 3, 2020)

#### **§ 21.86.140. Severability.**

If any provision of this chapter or its application to any person or circumstances is held invalid, the remainder of the chapter and the application of the provision to other persons not similarly situated or to other circumstances shall not be affected.

(Ord. CS-382 § 3, 2020)

**CHAPTER 21.87  
REASONABLE ACCOMMODATION**

**§ 21.87.010. Purpose and intent.**

A. The purpose and intent of this chapter is as follows:

1. To provide individuals with disabilities reasonable accommodation in land use and zoning and building regulations, policies, practices, and procedures to provide equal opportunity to use and enjoy housing and facilitate the development of housing for individuals with disabilities pursuant to the federal Fair Housing Amendments Act of 1988 and the California Fair Employment and Housing Act (hereafter "fair housing laws").
2. To establish a procedure for making requests for reasonable accommodation in land use, zoning and building regulations, policies, practices and procedures of the city to comply fully with the intent and purpose of fair housing laws.
3. To establish findings that ensure a requested accommodation, if granted, is necessary and reasonable, and would not require a fundamental alteration in the nature of the city's land use and zoning and building regulations, policies, practices, and procedures.

(Ord. CS-125 § II, 2011)

**§ 21.87.020. Definitions.**

A. For the purposes of this chapter, the terms used in this chapter relating to the provisions of reasonable accommodation are defined as follows:

"Individual with a disability" means someone who has a physical or mental impairment that limits one or more major life activities; anyone who is regarded as having such impairment; or anyone with a record of such impairment. This section is intended to apply to those persons who are defined as disabled under the fair housing laws.

"Reasonable accommodation" means, in the land use and zoning context, providing individuals with disabilities or developers of housing for people with disabilities: (1) reasonable, necessary, or feasible flexibility in the application of land use and zoning and building regulations, policies, practices and procedures, or (2) the waiver of certain requirements when it is necessary to provide equal opportunity to use and enjoy housing and/or eliminate barriers to housing opportunities so long as the requested flexibility or waiver would not require a fundamental alteration in the nature of the city's land use and zoning and building regulations, policies, practices, and procedures, and the city's Local Coastal Program.

(Ord. CS-125 § II, 2011; Ord. CS-196 § 1, 2012)

**§ 21.87.030. Applicability.**

- A. A request for reasonable accommodation may be made by any individual with a disability, his or her representative, or a developer or provider of housing for individuals with disabilities, when the application of a land use, zoning or building regulation, policy, practice or procedure acts as a barrier to housing opportunities.
- B. A request for reasonable accommodation may include a modification or exception to the rules, standards, development and use of housing-related facilities that would eliminate regulatory barriers and provide a person with a disability equal opportunity to the housing of their choice.

- C. A request for reasonable accommodation in regulations, policies, practices and procedures may be filed at any time that the accommodation may be necessary to ensure equal access to housing. A reasonable accommodation does not affect the obligations of an individual or a developer of housing for an individual with disabilities to comply with other applicable regulations not at issue in the requested accommodation.
- D. Requests for reasonable accommodation shall be made in the manner prescribed by Section 21.87.040 of this chapter.
- E. If a request for reasonable accommodation is granted, the request shall be granted to an individual and shall not run with the land unless it is determined that: (1) the modification is physically integrated into the residential structure and cannot easily be removed or altered to comply with applicable city or state codes; or (2) the accommodation is to be used by another individual with a disability.
- F. Nothing in this ordinance shall require the city to waive or reduce development or building fees associated with the granting of a reasonable accommodation request.

(Ord. CS-125 § II, 2011; Ord. CS-196 § 2, 2012)

#### **§ 21.87.040. Request for reasonable accommodation.**

- A. Application for a request for reasonable accommodation shall be made in writing on a form provided by the City Planner. The form shall be signed by the property owner or authorized agent. The application shall state fully the circumstances and conditions relied upon as grounds for the application and shall be accompanied by adequate plans and all other materials as specified by the City Planner. The application shall include the zoning, land use or building code provision, regulation, policy or practice from which modification or exception for reasonable accommodation is being requested including an explanation of how application of the existing zoning, land use or building code provision, regulation, policy or practice would preclude the provision of reasonable accommodation.
- B. Proof of applicable disability shall be provided in the form of a note from a medical doctor or other third party professional documentation deemed acceptable to the City Planner.
- C. Any information identified by an applicant as confidential shall be retained in a manner so as to respect the privacy rights of the applicant and shall not be made available for public inspection.
- D. If an individual needs assistance in making the application for reasonable accommodation, the city will provide assistance to ensure the process is accessible.

(Ord. CS-125 § II, 2011; Ord. CS-196 § 3, 2012)

#### **§ 21.87.050. Review authority and procedure.**

- A. A request for reasonable accommodation may be approved or conditionally approved by the City Planner and shall be processed independently of any other required development permits. However, approval of a reasonable accommodation may be conditioned upon approval of other related permits.
- B. The filing of an application for request for reasonable accommodation shall not require public notice.
- C. If necessary to reach a determination on the request for reasonable accommodation, the City Planner may request:
  1. Further information from the applicant consistent with fair housing laws, specifying in detail the

information that is required.

2. Information from other city departments and divisions or other agencies.
- D. Conditions may be imposed to ensure that any removable structures or physical design features that are constructed or installed in association with the reasonable accommodation be removed once those structures or physical design features are unnecessary to provide access to the dwelling unit for the current occupants.

(Ord. CS-125 § II, 2011)

#### **§ 21.87.060. Required findings.**

- A. The housing, which is the subject of the request for reasonable accommodation, will be occupied by an individual with a disability protected under fair housing laws;
- B. The requested accommodation is necessary to make housing available to an individual with a disability protected under the fair housing laws;
- C. The requested accommodation would not impose an undue financial or administrative burden on the city;
- D. The requested accommodation would not require a fundamental alteration in the nature of the city's land use and zoning and building regulations, policies, practices, and procedures, and for housing in the coastal zone, the city's local coastal program.

(Ord. CS-125 § II, 2011)

#### **§ 21.87.070. Effective date of order—Appeal of decision.**

- A. The effective date of the City Planner's decision and method for appeal of such decision shall be governed by Chapter 21.54 of this title.
- B. Nothing in this procedure shall require the City Planner to disclose any information provided to support the request for reasonable accommodation which, in the opinion of the City Attorney, would violate state or federal privacy rights of the individual with a disability.
- C. Nothing in the procedure shall preclude an aggrieved individual from seeking any other state or federal remedy available.

(Ord. CS-125 § II, 2011)

**CHAPTER 21.90  
GROWTH MANAGEMENT**

**§ 21.90.010. Purpose and intent.**

- (a) It is the policy of the city to:
  - (1) Provide quality housing opportunities for all economic sectors of the community;
  - (2) Provide a balanced community with adequate commercial, industrial, recreational and open space areas to support the residential areas of the city;
  - (3) To implement the provisions of Proposition E adopted by the citizens of Carlsbad on November 4, 1986, to require that public facilities and improvements meeting city standards are available concurrently with the need created by new developments and to limit the number of residential dwelling units which can be approved or constructed in the city;
  - (4) Balance the housing needs of the region against the public service needs of Carlsbad residents and available fiscal and environmental resources;
  - (5) Encourage infill development in urbanized areas before allowing extensions of public facilities and improvements to areas which have yet to be urbanized;
  - (6) Ensure that all development is consistent with the Carlsbad general plan;
  - (7) Prevent growth unless adequate public facilities and improvements are provided in a phased and logical fashion as required by the general plan;
  - (8) Control of the timing and location of development by tying the pace of development to the provision of public facilities and improvements at the times established by the city-wide facilities and improvements plan.
- (b) The City Council of the city has determined despite previous City Council actions, including, but not limited to, amendments to the land use, housing, and parks and recreation elements of the general plan, amendments to City Council Policy No. 17, adoption of traffic impact fees, and modification of park dedication and improvement requirements, that the demand for facilities and improvements has outpaced the supply resulting in shortages in public facilities and improvements, including, but not limited to, streets, parks, open space, schools, libraries, drainage facilities and general governmental facilities. The City Council has further determined that these shortages are detrimental to the public health, safety and welfare of the citizens of Carlsbad.
- (c) This chapter is adopted to ensure the implementation of the policies stated in subsection (a), to eliminate the shortages identified in subsection (b), to ensure that no development occurs without providing for adequate facilities and improvements, to regulate the pace of development thereby ensuring a continued supply of housing over a period of years and to continue the quality of life for all economic sectors of the Carlsbad community.
- (d) This chapter will further the policies, goals and objectives established herein by requiring identification of all public facilities and improvements required for development, by prohibiting development until adequate provisions for the public facilities and improvements are made by developers of projects within the city, and by giving development priority to areas of the city where public facilities and improvements are already in place (infill areas).

- (e) This chapter replaces the temporary moratorium on processing and approval of development projects imposed by City Council Ordinance No. 9791.

(Ord. 9808 § 1, 1986; Ord. 9829 § 1, 1987)

#### **§ 21.90.020. Definitions.**

- (a) Whenever the following terms are used in this chapter they shall have the meaning established by this section unless from the context it is apparent that another meaning is intended:

"City-wide facilities and improvements plan" means a plan prepared and approved according to Section 21.90.090 identifying those facilities and improvements required on a city-wide basis to serve the projected population of the city as established by the general plan and providing an outline and budget for financing certain facilities and improvements which will be provided by the city.

"Development" means any use to which land is put, building or other alteration of land and construction incident thereto.

"Development permit" means any permit, entitlement or approval, whether discretionary or ministerial, issued under Titles 20 or 21 of this code and any legislative actions such as zone changes, general plan amendments, or master plan approval or amendment.

"Facilities" means any schools, parks, open space, or recreational areas or structures providing for fire, library, or governmental services, identified in a facilities management plan.

"Improvement" includes traffic controls, streets and highways, including curbs, gutters and sidewalks, bridges, overcrossings, street interchanges, flood control or stormdrain facilities, sewer facilities, water facilities and lighting facilities.

"Local facilities management plan" means a facilities management plan defined by Section 21.90.120 for a local facilities management zone which is established according to Section 21.90.100.

(Ord. 9808 § 1, 1986)

#### **§ 21.90.030. General prohibition—Exceptions.**

- (a) Unless exempted by the provisions of this chapter, no application for any building permit or development permit shall be accepted, processed or approved until a city-wide facilities and improvements plan has been adopted and a local facilities management plan for the applicable local facilities management zone has been submitted and approved according to this chapter.
- (b) No zone change, general plan amendment, master plan amendment or specific plan amendment which would increase the residential density or development intensity established by the general plan in effect on the effective date of this chapter shall be approved unless an amendment to the citywide facilities management plan and the applicable local facilities management plan has first been approved.
- (c) The classes of projects or permits listed in this subsection shall be exempt from the provisions of subsection (a). Development permits and building permits for these projects shall be subject to any fees established pursuant to the city-wide facilities and improvement plan and any applicable local facilities management plan.
- (1) Redevelopment projects;
  - (2) Projects consisting of the construction or alteration of a single dwelling structure for a family on a lot owned by the family intending to occupy the structure, or not to exceed one nonowner-

- occupied house per individual for one or more lots owned prior to July 20, 1986;
- (3) Building permits and final maps for projects identified in Section 2(F) of Ordinance No. 9791 (projects for which construction had commenced and were designated on the map marked Exhibit A to Ordinance No. 9791 "as developing");
- (4) Building permits for projects for which all required development permits were issued or approved on or before January 21, 1986. If all required development permits were issued for a portion of the project only, the exemption shall apply to that portion;
- (5) Building permits for projects for which all required development permits were issued or approved before July 20, 1986, and for which building permits could have been issued under Ordinance No. 9791. If all required development permits were issued for a portion of the project only, the exemption shall apply to that portion;
- (6) Commercial and industrial projects with approved development permits or with a complete application on file with the city prior to June 11, 1986, for such permits. New permits for commercial and industrial projects located within an area that has been previously approved for such uses may also be processed and approved;
- (7) Projects by nonprofit entities for structures and uses for youth recreational, educational or guidance programs such as boys and girls clubs or private schools;
- (8) Zone changes or general plan amendments necessary to accomplish consistency between the general plan and zoning, to implement the provisions of the local coastal plan or which the City Council finds will not increase the public facilities or services and which are initiated by the City Council or Planning Commission;
- (9) Public utility facilities and improvement projects without accommodations for permanent employees are exempt from the provisions of this chapter unless the City Council determines they are of sufficient size and scale to impact public facilities;
- (10) Adjustment plans;
- (11) Development permits for minor subdivisions located in the northwest quadrant of the city as defined in Ordinance No. 9791. Building permits for commercial or industrial construction on lots in such subdivisions may be approved. Residential building permits will not be approved for lots in such subdivisions unless otherwise exempt under this chapter except one permit for a nonowner-occupied lot may be approved for each such subdivision;
- (12) The conversion of existing mobile home parks to condominiums or similar forms of ownership whereby the mobile home park will remain substantially the same in appearance following such conversion;
- (13) Master plans or general plan amendments in connection with master plans which do not increase the residential density or the overall development intensity or facility needs established by the existing general plan provided a local facilities management plan must be prepared, processed and approved concurrently with the master plan.
- (d) The provisions of this subsection apply to final maps and other development permits for projects with a tentative map approved July 20, 1986, which are not included in the exemptions listed in subsection (c).

- (1) If a tentative map or tentative parcel map was approved on or before January 21, 1986, then, after approval of the city-wide facilities plan, a final map or parcel map may be processed and approved before the adoption of a local facility management plan. The expiration period for those tentative maps shall be tolled until the city-wide plan is adopted. The expiration of any development permits issued in conjunction with those maps shall be tolled until the applicable local facilities management plan is approved or, two years after the date the city-wide plan is approved, whichever occurs first.
  - (2) If a tentative map or tentative parcel map was approved after January 21, 1986, and before July 20, 1986, but the approval of final map or parcel map was prohibited by Ordinance No. 9791, then approval of final maps and parcel maps is prohibited until after preparation of the applicable local facilities management plan. The expiration period of those tentative maps and tentative parcel maps, and any other development permits issued in conjunction with the maps shall be tolled until the local facilities management plan is approved, or two years after the date the city-wide facilities and improvements plan is approved, whichever occurs first.
- (e) The exemption for projects listed in subsection (c)(3), (4), (5), and (6) shall expire on July 20, 1988. After that date all development permits for those projects shall be fully subject to the provisions of this chapter. The exemptions for projects listed in subsection (c)(3), (4), (5), and (6) shall apply only so long as the facilities and improvements required as a condition to the issuance of final development permits have been installed or are being installed pursuant to a secured agreement. Any breach of such secured improvement agreement shall subject any remaining building permits for the project to the provisions of subsection (a).
- (f) Final or parcel maps for projects listed in subsection (c)(3), (4), (5), (6) and (7) which comply with all the requirements of the Subdivision Map Act and Title 20 of this code which were filed with the city before July 20, 1986, may be approved by the City Council, or City Engineer as appropriate, after July 20, 1986. Upon approval, those projects shall be subject to the exemption of subsection (c).
- (g) The City Council may authorize the processing of and decision making on building permits and development permits for a project with a master plan approved before July 20, 1986, subject to the following restrictions:
- (1) The City Council finds that the facilities and improvements required by the master plan are sufficient to meet the needs created by the project and that the master plan developer has agreed to install those facilities and improvements to the satisfaction of the City Council.
  - (2) The master plan developer shall agree in writing that all facilities and improvement requirements, including, but not limited to, the payment of fees established by the city-wide facilities and management plan and the applicable local facilities management plan shall be applicable to development within the master plan area and that the master plan developer shall comply with those plans.
  - (3) The master plan establishes an educational park and all uses within the park comprise an integral part of the educational facility.
  - (4) Building permits for the one hundred twenty-nine unit residential portion of Phase I of the project may be approved provided the applicant has provided written evidence that an educational entity will occupy Phase I of the project which the City Council finds is satisfactory and consistent with the goals and intent of the approved master plan.
  - (5) Prior to the approval of the final map for Phase I the master plan developer shall have agreed to

participate in the restoration of a significant lagoon and wetland resource area and made any dedications of property necessary to accomplish the restoration.

- (h) After making the findings in paragraph (1) the City Council may authorize the processing of and decisionmaking on master plans subject to the requirements of paragraph (2). After the grant of the easement required by subparagraph (h)(2)(iv) the tentative map for Phase I of the project, the site plan for the commercial development and the local coastal plan amendment may also be processed and approved. If such approvals are granted and, subject to all other provisions of this code, grading and building permits for construction of the golf course and first phase of the commercial portions of the project may be processed and approved.

The processing and approval of all other developments and building permits within the master plan shall not occur until after the city-wide facilities plan and the local facilities management plan have been adopted by the City Council.

- (1) (i) That the master plan will provide all necessary public facilities for the project and will cure any facilities deficits in the area affected by the project;
- (ii) That the approval will not prejudice the preparation of the city-wide facilities plan and will improve the level of public facilities and services in the area;
- (iii) That by the dedication of land and the construction of public improvements the project will make a significant contribution to the public facilities needs of the city and provide for the preservation or enhancement of significant environmental resources.
- (2) (i) The master plan shall include all of the information required by and implementing the provisions of Sections 21.90.090 and 21.90.110 for the area covered by the master plan;
- (ii) The applicant shall agree in writing that all facilities and improvement requirements, including, but not limited to, the payment of fees established by the citywide facilities and improvement plan and the applicable local facilities management plan shall be applicable to development within the master plan area and that the master plan developer shall comply with those requirements;
- (iii) The master plan applicant shall agree to participate in the restoration of a significant lagoon and wetland resource area;
- (iv) Prior to any processing on the master plan the applicant shall grant an easement over the property necessary for the lagoon restoration and the right-of-way necessary for the widening of La Costa Avenue and its intersection with El Camino Real.

(Ord. 9808 § 1, 1986; Ord. 9837 § 1, 1987; Ord. NS-63 § 1, 1989)

**§ 21.90.031. Tolling of time for consideration of applications submitted before the effective date of this chapter.**

After approval of the city-wide facilities and improvement plan and the applicable local facilities management plan, applications for development permits which were accepted as complete before the effective date of this chapter shall have processing priority in relationship to the acceptance date. Until the approval of the plans all applicable time limits for processing the development permits shall be tolled.

(Ord. 9808 § 1, 1986)

**§ 21.90.032. Tolling of expiration of previously issued development permits.**

If a discretionary development permit, other than a development permit issued in conjunction with a subdivision map, issued prior to July 20, 1986, has an expiration period within which building permits must be issued and the issuance of building permits for the project is prohibited by this chapter then the expiration period shall be tolled until the applicable local facilities management plan is approved, or two years after the date the citywide plan is approved, whichever occurs first.

(Ord. 9808 § 1, 1986)

**§ 21.90.033. Extensions of prior approvals prohibited.**

After approval of an applicable local facilities management plan an extension of the expiration date of any development permit shall not be granted unless the extension is found to be consistent with the plan. The decisionmaking body considering an extension may condition the extension upon compliance with the city-wide plan and applicable local facilities management plan.

(Ord. 9808 § 1, 1986)

**§ 21.90.040. Compliance with this chapter.**

- (a) No development permit shall be approved unless the approving authority finds that the permit is consistent with the city-wide facilities and improvements plan and the applicable local facilities management plan. To ensure consistency the approving authority may impose any condition to the approval necessary to implement the plans.
- (b) No building permit shall be issued unless the fees required by this chapter, and any applicable local facilities management plan fees are first paid, and the permit is consistent with the applicable local facilities management plan. As a condition to the issuance of any building permit pursuant to Section 21.90.030(C) the applicant shall agree to pay the appropriate fees within thirty days of the date each fee is established.
- (c) The requirements of this chapter are imposed as a condition of zoning on the property to ensure implementation of and consistency with the general plan and to protect the public health, safety and welfare by ensuring that public facilities and improvements will be installed to serve new development prior to or concurrently with need.

(Ord. 9808 § 1, 1986)

**§ 21.90.045. Growth management residential control point established.**

In order to ensure that residential development does not exceed those limits established in the general plan, the following growth management control points are established for the residential density ranges of the land use element.

Allowed Dwelling Units Per Acre	
General Plan Density Ranges	Growth Management Control Point
RL 0—1.5	1.0
RLM 0—4.0	3.2
RM 4.0—8.0	6.0
RMH 8.0—15.0	11.5
RH 15.0—23.0	19.0

<b>Allowed Dwelling Units Per Acre</b>	
<b>General Plan Density Ranges</b>	<b>Growth Management Control Point</b>
R-30 23.0—30.0	25.0

No residential development permit shall be approved which density exceeds the growth management control point for the applicable density range unless the following findings are made:

1. The project will provide sufficient additional public facilities for the density in excess of the control point to ensure that the adequacy of the city's public facilities plans will not be adversely impacted; and
2. There have been sufficient developments approved in the quadrant at densities below the control point to cover the units in the project above the control point so that approval will not result in exceeding the quadrant limit; and
3. All necessary public facilities required by this chapter will be constructed or are guaranteed to be constructed concurrently with the need for them created by this development and in compliance with the adopted city standards.

For the purposes of this section the term "quadrant" means those quadrants established by the intersections of El Camino Real and Palomar Airport Road as set forth in the map amending the General Plan and as required by Proposition E adopted November 4, 1986.

(Ord. 9829 § 2, 1987; Ord. CS-206 § II, 2013)

#### **§ 21.90.050. Establishment of local facilities management fee.**

- (a) A local facilities management fee is established to pay for improvements or facilities identified in a local facilities management plan which are related to new development within the zone and are not otherwise financed by any other fee, charge or tax on development, or are not installed by a developer as a condition of a building permit or development permit. The fee may also be used to pay for that portion of the facilities or improvements identified in the city-wide facilities and improvements plan attributed to development within the local zone which are not financed by other means. The facilities management fee shall be paid before the issuance of a building permit. The amount of the fee shall be determined based upon the estimated cost of the facility or improvement designated as necessary to accommodate additional development within the applicable local facilities management zone plus the estimated cost of facilities and improvements identified in the city-wide facilities and improvement plan attributable to the local zone. The fee shall be fairly apportioned among the new development.
- (b) The fee required by this section is in addition to any other means of financing facilities or improvements identified by a local facilities management plan or any other tax, fee, charge or improvement requirement which may be imposed on the development of property under the provisions of state law, this code or City Council policy.
- (c) The amount of the fee for a local facilities management zone shall be set by City Council resolution after a public hearing, published notice of which shall be given according to Section 21.54.060.A.2 and Government Code Section 54992.
- (d) As a condition of any building or development permit application submitted after the effective date of this chapter the applicant shall agree to pay the fee established by this section at the time a building permit is issued.

- (e) The fee established by this section shall be levied at the time of issuance of a building permit.  
(Ord. 9808 § 1, 1986; Ord. CS-178 § CXXV, 2012)

**§ 21.90.060. Special provisions for building permits issued during temporary moratorium.**

Applicants for projects for which building permits were issued after January 21, 1986, and before July 20, 1986, shall pay the fee established by Section 21.90.050 within thirty days after the amount of the fee is determined by the City Council. Payment shall be made according to the agreement executed by the applicant pursuant to Section 3 of Ordinance No. 9791.

(Ord. 9808 § 1, 1986)

**§ 21.90.070. Finding of health, safety and welfare necessary for the fees imposed by Sections 21.90.050 and 21.90.060.**

- (a) The City Council declares that payment of the fee established and imposed by Sections 21.90.050 and 21.90.060 and installation of the facilities and improvements identified in a facilities management plan are necessary to achieve the policies established in Section 21.90.010 and to implement the city's general plan. If the fees are not paid or the facilities or improvements are not installed the public health, safety and welfare will suffer because there will be insufficient facilities and improvements to accommodate any new development. This finding is based upon City Council Policy No. 17, City Council Ordinance No. 9791, and the evidence presented at the public hearings on the ordinance adopting this chapter.
- (b) If any condition imposed as a condition of a development permit or building permit pursuant to this chapter is protested then the permit shall be suspended during the period of the protest.
- (c) This section is adopted pursuant to Government Code Section 65913.5.

(Ord. 9808 § 1, 1986)

**§ 21.90.080. Performance standard.**

The City Council shall adopt general performance standards for each facility or improvement listed in Section 21.90.090(b) or 21.90.110(c). Specific performance standards for city-wide facilities shall be adopted as part of the city-wide facilities and improvement plan. Specific performance standards for each zone shall be adopted as part of the local facilities management plan. If at any time after preparation of a local facilities management plan the performance standards established by a plan are not met then no development permits or building permits shall be issued within the local zone until the performance standard is met or arrangements satisfactory to the City Council guaranteeing the facilities and improvements have been made.

(Ord. 9808 § 1, 1986)

**§ 21.90.090. City-wide facilities and improvements plan.**

- (a) To implement the city's general plan by securing provision of facilities and improvements, and to ensure that development does not occur unless facilities and improvements are available, the City Council shall adopt by resolution a city-wide facilities and improvements plan. The plan shall: Identify all facilities and improvements necessary to accommodate the land uses specified in the general plan and by the zoning; specify size, capacity and service level performance standards for the identified facilities and improvements; establish specific time tables for acquisition, installation and operation of the facilities and improvements correlated to projected population growth, facility and improvement performance standards, and projected nonresidential development; identify the

financing method or methods for each facility and improvement; and establish a facility and improvement budget for those facilities or improvements which will be constructed or financed by the city. The plan shall encourage infill development and reduce the growth-inducing impact of premature extension of facilities or improvements to undeveloped areas by establishing priorities for facility and improvement installation or financing.

- (b) The city-wide facilities and improvement plan shall show how and when the following facilities and improvements will be installed or financed as specified in subsection (c):

- (1) Major sewage transmission systems and sewage treatment plants;
- (2) Major water transmission lines;
- (3) Major area-wide drainage facilities;
- (4) Prime and major arterials; freeway interchanges, bridges or overcrossings;
- (5) Fire facilities;
- (6) Governmental administration facilities;
- (7) Parks and other recreational facilities;
- (8) Libraries.

- (c) The plan shall include the following information with regard to each facility and improvement listed in subsection (b):

- (1) An inventory of present and future requirements for each facility and improvement based upon the performance standard established for each facility and improvement. Cost estimates shall be included. The inventory shall be consistent with the general plan and zoning for the area;
- (2) A phasing schedule establishing the timing for installation or provisions of facilities or improvements in relationship to the amount of development activity (e.g. number of dwelling units, number of square feet of commercial space within the service area of the facility or improvement) and the facility and improvement performance standards;
- (3) A financing plan establishing various methods of funding the facilities and improvements identified in the plan. The plan shall identify those facilities and improvements which would otherwise be provided as a requirement of processing a development project (i.e. requirements imposed as a condition of a development permit) or provided by the developer in order to establish consistency with the general plan or Titles 18, 20 or 21 of this code, and those facilities and improvements for which new funding methods which shall be sufficient to ensure sufficient funds are available to construct or provide facilities or improvements when required by the phasing schedule.

- (d) The City Manager shall prepare and present the plan to the City Council not later than one year from the effective date of the ordinance codified in this chapter.
- (e) Amendments to this city-wide facilities and improvements plan shall be initiated by action of the Planning Commission or City Council.

(Ord. 9808 § 1, 1986)

#### **§ 21.90.100. Local facilities management zones.**

- (a) The City Council shall divide the city into facilities management zones.
- (b) The boundaries of the zones shall be established based upon logical facilities and improvements planning, construction and service relationships to ensure the economically efficient and timely installation of required facilities and improvements. In establishing zone boundaries the City Council shall also be guided by the following considerations:
  - (1) Service areas or drainage basins;
  - (2) Extent to which facilities or improvements are in place or available;
  - (3) Ownership of property;
  - (4) Boundaries of existing zoning master plans;
  - (5) Boundaries of pending zoning master plans;
  - (6) Boundaries of potential future zoning master plan areas;
  - (7) Boundaries of approved tentative maps;
  - (8) Public facilities relationships, especially the relationship to the city's planned major circulation network;
  - (9) Special district service territories;
  - (10) Approved fire, drainage, sewer, or other facilities or improvement master plans.
- (c) The zones shall be established by resolution after a public hearing notice of which is given pursuant to Section 21.54.060.A.2 of this code.

(Ord. 9808 § 1, 1986; Ord. CS-178 § CXXVI, 2012)

#### **§ 21.90.110. Contents of local facility management plans.**

- (a) A local facilities management plan shall be prepared for each facility zone and shall cover the entire zone.
- (b) The plan shall consist of maps, graphs, tables and narrative text and shall be based upon the general plan and zoning applicable within the local zone at the time of plan approval. The local facilities management plan shall be consistent with the city-wide facilities and improvements plan and shall implement the city-wide facilities and improvements plan within the zone.
- (c) The facilities management plan shall show how and when the following facilities and improvements necessary to accommodate development within the zone will be installed or financed as specified in subsection (d):
  - (1) Sewer systems;
  - (2) Water;
  - (3) Drainage;
  - (4) Circulation;
  - (5) Fire facilities;

- (6) Schools;
  - (7) Parks and other recreational facilities;
  - (8) Open space.
- (d) The plan shall be consistent with and implement the city-wide facilities management plan and general plan and shall include the following information with regard to each facility and improvement listed in subsection (c):
- (1) An inventory of present and future requirements for each facility and improvement based upon the performance standard established for each facility. Because improvement requirements for certain facilities and improvements may overlap zone boundaries a discussion of the need for coordination and a proposed coordination plan for facilities extending from one zone to another shall be included. Cost estimates shall be included. It must be shown that development in the zone will not reduce the facilities or improvements capabilities or create facilities or improvements shortages in other zones or reduce service capability in any zone below the performance standard which is established pursuant to Section 21.90.080. The growth-inducing impact of the out-of-zone improvements shall be assessed.
  - (2) A phasing schedule establishing the timing for installation or provisions of facilities or improvements in relationship to the amount of development activity (e.g. number of dwelling units, number of square feet of commercial space, etc.) for the facilities management zone. The phasing schedule shall ensure the development of one area of the zone will not utilize more than the area's pro rata share of facility or improvement capacity within that zone unless sufficient capacity is ensured for other areas of the zone at the time of the first development. The phasing schedule shall include a schedule of development within the zone and a market data and cash flow analysis for financing of facilities and improvements for the zone. The phasing schedule shall identify periods where the demand for facilities and improvements may exceed the capacity and provide a plan for eliminating the shortfall. In those situations when demand exceeds capacity and it is not feasible to increase the capacity prior to development, no development shall occur unless a time schedule for and a means of increasing the capacity is established in the plan.
  - (3) A financing plan establishing various methods of funding the facilities and improvements identified in the plan fairly allocating the cost to the various properties within the zone. The plan shall identify those facilities and improvements which would otherwise be provided as a requirement of processing a development project (i.e. requirements imposed as a condition of a development permit) or provided by the developer in order to establish consistency with the general plan or Titles 18, 20 or 21 of this code, and those facilities and improvements for which new funding methods which shall be sufficient to ensure sufficient funds are available to construct or provide facilities or improvements when required by the phasing schedule. Where facilities or improvements are required for more than one zone, the phasing plan shall identify those other zones and the plan for each zone shall be coordinated. Coordination, however, shall not require identical funding methods.
  - (4) A list or schedule of facilities requirements correlated to individual development projects within the zone.
- (e) The local facilities management plan shall establish the proportionate share of the cost of facilities and improvements identified in the city-wide facilities and improvement plan attributable to development of property on the local facilities management zone.

(Ord. 9808 § 1, 1986)

**§ 21.90.120. Local facilities management plan preparation.**

- (a) A local facilities management plan may be prepared by the city or by the property owners within the zone according to the procedures established by this section.
- (b) The City Council, upon its own initiative, may by resolution direct the City Manager to prepare a facilities management plan for any zone. The City Council may assess the cost of preparing the plan to the owners within the zone after a hearing ten days' written notice of which is given to the property owners within the zone. The cost shall be spread pro rata according to acreage and development potential.
- (c) All owners within the zone may jointly submit a facilities management plan.
- (d) For zones in which joint submission of a facilities management plan is shown to be not feasible any owner or group of cooperating owners within the zone may petition the City Council to allow the owner or group of owners to prepare the plan. After a meeting for which ten days' prior written notice has been given to the property owners within the zone, the City Council may permit the owner or group of owners to prepare and submit the plan. A limit based on the estimated cost of the plan shall be determined at the time of the hearing. The actual cost shall be determined when the plan is adopted and shall be assessed pro rata based on acreage and development potential to property within the facilities management zone. The assessment shall be collected by the city at the time any application for a development project within the zone is submitted. The owner or owners who prepared the plan shall be reimbursed for the cost of the plan less the owner's or owners' pro rata share. No reimbursement shall be made unless the plan is approved. Cost of preparation shall not include interest.
- (e) As an option to preparation by the owner or group of owners as provided in subsection (d), the City Council may decide to direct the City Manager to prepare the facilities management plan. The cost of preparation shall be advanced to the city by the requesting owner or owners, assessed to all the owners and reimbursed as provided in subsection (d).

(Ord. 9808 § 1, 1986)

**§ 21.90.125. Facilities management plan processing.**

- (a) Facilities management plans shall be reviewed according to the following procedure:
  - (1) A completed facilities management plan complying with this chapter, and accompanied by a processing fee submitted to the Planning Director for processing. If the Planning Director determines that the plan complies with the provisions of Section 21.90.110 the director shall set a facilities management plan for public hearing before the Planning Commission within sixty days of receipt of a complete application.
  - (2) The hearing shall be noticed according to the provisions of Section 21.54.060.A.2. A staff report containing recommendation on the plan shall be prepared and furnished to the public, the applicant, and the Planning Commission prior to the hearing.
  - (3) The Planning Commission shall hear and consider the application for a facilities management plan and shall by resolution prepare recommendations and findings for the City Council. The action of the Commission shall be filed with the City Clerk, and a copy shall be mailed to the owners within the facility zone.

- (4) When the Planning Commission action is filed with the City Clerk, the clerk shall set the matter for public hearing before the City Council. The hearing shall be noticed according to the provisions of Section 21.54.060.A.2.
- (5) The City Council shall hear the matter, and after considering the findings and recommendations of the Planning Commission, may approve, conditionally approve or deny a facilities management plan. The City Council may include in the resolution adopting the facilities management plan any fees or facilities improvement requirements which it deems necessary to impose on development projects within the zone in order to implement the city-wide facilities and improvement plan and the local facilities management plan.
- (b) A facilities management plan may be amended following the same procedures for the original adoption.
- (c) A local facilities management plan shall be considered a project for the purposes of Title 19 of this code. Environmental documents should be processed concurrently with the plan.

(Ord. 9808 § 1, 1986; Ord. CS-164 § 10, 2011; Ord. CS-178 § CXXVII, 2012)

#### **§ 21.90.130. Implementation of facilities and improvements requirements.**

- (a) To ensure that the provisions of this chapter and the general plan are met, the following shall apply:
- (1) Except as otherwise provided in this chapter no development permit shall be approved unless the map or permit is consistent with the local facilities management plan and unless provision for all facilities and improvements related to the development project are provided or funded.
- (2) No building permit shall be issued unless all applicable fees, including, but not limited to, public facilities fees, bridge and thoroughfare fees, traffic impact fees, facilities management fees, school fees, park-in-lieu fees, sewer fees, water fees, or other development fees identified in the city-wide facilities and improvements plan and local facilities management plan and adopted by the City Council have first been paid or provision for their payment has been made to the satisfaction of the City Council.
- (b) The city-wide facilities and improvement plan and the local facility management plan process is part of the city's ongoing planning effort. It is anticipated that amendments to the plans may be necessary. Adoption of a facilities management plan does not establish any entitlement or right to any particular general plan or zoning designation or any particular development proposal. The city-wide facilities and improvements plan and the local facilities management plans are guides to ensure that no development occurs unless adequate facilities or improvements will be available to meet demands created by development. The City Council may initiate an amendment to any of the plans at any time if in its discretion it determines that an amendment is necessary to ensure adequate facilities and improvements.
- (c) If at any time it appears to the satisfaction of the City Manager that facilities or improvements within a facilities management zone or zones are inadequate to accommodate any further development within that zone or that the performance standards adopted pursuant to Section 21.90.100 are not being met he or she shall immediately report the deficiency to the council. If the council determines that a deficiency exists then no further building or development permits shall be issued within the affected zone or zones and development shall cease until an amendment to the city-wide facilities and improvements plan or applicable local facilities management plan which addresses the deficiency is approved by the City Council and the performance standard is met.

- (d) The City Planner shall monitor the development activity for each local facilities management zone and shall prepare an annual report to the City Council consisting of maps, graphs, charts, tables and text and which includes a developmental activity analysis, a facilities and improvements adequacy analysis, a facility revenue/expenditure analysis and recommendation for any amendments to the facilities management plan. The content of the annual report shall be established by the City Council.
- (e) The City Council shall annually review the city-wide facilities and improvements plan at the time it considers the city's capital improvement budget.

(Ord. 9808 § 1, 1986)

#### **§ 21.90.140. Obligation to pay fees or install improvements required by any other law.**

Nothing in this chapter shall be construed as relieving a builder, developer or subdivider from any public improvement requirement, dedication requirement or fee requirement which is imposed pursuant to Titles 13, 18, 20 or 21 of this code or pursuant to any City Council policy.

(Ord. 9808 § 1, 1986)

#### **§ 21.90.150. Implementing guidelines.**

The City Council may adopt any guidelines it deems necessary to implement this chapter.

(Ord. 9808 § 1, 1986)

#### **§ 21.90.160. Exclusions.**

- (a) Development proposals which consist of facilities, or structures constructed by a city, county, special district, state, or federal government or any agency, department, or subsidiary thereof for governmental purposes are excluded from the provisions of this chapter. This exclusion shall not apply to development proposals to which a possessory interest tax would be applicable.
- (b) Tentative maps the application for which was accepted before August 6, 1985, may be approved without complying with the plans adopted pursuant to this chapter but any other development permits or building permits for the project shall be subject to the requirements of the plans. The tentative map shall be subject to Section 21.90.030.

(Ord. 9808 § 1, 1986)

#### **§ 21.90.170. Council actions, fees, notice.**

- (a) Whenever this chapter requires or permits an action or decision of the City Council, that action or decision shall be accomplished by a resolution.
- (b) The City Council shall establish application and processing fees for the submission and processing of facilities management plans and for any other request made under Sections 21.90.100, 21.90.120 or 21.90.140.
- (c) Whenever written notice is required to be given to property owners under this section the notice shall be mailed by first class mail to the owners shown on the last equalized assessment roll.

(Ord. 9808 § 1, 1986)

#### **§ 21.90.180. Public facility reductions.**

Notwithstanding any previous sections of this chapter, the City Council shall not materially reduce or delete any public facilities or improvements without making a corresponding reduction in residential

density unless such a reduction or deletion of public facilities is ratified by a vote of the citizens of Carlsbad.

(Ord. 9829 § 4, 1987)

**§ 21.90.185. Residential dwelling unit caps.**

Notwithstanding any previous sections of this chapter, the number of residential dwellings to be approved or constructed after November 4, 1986, shall not exceed the following: Northwest quadrant 5,844; Northeast quadrant 6,166; Southwest quadrant 10,667; Southeast quadrant 10,801, without an affirmative vote of the citizens of Carlsbad.

(Ord. 9829 § 4, 1987)

**§ 21.90.190. Severability.**

If any section, subsection, sentence, clause or phrase of the ordinance codified in this chapter is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of the ordinance codified in this chapter. The City Council declares that it would have passed the ordinance codified in this chapter and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any part thereof be declared invalid or unconstitutional.

(Ord. 9808 § 1, 1986)

**§ 21.90.195. Fee deferral.**

Notwithstanding anything in this chapter and any resolution of the City Council to the contrary, all fees subject to this chapter for any residential development that consists of five or more dwelling units and all new commercial, office, and industrial buildings or building additions shall only be paid prior to building permit issuance, or, at the request of the applicant, deferred until all work required for final inspection has been completed and all department approvals required for final inspection have been obtained by the applicant.

The amount of the fees shall be based on the fees in effect at the time of the request for the final inspection, not the time of building permit issuance.

In the event that the city, for any reason, fails to collect any or all fees prior to final inspection, such fees shall remain the obligation of the developer and/or the property owner.

(Ord. CS-200 § V, 2013; Ord. CS-271 § V, 2015)

**CHAPTER 21.95  
HILLSIDE DEVELOPMENT REGULATIONS**

**Note: Prior ordinance history: Ord. Nos. NS-446, NS-524, NS-783, CS-102, and CS-164.**

**§ 21.95.010. Purpose and intent.**

The purposes and intent of this chapter are to:

- A. Implement the goals and objectives of the land use and open space/conservation elements of the Carlsbad general plan;
- B. Assure hillside conditions are properly identified and incorporated into the planning process;
- C. Preserve and/or enhance the aesthetic qualities of nature hillsides and manufactured slopes by designing projects which relate to the slope of the land, minimizing the amount of project grading, and incorporating contour grading into manufactured slopes which are located in highly visible public locations;
- D. Assure that the alteration of natural hillsides will be done in an environmentally sensitive manner whereby lagoons and riparian ecosystems will be protected from increased erosion and no substantial impacts to natural resource areas, wildlife habitats or native vegetation areas will occur.

(Ord. CS-178 § CXXVIII, 2012)

**§ 21.95.020. Definitions.**

The following definitions are established:

- A. Whenever the following terms are used in this chapter, they shall have the meaning established by this section:

"Collector street" means any street with a minimum right-of-way width of sixty feet which intersects with a circulation element road and provides either primary or secondary access to a residential or nonresidential project.

"Contour grading" means a grading concept designed to result in earth forms which resemble natural terrain characteristics. Horizontal and vertical curve variations should be used for slope banks.

"Development" means grade, erect or construct.

"Downhill perimeter slope" means a slope located between a pad or gently sloping area (gradient is less than ten percent) of a single lot and the property line that is at a lower level than the pad or gently sloping area of the lot.

"Grade" means to excavate or fill or any combination thereof.

"Manufactured slope" means a man-made slope consisting wholly or partially of either cut or fill material.

"Natural slope" means a slope which is not manufactured.

"Project" means any proposal for "development."

"Slope" means ground that forms a natural or artificial incline.

"Total graded area" means all areas of project grading (both on-site and off-site) which are necessary

to enable the achievement of the project.

"Uphill perimeter slope" means a slope located between the pad or gently sloping area (gradient is less than ten percent) of a single lot and a property line located at a higher level than the pad or gently sloping area of the lot.

(Ord. CS-178 § CXXVIII, 2012)

**§ 21.95.030. Applicability of minor hillside development permit and hillside development permit.**

- A. Unless exempt pursuant to Section 21.95.040 of this chapter, no person shall grade, or erect, or construct into or on top of a slope which has a gradient of fifteen percent or more and an elevation differential greater than fifteen feet without first obtaining a minor hillside development permit or hillside development permit pursuant to this chapter.
- B. A minor hillside development permit shall be required, except as specified in subsection C of this section.
- C. A hillside development permit shall be required if the permit application is processed concurrently with any other permit(s) for which the Planning Commission or City Council is the decision-making authority.

(Ord. CS-178 § CXXVIII, 2012)

**§ 21.95.040. Exemptions from minor hillside development permit and hillside development permit.**

- A. The following developments are exempt from the requirement to obtain a minor hillside development permit or hillside development permit, provided that the development complies with Section 21.95.140 of this chapter and the city's hillside development and design guidelines:
  1. The development of one single-family dwelling unit on a residentially zoned lot;
  2. On a single lot, the additional development (i.e.; regrading, slope alteration or building encroachment) of or upon any manufactured slope with a gradient of forty percent or greater and an elevational difference (height) of fifteen feet or greater which has been previously graded consistent with an authorized grading permit;
  3. The development (trenching, utility construction and backfilling) of underground utility systems.
- B. Any development exempted by Section 21.95.040.A above, which does not comply with Section 21.95.140 and the city's hillside development guidelines, must submit an application for a hillside development permit or hillside development permit amendment in order to obtain an exclusion from or modification to the development and design standards pursuant to this chapter.

(Ord. CS-178 § CXXVIII, 2012)

**§ 21.95.050. Application and fees.**

- A. An application for a minor hillside development permit or hillside development permit may be made by the owner of the property affected or the authorized agent of the owner. The application shall:
  1. Be made in writing on a form provided by the City Planner;
  2. State fully the circumstances and conditions relied upon as grounds for the application; and

3. Be accompanied by:
  - a. A legal description of the property involved.
  - b. Adequate plans that allow for detailed review pursuant to this chapter and demonstrate compliance with the hillside mapping procedures in Section 21.95.130.
  - c. All other materials as specified by the City Planner.

B. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.

(Ord. CS-178 § CXXVIII, 2012)

#### **§ 21.95.060. Notices and hearings.**

- A. Notice of an application for a minor hillside development permit shall be given pursuant to the provisions of Sections 21.54.060.B and 21.54.061 of this title.
- B. Notice of an application for a hillside development permit shall be given pursuant to the provisions of Sections 21.54.060.A and 21.54.061 of this title.

(Ord. CS-178 § CXXVIII, 2012)

#### **§ 21.95.070. Decision-making authority.**

- A. Applications for minor hillside development permits and hillside development permits shall be acted upon in accordance with the following:
  1. Minor Hillside Development Permit.
    - a. An application for a minor hillside development permit may be approved, conditionally approved or denied by the City Planner based upon his/her review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the administrative hearing, if one is conducted pursuant to the provisions of Section 21.54.060.B.2 of this title.
    - b. The City Planner may approve or conditionally approve the minor hillside development permit if all of the findings of fact in Section 21.95.080 of this chapter are found to exist.
  2. Hillside Development Permit.
    - a. An application for a hillside development permit may be approved, conditionally approved or denied by the Planning Commission or City Council, as specified in Section 21.54.040 of this title.
    - b. The decision on a hillside development permit shall be based upon the decision-making authority's review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the public hearing.
    - c. The decision-making authority shall hear the matter, and may approve or conditionally approve the hillside development permit if all of the findings of fact in Section 21.95.080 of this title are found to exist.

(Ord. CS-178 § CXXVIII, 2012)

**§ 21.95.080. Required findings.**

- A. No minor hillside development permit or hillside development permit shall be approved unless the decision-making authority finds that:
  1. Undevelopable areas of the project, pursuant to Section 21.53.230(b) of this code, have been properly identified;
  2. The project complies with the purpose and intent provisions of Section 21.95.010 of this chapter;
  3. The project complies with Section 21.95.140 of this chapter and Section 21.95.160 if a modification to the development and design standards is approved;
  4. The project design substantially conforms to the hillside development guidelines manual.

(Ord. CS-178 § CXXVIII, 2012)

**§ 21.95.090. Announcement of decision and findings of fact.**

When a decision on a minor hillside development permit or hillside development permit is made pursuant to this chapter, the decision-making body shall announce its decision in writing in accordance with the provisions of Section 21.54.120 of this title.

(Ord. CS-178 § CXXVIII, 2012)

**§ 21.95.100. Effective date and appeals.**

Decisions on minor hillside development permits and hillside development permits shall become effective unless appealed in accordance with the applicable provisions of Sections 21.54.140 and 21.54.150 of this title.

(Ord. CS-178 § CXXVIII, 2012)

**§ 21.95.110. Expiration, extensions and amendments.**

- A. The expiration period for an approved minor hillside development permit or hillside development permit shall be as specified in Section 21.58.030 of this title.
- B. The expiration period for an approved minor hillside development permit or hillside development permit may be extended pursuant to Section 21.58.040 of this title.
- C. An approved minor hillside development permit or hillside development permit may be amended pursuant to the provisions of Section 21.54.125 of this title.
  1. Unless exempted by Section 21.95.040, an amendment to a minor hillside development permit or hillside development permit shall be required for any portion of a project which has a minor hillside development permit or hillside development permit that is proposed for redesign and otherwise requires a minor hillside development permit or hillside development permit per Section 21.95.030.

(Ord. CS-178 § CXXVIII, 2012)

**§ 21.95.120. Minimum development of hillside lands.**

The provisions of this chapter shall be applied so as to:

A. Not preclude a reasonable use of a legal parcel which includes hillside conditions as regulated by this chapter;

B. Not preclude the efficient and safe provision of public facilities or services to any legal parcel; and

C. Allow development of at least one single-family dwelling unit per parcel described in subsection A of this section.

(Ord. CS-178 § CXXVIII, 2012)

#### **§ 21.95.130. Hillside mapping procedures.**

A slope analysis and slope profiles shall be illustrated on a constraints map, and shall accompany all development submittals which propose grading or development of slopes which have a gradient of fifteen percent or more and have an elevation differential greater than fifteen feet.

A. Slope Analysis. The slope analysis shall identify the acreage of all natural and manufactured slopes within each of the following slope categories.

1. 0—less than 15% slopes.

2. 15—less than 25% slopes.

3. 25—40% slopes.

4. Slopes greater than 40%.

5. Percentage of slope is determined by:

$$\frac{\text{Vertical Distance} \\ (\text{Contour interval})}{\text{Horizontal Distance} \\ (\text{Distance between contour intervals})} \times 100 = \% \text{ Slope}$$

B. Slope Profiles. A minimum of three slope profiles (slope cross sections) shall be included with the submittal of the slope analysis on the constraints map. Slope profiles shall:

1. Be drawn at the same scale and indexed or keyed to the constraints map, grading or preliminary grading plan and project site map;

2. Show both existing and proposed topography, structures and surface infrastructure. Proposed topography, structures and infrastructure shall be drawn with a solid heavy line. Existing topography, structures and infrastructure shall be drawn with a thin or dashed line;

3. Include the slope profile for at least one hundred feet outside of the project site boundary or adjacent public street;

4. Be drawn along those locations of the project site where:

a. The greatest alteration of the existing topography is proposed,

b. The most intense or bulky development is proposed, and

c. The site is most visible from surrounding land uses;

5. Two of the slope profiles shall be roughly parallel to each other and roughly perpendicular to

existing contour lines. The remaining slope profile shall be roughly at a forty-five degree angle to the other slope profiles and existing contour lines.

- C. Assurance of Accurate Hillside Mapping. Both the slope analysis and slope profiles shall be stamped and signed by either a registered landscape architect, civil engineer or land surveyor indicating the datum, source and scale of topographic data used in the slope analysis and slope profiles, and attesting to the fact that the slope analysis and slope profiles have been accurately calculated and identified, consistent with this section.
- D. Development which is exempt per Section 21.95.040 or excluded per Section 21.95.150 is generally exempt from the hillside mapping requirements of this section except in cases where the City Planner determines that hillside mapping is necessary to assess project compliance with the hillside ordinance. (Ord. CS-178 § CXXVIII, 2012)

#### **§ 21.95.140. Hillside development and design standards.**

The provisions of this section shall apply to all projects that propose to grade, erect or construct into or on top of a natural slope or manufactured slope which has a gradient of fifteen percent or more and an elevation differential greater than fifteen feet.

- A. Coastal Zone Hillside Development Regulations.
  1. All development on natural slopes of twenty-five percent or greater within the coastal zone shall comply with the requirements of Chapters 21.38 and 21.203 of the Carlsbad Municipal Code and the slope protection policies of the applicable local coastal program segment. Additionally, all hillside development processed pursuant to this chapter shall be consistent with all applicable provisions and policies of the certified local coastal program(s) and shall not result in significant adverse impacts to coastal resources. Within the coastal zone, in case of conflict between this section and any other provision of Chapter 21.95, Hillside Development Regulations, this section shall apply.
- B. Development of Natural Slopes of Over Forty Percent Gradient.
  1. Natural slopes which have all of the following characteristics shall be undevelopable:
    - a. A gradient of greater than forty percent; and
    - b. An elevation differential of greater than fifteen feet; and
    - c. A minimum area of ten thousand square feet; and
    - d. The slope comprises a prominent land form feature.
  2. Outside the coastal zone, projects which propose the development of natural slopes defined in Section 21.95.140(B)(1) shall nevertheless be allowed, only if the project qualifies as an exclusion or obtains a modification, pursuant to Sections 21.95.150 and 21.95.160, respectively.
- C. Development of Manufactured Slopes of Over Forty Percent Gradient.
  1. Manufactured slopes which have a gradient of greater than forty percent and an elevation differential of greater than fifteen feet shall be subject to the following development standards.
    - a. Development of Uphill Perimeter Slopes.

- (i) The following types of development on or into an uphill perimeter manufactured slope shall be limited to a maximum of six vertical feet as measured from the existing grade at the toe of slope:
  - (A) Main building(s);
  - (B) Accessory buildings; and
  - (C) Retaining walls.
- (ii) Decks may be constructed upon an uphill perimeter manufactured slope up to the required building setback(s) of the underlying zone.
- b. Development of Downhill Perimeter Slopes.
  - (i) For nonresidential projects only, the following types of development over a downhill perimeter manufactured slope shall be limited to a maximum of six vertical feet as measured from the existing grade at the top slope:
    - (A) Decks; and
    - (B) Retaining walls.
  - (ii) Deck surface areas shall be allowed to extend to the same point that a six-foot vertical retaining wall would be permitted.
  - (iii) No main or accessory building may encroach over the top/edge of a downhill perimeter slope.
- c. The manufactured slope standards within this section do not apply to manufactured slopes which are not located along perimeter property lines (including intervening manufactured slopes between split level pads which are located on a single lot).

D. Volume of Grading.

1. The volume of earth moved for cuts and fills shall be minimized.
2. The relative acceptability of hillside grading volume shall be determined by the following:

Cubic Yards of Cut or Fill Grading per Acre of Cut and Fill Area (in acres)	Relative Sensitivity of Hillside Grading Volume
0—7,999 cubic yards/acre	Acceptable
8,000—10,000 cubic yards/acre	Potentially acceptable
> 10,000 cubic yards/acre	Unacceptable

3. The methodology for determining the volumes of both the cut and fill in cubic yards shall be calculated as follows. A grading and preliminary grading plan shall be prepared and shall include: the cut or fill volumes noted for each particular cut or fill and the total volume of cut and fill for the project. The larger volume of the total cut or total fill volumes divided by the total graded area (in acres) shall equal the volume of hillside grading for the project.
4. Applications proposing grading volumes which are potentially acceptable (eight thousand to ten thousand cubic yards/acre of cut or fill) shall, on the preliminary grading plan, submit for review

specific written findings justifying the reasons for the amount of grading, subject to the approval of the City Planner and City Engineer.

5. Applications proposing grading volumes which are unacceptable (greater than ten thousand cubic yards/acre of cut or fill) shall be allowed only if they qualify as an exclusion or modification pursuant to Sections 21.95.150 and 21.95.160 of this chapter respectively.

E. Slope Height.

1. Manufactured slopes shall not be greater than forty feet in height.
2. Slope Height Exclusions. See Section 21.95.150 of this chapter.

F. Contour Grading.

1. All manufactured slopes which are greater than twenty feet in height and two hundred feet in length and which are located adjacent to or are substantially visible from a circulation element road, collector street or useable public open space area shall be contour graded.
2. Contour graded slopes that are developed in nonresidential projects shall be designed to vary slope gradients between fifty percent (2:1 slope ratio) and thirty-three percent (3:1 slope ratio).

G. Screening Manufactured Slopes. All manufactured slopes shall be landscaped consistent with the city's landscape manual.

H. Hillside and Hilltop Architecture. Hillside and hilltop structures shall be consistent with the architectural guidelines included within the city's hillside development guidelines.

I. Slope Edge Building Setbacks (pursuant to this chapter).

1. Slope edge building setbacks shall be sufficient to eliminate or significantly reduce views of vertical building forms which would be visually incompatible with hillside landforms. Notwithstanding the building setback requirements of the underlying zone, all main and accessory buildings that are developed on hilltops and/or pads created on downhill perimeter slopes of greater than fifteen feet in height shall be set back so that the building does not intrude into a 0.7 foot horizontal to one foot vertical imaginary diagonal plane that is measured from the edge of slope to the building. For all buildings which are subject to this slope edge building setback standard, a profile of the diagonal plane shall be submitted with all other development application requirements.
2. Building setbacks pursuant to this chapter do not apply to:
  - a. Slopes which are less than fifteen feet in height;
  - b. The intervening slopes of split-level pads which are located on a single lot, but do apply to the edge of slope of the lowest pad;
  - c. Downhill slopes which are located along the sideyards of residential lots; and
  - d. Substandard residential lots where the top/edge of slope setback standards would preclude a reasonable use of the property.
3. If a downhill perimeter slope is regraded (filled) consistent with Section 21.95.140(C) of this chapter, and a vertical retaining structure is used, then the required building setback shall be measured from the edge of slope which existed prior to regrading (filling).

4. Fencing proposed along a slope edge should be of an open design which does not visually extend the height of the slope. Exceptions to this may include, but are not limited to, noise attenuation walls, privacy walls or security walls.
- J. Roadway Design. Hillside roadway design shall be consistent with the city's hillside development guidelines manual.
- K. Hillside Drainage. Hillside drainage shall be consistent with the city's hillside development guidelines.

(Ord. CS-178 § CXXVIII, 2012)

#### **§ 21.95.150. Exclusions.**

- A. Outside the coastal zone, the following are excluded from the hillside development and design standards of Section 21.95.140.
  1. Hillside areas where a circulation element roadway or a collector street must be located provided that the proposed alignment(s) are environmentally preferred and comply with all other city standards.
  2. Grading volumes, slope heights and graded areas which are directly associated with circulation element roadways or collector streets, provided that the proposed alignment(s) are environmentally preferred and comply with all other city standards.
  3. Hillside areas that have unusual geotechnical or soil conditions that necessitate corrective work that may require significant amounts of or grading.
- B. Within the coastal zone, grading for construction of circulation element roadways are excluded from Sections 21.38.141(C)(1)(a) and 21.203.040(A)(1) of the municipal code.

(Ord. CS-178 § CXXVIII, 2012)

#### **§ 21.95.160. Modifications to the development and design standards.**

- A. Outside the coastal zone, the decision-making body or official may approve a modification to the hillside development and design standards of Section 21.95.140 if it finds that the proposed development complies with the purpose and intent provisions of Section 21.95.010 and makes one or more of the following findings:
  1. The proposed modification will result in significantly more open space or undisturbed area than would a strict adherence to the requirements of Section 21.95.140.
  2. The proposed modification will result in the development of manufactured slopes which are more aesthetically pleasing and natural appearing than would a strict adherence to the requirements of Section 21.95.140.
  3. The proposed modifications will result in the preservation of natural habitat as required by the city's habitat management plan and the required amount of preservation could not be achieved by strict adherence to the requirements of Section 21.95.140 of this chapter.
- B. Any request for a modification to the development and design standards of this chapter shall be accompanied by two preliminary grading plans. One plan shall illustrate how a site would be developed with a strict adherence to the requirements of Section 21.95.140. The second set shall illustrate the extent and type of the requested modification. This plan shall also be accompanied by

any other documentation needed by the decision-making body to determine that the proposed modifications will result in a superior project with less adverse environmental impacts.

- C. If a modification is proposed to allow grading in excess of ten thousand cubic yards/acre of cut or fill, or a manufactured slope in excess of forty feet in height, the applicant shall submit both written and graphic exhibits to justify the proposed grading to the satisfaction of the decision-making body or official. In addition, a detailed mitigation and landscaping plan shall be submitted as part of the application. This plan shall illustrate the mitigation measures and landscaping utilized to screen the proposed grading.
- D. Development on land designated for nonresidential development shall comply with all requirements of this chapter except Sections 21.95.140(D) and 21.95.140(E). Any nonresidential project proposing grading in excess of ten thousand cubic yards per acre or creating slopes in excess of forty feet in height shall provide both written and graphic exhibits to justify the proposed grading to the satisfaction of the decision-making body.
- E. Inside the coastal zone, the decision-making body or official may approve encroachments to slopes of twenty-five percent grade and over in order to preserve natural habitats required by the city's habitat management plan, in accordance with Chapter 21.203 of the municipal code, provided that the required amount of preservation could not be achieved by strict adherence to the requirements of Sections 21.95.140(A) and (B) of this chapter.

(Ord. CS-178 § CXXVIII, 2012)

**CHAPTER 21.100  
T-C TRANSPORTATION CORRIDOR**

**§ 21.100.010. Intent and purpose.**

The intent and purpose of the T-C zone is to provide for and ensure the preservation of certain public transportation rights-of-way which will:

- (1) Insure that adequate land area is available for future transportation modes;
  - (2) Insure compatibility of the development with the general plan and the surrounding developments;
  - (3) Insure that due regard is given to environmental factors;
  - (4) Provide for public improvements and other conditions of approval necessitated by the development.
- (Ord. 9818 § 1, 1986)

**§ 21.100.020. Permitted uses.**

- A. In a T-C zone, notwithstanding any other provision of this title, only the uses listed in Table A, below, shall be permitted, subject to the requirements and development standards specified by this chapter, and subject to the provisions of Chapter 21.44 of this title governing off-street parking requirements.
- B. The uses permitted by conditional use permit, as indicated in Table A, shall be subject to the provisions of Chapter 21.42 of this title.
- C. A use similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purposes of the zone, and is substantially similar to the specified permitted uses.
- D. A use category may be general in nature, where more than one particular use fits into the general category (ex. in some commercial zones "office" is a general use category that applies to various office uses). However, if a particular use is permitted by conditional use permit in another zone, the use shall not be permitted in this T-C zone (even under a general use category) unless it is specifically listed in Table A of this chapter as permitted or conditionally permitted.

**Table A  
Permitted Uses**

In the table, below, subject to all applicable permitting and development requirements of the municipal code:

"P" indicates use is permitted

"CUP" indicates use is permitted with approval of a conditional use permit.

1 = Administrative hearing process

2 = Planning Commission hearing process

3 = City Council hearing process

"Acc" indicates use is permitted as an accessory use.

Use	P	CUP	Acc
Agriculture (see note 2 below)	X		
Light-rail transit related facilities (see note 1 below)	X		
Parking lots		2	
Public streets	X		
Railroad museum		2	
Railroad tracks and related facilities	X		
Recreational facilities (public) (see note 3 below)	X		
Recreation use open to the public (see note 4 below)		2	
Signs, except for billboards, subject to the provisions of Chapter 21.41	X		

**Notes:**

1. Consisting of: (A) Tracks, (B) Energy transmission facilities, including rights-of-way and pressure control or booster stations for gasoline, electricity, natural gas, synthetic natural gas, oil or other forms of energy sources, (C) Maintenance/repair facilities, (D) Stations.
2. Only the following agricultural uses, and buildings accessory to such agricultural uses, are permitted in the T-C zone: (A) Field and seed crops, (B) Truck crops, (C) Horticultural crops, (D) Orchards and vineyards, (E) Tree farms, (F) Fallow lands.
3. Limited to: (A) Passive open space, (B) Bicycle paths, (C) Pedestrian trails.
4. Tennis courts, picnic areas and similar temporary uses.

(Ord. 9818 § 1, 1986; Ord. NS-791 § 30, 2006; Ord. CS-164 § 10, 2011)

**§ 21.100.040. Site development plan.**

No building permit or other entitlement for any use in the T-C zone shall be issued until a site development plan has been approved for the property. The site development plan may include provisions for any accessory use necessary to conduct any permitted use. The site plan shall be processed and approved according to the provisions of Chapter 21.06.

(Ord. 9818 § 1, 1986)

**§ 21.100.050. Conditions.**

The decision-making body may impose such conditions on the site plan as are determined necessary to implement and ensure consistency with the provisions of this chapter, the general plan, the local coastal land use plans, and any applicable specific plans, to ensure that the uses are sufficiently isolated from any rail facilities.

(Ord. 9818 § 1, 1986)

**§ 21.100.060. Minimum lot area.**

There shall be no minimum lot area established for the T-C zone. The size of the lot shall be dependent upon the existing or proposed use.

(Ord. 9818 § 1, 1986)

## CHAPTER 21.105 RECYCLING FACILITIES AND RECYCLING AREAS

### **§ 21.105.010. Recyclable material.**

"Recyclable material" means reusable material including, but not limited to, metals, glass, plastic, cardboard, paper, and organic waste (defined in Section 42649.8 of the Public Resources Code), which are intended for reuse, remanufacture or reconstitution for the purpose of using the altered form. In addition, "recyclable material" is material that is permitted to be recycled at a given site and facility. "Recyclable material" does not include refuse or hazardous materials. "Recyclable material" may include used motor oil collected and transported in accordance with Sections 25250.11 and 25143.2(b)(4) of the California Health and Safety Code.

(Ord. NS-6 § 1, 1988; Ord. CS-312 § 1, 2017)

### **§ 21.105.015. Recycling facility.**

"Recycling collection facility" means a center for the acceptance of recyclable materials. Unless otherwise indicated, such a facility does not use power-driven processing equipment. A small recycling collection facility is less than or equal to five hundred square feet. A large recycling collection facility is greater than five hundred square feet. A mobile recycling collection facility is an automobile, truck, trailer or van licensed by the Department of Motor Vehicles and other ancillary facilities permitted by the city which are used for the collection of recyclable materials.

(Ord. NS-6 § 1, 1988)

### **§ 21.105.020. Recycling processing facility.**

A "recycling processing facility" means a building or enclosed space used for the collection and processing of recyclable materials. "Recycling processing" means the preparation of recyclable material for efficient shipment, to an end-user's specifications, by such means as baling, briquetting, compacting, flattening, grinding, crushing, mechanical sorting, shredding or cleaning. A light recycling processing facility occupies an area of under forty-five thousand square feet of gross collection, processing and storage area and is limited to two outbound truck shipments per day. Light recycling processing facilities are limited to baling, briquetting, crushing, compacting, grinding, shredding and sorting of source-separated recyclable materials. A light recycling processing facility shall not shred, compact or bale ferrous metals other than food and beverage containers. A heavy recycling processing facility is any recycling processing facility other than a light recycling processing facility.

(Ord. NS-6 § 1, 1988)

### **§ 21.105.025. Reverse vending machine.**

A "reverse vending machine (RVM)" means an automated mechanical device which accepts one or more types of empty containers including, but not limited to aluminum cans, glass and plastic bottles, and issues a cash refund or a redeemable credit slip with a value not less than the container's redemption value as determined by the state. An RVM may sort and process containers mechanically; provided, that the entire process is enclosed within the machine. A bulk RVM is an RVM that is larger than fifty square feet, is designed to accept more than one type of container at a time, and will pay by weight instead of by individual container.

(Ord. NS-6 § 1, 1988)

**§ 21.105.030. Recycling collection facilities allowed in commercial and industrial zones.**

Recycling collection facilities shall be allowed in commercial and industrial zones upon approval of a conditional use permit pursuant to Chapter 21.42 of this title, and subject to the following:

## (a) Small recycling collection facilities:

- (1) Shall be established in conjunction with an existing commercial use or community service facility which complies with city codes, ordinances and design standards;
- (2) Shall be no larger than five hundred square feet;
- (3) Shall meet all applicable development standards and shall not interfere with pedestrian or vehicular movements;
- (4) Shall accept only glass, metals, plastic containers, papers and reusable items as allowed by the specific conditional use permit;
- (5) Shall use no power driven processing equipment;
- (6) Shall use attractive containers as approved by the City Planner that are compatible with the site and surrounding area and are constructed and maintained with durable waterproof and rustproof material. The containers shall be covered when the site is not attended and be secure from unauthorized entry or removal of material. The containers shall be of a capacity sufficient to accommodate materials collected according to an adopted collection schedule;
- (7) Shall store all recyclable material in containers or in a mobile recycling collection facility. Recyclable materials shall not be left outside of containers or a mobile recycling collection facility when an attendant is not present;
- (8) Shall be maintained free of fluids, odors, litter, rubbish and any other non-recyclable materials, and shall be swept and cleaned at the end of each collection day;
- (9) Noise levels shall comply with city ordinance and standards;
- (10) Attended facilities located within one hundred feet of a property planned, zoned or occupied for residential use shall operate only during the hours between nine a.m. and seven p.m.;
- (11) Containers for the twenty-four-hour collection of materials shall be at least one hundred feet from any property zoned or occupied for residential use;
- (12) Containers shall be clearly marked to identify the type of material which may be deposited. The facility shall be clearly marked to identify the name and telephone number of the facility operator and the hours of operation, and display a notice stating that no material shall be left outside the recycling enclosure or containers;
- (13) Signs shall be provided as follows:
  - (A) Recycling facilities may have identification signs with a maximum size of eight square feet. The signage shall include the recycling logo provided by the city and shall indicate the location of other small recycling collection facilities in Carlsbad,
  - (B) Signs must be consistent with the positive characteristics of the location and conform to Chapter 21.41 and/or any adopted sign regulation on the site,

- (C) Directional signs, bearing only the recycling logo, may be installed with approval of the conditional use permit if necessary to facilitate efficient and desirable traffic circulation;
  - (14) The facility shall not impair required landscaping of the site;
  - (15) No additional recycling customer parking spaces will be required for a small recycling collection facility located at the established parking lot of a host use that conforms to the present city parking standards;
  - (16) Use of parking spaces by the small recycling collection facility shall not reduce the quantity or quality of available parking spaces below the minimum number required for the site unless all of the following findings can be made:
    - (A) The facility is located in a convenience zone or a potential convenience zone as designated by the California Department of Conservation,
    - (B) A parking study shows that existing parking capacity is not already fully utilized during the time that the small recycling collection facility will be on the site. The results of the parking study shall be incorporated into an adopted site parking plan. The plan shall be used by all users of the site along with the city in reviewing land use applications, building permits, tenant improvements to assure parking facilities are adequate to meet demand;
  - (17) If the conditional use permit expires without renewal, the recycling collection facility shall be removed from the site on the day following permit expiration.
- (b) Large recycling facilities:
- (1) The facility is not within one hundred fifty feet of a property planned, zoned or occupied for residential use;
  - (2) The facility is completely screened from the public view by operating in an enclosed building or within an area completely enclosed by landscaping and a permitted opaque wall or fence of sufficient height to completely screen the facility from the public view. Large recycling collection facilities proposed in the PM zone shall only be allowed to operate completely within an enclosed building;
  - (3) The facility complies with the applicable requirements for the site in which the facility is located;
  - (4) Any storage of recyclable material shall be in sturdy containers, baled or pelletized. Storage of such material shall be covered, secured and maintained in a clean and orderly condition. Storage containers for flammable materials shall be approved by the fire department;
  - (5) The site shall be maintained free of fluids, odors, litter, rubbish and any other nonrecyclable materials, and will be cleaned on a daily basis;
  - (6) Reserved;
  - (7) Facilities located within five hundred feet of property planned, zoned or occupied for residential use, shall not be in operation between seven p.m. and seven a.m.;
  - (8) Any containers provided for after-hour collection of recyclable materials shall be at least two hundred fifty feet from any property planned, zoned or occupied for residential use. All containers shall be of sturdy, rustproof and leakproof construction, shall have sufficient capacity

to accommodate materials collected, and shall be secure from unauthorized entry or removal of materials. Containers within the PM zone shall be enclosed within a building;

- (9) The facility shall be kept free of fluids, odors, litter and rubbish. The collection area shall be clearly marked to identify type of material that may be deposited. The collection area shall display a notice stating that no material shall be left outside of the containers. A trash can shall be provided and emptied daily;
- (10) Signage shall meet the standards of the site in which the facility is located. Signage including the recycling logo provided by the city, shall clearly indicate the name and phone number of the facility operator, and shall indicate the location of other large recycling collection facilities in Carlsbad.

(Ord. NS-6 § 1, 1988; Ord. CS-102 §§ CXVIII, CXIX, 2010; Ord. CS-164 § 10, 2011)

#### **§ 21.105.040. Recycling processing facilities allowed in industrial zones.**

Recycling processing facilities shall be allowed in industrial zones upon approval of a conditional use permit pursuant to Chapter 21.42 and subject to the following:

- (a) The facility shall meet all applicable development standards;
- (b) The facility shall not abut a property planned, zoned or occupied for residential use;
- (c) The facility shall operate in an area completely enclosed on all sides by landscaping and a permitted opaque fence or wall of sufficient height to completely screen the facility from the public view; and located at least two hundred fifty feet from property planned or zoned or occupied for residential use. Recycling processing facilities proposed in the PM zone shall only be allowed to operate completely within an enclosed building;
- (d) Power-driven processing shall be permitted, provided noise levels shall comply with city ordinances and standards. Recycling processing facilities are limited to baling, briquetting, crushing, compacting, grinding, shredding and sorting of source-separated recyclable materials;
- (e) All storage of material shall be in sturdy containers or enclosures which are covered, secured and maintained in good condition. Storage containers for flammable material shall be approved by the fire department. No storage facilities shall be visible above the height of fencing. No exterior storage shall be allowed in the PM zone;
- (f) The site shall be maintained free of fluids, odors, litter, rubbish and any other nonrecyclable materials. The site shall be cleaned of debris on a daily basis and will be secured from unauthorized entry and removal of materials when attendants are not present;
- (g) Space shall be provided on site for the anticipated peak load of customers to circulate, park and deposit recyclable materials. If the facility is open to the public, space will be provided for a minimum of ten customers or the peak hourly load, whichever is higher;
- (h) Space shall be provided to park each commercial vehicle operated by the processing facility and for each employee of the facility;
- (i) Noise levels shall conform with city ordinance and standards;
- (j) If the facility is located within five hundred feet of property planned, zoned or occupied for residential use, it shall not be in operation between seven p.m. and seven a.m. The facility will be administered

by on-site personnel during the hours the facility is open;

- (k) Areas where recyclable materials are collected shall be kept free of fluids, odors, litter, rubbish and any other undesirable materials, and the collection area shall be clearly marked to identify the type of material that may be deposited, and shall display a notice stating that no material shall be left outside. A rubbish container shall be provided and emptied daily;
- (l) No dust, fumes, smoke, vibration or odor above ambient level shall be detectable on neighboring properties;
- (m) Signage shall meet the standards applicable to the site. Signage shall include the recycling logo as provided by the city, shall clearly indicate the name and phone number of the facility operator, shall indicate the hours of operation and shall indicate the location of other recycling processing facilities in Carlsbad.

(Ord. NS-6 § 1, 1988; Ord. CS-102 § CXX, 2010)

#### **§ 21.105.050. Reverse vending machine facilities.**

In commercial zoning districts, a reverse vending machine (RVM) facility may be required by the City Planner to be located and maintained on-site for the following uses and subject to the following standards:

- (a) The RVM shall be located within fifty feet of the entrance of a host use. Host uses include the following:
  - (1) Drug stores;
  - (2) Grocery stores;
  - (3) Eating establishments which provide take-out service;
  - (4) Retail or wholesale business or service stations which provide for the sale of items contained in recyclable materials;
  - (5) Packaged liquor stores.
- (b) A trash can shall be located within ten feet of a reverse vending machine. A RVM facility shall be maintained in a clean, litter and odor free condition.
- (c) A RVM facility shall be an integral part of a site's design and shall not interfere with pedestrian or vehicular movement.
- (d) A RVM facility shall have operating hours that are at least as long as the operating hours and the host use or vending machine(s).
- (e) Each RVM within a RVM facility shall:
  - (1) Be constructed and maintained with durable waterproof and rustproof material from which no fluids or odors are allowed to emit;
  - (2) With a maximum of four square feet of instructions that clearly indicate:
    - (A) The type of recyclable material to be deposited,
    - (B) The operating instructions,

- (C) The identity and phone number of the operator or responsible person to call if the machine is inoperable;
  - (D) A current list of similar RVMs within the city.
- (f) An RVM facility shall be identified with a two-foot maximum recycling logo approved by the city for use city-wide. The recycling logo shall not be considered a sign in determining allowable signage for the host site or use.
- (Ord. NS-6 § 1, 1988; Ord. CS-164 § 10, 2011)

**§ 21.105.060. Recycling areas in development projects.**

- (a) Definitions. The following definitions are applicable to this section.

"Development project" means any of the following:

- (A) A project for which a building permit is required for a commercial, industrial, or institutional building, marina, or residential building having five or more living units, where solid waste is collected and loaded and any residential project where solid waste is collected and loaded in a location serving five or more living units;
- (B) Any new public facility where solid waste is collected and loaded and any improvements for areas of a public facility used for collecting and loading solid waste;
- (C) The definition of development project only includes subdivisions or tracts of single-family detached homes if, within such subdivisions or tracts, there is an area where solid waste is collected and loaded in a location which serves five or more living units. In such instances, recycling areas as specified in this section are only required to serve the needs of the living units which utilize the solid waste collection and loading area.

"Improvement" means any activity which adds to the value of a facility, prolongs its useful life, or adapts it to new uses. For purposes of this chapter, "improvements" do not include "repairs."

"Repairs" keep facilities in good operating condition, but do not materially add to the value of the facility, and do not substantially extend the life of the facility.

"Floor area of a marina" shall be defined as the space dedicated to the docking or mooring of marine vessels.

"Public facility" means and includes, but is not limited to, buildings, structures, marinas and outdoor recreation areas owned by a local agency.

"Recyclable material" is defined in Section 21.105.010 of this chapter.

"Recycling area" means space allocated for collecting and loading of recyclable materials.

- (b) Applicability. Adequate, accessible and convenient areas for collecting and loading recyclable materials shall be provided for each of the following types of development:
- (1) Any new development project for which an application for a building permit is submitted;
  - (2) Any improvements for areas of a public facility used for collecting and loading solid waste;
  - (3) Any existing development project for which an application for a building permit is submitted for a single alteration which is subsequently performed that adds thirty percent or more to the existing floor area of the development project;

- (4) Any existing development project for which an application for a building permit is submitted for multiple alterations which are conducted within a twelve-month period which collectively add thirty percent or more to the existing floor area of the development project;
- (5) Any existing development project for which multiple applications for building permits are submitted within a twelve-month period for multiple alterations which are subsequently performed that collectively add thirty percent or more to the existing floor area of the development project;
- (6) Any existing development project occupied by multiple tenants, one of which submits an application for a building permit for a single alteration which is subsequently performed that adds thirty percent or more to the existing floor area of that portion of the development project which said tenant leases;
- (7) Any existing development project occupied by multiple tenants, one of which submits an application for a building permit for multiple alterations which are conducted within a twelve-month period which collectively add thirty percent or more to the existing floor area of that portion of the development project which said tenant leases; and
- (8) Any existing development project occupied by multiple tenants, one of which submits within a twelve-month period multiple applications for building permits for multiple alterations which are subsequently performed that collectively add thirty percent or more to the existing floor area of that portion of the development project which said tenant leases.

(c) Guidelines for All Development Projects.

- (1) Recycling areas shall be designed to be architecturally compatible with nearby structures and with existing topography and vegetation.
- (2) The design and construction of recycling areas shall not prevent security of any recyclable materials placed therein.
- (3) The design and construction of recycling areas shall not be in conflict with any applicable federal, state or local laws relating to fire, building, access, transportation, circulation, storm water pollution prevention, or safety.
- (4) Recycling areas shall not be located in any area required to be constructed or maintained as unencumbered, according to any applicable federal, state or local laws relating to fire, access, building, transportation, circulation or safety.
- (5) Recycling areas or the bins or containers placed therein must provide protection against adverse environmental conditions, such as rain, which might render the collected materials unmarketable.
- (6) Driveways and/or travel aisles shall, at a minimum, conform to local building code requirements for garbage collection access and clearance. In the absence of such building code requirements, driveways and/or travel aisles should provide unobstructed access for collection vehicles and personnel.
- (7) A sign clearly identifying all recycling and solid waste collection and loading areas and the materials accepted therein shall be posted adjacent to all points of direct access to the recycling areas.

- (8) Developments and transportation corridors adjacent to recycling areas shall be adequately protected from any adverse impacts such as noise, odor, vectors, glare, and storm water pollutants through measures including, but not limited to, maintaining adequate separation, fencing, and landscaping.
  - (9) Recycling areas shall have the ability to accommodate receptacles for recyclable materials.
  - (10) Recycling areas shall be accessible and convenient for those who deposit as well as those who collect and load any recyclable materials placed therein.
  - (11) Recycling areas shall be located so they are as convenient for those persons who deposit, collect, and load the recyclable materials placed therein as are the area(s) where solid waste is deposited, collected and loaded.
  - (12) Whenever feasible, areas for collecting and loading recyclable materials shall be adjacent to the solid waste collection areas.
- (d) Additional Guidelines for Single-Tenant Development Projects.
- (1) Recycling areas shall be adequate in capacity, number and distribution to serve the development project.
  - (2) Dimensions of recycling areas shall accommodate receptacles sufficient to meet the recycling needs of the development project.
  - (3) Recycling areas shall contain an adequate number of bins or containers to allow for the collection and loading of recyclable materials generated by the development project.
- (e) Additional Guidelines for Multiple-Tenant Development Projects.
- (1) Recycling areas shall, at a minimum, be sufficient in capacity, number, and distribution to serve that portion of the development project leased by the tenant(s) who submitted an application or applications resulting in the need to provide recycling area(s) pursuant to subsection (b) of this section.
  - (2) Dimensions of recycling areas shall accommodate receptacles sufficient to meet the recycling needs of that portion of the development project leased by the tenant(s) who submitted an application or applications resulting in the need to provide recycling area(s) pursuant to subsection (b) of this section.
  - (3) Recycling areas shall contain an adequate number of bins or containers to allow for the collection and loading of recyclable materials generated by that portion of the development project leased by the tenant(s) who submitted an application or applications resulting in the need to provide recycling area(s) pursuant to subsection (b) of this section.
- (f) Costs. Any costs associated with adding recycling space to existing development projects shall be the responsibility of the party or parties who are responsible for financing the alterations.

(Ord. NS-321 § 2, 1995; Ord. CS-312 § 2, 2017)

**CHAPTER 21.110  
FLOODPLAIN MANAGEMENT REGULATIONS**

**§ 21.110.010. Statutory authorization.**

This chapter is adopted pursuant to the legislative authority set forth in Government Code Sections 65302, 65560 and 65800 which conferred upon local government units authority to adopt regulations designed to promote the public health, safety and general welfare of its citizenry.

(Ord. NS-39 § 1, 1988)

**§ 21.110.030. Statement of purpose.**

(a) The floodplain management regulations are necessary due to the following facts:

- (1) The flood hazard areas of the city are subject to periodic inundation that may result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare.
  - (2) These flood losses are caused by the cumulative effect of obstructions in areas of special flood hazards that increase flood heights and velocities, and when inadequately anchored, damage uses in other areas. Uses that are inadequately flood-proofed, elevated or otherwise protected from flood damage also contribute to the flood loss.
- (b) It is the purpose of this chapter to promote the public health, safety and general welfare, and to minimize public and private losses due to flood conditions in specific areas by provisions designed:
- (1) To protect human life and health;
  - (2) To minimize expenditure of public money for costly flood-control projects;
  - (3) To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
  - (4) To minimize prolonged business interruptions;
  - (5) To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in areas of special flood hazard;
  - (6) To help maintain a stable tax base by providing for the second use and development of areas of special flood hazard so as to minimize future flood blight areas;
  - (7) To insure that potential buyers are notified that property is in an area of special flood hazard;
  - (8) To insure that those who occupy the areas of special flood hazard assume responsibility for their actions; and
  - (9) Recognize floodplain areas as potential open space resources and encourage compatible open space uses wherever possible.

(Ord. NS-39 § 1, 1988; Ord. CS-102 § CXXIII, 2010)

**§ 21.110.040. Methods of reducing flood losses.**

In order to accomplish its purposes, this chapter includes methods and provisions for:

- (1) Restricting or prohibiting uses which are dangerous to health, safety and property due to water or erosion hazards, or which result in damaging increases in erosion or flood heights or velocities;
- (2) Requiring that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
- (3) Controlling the alteration of natural floodplains, stream channels and natural protective barriers, which help accommodate or channel floodwaters;
- (4) Controlling filling, grading, dredging and other development which may increase flood damage; and
- (5) Preventing or regulating the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards in other areas.

(Ord. NS-39 § 1, 1988)

#### **§ 21.110.050. Definitions.**

For the purposes of this chapter, the following words and phrases have the meaning respectively ascribed to them by this section:

"Appeal" means a request for a review of the floodplain administrator's interpretation of any provision of this chapter or a request for a variance.

"Area of shallow flooding" means a designated AO, AH or VO zone on the Flood Insurance Rate Map (FIRM). The base flood depths range from one to three feet; a clearly defined channel does not exist; the path of flooding is unpredictable and indeterminate; and velocity flow may be evident.

"Area of special flood-related erosion hazard" means the area subject to severe flood related erosion losses. The area is designated as zone E on the Flood Insurance Rate Map (FIRM).

Area of Special Flood Hazard. See "Special flood hazard area."

"Area of special mudslide (i.e., mudflow) hazard" means the area subject to severe mudslides (i.e., mudflows). The area is designated as zone M on the Flood Insurance Rate Map (FIRM).

"Base flood" means the flood having a one percent chance of being equaled or exceeded in any given year (also called the one-hundred-year flood).

"Basement" means any area of the building having its floor subgrade (below ground level) on all sides.

"Breakaway walls" means any type of walls, whether solid or lattice, and whether constructed of concrete, masonry, wood, metal, plastic or any other suitable building material which is not part of the structural support of the building and which is designed to break away under abnormally high tides or wave action without causing any damage to the structural integrity of the building on which they are used or any buildings to which they might be carried by floodwaters. A breakaway wall shall have a safe design loading resistance of not less than ten and no more than twenty pounds per square foot. Use of breakaway walls must be certified by a registered engineer or architect and shall meet the following conditions:

- (A) Breakaway wall collapse shall result from a water load less than that which would occur during the base flood; and
- (B) The elevated portion of the building shall not incur any structural damage due to the effects of wind and water loads acting simultaneously in the event of the base flood.

"Coastal high hazard area" means the area subject to high velocity waters, including coastal and tidal inundation or tsunamis. The area is designated on a Flood Insurance Rate Map (FIRM) as zone V1-30, VE

or V.

"Development" means any manmade change to improved or unimproved real estate including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.

"Flood" or "flooding" means a general and temporary condition of partial or complete inundation of normally dry land areas due to:

- (A) The overflow of floodwaters;
- (B) The unusual and rapid accumulation or runoff of surface waters from any source; and/or
- (C) The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in flooding as defined in this definition.

"Flood Boundary and Floodway Map" means the official map on which the Federal Emergency Management Agency or Federal Insurance Administration has delineated both the areas of flood hazard and the floodway.

"Flood Insurance Rate Map (FIRM)" means the official map on which the Federal Emergency Management Agency or Federal Insurance Administration has delineated both the areas of special flood hazards and the risk premium zones applicable to the community.

"Flood Insurance Study" means the official report provided by the Federal Insurance Administration that includes flood profiles, the FIRM, the Flood Boundary and Floodway Map, and the water surface elevation of the base flood.

"Floodplain" or "flood-prone area" means any land area susceptible to being inundated by water from any source. See definition of flooding.

"Floodplain management" means the operation of an overall program of corrective and preventive measures of reducing flood damage including, but not limited to, emergency preparedness plans, flood control works and floodplain management regulations.

"Floodplain management regulations" means zoning chapters, subdivision regulations, building codes, health regulations, special purpose chapters (such as floodplain chapter, grading chapter and erosion control chapter) and other applications of police power. The term describes such state or local regulations in any combination thereof, which provide standards for the purpose of flood damage prevention and reduction.

"Floodproofing" means any combination of structural and nonstructural additions, changes or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.

"Floodway" means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot. Also referred to as "regulatory floodway."

"Functionally dependent use" means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities,

but does not include long-term storage or related manufacturing facilities.

"Highest adjacent grade" means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

"Lowest floor" means the lowest floor of the lowest enclosed area, including basement (see "Basement" definition).

(A) An unfinished or flood-resistant enclosure below the lowest floor that is usable solely for parking of vehicles, building access or storage in an area other than a basement area, is not considered a building's lowest floor provided it conforms to applicable non-elevation design requirements, including, but not limited to:

- (i) The anchoring standards in Section 21.110.160(1);
- (ii) The construction materials and methods standards in Section 21.110.160(2);
- (iii) The wet flood proofing standard in Section 21.110.160(3); and
- (iv) The standards for utilities in Section 21.110.170.

"Manufactured home" means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes, the term "manufactured home" also includes park trailers, travel trailers and other similar vehicles placed on a site for greater than one hundred eighty consecutive days.

"Manufactured home park or subdivision" means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for sale or rent.

"Mean sea level" means, for purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929 or other datum, to which base flood elevations shown on a community's Flood Insurance Rate Map are referenced.

"New construction" means, for floodplain management purposes, structures for which the start of construction commenced on or after the effective date of a floodplain management regulation adopted by the community.

"One-hundred-year flood" or "100-year flood" means a flood which has a one percent annual probability of being equaled or exceeded. It is identical to the base flood, which will be the term used throughout this chapter.

"Person" means an individual or his/her agent, firm, partnership, association or corporation, or agent of the aforementioned groups, or this state or its agencies or political subdivisions.

"Remedy a violation" means to bring the structure or other development into compliance with state or local floodplain management regulations, or, if this is not possible, to reduce the impacts of its noncompliance. Ways that impacts may be reduced include protecting the structure or other affected development from flood damages, implementing the enforcement provisions of the ordinance or otherwise deterring future similar violations, or reducing federal financial exposure with regard to the structure or other development.

"Riverine" means relating to, formed by, or resembling a river (including tributaries), stream, brook, etc.

"Sand dunes" means naturally occurring accumulations of sand in ridges or mounds landward of the beach.

"Special flood hazard area (SFHA)" means an area having special flood or flood-related erosion hazards, and shown on an FHB or FIRM as zone A, AO, A1-30, AE, A99, AH, VO, V1-30, VE or V.

"Start of construction" means and includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, placement or other improvement was within one hundred eighty days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installations of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footing, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure.

"Structure" means a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home.

"Substantial improvement" means any reconstruction, rehabilitation, addition, or other proposed new development of a structure, the cost of which equals or exceeds fifty percent of the market value of the structure before the "start of construction" of the improvement. This term includes structures, which have incurred "substantial damage," regardless of the actual repair work performed. The term does not, however, include either:

- (A) Any project for improvement of a structure to correct existing violations or state or local health, sanitary or safety code specifications which have been identified by the applicable code enforcement officials and which are the minimum necessary to assure safe living conditions; or
- (B) Any alteration of a "historic structure," provided that the alteration will not preclude the structure's continued designation as a "historic structure."

"Variance" means a grant of relief from the requirements of this chapter which permits construction in a manner that would otherwise be prohibited by this chapter.

"Violation" means the failure of a structure or other development to be fully compliant with the community's floodplain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in this chapter is presumed to be in violation until such time as that documentation is provided.

(Ord. NS-39 § 1, 1988; Ord. NS-664 §§ 1, 2, 2003)

#### **§ 21.110.060. Lands to which this chapter applies.**

This chapter shall apply to all areas of special flood hazards, areas of flood-related erosion hazards and areas of mudslide (i.e., mudflow) hazards within the jurisdiction of the city. When only a portion of a parcel of land lies within the areas of special flood hazards, the provisions of this chapter shall apply only to that portion lying within those areas.

(Ord. NS-39 § 1, 1988)

#### **§ 21.110.070. Basis for establishing the areas of special flood hazard.**

The areas of special flood hazard identified by the Federal Insurance Administration (FIA) of the Federal Emergency Management Agency (FEMA) in the San Diego County and incorporated areas Flood Insurance Study (FIS), dated June 19, 1997, and accompanying Flood Insurance Rate Map (FIRM), dated June 19, 1997, and all subsequent amendments and/or revisions are hereby adopted by reference and declared to be a part of this chapter. This FIS and attendant mapping is the minimum area of applicability of this chapter and may be supplemented by studies for other areas that allow implementation of this chapter and are recommended to the City Council by the floodplain administrator. The FIS and FIRM are on file

in the office of the City Engineer in Carlsbad, California, 92008.  
(Ord. NS-39 § 1, 1988; Ord. NS-664 § 3, 2003)

**§ 21.110.080. Compliance.**

No structure or land shall hereafter be constructed, located, extended, converted or altered without full compliance with the terms of this chapter and other applicable regulations. Violations of the provisions of this chapter by failure to comply with any of its requirements (including violations of conditions and safeguards established in connection with conditions) shall constitute a misdemeanor. Nothing in this chapter shall prevent the city from taking such lawful action as is necessary to prevent, enjoin or remedy any violation.

(Ord. NS-39 § 1, 1988)

**§ 21.110.090. Abrogation and greater regulations.**

This chapter is not intended to repeal, abrogate or impair any existing easements, covenants or deed restrictions. However, where this chapter and other chapter, easement, covenant or deed restriction conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

(Ord. NS-39 § 1, 1988)

**§ 21.110.100. Interpretation.**

In the interpretation and application of this chapter, all provisions shall be:

- A. Considered as minimum requirements;
- B. Liberally construed in favor of the governing body; and
- C. Deemed neither to limit nor repeal any other powers granted under state statutes.

(Ord. NS-39 § 1, 1988)

**§ 21.110.110. Warning and disclaimer of liability.**

The degree of flood protection required by this chapter is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by manmade or natural causes. This chapter does not imply that land outside the areas of special flood hazards, areas of flood-related erosion hazards and areas of mudslide (i.e., mudflow) hazards or uses permitted within such areas will be free from flooding or flood damages. This chapter shall not create liability on the part of the city, any officer or employee thereof, or the Federal Insurance Administration, for any flood damages that result from reliance on this chapter or any administrative decision lawfully made thereunder.

(Ord. NS-39 § 1, 1988)

**§ 21.110.120. Severability.**

This chapter and the various parts thereof are declared to be severable. Should any section of this chapter be declared by the courts to be unconstitutional or invalid, such decision shall not affect the validity of the ordinance as a whole, or any portion thereof other than the section so declared to be unconstitutional or invalid.

(Ord. NS-39 § 1, 1988)

**§ 21.110.130. Special use permit.**

A special use permit shall be obtained in addition to any other required permits or entitlements before construction or development begins within any area of special flood hazards, areas of flood-related erosion hazards or areas of mudslide (i.e., mudflow) hazards established in Section 21.110.070. The filing fees for a special use permit shall be in an amount as the City Council may by resolution establish. Applications for a special use permit shall be made on forms furnished by the City Planner and may include, but not be limited to, plans in duplicate drawn to scale showing the nature, location, dimensions and elevation of the area in question; existing or proposed structures, fill, storage of materials, drainage facilities; and the location of the foregoing. Specifically, the following information is required:

- (1) Proposed elevation in relation to mean sea level, of the lowest floor (including basement) of all structures; in zone AO or VO, elevation of highest adjacent grade and proposed elevation of lowest floor of all structures;
- (2) Proposed elevation in relation to mean sea level to which any structure will be floodproofed;
- (3) All appropriate certifications listed in Section 21.110.150(D) of this chapter;
- (4) Description of the extent to which any watercourse will be altered or relocated as a result of proposed development;
- (5) Environmental impact assessment (one copy only); and
- (6) Environmental impact report (twenty copies), if required.

(Ord. NS-39 § 1, 1988; Ord. CS-102 § CXXIV, 2010; Ord. CS-164 § 10, 2011)

**§ 21.110.135. Findings for approval.**

- (a) A special use permit required by this chapter may be approved or conditionally approved only if the following findings are made:
  - (1) The project is consistent with the general plan, local coastal program, the requirements of this chapter, and any other applicable requirement of this code.
  - (2) The site is reasonably safe from flooding.
  - (3) The project is designed to minimize the flood hazard to the habitable portions of the proposed structure.
  - (4) The proposed project does not create a hazard for adjacent or upstream properties or structures.
  - (5) The proposed project does not create any additional hazard or cause adverse impacts to downstream properties or structures.
  - (6) The proposed project does not reduce the ability of the site to pass or handle a base flood of 100-year frequency.
  - (7) The cumulative effect of the proposed project when combined with all the other existing, proposed, and anticipated development will not increase the water surface elevation of the base flood more than one foot at any point.
  - (8) The project is contingent upon compliance with other federal and state regulations as required.

(Ord. CS-102 § CXXV, 2010; Ord. CS-164 § 10, 2011)

**§ 21.110.140. Designation of floodplain administrator.**

The Planning Commission is appointed as the floodplain administrator.  
(Ord. NS-39 § 1, 1988; Ord. CS-102 § CXXVI, 2010)

**§ 21.110.150. Duties and responsibilities of the floodplain administrator.**

The duties and responsibilities of the floodplain administrator shall include, but not be limited to:

- (1) Permit Authority. The floodplain administrator may approve, conditionally approve or deny a special use permit required by this chapter upon the advice of the City Engineer.
- (2) Use of Other Base Flood Data. When base flood elevation data has not been provided in accordance with Section 21.110.070, the floodplain administrator shall obtain, review and reasonably utilize any base flood elevation and floodway data available from a federal, state or other source, in order to administer Sections 21.110.160 through 21.110.230 of this chapter. Any such information shall be submitted to the City Council for adoption.
- (3) Whenever a watercourse is to be altered or relocated:
  - (A) Notify adjacent communities and the California Department of Water Resources prior to the alteration or relocation of a watercourse, and submit evidence of such notification to the Federal Insurance Administration;
  - (B) Require that the flood-carrying capacity of the altered or relocated portion of such watercourse is maintained.
- (4) Obtain and maintain for public inspection and make available as needed:
  - (A) The certification required in Section 21.110.160(3)(A)21.110.160(3)(A), floor elevations;
  - (B) The certification required in Section 21.110.160(3)(B)21.110.160(3)(B), elevations in areas of shallow flooding;
  - (C) The certification required in Section 21.110.160(3)(C)21.110.160(3)(C), elevations or floodproofing of nonresidential structures;
  - (D) The certification required in Section 21.110.160(3)(D)21.110.160(3)(D), wet floodproofing standard;
  - (E) The certified elevation required in Section 21.110.180(b), subdivision standards;
  - (F) The certification required in Section 21.110.200(1), floodway encroachments;
  - (G) The information required in Section 21.110.210(6), coastal construction; and
  - (H) The reports required in Section 21.110.220(d), mudflow standards.
- (5) Make interpretations where needed, as to the exact location of the boundaries of the areas of special flood hazards, areas of special flood-related erosion hazards or areas of mudslide (i.e., mudflow) hazards, for example, where there appears to be a conflict between a mapped boundary and actual field conditions. The person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in Sections 21.110.240 and 21.110.250 of this chapter.

- (6) Take action to remedy violations of this chapter as specified in Section 21.110.080 of this chapter.  
(Ord. NS-39 § 1, 1988; Ord. CS-102 § CXXVII, 2010)

**§ 21.110.160. Standards of construction.**

In all areas of special flood hazards the following standards are required:

- (1) Anchoring.
  - (A) All new construction and substantial improvements shall be anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.
  - (B) All manufactured homes shall meet the anchoring standards of Section 21.110.190.
- (2) Construction Materials and Methods.
  - (A) All new construction and substantial improvements shall be constructed with materials and utility equipment resistant to flood damage.
  - (B) All new construction and substantial improvements shall be constructed using methods and practices that minimize flood damage.
  - (C) All new construction and substantial improvements shall be constructed with electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.
  - (D) Require within zones AH, AO or VO, adequate drainage paths around structures on slopes to guide floodwaters around and away from proposed structures.
- (3) Elevation and Floodproofing.
  - (A) New construction and substantial improvement of any structure shall have the lowest floor, including basement, elevated to or above the base flood elevation. Nonresidential structures may meet the standards in subsection (3)(C) of this section. Upon the completion of the structure the elevation of the lowest floor including basement shall be certified by a registered professional engineer or surveyor, or verified by the City Building Inspector to be properly elevated. Such certification or verification shall be provided to the floodplain administrator.
  - (B) New construction and substantial improvement of any structure in Zone AO or VO shall have the lowest floor, including basement, elevated above the highest adjacent grade at least as high as the depth number specified in feet on the FIRM, or at least two feet if no depth number is specified. Nonresidential structures may meet the standards in subsection (3)(C) of this section. Upon completion of the structure the elevation of the lowest floor including basement shall be certified by a registered professional engineer or surveyor, or verified by the City Building Inspector to be properly elevated. Such certification or verification shall be provided to the floodplain administrator.
  - (C) Nonresidential construction shall either be elevated in conformance with subsection (3)(A) or (3)(B) of this section or together with attendant utility and sanitary facilities:
    - (i) Be floodproofed so that below the base flood level the structure is watertight with walls substantially impermeable to the passage of water;

(ii) Have structural components capable of resisting hydrostatic and hydrodynamic loads and effects of buoyancy; and

(iii) Be certified by a registered professional engineer or architect that the standards of this subsection are satisfied. Such certifications shall be provided to the floodplain administrator.

(D) Require, for all new construction and substantial improvements, that fully enclosed areas below the lowest floor that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or meet or exceed the following minimum criteria:

(i) Either a minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot above grade. Openings may be equipped with screens, louvers, valves or other coverings or devices; provided, that they permit the automatic entry and exit of floodwaters; or

(ii) Be certified to comply with a local floodproofing standard approved by the Federal Insurance Administration.

(E) Manufactured homes shall also meet the standards in Section 21.110.190 of this chapter.

(Ord. NS-39 § 1, 1988)

#### **§ 21.110.170. Standards for utilities.**

(a) All new and replacement water supply and sanitary sewage systems shall be designed to minimize or eliminate infiltration of floodwaters into the system and discharge from systems into floodwaters.

(b) On-site waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding.

(Ord. NS-39 § 1, 1988)

#### **§ 21.110.180. Standards for subdivisions.**

(a) All preliminary subdivision proposals shall identify the flood hazard area and the elevation of the base flood.

(b) All final subdivision plans will provide the elevation of proposed structure(s) and pads. If the site is filled above the base flood, the final pad elevation shall be certified by a registered professional engineer or surveyor and provided to the floodplain administrator.

(c) All subdivision proposals shall be consistent with the need to minimize flood damage.

(d) All subdivision proposals shall have public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to minimize flood damage.

(e) All subdivisions shall provide adequate drainage to reduce exposure to flood hazards.

(Ord. NS-39 § 1, 1988)

**§ 21.110.190. Standards for manufactured homes.**

All new and replacement manufactured homes and additions to manufactured homes shall:

- (1) Be elevated so that the lowest floor is at or above the base flood elevation; and
- (2) Be securely anchored to a permanent foundation system to resist flotation, collapse or lateral movement.

(Ord. NS-39 § 1, 1988)

**§ 21.110.200. Floodways.**

Located within areas of special flood hazard established in Section 21.110.070 are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of floodwaters which carry debris, potential projectiles, and erosion potential, the following provisions apply:

- (1) Prohibit encroachments, including fill, new construction, substantial improvements and other development unless certification by a registered professional engineer or architect is provided demonstrating that encroachments shall not result in any increase in flood levels during the occurrence of the base flood discharge.
- (2) If subsection 1 of this section is satisfied, all new construction and substantial improvements shall comply with all other applicable flood hazard reduction provisions of Sections 21.110.160 through 21.110.230 of this chapter.

(Ord. NS-39 § 1, 1988)

**§ 21.110.210. Coastal high hazard areas.**

Within coastal high hazard areas established in Section 21.110.070, the following standards shall apply:

- (1) All new construction and substantial improvements shall be elevated on adequately anchored pilings or columns and securely anchored to such pilings or columns so that the lowest horizontal portion of the structural members of the lowest floor (excluding the pilings or columns) is elevated to or above the base flood elevation.
- (2) All new construction shall be located on the landward side of the reach of mean high tide.
- (3) All new construction and substantial improvements shall have the space below the lowest floor free of obstructions or constructed with breakaway walls. Such temporarily enclosed space shall not be used for human habitation.
- (4) Fill shall not be used for structural support of buildings.
- (5) Manmade alterations of sand dunes which would increase potential flood damage is prohibited.
- (6) The floodplain administrator shall obtain and maintain the following records:
  - (A) Certification by a registered engineer or architect that a proposed structure complies with Section 21.110.210(1).
  - (B) The elevation (in relation to mean sea level) of the bottom of the lowest structural member of the lowest floor (excluding pilings or columns) of all new and substantially improved structures, and whether such structures contain a basement.

(Ord. NS-39 § 1, 1988)

**§ 21.110.220. Mudslide (i.e., mudflow) prone areas.**

- (a) The floodplain administrator shall review permits for proposed construction or other development to determine if it is proposed within a mudslide area.
- (b) Permits shall be reviewed to determine that the proposed development is reasonably safe from mudslide hazards. Factors to be considered in making this determination include, but are not limited to:
  - (1) The type and quality of soils;
  - (2) Evidence of groundwater or surface water problems;
  - (3) The depth and quality of any fill;
  - (4) The overall slope of the site; and
  - (5) The weight that any proposed development will impose on the slope.
- (c) Within areas that have mudslide hazards, the following requirements apply:
  - (1) A site investigation and further review shall be made by a person qualified in geology and soils engineering;
  - (2) The proposed grading, excavation, new construction and substantial improvements shall be adequately designed and protected against mudslide damages;
  - (3) The proposed grading, excavations, new construction and substantial improvements do not aggravate the existing hazard by creating either on-site or off-site disturbances; and
  - (4) Drainage, planting, watering and maintenance shall not endanger slope stability.
- (d) Within zone M on the Flood Insurance Rate Map, the community shall adopt a drainage chapter which at least complies with the standards of Section 7001 through 7006 and Sections 7008 through 7015 of the most recent amendment of the 1982 Uniform Building Code:
  - (1) The location of foundation and utility systems of new construction and substantial improvements;
  - (2) The location, drainage and maintenance of all excavations, cuts and fills and planted slopes;
  - (3) Protective measures including, but not limited to, retaining walls, buttress fills, subdrains, diverter terraces, benchings, etc.; and
  - (4) Engineering drawings and specifications to be submitted for all corrective measures, accompanied by supporting soils engineering and geology reports.

(Ord. NS-39 § 1, 1988)

**§ 21.110.230. Flood-related erosion-prone areas.**

- (a) The floodplain administrator shall require permits for proposed construction and other development within all flood-related erosion-prone areas as known to the community.
- (b) Such permits shall be reviewed to determine whether the proposed site alterations and improvements will be reasonably safe from flood-related erosion and will not cause flood-related erosion hazards or

otherwise aggravate the existing hazard.

- (c) If a proposed improvement is found to be in the path of flood-related erosion or would increase the erosion hazard, such improvement shall be relocated or adequate protective measures shall be taken to avoid aggravating the existing erosion hazard.
- (d) Within zone E on the Flood Insurance Rate Map, a setback is required for all new development from the ocean, lake, bay, riverfront or other body of water to create a safety buffer consisting of a natural vegetative or contour strip. This buffer shall be designated according to the flood-related erosion hazard and erosion rate, in relation to the anticipated useful life of structures, and depending upon the geologic, hydrologic, topographic and climatic characteristics of the land. The buffer may be used for suitable open space purposes, such as for agricultural, forestry, outdoor recreation and wildlife habitat areas, and for other activities using temporary and portable structures only.

(Ord. NS-39 § 1, 1988)

#### **§ 21.110.240. Appeals.**

- (a) The floodplain administrator shall announce its decision and findings by resolution to the applicant and the resolution shall recite, among other things, the facts and reasons which, in the opinion of the floodplain administrator, make the granting or denial of a special use permit, variance or other entitlement under this chapter necessary to carry out the provisions and general purposes of this title and shall order that the special use permit, variance or other entitlement be granted or denied, and if such resolution orders that the special use permit, variance or other entitlement be granted, it shall also notice such conditions and limitations as the floodplain administrator may impose.
- (b) The effective date of order of the floodplain administrator granting or denying a special use permit, variance or other entitlement and the method for appeal of such order shall be governed by Section 21.54.150 of this code. In passing upon appeals and requests for variances from the requirements of this chapter, the City Council shall consider all technical evaluations, all relevant factors, standards specified in other sections of this chapter, and:
  - (1) The danger that materials may be swept onto other lands to the injury of others;
  - (2) The danger of life and property due to flooding or erosion damage;
  - (3) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;
  - (4) The importance of the services provided by the proposed facility to the community;
  - (5) The necessity to the facility of a waterfront location, where applicable;
  - (6) The availability of alternative locations for the proposed use which are not subject to flooding or erosion damage;
  - (7) The compatibility of the proposed use with existing and anticipated development;
  - (8) The relationship of the proposed use to the comprehensive plan and floodplain management program for that area;
  - (9) The safety of access to the property in time of flood for ordinary and emergency vehicles;
  - (10) The expected heights, velocity, duration, rate of rise and sediment transport of the floodwaters expected at the site; and

- (11) The costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical and water systems, and streets and bridges.
- (c) Generally, variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing subsections (b)(1) through (b)(11) of this section have been fully considered. As the lot size increases beyond one-half acre, the technical justification required for issuing the variance increases.
- (d) Upon consideration of the factors of subsection (b) of this section and the purposes of this chapter, the City Council may attach such conditions to the granting of variances as it deems necessary to further the purposes of this chapter.
- (e) The floodplain administrator will maintain a record of all variance actions, including justification for their issuance, and report such variances issued in its biennial report submitted to the Federal Insurance Administration, Federal Emergency Management Agency.

(Ord. NS-39 § 1, 1988; Ord. NS-664 § 4, 2003; Ord. NS-675 § 72, 2003)

#### **§ 21.110.250. Conditions for variances.**

- (a) Variances may be issued for the reconstruction, rehabilitation or restoration of structures listed in the National Register of Historic Places or the State Inventory of Historic Places, without regard to the procedures set forth in the remainder of this section.
- (b) Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.
- (c) Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.
- (d) Variances shall only be issued upon:
- (1) A showing of good and sufficient cause;
  - (2) A determination that failure to grant the variance would result in exceptional hardship to the applicant; and
  - (3) A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of, the public or conflict with existing local laws or chapters.
- (e) Variances may be issued for new construction and substantial improvements and for other development necessary for the conduct of a functionally dependent use; provided, that the provisions of subsections (a) through (d) of this section are satisfied and that the structure or other development is protected by methods that minimize flood damages during the base flood and create no additional threats to public safety.
- (f) Any applicant to whom a variance is granted shall be given written notice over the signature of the Community and Economic Development Director that the issuance of a variance to construct a structure below the base flood level will result in increased premium rates for flood insurance up to amounts as high as twenty-five dollars for two hundred dollars of insurance coverage with the increased risk resulting from the reduced lowest floor elevation. A copy of the notice shall be

recorded by the floodplain administrator in the office of the San Diego County Recorder and shall be recorded in a manner so that it appears in the chain of title of the affected parcel of land.  
(Ord. NS-39 § 1, 1988; Ord. NS-664 § 5, 2003; Ord. CS-164 § 15, 2011)

**CHAPTER 21.201  
COASTAL DEVELOPMENT PERMIT PROCEDURES**

**Note: Prior ordinance history: Ord. Nos. NS-365, NS-663, NS-675, CS-054, CS-099, CS-102, and CS-164.**

**§ 21.201.010. Purpose.**

This chapter establishes the permit procedures for developments located in the coastal zone. This chapter is based on the local coastal program implementation regulations adopted by the California Coastal Commission pursuant to Public Resources Code Sections 30620.6 and 30333, and as such shall constitute the minimum procedural requirements for review of developments in the coastal zone pursuant to Public Resources Code Section 30600(d).

(Ord. CS-178 § CXXIX, 2012)

**§ 21.201.015. Applicability.**

This chapter shall apply to development within the coastal zone, with the exception of the Agua Hedionda Lagoon segment of the Carlsbad Local Coastal Program.

(Ord. CS-178 § CXXIX, 2012)

**§ 21.201.020. Definitions.**

"Aggrieved person" means any person who, in person or through a representative, appeared at a public hearing of the city in connection with the decision or action appealed, or who, by other appropriate means prior to a hearing, informed the city of the nature of his or her concerns or who for good cause was unable to do either.

"Allowable use" means any use allowed by right which does not require a public hearing or any discretionary or nondiscretionary permit of the approving authority.

"Appealable development" means in accordance with Public Resources Codes Section 30603(a), any of the following:

1. Developments approved by the local government between the sea and the first public road paralleling the sea or within three hundred feet of the inland extent of any beach or of the mean high tide line of the sea where there is no beach, whichever is the greater distance.
2. Developments approved by the local government not included within subsection (C)(1) of this section located on tidelands, submerged lands, public trust lands, within one hundred feet of any wetland, estuary, stream or within three hundred feet of the top of the seaward face of any coastal bluff.
3. Any development which constitutes a major public works project or a major energy facility. The phrase "major public works project or a major energy facility" as used in Public Resources Code Section 30603(a)(5) and its regulations shall mean any proposed public works project, as defined by Section 13012 of the Coastal Commission Regulations, (Title 14 California Code of Regulations, Division 5.5) or energy facility, as defined by Public Resources Code Section 30107.

"Appellant" means any person who may file an appeal and includes an applicant, any aggrieved person or any two members of the Coastal Commission.

"Applicant" means the person, partnership, corporation, state or local government agency applying for a coastal development permit.

"Categorically excluded development" means a development (upon request of the city, public agency or other person) which the City Planner has determined pursuant to Section 21.201.060(C) of this code to have no potential for significant adverse effect on coastal resources or access and, therefore, has issued an exclusion.

"Coastal zone" means the coastal zone of the city as described in the Public Resources Code Section 30103.

"Coastal Commission" means the California Coastal Commission.

"Decision-making authority" means the city officer, Planning Commission or council approving a coastal development permit.

"Executive Director" means the Executive Director of the Coastal Commission.

"Local coastal program" means the city's land use plan, zoning ordinances, zoning maps, and other implementing actions certified by the Coastal Commission as meeting the requirements of the California Coastal Act of 1976.

"Major energy facility" means any energy facility as defined by Public Resources Code Section 30107 and exceeding one hundred thousand dollars in estimated cost of construction.

"Major public works project" means any public works project as defined by Title 14 California Code of Regulations Section 13012 and exceeding one hundred thousand dollars in estimated cost of construction.

"Permitted use" means any use allowed by right which does not require a public hearing, but does require a discretionary or nondiscretionary permit (e.g., building permit) to be issued by the approving authority.

"Other permits and approvals" means permits and approvals, other than a coastal development permit, required to be issued by the approving authority before a development may proceed.

(Ord. CS-178 § CXXIX, 2012)

### **§ 21.201.030. Requirements for minor coastal development permits and coastal development permits.**

Except as provided in Section 21.201.060 below, any applicant wishing to undertake a development (defined in Section 21.04.107) in the coastal zone shall obtain a minor coastal development permit or coastal development permit in accordance with the provisions of this chapter, in addition to any other permit required by law. Development undertaken pursuant to a minor coastal development permit or coastal development permit shall conform to the plans, specifications, terms and conditions approved in granting the permit. The procedures prescribed herein may be used in conjunction with other procedural requirements of the decision-making authority, provided that the minimum requirements as specified herein are assured.

(Ord. CS-178 § CXXIX, 2012)

### **§ 21.201.050. Determination of applicable procedures.**

- A. The City Planner shall determine whether a development is exempt or categorically excluded from the requirements of this chapter, or is nonappealable or appealable to the Coastal Commission. This determination shall be made with reference to the certified local coastal program, including maps, categorical exclusions, land use designations, and zoning ordinances adopted as part of the certified local coastal program.
- B. The City Planner shall inform the applicant whether the project is exempt (and whether in the

"appealable area," if not exempt) within ten calendar days of the determination that the application is complete. The written notice to the applicant shall include advice that, if dissatisfied with or if there is a question regarding the determination, the applicant (or City Planner) may request the opinion of the Coastal Commission's Executive Director in accordance with 14 Code of California Regulations Section 13569.

(Ord. CS-178 § CXXIX, 2012)

**§ 21.201.060. Exemptions and categorical exclusions from minor coastal development permit and coastal development permit procedures.**

- A. For the purposes of subsection (B)(1) of this section, an existing single-family residential building shall include:
1. All appurtenances and other accessory structures, including decks, directly attached to the residence;
  2. Accessory structures or improvements on the property normally associated with residences, such as garages, swimming pools, fences and storage sheds, and junior accessory dwelling units and accessory dwelling units that are attached to or converted from the existing space of a primary residence or attached accessory structure, but not including guest houses or self-contained residential units that are detached from an existing single-family residential building;
  3. Landscaping on the lot.
- B. Exemptions. The following projects are exempt from the requirements of a minor coastal development permit and coastal development permit:
1. Improvements to an existing single-family residential building, except:
    - a. On a beach, wetland or seaward of the mean high tide line;
    - b. Where the residence or proposed improvement would encroach in an environmentally sensitive habitat area or within fifty feet of the edge of a coastal bluff;
    - c. Improvements that would result in an increase of ten percent or more of internal floor area of an existing structure or an additional improvement of ten percent or less where an improvement to the structure had previously been undertaken pursuant to California Public Resources Code Section 30610(a), or an increase in height by more than ten percent of an existing structure and/or any significant nonattached structure such as garages, fences, shoreline protective works or docks, and such improvements are on property located:
      - i. Between the sea and the first public road paralleling the sea,
      - ii. Within three hundred feet of the inland extent of any beach or of the mean high tide of the sea where there is no beach, whichever is the greater distance, or
      - iii. In significant scenic resources areas as designated by the Commission;
    - d. Any significant alteration of land forms including removal or placement of vegetation on a beach, wetland, or sand dune, or within fifty feet of the edge of a coastal bluff except as provided in subsections (B)(8), (B)(9), (B)(10) and (B)(11) of this section;
    - e. Expansion or construction of water wells or septic systems;

- f. Improvements to establish an accessory dwelling unit that is attached to the primary residence, or converted from the existing space of a primary residence or attached accessory structure or a junior accessory dwelling unit within a one-family dwelling where such primary residence or attached accessory structure is nonconforming with respect to habitat preserve buffers or geologic stability setbacks in the certified local coastal program.
2. Improvements to existing structures other than a single-family residence or public works facility, except:
  - a. On a beach, wetland, lake or stream or seaward of the mean high tide line;
  - b. Where the structure or improvement would encroach within fifty feet of the edge of the coastal bluff;
  - c. On property located between the sea and the first public road paralleling the sea or within three hundred feet of the inland extent of any beach or of the mean high tide of the sea where there is no beach, whichever is the greater distance;
  - d. Any improvement that would increase by ten percent or more the internal floor area of an existing structure, or any additional improvement where an improvement to the structure had previously been undertaken pursuant to Public Resources Code Section 30610(b), or this section, and the cumulative increase of the improvements is ten percent or more;
  - e. An increase in height by more than ten percent of an existing structure, including any significant detached accessory structure, such as garages, fences, shoreline protective structures or docks;
  - f. Any improvement which changes the intensity of use of a structure;
  - g. Any significant alteration of land forms including removal or placement of vegetation on a beach, wetland or sand dune, or within one hundred feet of the edge of a coastal bluff or stream except as provided in subsections (B)(8), (B)(9), (B)(10) and (B)(11) of this section;
  - h. Any improvement made pursuant to a conversion of an existing structure from a multiple unit rental use or visitor serving commercial use to a use involving a fee ownership or long-term leasehold including, but not limited to, a condominium conversion, stock cooperative, conversion or motel/hotel timesharing conversion;
    - i. Expansion or construction of water wells or septic systems.
3. Occupancy permits.
4. Harvesting of agricultural crops or other agriculturally related activities specifically defined as permitted uses in the applicable zone, which require no other permits and approvals of the decision-making authority, and are thereby allowable uses herein.
5. Fences for farm or ranch purposes.
6. Water wells, well covers, pump houses, water storage tanks of less than ten thousand gallons capacity and water distribution lines, including up to one hundred cubic yards of associated grading, provided such water facilities are used for onsite agriculturally-related purposes only.

7. Water impoundments located in drainage areas not identified as blue line streams (dashed or solid) on USGS 7½ minute quadrangle maps, provided such impoundments do not exceed twenty-five acre feet in capacity.
8. Water pollution control facilities for agricultural purposes if constructed to comply with waste discharge requirements or other orders of the Regional Water Quality Control Board.
9. Landscaping on the lot unless the landscaping could result in erosion or damage to sensitive habitat areas.
10. Repair or maintenance activities not described in Section 21.201.070 of this chapter.
11. Activities of public utilities as specified in the repair, maintenance and utility hookup exclusion adopted by the Coastal Commission, September 5, 1978, and as modified from time to time.

C. Categorical Exclusions.

1. A permit issued for a development which is categorically excluded from the coastal development permit requirements pursuant to California Public Resources Code Section 30610, shall be exempt from the requirements of this chapter.
  2. The City Council may designate by resolution, after a public hearing, categories of development that have no potential for any significant adverse effect, either individually or cumulatively, on coastal resources or on public access to, or along the coast. Development which has been so designated shall be categorically excluded from the provisions of this chapter. The designation of any categorical exclusion shall not be effective until the categorical exclusion order has been approved by the Coastal Commission.
  3. The City Planner shall keep a record of all permits issued for such categorically excluded projects.
- D. Notice of Categorically Excluded or Exempt Developments. A permit issued by the city for a development which is categorically excluded or exempt from the coastal development permit requirements, shall be exempt from the notice and hearing requirements of this chapter. The city shall maintain a record for all permits issued for categorically excluded or exempt developments which shall be made available to the Coastal Commission or any interested person upon request. This record may be in the form of any record of permits issued currently maintained by the city; provided, that such record includes the applicant's name, the location of the project, and brief description of the project.

(Ord. CS-178 § CXXIX, 2012; Ord. CS-324 § 24, 2017; Ord. CS-330 § 4, 2018; Ord. CS-384 § 27, 2020)

**§ 21.201.070. Repair and maintenance activities requiring a coastal development permit.**

- A. All repair and maintenance activities governed by the provisions of this subsection shall be subject to the permit regulations of the California Coastal Act, including, but not limited to, the regulations governing administrative and emergency permits. The provisions of this section shall not be applicable to methods of repair and maintenance undertaken by the ports listed in Public Resources Code Section 30700, unless so provided elsewhere in these regulations. The provisions of this section shall not be applicable to those activities specifically described in the document entitled Repair, Maintenance and Utility Hookups, adopted by the Coastal Commission on September 5, 1978.
- B. The following repair and maintenance activities require a coastal development permit because they involve a risk of substantial adverse impact to coastal resources or access.

1. Any method of repair or maintenance of a seawall, revetment, bluff retaining wall, breakwater, groin, culvert, outfall, or similar shoreline work that involves:
    - a. Repair or maintenance involving substantial alteration of the foundation of the protective work including pilings and other surface or subsurface structures;
    - b. The placement, whether temporary or permanent, of rip-rap, artificial berms of sand or other beach materials, or any other forms of solid materials, on a beach or in coastal waters, streams, wetlands, estuaries and lakes or on a shoreline protective work except for agricultural dikes within enclosed bays or estuaries;
    - c. The replacement of twenty percent or more of the materials of an existing structure with materials of a different kind; or
    - d. The presence, whether temporary or permanent, of mechanized construction equipment or construction materials on any sandy area or bluff or within twenty feet of coastal waters or streams.
  2. Any method of routine maintenance dredging that involves:
    - a. The dredging of one hundred thousand cubic yards or more within a twelve-month period;
    - b. The placement of dredged spoils of any quantity within an environmentally sensitive habitat area, on any sand area, within fifty feet of the edge of a coastal bluff or environmentally sensitive area, or within twenty feet of coastal waters or streams; or
    - c. The removal, sale or disposal of dredged spoils of any quantity that would be suitable for beach nourishment in an area the Coastal Commission has declared by resolution to have a critically short sand supply that must be maintained for protection of structures, coastal access or public recreational use.
  3. Any repair or maintenance to facilities or structures or work located in an environmentally sensitive habitat area, or any sand area, within fifty feet of the edge of a coastal bluff or environmentally sensitive habitat area, or within twenty feet of coastal waters or streams that include:
    - a. The placement or removal, whether temporary or permanent, of rip-rap, rocks, sand or other beach materials or any other forms of solid materials;
    - b. The presence, whether temporary or permanent, of mechanized equipment or construction materials.
- C. Unless destroyed by natural disaster, the replacement of fifty percent or more of a seawall, revetment, bluff retaining wall, breakwater, groin or similar protective work under one ownership is not repair and maintenance under Public Resources Code Section 30610(d), but instead constitutes a replacement structure requiring a coastal development permit.

(Ord. CS-178 § CXXIX, 2012)

#### **§ 21.201.080. Minor coastal development permits and coastal development permits.**

##### A. Application and Fees.

1. Applications for minor coastal development permits and coastal development permits may be made by the record owner or owners of the property affected or the authorized agent of the

owner or owners. The application shall:

- a. Be made in writing on a form provided by the City Planner.
- b. State fully the circumstances and conditions relied upon as grounds for the application.
- c. Be accompanied by adequate plans which allow for detailed review pursuant to this chapter, a legal description of the property and all other materials and information specified by the City Planner.
2. At the time of filing the application the applicant shall pay the application fee contained in the most recent fee schedule adopted by City Council.
3. Unless the property has previously been legally subdivided and no further subdivision is required the application shall be accompanied by a tentative map which shall be filed with the City Planner in accordance with procedures set forth in Chapter 20.12 of this code. If the project contains four or less lots or units, the application shall be accompanied by a tentative parcel map which shall be filed with the City Engineer in accordance with procedures set forth in Chapter 20.24 of this code.
4. Whenever the development would require a permit or approval under the provisions of this title, notwithstanding this chapter, the application shall include sufficient information to allow review of such permit or approval. Application for all permits or approvals under this title and the coastal development permit may be consolidated into one application.
5. The City Planner may require that the application contain a description of the feasible alternatives to the development or mitigation measures which will be incorporated into the development to substantially lessen any significant effect on the environment which may be caused by the development.

B. Notices and Hearings.

1. Notice of an application for a minor coastal development permit shall be given pursuant to the provisions of Sections 21.54.060.B and 21.54.061 of this title, except that the notice of a minor coastal development permit for an accessory dwelling unit shall not allow for the ability to request an administrative hearing.
2. Notice of an application for a coastal development permit shall be given pursuant to the provisions of Sections 21.54.060.A and 21.54.061 of this title.

C. Decision-Making Authority.

1. Minor Coastal Development Permits.

- a. The City Planner may approve, conditionally approve or deny minor coastal development permits for:
  - i. Development that costs less than sixty thousand dollars;
  - ii. Accessory dwelling units (no discretionary approval shall be required for accessory dwelling units);
  - iii. Projects that require a minor site development plan, minor conditional use permit, or minor variance, pursuant to the Village and Barrio master plan.

- b. The City Planner may approve or conditionally approve a minor coastal development permit, if the development complies with the following criteria:
    - i. The development is consistent with the certified local coastal program as defined in Section 30108.6 of the Coastal Act.
    - ii. The development requires no discretionary approvals other than a minor coastal development permit.
    - iii. The development has no adverse effect individually or cumulatively on coastal resources or public access to the shoreline or along the coast.
  - c. The City Planner's decision shall be based upon his or her review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the administrative hearing, if one is conducted pursuant to the provisions of Section 21.54.060.B.2 of this title.
  - d. The City Planner may approve or conditionally approve a minor coastal development permit if he or she finds that the project complies with the certified local coastal program and, if applicable, with the public access and recreation policies of Chapter 3 of the Coastal Act. If the project is an accessory dwelling unit, the City Planner shall additionally find that the project complies with the provisions of Section 21.10.030 of this title.
2. Coastal Development Permits.
    - a. The Planning Commission may approve, conditionally approve, or deny a coastal development permit for development in the coastal zone that is not subject to subsection C.1 of this section.
    - b. The Planning Commission's decision shall be based upon its review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the public hearing.
    - c. The Planning Commission shall hear the matter and may approve or conditionally approve a coastal development permit if it finds that the project complies with the certified local coastal program and, if applicable, with the public access and recreation policies of Chapter 3 of the Coastal Act.

(Ord. CS-178 § CXXIX, 2012; Ord. CS-324 § 2, 2017; Ord. CS-334 § 14, 2018)

#### **§ 21.201.090. Announcement of decision and notice of final local government action.**

- A. When a decision on a minor coastal development permit or coastal development permit is made pursuant to this chapter, the decision-making authority shall announce its decision in writing:
  1. In accordance with the provisions of Section 21.54.120 of this title (announcement of decision and findings of fact).
  2. In accordance with Section 13315 of Title 14 of the California Code of Regulations (notice of final local government action).

(Ord. CS-178 § CXXIX, 2012)

#### **§ 21.201.120. Effective date and appeal.**

- A. City Planner decisions on minor coastal development permits shall become effective unless appealed in accordance with the provisions of Section 21.54.140 of this title, except that decisions to approve minor coastal development permits for accessory dwelling units shall not be appealable to the Planning Commission or City Council.
- B. Planning Commission decisions on coastal development permits shall become effective unless appealed in accordance with the provisions of Section 21.54.150 of this title.
- C. Decisions that may be appealed to the Coastal Commission.
  1. A decision on a minor coastal development permit or coastal development permit made pursuant to this chapter, and which is appealable to the Coastal Commission pursuant to Section 21.201.130 of this chapter, shall become effective on the tenth working day following the Coastal Commission's receipt of the notice of final local government action provided pursuant to Section 21.201.090 of this chapter, unless:
    - a. An appeal is filed with the Coastal Commission in accordance with the Coastal Commission's regulations;
    - b. The notice of final local government action does not meet the requirements of Sections 21.201.090.A.2 and 21.201.160;
    - c. The notice of final local government action is not received in the Coastal Commission office and/or distributed to interested parties in time to allow for the ten working day appeal period.
  2. Where any of the circumstances in subsections 21.201.120.C.1.a through 21.201.120.C.1.c occur, the Commission shall, within five calendar days of receiving notice of that circumstance, notify the city and applicant that the effective date of the city action has been suspended.

(Ord. CS-178 § CXXIX, 2012; Ord. CS-324 § 2, 2017)

#### **§ 21.201.130. Developments appealable to the Coastal Commission.**

- A. The following developments, due to their type or location, are within the appeal jurisdiction of the Coastal Commission. Only decisions approving a coastal development permit for these developments are appealable to the Coastal Commission, unless otherwise noted. Areas subject to appeal jurisdiction are shown on the post LCP certification map which is on file in the planning division.
  1. Developments on property located between the sea and the first public road paralleling the sea or within three hundred feet of the inland extent of any beach or of the mean high tide of the sea where there is no beach, whichever is the greater distance.
  2. Development on property located within three hundred feet of the top of the seaward face of any coastal bluff, or within one hundred feet of any wetland, estuary or stream.
  3. Developments approved by the city not included within subsections A and B of this section which are located in a sensitive coastal resource area.
  4. Any decision approving or denying a development which constitutes a major public works project or a major energy facility.

(Ord. CS-178 § CXXIX, 2012)

#### **§ 21.201.140. Exhaustion of local appeals.**

- A. An appellant shall be deemed to have exhausted local appeals for purposes of filing an appeal under the Coastal Commission's regulations and be an aggrieved person where the appellant has pursued the appeal to the appellate body (bodies) as required by the city appeal procedures; except that exhaustion of all local appeals is not required if any of the following occurs:
1. The city requires an appellant to appeal to more local appellate bodies than have been certified as appellate bodies for permits in the coastal zone, in the implementation section of the local coastal program;
  2. An appellant was denied the right of the initial local appeal by a local ordinance which restricts the class of persons who may appeal a local decision;
  3. An appellant was denied the right of local appeal because local notice and hearing procedures for the development did not comply with the provisions of this chapter;
  4. The city charges an appeal fee for the filing or processing of appeals.
- B. Where the project is appealed by any two members of the Coastal Commission, there shall be no requirement of exhaustion of local appeals. Provided, that notice of Coastal Commission appeals may be transmitted to the City Council (which considers appeals from the Planning Commission which rendered the final decision), and the appeal to the Coastal Commission may be suspended pending a decision on the merits by the City Council. If the decision of the City Council modifies or reverses the previous decision, the Coastal Commissioners shall be required to file a new appeal from that decision.
- C. The appeal to the California Coastal Commission shall be filed at the local district office no later than ten working days after the date of the receipt of the notice of final local action by the local district office. No coastal development permit shall be issued or deemed approved until an appeal, if any, to the Coastal Commission has been resolved.

(Ord. CS-178 § CXXIX, 2012)

#### **§ 21.201.150. Public hearing on appealable developments.**

At least one public hearing shall be held on each application for an appealable development, (except as provided in Section 21.201.080 for minor coastal development permits) thereby affording any persons the opportunity to appear at the hearing and inform the city of the nature of their concerns regarding the project. Such hearing shall occur no earlier than ten calendar days following the mailing of the notice required in Section 21.54.060. The public hearing may be conducted in accordance with existing local procedures or in any other manner reasonably calculated to give interested persons an opportunity to appear and present their viewpoints, either orally or in writing.

(Ord. CS-178 § CXXIX, 2012)

#### **§ 21.201.160. Finality of city action.**

A local decision on an application for development shall be deemed final when (1) the local decision on the application has been made and all required findings have been adopted, including specific factual findings supporting the legal conclusions that the proposed development is or is not in conformity with the certified local coastal program, that the development is in conformity with the public access and public recreation policies of Chapter 3 of the Coastal Act, and that the required conditions of approval adequate to carry out the certified local coastal plan as provided in the implementing ordinances have been imposed, and (2) when all rights of appeal have been provided as defined in Sections 21.201.130 and 21.201.140.

(Ord. CS-178 § CXXIX, 2012)

**§ 21.201.190. Emergency coastal development permits.**

- A. Applications in case of emergency shall be made by letter to the City Planner or in person or by telephone, if time does not allow. "Emergency" means a sudden, unexpected occurrence demanding immediate action to prevent or mitigate loss or damage to life, health, property or essential public services.
- B. The following information shall be included in the request:
  1. Nature of emergency;
  2. Cause of the emergency, insofar as this can be established;
  3. Location of the emergency;
  4. The remedial, protective or preventive work required to deal with the emergency; and
  5. The circumstances during the emergency that appeared to justify the cause(s) of action taken, including the probable consequences of failing to take action.
- C. The City Planner shall verify the facts, including the existence of the nature of the emergency, insofar as time allows.
- D. The City Planner may grant an emergency permit upon reasonable terms and conditions, including an expiration date and the necessity for a regular permit application later, if the City Planner finds that:
  1. An emergency exists that requires action more quickly than permitted by the procedures for minor coastal permits or for regular permits and the work can and will be completed within thirty days unless otherwise specified by the terms of the permit;
  2. Public comment on the proposed emergency action has been reviewed, if time allows; and
  3. The work proposed would be consistent with the requirements of the certified land use plan.
- E. The City Planner shall report, in writing, to the Coastal Commission through its Executive Director and to the City Council at its first scheduled meeting after the emergency permit has been issued, the nature of the emergency and the work involved. The report of the City Planner shall be informational only; the decision to issue an emergency permit is solely at the discretion of the City Planner subject to the provisions of this section. Copies of this report shall be available at the meeting and shall be mailed to all persons who have requested such notification in writing. If at that meeting, one-third of the City Council so request, the permit issued by the City Planner shall not go into effect and the application for a coastal development permit shall be processed in due course in accordance with the procedures set forth in Chapter 21.201.
- F. Any request for an emergency permit within the Coastal Commission area of original jurisdiction as defined in Section 21.201.230 shall be referred to the Coastal Commission for review and issuance.  
(Ord. CS-178 § CXXIX, 2012)

**§ 21.201.200. Expiration of minor coastal development permits and coastal development permits.**

The expiration period for an approved minor coastal development permit or coastal development permit shall be as specified in Section 21.58.030 of this title.

(Ord. CS-178 § CXXIX, 2012)

**§ 21.201.210. Extensions.**

- A. The expiration period for an approved minor coastal development permit or coastal development permit may be extended pursuant to Section 21.58.040 of this title, and subject to the following:
1. An extension may be approved only if it is found that there has been no change of circumstances that may affect the development's consistency with the certified local coastal program or with the policies of Chapter 3 of the Coastal Act, if applicable.

(Ord. CS-178 § CXXIX, 2012)

**§ 21.201.220. Permit amendment.**

An approved minor coastal development permit or coastal development permit may be amended pursuant to the provisions of Section 21.54.125 of this title.

(Ord. CS-178 § CXXIX, 2012)

**§ 21.201.230. Coastal development permits issued by Coastal Commission.**

The Coastal Commission shall have original jurisdiction for all coastal development permits for development on tidelands, submerged lands and public trust lands, whether filled or unfilled. Such lands are specified as the area of "original jurisdiction" of the Coastal Commission pursuant to Public Resources Code Section 30519(b), and are shown on the post LCP certification map which is on file in the planning division. The applicant for any project which requires a coastal development permit issued by the Coastal Commission shall obtain all discretionary approvals required by this code prior to filing an application with the Coastal Commission for said coastal development permit.

(Ord. CS-178 § CXXIX, 2012)

**§ 21.201.240. Violations of the Public Resources Code.**

Any person who violates any provision of Division 20 of the Public Resources Code shall be subject to the penalties contained in Public Resources Code Article 2, Section 30820 et seq.

(Ord. CS-178 § CXXIX, 2012)

**CHAPTER 21.202  
COASTAL AGRICULTURE OVERLAY ZONE**

**§ 21.202.010. Intent and purpose.**

The coastal agriculture overlay (CA) zone is established to implement Sections 30170(f), 30171(b), 30241, 30242 and 30250 of the California Coastal Act and the local coastal program land use plan certified on June 1981. This zone recognizes agriculture as a priority use under the Coastal Act and protects that use by establishing mechanisms to assure the continued and renewed agricultural use of agricultural lands. The local coastal program recognizes that long-term agriculture may not be feasible and establishes agriculture as an interim use. Therefore, this zone allows urban development of such lands if specific findings are made or mitigation measures are undertaken. The coastal agriculture zone is an overlay zone; no use shall be allowed on any property zoned coastal agriculture unless such use complies with the provisions of this chapter and with the provisions of any other chapters of this title which are applicable to the property. (Ord. NS-365 § 21, 1996)

**§ 21.202.020. Definitions.**

For the purposes of this zone, terms used herein are defined as follows:

"Coastal agricultural lands" means those agricultural lands identified on Map x attached to the land use plan certified on September 1980. The following are the lands identified on Map x:

Approximate Acres	
Site II	377
Site III	275
Site IV	109
Lusk	93
Bankers	27
Hunt	200
Carlitas	301.38

"Class I-IV agricultural land" means all land which qualifies for rating as Class I through Class IV in the U.S. Department of Agriculture Soil Conservation Service Land Use Compatibility Classification.

"Class V-VIII agricultural land" means all land which qualified for rating as Class V through Class VIII in the U.S. Department of Agriculture Soil Conservation Service Land Use Compatibility Classification.

"Land division" means the creation of any new property line whether by subdivision or other means.

"Net impacted agricultural land" means, for purposes of calculating required mitigation acreage, the parcels and acreages designated on Map x (located in the local coastal program land use plan) and the 301.38 acre Carlitas property suitable for agricultural use minus the acreage in steep slopes (twenty-five percent or greater) and areas containing sensitive coastal resources that would preclude development in addition to any acreage under the control of a public entity for a public recreation or open space use.

"Underlying land use designation" means those urban uses which are consistent with the urban land use designation established by the Carlsbad General Plan and the local coastal program land use plan, which agricultural lands may be converted in conformance with this chapter.

"Urban uses" means any use other than a use permitted by Section 21.202.050 including any use necessary

or convenient to urban use.

(Ord. NS-365 § 21, 1996)

**§ 21.202.030. Urban development of coastal agricultural land.**

Coastal agricultural land may be converted from agricultural use and developed for urban use in compliance with the procedures of this chapter.

(Ord. NS-365 § 21, 1996)

**§ 21.202.040. Permits required.**

No development, including, but not limited to, land divisions, as defined in Section 21.04.108 of this code shall occur without a coastal development permit having first been issued pursuant to Chapter 21.201 of this code. A master plan or a planned development permit processed according to Section 21.202.060 shall be considered a coastal permit if also processed in compliance with Chapter 21.201.

(Ord. NS-365 § 21, 1996)

**§ 21.202.050. Permitted uses on agricultural lands.**

The provisions of this section shall apply to any coastal agricultural land which has not been approved for development pursuant to this chapter.

A. On any Class I through Class IV agricultural land the following uses only are permitted:

1. Cattle, sheep, goats and swine production; provided, that the number of any one or combination of said animals shall not exceed one animal per half acre of lot area. Structures for containing animals shall not be located within fifty feet of any habitable structure on the same parcel, nor within three hundred feet of an adjoining parcel zoned for residential uses.
2. Crop production.
3. Floriculture.
4. Horses, private use.
5. Nursery crop production.
6. Poultry, rabbits, chinchillas, hamsters and other small animals, provided not more than twenty-five of any one or combination thereof shall be kept within fifty feet of any habitable structure, or within three hundred feet of an adjoining parcel zoned for residential uses.
7. Roadside stands for display and sale of products produced on the same premises, with a floor area not exceeding two hundred square feet, and located not nearer than twenty feet to any street or highway.
8. Tree farms.
9. Truck farms.
10. Wildlife refuges and game preserves.
11. Other uses or enterprises similar to the above customarily carried on in the field of general agriculture including accessory uses such as silos, tank houses, shops, barns, offices, coops, stables, corrals, and similar uses required for the conduct of the uses above.

12. One single-family dwelling per existing legal building parcel.
- B. On any Class V through VIII agricultural land the following uses only are permitted:
1. All of the permitted uses listed above.
  2. Hay and feed stores.
  3. Nurseries, retail and wholesale.
  4. Packing sheds, processing plants and commercial outlets for farm crops, provided that such activities are not located within one hundred feet of any lot line.
  5. Greenhouses, provided all requirements for yard setbacks and height as specified in Chapter 21.07 of this code are met.

(Ord. NS-365 § 21, 1996)

#### **§ 21.202.055. Lot and yard standards—Agricultural lands.**

The provisions of this section shall apply to any coastal agricultural land which has not been approved for development pursuant to this chapter.

- A. The minimum required lot area of any newly created lot shall not be less than ten acres unless the City Council finds that smaller parcel sizes will not adversely affect the agricultural use of the property.
- B. Every newly created lot shall have a minimum width of the rear line of the required front yard of not less than three hundred feet.
- C. Every lot shall have a required front yard of forty feet. Except as otherwise provided in Section 21.202.050 no building or structure shall be located on the required front yard.
- D. Every lot and building site shall have a side yard on each side of the lot or building site not less than fifteen feet in width unless otherwise permitted by Section 21.202.050.
- E. Every lot and building site shall have a rear yard of not less than twenty-five feet unless otherwise permitted by Section 21.202.050.
- F. No building or structure shall exceed thirty-five feet in height.
- G. Buildings and structures shall not cover more than forty percent of a lot.

H. All residential structures shall conform to the provisions of Section 21.07.120 of this code.

(Ord. NS-365 § 21, 1996)

#### **§ 21.202.060. Development of coastal agricultural land.**

Coastal agricultural lands may be converted from agricultural to urban uses pursuant to the following procedures:

- A. Zoning Approvals:
1. For property over one hundred acres in area a master plan shall be submitted and processed according to the provisions of Chapter 21.38 of this code. The uses permitted pursuant to the master plan shall be those permitted by the provisions of the Carlsbad general plan and certified

local coastal program in effect at the time the application is submitted.

2. For property less than one hundred acres in area, a planned development permit shall be submitted and processed pursuant to Chapter 21.45 or 21.47 of this code, whichever is applicable. The uses permitted pursuant to the planned development permit and the development standards shall be as follows:

<b>Land Designation on Carlsbad General Plan</b>	<b>Permitted Uses and Development Standards</b>
Residential low density	R-1 40000
Residential low medium density	R-1 10000
Residential medium density	RD-M
Residential medium to high density	RD-M
Planned industrial	P-M

(Map Y of the certified local coastal program shows existing permitted land use categories)

- B. Development Permitted Based Upon Mitigation of Lands Zoned Coastal Agricultural. A master plan or planned development permit for urban development of lands zoned coastal agriculture shall, in addition to complying with all aspects of the city's general plan, include the following items:

1. An enforceable, nonrevocable commitment by the property owner to preserve permanently one acre of prime agricultural land within the California coastal zone for each net impacted acre of nonprime coastal agricultural land in the local coastal program proposed for development. The preserved land shall be located in an area selected by the State Coastal Conservancy and approved by the City Council. This enforceable commitment shall require, prior to issuance of a building permit, the permanent transfer or dedication of interest in the prime agricultural land to a grantee that is a local or state agency, or a tax exempt organization qualifying under Section 501(c)(3) of the U.S. Internal Revenue Code. Grantees also shall be limited to organizations and agencies whose principal purposes are consistent with the preservation of agriculture.
2. The following documentation pertaining to the prime agricultural land outside the local coastal program that is being permanently preserved:
  - a. Parties. Identification of the grantor and grantee (i.e., property owner, and government agency or tax exempt organization having a letter determination from the IRS documenting qualification per Section 501(c)(3) of the Internal Revenue Code).
  - b. Legal Description. A legal description of the prime agricultural lands being preserved.
  - c. Type and Purpose of Easement. A clear statement defining the type and purpose of the easement or other form of property interest being used to protect prime agriculture. Acceptable interests include, but shall not be limited to, conservation easements, transfers in trust, common law easements, open space easements, restrictive covenants, equitable servitudes, fee ownership or any other permanent restriction approved by the City Council.
  - d. Statement of Intent. A statement of intent by the grantor shall be submitted declaring an intent to protect agricultural land through the creation of easements or other interests running with the property, and a declaration of intent by the grantee to honor such grantor intent in perpetuity.

- e. Documentation. Maps, reports, aerial photographs shall be incorporated into the easement showing evidence of the agricultural lands that grantor and grantee intend to preserve.
  - f. Rights, Restrictions, Permitted Uses and Reservations. Grantee shall demonstrate the necessary authority to monitor and enforce compliance with terms of the agreement as the trustee or guardian. Restrictions shall prescribe all reasonable foreseeable activities that could be potentially harmful to conservation values.
  - g. Executory Limitation. Provisions for forfeiture of the easement or interest by the grantee to another qualified organization should the grantee fail to maintain the land for agricultural use, shall be included.
  - h. Assignment. Grantee shall agree to hold easements or interests for conservation purposes and guarantee that he or she will not transfer the easement except to an organization qualified to hold such interests under the relevant California and federal laws and the terms of this section.
  - i. Habendum Clause. The interest in property shall inure to the benefit of the grantee. All restrictions shall bind all subsequent purchasers or title holders of the restricted land and shall continue as a servitude running with the land in perpetuity.
3. Prior to building permit issuance, the property owner shall present to the City Manager proof of dedication by grantor and acceptance by grantee of an appropriate interest in prime agricultural lands pursuant to subsection (B)(2) of this section.
- C. Urban Development of Lands Shown to be not Feasible for Continued or Renewed Agricultural Use. In lieu of the procedures established by subsection B or subsection D of this section property owners may complete an agricultural feasibility study prior to conversion of lands designated coastal agriculture. The purpose of the feasibility study shall be to determine, consistent with Section 30242 of the Coastal Act, if continued or renewed agriculture is feasible on the subject property.

1. An applicant or group of applicants may complete an agricultural feasibility analysis for one or any combination of the following study areas:
  - a. All coastal agricultural lands in the local coastal program area;
  - b. Individual feasibility analyses for each of five sub-units in the local coastal program (refer to Map x; located in the local coastal program land use plan);

Approximate Acres	
Site II	377
Site III	275
Site IV	109
Lusk/Bankers Site	120
Carltas Site	301.38

- c. An individual study for the Hunt property may be submitted as part of a submitted master plan for each of its sub-units; or
- d. Feasibility studies may be submitted for contiguous land holdings of one hundred acres or more in single ownership.

2. Feasibility studies submitted for the purpose of determining the viability of continued or renewed agriculture on coastal agricultural parcel(s) shall provide the following:
    - a. Description of the farm unit under study including discussions of land capabilities, crop patterns, and minimum economic farm size.
    - b. Investment cost analysis including cost of land for agricultural purposes.
    - c. Farm unit cash flow analysis (production costs, income, etc.).
    - d. Tax considerations relative to feasibility.
    - e. Implications of future trends in water cost and availability, land and labor costs, and market competition.
  3. Upon completion, the agricultural study shall be submitted to the city for review and approval concurrent with the filing of a master plan or planned development permit.
    - a. If the study finds that continued or renewed agriculture is feasible, the property owner has the choice of: (1) maintaining agricultural uses; or (2) proceeding with conversion and mitigation pursuant to the procedures set forth in subsection B of this section.
    - b. If the feasibility study finds that continued or renewed agriculture is not feasible and City Council concurs, the city shall review the submitted master plan or planned development permit on its merits and for consistency with the other provisions of this code and the local coastal program. If City Council determines that the development is in conformance with all provisions of the code and the local coastal program, it may be approved without mitigation for conversion of agricultural land. The approved feasibility study and master plan or planned development permit approved by the city shall be prepared as a local coastal program amendment and submitted to the Coastal Commission for certification. The master plan, planned development permit or coastal permit shall not be final unless the local coastal program amendment is approved by the Coastal Commission.
- D. Agricultural Conversion Mitigation Fee and Expenditure Plan. In lieu of the procedures established by subsection B or subsection C of this section, property may be converted to urban uses upon payment of an agricultural conversion mitigation fee.
1. This fee is separate and distinct from the mitigation fee established by Section 301717.5 of the Public Resources Code, which applies to certain properties outside the Mello I and Mello II segments of the city's local coastal program, is collected and administered by the State Coastal Conservancy and has different expenditure priorities.
  2. The amount of the fee shall be determined by the City Council at the time it considers a coastal development permit for urban development of the property. The fee shall not be less than five thousand dollars nor more than ten thousand dollars per net converted acre of agricultural land and shall reflect the approximate cost of preserving prime agricultural land pursuant to subsection B of this section. The fees shall be paid prior to the issuance of building permits for the project. All mitigation fees collected under this section shall be deposited in the City of Carlsbad LCP agricultural mitigation fees fund and shall be expended by the City of Carlsbad subject to the recommendations of an advisory committee to be established by City Council action. The advisory committee shall have city and coastal conservancy staff and community representation. The intent is not to establish priorities for program use, but rather to promote equitable distribution amongst the allowable uses outlined below. The advisory committee may

also develop policies or procedures for the review of requests and the allocation of funds. The allowable uses for the agricultural mitigation fees are:

- a. Restoration of the coastal and lagoon environment including, but not limited to, acquisition, management and/or restoration involving wildlife habitat or open space preservation;
  - b. Purchase and improvement of agricultural lands for continued agricultural production, or for the provision of research activities or ancillary uses necessary for the continued production of agriculture and/or aquaculture in the city's coastal zone, including, but not limited to, farm worker housing;
  - c. Restoration of beaches for public use including, but not limited to local and regional sand replenishment programs, vertical and lateral beach access improvements, trails, and other beach-related improvements that enhance accessibility, and/or public use of beaches; and
  - d. Improvements to existing or proposed lagoon nature centers.
- E. Site I Special Restrictions. Notwithstanding anything to the contrary in this chapter, Site I as shown on Map x shall not be converted to urban use except as specifically permitted by the local coastal program provisions for urban development of Site I.

(Ord. NS-365 § 21, 1996; Ord. NS-711 § 1, 2004; Ord. NS-752 § 1, 2005)

#### **§ 21.202.070. Findings required before conversion to urban uses.**

- A. Where a property owner has agreed to preserve prime agricultural land elsewhere in the state coastal zone pursuant to Section 21.202.060 then the City Council prior to approval of a master plan or planned development permit must find that:
  1. The conversion would preserve prime agricultural land in a manner consistent with Section 30242 of the Public Resources Code, the certified local coastal plan and this chapter.
  2. The master plan or planned development permit is consistent with the certified local coastal program.
  3. Conversion would concentrate urban development consistent with Section 30250 in areas able to accommodate it, and within or adjacent to developed areas.
  4. Conversion would be compatible with continued agriculture on adjacent agricultural lands.
  5. Consistent with the certified local coastal program and Section 30241 of the Coastal Act, conversion would contribute to limiting conversions of prime agricultural land and create stable urban/rural boundaries within prime agricultural lands located elsewhere in the coastal zone.
- B. Where a property owner has elected to complete an agricultural feasibility analysis, and the property owner and city agree, based on that analysis, that continued or renewed agriculture is not feasible on the subject lands, and a City Council approved feasibility analysis and master plan/planned development permit must incorporate city findings declaring that:
  1. Continued or renewed agriculture is not feasible on the subject parcel(s) and, consistent with Section 30242 of the Coastal Act, conversion of the parcels designated coastal agriculture in the land use plan shall not require the preservation of prime agricultural lands elsewhere in the coastal zone.

2. Development permitted is consistent with the certified local coastal program.
  3. Permitted development is compatible with continued agriculture on adjacent agricultural lands.
- C. Where a property owner has agreed to pay an agricultural conversion mitigation fee pursuant to Section 21.202.060 then the City Council prior to approval of a master plan or planned development permit must find that:
1. The master plan or planned development permit is consistent with the certified local coastal program.
  2. Conversion would be compatible with continued agriculture on adjacent agricultural lands.
  3. The property owner has executed an agreement to pay the fee and the agreement has been approved by the City Council.

(Ord. NS-365 § 21, 1996)

**§ 21.202.075. Development on coastal agricultural lands not consistent with underlying land use designations.**

Conversions of coastal agricultural lands to urban uses other than those underlying land use designations identified on Map Y may be permitted pursuant to the procedures and findings set forth in Sections 21.202.060 and 21.202.070 subject to the preparation and submission of a local coastal program amendment for Coastal Commission certification.

(Ord. NS-365 § 21, 1996)

**§ 21.202.080. Proximity of urban development to existing development areas.**

Urban development of agricultural lands shall be located:

- A. Contiguous with or in close proximity to existing developed areas;
- B. In areas with adequate public facilities and services;
- C. Where it will not have significant adverse effects, either individually or cumulatively, on coastal resources.

(Ord. NS-365 § 21, 1996)

**CHAPTER 21.203  
COASTAL RESOURCE PROTECTION OVERLAY ZONE**

**§ 21.203.010. Intent and purpose.**

The intent and purpose of the coastal resource protection overlay zone is to:

- A. Supplement the underlying zoning by providing additional resource protective regulations within designated areas to preserve, protect and enhance the habitat resource values of Buena Vista Lagoon, Agua Hedionda Lagoon, Batiquitos Lagoon, and steep sloping hillsides;
- B. Provide regulations in areas which provide the best wildlife habitat characteristics;
- C. Encourage proper lagoon management;
- D. Deter soil erosion by maintaining the vegetative cover on steep slopes;
- E. Implement the goals and objectives of Sections 30231, 30233, 30240(b) and 30253 of the Public Resources Code and the approved Carlsbad local coastal program.

(Ord. NS-365 § 22, 1996)

**§ 21.203.020. Applicability.**

This chapter implements the California Coastal Act and is applicable to all properties located in the coastal zone as defined in Public Resources Code Section 30171. In case of any conflict between this zone and the underlying zone, provisions of this zone shall apply.

(Ord. NS-365 § 22, 1996)

**§ 21.203.030. Permit required.**

Developments, including, but not limited to, land divisions, as defined in Section 21.04.108 require a coastal development permit. This permit is subject to the requirements of this zone and the procedural requirements for coastal development permits of Chapter 21.201 of this code.

(Ord. NS-365 § 22, 1996)

**§ 21.203.040. Development standards.**

The following specific development standards shall be applied to areas within the coastal resource protection overlay zone as part of the coastal development permit. Such standards shall control, notwithstanding the provisions of the underlying zone and shall include:

- A. Preservation of Steep Slopes and Vegetation. Any development proposal that affects steep slopes (twenty-five percent inclination or greater) shall be required to prepare a slope map and analysis for the affected slopes. The slope mapping and analysis shall be prepared during the CEQA environmental review on a project-by-project basis and shall be required as a condition of a coastal development permit.
  - 1. Outside the Kelly Ranch property, for those slopes mapped as possessing endangered plant/animal species and/or coastal sage scrub and chaparral plant communities, the following policy language applies:
    - a. Slopes of twenty-five percent grade and over shall be preserved in their natural state, unless the application of this policy would preclude any reasonable use of the property, in

which case an encroachment not to exceed ten percent of the steep slope area over twenty-five percent grade may be permitted. For existing legal parcels, with all or nearly all of their area in slope area over twenty-five percent grade, encroachment may be permitted; however, any such encroachment shall be limited so that at no time is more than twenty percent of the entire parcel (including areas under twenty-five percent slope) permitted to be disturbed from its natural state. This policy shall not apply to the construction of roads of the city's circulation element or the development of utility systems. Uses of slopes over twenty-five percent may be made in order to provide access to flatter areas if there is no less environmentally damaging alternative available.

- b. No further subdivisions of land or utilization of planned unit developments shall occur on lots that have their total area in excess of twenty-five percent slope unless a planned unit development is proposed which limits grading and development to not more than ten percent of the total site area.
  - c. Slopes and areas remaining undisturbed as a result of the hillside review process, shall be placed in a permanent open space easement as a condition of development approval. The purpose of the open space easement shall be to reduce the potential for localized erosion and slide hazards, to prohibit the removal of native vegetation except for creating firebreaks and/or planting fire retardant vegetation and to protect visual resources of importance to the entire community.
  - d. Notwithstanding subsections a and b of this section, encroachments to slopes of twenty-five percent grade and over may be permitted in order to preserve natural habitat as required by the city's habitat management plan and the required amount of preservation could not be achieved by strict adherence to the requirements of subsections a and b of this section.
2. Within the Kelly Ranch property, for those slopes possessing endangered plant/animal species and/or coastal sage scrub and chaparral plant communities, the following policy language applies:
  - a. Coastal sage scrub and southern maritime chaparral plant communities shall be preserved in their natural state within designated open space areas shown on the LCP Kelly Ranch open space map and addressed in Policy 3-5 of the certified LCP land use plan.
  - b. The open space shown on the Kelly Ranch open space map shall be secured through conservation easements or dedicated in fee at the time of subdivision approval. The easements shall be granted to the city or other public entity and maintained and managed as part of the LCP Kelly Ranch open space system.
  - c. Restoration of disturbed areas within the designated open space through revegetation of disturbed areas and enhancement of existing vegetation with native upland species shall be required, in consultation with the Department of Fish and Game, as a condition of subdivision approval. The restoration and enhancement plan shall include a maintenance and monitoring component to assure long-term productivity of the habitat value.
  - d. Upon dedication of a conservation easement or in fee dedication, or upon recordation of offers to dedicate the Kelly Ranch open space to the city or other public entity, development of steep slopes over twenty-five percent grade may occur in areas outside the designated open space. Such encroachment shall be approved by the Department of Fish and Game and the U.S. Fish and Wildlife Service as consistent with the State and Federal

Endangered Species Act. Dedication will assure preservation of a viable upland habitat corridor and scenic hillsides.

- e. Roads in Open Space. Access roads shall be a permitted use within designated open space subject to an approved coastal development permit, only when necessary to access flatter areas and when designed to be the least environmentally damaging feasible alternative. Wildlife corridors shall be required when necessary to facilitate wildlife movement through the open space area.
  - f. Siting/Parking. Due to severe site constraints, innovative siting and design criteria (including shared use of driveways, clustering, tandem parking, pole construction) shall be incorporated to minimize paved surface area. Dwelling units shall be clustered in the relatively flat portions of the site.
  - g. Brush Management. A fire suppression plan shall be required for all residential development adjacent to designated open space subject to approval by the city fire department. The fire suppression plan shall incorporate a combination of building materials, sufficient structural setbacks from native vegetation and selective thinning designed to assure safety from fire hazard, protection of native habitat, and landscape screening of the residential structures. No portions of brush management Zones 1 and 2 as defined in the city landscape manual shall occur in designated open space areas. Zone 3 may be permitted within designated open space upon written approval of the fire department and only when native fire retardant planting is permitted to replace high and moderate fuel species required to be removed.
3. For all other steep slope areas, the City Council may allow exceptions to the above grading provisions provided the following mandatory findings to allow exceptions are made:
- a. A soils investigation conducted by a licensed soils engineer has determined the subject slope area to be stable and grading and development impacts mitigatable for at least seventy-five years, or life of structure.
  - b. Grading of the slope is essential to the development intent and design.
  - c. Slope disturbance will not result in substantial damage or alteration to major wildlife habitat or native vegetation areas.
  - d. If the area proposed to be disturbed is predominated by steep slopes and is in excess of ten acres, no more than one-third of the total steep slope area shall be subject to major grade changes.
  - e. If the area proposed to be disturbed is predominated by steep slopes and is less than ten acres, complete grading may be allowed only if no interruption of significant wildlife corridors occurs.
  - f. Because north-facing slopes are generally more prone to stability problems and in many cases contain more extensive natural vegetation, no grading or removal of vegetation from these areas will be permitted unless all environmental impacts have been mitigated. Overriding circumstances are not considered adequate mitigation.

B. Drainage, Erosion, Sedimentation, Habitat.

1. Buena Vista Lagoon. Developments located along the first row of lots bordering Buena Vista

Lagoon, including the parcel at the mouth of the lagoon, shall be designated for residential development at a density of up to four dwelling units per acre. Proposed development in this area shall be required to submit topographic and vegetation mapping and analysis, as well as soils reports, as part of the development permit application. Such information shall be provided in addition to any required environmental impact report, and shall be prepared by qualified professionals and in sufficient detail to locate the boundary of wetland and upland areas and areas of slopes in excess of twenty-five percent. Topographic maps shall be submitted at a scale sufficient to determine the appropriate developable areas, generally not less than a scale of one inch equals one hundred feet with a topographic contour interval of five feet, and shall include an overlay delineating the location of the proposed project. The lagoon and wetland area shall be delineated and criteria used to identify any wetlands existing on the site shall be those of Section 30121 of the Coastal Act and based upon the standards of the local coastal program mapping regulations. Mapping of wetlands and siting of development shall be done in consultation and subject to the approval of the Department of Fish and Game. Development shall be clustered to preserve open space for habitat protection. Minimum setbacks of at least one hundred feet from wetlands/lagoon shall be required in all development, in order to buffer such sensitive habitat area from intrusion. Such buffer areas, as well as other open space areas required in permitted development to preserve habitat areas, shall be permanently preserved for habitat uses through provision of an open space easement as a condition of project approval. In the event that a wetland area is bordered by steep slopes (in excess of twenty-five percent) which will act as a natural buffer to the habitat area, a buffer area of less than one hundred feet in width may be permitted. The density of any permitted development shall be based upon the net developable area of the parcel, excluding any portion of a parcel which is in wetlands or lagoon. As specified in subsection A of this section, a density credit may be provided for that portion of the parcel which is in steep slopes. Storm drain alignments as proposed in the City of Carlsbad Drainage Master Plan which would be carried through or empty into Buena Vista Lagoon shall not be permitted, unless such improvements comply with the requirements of Sections 30230, 30231, 30233 and 30235 of the Coastal Act by maintaining or enhancing the functional capacity of the lagoon in a manner acceptable to the State Department of Fish and Game. Land divisions shall only be permitted on parcels bordering the lagoon pursuant to a single planned development permit for the entire original parcel.

2. Batiquitos Lagoon Watershed. Development located east of I-5 (generally referred to as the Savage property) shall be designated for a maximum density of development of eight units per gross acre, excluding wetlands and constrained slopes. Development shall take place according to the requirements of the P-C planned community zone, Chapter 21.38, supplemented by these additional requirements. Land divisions shall only be permitted pursuant to a master plan for the entire original parcel subject to the requirements herein:
  - a. Drainage, erosion and sedimentation requirements shall be as specified in subsection (B)(4) of this section.
  - b. Detailed topographic maps shall be prepared by qualified professionals including biologists, hydrologists and engineers in sufficient detail to locate the boundary of lagoon or wetland and upland areas. The scale shall not be less than one inch equals one hundred feet with a contour interval of five feet, and shall include an overlay delineating the location of the development. The lagoon and wetland areas shall be delineated according to the requirements of Section 30121 of the Coastal Act and the local coastal program mapping regulations, subject to the review and approval of the State Department of Fish and Game.

- c. Development shall be clustered to preserve open space and habitat.
  - d. A minimum setback of one hundred feet from the lagoon/wetland shall be required.
  - e. At least two-thirds of any development shall be clustered on the half of the property furthest away from the lagoon at the base of the bluff in order to preserve the outstanding visual and natural resources.
  - f. Existing mature trees shall be preserved.
  - g. Public recreation facilities shall be provided as a condition of development including picnic tables, parking, and a public access trail along the lagoon shore. The trail shall be secured by an irrevocable offer to dedicate public access but shall be developed and landscaped as a condition of development and shall be at least fifteen feet wide with unobstructed views of the lagoon.
  - h. To facilitate provision of public use areas and preservation of environmentally sensitive lands, and to maintain the outstanding visual resources in the area surrounding the lagoon, an additional density credit of one dwelling unit per acre of developed land shall be provided for each two and one-half percent of total lot area, excluding wetlands, which is maintained in open space and public recreation in excess of fifty percent of the total lot area, excluding wetlands.
3. Areas West of I-5. For areas west of the existing Paseo del Norte, west of Interstate 5 and along El Camino Real immediately upstream of the existing storm drains, the following policy shall apply:
- a. All development must include mitigation measures for the control of urban runoff flow rates and velocities, urban pollutants, erosion and sedimentation in accordance with: (1) the requirements of the city's grading ordinance, stormwater ordinance, standard urban stormwater mitigation plan (SUSMP) dated April 2003, and as amended, and the City of Carlsbad Drainage Master Plan, as those documents are certified as part of the city's LCP; (2) the city's jurisdictional urban runoff management program (JURMP) and the San Diego County Hydrology Manual to the extent that these requirements are not inconsistent with any policies of the LCP; and (3) the additional requirements contained herein. Such mitigation shall become an element of the project, and shall be installed prior to the initial grading.
  - b. In addition, the following standards shall apply:
    - i. Priority projects identified in the SUSMP will incorporate structural best management practices (BMPs) and submit a water quality technical report as specified in the National Pollutant Discharge Elimination System (NPDES) permit and in the SUSMP;
    - ii. Structural BMPs used to meet SUSMP requirements for priority projects shall be based on the California Stormwater Quality Association (CASQA) Stormwater Best Management Practice Handbook, dated January 2003, or the current version of that publication, and designed to infiltrate, filter or treat the runoff produced from each storm event up to and including the eighty-fifth percentile twenty-four hour storm event;
    - iii. Priority projects will include projects increasing impervious area by more than two

thousand five hundred square feet or by more than ten percent of existing impervious area, that are in, adjacent to or drain directly to environmentally sensitive areas (ESA), identified in the City of Carlsbad Standard Urban Stormwater Mitigation Plan (SUSMP) dated April 2003, using the definitions of "adjacent to" and "draining directly to" that are found in the SUSMP;

- iv. The city shall include requirements in all coastal development permit approvals to inspect and maintain required BMPs for the life of the project;
  - v. The city will encourage and support public outreach and education regarding the potential water quality impacts of development;
  - vi. Development shall minimize land disturbance activities during construction (e.g., clearing, grading and cut-and-fill), especially in erosive areas (including steep slopes, unstable areas and erosive soils), to minimize impacts on water quality of excessive erosion and sedimentation. Development shall incorporate soil stabilization BMPs on disturbed areas as soon as feasible;
  - vii. Projects within two hundred feet of the Pacific Ocean shall be dealt with as "Projects Discharging to Receiving Waters within Environmentally Sensitive Areas" as defined in Appendix I of the SUSMP, including being treated as a priority project if they create more than two thousand five hundred square feet of impermeable surface or increase the impermeable surface on the property by more than ten percent;
  - viii. Although residential developments of less than ten units, including single-family residences, are generally exempt from the SUSMP priority project requirements, they shall meet those requirements, including achievement of the numerical sizing standard, if they are in, within two hundred feet of, or discharging directly to an ESA, including the Pacific Ocean; or shall provide a written report signed by a licensed civil engineer showing that as the project is designed they are mitigating polluted runoff, including dry weather nuisance flows, to the maximum extent practicable;
  - ix. Detached residential homes shall be required to use efficient irrigation systems and landscape designs or other methods to minimize or eliminate dry weather flow, if they are within two hundred feet of an ESA, coastal bluffs or rocky intertidal areas.
- c. Mitigation shall require construction of all improvements shown in the City of Carlsbad Drainage Master Plan and any amendments to them for the area between the project site and the lagoon (including the debris basin), as well as revegetation of graded areas immediately after grading; and a mechanism for permanent maintenance if the city declines to accept the responsibility. Construction of drainage improvements may be through formation of an assessment district, or through any similar arrangement that allocates costs among the various landowners in an equitable manner.

4. All Other Areas in the Coastal Zone.

- a. All development must include mitigation measures for the control of urban runoff flow rates and velocities, urban pollutants, erosion and sedimentation in accordance with: (1) the requirements of the city's grading ordinance, stormwater ordinance, standard urban stormwater mitigation plan (SUSMP) dated April 2003 and as amended, and the City of Carlsbad Drainage Master Plan, as those documents are certified as part of the city's LCP; (2) the city's jurisdictional urban runoff management program (JURMP) and the San

Diego County Hydrology Manual to the extent that these requirements are not inconsistent with any policies of the LCP; and (3) the additional requirements contained herein. Such mitigation shall become an element of the project and shall be installed prior to the initial grading.

- b. In addition, the following standards shall apply:
  - i. Priority projects identified in the SUSMP will incorporate structural best management practices (BMPs) and submit a water quality technical report as specified in the National Pollutant Discharge Elimination System (NPDES) permit and in the SUSMP;
  - ii. Structural BMPs used to meet SUSMP requirements for priority projects shall be based on the California Stormwater Quality Association (CASQA) Stormwater Best Management Practice Handbook, dated January 2003, or the current version of that publication, and designed to infiltrate, filter or treat the runoff produced from each storm event up to and including the eighty-fifth percentile twenty-four hour storm event;
  - iii. Priority projects will include projects increasing impervious area by more than two thousand five hundred square feet or by more than ten percent of existing impervious area, that are in, adjacent to or drain directly to environmentally sensitive areas (ESA), identified in the City of Carlsbad standard urban stormwater mitigation plan (SUSMP) dated April 2003, using the definitions of "adjacent to" and "draining directly to" that are found in the SUSMP;
  - iv. The city shall include requirements in all coastal development permit approvals to inspect and maintain required BMPs for the life of the project;
  - v. The city will encourage and support public outreach and education regarding the potential water quality impacts of development;
  - vi. Development shall minimize land disturbance activities during construction (e.g., clearing, grading and cut-and-fill), especially in erosive areas (including steep slopes, unstable areas and erosive soils), to minimize impacts on water quality of excessive erosion and sedimentation. Development shall incorporate soil stabilization BMPs on disturbed areas as soon as feasible;
  - vii. Projects within two hundred feet of the Pacific Ocean shall be dealt with as "Projects Discharging to Receiving Waters within Environmentally Sensitive Areas" as defined in Appendix I of the SUSMP, including being treated as a priority project if they create more than two thousand five hundred square feet of impermeable surface or increase the impermeable surface on the property by more than ten percent;
  - viii. Although residential developments of less than ten units, including single-family residences, are generally exempt from the SUSMP priority project requirements, they shall meet those requirements, including achievement of the numerical sizing standard, if they are in, within two hundred feet of, or discharging directly to an ESA, including the Pacific Ocean; or shall provide a written report signed by a licensed civil engineer showing that as the project is designed they are mitigating polluted runoff, including dry weather nuisance flows, to the maximum extent practicable;

- ix. Detached residential homes shall be required to use efficient irrigation systems and landscape designs or other methods to minimize or eliminate dry weather flow, if they are within two hundred feet of an ESA, coastal bluffs or rocky intertidal areas.
- c. Mitigation shall also require construction of all improvements shown in the City of Carlsbad Drainage Master Plan and amendments to it. No subsequent amendments are a part of this zone unless certified by the Coastal Commission. The general provisions, procedures, standards, content of plans and implementation contained with them are required conditions of development in addition to the provisions below. Approved development shall include the following conditions, in addition to the requirements specified above:
  - i. All off-site, downstream improvements (including debris basin and any other improvements recommended in the City of Carlsbad Drainage Master Plan) shall be constructed prior to the issuance of a grading permit on-site. Improvements shall be inspected by city or county staff and certified as adequate and in compliance with the requirements of the drainage plan and the additional requirements of this zone. If the city or county declines to accept maintenance responsibility for the improvements, the developer shall maintain the improvements during construction of the on-site improvements;
  - ii. If the off-site or on-site improvements are not to be accepted and maintained by a public agency, detailed maintenance agreements including provisions for financing the maintenance through bonding or other acceptable means shall be secured prior to issuance of the permit. Maintenance shall be addressed in the report required to be submitted with the permit application. The report shall discuss maintenance costs and such costs shall be certified as a best effort at obtaining accurate figures;
  - iii. Construction of off-site grading improvements may use an assessment district or any other acceptable manner of financing. Such mechanisms shall be secured by bonding or other acceptable means prior to issuance of a coastal development permit;
  - iv. If a public agency agrees to accept maintenance responsibilities, it shall inspect the facilities prior to on-site construction or grading and indicate if such facilities assure continued maintenance. No on-site development may take place prior to acceptance of the drainage improvements;
  - v. All areas disturbed by grading shall be planted within sixty days of initial disturbance and prior to October 1st with temporary or permanent (in the case of finished slopes) erosion control methods;
  - vi. Storm drainage facilities in developed areas shall be improved and enlarged according to City of Carlsbad Drainage Master Plan, incorporating the changes specified in this section. Improvement districts shall be formed for presently undeveloped areas which are expected to urbanize in the future. The improvement districts shall implement City of Carlsbad Drainage Master Plan. Upstream areas in the coastal zone shall not be permitted to develop incrementally prior to installation of the storm drain facilities downstream, in order to assure protection of coastal resources. New drainage facilities, required within the improvement districts shall be financed either by some form of bond or from fees collected from developers on a cost-per-acre basis;

- vii. When earth changes are required and natural vegetation is removed, the area and duration of exposure shall be kept at a minimum;
  - viii. Soil erosion control practices shall be used against "on-site" soil erosion. These include keeping soil covered with temporary or permanent vegetation or with mulch materials, special grading procedures, diversion structures to divert surface runoff from exposed soils, and grade stabilization structures to control surface water;
  - ix. Apply "sediment control" practices as a perimeter protection to prevent off-site drainage. Preventing sediment from leaving the site should be accomplished by such methods as diversion ditches, sediment traps, vegetative filters, and sediment basins. Preventing erosion is, of course, the most efficient way to control sediment runoff.
- d. In addition, the following shall apply to development within Kelly Ranch:

New development and significant redevelopment of private and publicly owned properties, must incorporate design elements and/or best management practices (BMPs) which will effectively prevent runoff contamination, and minimize runoff volume from the site in the developed condition, to the greatest extent feasible. At a minimum, the following specific requirements shall be applied to development of type and/or intensity listed below:

Residential Development. Development plans for, or which include, residential housing development with greater than ten housing units shall include a drainage and pollution runoff control plan prepared by a licensed engineer, designed to infiltrate, filter or treat the volume of runoff produced from each and every storm event up to and including the eighty-fifth percentile twenty-four hour runoff event, prior to conveying runoff in excess of this standard to the stormwater conveyance system. The plan shall be reviewed and approved by the consulting soils engineer or engineering geologist to ensure the plan is in conformance with their recommendations. The plan shall be designed in consideration of the following criteria, and approved prior to issuance of a coastal development permit:

- i. Maximize the percentage of permeable surfaces and green space to allow more percolation of runoff into the ground and/or design site with the capacity to convey or store peak runoff from a storm and release it at a slow rate so as to minimize the peak discharge into storm drains or receiving water bodies;
- ii. Use porous materials for or near walkways and driveways where feasible;
- iii. Incorporate design elements which will serve to reduce directly connected impervious area where feasible. Options include the use of alternative design features such as concrete grid driveways, and/or pavers for walkways;
- iv. Runoff from driveways, streets and other impervious surfaces shall be collected and directed through a system of vegetated and/or gravel filter strips or other media devices, where feasible. Selected filter elements shall be designed to (1) trap sediment, particulates and other solids; and (2) remove or mitigate contaminants through infiltration and/or biological uptake. The drainage system shall also be designed to convey and discharge runoff from the building site in a non-erosive manner;
- v. Selected BMPs shall be engineered and constructed in accordance with the design specifications and guidance contained in the California Stormwater Best

## Management Practices Handbook (Municipal);

- vi. The plan must include provisions for regular inspection and maintenance of structural BMPs, for the life of the project.

Parking Lots. Development plans for, or which include parking lots greater than five thousand square feet in size and/or with twenty-five or more parking spaces, susceptible to stormwater, shall incorporate BMPs effective at removing or mitigating potential pollutants of concern such as oil, grease, hydrocarbons, heavy metals, and particulates from stormwater leaving the developed site, prior to such runoff entering the stormwater conveyance system, or any receiving water body. Options to meet this requirement include the use of vegetative filter strips or other media filter devices, clarifiers, grassy swales or berms, vacuum devices or a combination of these. Selected BMPs shall be designed to collectively infiltrate, filter or treat the volume of runoff produced by each and every storm event up to and including the eighty-fifth percentile twenty-four hour runoff event. BMPs shall be engineered and constructed in accordance with the guidance and specifications provided in the California Stormwater Best Management Handbooks (Commercial and Industrial).

All Development. A public education program shall be designed to raise the level of awareness of water quality issues around the lagoon including such elements as catch basin stenciling and public awareness signs.

A landscape management plan shall be created that includes herbicide/pesticide management. Such measures shall be incorporated into project design through a water quality/urban runoff control plan and monitoring program to ensure the discharge from all proposed outlets are consistent with local and regional standards. Such measures shall be required as a condition of coastal development permit approval at the subdivision stage.

- C. Landslides and Slope Instability. Developments within five hundred feet of areas identified generally in the PRC Toups report, Figure 8, as containing soils of the La Jolla group (susceptible to accelerated erosion) or landslide prone areas shall be required to submit additional geologic reports containing the additional information required in the coastal shoreline development overlay zone.
- D. Seismic Hazards. Development in liquefaction-prone areas shall include site-specific investigations done addressing the liquefaction problem and suggesting mitigation measures. New residential development in excess of four units, commercial, industrial, and public facilities shall have site-specific geologic investigations completed in known potential liquefaction areas.
- E. Floodplain Development. Within the coastal zone, in the one hundred-year floodplain, no new or expanded permanent structures or fill shall be permitted. Only uses compatible with periodic flooding shall be allowed.
- F. Reserved.
- G. Within the Kelly Ranch, scenic public views from Interstate 5, Cannon Road and Agua Hedionda Lagoon shall be preserved, as feasible, through the following measures:
  1. Landscaping and Setbacks. Use of trees or fire-retardant vegetation with substantial height as a landscape screen and/or setbacks from the ridgelines and open space areas;

2. Building Colors. Exterior wall and roof colors shall be of low-intensity earth or vegetative tones. Stucco with accent materials such as tile, natural stone, or other compatible natural building materials shall be preferred. Roof colors shall be low-intensity colors which blend with the environmental setting of the project;
  3. Residential Building Height. Maximum height limits and variation in roof heights shall be utilized, as necessary, to minimize visibility of structures from scenic public roadways, public vista points and public trails.
- H. Within the Kelly Ranch, landscaping shall be utilized as a visual buffer and be compatible with the surrounding native vegetation and preserved open space by incorporation of the following measures:
1. All residential development shall be required to identify and implement a landscaping plan that provides for installation of plant species that are native or noninvasive and drought tolerant to the maximum extent feasible. Ornamental (noninvasive) vegetation shall be permitted in the interior of residential subdivisions only;
  2. Approved landscaping shall be installed immediately upon completion of construction and maintained by the property owners in good growing condition for the life of the development;
  3. Landscape screening of structures, including specimen trees and fire-retardant vegetation of substantial height, shall be required to screen and soften the view of structures from Interstate 5, Cannon Road, Agua Hedionda Lagoon, public trails and public vista points;
  4. The landscape treatment shall cause the development to blend in with the natural setting and present a visually cohesive appearance as viewed from Agua Hedionda Lagoon, Cannon Road and Interstate 5.

(Ord. NS-365 § 22, 1996; Ord. NS-589 §§ 1—8, 2001; Ord. NS-783 § 6, 2006; Ord. NS-801 §§ 1, 2, 2006; CS-005 §§ 2—8, 2008)

**CHAPTER 21.204  
COASTAL SHORELINE DEVELOPMENT OVERLAY ZONE**

**§ 21.204.010. Intent and purpose.**

The coastal shoreline development overlay zone is intended to provide land use regulations along the coastline area including the beaches, bluffs, and the land area immediately landward thereof. The purpose of the coastal shoreline development zone is to provide for control over development and land use along the coastline so that the public's interest in maintaining the shoreline as a unique recreational and scenic resource, promoting public safety and access, and in avoiding the adverse geologic and economic effect of bluff erosion, is adequately protected.

(Ord. NS-365 § 22, 1996)

**§ 21.204.020. Application.**

The coastal shoreline development overlay zone shall be applied to areas within the Mello II Segment of the Carlsbad local coastal program located between the sea and the first public road parallel to the sea.

(Ord. NS-365 § 22, 1996)

**§ 21.204.030. Permitted beach uses.**

Permitted uses and developments are limited to the following uses and require a coastal development permit according to the requirements of this zone:

- A. Steps and stairways for access from the top of the bluff to the beach.
- B. Toilet and bath houses.
- C. Parking lots, only if identified as an appropriate use in the local coastal program Mello II Segment land use plan (see Policy 2-3).
- D. Temporary refreshment stands, having no seating facilities within the structure.
- E. Concession stands for the rental of surfboards, air mattresses and other sports equipment for use in the water or on the beach.
- F. Lifeguard towers and stations and other lifesaving and security facilities.
- G. Fire rings and similar picnic facilities.
- H. Trash containers.
- I. Beach shelters.

(Ord. NS-365 § 22, 1996)

**§ 21.204.040. Conditional beach uses.**

- A. Uses substantially similar to the permitted uses listed above may be permitted on the beach subject to this chapter and Chapters 21.42 and 21.50.
- B. Revetments, breakwaters, groins, harbor channels, seawalls, cliff retaining walls, and other such construction that alters natural shoreline processes shall be permitted when required to serve coastal-dependent uses or to protect existing structures or public beaches in danger from erosion, and when

designed to eliminate or mitigate adverse impacts on local shoreline sand supply. As a condition of approval, permitted shoreline structures may be required to replenish the beach with imported sand.

Provisions for the maintenance of any permitted seawalls shall be included as a condition of project approval. As a further condition of approval, permitted shoreline structures shall be required to provide public access. Projects which create dredge spoils shall be required to deposit such spoils on the beaches if the material is suitable for sand replenishment. Seawalls shall be constructed essentially parallel to the base of the bluff and shall not obstruct or interfere with the passage of people along the beach at any time.

(Ord. NS-365 § 22, 1996)

#### **§ 21.204.050. Uses not on the beach subject to coastal shoreline development permit.**

Uses permitted by the underlying zone map may be permitted on non-beach areas subject to granting of a coastal development permit for coastal shoreline development issued pursuant to the procedures of Chapter 21.201 of this title, unless specifically prohibited by policies or other applicable ordinances in the approved Carlsbad local coastal program. "Non beach areas" are defined as areas at elevations of ten feet or more above mean sea level (North American Datum, 1929). Permitted uses are subject to the following criteria:

- A. Grading and Excavation. Grading and excavation shall be the minimum necessary to complete the proposed development consistent with the provisions of this zone and the following requirements:
  1. Building sites shall be graded to direct surface water away from the top of the bluff, or, alternatively, drainage shall be handled in a manner satisfactory to the city which will prevent damage to the bluff by surface and percolating water.
  2. No excavation, grading or deposit of natural materials shall be permitted on the beach or the face of the bluff except to the extent necessary to accomplish construction pursuant to this section.
- B. New development fronting the ocean shall observe at a minimum, an ocean setback based on a "stringline" method of measurement. No enclosed portions of a structure shall be permitted further seaward than those allowed by a line drawn between the adjacent structure to the north and south; no decks or other appurtenances shall be permitted further seaward than those allowed by a line drawn between those on the adjacent structures to the north and south. A greater ocean setback may be required for geologic reasons and if specified in the local coastal program.

(Ord. NS-365 § 22, 1996)

#### **§ 21.204.060. Requirements for public access.**

One or more of the following types of public access shall be required as a condition of development:

- A. Lateral Public Access.
  1. Minimum Requirements. Developments shall be conditioned to provide the public with the right of access to a minimum of twenty-five feet of dry sandy beach at all times of the year. The minimum requirement applies to all new developments proposed along the shoreline requiring any type of local permit including a building permit, minor land division or any other type of discretionary or nondiscretionary action.
  2. Additional Requirements. New developments as specified below shall be conditioned to provide the public with lateral public access in addition to minimum requirements.

- a. Applicability.
  - (1) Seawalls and other shoreline protective devices.
  - (2) Developments on parcels where there is evidence of historic public use. In such areas the amount and location of additional access shall be equal to the amount and extent of public use.
  - (3) Development which either by itself or in conjunction with anticipated future projects adversely affects existing public access by overcrowding of major coastal access roads or existing beach areas.
  - (4) Development which commits ocean front lands to nonpriority uses such as residential uses, non-visitor, or non-coastally oriented commercial and industrial uses.
  - (5) Access as identified in the local coastal program. Developments adjacent to Buena Vista Lagoon (see Policy 7-6 of the local coastal program Mello II Segment land use plan) and the parcel located at extreme north end of Ocean Street (see Policy 7-8 of the local coastal program Mello II Segment land use plan).
- b. Required Standards. In determining the amount and type of additional lateral public access to be required (e.g., area for additional parking facilities, construction of improvements to be made available to the public, increased dry sandy beach area, or type of use of the dry sandy beach) the city shall make findings of fact considering all of the following:
  - (1) The extent to which the development itself creates physical and visual impediments to public access which has not been mitigated through revisions in design or plan changes.
  - (2) The extent to which the development discourages the public from visiting the shoreline because of the physical and visual proximity of the development to the shoreline.
  - (3) The extent to which the development burdens existing road capacity and on street parking areas thereby making it more difficult to gain access to and use of the coast by further congesting access roads and other existing public facilities such as beaches, parks and road or sewer capacities.
  - (4) The extent to which the development increases the intensity of use of existing beach and upland areas, thereby congesting current support facilities.
  - (5) The potential for physically impacting beach and other recreational areas inherent in the project affecting shoreline wave and sand movement processes.

B. Bluff Top Access.

1. Minimum Requirements. Development adjacent to a shorefront bluff top lot where no beach exists or where beach is inaccessible because stairways have not or cannot be provided, shall be conditioned to provide the public with the right of access of at least twenty-five feet along the current bluff edge for coastal scenic access to the shoreline. The minimum requirement applies to all new developments proposed on bluff tops along the shoreline requiring any type of local permit including a building permit, a minor subdivision or any other type of discretionary or non-discretionary action.

2. Additional Requirements. New developments along the bluff top area which result in additional burdens to public access to the shoreline shall be conditioned to provide the public with public access such as view points in addition to the requirements specified above.
3. Description of Accessway. The bluff top access shall be described as an area beginning at the current bluff edge extending at least twenty-five feet inland. Due to the potential for erosion of the bluff edge, the area shall be adjusted inland to the current bluff edge as the edge recedes. However, the easement shall not extend any closer than ten feet from an occupied residential structure or the distance specified in the certified local coastal program. The area shall be legally described with the furthest inland extent of the area possible referenced as a distance from a fixed monument in the following manner: "Such easement shall be located along the bluff top measured inland from the daily bluff edge. As the daily bluff top edge may vary and move inland, the location of this right-of-way would change over time with the then current bluff edge, but in no case shall it extend any closer than feet from (a fixed inland point, such as a road or other easement monument)."

C. Vertical Access.

1. Requirements. Development between the first public road and the sea may be required to provide both lateral and vertical access.
2. Standards for Determining if Vertical Access is to be Required. The city shall review all of the following factors in determining whether vertical access is required. The determination shall be supported by findings of fact which consider all of the following:
  - a. Existing and anticipated public need to gain access to the shoreline including the location and use of currently existing official accessways in the vicinity.
  - b. Physical constraints of the site, including availability of sandy beach, safety and current use, and habitat values proximity to agricultural areas, military security.
  - c. Ability to provide for public use by mitigating time and location of such use.
  - d. Location and necessity of support facilities. If suitable parking areas do not exist, vertical accessways will be required at frequent intervals, so that parking will be spaced in the area at an even rate.
  - e. Privacy needs of property owner and site design changes which are available to protect privacy.
  - f. Nature of the development proposed in relation to its impact on public access.
3. Types of Use of Vertical Access Area. The vertical access required as a condition of development shall be limited to the public right-of-pass and repass unless another type of use is specified as a condition of the development. In determining if another type of use is appropriate, the local government shall consider the specific factors enumerated in this section.
4. Siting and Description of the Accessway. If possible, vertical accessways shall be sited along the border of the development and shall extend from the road to the bluff edge or shoreline. If a different siting of the accessway is more appropriate considering the topography of the site and the design of the proposed project, the vertical accessway may be resited in the middle of the parcel. If sited in the middle of a parcel, the property shall be surveyed at the landowner's expense and a legal description shall be prepared. If a residential structure is proposed, the

accessway should not be sited closer than five feet to the structure or the distance specified in the certified local coastal program. The vertical accessway shall be a minimum of ten feet in width to allow for public pedestrian use of the corridor. Any accessway shall be legally described prior to issuance of the coastal development permit.

5. Vertical Accessways Identified in the Mello II Segment of Carlsbad's Local Coastal Program.
  - a. Vacant parcel adjacent to Army/Navy Academy at Del Mar Street.
  - b. South Carlsbad State Beach at intersection of Carlsbad Boulevard and Palomar Airport Road.
  - c. Vacant parcel at Ocean Street.

(Ord. NS-365 § 22, 1996)

**§ 21.204.070. Special access requirements for developments or new developments on sites containing evidence of historic public use.**

If the certified local coastal program or the permit process produces evidence of historic public use on a development site located in the coastal zone, development shall be required to meet all of the following requirements:

- A. Siting and Design of Development.
  1. Development shall be sited and designed in a manner which does not interfere or diminish the potential public rights based on historic public use. Mechanisms for guaranteeing the continued public use of the site shall be required in accordance with Section 21.204.080; or
  2. Development may be sited in the area of potential historic public use provided that an area of equivalent public access has been provided in the immediate vicinity of the development site which will accommodate the same type and intensity of use as previously may have existed on the development site. An equivalent access area shall provide access of comparable site, and type of use. Mechanisms for guaranteeing the continued public use of the area shall be required in accordance with Section 21.204.080.
- B. An access condition shall not serve to extinguish, adjudicate or waive potential prescriptive rights. In permits with possible prescriptive rights, the following language shall be added to the access condition: "Nothing in this condition shall be construed to constitute a waiver of any sort or a determination on any issue of prescriptive rights which may exist on the parcel itself or on the designated easement." In addition, findings shall be made which specifically address the prescriptive rights issue.
- C. The certified local coastal program indicates evidence of historic use on parcels located seaward of Carlsbad Boulevard adjacent to Buena Vista Lagoon. Other areas may also be subject to such use.

(Ord. NS-365 § 22, 1996)

**§ 21.204.080. Mechanism for guaranteeing public access.**

- A. Legal Instruments Required. Prior to the issuance of a permit for development in the coastal zone between the first public road and the sea, each applicant shall record one of the following legal documents as specified in the condition of approval.
  1. Irrevocable Offer to Dedicate. Prior to issuance of a development permit, the landowner shall

submit a preliminary title report and shall record an irrevocable offer to dedicate an easement or fee interest free of prior liens and encumbrances except tax liens in the public accessway as described in the permit condition. This offer can be accepted by an appropriate agency which may or may not be the local government within twenty-one years.

2. **Outright Grant of Fee Interest or Easement.** If the parcel is important in and of itself for access needs, the size and scope of the proposed development is such that an outright interest is appropriate, or there is an accepting agency available to accept the easement (as in subdivision map approvals), a grant of an easement or fee is required prior to issuance of the permit.
  3. **Deed Restrictions.** Deed restrictions do not grant any interest in land proposed for public access and the landowner retains all responsibility for the maintenance of the accessway. Deed restrictions are appropriate in limited situations, e.g., in a large residential development where the accessways will mostly be used by residents and a homeowners association is available to maintain the accessway or in commercial facilities. Deed restrictions are not appropriate for small parcels or for accessways that will require public maintenance.
- B. **Title Information.** As a condition to the issuance of the permit, the applicant shall be required to furnish an ALTA title report and all necessary subordination agreements. Title insurance may also be required where extensive easements are being granted. The amount of insurance shall be estimated on the basis of what it would cost to acquire an equivalent access or recreational use elsewhere in the vicinity.
- C. **Procedure.** Copies of the recorded document, title report, and permit shall be forwarded to the California Coastal Commission by the applicant within ten days after submission of the recorded document for preparation of the coastal access inventory as required by Section 30530 of the Coastal Act. The accepting agency or Commission staff may make minor revisions to the documents (such as corrections in the legal descriptions, minor revisions to the location and use of the accessways in order to open the area up for public use) to assure that the public right-of-access along dry sandy beaches, bluff top parcels, or the vertical accessways is protected and capable of being implemented.  
(Ord. NS-365 § 22, 1996; Ord. CS-102 § CXXXI, 2010)

#### **§ 21.204.090. Site plans required.**

Applications for site plan review shall be accompanied by such data and information as may be required by the City Planner including maps, plans, drawings, sketches and documented material as is necessary to show:

- A. **Boundaries and Topography.** Boundaries and existing topography of the property, location of bluff line and beach, and adjoining or nearby streets;
- B. **Existing Structures.** Location and height of all existing buildings and structures, existing trees and the proposed disposition or use thereof;
- C. **Proposed Structures.** Location, height and proposed use of all proposed structures, including walls, fences and freestanding signs, and location and extent of individual building sites;
- D. **Circulation.** Location and dimensions of ingress and egress and egress points, interior roads and driveways, parking areas, and pedestrian walkways;
- E. **Drainage.** Location and treatment of important drainage ways, including underground drainage systems;

- F. Finished Topography. Proposed grading and removal of placement of natural materials, including finished topography of the site; and
  - G. Landscaping. Proposed landscaping plan including location of game courts, swimming pools and other landscape or activity features.
- (Ord. NS-365 § 22, 1996; Ord. CS-164 § 10, 2011)

#### **§ 21.204.100. Site plan review criteria.**

The site plans required by Section 21.204.090 shall be reviewed and evaluated by the City Planner for conformance with the following criteria:

- A. Coastal Development Regulations. All elements of the proposed development are consistent with the intent and purpose of the coastal shoreline development overlay zone.
- B. Appearance. Buildings and structures will be so located on the site as to create a generally attractive appearance and be agreeably related to surrounding development and the natural environment.
- C. Ocean Views. Buildings, structures, and landscaping will be so located as to preserve to the degree feasible any ocean views as may be visible from the nearest public street.
- D. Retention of Natural Features. Insofar as is feasible, natural topography and scenic features of the site will be retained and incorporated into the proposed development.
- E. Grading and Earth-Moving. Any grading or earth-moving operations in connection with the proposed development are planned and will be executed so as to blend with the existing terrain both on and adjacent to the site.
- F. Public Access. The policies of the local coastal program pertaining to public access have been carried out.

(Ord. NS-365 § 22, 1996; Ord. CS-164 § 10, 2011)

#### **§ 21.204.110. Geotechnical reports.**

- A. Geotechnical reports shall be submitted to the City Planner as part of an application for plan approval. Geotechnical reports shall be prepared and signed by a professional civil engineer with expertise in soils and foundation engineering, and a certified engineering geologist or a registered geologist with a background in engineering applications. The report document shall consist of a single report, or separate but coordinated reports. The document should be based on an onsite inspection in addition to a review of the general character of the area and it shall contain a certification that the development as proposed will have no adverse effect on the stability of the bluff and will not endanger life or property, and professional opinions stating the following:
  - 1. The area covered in the report is sufficient to demonstrate the geotechnical hazards of the site consistent with the geologic, seismic, hydrologic and soil conditions at the site;
  - 2. The extent of potential damage that might be incurred by the development during all foreseeable normal and unusual conditions, including ground saturation and shaking caused by the maximum credible earthquake;
  - 3. The effect the project could have on the stability of the bluff.
- B. As a minimum the geotechnical report(s) shall consider, describe and analyze the following:

1. Cliff geometry and site topography, extending the surveying work beyond the site as needed to depict unusual geomorphic conditions that might affect the site.
2. Historic, current and foreseeable cliff erosion including investigation of recorded land surveys and tax assessment records in addition to the use of historic maps and photographs where available and possible changes in shore configuration and sand transport.
3. Geologic conditions, including soil, sediment and rock types and characteristics and structural features, such as bedding, joints and faults.
4. Evidence of past or potential landslide conditions, the implications of such conditions for the proposed development, and the potential effects of the development on landslide activity.
5. Impact of construction activity on the stability of the site and adjacent area.
6. Ground and surface water conditions and variations, including hydrologic changes caused by the development (i.e., introduction of sewage effluent and irrigation water to the ground water system, alterations in surface drainage).
7. Potential erodibility of site and mitigating measures to be used to ensure minimized erosion problems during and after construction (i.e., landscaping and drainage design).
8. Effects of marine erosion on seacliffs.
9. Potential effects of earthquakes including:
  - a. Ground shaking caused by maximum credible earthquake;
  - b. Ground failure due to liquefaction, lurching, settlement and sliding; and
  - c. Surface rupture.
10. Any other factors that might affect slope stability.
11. The potential for flooding due to sea surface super elevation (wind and wave surge, low barometric pressure and astronomical tide), wave run-up, tsunami and river flows. This potential should be related to one-hundred and five-hundred-year recurrence intervals.
12. A description of any hazards to the development caused by possible failure of dams, reservoirs, mudflows or slides occurring off the property and caused by forces or activities beyond the control of the applicant.
13. The extent of potential damage that might be incurred by the development during all foreseeable normal and unusual conditions, including ground saturation and shaking caused by the maximum credible earthquake.
14. The effect the project could have on the stability of the bluff.
15. Mitigating measures and alternative solutions for any potential impact.

The report shall also express a professional opinion as to whether the project can be designed or located so that it will neither be subject to nor contribute to significant geologic instability throughout the lifespan of the project. The report shall use a currently acceptable engineering stability analysis method, shall describe the degree of uncertainty of analytical results due to assumptions and unknowns, and at a minimum, shall cover an area from the toe of the bluff inland to a line described on the bluff top by the intersection of a plane inclined at a twenty-degree angle from horizontal passing through the toe of the bluff or fifty feet inland from the bluff edge, whichever is greater. The degree of analysis required shall be appropriate to the degree of potential risk presented by the site and the proposed project. If the report does not conclude that the project can be designed and the site be found to be geologically stable, no coastal shoreline development permit shall be issued.

(Ord. NS-365 § 22, 1996; Ord. CS-164 § 10, 2011)

**§ 21.204.120. Waiver of public liability.**

As part of the coastal development permit for a coastal shoreline development, the following requirement shall be completed:

That prior to the transmittal of the coastal development permit, the applicant shall submit to the City Planner a deed restriction for recording, free of prior liens except for tax liens, that binds the applicant and any successors in interest. The form and content of the deed restriction shall be subject to the review and approval of the City Planner. The deed restriction shall provide:

- A. That the applicants understand that the site may be subject to extraordinary hazard from waves during storms, from erosion, and from landslides, and the applicants assume the liability from those hazards;
- B. The applicants shall unconditionally agree to indemnify and hold the city harmless from liability for any damage from such hazards; and
- C. The applicants understand that construction in the face of these probable hazards may make them ineligible for public disaster funds or loans for repair, replacement or rehabilitation of the property in the event of storms and landslides.

(Ord. NS-365 § 22, 1996; Ord. CS-102 § CXXXII, 2010; Ord. CS-164 § 10, 2011)

**CHAPTER 21.205  
COASTAL RESOURCE OVERLAY ZONE MELLO I LCP SEGMENT**

**§ 21.205.010. Intent and purpose.**

This zone supplements the underlying zone with additional resource protection policies required to implement the land use plan pursuant to the California Coastal Act codified in Section 30000 et seq., of the Public Resources Code (all citations refer to that code). Property located in this zone is located in the watershed of Batiquitos Lagoon identified by the California Department of Fish and Game as a unique, wetland habitat. Sections 30231, 30240(b) and 30253 require that the developments adjacent to such areas be sited and designed to be compatible with the unique habitat. In addition, Section 30242 of the Coastal Act requires measures to be taken to protect continued agricultural uses in the coastal zone. Property located in this zone is also located adjacent to agricultural areas. The city finds that the additional requirements of this zone are necessary in order to implement the additional requirements of the Coastal Act enumerated above. Only with such requirements on private developments in the watershed can the city assure permanent protection of natural resources located in its portion of the coastal zone.

(Ord. NS-365 § 23, 1996)

**§ 21.205.020. Authority—Conflict.**

This chapter is adopted to implement the California Coastal Act. In the case of any conflict between this zone and the underlying zone, the provisions of this zone shall apply. Further, if there is any conflict between this zone and any other provision of the city code, the provisions of this zone shall apply.

(Ord. NS-365 § 23, 1996)

**§ 21.205.030. Permits—Required.**

Developments, including, but not limited to, land divisions, as defined in Section 21.04.108 require a coastal development permit. Such permits are subject to the requirements of this zone and the procedural requirements for coastal development permits of Chapter 21.201.

(Ord. NS-365 § 23, 1996)

**§ 21.205.040. Maximum density of development.**

The maximum density of development shall be seven units per gross acre. The underlying zone shall be either planned community P-C, Chapter 21.38 or RD-M, residential density-multiple zone, Chapter 21.24, in effect on September 30, 1980. The parking requirements of uses generally, Chapter 21.44, shall also apply. No subsequent amendments of the underlying zones apply in the coastal zone unless certified by the Coastal Commission.

(Ord. NS-365 § 23, 1996)

**§ 21.205.050. Mitigation.**

All recommended mitigation suggested by the certified final EIR shall be incorporated as a part of the project and shall be required as a condition of approval of the coastal development permit.

(Ord. NS-365 § 23, 1996)

**§ 21.205.060. Erosion sedimentation, drainage.**

- a. All development must include mitigation measures for the control of urban runoff flow rates and velocities, urban pollutants, erosion and sedimentation in accordance with: (1) the requirements of

the city's grading ordinance, stormwater ordinance, standard urban stormwater mitigation plan (SUSMP) dated April 2003 and as amended, and the City of Carlsbad Drainage Master Plan, as those documents are certified as part of the city's LCP; (2) the city's jurisdictional urban runoff management program (JURMP) and the San Diego County Hydrology Manual to the extent that these requirements are not inconsistent with any policies of the LCP; and (3) the additional requirements contained herein. Such mitigation shall become an element of the project and shall be installed prior to the initial grading.

- b. In addition, the following standards shall apply:
  - i. Priority projects identified in the SUSMP will incorporate structural best management practices (BMPs) and submit a water quality technical report as specified in the National Pollutant Discharge Elimination System (NPDES) permit and in the SUSMP;
  - ii. Structural BMPs used to meet SUSMP requirements for priority projects shall be based on the California Stormwater Quality Association (CASQA) Stormwater Best Management Practice Handbook, dated January 2003 or the current version of that publication, and designed to infiltrate, filter or treat the runoff produced from each storm event up to and including the eighty-fifth percentile twenty-four-hour storm event;
  - iii. Priority projects will include projects increasing impervious area by more than two thousand five hundred square feet or by more than ten percent of existing impervious area, that are in, adjacent to or drain directly to environmentally sensitive areas (ESA), identified in the City of Carlsbad standard urban stormwater mitigation plan (SUSMP) dated April 2003, using the definitions of "adjacent to" and "draining directly to" that are found in the SUSMP;
  - iv. The city shall include requirements in all coastal development permit approvals to inspect and maintain required BMPs for the life of the project;
  - v. The city will encourage and support public outreach and education regarding the potential water quality impacts of development;
  - vi. Development shall minimize land disturbance activities during construction (e.g., clearing, grading and cut-and-fill), especially in erosive areas (including steep slopes, unstable areas and erosive soils), to minimize impacts on water quality of excessive erosion and sedimentation. Development shall incorporate soil stabilization BMPs on disturbed areas as soon as feasible;
  - vii. Projects within two hundred feet of the Pacific Ocean shall be dealt with as "Projects Discharging to Receiving Waters within Environmentally Sensitive Areas" as defined in Appendix I of the SUSMP, including being treated as a priority project if they create more than two thousand five hundred square feet of impermeable surface or increase the impermeable surface on the property by more than ten percent;
  - viii. Although residential developments of less than ten units, including single-family residences, are generally exempt from the SUSMP priority project requirements, they shall meet those requirements, including achievement of the numerical sizing standard, if they are in, within two hundred feet of, or discharging directly to an ESA, including the Pacific Ocean; or shall provide a written report signed by a licensed civil engineer showing that as the project is designed, they are mitigating polluted runoff, including dry weather nuisance flows, to the maximum extent practicable;
  - ix. Detached residential homes shall be required to use efficient irrigation systems and landscape

designs or other methods to minimize or eliminate dry weather flow, if they are within two hundred feet of an ESA, coastal bluffs or rocky intertidal areas.

- c. Mitigation shall also require construction of all improvements shown in the City of Carlsbad Drainage Master Plan and amendments to it. No subsequent amendments are a part of this zone unless certified by the Coastal Commission. The general provisions, procedures, standards, content of plans and implementation contained in them are required conditions of development in addition to the provisions below. Approved development shall include the following conditions, in addition to the requirements specified above:
  - i. All off-site, downstream improvements (including debris basin and any other improvements) recommended in the City of Carlsbad Drainage Master Plan shall be constructed prior to the issuance of a grading permit on-site. Improvements shall be inspected by city staff and certified as adequate and in compliance with the requirements of the drainage plan and the additional requirements of this zone. If the city declines to accept maintenance responsibility for the improvements, the developer shall maintain the improvements during construction of the on-site improvements;
  - ii. If the off-site or on-site improvements are not to be accepted and maintained by a public agency, detailed maintenance agreements including provisions for financing the maintenance through bonding or other acceptable means shall be secured prior to issuance of the permit. Maintenance shall be addressed in the report required to be submitted with the permit application. The report shall discuss maintenance costs and such costs shall be certified as a best effort at obtaining accurate figures;
  - iii. Construction of off-site drainage improvements may use an assessment district or any other acceptable manner. Such mechanisms shall be secured by bonding or other acceptable means prior to issuance of a coastal development permit;
  - iv. If a public agency agrees to accept maintenance responsibilities, it shall inspect the facilities prior to on-site construction or grading and indicate if such facilities assure continued maintenance. No on-site development may take place prior to acceptance of the drainage improvements;
  - v. All areas disturbed by grading shall be planted within sixty days of the initial disturbance and prior to October 1st with temporary or permanent (in the case of finished slopes) erosion control methods. The use of temporary erosion control measures, such as berms, interceptor ditches, sandbagging, filtered inlets, debris basins and silt traps, shall be utilized in conjunction with plantings to minimize soil loss from the construction site. Such planting shall be accomplished under the supervision of a licensed landscape architect, and shall consist of seeding, mulching, fertilization and irrigation adequate to provide ninety percent coverage within ninety days. Planting shall be repeated if the required level of coverage is not established. This requirement shall apply to all disturbed soils including stockpiles. This requirement shall be a condition of the permit.

(Ord. NS-365 § 23, 1996; Ord. NS-622 § 3, 2002; Ord. NS-801 § 3, 2006; Ord. CS-005 §§ 10, 11, 2008)

#### **§ 21.205.070. Buffer.**

A sturdy fence capable of attenuating noise and dust impacts, generally to be a concrete block wall a minimum of six feet in height, shall be provided between residential development and agricultural areas to the north and east. As a partial alternative, utilization of natural topographic separations such as trees,

chaparral and existing slopes is encouraged, to the extent that such separations can be incorporated into site planning and would accomplish adequate attenuation of noise and dust. Permanent maintenance through a homeowners association or other acceptable means shall be provided as a condition of development.  
(Ord. NS-365 § 23, 1996)

**CHAPTER 21.208  
COMMERCIAL/VISITOR-SERVING OVERLAY ZONE**

**§ 21.208.010. Intent and purpose.**

The intent and purpose of the commercial/visitor-serving overlay zone is to supplement the underlying zoning by providing additional regulations for commercial/visitor-serving uses which require a conditional use permit in the underlying zone. The overlay zone is intended and designed to:

- A. Control the location, operation and appearance of newly proposed commercial/visitor-serving uses within the overlay zone to prevent the over-proliferation of certain uses as well as to ensure high quality appearance and operation;
- B. Maximize public disclosure about new commercial/visitor-serving use proposals located within the overlay zone;
- C. Design compatibility, vehicular circulation and shuttle bus/alternative transportation options into commercial/visitor-serving uses within the overlay zone;
- D. Provide for the review of building materials and colors and establish architectural criteria that discourages the use of corporate, standardized building forms, materials and styles;
- E. Formalize the use of conditional use permits for all commercial/visitor-serving uses within the overlay zone and emphasize the aspects of performance monitoring and enforcement;
- F. Require commercial/visitor-serving conditional uses as listed in the planned industrial (P-M) chapter of this title for underlying P-M zoned properties within the overlay zone to be subject to the conditional use permit requirements and provisions of this chapter, except that such uses shall be consistent with the intent and purpose of the P-M zone; and
- G. Establish procedures in the overlay zone to provide for effective code enforcement.

(Ord. NS-485 § 1, 1999; Ord. CS-224 § XLI, 2013)

**§ 21.208.020. Definitions.**

Terms used in this chapter and not defined below shall be defined per Chapter 21.04 of this title. The following terms, as used in this chapter, shall have the meaning established by this section:

"Applicant" means the property owner(s) of the site.

"Applicant's agent" means the authorized representative of the property owner responsible for processing the overlay zone conditional use permit.

"Commercial/visitor-serving use" means uses involving the provision of goods or services designed primarily for tourists or visitors to the city, such as any of the following either individually or in combination: commercial development with retail sales; lodging uses; recreation vehicle (RV) parks, overnight RV parking, campgrounds or overnight campsite uses; sales of souvenirs, gifts or toys; activities including food and/or beverage serving uses. Commercial/visitor-serving uses include, but are not limited to: gas stations/mini-marts, hotels, motels, restaurants, delis, retail stores, gift shops, museums and visitor centers.

"Enforcement agency" means the city's Community and Economic Development department.

"Enforcement official" means the city's Community and Economic Development Director.

"Freestanding sign" means a monument sign supported by the ground and not supported by a pole.

"Time-share project" means a project that meets the time-share definition contained in Section 21.04.357 of this title. Time share projects are distinguished between "lock-off" units and standard units for the purpose of establishing different parking requirements as outlined in Section 21.208.100(A)(2). "Lockoff" units are defined as a timeshare unit which allows the occupancy of less than the entire unit during a timeshare period such that each occupant may occupy a part of the unit for a timeshare period with the remaining part of the unit being "locked-off" and subject to use by others. Standard time share units do not have lock-off provisions.

(Ord. NS-485 § 1, 1999; Ord. CS-164 § 14, 2011)

#### **§ 21.208.030. Boundaries—Exceptions—Applicability.**

- A. This chapter applies generally to all properties shown with the designation "commercial/visitor-serving overlay zone" on the zoning map as concurrently amended with the adoption of this chapter (pursuant to Section 21.05.050), as amended from time to time; excepting therefrom any properties used as automobile dealerships within the car country Carlsbad specific plan area, as amended from time to time.
- B. Notwithstanding properties being within the boundaries of the overlay zone as established above, the requirements for a conditional use permit, and the development standards of this chapter shall apply to:
  1. Commercial/visitor-serving uses within the overlay zone; and
  2. The portions of mixed use projects constituting a commercial/visitor-serving use.
- C. Where the provisions of this chapter conflict with those of the underlying zone or elsewhere in this code, this chapter applies.

(Ord. NS-485 § 1, 1999)

#### **§ 21.208.040. Permitted uses.**

Permitted uses in the overlay zone which are not subject to the provisions of this chapter are the commercial/visitor-serving uses authorized as permitted uses by the underlying zone. Those uses shall be developed subject to the development standards and entitlement process required by the underlying zoning. In addition, a roadside stand for the display and sale of products produced on the same premises is a permitted use provided that the floor area shall not exceed two hundred square feet and is located a minimum of twenty feet from any street, highway, or city right-of-way.

(Ord. NS-485 § 1, 1999; Ord. NS-505 § 1, 1999; Ord. CS-224 § XLII, 2013)

#### **§ 21.208.050. Uses permitted by a conditional use permit.**

Commercial/visitor-serving uses which require a conditional use permit in the underlying zone may be permitted within the overlay zone by approval of a minor conditional use permit pursuant to this chapter, excluding outdoor dining (incidental), which is subject to an administrative permit pursuant to Section 21.26.013 of this title. Conditional uses otherwise allowed by the underlying zoning designations within the overlay zone that are not commercial/visitor-serving uses, are not subject to this chapter. Where the underlying zoning authorizes conditionally permitted uses (other than commercial/visitor-serving uses), Chapter 21.42, not this chapter, shall apply.

(Ord. NS-485 § 1, 1999; Ord. CS-102 § CXXXIII, 2010; Ord. CS-224 § XLIII, 2013)

**§ 21.208.060. Prohibited uses.**

Notwithstanding any underlying zoning provision, the following uses are prohibited in the overlay zone:

- A. Stand-alone liquor stores where the retail sale of liquor and/or alcoholic beverages is the primary form of business;
- B. The outdoor storage or display of merchandise, goods or services for sale; and
- C. Except as authorized pursuant to Chapter 8.17 and/or 8.32 of this code, or a conditional use permit issued pursuant to this chapter, no person shall sell or offer to sell goods, merchandise or services from, or by means of, any temporary display, vehicle, platform, wagon or pushcart upon any public street, privately owned property, public parking lot, city right-of-way or sidewalk within the overlay zone.

(Ord. NS-485 § 1, 1999; Ord. CS-102 § CXXXIV, 2010; Ord. CS-224 § XLIV, 2013)

**§ 21.208.070. Decision-making authority.**

The decision-making authority for all conditionally-permitted commercial/visitor-serving uses shall be determined by the underlying zone.

(Ord. NS-485 § 1, 1999; Ord. CS-224 § XLV, 2013)

**§ 21.208.080. Preliminary review submittal and meeting—Application for conditional use permit.**

- A. If it is determined that a conditional use permit is required for a commercial/visitor-serving use within the overlay zone, prior to filing an application for a conditional use permit, the applicant shall submit an application for a preliminary review and subsequently attend a preliminary review meeting.
  1. Preliminary Review Submittal. The applicant shall file a preliminary review application and shall follow the submittal requirements in accordance with the planning division's preliminary review process accompanied by the applicable fee, as established by the City Council by resolution. The submittal shall demonstrate compliance with this chapter, including the proposal of an architectural style as required by Section 21.208.100(F).
  2. Preliminary Review Meeting. Within thirty days of the applicant's preliminary review submittal, the City Planner shall respond with a written city response letter, thoroughly analyzing the proposal, establishing issues for resolution, and setting a time, date and place to conduct a preliminary review meeting wherein the owner and/or applicant, staff planner and staff engineer would attend to discuss any outstanding issues or questions.
  3. Primary Purpose. Discuss the city response letter, identify issues to be resolved and establish final application requirements.
- B. Good faith participation in the preliminary review meeting is necessary for the submittal of a formal conditional use permit application.
- C. Upon completion of the preliminary review submittal and meeting, the applicant may file a formal application for a conditional use permit pursuant to Chapter 21.42. The application shall be accompanied by application(s) for any other required discretionary entitlement for the project (including, but not limited to, a coastal development permit). Application for, and approval of, a conditional use permit pursuant to this chapter shall satisfy all requirements for a site development plan for the project if such is required by the underlying zoning. If not otherwise required, in addition to the application requirements for a conditional use permit (including special requirements in this

chapter) formal conditional use permit application exhibits subject to this chapter shall show the following:

1. All state and Uniform Building Code requirements for disabled parking spaces and related pathways;
2. All proposed rooftop equipment, mechanical enclosures and any Uniform Building Code requirements relating to rooftop access, ladders or other rooftop structural features.

(Ord. NS-485 § 1, 1999; Ord. CS-164 § 11, 2011; Ord. CS-224 § XLVI, 2013)

#### **§ 21.208.090. Project site notification.**

In addition to the public notice requirements of Section 21.54.060, the applicant shall provide project site notification as follows:

- A. Upon city determination of completeness of a formal application, the applicant shall physically post the following notice on the project site. The applicant shall maintain the posted notice in good and legible condition until the application is withdrawn or scheduled for public hearing, whichever occurs first. Such notice shall state "APPLICATION IN PROCESS," and shall include:
  1. A yellow color background;
  2. A brief but complete explanation of the matter to be considered;
  3. The applicant's name/phone number and applicant's agent's (if applicable) name and phone number;
  4. Planning division contact information.
- B. Concurrent with public noticing for a public hearing, the applicant shall physically post a notice on the project site for the entire term of the public notice period until, and inclusive of, the actual public hearing date. Such notice shall state "PENDING PUBLIC HEARING," and shall include the same information required above, but:
  1. An orange color background; and
  2. Date, time and place of pending public hearing.
- C. Notices required by subsections A and B of this section shall comply with the following:
  1. Sign location shall be in a conspicuous location so that the notice is visible from all portions of the project site which abut a private or public street.
  2. Sign material shall be durable enough to withstand the elements. Signs shall be secured to a ground mounted pole with a minimum pole height of four feet and a maximum pole height of six feet.
  3. Sign dimensions shall be: four feet in height and three feet in length.
  4. Letter height for the "APPLICATION IN PROCESS" or "PENDING PUBLIC HEARING" headings shall be six inches.
  5. Letter height for the project descriptions shall be three inches.
  6. All other letter heights shall be two inches.

7. All letter colors shall be black.
  8. A city seal of the City of Carlsbad shall be displayed in the upper central portion of the notice with a minimum diameter of three inches.
  9. Applicant or developer phrases or logos are not allowed.
  10. Applicant must obtain project planner approval of color and text, prior to posting.
  11. The public hearing notice shall be removed upon withdrawal of the application or completion of the public hearing process, whichever occurs first.
  12. Any removed or damaged notices shall be immediately replaced. Failure to do so may cause the public hearing to be rescheduled by the enforcement official.
- D. The City Planner may modify any of the criteria listed above in subsections (C)(1) through (C)(7) of this section if determined necessary to achieve maximum disclosure of the project and/or to optimize visibility of the sign.

(Ord. NS-485 § 1, 1999; Ord. CS-164 §§ 10, 11, 2011)

#### **§ 21.208.100. Development standards.**

Notwithstanding any underlying zoning provisions, the development standards below shall supersede other provisions of this title, and shall be applied to conditional use permits issued pursuant to this chapter.

A. Parking. The number of parking spaces required for commercial/visitor-serving uses within the overlay zone shall be calculated based on the ratios established below according to land use. Fractional parking spaces are to be rounded up to the nearest whole number. Compact space provisions are provided in Section 21.44.110 of this title. Any use not listed below and subject to the provisions of this chapter, shall be subject to a parking ratio to be determined by the City Planner based on the requirements of similar uses. The City Planner's determination may be appealed in accordance with Section 21.54.140 of this title; or the determination may be incorporated into the project design and conditional use permit application. All state and Uniform Building Code requirements for disabled parking spaces and related pathways shall be shown on the conditional use permit application exhibits.

1. Motels/Hotels/Suites/Inns/Lodges/Resorts. 1.2 spaces per unit, plus parking as required per this chapter for additional ancillary uses (restaurant, retail space, meeting rooms, etc.) as calculated on an individual basis. In addition, these uses shall provide adequate shuttle bus circulation and passenger drop-off/pick-up facilities to be developed on a case-by-case, site-by-site basis. Tour bus/passenger bus parking provisions may also be required based on the specific project and location.
2. Time Share Projects. Lock-off units require 1.5 spaces per unit; standard units require 1.2 spaces per unit. In addition, time share projects shall be subject to the following requirements:
  - a. Adequate shuttle bus circulation and passenger drop-off/pick-up facilities to be developed on a case-by-case, site-by-site basis;
  - b. An interim parking/unit marketing plan which will address the initial sales efforts to sell time share units and the corresponding need to provide additional interim parking while sales are ongoing. Unless otherwise specified in the underlying zone, the interim parking/unit marketing plan shall be approved by the applicable decision-making authority as one

of the approving project exhibits and shall indicate where interim parking is to be provided, the amount of spaces involved, adequate screening and landscaping, and the conversion or integration of the interim parking site into the overall time share project.

3. Gas Station/Mini-Mart. One space/three hundred square feet of gross floor area plus three additional employee parking spaces. Gas stations with work bays shall park the work bay areas at a ratio of four spaces for every work bay. In addition, gas stations shall conform to the use separation and design criteria contained in subsection (H)(1) of this section.
4. Restaurant. One space/one hundred square feet of gross floor area up to two thousand square feet. Two thousand square feet or greater: twenty spaces plus one space/fifty square feet in excess of two thousand square feet. Space used for outdoor dining (incidental), pursuant to Section 21.26.013 of this title, shall be exempt from these parking requirements. Recommended design features include adequate shuttle bus circulation and passenger drop-off/pick-up facilities in addition to tour bus/passenger bus parking provisions.
5. Coffee Shop/Beverage-Serving Use/Delicatessen. One space/three hundred square feet of gross floor area excluding seating areas for eating and/or drinking. Seating areas shall park at one space/one hundred square feet of area. Space used for outdoor dining (incidental), pursuant to Section 21.26.013 of this title, shall be exempt from these parking requirements.
6. Meeting Rooms, Assembly Space, Convention Facilities. One space/one hundred square feet of gross floor area.
7. Individual Retail, Gift Shops, Toy Stores, Convenience Stores, General Sales. One space/three hundred square feet of gross floor area plus two additional employee parking spaces.
8. Shopping Center Retail. Minimum one space/two hundred square feet of gross center. Restaurants in shopping center projects shall provide separate parking as required above in subsection (A)(4) of this section.
9. Museums. One space/five hundred square feet of gross floor area plus a minimum of two additional employee parking spaces. In addition, museums shall provide adequate shuttle bus circulation, passenger drop-off/pick-up facilities, and tour bus/passenger bus parking provisions to be developed on a case-by-case, site-by-site basis.
10. Visitor/Information Center. One space/four hundred square feet of gross floor area plus two additional employee parking spaces. In addition, visitor/information centers shall provide adequate shuttle bus circulation, passenger drop-off/pick-up facilities, and tour bus/passenger bus parking provisions to be developed on a case-by-case, site-by-site basis.
11. Bed and Breakfast. Minimum two spaces, one of which shall be covered for the manager's unit, plus one space per guest room.
12. Car Rental Agencies. One space/two hundred fifty square feet of gross floor area for the car rental office space and customer waiting area. The rental car fleet parking shall be addressed through a fleet parking plan which will be reviewed and considered as part of the conditional use permit application. In addition, car rental agencies shall provide shuttle bus circulation and passenger drop-off/pick-up facilities to be developed on a case-by-case, site-by-site basis.
13. Movie Theaters. Proposals involving movie theaters shall submit land use and parking studies or other appropriate documents to justify the proposed parking provisions as part of the pre-filing submittal process per Section 21.208.080 of this chapter. At the close of the pre-filing

submittal process, the City Planner shall determine what the applicable parking ratios are. The applicant may appeal the City Planner's decision in accordance with Section 21.54.140 of this title.

B. Signs. Except as provided herein, the provisions of Chapter 21.41 apply within the overlay zone. All signage shall be reviewed and approved as part of the conditional use permit process. No internally illuminated thru-face channel letter signs will be allowed to face residentially zoned properties.

1. Maximum Sign Area. The maximum sign area allowance shall not exceed one square foot per lineal foot of building frontage located on the lot. For corner lots or buildings, with two building frontages, sign allowance will be based on 0.90 square foot per the combined lineal footage. Shopping centers or other combined projects subject to the provisions of this chapter including projects that propose freeway service facility uses and signs, as defined in Sections 21.41.030(10)(A) and (B)(i—iv) and regulated by Section 21.41.070(3)(B), shall process a sign program as part of the conditional use permit. Freeway service facility center sign programs shall not allow more than a total of one hundred square feet of freestanding sign area for projects of eight acres or less; or one hundred fifty square feet of freestanding sign area for larger sites. Such sign programs may also allow a maximum of 0.60 square feet of wall signage per lineal foot of commercial tenant/suite frontage; a maximum of 0.90 square feet of wall signage per combined lineal footage of freestanding corner buildings; and, a maximum of one square foot of signage per lineal foot of freestanding or anchor tenant building frontage. Shopping centers or combined projects that do not propose freeway service facilities, shall be allowed a maximum of 0.75 square feet of wall signage per lineal foot of commercial tenant/suite frontage; a maximum of one square foot of wall signage per combined lineal footage of freestanding corner buildings; a maximum of one square foot of signage per lineal foot of freestanding or anchor tenant building frontage; and, a maximum of one hundred twenty-five square feet of additional freestanding signage.
  2. Maximum Sign Height. No freestanding sign shall exceed six feet in height, except for freeway service facility signs; and freestanding multi-tenant directory signs for shopping centers and/or mixed use commercial/visitor-serving projects, which shall not exceed ten feet in height, pursuant to a City Council approved sign program.
  3. Sign Colors. Sign colors and materials are part of the discretionary review process. Sign colors shall complement the overall building style without dominating the building design.
  4. Landscaping Related to Signs. Freestanding signs are subject to the landscaping requirements contained in subsection G of this section.
- C. Building Height. The allowed building height for projects subject to this chapter shall be determined by the development standards of the underlying zoning. Any proposed rooftop equipment or other structural features shall be screened from public view.
- D. Building Setbacks. Commercial/visitor-serving buildings located adjacent to Palomar Airport Road or Cannon Road east of the I-5 interstate freeway shall maintain a minimum setback of fifty feet. Except in the P-M zone, where the underlying zone setback shall apply, new commercial/visitor-serving buildings shall maintain a minimum public street setback of thirty feet. All setback areas shall be exclusive of parking spaces, parking overhang, circulation aisles and trash enclosures. Improvements in this area shall be limited to landscaping, access driveway(s), signage, lighting fixtures, screen walls and pedestrian walkways or sidewalks. For parcels eight acres or less in size, the back ten feet of the required setback may be used as circulation aisles or parking spaces provided there is adequate use of landscaping and screen walls. The minimum building setback from any

freeway right-of-way shall be thirty feet of which the back twenty feet may accommodate circulation aisles, trash and/or recycling enclosures, and/or parking spaces. All development proposals subject to this chapter shall provide decorative paving in the primary approach driveway to the project for an area of at least nine hundred square feet (thirty by thirty foot area) covering, at a minimum, the width of the driveway. The decorative paving shall be depicted on landscape plans and shall be located adjacent to, but not on, city right-of-way adjacent to the project entrance. Side and rear setbacks not subject to the thirty-foot public street setback shall be assessed as part of the discretionary review of the conditional use permit application, however, a minimum setback of ten feet entirely landscaped shall be required.

- E. Building Materials/Colors. Building materials and colors are part of the discretionary review process. The use of illuminated awnings is not allowed. Metal awnings or canopies are not allowed. High quality simulated building materials such as imitation brick, stone, marble or wood may be approved. The primary colors of blue, red, yellow and green shall not be dominate building colors. The use of colors shall be balanced and in the context of the proposed architectural style.
- F. Architectural Style. Two primary architectural styles are allowed in the overlay zone as described in general terms below. One of the two styles shall be proposed in conditional use permit applications, except as provided in subsection (F)(3) of this section.
  - 1. Village Architectural Style. This style involves the use of wood and composition shingle roof materials, steep pitched (7:12 and greater) gabled roofs, gabled windows, use of dormers in gabled roofs, no mansard roof forms, applied surface detail ornamentation and irregular building forms with a variety of roof peaks.
  - 2. Spanish/Mediterranean Architectural Style. This style involves the uses of Spanish/mission style clay roof tiles on a rectangular building form, white stucco walls, arches and arched doorways with wooden beams, low pitched roofs, multi-paned windows and the use of glazed/decorative tiles and tile paving.
  - 3. Alternative Architectural Styles. An alternative architectural style may be proposed on a conditional use permit application if it is specifically supported by the enforcement official at the conclusion of the preliminary review procedures outlined in Section 21.208.080. This alternative architectural style may accommodate a reasonable version of a user's corporate architectural style, provided the corporate architectural elements do not dominate the building design so as to create incompatibility in the area; or detract from the overlay zone's objective of ensuring high quality appearances for commercial/visitor-serving uses.
- G. Landscaping. Landscaping shall be designed to complement the project's proposed architectural style. Landscape plans shall be consistent with the city's landscape manual. The following landscaping regulations shall apply to development proposals subject to this chapter:
  - 1. Freestanding Sign Landscape Theme. Every freestanding sign shall provide adjacent landscaping which promotes a common theme throughout the overlay zone. The freestanding sign and related landscaping theme shall be shown on project landscape exhibits and will consist of, at a minimum:
    - a. Six bird of paradise plants (*Strelitzia reginae*) with a minimum container size of five gallons. These plants shall be located in clusters around the sign;
    - b. One *Phoenix roebelenii* palm tree with a minimum container size of fifteen gallons to be located to one side of the freestanding sign amidst the bird of paradise plant clusters. The

roebelenii palm may be replaced with another palm tree species if supported by staff to be consistent with the overlay zone's common landscaped sign theme and approved with the conditional use permit by the City Council;

- c. Appropriate ground cover such as agapanthus shrubs, or other similar substitute subject to discretionary review, bark and/or turf in a visually pleasing combination;
  - d. The minimum area for the provision of the freestanding sign and corresponding landscaped theme shall be eighty square feet, designed to encompass the minimum perimeter of the sign's base or foundation area;
  - e. The above requirements are not necessary for qualified freeway service signage, however, the structural base of allowed freeway service signs shall be adequately located and screened from view by landscaping as part of the conditional use permit application.
2. Required Trees. Parking lot trees shall be provided at a ratio of one tree for every six parking spaces provided. These trees shall be located in planting areas that are outside of required setback areas. All trees shall be a minimum container size of fifteen gallons, however, at least fifty percent of required parking lot trees shall be a minimum of twenty-four-inch box size. All parking lot planter strips and parking island dimensions, configurations and landscaping shall conform to Appendix E of the city's landscape manual, except that for sites eight acres or less in size, individual planting islands with a minimum width of six feet may be provided. Such planting islands shall have a minimum length of thirty feet, however, the minimum length shall not be less than the length of adjacent parking stalls. Street trees required by the street tree requirements of Section IV.D.3 of the landscape manual shall all be twenty-four-inch box sizes. In addition to the street tree requirements of the landscape manual, and except for the slope planting requirements of Section IV.E.3 of the manual for slopes over eight feet in vertical height, setback landscaping trees shall be provided in clusters at a ratio of one tree for every one thousand square feet of setback area. Except for street trees which shall be twenty-four-inch box sizes, setback area trees shall be a minimum container size of fifteen gallons, however, at least fifty percent of required setback area trees shall be a minimum of twenty-four-inch box sizes. For the calculation of setback areas, multiply the length of the setback times twenty feet; for interior lot and freeway setbacks, multiply the length of the setback times ten feet. The use of existing on-site trees may be considered to replace required trees at a 1:1 ratio, on a case-by-case, site-by-site basis. For existing trees to be considered, landscape plans shall indicate tree caliper width at three feet above existing grade, and photographs of the subject trees shall be submitted.
3. Screening of Areas. The following areas shall be specifically designed to be screened from public points of view:
  - (a) Parking Areas. All surface parking areas shall be screened by the use of forty-two inch high screen walls to be complemented with landscaping in front of the walls within setback areas. Screen walls shall be architecturally finished to complement the project's architecture and shall provide an architectural cap on top of the wall. The screening wall height may reduce to thirty inches to comply with engineering sight distance requirements as necessary. Vines and attaching plant forms shall be used to further obscure the screening walls. The use of existing trees and/or grade separations to screen parking areas may be considered on a case-by-case, site-by-site basis.
  - (b) Loading/Delivery/Trash Enclosure Areas. All areas used for loading activities, receiving deliveries and trash enclosure locations shall be located onsite so as to be screened from

public points of view. Landscaping may assist this objective but is secondary to locating these areas onsite and/or using solid masonry walls, to minimize visibility.

4. Maintenance. All landscaped areas shall be maintained in a healthy, thriving manner. Failure to maintain such areas in conformance with approved landscape plans and concepts, may result in administrative fines and/or revocation or other discretionary action pursuant to the performance monitoring condition (see Section 21.208.120) or other enforcement procedures in this chapter.

H. Use Separation Standards. The uses below are subject to use separations standards.

1. Gas Stations, Gas Stations/Mini-Marts.

- a. Location. New gas stations or gas stations/mini-marts shall only be permitted at intersections where at least one of the streets is classified as a prime, major or secondary arterial on the general plan. A maximum of two stations may be allowed at each such intersection. Where a T-intersection is involved, a maximum of one station may be allowed. The proposed site may not adjoin any residential property.
- b. Lot Dimensions. The minimum lot size, or the minimum area exclusively designated for this use in a mixed use project, shall be fifteen thousand square feet. Street frontage along the nonarterial roadway shall be a minimum of one hundred fifty feet.
- c. Design Criteria. On corner lots, no access shall be made with the prime or major arterial roadway; no driveway access shall be allowed within one hundred feet of a prime or major arterial roadway intersection and may be limited to a right in, right out only access; and, fuel delivery circulation design shall be accommodated onsite on a case-by-case, site-by-site basis.

(Ord. NS-485 § 1, 1999; Ord. CS-102 § CXXXV, 2010; Ord. CS-164 § 10, 2011; Ord. CS-224 §§ XLVII—XLIX, 2013)

**§ 21.208.110. Required findings.**

In addition to the findings required for the granting of a conditional use permit pursuant to Section 21.42.030, conditional use permits issued pursuant to this chapter are subject to the following findings prior to approval:

- A. That the proposed project is adequately designed to accommodate the high percentage of visitor, tourist and shuttle bus/alternative transportation users anticipated given the proposed use and site location within the overlay zone;
- B. That the building forms, building colors and building materials combine to provide an architectural style of development that will add to the objective of high quality architecture and building design within the overlay zone;
- C. That the project complies with all development and design criteria of the overlay zone;
- D. For gas stations, motel, hotel or restaurant uses on a planned industrial zoned property: That the proposed use is commercial in nature and therefore subject to the overlay zone; however, the proposed use shall be consistent with the intent and purpose of the P-M zone;
- E. For recreation vehicle (RV) parks, overnight RV parking, campgrounds or overnight campsite uses: That the proposed use complies with all the provisions of Section 21.42.010(2)(H)(a) through (e) of this title.

(Ord. NS-485 § 1, 1999; Ord. CS-178 § CXXX, 2012; Ord. CS-224 § L, 2013)

**§ 21.208.120. Performance monitoring condition.**

Projects shall be continuously monitored, including at least one formal annual review, to assure long term compliance with all conditions of approval, compatibility with adjacent properties, enforce sign regulations and provide a basis for recommending approval of subsequent permit extension requests. To achieve this, the following condition shall be placed on permits within the overlay zone:

If, at any time, the City Council, Planning Commission or City Planner determine that there has been, or may be, a violation of the findings or conditions of this conditional use permit, or of the Municipal Code regulations, a public hearing may be held before the City Council to review this permit. At said hearing, the City Council may add additional conditions, recommend additional enforcement actions, or revoke the permit entirely, as necessary to ensure compliance with the municipal code and the intent and purposes of the Commercial/Visitor-Serving Overlay Zone, and to provide for the health, safety and general welfare of the City.

(Ord. NS-485 § 1, 1999; Ord. CS-164 § 10, 2011)

**§ 21.208.130. Existing uses, building permits and business licenses.**

For existing uses that propose a change in use, apply for a building permit or apply for a new business license, the provisions of this chapter shall not apply provided that all of the following criteria are met: the proposal is consistent with the uses allowed by the site development plan or specific plan, if any, applicable to the subject site; the proposal does not invoke a higher parking standard pursuant to Section 21.208.100(A) of this chapter; and, the proposal does not involve an increase of greater than two hundred square feet to existing square footage. For such proposals, the additional two hundred square feet of area shall be parked subject to the parking standards of this chapter. Existing structures that propose demolition and redevelopment may be rebuilt to the same square footage as allowed by a valid entitlement prior to the effective date of the ordinance codified in this chapter, or up to an additional two hundred square feet, without being subject to the requirements of this chapter, provided there is no increase in the degree of nonconformity with regards to building setbacks, parking or signage. If a higher parking standard, or more than two hundred square feet of increased square footage is involved for commercial/visitor-serving uses which require a conditional use permit in the underlying zone, the new, or intensified, portion of the existing use shall be subject to the approval of a minor conditional use permit consistent with the standards of this chapter. Existing sign programs and related sign permits are not subject to the provisions of this overlay zone, except that if any existing use proposes an amendment to its existing, approved sign program to increase overall signage allowance, or to increase or alter approved sign locations, then the entire sign program including existing signs shall be subject to the sign standards of Section 21.208.100(B) of this chapter pursuant to the normal processing of such sign program amendment.

(Ord. NS-485 § 1, 1999; Ord. CS-224 § LI, 2013)

**§ 21.208.140. Administrative enforcement powers.**

- A. The enforcement agency and enforcement official can exercise any enforcement powers as provided in Chapter 1.08 of this code. In addition to the general enforcement powers provided in Chapter 1.08 of this code, the enforcement agency and enforcement official have the authority to utilize the administrative remedies set forth in subsection B of this section as may be necessary to enforce this chapter.
- B. Civil Penalties. Any person who violates any of the provisions of this chapter or any condition of a conditional use permit issued pursuant to this chapter shall be liable for a civil penalty not to exceed

one thousand dollars for each day such a violation exists. The violator shall be charged for the full costs of any investigation, inspection or monitoring survey which led to the detection of any such violation, for abatement costs, and for the reasonable costs of preparing and bringing legal action under this subsection. In addition to any other applicable procedures, the enforcement agency may utilize the lien procedures listed in Sections 21.208.150(C)(5) and (D)(2) and Section 21.208.160(B)(3) to enforce the violator's liability.

(Ord. NS-485 § 1, 1999)

**§ 21.208.150. Administrative notice, hearing, and appeal procedures.**

- A. Unless otherwise provided herein, any notice required to be given by the enforcement official under this chapter shall be in writing and served in person or by registered or certified mail. If served by mail, the notice shall be sent to the last address known to the enforcement official. Where the address is unknown, service may be made upon the owner of record of the property involved. Such notice shall be deemed to have been given at the time of deposit, postage prepaid, in a facility regularly serviced by the United States Postal Service whether or not the registered or certified mail is accepted.
- B. When the enforcement official determines that a violation of one or more provisions of this chapter or any condition of a conditional use permit issued pursuant to this chapter exists or has occurred, any violator(s) or property owner(s) of record shall be served by the enforcement official with a written notice and order. The notice and order shall state the municipal code section or the condition violated, describe how violated, the location and date(s) of the violation(s), and describe the corrective action required. The notice and order shall require immediate corrective action by the violator(s) or property owner(s); where the violation is a continuing violation which does not create an immediate danger to health or safety, the notice shall provide a reasonable time, not less than three working days, to correct or otherwise remedy the violation, prior to the imposition of administrative fines. The notice and order shall also explain the consequences of failure to comply, including that civil penalties shall begin to immediately accrue if compliance is not immediately achieved (or, if applicable within three days from the date the notice and order is issued). The notice and order shall identify all hearing rights. The enforcement official may propose any enforcement action reasonably necessary to abate the violation.
- C. If cure or abatement of the violation(s) is not immediately achieved (or, if applicable within three days) from the date the notice and order is issued, the enforcement official shall request the City Manager to appoint a hearing officer and fix a date, time and place for hearing. The enforcement official shall give written notice thereof to the violator(s) or owner(s) of record, at least ten days prior to the date for hearing.
  1. The hearing officer shall consider any written or oral evidence presented to determine whether the violation(s) exists, and/or civil penalties should be imposed, consistent with rules and procedures for the conduct of hearings and rendering of decisions established and promulgated by the City Manager.
  2. In determining whether action should be taken or the amount of a civil penalty to be imposed, the hearing officer may consider any of the following factors:
    - a. Duration of the violation(s);
    - b. Frequency or recurrence;
    - c. Seriousness;

- d. History;
  - e. Violator's conduct after notice and order;
  - f. Good faith effort to comply;
  - g. Economic impact of the penalty on the violator(s);
  - h. Impact of the violation on the community;
  - i. Any other factor which justice may require.
3. If the violator(s) or owner(s) of record fail to attend the hearing, it shall constitute a waiver of the right to a hearing and adjudication of all or any portion of the notice and order.
  4. The hearing officer shall render a written decision within ten days of the close of the hearing, including findings of fact and conclusions of law, identifying the time frame involved and the factors considered in assessing civil penalties, if any. The decision shall be effective immediately unless otherwise stated in the decision. The hearing officer shall cause the decision to be served on the enforcement official and all participating violators or owners of record.
  5. If the persons assessed civil penalties fail to pay them within the time specified in the hearing officer's decision, the unpaid amount constitutes either a personal obligation of the person assessed or a lien upon the real property on which the violation occurred, in the discretion of the enforcement official. If the violation(s) is not corrected as directed the civil penalty continues to accrue on a daily basis. Civil penalties may not exceed one hundred thousand dollars in the aggregate. When the violation is subsequently corrected, the enforcement official shall notify the violator(s) and/or owner(s) of record of the outstanding civil penalties and provide an opportunity for hearing if the amount(s) is disputed within ten days from such notice.

D. Judicial Appeal of Hearing Officer Determination.

1. Notwithstanding the provisions of Section 1094.5 or 1094.6 of the Code of Civil Procedure, within twenty days after service of the final administrative order or decision of the hearing officer is made in accordance with this section regarding the imposition, enforcement or collection of the administrative fines or penalties, a person contesting that final administrative order or decision may seek review by filing an appeal to be heard by the superior court, where the same shall be heard de novo, except that the contents of the local agency's file in the case shall be received in evidence. A court proceeding under this section is a limited civil case authorized by Government Code Section 53069.4. A copy of the notice of appeal shall be served in person or by first-class mail upon the local agency by the contestant.
2. The enforcement official shall take all appropriate legal steps to collect these obligations, including referral to the City Attorney for commencement of a civil action to recover said funds. If collected as a lien, the enforcement official shall cause a notice of lien to be filed with the County Recorder, inform the county auditor and County Recorder of the amount of the obligation, a description of the real property upon which the lien is to be recovered, and the name of the agency to which the obligation is to be paid. Upon payment in full, the enforcement official shall file a release of lien with the County Recorder.

(Ord. NS-485 § 1, 1999)

**§ 21.208.160. Judicial enforcement.**

- A. Criminal Penalties. Any person who violates any provision of this chapter or any condition of a conditional use permit issued pursuant to this chapter is guilty of a misdemeanor.
- B. Injunction/Abatement of Public Nuisance—Violations Deemed a Public Nuisance.
  - 1. In addition to the other civil and criminal penalties provided herein, any condition caused or permitted to exist in violation of any of the provisions of this chapter or any condition of a conditional use permit issued pursuant to this chapter, is a threat to the public health, safety and welfare and is declared and deemed a public nuisance, which may be summarily abated and/or restored as directed by the enforcement official in accordance with the procedures identified in Chapter 6.16.
  - 2. A civil action to abate, enjoin or otherwise compel the cessation of such nuisance may also be taken by the city, if necessary. The enforcement official may also cause the city to seek a petition to the Superior Court for the issuance of a preliminary or permanent injunction, or both, or an action to abate a public nuisance, as may be appropriate.
  - 3. The full cost of such abatement and restoration shall be borne by the owner of the property and the cost thereof shall be a lien upon and against the property in accordance with the procedures set forth in Section 21.208.140.
- C. Other Civil Action. Whenever a notice and order or hearing officer's decision is not complied with, the City Attorney may, at the request of the enforcement official, initiate any appropriate civil action in a court of competent jurisdiction to enforce such notice and order and decision, including the recovery of any unpaid civil penalties provided herein.

(Ord. NS-485 § 1, 1999)

#### **§ 21.208.170. Remedies not exclusive.**

Remedies set forth in this chapter are not exclusive but are cumulative to all other civil and criminal penalties provided by law, including, but not limited to, amortization, abatement, and summary removal pursuant to Chapter 21.41 and/or California Business and Professions Code Sections 5412 through 5412.3 and 5492 through 5497. The seeking of such other remedies shall not preclude the simultaneous commencement of proceedings pursuant to this chapter.

(Ord. NS-485 § 1, 1999)

#### **§ 21.208.180. Severability.**

If any section, subsection, sentence, clause or phrase of the ordinance codified in this chapter is for any reason held to be invalid or unconditional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of the ordinance codified in this chapter. The City Council declares that it would have passed the ordinance codified in this chapter and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any part thereof be declared invalid or unconditional.

(Ord. NS-485 § 1, 1999)

**CHAPTER 21.209  
CR-A/OS CANNON ROAD AGRICULTURAL/OPEN SPACE ZONE**

**§ 21.209.010. Intent and purpose.**

- A. The intent and purpose of the Cannon Road agricultural/open space (CR-A/OS) zone is to:
1. Implement Proposition D, the "Preserve the Flower and Strawberry Fields and Save Taxpayers Money" proposition enacted by the voters of Carlsbad in November 2006.
  2. Promote and support the continuation of agriculture in the zone for as long as the landowners determine that it is economically viable to do so;
  3. Protect, encourage, and enhance public uses, public access, public views/vantage points, and community gathering places;
  4. Ensure that all uses in the zone address traffic, circulation and transportation impacts;
  5. Provide for agricultural and other active, passive, and cultural open space uses in the zone that provide economic benefit to the landowners as set forth in Table A in Section 21.209.040;
  6. Create a sustainable area, which means an area that contains agricultural and open space uses that balance social, economic, and environmental values important to the community;
  7. Provide for community input on the design of proposed development and uses;
  8. Protect areas of existing natural habitat in conformance with the city's habitat management plan and local coastal program; and
  9. Implement the goals and objectives of the general plan. In particular, the goals and objectives related to the Cannon Road open space, farming and public use corridor.

(Ord. CS-317 § 8, 2017)

**§ 21.209.020. Definitions.**

Whenever the following terms are used in this chapter, they shall have the following meaning established by this section:

"Primary use" means a use that is not required to be developed in conjunction with or on the same site, lot, or parcel of land as another permitted and/or secondary use.

"Secondary use" means a use that is permitted only if developed in conjunction with and/or in support of at least one primary use.

(Ord. CS-317 § 8, 2017)

**§ 21.209.030. Guiding principles.**

- A. The following principles, as set forth below, are intended to guide the planning of development and establishment of uses in the zone to create a sustainable area that balances social, economic and environmental values that are important to the community. All proposed development, uses, or grouping of uses shall be reviewed for conformance with the applicable guiding principles.
1. Social Principles.
    - a. Encourage open space uses that have a strong community orientation and that provide

- maximum opportunities for people to gather, interact, and socialize.
- b. Create an area that is unique, vibrant and exciting by providing a diversity of open space uses.
  - c. Integrate art, culture and history into the agricultural and open space uses permitted in the zone.
2. Economic Principles.
    - a. Recognize that the zone consists of privately owned lands and that community desires for certain open space uses depend on economic feasibility and benefit to the property owners.
    - b. Support uses that economically benefit the continuation of agriculture in the zone, including organic farming, community farming, and other innovative or mixed-use agricultural operations.
  3. Environmental Principles.
    - a. Balance natural open space uses with improved or developed public uses.
    - b. Protect and preserve existing natural habitats and encourage the restoration of disturbed areas of habitat.
    - c. Provide safe walking and biking through trails and pathways that interconnect uses and sites in the zone and surrounding area, which maximize public access to, and preserve and enhance, ocean and lagoon views.

(Ord. CS-317 § 8, 2017)

**§ 21.209.040. Permitted primary and secondary uses.**

- A. In the CR-A/OS zone, notwithstanding any other provisions of this title, only the uses listed in Table A, below, shall be permitted.
- B. Uses similar to those listed in Table A may be permitted if the City Planner determines such similar use falls within the intent and purpose of this zone.
- C. Other uses that are not listed in Table A, and which cannot be found to be similar to those uses listed in Table A, may be recommended for approval as a permitted use to the Planning Commission provided that the City Planner ascertains all pertinent facts and the Planning Commission, by resolution of record, sets forth its findings and its interpretations that the use is substantially consistent with the intent and purpose and guiding principles (Sections 21.209.010 and 21.209.030) of this zone. Such Planning Commission resolution shall be forwarded to the City Council as a recommendation and, if approved by resolution of the City Council, thereafter such interpretation shall govern. An LCP amendment may be required for any change or addition to permitted uses.
- D. The establishment and continuation of agricultural uses in the zone is encouraged for as long as the land owners determine that it is economically viable. When agriculture is no longer economically viable for the landowners, only the other open space uses listed in Table A shall be permitted.

**TABLE A – PERMITTED USES**

In the table, below, subject to all applicable permitting and development requirements of the municipal code:

"P" indicates that the use is permitted.

"CUP" indicates use is permitted with approval of a conditional use permit.

1 = Administrative hearing process.

2 = Planning Commission process.

<b>Agricultural Uses</b>		
<b>Primary Agricultural Uses</b>	<b>P</b>	<b>CUP</b>
Agricultural crop production (wholesale) (including floriculture and horticulture, and structures necessary for production, maintenance, harvesting, storage and distribution functions associated with directly supporting the on-site primary agricultural crop production use)	X	
Agricultural-related educational, research and development facilities		1
Community farming (example: individual citizens or community groups growing agricultural crops)	X	
Agricultural farm worker housing (see note 1 below)	X	
Energy transmission and distribution facilities, including, but not limited to, rights-of-way and pressure control or booster stations, substations, gas metering/regulating stations or operating centers for gasoline, electricity, natural gas, synthetic natural gas, oil or other forms of energy sources, with the necessary accessory equipment incidental thereto	X	
Farmers market (sale of primarily agricultural products)		1
Floral trade center (wholesale or retail)		2
Greenhouses	X	
Plant nurseries and supplies (retail)		1
Tree and seed growing farms	X	
Utility buildings/facilities that are built, operated, or maintained by a public utility to the extent that they are regulated by the California Public Utilities Commission	X	
Vineyards and wineries	X	
<b>Secondary Agricultural Uses</b>	<b>P</b>	<b>CUP</b>
Agricultural distribution facilities		2
Other accessory or related uses that promote the continuation of a primary permitted agricultural use, as determined by the City Planner		1
Public/private events and activities (permanent or temporary) related to promoting a primary permitted agricultural use (examples: demonstrations, seasonal sales/temporary sales, special events, tours) (see note 2 below)	X	

<b>Agricultural Uses</b>		
<b>Primary Agricultural Uses</b>	<b>P</b>	<b>CUP</b>
Retail sales of agricultural crops and related products limited to a cumulative area of 1,000 square feet or less  (examples: on-premises sale of crops to the public, produce store, "you pick" operations, sale of products made from crops)	X	
Retail sales of agricultural crops and related products with a cumulative area of more than 1,000 square feet  (examples: on-premises sale of crops to the public, produce store, "you pick" operations, sale of products made from crops)	1	
<b>Open Space Uses</b>		
<b>Primary Open Space Uses</b>	<b>P</b>	<b>CUP</b>
Amphitheater		2
Civic and public gathering spaces  (examples: art display, gazebos, public plazas, sitting areas, water features, wedding areas)	X	
Community meeting center		1
Dog park		1
Energy transmission and distribution facilities, including, but not limited to, rights-of-way and pressure control or booster stations, substations, gas metering/ regulating stations or operating centers for gasoline, electricity, natural gas, synthetic natural gas, oil or other forms of energy sources, with the necessary accessory equipment incidental thereto	X	
Gardens (public or private)  (examples: botanical, rose, tea, and meditation gardens)		1
Habitat preserves and natural areas	X	
Historic center		1
Agricultural or natural history related museum		1
Parks (public or private)		1
Picnic areas		1
Sports or recreation center (public outdoor)  (examples: athletic courts and fields, lawn bowling, swimming pools, tennis courts)		2
Trails  (examples: bicycle, exercise, equestrian, nature, pedestrian)	X	
Utility buildings/facilities that are built, operated, or maintained by a public utility to the extent that they are regulated by the California Public Utilities Commission	X	
<b>Secondary Open Space Uses</b>	<b>P</b>	<b>CUP</b>

<b>Agricultural Uses</b>		
<b>Primary Agricultural Uses</b>	<b>P</b>	<b>CUP</b>
Food service, including restaurants and cafés, limited to a cumulative area of 500 square feet or less	X	
Food service, including restaurants and cafés with a cumulative area of more than 500 square feet		1
Other accessory or related uses that promote the continuation of a primary permitted open space use		1
Public/private events and activities (permanent or temporary) related to promoting a primary permitted open space use (examples: demonstrations, seasonal sales/temporary sales, special events, tours) (see note 2 below)	X	
Retail sales of goods and products, related to a primary permitted open space use, limited to a cumulative area of 500 square feet or less	X	
Retail sales of goods and products, related to a primary permitted open space use, with a cumulative area of more than 500 square feet		2

**Notes:**

1. Agricultural farm worker housing consisting of no more than 36 beds in group quarters or 12 units or spaces designed for use by a single family or household is permitted in accordance with California Health and Safety Code Section 17021.6.
2. Subject to special events (Chapter 8.17 of this code), minor special events on private property and/or temporary sales location permits as appropriate. (Ord. CS-317 § 8, 2017)

(Ord. CS-317 § 8, 2017)

**§ 21.209.050. Conditional use permit requirement.**

- A. Decision-Making Process. The conditionally permitted primary and secondary uses, as indicated in Table A, shall be processed in accordance with the applicable provisions of Chapter 21.42 (Minor Conditional Use Permits and Conditional Use Permits) of this title and the requisite findings therein.
- B. Finding of Fact. In addition to the findings for approving a minor conditional use permit or a conditional use permit as set out in Chapter 21.42, a finding shall be made that:
  1. The proposed use or grouping of uses implements the intent and purpose of the Cannon Road Agricultural/Open Space (CR-A/OS) zone as set forth in Section 21.209.010 of this chapter.
  2. The proposed use or grouping of uses conforms to the applicable guiding principles contained in Section 21.209.030 of this chapter.
  3. The proposed development complies with the applicable development and design standards contained in Section 21.209.080 of this chapter.
  4. Feasible and appropriate public art, public access, and civic and public gathering space elements have been incorporated into the design of the proposed development.

(Ord. CS-317 § 8, 2017)

**§ 21.209.060. Site development plan requirement.**

- A. A site development plan shall be required for development in the zone as noted below.
1. Exemptions. The following types of development are exempt from the requirement for a minor site development plan or site development plan:
    - a. Structures associated with primary or secondary agricultural uses which include:
      - i. Structures containing a cumulative area of 2,000 square feet or less.
      - ii. Greenhouses or plant protection (shade, wind, etc.) structures containing a cumulative area of 10,000 square feet or less.
      - iii. Temporary or seasonal plant protection (shade, wind, etc.) structures. Temporary or seasonal as used herein shall mean a structure that is in place for no more than 180 days in any 12 month period.
      - iv. Open shade structures (gazebo, trellis, patio cover, etc.) containing a cumulative area of 1,000 square feet or less.
    - b. Structures associated with primary or secondary open space uses which include:
      - i. Structures containing a cumulative area of 1,000 square feet or less.
      - ii. Open shade structures containing a cumulative area of 1,000 square feet or less.
  2. Minor Site Development Plan. A minor site development plan shall be required for the following:
    - a. Structures associated with primary or secondary agricultural uses which include:
      - i. Structures containing a cumulative area of more than 2,000 square feet and up to 10,000 square feet.
      - ii. Greenhouses or plant protection structures containing a cumulative area of more than 10,000 square feet and up to 50,000 square feet.
    - b. Structures associated with primary or secondary open space uses which include:
      - i. Structures containing a cumulative area of more than 1,000 square feet and up to 5,000 square feet.
      - ii. Open shade structures containing a cumulative area of more than 1,000 square feet and up to 5,000 square feet.
  3. Site Development Plan. A site development plan shall be required for, but not limited to, the following:
    - a. Structures associated with primary or secondary agricultural uses which include:
      - i. Structures containing a cumulative area of more than 10,000 square feet.
      - ii. Greenhouses or shade structures containing a cumulative area of more than 50,000 square feet.

- b. Structures associated with primary or secondary open space uses which include:
  - i. Structures containing a cumulative area of more than 5,000 square feet.
  - ii. Open shade structures containing a cumulative area of more than 5,000 square feet.

B. Decision-Making Process.

1. A minor site development plan shall be processed in accordance with the applicable provisions of subsection C and Chapter 21.06 (Q-Qualified Development Overlay Zone) of this title, including the requisite findings therein. The City Planner shall be the decision maker for a minor site development plan required by this chapter.
  2. A site development plan shall be processed in accordance with the applicable provisions of subsection C and Chapter 21.06 (Q-Qualified Development Overlay Zone) of this title, including the requisite findings therein. The Planning Commission shall be the decision maker for a site development plan required by this chapter.
- C. Findings of Fact. In addition to the findings for approving a minor site development plan or site development plan as set out in Chapter 21.06, findings shall be made that:
1. The proposed development implements the intent and purpose of the Cannon Road agricultural/open space (CR-A/OS) zone as set forth in Section 21.209.010 of this chapter.
  2. The proposed development conforms to the applicable guiding principles contained in Section 21.209.030 of this chapter.
  3. The proposed development complies with the applicable development and design standards contained in Section 21.209.080 of this chapter.
  4. Feasible and appropriate public art, public access, and civic and public gathering space elements have been incorporated into the design of the proposed development.

(Ord. CS-317 § 8, 2017)

**§ 21.209.070. Pre-submittal community input process.**

- A. Prior to the submittal of a minor site development plan, site development plan, minor conditional use permit, and/or conditional use permit application for a proposed development, uses, or grouping of uses, the applicant shall submit to the City Planner a proposed strategy for allowing the community to provide pre-submittal input on the proposed development, uses, or grouping of uses.
- B. The strategy shall include at least one publicly noticed community workshop or similar event.
- C. The public outreach must be completed prior to submitting a formal application.
- D. The application submittal shall be accompanied by a written description of the outcome of the community input strategy, description of public noticing, and any features of the proposed development, uses, or grouping of uses that have resulted from the community input.

(Ord. CS-317 § 8, 2017)

**§ 21.209.080. Development and design standards.**

- A. Lot Coverage. Lot coverage shall not exceed 50% of the lot.

- B. Lot Area, Minimum. There shall be no minimum lot area established for the CR-A/OS zone district. The size of the lot shall be dependent upon the existing or proposed use.
- C. Building Design. The design of all buildings in a proposed development shall reflect a human scale (proportionate and attention to details) in terms of the size, bulk and massing of structures.
- D. Building Height.
1. No building or structure shall exceed 25 feet in height unless a higher building height is authorized through a minor site development plan or site development plan approval. Additional building height authorized through a minor site development plan or site development plan approval shall not exceed a maximum of 35 feet.
  2. In approving the increased building height, the decision maker shall determine that the buildings or structures require an increased height in order to provide the function needed for the development, use, or grouping of uses that the building is intended to serve.
- E. Habitat Preservation. Consistent with guiding principle Section 21.209.030.A.3.b contained in this chapter, proposed development shall be consistent with the city's habitat management plan and shall conform to the applicable provisions of Chapter 21.210 and the local coastal program. Restoration of disturbed habitat shall be encouraged for proposed development located adjacent to existing preserve areas.
- F. Parking Requirements.
1. Off-street parking requirements for proposed uses in the zone shall be governed by Chapter 21.44 of this title.
  2. Where a parking requirement for a use permitted in the zone is not specifically identified in Chapter 21.44, the City Planner shall determine which use identified in Chapter 21.44 is the most similar to the use being proposed in the zone and that parking requirement shall apply.
  3. As an alternative, a parking study may be submitted by the applicant for a proposed development, use, or group of uses in the zone for review by the City Planner in order to determine an appropriate parking requirement.
- G. Public Art.
1. Any development proposal that requires a minor site development plan or a site development plan, and/or a minor conditional use permit or conditional use permit shall incorporate feasible and appropriate public art elements into the design of the proposed development.
  2. Art elements may include, but are not limited to, art features on building facades, freestanding sculptures or structures, and mosaics or paintings on public furniture (i.e. benches, fountains, gazebos).
  3. Art elements are encouraged to reflect the cultural, historical and agricultural significance and heritage of the zone.
- H. Public Access.
1. Any development proposal that requires a minor site development plan or a site development plan, and/or a minor conditional use permit or conditional use permit shall incorporate feasible and appropriate public access elements for walking and bicycling that interconnect uses and

sites in and through the zone.

2. Public access elements shall connect to the city's proposed public trails as established in the City of Carlsbad Trails Master Plan or the Carlsbad Ranch Specific Plan; implementation of these public trail elements shall be completed concurrent with adjacent proposed development.
- I. Public Views. Development shall be sited and designed to preserve all significant public view corridors and vantage points as established within the Carlsbad Ranch Specific Plan. All development proposals adjacent to identified view corridors and vantage points shall include adequate setbacks and buffering.
- J. Civic and Public Gathering Places. Any development proposal that requires a minor site development plan or a site development plan, and/or a minor conditional use permit or conditional use permit shall incorporate feasible and appropriate civic and public gathering place elements into the design of the proposed development. Civic gathering places may include, but are not limited to, such things as art display areas, gazebos, public plazas, sitting areas, water features, and wedding areas.
- K. Signs.
  1. Except as otherwise provided in this section, signs shall be permitted in the zone according to the provisions of Chapter 21.41 of this title.
  2. The design of all permitted signs in the zone is encouraged to reflect aspects of the cultural, historical, and agricultural significance and heritage of the zone.
  3. Temporary or seasonal signs shall be permitted on a project site for primary and secondary agricultural uses as allowed in Section 21.209.040 of this chapter, subject to the approval of a sign permit consistent with Section 21.41.050 of this title. The total sign area allowable for temporary or seasonal signs shall be limited to a maximum of 160 square feet per project site and a maximum of 32 square feet per individual sign.

L. Traffic and Circulation.

1. A traffic and circulation study shall be submitted, pursuant to the city's circulation impact analysis thresholds, in conjunction with all proposals for new development, uses, or grouping of uses in the zone that require a minor site development plan, site development plan, minor conditional use permit, or conditional use permit, except for the establishment or expansion of agricultural crop production. The study shall analyze how the proposal affects previously-approved traffic (ADT) projections for the local facilities management zone in which the proposal is located. If the study shows that previous projections are being exceeded as a result of proposed development, uses, or grouping of uses, the study shall identify traffic and circulation improvements that must be constructed to accommodate additional traffic in the zone.
2. The requirement for a traffic and circulation study may be waived at the discretion of the City Engineer and City Planner.

(Ord. CS-317 § 8, 2017)

**§ 21.209.090. Severability.**

If any section, subsection, sentence, clause, phrase or part of this chapter is for any reason found by a court of competent jurisdiction to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this chapter, which shall be in full force and effect. The City Council hereby

declares that it would have adopted this chapter with each section, subsection, sentence, clause, phrase or part thereof irrespective of the fact that any one or more sections, subsections, sentences, clauses, phrases or parts be declared invalid or unconstitutional.

(Ord. CS-317 § 8, 2017)

**CHAPTER 21.210  
HABITAT PRESERVATION AND MANAGEMENT REQUIREMENTS**

**§ 21.210.010. Purpose and intent.**

The purposes and intent of this chapter are to:

- A. Implement the goals and objectives of the land use and the open space/conservation elements of the Carlsbad general plan;
- B. Implement the city's habitat management plan, the implementing agreement and conditions, the North County multiple habitat conservation plan (MHCP), the state's Natural Communities Conservation Plan (NCCP) and 10(a)(1)(B) permit conditions;
- C. Preserve the diversity of natural habitats in the city and protect the rare and unique biological resources located within those habitats;
- D. Assure that all development projects comply with the habitat preservation and conservation standards contained in the habitat management plan;
- E. Provide a process for permitting limited, incidental impacts to occur to natural habitat areas and the species located therein; and
- F. Provide a process for allowing minor amendment from the habitat preservation and conservation standards under limited, specified circumstances.

(Ord. NS-783 § 1, 2006)

**§ 21.210.020. Definitions.**

The following definitions are established:

- A. Whenever the following terms are used in this chapter, they shall have the meaning established by this section:

"Conditions of coverage" means the measures to avoid, minimize and mitigate for impacts to habitat and the covered species located therein and the conditions and terms of the approval of the HMP by the wildlife agencies contained in the HMP implementing agreement.

"Conservation" means to keep protected habitat and the species located therein from loss, decay or depletion and to move the species toward recovery. Conservation also describes all actions related to maintaining and managing habitat and providing a viable habitat preserve system in the city. Conservation and preservation are similar terms and are used in much the same way. Preservation connotes the act of setting aside or securing habitat, whereas conservation is generally more broad and includes activities such as management of the habitat.

"Covered species" means the species for which take authorization is provided because long-term viability has been determined to be adequately maintained under the HMP as identified in lists 1, 2, and 3, Exhibit "A" to the implementing agreement. The HMP addresses the species identified as list 1 in a manner sufficient to meet all of the criteria for issuing an incidental take permit. Take authorization for species of lists 2 and 3 is contingent on other MHCP subarea plans being permitted and/or funding for enhanced management of preserved areas.

"Development project" means any use of a property, including grading, clearing and grubbing, construction, alteration of any magnitude or activities incidental thereto which requires a

discretionary or ministerial permit, entitlement or approval issued under Titles 15, 18, 20 or 21 of the municipal code.

"Habitat" means the environment or the environmental conditions of a specific location where species or a population of such species lives, occurs or occupies. It includes both natural and native habitat.

"Habitat in-lieu mitigation fee" means a per-acre fee charged for impacts to on-site habitat as an alternative to acquiring off-site habitat to mitigate for such impacts.

"Habitat management plan" means the comprehensive plan which identifies how the city can preserve and conserve the diversity of habitat and protect rare species and biological resources within the city while allowing for additional development consistent with the city's general plan and its growth management plan. In so doing, the plan allows the city to issue permits and authorization for the incidental take of rare species in conjunction with private development projects, public projects, and other activities which are consistent with the plan.

"Hardline preserve areas" means properties which are already part of or are planned to be part of the HMP habitat preserve system. "Existing" hardline preserve areas are depicted on Figure 5 of the HMP and have already been conserved for their habitat value due to permitting actions occurring in the past before approval of the HMP. "Proposed" hardline preserve areas are properties whose preservation and development areas have been planned as part of the HMP. These areas have been agreed-upon in coordination with the landowners, the city, U.S. Fish and Wildlife Service, and the California Department of Fish and Game. If the area proposed for development and proposed for conservations are in conformance with the HMP, the development will be allowed under the HMP.

"HMP" means the Carlsbad Habitat Management Plan (dated December 1999 as amended, final approval November 2004).

"HMP permit" means the permit required when a development project impacts, either directly or indirectly, habitat in the city.

"Implementing agreement" or "IA" means the legal document which defines the roles, responsibilities, activities and conditions that will be undertaken by the city and the wildlife agencies to provide for the preservation, conservation and management of habitat and the species covered under the HMP.

"Incidental take permit" means the taking of an HMP covered species incidental to and not the purpose of carrying out otherwise lawful activities.

"Management of habitat" means all the activities and actions necessary to ensure that the habitat preserve system in the city remains viable and protected for the species that are located there including maintenance, biological monitoring and adequate funding for same.

"MHCP" means the multiple habitat conservation plan, a comprehensive subregional plan which addresses multiple species habitat needs and the preservation of natural vegetation in a one hundred seventy-five square mile area in northwestern San Diego County.

"Mitigation" means measures undertaken to diminish or compensate for the negative impacts of a development project or activity on areas of habitat, native vegetation or species located therein including minimizing the impact by feasible avoidance, repairing or restoring the area of impact or compensating for the impact by replacing or providing substitute resources.

"Narrow endemic species" means native species with restricted geographic distributions, soil affinities and/or habitats, and for purposes of the HMP, species that in addition have important populations within the plan area, such that substantial loss of these populations or their habitat within the HMP area might jeopardize the continued existence or recovery of that species and therefore

special conservation standards are required.

"NCCP" means the Natural Community Conservation Planning Act of 1991.

"Preserve" means an area set aside and managed for the protection of wildlife and biological resources.

"Preservation" means to keep in safety; protect from danger or harm; to keep intact or unimpaired; maintain. Preservation and conservation are similar terms and are used in much the same way. Preservation connotes the act of securing the land and its values, whereas conservation generally is more broad and includes activities such as management of the land and its resources.

"Property analysis record (PAR)" means a computerized database methodology used to calculate the costs associated with the management, maintenance and monitoring of natural habitat areas.

"Standards areas" means properties whose preservation and development areas have not yet been planned as part of the HMP. Instead, preservation and conservation standards have been developed for these properties which must be complied with when a development project is submitted for the property.

"Wildlife agencies" means the U.S. Fish and Wildlife Service and the California Department of Fish and Game.

(Ord. NS-783 § 1, 2006)

### **§ 21.210.030. Applicability.**

- A. All development projects and fuel modification activities in the city shall comply with the habitat preservation and conservation standards contained in the city's habitat management plan (HMP) as well as the implementing agreement, permit conditions, the MHCP, the NCCP and 10(a)1(B) permit conditions, and the requirements contained in this chapter. All requirements of the HMP are incorporated herein by reference.
- B. No grading of habitat in the city, including clearing and grubbing, shall occur pursuant to Title 15 of the municipal code until all the processing and permitting requirements of this chapter are fulfilled.

(Ord. NS-783 § 1, 2006)

### **§ 21.210.040. Habitat preservation requirements.**

The provisions of this section shall apply to all development projects as follows:

- A. Hardline Preserve Areas. Properties or areas of the city identified in the HMP as existing hardline preserve areas are shown on Figure 5 of the HMP. Properties or areas of the city identified in the HMP as proposed hardline preserve areas are shown on Figures 8 through 25 and 34 through 40 of the HMP. These areas shall be prohibited from development located in or encroaching into the hardline preserve area. Minor modifications to the boundaries of the proposed hardline preserve area shall only be allowed if approved as an equivalency finding pursuant to Section 21.210.090 of this chapter. Incidental take of covered species and direct impacts to habitat shall only occur outside the boundaries of the hardline preserve areas. Hardline preserve areas are to be designated as biological open space and preserved in such designation in perpetuity.
- B. Standards Areas. Properties or areas of the city identified in the HMP as standards areas (HMP Figure 26) shall comply with all the habitat preservation standards contained in Section D.3(C) of the HMP which are incorporated by reference. Incidental take of covered species and direct impacts to habitat shall not be permitted in these areas until a development project is approved which complies with the

standards and provides any land to the habitat preserve areas as required by the standards.

C. Additional Mitigation. In addition to setting-aside land for the preserve area, all impacts to habitat and covered species shall be mitigated as follows:

1. All development projects which impact habitat shall provide on-site or off-site replacement habitat in accordance with the mitigation ratios contained in Table 11 in Section D.6 of the HMP. Preference shall be given for on-site mitigation unless off-site mitigation provides for improved quality or configuration of open space. Replacement habitat shall be identified as part of the approval of the development project.
2. Larger, connected areas of habitat that is not impacted by development or brush management and preserved on-site within the boundaries of the property where the project is located shall be credited toward the mitigation ratios.
3. If at least sixty-seven percent of the habitat on the property where the development project is located is preserved, the project shall not be required to obtain off-site mitigation land in compliance with the mitigation ratios except if: 1) the project would otherwise be inconsistent with the HMP, IA, MHCP, and NCCP and 10(a)1(B) permits; 2) the proposed on-site preservation would reduce the city's ability to meet the specific habitat conservation obligations in the HMP; and/or 3) the areas to be preserved on-site would not benefit the city's preserve system (e.g., habitat exists in a small, isolated patch or patches outside of the focus planning area, and containing no narrow endemic species).
4. Mitigation of impacts through habitat restoration or habitat creation shall be allowed in limited circumstances and shall be mitigated at a higher ratio as determined by the city in consultation with the wildlife agencies.

D. Additional Conditions. In addition to the requirements, standards and conditions contained in subsections A, B and C of this section, the following additional conditions of coverage shall apply to all development projects. These conditions are intended to reference existing requirements and conditions contained in the HMP, IA, MHCP, and NCCP and 10(a)1(B) permit conditions; the conditions listed below are not intended to add additional requirements or conditions above those contained in the HMP, IA, MHCP, and NCCP and 10(a)1(B) permit conditions:

1. Impacts to narrow endemic species shall be avoided to the maximum extent practicable in conformance with the narrow endemic species policy contained in the MHCP and incorporated herein by reference, however where impacts to a narrow endemic species population are demonstrated to be unavoidable, impacts shall be limited to five percent of the total narrow endemic species population within the boundaries of the property where the development project is located. Relocation of the narrow endemic species cannot be used to meet the five percent numeric standard.
2. Grading for a development project during wildlife breeding seasons shall be prohibited, except as provided by the HMP and MHCP, unless a minor adjustment is specifically approved by the city and the wildlife agencies.
3. All development projects shall be located and designed to minimize overall impacts to natural habitat.
4. All fuel modification (brush management) zones required as a result of the development project, and as required by the Fire Marshal, shall be located outside the preserve areas, shall be

considered impacted and shall be mitigated according to subsection C of this section.

5. Impacts to wetland and riparian habitats shall be avoided to the maximum extent possible. All development projects that would affect these habitats must demonstrate that the impacts: 1) cannot be avoided by a feasible alternative; 2) have been minimized to the maximum extent practicable; 3) mitigated at a minimum 3:1 ratio; and 4) will be mitigated in ways that assure no net loss of habitat value or function.
  6. Impacts to vernal pools shall be avoided. In the event that no project alternative is feasible that avoids all impacts on a particular property, the impacts must be minimized and mitigated to achieve a no net loss of biological functions and values through strict adherence to the wetland avoidance and mitigation criteria (Section 3.6.1 of MHCP Volume I), standard best management practices (MHCP Appendix B), and revegetation guidelines (MHCP Appendix C).
  7. In the standards areas, sixty-seven percent of coastal sage scrub and seventy-five percent of the gnatcatchers located in the area shall be preserved. Some areas may preserve more or less than these percentages due to parcel size, location, resources, or long-term conservation potential as approved by the city and the wildlife agencies.
  8. All development projects shall comply with the applicable standards of the MHCP (dated March 2003) and the measures to minimize impacts to covered species described in Section D.6, Table 9 and Appendix C of the HMP.
  9. All development projects located in the coastal zone shall also be required to comply with the additional, general conservation standards contained in Section D.7, Standards 7-1 through 7-12 of the HMP and the additional, parcel-specific conservation standards contained in Section D.7, Standards 7-13 and 7-14 of the HMP as incorporated into the local coastal program.
- E. Habitat In-Lieu Mitigation Fee. Development projects which are subject to additional mitigation pursuant to subsection C of this section and which impact habitat types D, E and F listed in Table 11 of the HMP shall pay a fee in an amount to be determined by City Council resolution, in lieu of providing onsite or off-site mitigation land. The fee shall be used to fund the acquisition of habitat land in the MHCP as required by the HMP and implementing agreement. The fee shall be adjusted as necessary to acquire suitable habitat on a per acre basis comparable to the land being developed.

(Ord. NS-783 § 1, 2006)

#### **§ 21.210.050. Habitat management requirements.**

All development projects shall be required to provide for the permanent management, maintenance and biological monitoring in perpetuity of all on-site and off-site mitigation land and all habitat preserve areas within the boundaries of the property in which the project is located according to the provisions of this section:

- A. Standard of Management. All preserve areas shall be managed, maintained and monitored according to the standards contained in Section F.2 of the HMP, Volume 2 and 3 of the MHCP and the citywide open space management plan.
- B. Funding of Management. Based upon the management plan required by subsection D of this section, the developer shall provide a nonwasting endowment or other secure financial mechanism acceptable to the City Planner to the identified conservation entity in an amount sufficient for management, maintenance and monitoring of the preserve areas and mitigation land in perpetuity. The endowment will be tied to the preserved land for which it is provided and will be held by the city or a third-party

financial entity approved by the city with demonstrated success in managing endowments. Only the interest accrued from the endowment shall be paid to the property manager.

C. Conservation Easement Required. A conservation easement shall be placed on all preserve areas to ensure the area will be preserved in perpetuity, managed and maintained for its biological value and to prevent uses which will impair or interfere with the conservation of the area. At a minimum, the required conservation easement shall include the following:

- a. Identification of grantee, underlying land ownership, and third-party beneficiaries including the city and the wildlife agencies;
- b. Permitted and prohibited uses;
- c. Grantor's duties and responsibilities as per the preserve management plan, which may be amended from time to time;
- d. Enforcement provisions.

D. Preserve Management Plan. Prior to recordation of a final map (if applicable) or prior to issuance of a grading permit, the developer shall be required to submit a plan to identify how the preserve areas and mitigation land will be managed and maintained for the first year after the areas are set aside for preservation. The plan shall include the costs for managing and monitoring the areas in perpetuity and shall identify a conservation entity, subject to approval by the City Planner, to serve as preserve manager and who possesses the necessary biological qualifications and experience to manage and monitor the preserve areas in perpetuity. The plan shall be based on the results of a property analysis record (PAR) or other method acceptable to the City Planner. The plan shall commit the preserve manager to prepare a permanent preserve management plan and annual work plans and shall give the city the right to enforce the preparation and execution of the plans. The plan shall be approved by the City Planner. The preserve management plan shall include the following:

1. An overall vision of the preserve area, its role in the citywide preserve system and its regional relationship;
2. The baseline biological conditions as identified in field surveys of the property not more than one year old including an identification of the covered species that occur or have the potential to occur in the preserve area and the known or expected threats to the biological value of the area;
3. Identification of resource management goals and specific conservation objectives based on the vision for the preserve area and baseline biological conditions;
4. Area-specific management directives based on the resource goals and conservation objectives;
5. A description of preserve-level and subregional monitoring activities which shall be consistent with the HMP and MHCP Volumes I and II.

Appendix D of the citywide open space management plan contains an outline of the required format for preserve management plans.

E. Annual Work Plan. Each year, the preserve manager shall be obligated to submit to the planning division an annual work plan for each preserve area. The work plan shall identify specific problems and how they will be addressed, the planned monitoring and management actions for the year and include a prioritization of specific management needs and area-specific management directives.

(Ord. NS-783 § 1, 2006; Ord. CS-164 §§ 10, 11, 2011)

**§ 21.210.060. Permits required.**

Impacts to habitat and covered species shall not occur in the city until the permits required by this chapter have been approved. The permits required by this chapter shall be processed concurrently with any other development permits required by Titles 15, 18, 20 and 21 of the municipal code.

(Ord. NS-783 § 1, 2006)

**§ 21.210.070. Minor HMP permit and HMP permit.**

A. A minor HMP permit or HMP permit shall be required for any development project which directly or indirectly impacts natural habitat in accordance with the procedures set forth in this section.

1. A minor HMP permit shall be required, except as specified in subsection A.2 of this section.
2. A HMP permit shall be required if the permit application is processed concurrently with any other permit for which the Planning Commission or City Council is the decision-making authority.

B. Application and Fees.

1. An application for a minor HMP permit or HMP permit may be made by the record owner or owners of the property affected by the development project or the authorized agent of the owner or owners. The application shall:

- a. Be made in writing on a form provided by the City Planner.
- b. State fully the circumstances and conditions relied upon as grounds for the application.
- c. Be accompanied by:
  - i. A legal description of the property involved.
  - ii. Adequate plans that allow for detailed review pursuant to this chapter.
  - iii. A biological report, which demonstrates compliance with this chapter and includes the information specified in subsection C of this section.
  - iv. All other materials as specified by the City Planner.

2. At the time of filing the application, the applicant shall pay the application fee contained in the most recent fee schedule adopted by the City Council.

C. Biological Report.

1. The biological report shall be prepared by a biologist. The report shall identify:

- a. The location and quantifies of all habitat and vegetation on the property (or any off-site work area).
- b. The location of any covered species.
- c. The location of any off-site wetland, riparian habitat, oak woodland, nesting raptors or narrow endemic species located within one hundred feet of the property.

2. If the biological survey is conducted outside the acceptable time of year for identifying narrow

endemic species, but the biologist identifies that narrow endemic species could be present on the property, then surveys for narrow endemic species must be conducted during the acceptable time of year in accordance with wildlife agencies protocols, if such protocols exist. The processing of the HMP permit application will be held in abeyance until the applicant submits subsequent surveys conducted during the acceptable time of the year.

3. For projects located in a proposed hardline area, a map shall be submitted showing the precise boundary of the proposed development area and the proposed preserve area consistent with the proposed hardline preserve area figures contained in the HMP.
4. For projects located in the standards areas, an analysis shall be submitted which exactly and clearly identifies:
  - a. How the project complies with the standards and conditions contained in the HMP, MHCP, and IA, and any applicable permit conditions in the NCCP and 10(a)1(B) permits;
  - b. The hardline preserve boundaries which would result from compliance with the standards; and
  - c. How the project is being located on the least biologically sensitive portion of the property.
5. For projects which impact narrow endemic species, the following information shall be provided:
  - a. A graphic depiction of all narrow endemic species located on the property where the development project is located;
  - b. A written biological description of the status of the narrow endemic species;
  - c. Quantification of both preservation of narrow endemic species and impacts to narrow endemic species associated with the project including direct and indirect effects on an area and individual plant basis;
  - d. A written report of the feasibility or infeasibility of total avoidance of narrow endemic species population(s);
  - e. A written description of project design features that reduce indirect effects such as edge treatments, landscaping, elevation differences, minimization and/or compensation through restoration or enhancement and consistently with the MHCP adjacency standards.
6. For projects which impact wetlands, the following information shall be provided:
  - a. A graphic depiction of all wetlands located on the property where the development project is located;
  - b. A written biological description of the status of the wetlands;
  - c. Quantification of proposed impacts to wetlands associated with the project;
  - d. Written analysis of the inability to avoid impacts to wetlands;
  - e. Written description of project design features that minimize impacts to wetlands including buffers as described in Section 7-11 of the HMP.
7. An analysis of how the development project complies with the additional preservation conditions contained in Section 21.210.040(D) of this chapter.

8. A description of proposed additional mitigation consistent with Sections 21.210.040(C) and (E) of this chapter.

9. Any other information, data or analysis deemed necessary by the City Planner.

D. Notices and Hearings.

1. Notice of an application for a minor HMP permit shall be given pursuant to the provisions of Sections 21.54.060.B and 21.54.061 of this title.

2. Notice of an application for a HMP permit shall be given pursuant to the provisions of Sections 21.54.060.A and 21.54.061 of this title.

E. Decision-Making Authority.

1. Applications for minor HMP permits and HMP permits shall be acted upon in accordance with the following:

a. Minor HMP Permit.

i. An application for a minor HMP permit may be approved, conditionally approved or denied by the City Planner based upon his/her review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the administrative hearing, if one is conducted pursuant to the provisions of Section 21.54.060.B.2 of this title.

ii. The City Planner may approve or conditionally approve the minor HMP permit if all of the findings of fact in subsection F of this section are found to exist.

b. HMP Permit.

i. An application for a HMP permit may be approved, conditionally approved or denied by the Planning Commission or City Council, as specified in Section 21.54.042 of this title.

ii. The decision on a HMP permit shall be based upon the decision-making authority's review of the facts as set forth in the application, of the circumstances of the particular case, and evidence presented at the public hearing.

iii. The decision-making authority shall hear the matter, and may approve or conditionally approve the HMP permit if all of the findings of fact in subsection F of this section are found to exist.

F. Required Findings.

1. No minor HMP permit or HMP permit shall be approved unless the decision-making authority finds that:

a. The development project complies with the purpose and intent provisions of Section 21.210.010 of this chapter.

b. The proposed development is in compliance with all provisions of the Carlsbad habitat management plan (HMP), the implementing agreement, the multiple habitat conservation plan (MHCP), the natural community conservation plan (NCCP) and 10(a)1(B) permit conditions, the preservation requirements set forth in Section 21.210.040 of this chapter

and the management requirements set forth in Section 21.210.050 of this chapter.

- c. The project design as approved by the city has avoided and minimized impacts to habitat and covered species to the maximum extent feasible.
  - d. If applicable, the take of covered species is consistent with the citywide incidental take permit issued for the HMP, will be incidental to otherwise lawful activities related to construction and operation of the project and will not appreciably reduce the likelihood of survival and recovery of the species.
- G. Announcement of Decision and Findings of Fact. When a decision on a minor HMP permit or HMP permit is made pursuant to this chapter, the decision-making authority shall announce its decision in writing in accordance with the provisions of Section 21.54.120 of this title.
- H. Effective Date and Appeals. Decisions on minor HMP permits and HMP permits shall become effective unless appealed in accordance with the applicable provisions of Sections 21.54.140 and 21.54.150 of this title.
- I. Expiration, Extensions and Amendments.
1. The expiration period for an approved minor HMP permit or HMP permit shall be as specified in Section 21.58.030 of this title.
  2. The expiration period for an approved minor HMP permit or HMP permit may be extended pursuant to Section 21.58.040 of this title.
  3. An approved minor HMP permit or HMP permit may be amended pursuant to the provisions of Section 21.54.125 of this title.

(Ord. NS-783 § 1, 2006; Ord. CS-164 § 10, 2011; Ord. CS-178 § CXXXII, 2012)

#### **§ 21.210.075. Incidental take permit.**

If a development project impacts a HMP covered species and an incidental take permit is required under the authority of the citywide incidental take permit issued for the HMP, the City Planner shall have the authority to issue the take permit as long as a minor HMP permit or HMP permit has been approved for the project.

(Ord. CS-178 § CXXXIII, 2012)

#### **§ 21.210.080. Habitat management plan amendment.**

Certain HMP implementation actions will require an amendment to the HMP as follows:

A. Minor Amendments.

1. Equivalency Findings. Minor changes to the boundary of proposed hardline preserve areas or other HMP maps which do not reduce the acreage or quality of habitat are considered minor amendments to the HMP and can be approved by the city with equivalency findings. The city shall provide written notice of the equivalency findings to the wildlife agencies, and unless the agencies object within thirty days of notification, the change will be considered automatically approved. If objections are raised, the city will meet with the agencies to resolve the objection and written approval of the change from the agencies will be required.
2. Consistency Findings. The conversion of standards areas to hardline preserve areas and the

processing of certain city projects not shown as hardline preserve areas in the HMP are considered minor amendments to the HMP and can be approved by the city with consistency findings as follows:

- a. Conversion of Standards Areas to Hardline Preserve Areas. If the City Planner determines that the new hardline preserve area boundary conforms to the standards contained in Section D.3(C) of the HMP, the planner shall consult with the wildlife agencies as part of the environmental review process for the development project. If objections to the new preserve area boundaries are not received during the public review period for the environmental review process from the wildlife agencies, consistency findings shall be prepared and adopted as part of the normal development permitting process for the project.
  - b. City Projects. For city projects not proposed as hardline preserve areas and not requiring any discretionary review and permitting process, the city shall review the project for compliance with the standards contained in Section 21.210.040 of this chapter. If the city project complies, it shall be determined to be consistent with the HMP and the City Planner shall make consistency findings.
3. Other Minor Amendments.
- a. Minor amendments may also be considered for the following cases:
    - i. The total impact to habitat is less than one acre, the habitat is not occupied by a covered species, does not impact a narrow endemic species or a wetland and the habitat mitigation in-lieu fee is assessed pursuant to Section 21.210.040(E) of this chapter;
    - ii. The development project is an essential public works project resulting in a public facility or infrastructure that benefits the community at large and strict adherence to the requirements would render the project completely infeasible;
    - iii. Strict application of the requirements of this chapter would result in development of less than twenty-five percent of the property. Development shall occur on the least biologically sensitive portion of the property;
    - iv. The alternate design results in a biologically superior development.
  - b. Process for Minor Amendments for These Cases. A request for a minor amendment shall be processed concurrently with any other permit required for the development project. Supporting data and information shall be submitted by the applicant for the minor amendment which clearly demonstrates that the project design, siting and size are the minimum necessary to make the project feasible or provide an economically viable use of the property. The City Planner shall consult with and obtain approval from the wildlife agencies in reviewing a request for a minor amendment. The minor amendment shall require the approval or conditional approval of the Planning Commission or City Council based on whichever authority is the final decision-maker on the concurrent permit(s) [Note: Such projects may require a major amendment (described below) depending upon the nature of the impact and conflict with the HMP, IA, MHCP, and NCCP and 10(a)1(B) permits].
  - c. Required Findings. No minor amendment request shall be approved unless the decision-making body finds that:

- i. If applicable, the project is an essential public works project that will service the community at large;
  - ii. The proposed project and all project alternatives have been analyzed in an appropriate environmental (CEQA) document;
  - iii. The impacts to habitat have been minimized to the maximum extent practicable;
  - iv. The project has mitigated its impacts to the maximum extent practicable; and
  - v. The project does not reduce the ability to meet the specific habitat conservation obligations of the HMP, IA, MHCP, and NCCP and 10(a)(B) permits.
- B. Major Amendments. Removal of lands from conserved areas, or reconfiguration of hardline areas resulting in a decrease of acreage, quality of habitat, or function of the conserved area shall constitute a major amendment to the HMP. Additions to the covered species list shall also require a major amendment to the plan. Major amendments shall require public, environmental review (CEQA and NEPA) and will be subject to the following amendment process:
1. The city will initiate a pre-amendment review with the wildlife agencies. In this review, the city will present a report that identifies the change or the affected species. The purpose of the review meeting will be to determine whether adequate information is available to consider approval of the change.
  2. Within ninety days of the review meeting, the wildlife agencies will notify the city that they have sufficient information to act on the proposed change; have specific items of additional information necessary to properly evaluate the proposed changes; or have determined that additional data collection and analysis is necessary for adequate evaluation of the impacts of the proposed change.
  3. Where specific items of additional information are requested, the city will provide the information to the extent it is reasonably available within ninety days. Where additional data collection and analysis are requested, the agencies will provide a detailed explanation of what is required and the purpose of the data and analysis.
  4. Once the additional information is received, the agencies shall notify the city within thirty days whether the change is approved. If approved, the change shall constitute an amendment of the plan which shall then be presented to the City Council for approval and adoption.

(Ord. NS-783 § 1, 2006; Ord. CS-164 § 10, 2011)

#### **§ 21.210.090. Guidelines.**

From time to time, the City Planner may, upon review by the City Attorney, prepare guidelines to assist in the implementation of this chapter or the HMP, including, but not limited to, wetland preservation and mitigation. The City Planner shall have the authority to approve and publish any guidelines.

(Ord. NS-783 § 1, 2006; Ord. CS-164 § 10, 2011)

#### **§ 21.210.100. Enforcement measures—Violations and remedies.**

- A. Whenever the City Planner determines that a violation of this chapter has occurred or an individual has impacted habitat without the benefit of an HMP permit, the following enforcement measures and remedies may be undertaken by the City Planner, in lieu of or in addition to any remedial actions undertaken in accordance with Section 15.16.140 of the municipal code.

1. Stop Work Notice. The City Planner shall issue a stop work order demanding that all activities in violation of this chapter be stopped until a valid HMP permit is obtained and corrective action is authorized by the City Planner.
2. Corrective Action. The City Planner, in consultation with the wildlife agencies, shall determine the extent of corrective action necessary to cure the violation. Corrective action may include a higher mitigation ratio than specified in Table 11 of Section D.6 of the HMP.
3. Owner-Notification. The owner of the property shall be notified in writing that a violation has occurred. The notification shall specify the location, nature and extent of the activity or condition which contributed to the violation, the corrective action needed to cure the violation and the period of time deemed necessary by the City Planner to correct the violation. The appeal process contained in Section 21.51.140 of this code shall apply to the City Planner's determination.
4. Record Notice of Violation. In the event that the owner does not correct the violation in the manner or within the time period requested by the City Planner, the City Planner shall record a notice of HMP violation against the property with the County Recorder. Upon completion of any corrective action and/or issuance of a valid HMP permit and upon payment of the investigation fee required pursuant to this section, the City Planner shall file a notice of release of HMP violation with the County Recorder releasing the property from the notice of violation.
5. Prohibition of Development Permits. Any property which has a notice of HMP violation recorded against it shall be prohibited from obtaining or using any development permit pursuant to Titles 18, 20 and 21 of this code until after all corrective actions are taken in accordance with the requirements of the City Planner and, a notice of release of violation has been recorded with the County Recorder.
6. Investigation Fee. An investigation fee established by City Council resolution shall be paid by the person responsible for the violation in accordance with the provisions of this chapter. The payment of such investigation fee shall not relieve any person from the performance of the corrective work or otherwise complying with the requirements of this chapter.
7. Criminal Penalties. Each person, firm or corporation who commences or does any activity contrary to the provisions of this chapter, or otherwise violates the provisions of this chapter, is guilty of an infraction. Every day during any portion of which any violation of any provisions of this title is committed, continued or permitted by such person, firm or corporation, shall be deemed a separate violation and shall be punishable as provided in this title and in Section 1.08.010(B) of this code.
8. Abatement of Public Nuisance. Any activity commenced or done contrary to the provisions of this chapter, or other violation of this chapter, shall be, and the same is declared to be, a public nuisance. Upon order of the City Council, the City Attorney shall commence necessary proceedings for the abatement of any such public nuisance in the manner provided by law. Any failure, refusal, or neglect to obtain a permit as required by this chapter shall be prima facie evidence of the fact that a public nuisance has been committed in connection with any activity commenced or done contrary to the provisions of this chapter.
9. Civil Action. The City Attorney may, at the request of the City Planner, initiate any appropriate civil action in a court of competent jurisdiction to enforce the stop work notice, including the required corrective actions, including the recovery of any funds expended by the city to abate any public nuisance resulting from an unlawful act as defined in Section 15.16.170 of the

municipal code and any additional civil penalties provided for by law.  
(Ord. NS-783 § 1, 2006; Ord. CS-164 § 10, 2011)

## CHAPTER 22.02 GENERAL REGULATION AND ADMINISTRATION

### **§ 22.02.010. Short title.**

This title shall be known as the "Historic Preservation Ordinance."  
(Ord. 9776 § 1, 1985; Ord. NS-433 § 2, 1997; Ord. CS-438 § 3, 2022)

### **§ 22.02.020. Purpose and intent.**

It is the intent and purpose of this title to:

- A. Provide a means to promote, preserve, protect, and enhance historic properties that represent or reflect elements of the city's cultural, social, economic, political and architectural history;
- B. Safeguard the city's historic heritage by encouraging preservation of its historic properties;
- C. Promote the use of historic resources, historic landmarks, and historic districts for the education, pleasure, and welfare of the people of the city; and
- D. Provide preservation benefits or incentives to property owners who voluntarily wish to preserve any structures, buildings, sites, artifacts, or landscape features, or portions thereof with historic authenticity, integrity, value, and/or importance.

(Ord. 9776 § 1, 1985; Ord. NS-433 § 2, 1997; Ord. CS-438 § 3, 2022)

### **§ 22.02.030. Boundaries and areas of application.**

This title shall apply to all historic resources, publicly and privately owned, within the corporate limits of the city.

(Ord. 9776 § 1, 1985; Ord. NS-433 § 2, 1997; Ord. CS-438 § 3, 2022)

### **§ 22.02.040. Definitions.**

For the purpose of this title, the following words and phrases shall have the following meanings:

"Alteration" means any change or modification, through public or private action, of any nominated historic resource, historic resource, or of any property located within a historic district, including, but not limited to, exterior changes to or modifications of, a structure or any of its architectural details or visual characteristics, including doors, windows, paint color, surface materials and texture, grading, surface paving, addition of new structures, cutting or removal of trees and other natural features, disturbances of archeological sites or areas, and the placement or removal of any objects such as signs, plaques, light fixtures, street furniture, walls, fences, steps, plantings, and landscape accessories affecting the historic qualities of the property.

"Character-defining feature" means all those visual aspects and physical features that comprise the historical appearance and significance of the property including overall building shape; architectural elements embodying style; design; craftsmanship; decorative details; proportions; general arrangement and components of all surfaces including the kind, color or texture of the building materials and the type and style of all windows, doors, lights, signs and other fixtures appurtenant to the building and/or property; and includes interior visual aspects and physical features that are specifically stated as included in the property's historic designation.

"Commission" means the Historic Preservation Commission.

"Contributing resource" means a building, structure, site, artifact, or landscape feature, or portion thereof, which by location, design, setting, materials, workmanship, feeling, or association adds to the sense of authenticity, integrity, value, and/or importance of an historical district.

"Demolition" means the dismantling, razing, wrecking, or destruction in whole or in part of an improvement.

"Director" means the Community Development Director, or designee.

"Historic district" means a geographic area which possesses a significant concentration, linkage, or continuity of improvements united historically, culturally, or architecturally by plan, history, or physical development and which has been designated a historic district pursuant to the provisions of this title.

"Historic landmark" means any historic resource which meets the designation criteria for a historic landmark and has been designated a historic landmark pursuant to the provisions of this title.

"Historical property contract" means a contract between the city and the owner of a qualified historical property, which meets the requirements of California Government Code Sections 50280-50290 and the applicable provisions of this title. The terms "historical property contract" and "Mills Act contract" are used interchangeably throughout this title.

"Historic resource" means an improvement which has been determined to meet the eligibility criteria for historic resources and has been designated a historic resource by the City Council pursuant to the provisions of this title. Historic resources include local historic landmarks, contributing resources to a historic district, and qualified historical properties.

"Improvement" means any building, structure, site, artifact, or landscape feature, or portion thereof constituting a physical betterment of real property, or any part thereof.

"Mills Act" means the historic preservation incentive codified in California Government Code Sections 50280-50290 and California Revenue and Taxation Code Sections 439-439.4, as it exists now or as it may be amended.

"Nominated historic resource" means a resource nominated for placement in the City of Carlsbad Historic Resource Register as provided for in this title.

"Non-contributing resource" means all resources of a City of Carlsbad historic district that are not designated as contributing resources.

"Ordinary maintenance and repair" means construction, work or modification of real property, for which a building permit is not required by this code, and where the purpose and effect of such construction, work or modification is to correct deterioration or damage to a building, structure, site, artifact or landscape feature, or portion thereof and to restore the same, as nearly as may be practicable, to its condition prior to the occurrence of such change, deterioration, damage, destruction, or adverse effect.

"Preservation" means the act or process of applying measures to sustain the existing form, integrity, or materials of a historic resource. It may include stabilization work, as well as ordinary maintenance and repair.

"Professional qualification standards" means the United States Secretary of the Interior's Professional Qualification Standards which include the minimum education and experience required in several disciplines to perform identification, evaluation, registration, and treatment activities for archaeological and historic properties, as provided by Part 61 of Title 36 of the Code of Federal Regulations.

"Qualified historical property" shall have the same meaning as defined in Government Code Section 50280.1 as it now exists or as it may be amended.

"Reconstruction" means the act or process of reproduction through construction of the exact form and detail of a vanished building, structure, site, artifact, or landscape feature, or portion thereof, for the purpose of replicating its appearance as it appeared at a specified period of time.

"Register" means the City of Carlsbad Historic Resource Register. The local register is an inventory of improvements designated by the City Council as historic resources.

"Rehabilitation" means the act or process of returning a property to a state of utility through repair or alteration which makes possible an efficient contemporary use while preserving those portions or character-defining features of the property which are significant to its historical, cultural or architectural authenticity, integrity, value, and/or importance.

"Restoration" means the act or process of accurately depicting the form, features, and character of a property as it appeared at a particular period of time by means of the removal of features from other periods in its history and reconstruction of missing features from the restoration period.

"Secretary of the Interior's Standards" means the United States Secretary of the Interior's Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring & Reconstructing Historic Buildings. The Standards for the Treatment of Historic Properties are codified at Part 68 of Title 36 of the Code of Federal Regulations, as it exists now or as it may be amended.

(Ord. 9776 § 1, 1985; Ord. 9835 § 1, 1987; Ord. NS-141 § 1, 1991; Ord. NS-433 § 2, 1997; Ord. CS-438 § 3, 2022)

**CHAPTER 22.06  
HISTORIC RESOURCES, HISTORIC LANDMARKS AND HISTORIC DISTRICTS**

**§ 22.06.010. Establishment of City of Carlsbad historic resource register.**

Resolutions adopting designations of historic resources and historic districts shall collectively be known as the City of Carlsbad Historic Resource Register. The list of historic resources in the local register will be kept on file with the City Clerk's office.

(Ord. 9776 § 1, 1985; Ord. NS-141 § 4, 1991; Ord. NS-433 § 3, 1997; Ord. CS-438 § 4, 2022)

**§ 22.06.020. Historic resource and historic landmark designation criteria.**

A. Any improvement may be designated as a historic resource if, upon recommendation of the Commission, it is found by the City Council to meet the following criteria:

1. The property owner consents to the proposed designation;
2. The Improvement must be at least 50 years old, or have achieved significance within the past 50 years, and exhibit one or more of the following attributes:
  - a. It is associated with events that have made a significant contribution to the broad patterns of local or regional history, or the historic, cultural or architectural heritage of California or the United States; or
  - b. It is associated with the lives of persons important to local, California, or United States history; or
  - c. It embodies distinctive characteristics of a region, style, type, period or method of construction, or is representative of a notable work of an acclaimed builder, engineer, designer or architect that embodies significant structural, engineering, or architectural achievement; or
  - d. It has yielded or has the potential of yielding information important to the prehistory or history of the local area, California or the United States.

For any improvement less than 50 years old, "achieved significance" means it is of enduring importance within the appropriate historical cultural or architectural context and it can be demonstrated that sufficient time has passed to understand its authenticity, integrity, value, and/or importance.

3. The improvement retains enough of its historic, cultural or architectural character or appearance to be recognizable as a historic resource and to convey the reasons for its significance.
- B. Designation of a Historic Landmark. The Commission may recommend to City Council that a historic resource also be recognized as a historic landmark. The purpose of identifying a historic resource as historical landmark is to provide distinctive recognition of improvements that have outstanding character or historical, cultural or architectural interest or importance as part of the city's cultural, social, economic, political and architectural history.

(Ord. 9776 § 1, 1985; Ord. NS-141 § 5, 1991; Ord. NS-433 § 3, 1997; Ord. CS-438 § 4, 2022)

**§ 22.06.030. Historic district designation criteria.**

- A. Any finite and contiguous grouping of improvements that relate to one another may be designated as a historic district if, upon recommendation by the Commission, it is found by the City Council to

meet the following criteria:

1. Its designation is consented to by all property owners within the proposed historic district;
  2. It is a geographically definable area with a concentration of contributing resources linked historically, culturally, or architecturally through location, design, setting, materials, workmanship, feeling and/or association, in which the collective value of the improvements may be greater than the value of each individual improvement; and
  3. At least 50% of the contributing resources within the proposed historic district are already designated as historic resources, or otherwise determined by the Commission and City Council to be eligible for placement in the local register.
- B. Contributing resources share a time period in which most of the original construction occurred or there is some other shared historical, cultural or architectural period of context or significance.
- C. The City Council may, by resolution or council policy, establish additional criteria for the historic identification, protection, retention, and preservation of a district; designation thereof; and for reviewing proposed work on contributing resources and non-contributing resources within the district.

(Ord. 9776 § 1, 1985; Ord. 9835 § 2, 1987; Ord. NS-433 § 3, 1997; Ord. CS-438 § 4, 2022)

#### **§ 22.06.040. Historic resource and historic landmark designation procedures.**

Historic resources, including historic landmarks, shall be designated by the City Council in the following manner:

- A. A property owner may request an improvement be designated as a historic resource by submitting a written request for such designation to the Commission.
- B. Any such request shall be filed with the planning division upon prescribed forms and shall include the following information:
  1. Name and address of property owner(s) and assessor's parcel number and address of site;
  2. Description of the proposed historic resource, including special aesthetic, cultural, architectural, or engineering interest or value of a historic nature, including information about the architecture, notable features, construction, and other information indicating the historic significance of the proposed historic resource;
  3. Sketches, photographs, or drawings (old and/or recent) depicting the improvement as part of the city's cultural, social, economic, political and architectural history;
  4. Statement of condition of improvements;
  5. Explanation of any known threats to the improvements on the site;
  6. Additional information:
    - a. Site plan in appropriate scale;
    - b. Legal description of the property;
    - c. Photographs, old and recent;

- d. Proposed use;
  - e. Existing zoning;
  - f. Bibliography and references, and other print materials regarding the historical significance of the proposed historic resource;
  - g. Chain of title, if available.
7. An application fee may be required if so specified in the City of Carlsbad Master Fee Schedule.
  8. Other information requested by the planning division.
- C. Within 90 calendar days of receipt of a completed application, the Commission shall hold a public hearing to review the application to designate a historic resource.
- D. Notice of the public hearing shall be given as provided in Section 21.54.060(A)(2) of this code. In addition, notice of the date, place, time and purpose of the hearing shall be mailed, return receipt requested, to the owner of the nominated historic resource as shown on the last equalized assessment roll at least 14 days prior to the date of the public hearing. Failure to send notice by mail to any property owner when the address of such owner is not on the latest equalized assessment roll shall not invalidate any proceedings in connection with the proposed designation.
- E. An application to designate any improvement that is already listed in the National Register of Historic Places or the California Register of Historic Places shall be presented directly to the City Council. A public hearing by the Commission is not required.
- F. Upon receipt of an application for historic designation, the Director shall notify the building official of the pending application. For a period of 90 calendar days beginning upon the date the notice of hearing is deposited in the mail, the property owner and/or any authorized representative of the property for which a historic designation application is pending shall be prohibited from undertaking any alteration, construction, grading, demolition or removal of the nominated historic resource, except ordinary repair and maintenance, and no permit to undertake such work shall be issued by the city.

If no final action has been taken as to the historic resource designation within the 90-day period, these restrictions shall expire unless the Commission, with the consent of the property owner and/or any authorized representative, elects to continue its consideration of the property for historic resource designation. If the Commission, with the consent of the owner and/or any authorized representative, makes such an election, said restrictions shall remain against the property until final action and the Director shall notify the appropriate city officials of said restrictions. Nothing in this provision shall be construed as a prohibition or infringement on the legal use of a property pending consideration by the Commission.

The provisions of this section shall not apply to the construction, grading, alteration, demolition or removal of any structure or other feature, where a permit for the performance of such work was issued prior to the date that the property owner filed the historic resource designation application with the city, and where such permit has not expired or been canceled or revoked, provided that construction is started and diligently pursued to completion in accordance with this code.

- G. After the public hearing, the Commission shall by resolution make a report and recommendation to the City Council. If the Commission determines that the improvement does not meet historic resource criteria, the process shall terminate and the Commission shall notify the applicant of such termination

in writing within 10 days of the Commission's determination. If the Commission determines that the resource warrants historic resource designation and the property owner has consented to same in writing, then the Commission shall submit a written recommendation to the City Council incorporating its reasons in support of the proposed designation. A site shall not be designated a historic resource without the property owner's consent.

- H. The City Council shall hold a public hearing on the proposed historic resource designation within 60 calendar days of the receipt of the recommendation from the Commission.
- I. At the conclusion of the public hearing on the proposed designation, the City Council shall, by resolution, designate or conditionally designate, or disapprove the designation of the historic resource. The City Council may also designate a historic resource as a historic landmark, as provided in Section 22.06.020(B). Written notice of the City Council action shall be mailed to the property owner.
- J. The resolution designating a historic resource shall be recorded with the County Recorder in accordance with Public Resources Code Section 5029 and Government Code Section 27288.2. A property approved for listing in the local register shall not be considered designated until the City Clerk has submitted the resolution to the county and the county has recorded the designation. Property owner(s) shall be responsible for any fees required to record a historic designation.

(Ord. 9776 § 1, 1985; Ord. NS-433 § 3, 1997; Ord. CS-438 § 4, 2022)

#### **§ 22.06.050. Historic district designation procedures.**

Historic districts shall be established by the City Council in the following manner:

- A. The procedures for designating a historic district shall be the same as for designating a historic resource, except as otherwise provided in this section.
- B. A property owner within a proposed historic district may submit an application for designation of a historic district. Such application shall be made in writing, filed with the planning division upon the prescribed form and shall include the following data:
  1. Boundaries of the proposed district and a list of names and addresses of property owners, assessor's parcel numbers and addresses of properties within the boundaries;
  2. Description of the proposed historic district, including special aesthetic, cultural, architectural, or engineering interest or value of a historic nature, and a listing of all parcels of land within the boundaries of the proposed district, labeled as a potential contributing resource or non-contributing resource.
  3. Signatures of all property owners within the proposed historic district consenting to the historic district.
  4. Bibliography and references, and other print materials regarding the historical significance of the proposed historic district;
  5. Sketches, photographs or drawings (old and/or recent) depicting the proposed district, or parts thereof, as part of the city's cultural, social, economic, political and architectural history;
  6. Statement of condition of improvements within the proposed district;
  7. Explanation of any known threats to any improvements within the proposed district;

8. An application fee may be required if so specified in the City of Carlsbad Master Fee Schedule.
  9. Other information requested by the planning division.
- C. An application is incomplete and no public hearing shall be scheduled before the Commission until the written consent of all of the owners of property within the proposed historic district has been obtained.
- D. If the Commission determines that the area warrants historic district designation, it shall submit a written recommendation to the City Council incorporating its reasons in support of the proposed historic district designation. Such recommendation shall include a report containing the following information:
1. A map showing the proposed boundaries of the historic district identifying all contributing resources and non-contributing resources within the boundaries;
  2. An explanation of the significance of the proposed district and description of the historical, cultural or architectural resources within the proposed boundaries;
  3. Recommendations as to appropriate permitted uses, special uses, height and area regulations, minimum dwelling size, floor area, sign regulations, parking regulations, and any other modification to existing development standards necessary or appropriate to the preservation of the proposed historic district. Any recommendations related to zoning may require an amendment to Title 21 and application pursuant to Chapter 21.52 of this code.
- E. If the historic district application is approved by the City Council, all contributing resources within the district shall be designated as a historic resource. The resolution designating the historic resource(s) shall be recorded with the County Recorder in accordance with Public Resources Code Section 5029 and Government Code Section 27288.2. A property approved for listing in the local register shall not be considered designated until the City Clerk has submitted the resolution to the county and the county has recorded the designation. Property owner(s) shall be responsible for any fees required to record a historic designation.

(Ord. CS-438 § 4, 2022)

#### **§ 22.06.060. Historic resource and historic district de-designation procedures.**

The procedure for de-designation of a historic resource or historic district from the local register shall be as follows:

1. Owners of property with a recorded Mills Act contract who voluntarily seek to be deleted from the local register, shall first follow the procedures and requirements for Mills Act contract cancellations, provided in Chapter 22.10 of this code.
2. Owners of property without a recorded Mills Act contract may request de-designation from the register, or deletion or modification of a historic district within which their property is located, by submitting an application to the Director. A fee, as set forth in the City of Carlsbad Master Fee Schedule, shall accompany each application for de-designation. The fee shall be in an amount reasonably calculated to reimburse the city for its reasonable and necessary costs in receiving, processing and reviewing de-designation applications, including preparation of a historic resource assessment.
3. A historic resource assessment to provide evidence for the de-designation may be requested by the Director as part of the application and will be paid for by the applicant.

4. The Commission shall consider the de-designation application and historic resource assessment at a public hearing, which shall be noticed in the same manner as public hearings under Section 22.06.040 of this chapter. After the public hearing, the Commission shall by resolution make a report and recommendation to the City Council. Within 60 calendar days of the Commission's recommendation, the City Council shall hold a public hearing to consider the de-designation application. The City Council's action shall state the reasons for the de-designation by resolution.

As needed, the Director shall propose and process for de-designation from the local register those historic resources and historic districts which have been changed, deteriorated, damaged, destroyed or adversely affected to such an extent that, in the Director's opinion, they no longer qualify for placement on the local register. Requests for de-designation by the Director shall follow the procedures provided in this section. No fee shall be required.

(Ord. CS-438 § 4, 2022)

**CHAPTER 22.08  
PERMITS AND PERMIT PROCEDURES**

**§ 22.08.010. Permits to work on a historic resource.**

- A. It is unlawful for any person to alter, tear down, demolish, construct, remove, or relocate any nominated historic resource, historic resource, or any property located within a historic district without first obtaining a permit from the city as provided by this chapter. An application fee may be required if so specified in the city's master fee schedule.
- B. Exceptions.
  1. Ordinary maintenance and repair. No permit shall be necessary for ordinary maintenance and repair.
  2. Public health and safety. No permit shall be necessary for work on an improvement when the city's building division certifies that such action is required for the public safety due to an unsafe or dangerous condition which cannot be rectified using the California Historical Building Code.
  3. Economic hardship. The owner of a historic resource may request to be exempted from the permit requirement and carry out work that may adversely affect the authenticity, integrity, value and/or importance of the historic resource on the basis of extreme financial hardship or adversity. Such request shall be submitted by the property owner and considered by the Commission (and City Council if appealed) in the same manner as an application described in Section 22.08.020. The Director may require the owner to furnish material evidence supporting the request for exemption.
- C. The permit required by this chapter shall be in addition to any other permit required for a proposed project.

(Ord. 9776 § 1, 1985; Ord. NS-433 § 4, 1997; Ord. CS-438 § 5, 2022)

**§ 22.08.020. Permit procedure.**

The permit procedure to alter, tear down, demolish, construct, remove, or relocate any portion of a nominated historic resource, historic resource, or any property located within a historic district is as follows:

- A. An application for a permit to do work at a historic resource or any property within a historic district shall be submitted to the development processing division on forms designated by the City Planner.
- B. If the application is for work on a historic resource subject to a historical property contract between the city and the property owner(s), then the City Planner shall review the application to ensure that the proposed alteration, demolition, reconstruction, rehabilitation or restorative work is consistent with the terms of the historical property contract, the Secretary of the Interior's Standards and any local design guidelines or standards adopted for the historic district, if applicable. If the City Planner determines that the application is consistent with those criteria, the application may be approved and a permit may be issued administratively. If the proposed alteration, demolition, reconstruction, rehabilitation or restorative work was not listed in the historical property contract approved by City Council, or is determined to be inconsistent with the Secretary of the Interior's Standards or local design guidelines or standards, then the application shall be processed pursuant to subsection C of this section.

- C. If the historic resource is not subject to a historical property contract between the city and property owner(s), the City Planner shall review the application and provide a recommendation to the Commission. Within 60 calendar days from the receipt of such complete application, the Commission shall hold a public hearing to review the application and consider the City Planner's recommendation. Notice of the public hearing shall be given as provided in Section 21.54.060(B) of this code. At the conclusion of the public hearing on the permit application, the Commission shall, by resolution, issue or deny, in whole or in part, any permit application.
- D. The decision of the Commission may be appealed to the City Council by filing an appeal with the City Clerk's office within 10 calendar days of the date of the Commission's decision. If an appeal is filed, the City Council shall hold a public hearing on the application within 30 days of receipt of the appeal. Notice of the public hearing shall be given as provided in Section 21.54.060(B) of this code.  
(Ord. 9776 § 1, 1985; Ord. NS-433 § 4, 1997; Ord. NS-676 § 15, 2003; Ord. CS-164 § 10, 2011; Ord. CS-438 § 5, 2022)

#### **§ 22.08.030. Permit criteria.**

A permit for the proposed work shall be issued if, and only if, the decision-maker determines:

- A. That the proposed work would comply with the Secretary of the Interior's Standards and not detrimentally deteriorate, damage, destroy, or adversely affect the authenticity, integrity, value, and/or importance of the historic resource;
- B. That the proposed exterior work will be compatible with the external appearance of existing improvements on the property or within the historic district, if applicable; and
- C. That the proposed work is consistent with the purpose and intent of this chapter.  
(Ord. 9776 § 1, 1985; Ord. NS-433 § 4, 1997; Ord. CS-438 § 5, 2022)

#### **§ 22.08.040. Duty to keep in good repair.**

The owner, occupant or other person legally responsible for a nominated historic resource, historic resource, or any property located within a historic district shall keep in good repair all portions of such historic resource or property within a historic district, including all interior portions and appurtenances thereof whose maintenance is necessary to prevent change, deterioration, damage, destruction, or adverse effect to the authenticity, integrity, value, and/or importance of the resource.  
(Ord. 9776 § 1, 1985; Ord. NS-433 § 4, 1997; Ord. CS-438 § 5, 2022)

#### **§ 22.08.050. Existing improvements.**

All maintenance and repairs, alterations, reconstructions, restorations, preservations, or rehabilitations of existing improvements shall conform with the historical property contract, and to the guidelines and requirements of the Secretary of Interior's Standards, the California Department of Parks and Recreation Office of Historic Preservation and the State Historical Building Code, as applicable.  
(Ord. 9776 § 1, 1985; Ord. NS-433 § 4, 1997; Ord. CS-438 § 5, 2022)

#### **§ 22.08.060. Enforcement and penalties.**

Any person who violates any of the provisions of this title, including by failing to comply with a condition of approval of any permit or preservation benefit or incentive issued under this title, is guilty of an infraction punishable as provided in Section 1.08.010 of this code, or in the alternative by the administrative code enforcement remedies of Chapter 1.10 of Title 1 of this code.

City of Carlsbad, CA

§ 22.08.060

CARLSBAD CODE

§ 22.08.060

(Ord. CS-438 § 5, 2022)

## CHAPTER 22.10 PRESERVATION BENEFITS AND INCENTIVES

### **§ 22.10.020. Historical property contracts.**

- A. Owners of qualified historical properties improved with at least one building may receive a potential reduction in property taxes through a historical property contract (Mills Act contract), pursuant to California Government Code Section 50280 et seq. and California Revenue and Taxation Code Section 439 et seq., collectively "the Mills Act." The purpose of this section is to implement the Mills Act in order to establish a voluntary process to enter into contract with owners of qualified historical properties that have previously been designated as a historic resource for property tax relief and for the preservation of those historic resources.
- B. Individual properties that are not a qualified historical property at the time of application for a Mills Act contract may submit an application for the property to be listed in the register simultaneously with the application for a Mills Act contract. The applications will be processed concurrently.
- C. Applications. Mills Act contract applications may be submitted to the planning division on a form provided by the City Planner. All applications shall include:
  1. Documentation of status as a qualified historical property or nominated historic resource;
  2. A detailed 10-year work plan of proposed preservation, restoration and/or repair prepared by, or with the concurrence of, an individual qualified under the applicable professional qualification standards;
  3. A description of the property;
  4. Property owner(s) affidavit and acknowledgement of the Mills Act mandatory provisions;
  5. A completed Mills Act contract notarized and signed by the property owner(s); and
  6. All required fee(s), as set by council resolution.
- D. Procedure. Following receipt of a completed application, the City Planner or designee shall review the application materials and schedule the pre-contract approval inspection of the exterior and interior of the subject property with the property owner(s). The purpose of the inspection is to confirm and photo-document the condition of the property and review the proposed work plan of improvements. Failure of a property owner to allow access to the property for purposes of the property inspection shall be grounds for denial of the application. Once the inspection is conducted and the planning division has completed its review of the application to develop a recommendation, the planning division shall forward its recommendation on the Mills Act contract to the Commission. The Commission shall conduct a public hearing to consider the contract terms, including the 10-year work plan, and make a recommendation to City Council regarding the approval, conditional approval or denial of the Mills Act contract.
- E. Following receipt of the Commission's recommendation, the City Council shall conduct a public hearing and shall either approve, conditionally approve or deny the Mills Act contract. The decision of the City Council shall be final.
- F. No later than 20 calendar days after the city enters a Mills Act contract, the City Clerk shall record with the County Recorder a copy of the contract, which shall describe the property subject thereto. The City Clerk shall notify the property owner(s), the county tax assessor's office and the State Office

of Historic Preservation of the recorded Mills Act contract.

- G. Mills Act contract mandatory provisions. All Mills Act contracts shall meet the requirements of Government Code Section 50280 et seq., as it exists now or as may be amended.
- H. Notice of Nonrenewal. Either party to a Mills Act contract may file a notice of nonrenewal at any time after entering into the contract. The effect of the notice of nonrenewal shall be as prescribed in Government Code Section 50282 and Revenue and Taxation Code Section 439.3.
- I. Cancellation.
  - 1. Cancellation of a Mills Act contract shall be in accordance with the terms of the agreement and Government Code Sections 50284—50286.
  - 2. As an alternative to cancellation of the contract, the city may bring any action in court necessary to enforce the Mills Act contract, including an action to enforce the contract by specific performance or injunction.
  - 3. If the qualified historical property under an active Mills Act contract is destroyed by earthquake, fire, flood, or other natural disaster such that in the opinion of the building official more than 60% of the original fabric of the building or structure must be replaced, the Mills Act contract may be cancelled, in accordance with the cancellation provisions of the Mills Act, because the authenticity, integrity, value and/or importance of the building structure will have been destroyed. If the qualified historical property is acquired in whole or in part by eminent domain or other acquisition by any entity authorized to exercise the power of eminent domain, and the acquisition is determined by the City Council to frustrate the purpose of the Mills Act contract, then the contract may be cancelled in accordance with the cancellation provisions of the Mills Act. No cancellation fee pursuant to Government Code Section 50286 shall be imposed if a Mills Act contract is cancelled pursuant to this subsection.
- J. The City Manager or designee may adopt written administrative regulations that are consistent with and further the requirements of this chapter.
- K. Enforcement. Enforcement of this chapter and Mills Act contracts shall be as allowed by Government Code Sections 50280—50290 and as provided by the terms of the Mills Act contract recorded on the property.

(Ord. CS-438 § 6, 2022)
